EXHIBIT INDEX

99.1 Press Release: NICE Systems Raises Revenue and EPS Guidance for Q2 2006 Dated June 22, 2006

99.2 Press Release: Leading Scandinavian Bank Places Follow-on Order for Mass Implementation of NICE's Next Generation VoIP Solutions Dated June 28, 2006

NICE Systems Raises Revenue and EPS Guidance for Q2 2006

Conference call to discuss quarterly results scheduled for August 2nd, 2006

Ra`anana, Israel, June 22, 2006 - NICE Systems (NASDAQ: NICE), the global provider of advanced solutions that enable organizations to extract Insight from Interactions(TM) to drive performance, today announced that it is raising its second quarter revenue guidance to \$94 - \$98 million, up from the previously announced range of \$89 - \$92 million; and pro-forma EPS per fully diluted share to be 25 - 30 cents, up from 22-24 cents post split (44 - 48 cents pre split).

NICE`s Chief Executive Officer, Haim Shani commented: "We are seeing stronger than originally anticipated market demand for our enterprise interaction and public safety and security solutions. This is driving better-than-expected revenues and bottom line results for the quarter. Given that we are approaching the end of the quarter, we feel comfortable raising our top and bottom line second quarter guidance."

The final results for the second quarter 2006 will be reported in the Company's quarterly earnings release, on Wednesday, August 2nd, 2006. Following the earnings release, NICE management will host a teleconference at 8:30 ET, 15:30 Israel, to discuss the results and the company's outlook for the rest of the year. Please call the following dial-in numbers to participate in the second quarter 2006 call:

United States +1-866-860-9642
International +972-3-918-0610
Israel +972-3-918-0610

This call will be webcast live on <http://www.nice.com>. An online replay will also be available approximately three hours following the end of the call. A telephone replay of the call will be available for 72 hours after the live broadcast, and may be accessed by dialing:

United States +1-866-276-1485
International +972-3-925-5930
Israel +972-3-925-5930

About NICE

NICE Systems (NASDAQ: NICE) is the leading provider of Insight from Interactions(TM), offering comprehensive performance management and interaction analytics solutions for the enterprise and public safety and security markets. Advanced interaction analytics are performed on unstructured multimedia content - from telephony, web, radio and video communications. NICE brings the power of Insight from Interactions to IP contact centers, branches, and command and control centers. NICE's solutions are changing the way organizations make decisions, enabling them to proactively improve business and operational performance and address security threats. NICE has over 23,000 customers in 100 countries, including over 75 of the Fortune 100 companies. More information is available at www.nice.com.

Leading Scandinavian Bank Places Follow-on Order for Mass Implementation of NICE's Next Generation VoIP Solutions

Received in partnership with IBM, to expand implementation for Nortel's Duplicate Media Stream over IP environment

Ra'anana, Israel, June 27, 2006 - NICE Systems (NASDAQ: NICE), the global provider of advanced solutions that enable organizations to extract Insight from Interactions(TM) to drive performance, today announced that one of Scandinavia's largest banks, has decided to expand its implementation of NICE's VoIP solution for centralizing its recordings from branches all over Europe by placing a follow-on order for additional channels for a total of 1500. Follow-on order received together with NICE's strategic partner, IBM, and channel partner TM Group,

constitutes an enhancement to Nortel's newly released, next generation VoIP environment based on the Duplicate Media Stream over IP (DMS-IP) technology. Total ordered from bank to NICE is at 7-digits.

NICE's next generation active VoIP recording for DMS-IP is fully integrated with Nortel's architecture. This latest development is part of NICE's VoIP strategy to provide the power of Insight from Interactions anywhere, anytime, in any configuration, with the highest levels of scalability and efficiency.

The bank will benefit from NICE's unified approach to VoIP recording, unique redundancy for unmatched resilience, and the most advanced applications for enhanced liability and risk management. The bank will be able to expand these advanced capabilities to all branches and remote locations with high reliability and low total cost of ownership. NICE will enable the bank with enterprise connectivity and mobility to improve overall business performance. The result is increased productivity, seamless business continuity, mission-critical reliability and IT investment protection.

NICE's market leading VoIP recording solutions are an integral part of the company's unified product architecture and suite of solutions. This enables a smooth migration to VoIP that is transparent to the user, providing true investment protection. NICE offers hybrid solutions that cover the entire spectrum of customer interactions management, combining traditional and VoIP, liability and quality monitoring for contact centers, as well as trading floors and back offices of financial institutions. NICE offers software-only VoIP solutions that are certified by the world's leading VoIP switch vendors, addressing small-scale to large, multi-site high-end environments. NICE's market leadership is based on extensive experience in delivering field-proven, mission critical solutions that meet the stringent reliability requirements of multi-site, high-end customers, including the world's top-10 banks, thousands of financial institutions and contact centers, and most of the trading floors in the world.

"We are extremely pleased by this follow-on order by one of Scandinavia's largest financial institutions," said Zvi Baum, NICE President of Enterprise Interactions Solutions. "Our VoIP recording solution developed for the advanced Nortel environment is setting new standards for reliability, ease of administration and low cost of highly distributed call center environments. More and more customers are turning to NICE for their VoIP recording needs, as NICE is the premier choice for large-scale, mission-critical deployments."
