Recent Developments

On November 27, 2012, the Company engaged Legend Securities, Inc. (“Legend”) to act as Placement Agent for an offering of the Company’s securities. In connection with this offering, the Company issued to Legend’s investors approximately 3,166,670 shares of the Company’s common stock for a purchase price of \$.30 per share. For every two shares purchased, investors received a warrant to purchase one share of common stock, exercisable at \$.50 per share through December 15, 2017 (the “Legend Offering”).

In addition to cash compensation, Legend received warrants to purchase 15% of the number of shares sold in the Legend Offering (the “Placement Agent Warrants”) under the same terms offered to investors.

On November 20, 2012, four (4) current stockholders of the Company invested an aggregate of \$301,000 into the Company under the same terms as the Legend Offering. On February 1, 2013, February 28, 2013 and March 14, 2013, three additional persons invested \$60,000, \$160,000 and \$30,000, respectively on the same terms as the Legend Offering.

Between November 20, 2012 and March 11, 2013, the Company has received gross proceeds of \$1,471,000 for use as general working capital with an emphasis on its Proximity Marketing business.

Corporate Developments

On January 28, 2013, the Company announced that the Board of Directors has proposed to change the Company's name to "Applied Marketing Technologies Inc.", subject to the shareholders' approval at the upcoming shareholder meeting.

The Company’s corporate strategy is to position itself as a business and technology development company focusing on advanced integrated marketing platforms, mobile marketing, social networks, and digital media. The proposed new name will better reflect the Company’s evolved mission, diversified operations and commitment to developing innovative marketing technology solutions. The Company also formed two new wholly-owned subsidiaries to go along with its existing subsidiary (Mobiquity Networks, Inc.), each focused on driving new revenue through the commercialization of one or more propriety technologies developed or acquired by the Company.

The first new subsidiary is Ace Marketing, Inc. (“AMI”), an Integrated Marketing Company focused on marketing process analysis and technology-based growth acceleration strategies. AMI offers Brand Analysis & Development, Website Analysis & Development, Database Analysis & Building, and Integrated Marketing Campaigns using: direct mail, email marketing, mobile marketing, promotional products and other mediums that help its clients connect with

their customers and acquire new business. Additionally, AMI will utilize our proprietary back-office business process management platform dubbed “Axxion”. The Company created this platform to ensure efficient business process scalability. Axxion will be the cornerstone of a planned growth strategy focused on acquisition and an aggressive sales team expansion.

The second new subsidiary is Venn Media, created to commercialize a proprietary Web Development Platform (with CMS as defined below) engineered to revolutionize the way websites are developed and maintained. The Venn Media platform drastically reduces the programming and coding required to deliver outstanding functionality, and delivers a Content Management System (“CMS”) that puts the control of content back into the Clients’ hands. More importantly, the Venn CMS allows clients to manage their Branded Merchandise/Company Store, In-House Database, E-mail and SMS Text marketing communication from a single platform. Over 75 projects have already been built and successfully launched on Venn Media’s version one platform. Version two, which is already in development, with advanced social media integration is scheduled to be launched later in fiscal 2013.

The third subsidiary is Mobiquity Networks, a leading provider of hyper-local mobile marketing solutions. Mobiquity is continuing to attempt to build one of the nation's largest Proximity Marketing networks. Proximity Marketing is a location-based marketing tool that delivers rich digital content to any Bluetooth or Wi-Fi enabled device within a 300ft radius of a central terminal. Mobiquity’s technology permits delivery to virtually any mobile device and properly formats each message to ensure that every user receives the best possible experience. Results are fully trackable, giving campaigns full performance accountability. Mobiquity offers brands the opportunity to reach millions of consumers with relevant, engaging content that is 100% free to the end user. The Mobiquity network is the largest mall-based network of its kind. It is currently installed in 75 malls across the US, covering each of the top 10 designated marketing areas “DMA’s”), and has the ability to reach approximately 96 million shopping visits per month.

The Company has been licensing the U.S. rights to its proximity marketing units from FuturLink, SA, a pioneer in the field of location-based mobile marketing and purchasing its inventory directly from FuturLink. These proximity marketing units were developed by FuturLink with innovative platforms utilizing Bluetooth, Wi-Fi, QR (Quick Response codes) and NFC (Near Field Communications) to create, manage and deploy mobile marketing campaigns. On March 7, 2013, the Company acquired the assets of FuturLink in exchange for an undisclosed amount of cash, which cash was paid from the Company’s current working capital. These assets include, without limitation, the FuturLink technology (patents and source codes), trademark(s) and access point (proximity marketing) component parts.

As the technology owner, the Company realized immediate cost savings and will leverage the hardware and software included in its purchase to expand its mall-based footprint in the United States. The acquisition of FuturLink’s technology and corresponding patents provides the Company with vertical integration and provides it with flexibility and autonomy. By owning the technology, the Company has the ability to do the following:

- Increase download speed for both Bluetooth and Wi-Fi,
- Add customer dashboard for real-time reporting of campaign statistics,
- Implementation of a rewards program to increase download loyalty,

Ability to deliver apps directly via Bluetooth and Wi-Fi

Reduce cost of proximity marketing units by approximately 60-70% and

Eliminate the payment of licensing fees to FuturLink of approximately \$175,000 per annum.

It is the Company's intention to continue its established relationship with Blue Bite, to maintain the proximity marketing network and to enhance the FuturLink platform capabilities through the integration of additional mobile solutions.

The acquisition of the assets of FuturLink's assets did not result in the acquisition of a significant subsidiary as defined under Article 1(w) of Regulation S-X.

About This Offering

This offering relates to the resale of up to 5,000,000 shares of our common stock, which are the Put Shares that we will put to TCA pursuant to the Equity Agreement. The 5,000,000 shares included in this prospectus represent a portion of the aggregate shares issuable to the Selling Security Holder under the Equity Agreement. Pursuant to the Equity Agreement:

TCA agreed to purchase from the Company, from time to time, in the Company's discretion (subject to the conditions set forth therein), for a period of twenty-four (24) months, commencing on the effective date of the registration statement filed by the Company for resale of the Shares issuable under the Purchase Agreement, up to \$2,000,000 of the Company's common stock;

Pursuant to a registration rights agreement between the Company and TCA entered into in connection with the Equity Agreement, the Company agreed to file a registration statement with the U.S. Securities and Exchange Commission (the "SEC") for the resale of not less than the maximum number of shares of common stock allowable pursuant to Rule 415 under the Securities Act, of shares of common stock issuable under the Equity Agreement;

The purchase price for the shares of common stock sold under the Equity Agreement will be equal to ninety-five percent (95%) of the lowest daily volume weighted average price of the Company's common stock for the five (5) consecutive trading days (the "Pricing Period") after the Company delivers to TCA an Advance notice in writing (the "Market Price") requiring TCA to Advance funds to the Company, subject to the terms of the Equity Agreement.

The maximum amount of common stock that TCA shall be obligated to purchase with respect to any single Advance under the Equity Agreement will be the greater of: (i) an amount calculated by multiplying the Market Price applicable to the relevant Advance notice by 200,000 shares or (ii) two hundred percent (200%) of the average daily volume of shares of common stock traded during the immediately preceding five (5) consecutive trading days applicable to the relevant Advance notice.

As further consideration for TCA entering into and structuring the equity facility, the Company shall pay to TCA a fee by issuing to TCA that number of shares of the Company's common stock that equal a dollar amount of one hundred thousand dollars (\$100,000) (the "Facility Fee Shares"). It is the intention of the Company and TCA that the value of the Facility Fee Shares shall equal \$100,000. In the event the value of the Facility Fee Shares issued to TCA does not equal \$100,000 after a ninth month evaluation date, the Equity Agreement provides for an adjustment provision allowing for necessary action to adjust the number of shares issued. In February 2013, TCA sold 196,078 shares it received and it received net proceeds of approximately \$48,000. The Company elected to pay the remaining Facility Fee in cash in March 2013.

We relied on an exemption from the registration requirements of the Securities Act. The transaction does not involve a private offering, TCA is an "accredited investor" and/or qualified institutional buyer and TCA has access to information about the Company and its investment.

At an assumed purchase price under the Purchase Agreement of \$0.38 (equal to 95% of the closing price of our common stock of \$0.40 on March 14, 2013), we will be able to receive up to \$1,900,000. in gross proceeds, assuming the sale of the entire 5,000,000 Shares being registered hereunder pursuant to the Equity Agreement. At an assumed purchase price of \$0.40 under the Equity Agreement, we would be required to register approximately 263,158 additional shares to obtain the balance of \$2,000,000 under the Equity Agreement. The Company is currently authorized to issue 100,000,000 shares of its common stock. TCA has agreed, subject to certain exceptions listed in the Equity Agreement, to refrain from holding an amount of shares which would result in TCA or its affiliates from owning more than 9.99% of the then-outstanding shares of the Company's common stock at any one time.

We will bear the expenses of this offering, which we estimate to be approximately \$70,000, including legal expenses of approximately \$45,000, accounting expenses of approximately \$10,000, and miscellaneous expenses, including printer costs and SEC filing fees, of approximately \$15,000.

There are substantial risks to investors as a result of the issuance of shares of our common stock under the Equity Agreement. These risks include dilution of stockholders, significant decline in our stock price and our inability to

draw sufficient funds when needed.

TCA will periodically purchase our common stock under the Equity Agreement and will, in turn, sell such shares to investors in the market at the market price. This may cause our stock price to decline, which will require us to issue increasing numbers of common shares to TCA to raise the same amount of funds, as our stock price declines. Neither the Equity Agreement nor any rights of the parties under the Equity Agreement may be assigned or delegated to any other person.

RISK FACTORS

An investment in the Company's common stock involves a high degree of risk. You should carefully consider the risks described below as well as other information provided to you in this prospectus, including information in the section of this document entitled "Forward Looking Statements." If any of the following risks actually occur, our business, financial condition or results of operations could be materially adversely affected, the value of our common stock could decline, and you may lose all or part of your investment.

Risks Relating to Our Business and Industry

We have a history of operating losses.

Since we went public in 2005, we have experienced a continued history of operating losses. For the years ended December 31, 2012, 2011, and 2010 we incurred a net loss of \$4,134,061, \$2,209,508 and \$1,762,256, respectively. Our operating losses for the past three years are attributable to the general state of the economy, the retooling of our mobile marketing campaign with the purchase of our proximity marketing boxes and substantial non-cash based compensation. We can provide no assurances that our operations will be profitable in the future. During the fiscal years ended December 31, 2012, 2011 and 2010, we have completed equity financings totaling \$1,887,556 \$2,222,727 and \$1,364,800, respectively. We can provide no assurances that we will be able to continue to raise additional financing to supplement our liquidity and capital resource needs on terms satisfactory to us if at all.

THE COMPANY ENTERED INTO A CONVERTIBLE PROMISSORY NOTE WHICH IS SECURED BY ALL THE ASSETS OF THE COMPANY. AN UNCURED DEFAULT UNDER THE NOTE COULD MATERIALLY ADVERSELY AFFECT THE COMPANY'S LIQUIDITY AND CAPITAL RESOURCES.

On June 12, 2012, we entered into a Secured Convertible Promissory Note due December 12, 2013 in the amount of \$350,000 with TCA Global Credit Master Fund L.P., which Note had an effective date of May 31, 2012. This Note is secured by all the assets of the Company. While the Note is outstanding, in the event the Company is in default under any terms of the Note or the other Transaction Agreements, including, without limitation, the Equity Agreement and Registration Rights Agreement described elsewhere herein, TCA could call the Note and refuse to honor the provisions under the Company's Equity Agreement. A default under the Note or other Transaction Documents, which is not cured within any permitted cure period specified in said agreements, could cause the Company to have to immediately retire the TCA Secured Note at a time when it would not be advantageous to the Company and could materially adversely affect the Company's liquidity and capital resources. We can provide no assurances that the Company will be able to meet its obligations under the Note and the other Transaction Documents.

Our proximity marketing business is new, unproven and the establishment of this business may not result in sufficient revenues and profitability to justify the expenditures thereof. Also there are no assurances that we will be able to successfully compete in the proximity marketing business.

In 2008 we became an authorized distributor, provider and reseller in the United States of mobile advertising solutions, in the mobile advertising and proximity marketing industry. As of the date of this Prospectus, we have not generated any significant revenue from this new and unproven segment of our business. A primary business focus of Ace is to attempt to place our proximity marketing units into businesses on a local, regional and potentially on a national scale, and to then generate revenues through advertisers seeking new measurable media channels that can accurately target and engage key consumer segments and deliver compelling relevant content that can be enjoyed for what it is, shared with friends, interactively engage with or commercially acted upon instantaneously. It is our intent to enable advertisers to promote their business by sending animated images, audio files, video clips, text files, promotional or discount contents, bar codes, mobile games and java applications and business card files. We can also send live data such as news and sports updates to targeted mobile phones. The ABI Research report published in January 2008 on mobile marketing refers to the industry as still being in its “wild west” years but forecasts it will settle down and become a \$24 billion slice of the worldwide marketing and advertising pie by the end of 2013. It estimates there was about \$1.8 billion spent in 2007 on all forms of mobile marketing. While Management intends to market the proximity boxes as a premier mobile technology, we can provide no assurances that Ace will successfully establish a local, regional and/or national network containing its proximity marketing boxes or that sufficient advertising revenues and profits (if any) will result to justify the expenditures thereof. We also can provide no assurances that we will be able to compete with large and small competitors that are in (or may enter) the Proximity Marketing industry with substantially larger resources and management experience.

Dependence upon our agreements with our business partners, Blue Bite LLC and Eye Corp. Pty Ltd. to execute on our proximity marketing plans as well as our dependence upon our agreement with Simon Property Group, L.L.P.

We have partnered with Blue Bite LLC. (“Blue Bite”), a premier provider of Proximity Marketing hardware and software solutions, and Eye Corp Pty Ltd., (“EyeCorp”) an out-of-home media company which operates the largest mall advertising display network in the United States, to roll-out an expansive network which comprises of retail, dining, transportation, sporting, music, and other high traffic venues. In April 2011, we signed an exclusive rights agreement with a Top Mall Developer (the “Simon Property Group”) to create a location-based mobile marketing network called Mobiquity Networks. The 50 mall agreement runs through December of 2015. We are dependent upon our agreements with Blue Bite, Eye Corp. and Simon Property Group to execute on the development of our Proximity Marketing business and to attempt to achieve profitable operations. We can provide no assurances that our operations will be profitable.

We cannot predict our future capital needs and we may not be able to secure additional financing.

As of March 1, 2013, we will need to raise additional financing to support our Proximity Marketing operations and for general business operations. We can provide no assurances that additional equity or debt financings will be available to us on mutually satisfactory terms, if at all. Such additional financings may involve substantial dilution of our stockholders or may require that we relinquish rights to certain of our technologies or products. In addition, we may experience operational difficulties and delays due to working capital restrictions. Failure to secure additional financing on favorable terms could have severe adverse consequences to us.

The promotional products distribution industry is highly competitive and we may not be able to compete successfully.

We compete with over 20,000 distributor companies. Some of our competitors have greater financial and other resources than we do which could allow them to compete more successfully. Most of our promotional products are available from several sources and our customers tend to have relationships with several distributors. Competitors could obtain exclusive rights to market particular products which we would then be unable to market and may provide business solutions related to promotional products competitive with those provided by us. Industry consolidation among promotional products distributors, the unavailability of products, whether due to our inability to gain access to products or interruptions in supply from manufacturers, or the emergence of new competitors could also increase competition. In the future, we may be unable to compete successfully and competitive pressures may reduce our revenues.

We experience fluctuations in quarterly earnings. As a result, we may fail to meet or exceed the expectations of securities analysts and investors, which could cause our stock price to decline.

Our business has been subject to seasonal and other quarterly fluctuations. Net sales and operating profits generally have been higher in the third and fourth quarters, particularly in the months of September through November, due to the timing of sales of promotional products and year-end promotions. Net sales and operating profits have been lower in the first quarter, primarily due to increased sales in the prior two quarters. Quarterly results may also be adversely affected by a variety of other factors, including:

- costs of developing new promotions and services;
- costs related to acquisitions of businesses;
- the timing and amount of sales and marketing expenditures;
- general economic conditions, as well as those specific to the promotional product industry; and
- our success in establishing additional business relationships.

Any change in one or more of these or other factors could cause our annual or quarterly operating results to fluctuate. If our operating results do not meet market expectations, our stock price may decline in the event a market should develop.

Because we do not manufacture the promotional products we distribute, we are dependent upon third parties for the manufacture and supply of our promotional products.

We obtain all of our promotional products from third-party suppliers, both domestically and overseas primarily in China. We submit purchase orders to our suppliers who are not committed to supply products to us. Therefore, suppliers may be unable to provide the products we need in the quantities we request. Because we lack control of the actual production of the promotional products we sell, we may be subject to delays caused by interruption in production based on conditions outside of our control. In the event that any of our third-party suppliers were to become unable or unwilling to continue to provide the products in required volumes, we would need to identify and obtain acceptable replacement sources on a timely cost effective basis. There is no guarantee that we will be able to obtain such alternative sources of supply on a timely basis, if at all. An extended interruption in the supply of our products would have an adverse effect on our results of operations, which most likely would adversely affect the value of our common stock.

We may not be able to expand through internal growth and meet changes in the industry.

Our plans for internal growth include hiring in-house sales representatives from our competitors and offering stock incentives and generous commissions to keep them. Additionally, we have room for growth by building direct relationships with advertising agencies and major corporations. Because of potential industry changes, our products and promotions must continue to evolve to meet changes in the industry. Our future expansion plans may not be successful due to competition, competitive pressures and changes in the industry.

Our limited cash resources and lack of a line of credit may restrict our expansion opportunities.

An economic issue that can limit our growth is lack of extensive cash resources and lack of a working capital line of credit. Any lack of cash resources would limit our ability to take orders from customers and to place Proximity Marketing Units in malls across the country. We can provide no assurances that we will obtain additional resources and/or an adequate line of credit in the future, if at all.

Our revenues depend on our relationships with capable independent sales personnel over whom we have no control as well as key customers, vendors and manufacturers of the products we distribute.

Our future operating results depend on our ability to maintain satisfactory relationships with qualified independent Sales personnel as well as key customers, vendors and manufacturers. We are dependent upon our independent sales representatives to sell our products and services and do not have any direct control over these third parties. If we fail to maintain our existing relationships with our independent sales representatives, key customers, vendors and manufacturers or fail to acquire new relationships with such key persons in the future, our business may suffer.

Our future performance is materially dependent upon our management and their ability to manage our growth.

Our future success is substantially dependent upon the efforts and abilities of members of our existing management, particularly Dean L. Julia, Chief Executive Officer, Michael Trepeta, President and Sean Trepeta, President of Mobiquity Networks. The loss of the services of these persons could have a material adverse effect on our business. We have an employment agreement with each of Messrs. Julia and M. Trepeta expiring March 1, 2015. However, we lack "key man" life insurance policies on any of our officers or employees. Competition for additional qualified management is intense, and we may be unable to attract and retain additional key personnel. The number of management personnel is currently limited and they may be unable to manage our expansion successfully and the failure to do so could have a material adverse effect on our business, results of operations and financial condition.

Risks Relating to an Investment in Our Common Stock

We lack an established trading market for our common stock, and you may be unable to sell your common stock at attractive prices or at all.

There is currently a limited trading market for our common stock in the OTC electronic bulletin board under the symbol "AMKT." There can be no assurances given that an established public market will be obtained for our common stock or that any public market will last. The trading price of the common stock depends on many factors, including:

- costs of developing new promotions and services;
- costs related to acquisitions of businesses;
- the timing and amount of sales and marketing expenditures;
- general economic conditions, as well as those specific to the promotional product industry; and
- our success in establishing additional business relationships.

As a result, we cannot assure you that you will be able to sell your common stock at attractive prices or at all.

The market price for our common stock may be highly volatile.

The market price for our common stock may be highly volatile. A variety of factors may have a significant impact on the market price of our common stock, including:

- the publication of earnings estimates or other research reports and speculation in the press or investment community;
- changes in our industry and competitors;
- our financial condition, results of operations and prospects;
- any future issuances of our common stock, which may include primary offerings for cash, and the grant or exercise of stock options from time to time;
- general market and economic conditions; and
- any outbreak or escalation of hostilities, which could cause a recession or downturn in our economy.

In addition, the markets in general can experience extreme price and volume fluctuations that can be unrelated or disproportionate to the operating performance of the companies listed or quoted. Broad market and industry factors may negatively affect the market price of our common stock, regardless of actual operating performance. In the past, following periods of volatility in the market price of a company's securities, securities class action litigation has often been instituted against companies. This type of litigation, if instituted, could result in substantial costs and a diversion of management's attention and resources, which would harm our business.

We do not anticipate paying cash dividends in the future.

No cash dividends have been paid by the Company on our common stock. The future payment by us of cash dividends on our common stock, if any, rests within the discretion of our board of directors and will depend, among other things, upon our earnings, our capital requirements and our financial condition as well as other relevant factors. We do not intend to pay cash dividends upon our common stock for the foreseeable future.

Provisions of our Articles of Incorporation and agreements could delay or prevent a change in control of our Company.

Certain provisions of our articles of incorporation may discourage, delay, or prevent a merger or acquisition that a shareholder may consider favorable. These provisions include:

- Authority of the board of directors to issue preferred stock; and
- Prohibition on cumulative voting in the election of directors.

Our future sales of Common Stock by management and other stockholders may have an adverse effect on the then prevailing market price of our Common Stock.

In the event a public market for our common stock is sustained in the future, sales of our common stock may be made by holders of our public float or by holders of restricted securities in compliance with the provisions of Rule 144 of the Securities Act of 1933. In general, under Rule 144, a non-affiliated person who has satisfied a six-month holding period in a fully reporting company under the Securities Exchange Act of 1934, as amended, may, sell their restricted Common Stock without volume limitation, so long as the issuer is current with all reports under the Exchange Act in order for there to be adequate common public information. Affiliated persons may also sell their common shares held for at least six months, but affiliated persons will be required to meet certain other requirements, including manner of sale, notice requirements and volume limitations. Non-affiliated persons who hold their common shares for at least one year will be able to sell their common stock without the need for there to be current public information in the

hands of the public. Future sales of shares of our public float or by restricted common stock made in compliance with Rule 144 may have an adverse effect on the then prevailing market price, if any, of our common stock.

We Do Not Currently Have an Audit Committee.

The Sarbanes-Oxley Act of 2002 requires us as a public corporation to have an audit committee composed solely of independent directors. Currently, we have two independent directors but lack having an Audit Committee of the Board of Directors.

Our Common Stock may be considered “penny stock” and may be difficult to trade.

The SEC has adopted regulations that generally define “penny stock” to be an equity security that has a market or exercise price of less than \$5.00 per share, subject to specific exemptions. The market price of our Common Stock may be less than \$5.00 per share and, therefore, may be designated as a “penny stock” according to SEC rules. This designation requires any broker or dealer selling these securities to disclose certain information concerning the transaction, obtain a written agreement from the purchaser and determine that the purchaser is reasonably suitable to purchase the securities. These rules may restrict the ability of brokers or dealers to sell our Common Stock and may affect the ability of investors to sell their Shares. In addition, since our Common Stock is quoted on the OTCBB, investors may experience a lack of buyers to purchase such stock or a lack of market makers to support the stock price.

WE ARE REGISTERING AN AGGREGATE OF 5,000,000 SHARES OF COMMON STOCK TO BE ISSUED UNDER THE EQUITY AGREEMENT. THE SALE OF SUCH SHARES COULD DEPRESS THE MARKET PRICE OF OUR COMMON STOCK.

We are registering an aggregate of 5,000,000 Put Shares of common stock under the registration statement of which this prospectus forms a part for issuance pursuant to the Equity Agreement. Notwithstanding TCA’s ownership limitation, the 5,000,000 Put Shares would represent approximately 12.75% of our shares of common stock outstanding immediately after our exercise of the put right under the Equity Agreement. The sale of these Put Shares into the public market by TCA could depress the market price of our common stock. At the assumed offering price of \$0.38 per share, we will be able to receive up to \$1,900,000 in gross proceeds, assuming the sale of the entire 5,000,000 Shares being registered hereunder pursuant to the Equity Agreement. We would be required to register approximately 263,158 additional shares to obtain the balance of \$2,000,000 under the Equity Agreement at the assumed offering price of \$0.40. Due to the floating offering price, we are not able to determine the exact number of shares that we will issue under the Equity Agreement.

THE COMPANY MAY NOT HAVE ACCESS TO THE FULL AMOUNT AVAILABLE UNDER THE EQUITY AGREEMENT.

We have not drawn down funds and have not issued shares of our common stock under the Equity Agreement with TCA. Our ability to draw down funds and sell shares under the Equity Agreement requires that the registration statement, of which this prospectus is a part, be declared effective by the SEC, and that this registration statement continue to be effective. In addition, the registration statement of which this prospectus is a part registers 5,000,000 Put Shares issuable under the Equity Agreement, and our ability to access the Equity Agreement to sell any remaining shares issuable under the Equity Agreement is subject to our ability to prepare and file one or more additional registration statements registering the resale of these shares. These subsequent registration statements may be subject to review and comment by the staff of the SEC, and will require the consent of our independent registered public accounting firm. Therefore, the timing of effectiveness of these subsequent registration statements cannot be assured.

The effectiveness of these subsequent registration statements is a condition precedent to our ability to sell the shares of common stock subject to these subsequent registration statements to TCA under the Equity Agreement. Even if we are successful in causing one or more registration statements registering the resale of some or all of the shares issuable under the Equity Agreement to be declared effective by the SEC in a timely manner, we will not be able to sell shares under the Equity Agreement unless certain other conditions are met. Accordingly, because our ability to draw down amounts under the Equity Agreement is subject to a number of conditions, there is no guarantee that we will be able to draw down any portion or all of the \$2,000,000 available to us under the Equity Agreement.

CERTAIN RESTRICTIONS ON THE EXTENT OF PUTS AND THE DELIVERY OF ADVANCE NOTICES MAY HAVE LITTLE, IF ANY, EFFECT ON THE ADVERSE IMPACT OF OUR ISSUANCE OF SHARES IN CONNECTION WITH THE EQUITY AGREEMENT, AND AS SUCH, TCA MAY SELL A LARGE NUMBER OF SHARES, RESULTING IN SUBSTANTIAL DILUTION TO THE VALUE OF SHARES HELD BY EXISTING SHAREHOLDERS.

TCA has agreed, subject to certain exceptions listed in the Equity Agreement, to refrain from holding an amount of shares which would result in TCA or its affiliates owning more than 9.99% of the then-outstanding shares of the Company's common stock at any one time. These restrictions, however, do not prevent TCA from selling shares of common stock received in connection with a put, and then receiving additional shares of common stock in connection with a subsequent put. In this way, TCA could sell more than 9.99% of the outstanding common stock in a relatively short time frame while never holding more than 9.99% at one time.

ASSUMING WE UTILIZE THE MAXIMUM AMOUNT AVAILABLE UNDER THE EQUITY LINE OF CREDIT, EXISTING SHAREHOLDERS COULD EXPERIENCE SUBSTANTIAL DILUTION UPON THE ISSUANCE OF COMMON STOCK.

Edgar Filing: ACE MARKETING & PROMOTIONS INC - Form S-1

Our Equity Agreement with TCA contemplates the potential future issuance and sale of up to \$2,000,000 of our common stock to TCA subject to certain restrictions and obligations. The following table is an example of the number of shares that could be issued at various prices assuming we utilize the maximum amount remaining available under the Equity Agreement. These examples assume issuances at a market price of \$0.40 per share and at 10%, 25%, 50%, and 75% below \$0.38 per share, taking into account TCA's 5% discount.

The following table should be read in conjunction with the footnotes immediately following the table.

Percent below Current market price	Price per share (1)	Number of shares issuable (2)	Shares outstanding (3)	Percent of outstanding shares (4)
10%	\$ 0.34	5,882,353	40,112,605	14.66%
25%	\$ 0.29	6,896,552	41,126,804	16.77%
50%	\$ 0.19	10,526,316	44,756,568	23.52%
75%	\$ 0.10	20,000,000	54,230,252	36.88%

(1) Represents purchase prices equal to 95% of \$0.40 and potential reductions thereof of 10%, 25%, 50% and 75%.

Represents the number of shares issuable if the entire \$2,000,000 under the Equity Agreement were drawn down (2) at the indicated purchase prices. Our Articles of Incorporation currently authorizes 100,000,000 shares of common stock.

Based on 34,230,252 shares of common stock outstanding at March 14, 2013. Our Articles of Incorporation (3) currently authorizes 100,000,000 shares of common stock. We may in the future need to amend our Articles of Incorporation in order to increase our authorized shares of common stock.

Percentage of the total outstanding shares of common stock after the issuance of the shares indicated, without (4) considering any contractual restriction on the number of shares the selling shareholder may own at any point in time or other restrictions on the number of shares we may issue.

TCA WILL PAY LESS THAN THE THEN-PREVAILING MARKET PRICE FOR OUR COMMON STOCK.

The common stock to be issued to TCA pursuant to the Equity Agreement will be purchased at a 5% discount to the average of the lowest closing price of the common stock of any two trading days, consecutive or inconsecutive, during the five consecutive trading days immediately following the date of our advance notice to TCA of our election to put shares pursuant to the Equity Agreement. TCA has a financial incentive to sell our common stock immediately upon receiving the shares to realize the profit equal to the difference between the discounted price and the market price. If TCA sells the shares, the price of our common stock could decrease.

If our stock price decreases, TCA may have a further incentive to sell the shares of our common stock that it holds. These sales may have a further impact on our stock price.

YOUR OWNERSHIP INTEREST MAY BE DILUTED AND THE VALUE OF OUR COMMON STOCK MAY DECLINE BY EXERCISING THE PUT RIGHT PURSUANT TO OUR EQUITY AGREEMENT.

Effective May 31, 2012, we entered into a \$2,000,000 Equity Agreement with TCA. Pursuant to the Equity Agreement, when we deem it necessary, we may raise capital through the private sale of our common stock to TCA at a price equal to ninety-five percent (95%) of the lowest daily volume weighted average price of the Company's common stock for the five trading days immediately following the date our advance notice is delivered. Because the put price is lower than the prevailing market price of our common stock, to the extent that the put right is exercised, your ownership interest may be diluted.

WE DO NOT INTEND TO PAY DIVIDENDS.

We do not anticipate paying cash dividends on our common stock in the foreseeable future. We may not have sufficient funds to legally pay dividends. Even if funds are legally available to pay dividends, we may nevertheless decide in our sole discretion not to pay dividends. The declaration, payment and amount of any future dividends will be made at the discretion of our board of directors, and will depend upon, among other things, the results of our operations, cash flows and financial condition, operating and capital requirements, and other factors our board of directors may consider relevant. There is no assurance that we will pay any dividends in the future, and, if dividends are paid, there is no assurance with respect to the amount of any such dividend.

AS A PUBLIC COMPANY, WE ARE SUBJECT TO COMPLEX LEGAL AND ACCOUNTING REQUIREMENTS THAT WILL REQUIRE US TO INCUR SIGNIFICANT EXPENSES AND WILL EXPOSE

US TO RISK OF NON-COMPLIANCE.

As a public company, we are subject to numerous legal and accounting requirements that do not apply to private companies. The cost of compliance with many of these requirements is material, not only in absolute terms but, more importantly, in relation to the overall scope of the operations of a small company. Our relative inexperience with these requirements may increase the cost of compliance and may also increase the risk that we will fail to comply.

Failure to comply with these requirements can have numerous adverse consequences including, but not limited to, our inability to file required periodic reports on a timely basis, loss of market confidence and/or governmental or private actions against us. We cannot assure you that we will be able to comply with all of these requirements or that the cost of such compliance will not prove to be a substantial competitive disadvantage vis-à-vis our privately held and larger public competitors.

WE MAY BE SUBJECT TO SHAREHOLDER LITIGATION, THEREBY DIVERTING OUR RESOURCES THAT MAY HAVE A MATERIAL EFFECT ON OUR PROFITABILITY AND RESULTS OF OPERATIONS.

As discussed in the preceding risk factors, the market for our common shares is characterized by significant price volatility when compared to seasoned issuers, and we expect that our share price will continue to be more volatile than a seasoned issuer for the indefinite future. In the past, plaintiffs have often initiated securities class action litigation against a company following periods of volatility in the market price of its securities. We may become the target of similar litigation. Securities litigation will result in substantial costs and liabilities and will divert management's attention and resources.

COMPLIANCE WITH CHANGING REGULATION OF CORPORATE GOVERNANCE AND PUBLIC DISCLOSURE WILL RESULT IN ADDITIONAL EXPENSES AND POSE CHALLENGES FOR OUR MANAGEMENT.

Changing laws, regulations and standards relating to corporate governance and public disclosure, including the Dodd-Frank Wall Street Reform and Consumer Protection Act, and the rules and regulations promulgated thereunder, the Sarbanes-Oxley Act and SEC regulations, have created uncertainty for public companies and significantly increased the costs and risks associated with accessing the U.S. public markets. Our management team will need to devote significant time and financial resources to comply with both existing and evolving standards for public companies, which will lead to increased general and administrative expenses and a diversion of management time and attention from revenue generating activities to compliance activities.

FORWARD-LOOKING STATEMENTS

Statements in this prospectus may be “forward-looking statements.” Forward-looking statements include, but are not limited to, statements that express our intentions, beliefs, expectations, strategies, predictions or any other statements relating to our future activities or other future events or conditions. These statements are based on current expectations, estimates and projections about our business based, in part, on assumptions made by management. These statements are not guarantees of future performance and involve risks, uncertainties and assumptions that are difficult to predict. Therefore, actual outcomes and results may, and are likely to, differ materially from what is expressed or forecasted in the forward-looking statements due to numerous factors, including those described above and those risks discussed from time to time in this prospectus, including the risks described under “Risk Factors,” and “Management’s Discussion and Analysis of Financial Condition and Results of Operations” in this prospectus and in other documents which we file with the SEC. In addition, such statements could be affected by risks and uncertainties related to our ability to raise any financing which we may require for our operations, competition, government regulations and requirements, pricing and development difficulties, our ability to make acquisitions and successfully integrate those acquisitions with our business, as well as general industry and market conditions and growth rates, and general economic conditions. Any forward-looking statements speak only as of the date on which they are made, and we do not undertake any obligation to update any forward-looking statement to reflect events or circumstances after the date of this prospectus, except as may be required under applicable securities laws.

USE OF PROCEEDS

The Selling Security Holder is selling all of the shares of our common stock covered by this prospectus for its own account. Accordingly, we will not receive any proceeds from the resale of our common stock. However, we will receive proceeds from any sale of the common stock to TCA under the Equity Agreement. We intend to use the net proceeds received for working capital or general corporate needs.

DETERMINATION OF OFFERING PRICE

Our common stock currently trades on the OTCBB under the symbol “AMKT”. The proposed offering price of the Put Shares and is \$2,000,000 and has been estimated solely for the purpose of computing the amount of the registration fee in accordance with Rule 457(c) of the Securities Act of 1933, on the basis of the closing bid price of common stock of the Company on March 14, 2013. The Selling Security Holders may sell shares in any manner at the current market price.

SELLING SECURITY HOLDERS

The Put Shares

TCA is the potential purchaser of our common stock under the Equity Agreement. The 5,000,000 Put Shares offered in this prospectus are based on the Equity Agreement between TCA and us. TCA may from time to time offer and sell any or all of the Put Shares that are registered under this prospectus. The purchase price is ninety-five percent (95%) of the lowest daily volume weighted average price of the Company's common stock for the five trading days immediately following the date on which the Company is deemed to provide an advance notice under the Equity Agreement.

We are unable to determine the exact number of Put Shares that will actually be sold by TCA according to this prospectus due to:

£ the ability of TCA to determine when and whether it will sell any of the Put Shares under this prospectus; and

£ the uncertainty as to the number of Put Shares that will be issued upon exercise of our put options through the delivery of an Advance notice under the Equity Agreement.

The following information contains a description of how TCA acquired (or shall acquire) the Put Shares to be sold in this offering. TCA has not held a position or office, or had any other material relationship with us, except as follows.

TCA is a limited partnership organized and existing under the laws of the Cayman Islands. All investment decisions of, and control of, TCA is held by its general partner TCA Global Credit Fund GP, Ltd ("TCA GP"). Robert Press is the manager of TCA GP, and he has voting and investment power over the shares beneficially owned by TCA. TCA acquired, or will acquire, all shares being registered in this offering in the financing transaction with us.

TCA intends to sell up to 5,000,000 Put Shares of our common stock pursuant to the Equity Agreement under this prospectus. On May 31, 2012, the Company and TCA entered into the Equity Agreement pursuant to which we have the opportunity, for a twenty-four (24) month period, beginning on the date on which the SEC first declares effective this registration statement registering the resale of our shares by TCA, to sell shares of our common stock for a total price of \$2,000,000. For each share of our common stock purchased under the Equity Agreement, TCA will pay ninety-five percent (95%) of the lowest daily volume weighted average price of the Company's common stock for the five trading days immediately following the date on which the Company is deemed to provide an advance notice of a sale of common stock under the Equity Agreement.

We relied on an exemption from the registration requirements of the Securities Act. The transaction does not involve a private offering, TCA is an "accredited investor" and/or qualified institutional buyer and TCA has access to information about the Company and its investment.

At an assumed purchase price under the Purchase Agreement of \$0.38 (equal to 95% of the closing price of our common stock of \$0.40 on March 14, 2013), we will be able to receive up to \$1,900,000 in gross proceeds, assuming the sale of the entire 5,000,000 Shares being registered hereunder pursuant to the Equity Agreement. At an assumed purchase price of \$0.40 under the Equity Agreement, we would be required to register 263,158 additional shares to obtain the balance of \$2,000,000 under the Equity Agreement. The Company is currently authorized to issue 100,000,000 shares of its common stock. TCA has agreed, subject to certain exceptions listed in the Equity Agreement, to refrain from holding an amount of shares which would result in TCA or its affiliates from owning more than 9.99% of the then-outstanding shares of the Company's common stock at any one time.

There are substantial risks to investors as a result of the issuance of shares of our common stock under the Equity Agreement. These risks include dilution of stockholders and significant decline in our stock price.

TCA will periodically purchase shares of our common stock under the Equity Agreement and will in turn, sell such shares to investors in the market at the prevailing market price. This may cause our stock price to decline, which will require us to issue increasing numbers of shares to TCA to raise the same amount of funds, as our stock price declines.

TCA and any participating broker-dealers are "underwriters" within the meaning of the Securities Act. All expenses incurred with respect to the registration of the common stock will be borne by us, but we will not be obligated to pay any underwriting fees, discounts, commission or other expenses incurred by the Selling Security Holder in connection with the sale of such shares.

Except as indicated below, neither the Selling Security Holder nor any of its associates or affiliates has held any position, office, or other material relationship with us in the past three years.

All expenses incurred with respect to the registration of the common stock will be borne by us, but we will not be obligated to pay any underwriting fees, discounts, commission or other expenses incurred by the Selling Security Holders in connection with the sale of such shares.

Except as indicated below, neither the Selling Security Holders nor any of their associates or affiliates has held any position, office, or other material relationship with us in the past three years.

The following table sets forth the name of the Selling Security Holders, the number of shares of common stock beneficially owned by each of the Selling Security Holders as of the date hereof and the number of share of common stock being offered by each of the Selling Security Holders. The shares being offered hereby are being registered to permit public secondary trading, and the selling stockholders may offer all or part of the shares for resale from time to time. However, the selling stockholder is under no obligation to sell all or any portion of such shares nor is the selling stockholders obligated to sell any shares immediately upon effectiveness of this prospectus. All information with respect to share ownership has been furnished by the Selling Security Holder. The “Amount Beneficially Owned After the Offering” column assumes the sale of all shares offered.

Name	Shares Beneficially Owned Prior to Offering	Shares to be Offered	Amount Beneficially Owned After Offering (1)	Percent Beneficially Owned After the Offering
TCA Global Credit Master Fund, LP (2)	-0-	5,000,000	-0-	12.74%

(1) This number assumes each Selling Security Holder sells all of its shares being offered pursuant to this prospectus.

These shares represent only a portion of the shares that may be issued to TCA pursuant to the Equity Agreement.

At an assumed purchase price of \$0.040 under the Equity Agreement, we would be required to register

(2) approximately 263,158 additional shares to obtain the balance of the \$2,000,000 commitment. The principal commitment of \$2,000,000 was chosen by the parties as an amount TCA was willing to provide to the Company for its working capital and general corporate needs.

PLAN OF DISTRIBUTION

This prospectus relates to the resale of up to 5,000,000 Shares issued pursuant to the Equity Agreement held by the Selling Security Holder.

The Selling Security Holder may, from time to time, sell any or all of their shares of our common stock on any stock exchange, market or trading facility on which the shares are traded or in private transactions. The Selling Security Holder may use any one or more of the following methods when selling shares:

£ ordinary brokerage transactions and transactions in which the broker-dealer solicits purchasers;

£ block trades in which the broker-dealer will sell the shares as agent;

£ purchases by a broker-dealer as principal and resale by the broker-dealer for its account;

£ privately negotiated transactions;

£ broker-dealers may agree with the Selling Stock Holder to sell a specified number of such shares at a stipulated price per share;

£ through the writing or settlement of options or other hedging transactions, whether through an options exchange or otherwise;

£ a combination of any such methods of sale; or

£ any other method permitted pursuant to applicable law.

The Selling Security Holder may be deemed an underwriter. Pursuant to the terms of the Equity Agreement, the Selling Security Holder may not engage in any short sales of the Company's common stock or other hedging activities. The Selling Security Holder may sell the shares directly to market makers acting as principals and/or broker-dealers acting as agents for itself or its customers. Such broker-dealers may receive compensation in the form of discounts, concessions or commissions from the Selling Security Holder and/or the purchasers of shares for whom such broker-dealers may act as agents or to whom they sell as principal or both, which compensation as to a particular broker-dealer might be in excess of customary commissions. Market makers and block purchasers purchasing the

shares will do so for their own account and at their own risk. It is possible that the Selling Security Holder will attempt to sell shares of the Company's common stock in block transactions to market makers or other purchasers at a price per share which may be below the then market price. The Selling Security Holder cannot assure that all or any of the shares offered in this prospectus will be issued to, or sold by, the Selling Security Holder. In addition, any brokers, dealers or agents, upon effecting the sale of any of the shares offered in this prospectus are "underwriters" as that term is defined under the Securities Act or the Exchange Act, or the rules and regulations under such acts. In such event, any commissions received by such broker-dealers or agents and any profit on the resale of the shares purchased by them may be deemed to be underwriting commissions or discounts under the Securities Act.

Discounts, concessions, commissions and similar selling expenses, if any, attributable to the sale of shares will be borne by the Selling Security Holder. The Selling Security Holder may agree to indemnify any agent, dealer or broker-dealer that participates in transactions involving sales of the shares if liabilities are imposed on that person under the Securities Act.

The Selling Security Holder may from time to time pledge or grant a security interest in some or all of the shares of our common stock owned by it and, if it defaults in the performance of its secured obligations, the pledgee or secured parties may offer and sell such the shares of common stock from time to time under this prospectus after we have filed an amendment to this prospectus under Rule 424(b)(3) or any other applicable provision of the Securities Act amending the list of selling security holders to include the pledgee or transferee as selling security holders under this prospectus.

The Selling Security Holder also may transfer the shares of common stock in other circumstances, in which case the transferees or pledgees will be the selling beneficial owners for purposes of this prospectus and may sell the shares of common stock from time to time under this prospectus after we have filed an amendment to this prospectus under Rule 424(b)(3) or other applicable provision of the Securities Act amending the list of selling security holders to include the pledgee or transferee as selling security holders under this prospectus.

We are required to pay all fees and expenses incident to the registration of the shares of common stock. Otherwise, all discounts, commissions or fees incurred in connection with the sale of our common stock offered hereby will be paid by the Selling Security Holder.

The Selling Security Holder acquired the securities offered hereby in the ordinary course of business and has advised us that it has not entered into any agreements, understandings or arrangements with any underwriters or broker-dealers regarding the sale of its shares of common stock, nor is there an underwriter or coordinating broker acting in connection with a proposed sale of shares of common stock by the Selling Security Holder. We will file a supplement to this prospectus if the Selling Security Holder enters into a material arrangement with a broker-dealer for sale of common stock being registered. If the Selling Security Holder uses this prospectus for any sale of the shares of common stock, it will be subject to the prospectus delivery requirements of the Securities Act.

Pursuant to a requirement by the Financial Industry Regulatory Authority, or FINRA, the maximum commission or discount to be received by any FINRA member or independent broker/dealer may not be greater than eight percent (8%) of the gross proceeds received by us for the sale of any securities being registered pursuant to SEC Rule 415 under the Securities Act.

The anti-manipulation rules of Regulation M under the Exchange Act may apply to sales of our common stock and activities of the Selling Security Holder. The Selling Security Holder will act independently of us in making decisions with respect to the timing, manner and size of each sale.

TCA is an “underwriter” within the meaning of the Securities Act in connection with the sale of our common stock under the Equity Agreement. As further consideration for TCA entering into and structuring the equity facility, the Company shall pay to TCA the Facility Fee Shares. It is the intention of the Company and TCA that the value of the Facility Fee Shares shall equal \$100,000. In the event the value of the Facility Fee Shares issued to TCA does not equal \$100,000 after a nine month evaluation date, the Equity Agreement provides for an adjustment provision allowing for necessary action to adjust the number of shares issued. In February 2013, TCA was issued and sold 196,078 Facility Fee Shares and it received net proceeds of approximately \$48,000. The Company elected to pay the remaining Facility Fee in cash in March 2013.

We will pay all expenses incident to the registration, offering and sale of the shares of our common stock to the public hereunder other than commissions, fees and discounts of underwriters, brokers, dealers and agents. If any of these other expenses exists, we expect TCA to pay these expenses. We have agreed to indemnify TCA and its controlling persons against certain liabilities, including liabilities under the Securities Act. We estimate that the expenses of the offering to be borne by us will be approximately \$70,000. We will not receive any proceeds from the resale of any of the shares of our common stock by TCA. We may, however, receive proceeds from the sale of our common stock under the Equity Agreement. Neither the Equity Agreement nor any rights of the parties under the Equity Agreement may be assigned or delegated to any other person.

DESCRIPTION OF SECURITIES TO BE REGISTERED

This prospectus includes 5,000,000 Put Shares of our common stock offered by the Selling Security Holder. The following description of our common stock is only a summary. You should also refer to our certificate of incorporation and bylaws, which have been incorporated by reference as exhibits to the registration statement of which this prospectus forms a part.

The Company is authorized to issue 100,000,000 shares of \$0.0001 par value common stock. As of March 14, 2013, the Company had 34,230,252 shares of common stock outstanding.

Common Stock

As of March 14, 2013, we had 34,230,252 shares of common stock outstanding. The shares of our common stock presently outstanding, and any shares of our common stock issues upon exercise of stock options and/or warrants, will be fully paid and non-assessable. Each holder of common stock is entitled to one vote for each share owned on all matters voted upon by shareholders, and a majority vote is required for all actions to be taken by shareholders. In the event we liquidate, dissolve or wind-up our operations, the holders of the common stock are entitled to share equally and ratably in our assets, if any, remaining after the payment of all our debts and liabilities and the liquidation preference of any shares of preferred stock that may then be outstanding. The common stock has no preemptive rights, no cumulative voting rights, and no redemption, sinking fund, or conversion provisions. Since the holders of common stock do not have cumulative voting rights, holders of more than 50% of the outstanding shares can elect all of our Directors, and the holders of the remaining shares by themselves cannot elect any Directors. Holders of common stock are entitled to receive dividends, if and when declared by the Board of Directors, out of funds legally available for such purpose, subject to the dividend and liquidation rights of any preferred stock that may then be outstanding.

Voting Rights

Each holder of common stock is entitled to one vote for each share of common stock held on all matters submitted to a vote of stockholders.

Dividends

Subject to preferences that may be applicable to any then-outstanding shares of preferred stock, if any, and any other restrictions, holders of common stock are entitled to receive ratably those dividends, if any, as may be declared from time to time by the Company's board of directors out of legally available funds. The Company and its predecessors have not declared any dividends in the past. Further, the Company does not presently contemplate that there will be any future payment of any dividends on common stock.

Anti-Takeover Provisions

Our Articles of Incorporation and Bylaws contain provisions that may make it more difficult for a third party to acquire or may discourage acquisition bids for us. Our Board of Directors may, without action of our stockholders, issue authorized but unissued common stock and preferred stock. The issuance of additional shares to certain persons allied with our management could have the effect of making it more difficult to remove our current management by diluting the stock ownership or voting rights of persons seeking to cause such removal. The existence of unissued preferred stock may enable the Board of Directors, without further action by the stockholders, to issue such stock to persons friendly to current management or to issue such stock with terms that could render more difficult or discourage an attempt to obtain control of us, thereby protecting the continuity of our management. Our shares of preferred stock could therefore be issued quickly with terms that could delay, defer, or prevent a change in control of us, or make removal of management more difficult.

DESCRIPTION OF BUSINESS

Overview

Ace Marketing & Promotions, Inc. (the "Company," "Ace," "we" or "our"), a New York corporation is a business and technology development company focusing on brand marketing, advanced integrated marketing platforms, mobile marketing, social networks, website development and digital media.

Corporate Developments

On January 28, 2013, the Company announced that the Board of Directors has proposed to change the Company's name to "Applied Marketing Technologies Inc.", subject to the shareholders' approval at the upcoming shareholder

meeting.

The Company's corporate strategy is for it to be positioned as a business and technology development company focusing on advanced integrated marketing platforms, mobile marketing, social networks, and digital media. The proposed new name will better reflect the Company's evolved mission, diversified operations and commitment to developing innovative marketing technology solutions. The Company also formed two new wholly-owned subsidiaries to go along with its existing subsidiary (Mobiquity Networks, Inc.), each focused on driving new revenue through the commercialization of one or more propriety technologies developed or acquired by the Company.

The first new subsidiary is Ace Marketing, Inc. ("AMI"), an Integrated Marketing Company focused on marketing process analysis and technology-based growth acceleration strategies. AMI offers Brand Analysis & Development, Website Analysis & Development, Database Analysis & Building, and Integrated Marketing Campaigns using: direct mail, email marketing, mobile marketing, promotional products and other mediums that help its clients connect with their customers and acquire new business. Additionally, AMI will utilize our proprietary back-office business process management platform dubbed "Axxion". The Company created this platform to ensure efficient business process scalability. Axxion will be the cornerstone of a planned growth strategy focused on acquisition and an aggressive sales team expansion.

The second new subsidiary is Venn Media, created to commercialize a proprietary Web Development Platform (with CMS as defined below) engineered to revolutionize the way websites are developed and maintained. The Venn Media platform drastically reduces the programming and coding required to deliver outstanding functionality, and delivers a Content Management System ("CMS") that puts the control of content back into the Clients' hands. More importantly, the Venn CMS allows clients to manage their Branded Merchandise/Company Store, In-House Database, E-mail and SMS Text marketing communication from a single platform. Over 75 projects have already been built and successfully launched on Venn Media's version one platform. Version two, which is already in development, with advanced social media integration is scheduled to be launched later in fiscal 2013.

The third subsidiary is Mobiquity Networks, a leading provider of hyper-local mobile marketing solutions. Mobiquity is continuing to attempt to build one of the nation's largest Proximity Marketing networks. Proximity Marketing is a location-based marketing tool that delivers rich digital content to any Bluetooth or Wi-Fi enabled device within a 300ft radius of a central terminal. Mobiquity's technology permits delivery to virtually any mobile device and properly formats each message to ensure that every user receives the best possible experience. Results are fully trackable, giving campaigns full performance accountability. Mobiquity offers brands the opportunity to reach millions of consumers with relevant, engaging content that is 100% free to the end user. The Mobiquity network is the largest mall-based network of its kind. It is currently installed in 75 malls across the US, covering each of the top 10 designated marketing areas "DMA's"), and has the ability to reach approximately 96 million shopping visits per month.

The Company has been licensing the U.S. rights to its proximity marketing units from FuturLink, SA, a pioneer in the field of location-based mobile marketing and purchasing its inventory directly from FuturLink. These proximity marketing units were developed by FuturLink with innovative platforms utilizing Bluetooth, Wi-Fi, QR (Quick Response codes) and NFC (Near Field Communications) to create, manage and deploy mobile marketing campaigns. On March 7, 2013, the Company acquired the assets of FuturLink in exchange for an undisclosed amount of cash, which cash was paid from the Company's current working capital. These assets include, without limitation, the FuturLink technology (patents and source codes), trademark(s) and access point (proximity marketing) component parts.

As the technology owner, the Company realized immediate cost savings and will leverage the hardware and software included in its purchase to expand its mall-based footprint in the United States. The acquisition of FuturLink's technology and corresponding patents provides the Company with vertical integration and provides it with flexibility and autonomy. By owning the technology, the Company has the ability to do the following:

- Increase download speed for both Bluetooth and Wi-Fi,
- Add customer dashboard for real-time reporting of campaign statistics,
- Implementation of a rewards program to increase download loyalty,
- Ability to deliver apps directly via Bluetooth and Wi-Fi
- Reduce cost of proximity marketing units by approximately 60-70% and
- Eliminate the payment of licensing fees to FuturLink of approximately \$175,000 per annum.

It is the Company's intention to continue its established relationship with Blue Bite, to maintain the proximity marketing network and to enhance the FuturLink platform capabilities through the integration of additional mobile solutions.

This transaction did not result in the acquisition of a significant subsidiary as defined under Article 1(w) of Regulation S-X.

Ace Advantages

Ace is an integrated marketing company focused on working with clients to grow their business. Ace offers brand analysis and development, website analysis and development, database analysis and building, and integrated marketing campaigns using: direct mail, email marketing, mobile marketing, promotional products and other mediums that help our clients connect with their customers and acquire new business.

Ace has created a four-step process supported by marketing technology platforms to provide a comprehensive range of capabilities with the goal of having the right client utilize the right message at the right time.

The “Ace Process”

- Brand analysis and development,
- Website analysis and development,
- Database analysis and building, and
- Integrated marketing campaigns.

BRAND ANALYSIS & DEVELOPMENT

Ace's clients have one chance to make a first impression. Our clients' brand image creates that impression, and reinforces that message each time their customer interacts with our client's brands. Our creative department can help each client design a branding strategy for its business that creates the image and lasting impression that each of our clients need. Adding a client's brand to promotional merchandise is a subtle, yet effective way to drive repeat impressions and awareness of a client's brand. Well-placed branded merchandise often stays in front of customers for many years, and can offer the lowest cost per impression marketing available today. To achieve the highest level of brand control and innovative style, we can work with each client's team to create custom merchandise to perfectly reflect the image a client wants to project to its customers. We work with a proven team of domestic and international designers and product manufacturers to ensure that each client's custom products deliver the style and performance within the required cost-structure.

In creating a strong brand, our team must be able to answer each of the following questions:

· Brand Analysis: Does it send the right message our client's want?

· Brand Creation: Have we achieved a professional look?

· Brand Consistency: Is our client marketing consistent across all mediums?

WEBSITE ANALYSIS & DEVELOPMENT

Ace believes that each client's business is judged by its website, and if its prospects can't find our client online, it's like our client does not exist at all. A recent study by BIA/Kelsey indicates that 97% of consumers go online to research products and services. If they're not finding the company during their searches, there's no doubt about it: companies are likely losing a substantial amount of business.

Ace has created a proprietary web development platform ("AcePlace CMS") that is changing the way websites are developed and maintained. Our platform drastically reduces the programming and coding required to deliver outstanding functionality, and delivers a content management system that puts the control back into our clients' hands.

More importantly, with AcePlace CMS, each client can manage its own branded merchandise/company store, its own in-house database, e-mail, and text marketing communication from a single platform.

Ace's keys to creating a strong web presence are as follows:

- Create a strong brand image;
- Utilize a content management system (CMS);
- Use AcePlace as a client's central marketing tool; and
- Make sure our client's website is optimized for mobile devices.

DATABASE ANALYSIS & BUILDING

Ace works with each client's existing database(s) to ensure that each client has the most accurate and up-to-date information for its clients including (but not limited to) physical addresses, email addresses and phone numbers. Ace also "Models" the demographic and psychographic characteristics of the customers/clients in its database. Ace utilizes this information to learn even more about each client's existing customers. Ace can create a demographic/psychographic profile of each client's ideal customer base. This highly-targeted knowledge can be utilized to accurately identify high-probability prospects in each client's market area. Ace makes the most of each client's data by performing the following tasks with the help of our clients:

- Data Cleaning & Appending: We make sure that our client's data and information are accurate.

Data Modeling: We determine, statistically speaking, which customers should be utilizing our client's products and services

Acquisition Modeling: Then, based on the results of the data modeling, we project who else our clients should be targeting

INTEGRATED MARKETING CAMPAIGNS

The most effective way to increase the response rate and rate of return on investment of each client's marketing program is to deliver personalized messages that are targeted to the right audience as determined through advanced database management. Each client's message must then be delivered utilizing the most effective medium for the intended customer. Ace provides integrated platforms that deliver the right message to the right client using the right delivery method.

Each multi-channel marketing capabilities include the following:

- Branded merchandise;
- Direct mail marketing;
- E-Mail marketing; and

Mobile marketing.

Mobiquity Networks

Mobiquity Networks is a leading provider of location-based mobile marketing solutions. Mobiquity has built one of the nation's largest proximity marketing networks in shopping malls across the United States. Proximity Marketing is a solution that delivers content to any Bluetooth or Wi-Fi enabled device within a 300ft radius from a central terminal. Mobiquity's technology permits delivery to virtually any mobile device and properly formats each message to ensure that every user receives the best possible experience. Results are fully traceable, giving campaigns a true level of accountability. Mobiquity offers brands the opportunity to reach millions of consumers with relevant, engaging content which is completely measurable for the advertisers and free for the user. A proximity marketing unit can detect the total number of mobile devices in a specific area and then dynamically present a highly relevant offer to consumers. The consumer receives an opt in request for the specific campaign and once acceptance is granted, the user can receive a range of rich media content utilized by advertisers for promotional purposes. Through this marketing medium, advertisers can track metrics and analytics in a much more targeted way and quantitatively measure the effectiveness of their campaigns. Our proximity marketing campaigns interact with people when they are present in shopping malls. Our proximity marketing advantages include the following:

Ace uses location-based mobile marketing within the shopping mall to truly interact with each client's desired demographic when it counts. Ace delivers rich digital content such as movie trailers, wallpapers, and coupons via Bluetooth and WiFi directly to the mobile devices of each client's target audience without any cost to the end-user.

The mobile device has become an integral part of everyday life spanning all demographics. The ability to reach consumers at such a personal level increases the effectiveness of marketing campaigns. The experience starts in the mall but can be extended by the users. The user can easily share the content with others around the world, further extending the reach of a campaign.

Our technology permits delivery to virtually any mobile device and properly formats each message to ensure that every user receives the best possible experience. Results are fully trackable giving campaigns a true level of accountability.

Mobiquity Networks platform uses Bluetooth and WiFi to ensure the broadest reach possible and they are:

- Compatible with over 1,800 unique mobile devices;
- Compatible with smartphones (iPhone, Android, Palm, HTC) as well as non-smartphones;
- Do not need to download an additional application; and
- The message content is free for each end-user.

How It Works

Relevant & Engaging Content

Delivering the right content in the right context to a mobile phone is a powerful method to personally influence individuals.

We have the ability to deliver a variety of rich media at no cost to the consumer based on location or time of day, including the following:

- Videos: Movie Trailers, Exclusive Videos, Commercials;
- Coupons: Discounts and offers for current and prospective customers;

Images: Album Covers, Action Shots, Wallpapers;

Games: Mobile games (partial free play, purchase full game);

Ringtones: Mp3's, Voice Tones, Soundtracks;

Applications: Mobile applications (partial free, purchase full); and

Calendar Appointments: Reminders.

Our technology can simultaneously transmit multiple pieces of content during one campaign (e.g. video and a coupon) utilizing our technology. In our proximity marketing networks,

- We can deliver virtually any digital file that is viewable on mobile device,

- Most common types of content are videos, images, ring-tones, coupons, animated gifts, and

We keep all files as small as possible without compromising quality to ensure quick delivery and sufficient memory on mobile device (400 – 750 Kb).

Life of the Digital File

Each of our client's digital content becomes an extension of the engagement, provides shoppers with the ability to share the experience and has advantages over other forms of advertising:

- *Mobile content is timeless advertising*
- *Downloaded files remain on the phone until removed by the user*
- *One download often equates to multiple views over time*
- *Wallpaper for instance will be viewed numerous times per day) providing residual value for the advertiser*
- *Digital Files can be shared across social networks*
- *Fans spread content quickly around the world via e-mail, MMS,(i.e. multi-media messaging services) and social networking sites like Facebook, Twitter and MySpace resulting in additional downloads and exposure at no additional cost to the advertiser.*

Bluetooth is a universal communications protocol primarily designed for low power consumption enabling devices to communicate with each other when they are in range. Bluetooth has the following characteristics:

- Devices do not have to be in line of sight (transmission range of up to 300ft);
- Popular devices include mobile phones, laptops, smart-phones, headsets, video-game controllers;

 - FCC compliant,
 - Not considered SPAM advertising, and
 - An effective method of delivering numerous types of digital media.
- WiFi allows for compatibility with additional handsets via HTML web browsing and
- WiFi is the only way to communicate with Apple's iPhone (Bluetooth not capable of file transfer),
 - Apple has sold over an estimated 40 million iPhones to date, and
 - Newer more advanced models are integrating WiFi (Blackberry Bold, Google G1).
- WiFi has important complements to Bluetooth inasmuch as WiFi has
 - Interactive browsing of content ,

· Allows users to choose the content they want (push vs. pull),

· Fast transmission speeds, and

· Strong signal enables longer transmission range.

WiFi usage is familiar to consumers

Most users have a pre-existing knowledge base and experience connecting to and utilizing WiFi networks (short learning curve).

Mobiquity’s network is currently in 75 malls representing over 96 million visits per month. Fifty of the malls that Mobiquity currently operates are owned by Simon Property Group. The remaining 25 mall locations are owned by Macerich. Simon Property Group and Macerich are two of the largest mall operators in the U.S.

For the exclusive use of Bluetooth throughout the common areas of their top 50 malls until December, 2015, the Company paid Simon Property Group a one-time \$250,000 rights fee and pays \$1,000 per month per mall. The agreement with Simon also allows for non-exclusive use of Wi-Fi.

The Company is currently installed in 25 Macerich malls throughout the US. Macerich currently has 76 shopping malls in the US and had over 650 million shopping visits in 2010. Expanding throughout the Macerich mall portfolio is under Management consideration.

Growth Strategy

Location-Based Mobile Marketing combined with Out-Of-Home Advertising results in strong opt-in rates due to proximity of the Network. Management believes that we have the first Location-Based Mobile Marketing Company focused on US shopping malls and we have built and control the only national proximity marketing mall network. Our exclusive five-year contract executed in June 2010 with leading Out-Of-Home advertising company, Eye Corp., enables us to remain a leader in US malls. Eye Corp. is a subsidiary of Ten Network Holdings, a public company with its headquarters in Australia. Eye Corp. has an exclusive agreement with Simon Malls to manage their non-digital assets in all mall properties and has a full-time sales force that maintains relationships with several hundred brands.

Agreement with Simon Property Group, L.P.

In April 2011, we signed an exclusive rights agreement with the Simon Property Group to create a location-based mobile marketing network called Mobiquity Networks. The 50 mall agreement runs through December of 2015 and includes top malls in the Simon Property Group's mall portfolio. This alliance provides advertisers the opportunity to reach millions of mall visitors per month with mobile digital content and offers when they are most receptive to advertising messages.

In connection with Eye Corp., Mobiquity Networks will deliver digital content and special offers to shoppers on their mobile devices through Eye Corp's extensive mall advertising network. Eye Corp and Mobiquity Networks have an exclusive agreement to build a location-based mobile marketing network throughout Eye Corp's Mall Advertising network.

Our location-based mobile advertising medium is designed to reach on-the-go shoppers via their mobile devices with free rich media content delivered using Bluetooth or Wi-Fi. This advertising medium offers extremely targeted

messaging engineered to engage and influence shoppers as they move about the mall environment. Eye Corp. and our company will jointly create mobile marketing programs for existing clients in conjunction with their already active in mall advertising programs. Mobiquity Networks proximity marketing units will be strategically positioned in shopping malls near entrances, anchor stores, escalators and other high-traffic, and high dwell-time areas. Mobiquity Networks proximity marketing unit placement takes advantage of the opportunity to provide a reminder to consumers and touch them just before making a purchase decision. These units generate high awareness and brand recognition at the right time and place. When combined with the impact of other visual advertising mediums (in mall assets) or as a stand-alone medium, Mobiquity Networks is a great mobile solution to promote a brand on a local or national level.

Our Distribution and Marketing Strategy

Key elements of our distribution and marketing strategy are as follows:

We have created a suite of solutions for one stop shopping. With our suite of solutions in place, Ace now offer its clients and potential clients the ability to work smarter in addressing their marketing needs by leveraging technology platforms. The services and technology platforms assembled provide our clients with an exceptional mix of solutions for reaching their customers in ways that were previously impossible. Clients have the ability to choose a single marketing or a complete package of solutions working together seamlessly. By offering the entire suite of solutions, the need for multiple vendors has been eliminated, and Ace can be a single source provider of brand marketing, advanced integrated marketing platforms, mobile marketing, social networks, website development and digital media.

We have partnered with leading companies for our proximity marketing business. We have partnered with Blue Bite LLC. (“Blue Bite”), a premier provider of Proximity Marketing hardware and software solutions, and Eye Corp Pty Ltd., (“EyeCorp”) an out-of-home media company which operates the largest mall advertising display network in the United States, to roll-out an expansive network which comprises of retail, dining, transportation, sporting, music, and other high traffic venues. As a result of such relationships, in April 2011, we were able to enter into an exclusive rights agreement with the Simon Property Group to create a location-based mobile marketing network in top malls across the United States in the Simon mall portfolio. This alliance provides advertisers the opportunity to reach millions of mall visitors a month with mobile digital content and offers when they are most receptive to advertising messages.

Creating awareness of our products, services and facilities. Our revenues are derived from existing customers and new customers through word of mouth recommendations, attendance at trade shows, our sales representatives and advertising and promotion in trade journals.

Our company was built as a platform with significant growth potential. Scalability is the key and we have separate departments with defined roles which will help our sales persons to sell and facilitate our growth. In many other distributorships, the sales person is often responsible for everything from answering phones, doing all their own research, processing orders, billing, tracking and collections. At our Company, we provide full support to our staff to ensure that our salespersons are focused on selling. Our proprietary technology (Axxion Platform) allows us the ability to pick up sales people from any location in the United States.

Providing generous incentives to our sales people to increase performance levels. We offer competitive commissions in addition to back office support and research assistance to allow our independent sales representatives to optimize their sales time and to provide them with adequate incentives to sell promotional products to our customers rather than for our competitors. We also offer a stock option program for additional incentives.

Provide research, consulting, design and fulfillment services to our customers to increase profitability. We design promotional products for our customers and provide consulting services in connection therewith. We utilize licensed research software technology and order entry systems in conjunction to our own proprietary software that enables us to provide the best services to our customers in the timeliest fashion possible.

Sales and Marketing

Our revenues for brand marketing, advanced integrated marketing platforms, mobile marketing, social networks, website development and digital media. are derived from existing customers and new customers through word of mouth recommendations, attendance at trade shows, our sales representatives and advertising and promotion in trade journals. Our Ace Marketing website is utilized for multiple purposes, including providing information to potential customers who want to learn about us and research our available product line. With the exception of our two executive officers, our sales representatives receive commissions and are not paid a salary. They work at their own location(s) or at our facility and may sell products on behalf of other companies. We encourage our sales representatives to sell promotional products for us on the basis of sales incentives which include competitive commissions and appropriate sales support and research which are provided in-house by our employees. Our revenues for mobile marketing are derived through our relationship with Eye Corp. and our own sales marketing representatives. Eye Corp. has an exclusive agreement with Simon Malls to manage their non-digital assets in all mall properties and has a full-time sales force which maintains relationships with over 800 brands. The sales team of Eye Corp. will be paid a commission on any Mobiquity proximity products and sales.

Competition

Our website development and digital media divisions compete against thousands of small, medium and large companies throughout the United States. We can provide no assurances that our business will be able to compete in these business divisions against other companies that may have more financial resources and greater experience than the Company.

With respect to our branding and branded merchandise (promotional products vertical), while our competition in this business vertical is extensive with over 20,000 distributors, we believe that there are no companies that dominate the market in which we operate. Our Company competes within the industry on the basis of service, competitive prices, personnel relationships and competitive commissions to our sales representatives to sell promotional products for us rather than our competitors. Competitors' advantages over us may include better financing, greater experience, lower margins and better personal relationships than us.

According to the Promotional Products Association International, with no single company dominating the market, the promotional products industry is highly fragmented with 21,150 distributors in the industry with revenues of less than \$2.5 million and 864 distributors with revenues of \$2.5 million or more. According to The Counselor – State of the Industry 2011 Survey, the top ten distributors in our industry are believed to have 2010 North American sales of over \$2 billion. Staples, Pro Forma Inc., BDA, Group II Communications/IMS, and 4 Imprint were the top five distributors of 2010 with estimated sales of \$364 million, \$269 million, \$256 million, \$223 million and \$190 million, respectively. Nearly 80% of the distributors surveyed are reported to be privately owned family businesses. Management believes that control of sales lies predominantly with the independent sales representatives, as there is little brand recognition at this time.

We believe that in the promotional products industry, sales people typically have a large amount of autonomy and control the relationships with their customers. This works both for and against us. To avoid losing customers, we must provide the appropriate incentives to keep sales people. At the same time, while there can be no assurances, management believes our company will be able to obtain new customers by luring sales people away from competitors. The offering of stock incentives and health care benefits are ways to retain sales people, especially in an industry where these types of benefits are rare.

Employees

As of March 14, 2013, we had 16 full time employees, including a chief financial officer, three additional executive officers who provide in-house sales, and eight support staff employees, who also provide sales. We also utilize eight sales representatives of which four are employees who provide services on an exclusive basis and four additional persons who provide services to us on a non-exclusive basis as independent consultants.

DESCRIPTION OF PROPERTY

In February 2012, the Company entered into a 63-month lease agreement for new executive office space of approximately 4,200 square feet located at 600 Old Country Road, Garden City, NY 11530. The annual rent under this office facility for the first year is estimated at \$127,000, including electricity, subject to an annual increase of 3%. In the event of a default in which the Company is evicted from the office space, Ace would be responsible to the landlord for an additional payment of rent of \$160,000 in the first year of the lease, an additional payment of \$106,667 in the second year of the lease and an additional payment of rent of \$53,333 in the third year of the lease. Such additional rent would be payable at the discretion of the Company in cash or in Common Stock of the Company.

We also lease approximately 2,000 square feet of space, expiring in November 2013, at an annual cost of approximately \$28,000 (inclusive of taxes) at 1105 Portion Road, Farmingville, NY 11738.

LEGAL PROCEEDINGS

We are currently not involved in any litigation that we believe could have a material adverse effect on our financial condition or results of operations. There is no action, suit, proceeding, inquiry or investigation before or by any court, public board, government agency, self-regulatory organization or body pending or, to the knowledge of the executive officers of our company or any of our subsidiaries, threatened against or affecting our company, our common stock, any of our subsidiaries or of our companies or our subsidiaries' officers or directors in their capacities as such, in which an adverse decision could have a material adverse effect.

MANAGEMENT'S DISCUSSION AND ANALYSIS OF FINANCIAL CONDITION

AND RESULTS OF OPERATIONS

We generated revenues of \$2,890,652 for 2012 compared to \$3,243,318 in 2011. The decrease in revenues of \$352,666 in 2012 compared to 2011 is due to the state of the economy and the additional sales time it is taking to develop our Mobiquity Networks and Venn Media sales.

Cost of revenues was \$2,170,265 or 75.1% of revenues for 2012 compared to \$2,417,834 or 74.5% of revenues for 2011. Cost of revenues includes purchases and freight costs associated with the shipping of merchandise to our customers.

Gross profit was \$720,387 for 2012 or 24.9% of net revenues compared to \$825,484 in the same period of 2011 or 25.5% of revenues. Gross profits will vary period-to-period depending upon a number of factors including the mix of items sold, pricing of the items and the volume of product sold. Also, it is our practice to pass freight costs on to our customers.

Selling, general, and administrative expenses were \$4,667,122 for 2012 as compared to \$3,033,448 for 2011. Such costs include payroll and related expenses, commissions, insurance, rents, professional, consulting and public awareness fees. The overall increase of \$1,633,674 was primarily due to a \$397,424 increase in rents for our proximity marketing division, \$242,679 increase in payroll and \$1,006,686 increase in non-cash stock based compensation.

Our loss from operations was \$(3,946,735) for 2012 compared to a net loss of \$(2,207,964) for 2011. Our increase in our loss from operations for 2012 as compared to the comparable period of the prior year was primarily due to the general state of the economy, the additional sales time it is taking to develop our Mobiquity Networks and Venn Media sales and substantial increases in non-cash stock based compensation, rent and payable payroll expense as described herein. No benefit for income taxes is provided for 2012 and 2011 due to the full valuation allowance on the net deferred tax assets. Our ability to be profitable in the future is dependent upon both a turnaround in the United States economy and the successful introduction and usage of our proximity marketing services by our clients.

Recent Developments

On March 7, 2013, the Company acquired the assets of FuturLink in exchange for an undisclosed amount of cash, which cash was paid from the Company's current working capital. These assets include, without limitation, the FuturLink technology (patents and source codes), trademark(s) and access point (proximity marketing) component parts.

As the technology owner, the Company realized immediate cost savings and will leverage the hardware and software included in its purchase to expand its mall-based footprint in the United States. The acquisition of FuturLink's technology and corresponding patents provides the Company with vertical integration and provides it with flexibility and autonomy. By owning the technology, the Company has the ability to do the following:

- Increase download speed for both Bluetooth and Wi-Fi,
- Add customer dashboard for real-time reporting of campaign statistics,
- Implementation of a rewards program to increase download loyalty,
- Ability to deliver apps directly via Bluetooth and Wi-Fi
- Reduce cost of proximity marketing units by approximately 60-70% and
- Eliminate the payment of licensing fees to FuturLink of approximately \$175,000 per annum.

Mobiquity Networks

In February 2012, we announced our plans to have the architecture for our proprietary mobile marketing solutions; "Mall-Offers Wi-Fi" and "mallooffers.com" completed by the end of the first quarter of 2012 and that we begin to rollout the solutions on our nationwide Mobiquity Network. Although the architecture for "Mall-Offers" is complete, we were unable to begin the rollout due to capital restraints. We do expect to begin the rollout by the beginning of the third quarter of 2013, assuming we have the capital to do so.

Mobiquity Networks is currently operational in 75 malls across the US and has access to approximately 96 million shopper visits per month.

The Mall-Offers Platform will list specials from retailers in each mall throughout the Mobiquity Network. The specials will be accessible on the secured Wi-Fi network that Mobiquity has already installed in each of its 75 malls across the US. Shoppers with smart phones will simply connect to “Mall-Offers Wi-Fi” and browse by either retailer or category on their mobile device. The solution will not require the shopper to download an app and access to Mall Offers will be completely free for the user. Malloffers.com is a website that aggregates all of the special offers, coupons and discounts offered by all of the participating retailers in all of the malls within the Mobiquity Network. Consumers will have the ability to search for specials by mall, store name or category prior to going to the mall or on their mobile devices. This will help the consumer to choose which mall to visit as well as which store within the mall to purchase their item of interest. The website will also offer consumers the ability to register for special alerts from their favorite stores. The consumer can choose to receive an email or text whenever their favorite store has a special offer.

Our Mall-Offers Platform should help address the mobile marketing industry’s single largest issue, which is delivering relevant offers to consumers at the point of purchase. Management believes that most mall retailers desire to have a mobile marketing strategy but haven’t figured out how to get in front of consumers at the point of sale. The Mall-Offers Platform gives us the ability to offer the hundreds of retailers in each mall within the Mobiquity Network a true mobile marketing solution. In 2012 both companies and their sales agencies now realize the implementation of a mobile strategy is now a necessity. The activation needs to go beyond simple banner and pop-up ads on a mobile website or the development of an app. Consumers are seeking relevant content and valuable offers, not ambush advertising. The new Mall Offers Wi-Fi Network will give retailers and company brands access to consumers and consumers’ access to the offers they want to see.

As a result of the foregoing, Management is excited about the sales prospects that it expects to have across our network in the upcoming months.

Liquidity and Capital Resources

The Company had cash and cash equivalents of \$362,598 at December 31, 2012.

Cash used by operating activities for the year ended December 31, 2012 was \$(2,124,033). This resulted primarily from a net loss of \$4,134,061, partially offset by stock based compensation of \$1,481,242, a decrease in accounts receivable and prepaid expenses of \$149,972 and depreciation and amortization of \$233,825. Cash was used in investing activities of \$272,013, which funds were used to acquire property and equipment primarily for purchases of proximity marketing boxes. Cash provided by financing activities of \$2,153,081 was the result of the sale of our company common stock of \$1,887,556 and \$265,525 in proceeds received from a secured loan transaction pursuant to which Ace borrowed \$350,000 in principal due December 12, 2013.

Cash used by operating activities for the year ended December 31, 2011 was \$(1,786,001). This resulted primarily from a net loss of \$2,209,508 and an increase in accounts payable and accrued expenses of \$179,680, partially offset by stock based compensation of \$474,556 and a increase in accounts receivable of \$236,032. Cash was used in investing activities of \$594,744, which funds were used to acquire property and equipment primarily for purchases of proximity marketing boxes. Cash provided by financing activities of \$2,222,727 was the result of the sale of our company common stock.

Our company commenced operations in 1998 and was initially funded by our three founders, each of whom has made demand loans to our Company that have been repaid. Since 1999, we have relied on equity financing and borrowings from outside investors to supplement our cash flow from operations.

We anticipate that our future liquidity requirements will arise from the need to finance our accounts receivable and inventories, hire additional sales persons and capital expenditures. The primary sources of funding for such requirements will be cash generated from operations, raising additional capital from the sale of equity or other securities and borrowings under debt facilities which currently do not exist. We believe that we can generate sufficient cash flow from these sources to fund our operations for at least the next fifteen months.

Critical Accounting Policies

Our discussion and analysis of our financial condition and results of operations are based upon our financial statements, which have been prepared in accordance with generally accepted accounting principles in the United States. The preparation of financial statements requires management to make estimates and disclosures on the date of the financial statements. On an on-going basis, we evaluate our estimates including, but not limited to, those related to revenue recognition. We use authoritative pronouncements, historical experience and other assumptions as the basis for making judgments. Actual results could differ from those estimates. We believe that the following critical accounting policies affect our more significant judgments and estimates in the preparation of our financial statements.

Revenue Recognition

Revenue is recognized when title and risk of loss transfers to the customer and the earnings process is complete. In general, title passes to our customers upon the customer's receipt of the merchandise. Revenue is recognized on a gross basis since the Company has the risks and rewards of ownership, latitude in selection of vendors and pricing, and bears all credit risk. Advance payments made by customers are included in customer deposits.

Allowance for Doubtful Accounts

We are required to make judgments based on historical experience and future expectations, as to the realizability of our accounts receivable. We make these assessments based on the following factors: (a) historical experience, (b) customer concentrations, customer credit worthiness, (d) current economic conditions, and (e) changes in customer payment terms.

Our business, property and affairs are managed by, or under the direction of, our Board, in accordance with the General Corporation Law of the State of New York and our By-Laws. Members of the Board are kept informed of our business through discussions with the Chief Executive Officer and other key members of management, by reviewing materials provided to them by management.

We continue to review our corporate governance policies and practices by comparing our policies and practices with those suggested by various groups or authorities active in evaluating or setting best practices for corporate governance of public companies. Based on this review, we have adopted, and will continue to adopt, changes that the Board believes are the appropriate corporate governance policies and practices for our Company. We have adopted changes and will continue to adopt changes, as appropriate, to comply with the Sarbanes-Oxley Act of 2002 and subsequent rule changes made by the SEC and any applicable securities exchange.

Director Qualifications and Diversity

The board seeks independent directors who represent a diversity of backgrounds and experiences that will enhance the quality of the board's deliberations and decisions. Candidates shall have substantial experience with one or more publicly traded companies or shall have achieved a high level of distinction in their chosen fields. The board is particularly interested in maintaining a mix that includes individuals who are active or retired executive officers and senior executives, particularly those with experience in the finance and capital market industries.

In evaluating nominations to the Board of Directors, our Board also looks for certain personal attributes, such as integrity, ability and willingness to apply sound and independent business judgment, comprehensive understanding of a director's role in corporate governance, availability for meetings and consultation on Company matters, and the willingness to assume and carry out fiduciary responsibilities. Qualified candidates for membership on the Board will be considered without regard to race, color, religion, sex, ancestry, national origin or disability.

Risk Oversight

Enterprise risks are identified and prioritized by management and each prioritized risk is assigned to the full board for oversight. These risks include, without limitation, the following:

- Risks and exposures associated with strategic, financial and execution risks and other current matters that may present material risk to our operations, plans, prospects or reputation.

- Risks and exposures associated with financial matters, particularly financial reporting, tax, accounting, disclosure, internal control over financial reporting, financial policies, investment guidelines and credit and liquidity matters.

- Risks and exposures relating to corporate governance; and management and director succession planning.

- Risks and exposures associated with leadership assessment, and compensation programs and arrangements, including incentive plans.

Board Leadership Structure

In accordance with the Company's By-Laws, the Chairman of the Board presides at all meetings of the Board. Since the Company does not have a Chairman of the Board, the By-Laws of the Corporation require the President, Michael Trepeta, who also serves as Co -Chief Executive Officer, to serve as the Chairman of the Board and to preside at all meetings. Currently, the offices of President (who serves as Chairman of the Board and Co- Chief Executive Officer) are not separated. The Company has no fixed policy with respect to the separation of the offices of the Chairman of the Board and Chief Executive Officer. The Board believes that the separation of the offices of the Chairman of the Board and Chief Executive Officer is likely is in the best interests of the Company.

Indemnification

The New York Business Corporation Law contains provisions permitting and, in some situations, requiring New York corporations to provide indemnification to their officers and directors for losses and litigation expense incurred in connection with their service to the corporation. Our articles and bylaws contain provisions requiring our indemnification of our directors and officers and other persons acting in their corporate capacities.

In addition, we may enter into agreements with our directors providing contractually for indemnification consistent with the articles and bylaws. Currently, we have no such agreements. The New York Business Corporation Law also authorizes us to purchase insurance for our directors and officers insuring them against risks as to which we may be unable lawfully to indemnify them. We intend to obtain limited insurance coverage for our officers and directors as well as insurance coverage to reimburse us for potential costs of our corporate indemnification of officers and directors.

As far as exculpation or indemnification for liabilities arising under the Securities Act of 1933 may be permitted for directors and officers and controlling persons, we have been advised that in the opinion of the Securities and Exchange Commission such exculpation or indemnification is against public policy as expressed in the Act and is, therefore, unenforceable.

Board Committees

Our Company has no audit, compensation or nominating committees of our board of directors or committees performing similar functions. Domenico Iannucci and Thomas Arnost are the Company's "independent directors." Mr. Arnost is a "financial expert", but Mr. Iannucci is not deemed a "financial expert."

Under the National Association of Securities Dealers Automated Quotations definition, an “independent director” means a person other than an officer or employee of the Company or its subsidiaries or any other individuals having a relationship that, in the opinion of the Company’s board of directors, would interfere with the exercise of independent judgment in carrying out the responsibilities of the director. The board’s discretion in determining director independence is not completely unfettered. Further, under the NASDAQ definition, an independent director is a person who (1) is not currently (or whose immediate family members are not currently), and has not been over the past three years (or whose immediate family members have not been over the past three years), employed by the company; (2) has not (or whose immediate family members have not) been paid more than \$60,000 during the current or past three fiscal years; (3) has not (or whose immediately family has not) been a partner in or controlling shareholder or executive officer of an organization which the company made, or from which the company received, payments in excess of the greater of \$200,000 or 5% of that organizations consolidated gross revenues, in any of the most recent three fiscal years; (4) has not (or whose immediate family members have not), over the past three years been employed as an executive officer of a company in which an executive officer of Ace has served on that company’s compensation committee; or (5) is not currently (or whose immediate family members are not currently), and has not been over the past three years (or whose immediate family members have not been over the past three years) a partner of Ace’s outside auditor.

The term “Financial Expert” is defined under the Sarbanes-Oxley Act of 2002, as amended, as a person who has the following attributes: an understanding of generally accepted accounting principles and financial statements; has the ability to assess the general application of such principles in connection with the accounting for estimates, accruals and reserves; experience preparing, auditing, analyzing or evaluating financial statements that present a breadth and level of complexity of accounting issues that are generally comparable to the breadth and complexity of issues that can reasonably be expected to be raised by the company’s financial statements, or experience actively supervising one or more persons engaged in such activities; an understanding of internal controls and procedures for financial reporting; and an understanding of audit committee functions.

The Company may in the future form an audit committee to consist of one or more independent directors. In the event an audit committee is established, of which there can be no assurances given, its first responsibility would be to adopt a written charter. Such charter would be expected to include, among other things:

- being directly responsible for the appointment, compensation and oversight of our independent auditor, which shall report directly to the audit committee, including resolution of disagreements between management and the auditors regarding financial reporting for the purpose of preparing or issuing an audit report or related work;

- annually reviewing and reassessing the adequacy of the committee's formal charter;

- reviewing the annual audited financial statements with our management and the independent auditors and the adequacy of our internal accounting controls;

- reviewing analyses prepared by our management and independent auditors concerning significant financial reporting issues and judgments made in connection with the preparation of our financial statements;

- reviewing the independence of the independent auditors;

- reviewing our auditing and accounting principles and practices with the independent auditors and reviewing major changes to our auditing and accounting principles and practices as suggested by the independent auditor or its management;

- reviewing all related party transactions on an ongoing basis for potential conflict of interest situations; and

- all responsibilities given to the audit committee by virtue of the Sarbanes-Oxley Act of 2002, which was signed into law by President George W. Bush on July 30, 2002.

Code of Ethics

The Company has a code of ethics that applies to the Company's Chief Executive Officer and Chief Financial Officer, which has been designed to deter wrongdoing and to promote:

- Honest and ethical conduct, including the ethical handling of actual or apparent conflicts of interest between personal and professional relationships;

£ Full, fair, accurate, timely and understandable disclosure in reports and documents that the Company files with, or submits to, the SEC and in other public communications made by the Company;

£ Compliance with applicable governmental law, rules and regulations;

£ The prompt internal reporting of violations of the code of ethics to an appropriate pre-identified person; and

£ Accountability for adherence to the code of ethics.

Compliance with Section 16(A) of the Exchange Act

Section 16(a) of the Securities Exchange Act of 1934, as amended, requires our officers and directors, and persons who own more than ten percent of a registered class of our equity securities, to file reports of ownership and changes in ownership with the Securities and Exchange Commission (the "Commission"). Officers, directors and greater than ten percent stockholders are required by the Commission's regulations to furnish us with copies of all Section 16(a) forms they file. During fiscal 2012, Messrs. Thomas Arnost, Domencio Iannucci, Sean Trepeta each filed a form 4 late with the Commission. Mr. Sean Trepeta also filed a form 3 late with the Commission. To the best of the knowledge of the Company's directors and officers, no other form 4's or form 3's were filed late with the Commission by officers directors or greater than 10% stock holders.

EXECUTIVE COMPENSATION

The following table sets forth the overall compensation earned over the fiscal year ended December 31, 2012 and 2011 by (1) each person who served as the principal executive officer of the Company during fiscal year 2012 and 2011; (2) the Company's most highly compensated (up to a maximum of two) executive officers as of December 31, 2012 and 2011 with compensation during fiscal year 2012 and 2011 of \$100,000 or more; and (3) those two individuals, if any, who would have otherwise been included in section (2) above but for the fact that they were not serving as an executive of the Company as of December 31, 2011. (Note: Sean Trepeta has been included in the table below as it is expected that he will earn more than \$100,000 in cash compensation for 2012.)

The options and restricted stock awards presented in this table for fiscal 2011 and 2012 reflects the full grant date fair value, as if the total dollar amount were earned in the year of grant. The stock awards are valued based on the fair market value of such Shares on the date of grant and are charged to compensation expense over the related (1) vesting period. The options are valued at the date of grant based upon the Black-Scholes method of valuation, which is expensed over the service period over which the options become vested. As a general rule, for time-in-service-based options, the Company will immediately expense any option or portion thereof which is vested upon grant, while expensing the balance on a pro rata basis over the remaining vesting term of the option.

(2) Includes all other compensation not reported in the preceding columns, including (i) perquisites and other personal benefits, or property, unless the aggregate amount of such compensation is less than \$10,000; (ii) any "gross-ups" or other amounts reimbursed during the fiscal year for the payment of taxes; (iii) discounts from market price with respect to securities purchased from the company except to the extent available generally to all security holders or to all salaried employees; (iv) any amounts paid or accrued in connection with any termination (including without limitation through retirement, resignation, severance or constructive termination, including change of responsibilities) or change in control; (v) contributions to vested and unvested defined contribution plans; (vi) any insurance premiums paid by, or on behalf of, the company relating to life insurance for the benefit of the named executive officer; and (vii) any dividends or other earnings paid on stock or option awards that are not factored into the grant date fair value required to be reported in a preceding column.

(3) Includes compensation for service as a director described under Director Compensation, below.

(4)

Dean L. Julia	Co-Chief Executive Officer	\$ 26,000	Annual bonus of at least 5% of pre-tax earnings
Michael Trepeta	Co-Chief Executive Officer	\$ 26,000	Annual bonus of at least 5% of pre-tax earnings

Compensation of each executive officer named in the table above has his monthly base salary increased by \$2,000 each subsequent March 1st during the term of the agreement and any extensions thereof. The next scheduled (1) salary increase to \$28,000 per month was scheduled to occur on March 1, 2013; however, Messrs. Julia and Trepeta have deferred the salary increase as of March 1, 2013 and they may elect to take the deferred salary increase at a later date either in cash and/or in stock.

Annual bonuses are paid by us by the last business day of March for the preceding calendar (fiscal) year, except in (2) the event of termination prior to the end of any fiscal year (other than termination for cause), a pro rata portion of the annual bonus shall be paid within 30 days of termination.

A summary of each Executive's employment agreement, as amended, is as follows:

As of March 1, 2013, each Executive's Employment Agreement currently expires on the February 28, 2018 and automatically renews for a period of one year thereafter effective on March 1st of each new calendar year unless the Employment Agreement is terminated in accordance with its terms on or prior to December 30th of the prior calendar year. Each Executive may terminate his Employment Agreement upon written three-month notice. In such event, the Company shall be relieved of all of its obligations under the Agreement, except for payment of the Executive's Base Salary and Annual Bonus earned and unpaid through the effective date of termination, those obligations with respect to indemnification and director and officer insurance and severance pay as described below.

We may terminate the Executive's employment for cause ("Cause") as defined in the Agreement. In the event this Agreement is terminated for cause, the Executive's Base Salary and any unearned Annual Bonus, severance pay and all benefits shall terminate immediately upon such discharge, and we shall have no further obligations to the Executive except for payment and reimbursement for any monies due which right to payment or reimbursement accrued prior to such termination.

We may terminate this Agreement upon the disability as defined in the Agreement or death of the Executive by giving written notice to the Executive. In the case of disability, such termination will become effective immediately upon the giving of such notice unless otherwise specified by us. Upon any such termination, we shall be relieved of all our obligations under the Executive's employment, except for payment of the Executive's Base Salary and Annual Bonus earned and unpaid through the effective date of termination and severance pay.

In the event of termination by the Company of Executive's Employment Agreement without cause, then the Executive shall be entitled to receive on the termination date termination pay of one-year base salary based upon the scheduled annual salary of each executive officer for the next contract year, plus the amount of bonuses paid or entitled to be paid to the executive for the current fiscal year or the preceding fiscal year, whichever is higher. In the event of termination, the executives will continue to receive all salary and benefits included in the employment agreement through the scheduled expiration date of said employment agreement prior to the acceleration of the termination date thereof.

We have agreed to defend and indemnify each Executive in his capacity as an officer against all claims, judgments, damages, liabilities, costs and expenses (including reasonable attorney's fees) arising out of, based upon, or related to his performance of services to us, to the maximum extent permitted under law. We will also use our reasonable best efforts to include each Executive as an insured under all applicable directors' and officers' liability insurance policies maintained by us.

Each Executive is currently entitled to the following additional benefits:

\$2,000 per month pay raise on each March 1 during the term of the Agreement and any extension thereof;

Employee Benefit and Consulting Services Compensation Plans

On January 3, 2005, our company established an Employee Benefit and Consulting Services Compensation Plan (the "2005 Plan") covering 2,000,000 shares, which 2005 Plan was ratified by our stockholders on February 9, 2005. On August 12, 2005, the company's stockholders approved a 2,000,000 share increase in the 2005 Plan to 4,000,000 shares. On August 28, 2009, the Board adopted the "2009 Plan" identical to the 2005 Plan with 4,000,000 shares under the 2009 Plan. All references to "the Plans" include the 2005 Plan and 2009 Plan.

Administration

Our board of directors administers the 2005 Plan, has the authority to determine and designate officers, employees, directors and consultants to whom awards shall be made and the terms, conditions and restrictions applicable to each award (including, but not limited to, the option price, any restriction or limitation, any vesting schedule or acceleration thereof, and any forfeiture restrictions). The board may, in its sole discretion, accelerate the vesting of awards.

Types of Awards

The Plans are designed to enable us to offer certain officers, employees, directors and consultants of us and our subsidiaries equity interests in us and other incentive awards in order to attract, retain and reward such individuals and to strengthen the mutuality of interests between such individuals and our stockholders. In furtherance of this purpose, the Plans contain provisions for granting non-statutory stock options and incentive stock options and common stock awards.

Stock Options. A "stock option" is a contractual right to purchase a number of shares of common stock at a price determined on the date the option is granted. An incentive stock option is an option granted under the Internal Revenue Code of 1986 to our employees with certain tax advantages to the grantee over non-statutory stock options. The option price per share of common stock purchasable upon exercise of a stock option and the time or times at

which such options shall be exercisable shall be determined by the Board at the time of grant. Such option price in the case of incentive stock options shall not be less than 100% of the fair market value of the common stock on the date of grant and may be granted below fair market value in the case of non-statutory stock options. Incentive stock options granted to owners of 10% or more of our common stock must be granted at an exercise price of at least 110% of the fair market value of our common stock and may not have a term greater than five years. Also, the value of incentive options vesting to any employee cannot exceed \$100,000 in any calendar year. The option price of our options must be paid in cash, money order, check or common stock of the company. The non-statutory stock options may also contain at the time of grant, at the discretion of the board, certain other cashless exercise provisions. These cashless exercise provisions are included in the currently outstanding non-statutory stock options granted by the board.

Options shall be exercisable at the times and subject to the conditions determined by the Board at the date of grant, but no option may be exercisable more than ten years after the date it is granted. If the optionee ceases to be an employee of our company for any reason other than death, any incentive stock option exercisable on the date of the termination of employment may be exercised for a period of thirty days or until the expiration of the stated term of the option, whichever period is shorter. In the event of the optionee's death, any incentive stock option exercisable at the date of death may be exercised by the legal heirs of the optionee from the date of death until the expiration of the stated term of the option or six months from the date of death, whichever event first occurs. In the event of disability of the optionee, any incentive stock options shall expire on the stated date that the Option would otherwise have expired or 12 months from the date of disability, whichever event first occurs. The termination and other provisions of a non-statutory stock option shall be fixed by the board of directors at the date of grant of each respective option.

Common Stock Award. Common stock awards are shares of common stock that will be issued to a recipient at the end of a restriction period, if any, specified by the board if he or she continues to be an employee, director or consultant of us. If the recipient remains an employee, director or consultant at the end of the restriction period, the applicable restrictions will lapse and we will issue a stock certificate representing such shares of common stock to the participant. If the recipient ceases to be an employee, director or consultant of us for any reason (including death, disability or retirement) before the end of the restriction period unless otherwise determined by the board, the restricted stock award will be terminated.

Awards

As of December 31, 2012, the Company has granted options to purchase 4,575,000 shares of the Company's Common Stock with a weighted average exercise price of \$.76 per share under the Plans. The board has granted options with varying terms.

It is not possible to predict the individuals who will receive future awards under the Plan or the number of shares of Common Stock covered by any future award because such awards are wholly within the discretion of the Board. The table below contains information as of December 31, 2012 on the known benefits provided to certain persons and group of persons under the Plan.

Disclosure of Commission Position on Indemnification for Securities Act Liabilities

The Company's Amended and Restated Bylaws provide for indemnification of directors and officers against certain liabilities. Officers and directors of the Company are indemnified generally for any threatened, pending or completed action, suit or proceeding, whether civil, criminal, administrative or investigative, except an action by or in the right of the corporation, against expenses, including attorneys' fees, judgments, fines and amounts paid in settlement actually and reasonably incurred by him in connection with the action, suit or proceeding if he acted in good faith and in a manner which he reasonably believed to be in or not opposed to the best interests of the corporation, and, with respect to any criminal action or proceeding, has no reasonable cause to believe his conduct was unlawful.

The Company's Amended and Restated Articles of Incorporation further provides the following indemnifications:

(a) a director of the Corporation shall not be personally liable to the Corporation or to its shareholders for damages for breach of fiduciary duty as a director of the Corporation or to its shareholders for damages otherwise existing for (i) any breach of the director's duty of loyalty to the Corporation or to its shareholders; (ii) acts or omission not in good faith or which involve intentional misconduct or a knowing violation of the law; (iii) acts revolving around any unlawful distribution or contribution; or (iv) any transaction from which the director directly or indirectly derived any improper personal benefit. If New York Law is hereafter amended to eliminate or limit further liability of a director, then, in addition to the elimination and limitation of liability provided by the foregoing, the liability of each director shall be eliminated or limited to the fullest extent permitted under the provisions of New York Law as so amended. Any repeal or modification of the indemnification provided in these Articles shall not adversely affect any right or protection of a director of the Corporation under these Articles, as in effect immediately prior to such repeal or modification, with respect to any liability that would have accrued, but for this limitation of liability, prior to such repeal or modification.

(b) the Corporation shall indemnify, to the fullest extent permitted by applicable law in effect from time to time, any person, and the estate and personal representative of any such person, against all liability and expense (including, but not limited to attorney's fees) incurred by reason of the fact that he is or was a director or officer of the Corporation, he is or was serving at the request of the Corporation as a director, officer, partner, trustee, employee, fiduciary, or agent of, or in any similar managerial or fiduciary position of, another domestic or foreign corporation or other individual or entity of an employee benefit plan. The Corporation shall also indemnify any person who is serving or has served the Corporation as a director, officer, employee, fiduciary, or agent and that person's estate and personal representative to the extent and in the manner provided in any bylaw, resolution of the shareholders or directors, contract, or otherwise, so long as such provision is legally permissible.

Insofar as indemnification for liabilities arising under the Securities Act may be permitted to directors, officers and controlling persons of the Company pursuant to the foregoing provisions, or otherwise, the Company has been advised that in the opinion of the SEC such indemnification is against public policy as expressed in the Securities Act and is, therefore, unenforceable. In the event that a claim for indemnification against such liabilities (other than the payment by us of expenses incurred or paid by our directors, officers or controlling persons in the successful defense of any action, suit or proceedings) is asserted by such director, officer, or controlling person in connection with any securities being registered, we will, unless in the opinion of our counsel the matter has been settled by controlling precedent, submit to court of appropriate jurisdiction the question whether such indemnification by us is against public policy as expressed in the Securities Act and will be governed by the final adjudication of such issues.

Under the National Association of Securities Dealers Automated Quotations definition, an "independent director" means a person other than an officer or employee of the Company or its subsidiaries or any other individuals having a relationship that, in the opinion of the Company's board of directors, would interfere with the exercise of independent judgment in carrying out the responsibilities of the director. The board's discretion in determining director independence is not completely unfettered. Further, under the NASDAQ definition, an independent director is a person who (1) is not currently (or whose immediate family members are not currently), and has not been over the past three years (or whose immediate family members have not been over the past three years), employed by the company; (2) has not (or whose immediate family members have not) been paid more than \$60,000 during the current or past three fiscal years; (3) has not (or whose immediately family has not) been a partner in or controlling shareholder or executive officer of an organization which the company made, or from which the company received, payments in excess of the greater of \$200,000 or 5% of that organizations consolidated gross revenues, in any of the most recent three fiscal years; (4) has not (or whose immediate family members have not), over the past three years been employed as an executive officer of a company in which an executive officer of Ace has served on that company's compensation committee; or (5) is not currently (or whose immediate family members are not currently), and has not been over the past three years (or whose immediate family members have not been over the past three years) a partner of Ace's outside auditor.

Our Articles of Incorporation provide that it will indemnify its officers and directors to the full extent permitted by New York state law. Our By-laws provide that we will indemnify and hold harmless our officers and directors for any liability including reasonable costs of defense arising out of any act or omission taken on our behalf, to the full extent allowed by New York law, if the officer or director acted in good faith and in a manner the officer or director reasonably believed to be in, or not opposed to, the best interests of the corporation.

Insofar as indemnification for liabilities arising under the Securities Act of 1933 (the "Act" or "Securities Act") may be permitted to directors, officers or persons controlling us pursuant to the foregoing provisions, or otherwise, we have been advised that in the opinion of the SEC, such indemnification is against public policy as expressed in the Act and is, therefore, unenforceable.

Report of Independent Registered Public Accounting Firm

Board of Directors and Stockholders

Ace Marketing & Promotions, Inc.

Garden City, NY

We have audited the accompanying consolidated balance sheet of Ace Marketing & Promotions, Inc. (the "Company") for the year ended December 31, 2012 and the related consolidated statements of operations, stockholders' equity and cash flows for the year then ended. These financial statements are the responsibility of the Company's management. Our responsibility is to express an opinion on these financial statements based on our audit.

We conducted our audit in accordance with standards of the Public Company Accounting Oversight Board (United States). Those standards require that we plan and perform the audit to obtain reasonable assurance about whether the financial statements are free of material misstatement. The Company is not required to have, nor were we engaged to perform, an audit of its internal control over financial reporting. Our audit included consideration of internal control over financial reporting as a basis for designing audit procedures that are appropriate in the circumstances, but not for the purpose of expressing an opinion on the effectiveness of the Company's internal control over financial reporting. Accordingly, we express no such opinion. An audit includes examining, on a test basis, evidence supporting the amounts and disclosures in the financial statements. An audit also includes assessing the accounting principles used and significant estimates made by management, as well as evaluating the overall financial statement presentation. We believe that our audit provides a reasonable basis for our opinion.

Report of Independent Registered Public Accounting Firm

Board of Directors and Stockholders

Ace Marketing & Promotions, Inc.

Valley Stream, New York

I have audited the accompanying consolidated balance sheets of Ace Marketing & Promotions, Inc. (the "Company") for the years ended December 31, 2011 and the related consolidated statements of operations, stockholders' equity and cash flows for the year then ended. These consolidated financial statements are the responsibility of the Company's management. My responsibility is to express an opinion on these consolidated financial statements based on my audit.

I conducted my audit in accordance with standards of the Public Company Accounting Oversight Board (United States). Those standards require that I plan and perform the audit to obtain reasonable assurance about whether the financial statements are free of material misstatement. The Company is not required to have, nor was I engaged to perform, an audit of its internal control over financial reporting. My audits included consideration of internal control over financial reporting as a basis for designing audit procedures that are appropriate in the circumstances, but not for the purpose of expressing an opinion on the effectiveness of the Company's internal control over financial reporting. Accordingly, I express no such opinion. An audit includes examining, on a test basis, evidence supporting the amounts and disclosures in the financial statements. An audit also includes assessing the accounting principles used and

significant estimates made by management, as well as evaluating the overall financial statement presentation. I believe that my audits provide a reasonable basis for my opinion.

In my opinion, the consolidated financial statements referred to above present fairly, in all material respects, the financial position of Ace Marketing & Promotions, Inc. as of December 31, 2011 and the results of its operations and its cash flows for the year then ended, in conformity with accounting principles generally accepted in the United States of America.

NOTES TO CONSOLIDATED FINANCIAL STATEMENTS

YEARS ENDED DECEMBER 31, 2012 AND 2011

NOTE 1: SUMMARY OF SIGNIFICANT ACCOUNTING POLICIES

NATURE OF OPERATIONS - Ace Marketing & Promotions, Inc. (the "Company") is a full service advertising specialties and promotional products company that distributes items typically with logos to large corporations, schools and universities, financial institutions and not-for-profit organizations. Specific categories of promotional products include advertising specialties, business gifts, incentives and awards, and premiums.

In Fiscal 2008, the Company became an authorized distributor, provider and reseller of mobile advertising solutions. To date, the Company has not generated any significant revenue from this segment.

PRINCIPLES OF CONSOLIDATION - The accompanying consolidated financial statements include the accounts of Ace Marketing & Promotions, Inc. and its wholly owned subsidiary, Mobiquity Networks, Inc. All intercompany accounts and transactions have been eliminated in consolidation.

REVENUE RECOGNITION - Revenue is recognized when title and risk of loss transfers to the customer and the earnings process is complete. In general, title passes to our customers upon the customer's receipt of the merchandise. Revenue is recognized on a gross basis since the Company has the risks and rewards of ownership, latitude in selection of vendors and pricing, and bears all credit risk. Advance payments made by customers are included in customer deposits.

The Company records all shipping and handling fees billed to customers as revenues and related costs as cost of goods sold, when incurred.

Additional source of revenue, derived from emails/texts directly to consumers are recognized under contractual arrangements. Revenue from this advertising method is recognized at the time of service provided.

ALLOWANCE FOR DOUBTFUL ACCOUNTS - Management must make estimates of the uncollectability of accounts receivable. Management specifically analyzes accounts receivable and analyzes historical bad debts, customer concentrations, customer credit-worthiness, current economic trends and changes in customer payment terms when evaluating the adequacy of the allowance for doubtful accounts.

PROPERTY AND EQUIPMENT - Property and equipment are stated at cost. Depreciation is provided using the straight-line method over the estimated useful lives of the related assets. Leasehold improvements are being amortized using the straight-line method over the estimated useful lives of the related assets or the remaining term of the lease. The costs of additions and improvements, which substantially extend the useful life of a particular asset, are capitalized. Repair and maintenance costs are charged to expense. When assets are sold or otherwise disposed of, the cost and related accumulated depreciation are removed from the account and the gain or loss on disposition is reflected in operating income.

ACE MARKETING & PROMOTIONS, INC.

NOTES TO CONSOLIDATED FINANCIAL STATEMENTS

YEARS ENDED DECEMBER 31, 2012 AND 2011

CONCENTRATION OF CREDIT RISK - Financial instruments, which potentially subject the Company to concentrations of credit risk, consist principally of trade receivables and cash and cash equivalents.

Concentration of credit risk with respect to trade receivables is generally diversified due to the large number of entities comprising the Company's customer base and their dispersion across geographic areas principally within the United States. The Company routinely addresses the financial strength of its customers and, as a consequence, believes that its receivable credit risk exposure is limited.

The Company places its temporary cash investments with high credit quality financial institutions. At times, the Company maintains bank account balances, which exceed FDIC limits. The Company has not experienced any losses in such accounts and believes that it is not exposed to any significant credit risk on cash. Management does not believe significant credit risk exists at December 31, 2012 and 2011.

CASH AND CASH EQUIVALENTS - The Company considers all highly liquid debt instruments with a maturity of three months or less, as well as bank money market accounts, to be cash equivalents.

ESTIMATES - The preparation of financial statements in conformity with generally accepted accounting principles requires management to make estimates and assumptions that affect the reported amounts of assets and liabilities and disclosure of contingent assets and liabilities at the date of the financial statements and the reported amounts of revenues and expenses during the reporting period. Actual results could differ from those estimates.

NET INCOME PER SHARE - Basic net income per share is computed by dividing income available to common shareholders by the weighted-average number of common shares outstanding. Diluted earnings per share reflect, in periods in which they have a dilutive effect, the impact of common shares issuable upon exercise of stock options. The number of common shares potentially issuable upon the exercise of certain options and warrants that were excluded from the diluted loss per common share calculation was approximately 18,895,000 and 16,100,000 because they are anti-dilutive, as a result of a net loss for the years ended December 31, 2012 and 2011, respectively.

Fair Value of Financial Instruments

Effective January 1, 2008, the Company adopted FASB ASC 820, "Fair Value Measurements and Disclosures" ("ASC 820"), for assets and liabilities measured at fair value on a recurring basis. ASC 820 establishes a common definition for fair value to be applied to existing generally accepted accounting principles that require the use of fair value measurements, and establishes a framework for measuring fair value and expands disclosure about such fair value measurements. The adoption of ASC 820 did not have an impact on the Company's financial position or operating results, but did expand certain disclosures.

ASC 820 defines fair value as the price that would be received to sell an asset or paid to transfer a liability in an orderly transaction between market participants at the measurement date. Additionally, ASC 820 requires the use of valuation techniques that maximize the use of observable inputs and minimize the use of unobservable inputs. These inputs are prioritized below:

Level 1: Observable inputs such as quoted market prices in active markets for identical assets or liabilities

Level 2: Observable market-based inputs or unobservable inputs that are corroborated by market data

Level 3: Unobservable inputs for which there is little or no market data, which require the use of the reporting entity's own assumptions.

Cash and cash equivalents include money market securities that are considered to be highly liquid and easily tradable as of December 31, 2012 and 2011. These securities are valued using inputs observable in active markets for identical securities and are therefore classified as Level 1 within our fair value hierarchy.

The carrying amounts of financial instruments, including cash, accounts receivable, accounts payable and accrued liabilities, and promissory note, approximated fair value as of December 31, 2012 and 2011, because of the relatively short-term maturity of these instruments and their market interest rates.

ACE MARKETING & PROMOTIONS, INC.

NOTES TO CONSOLIDATED FINANCIAL STATEMENTS

YEARS ENDED DECEMBER 31, 2012 AND 2011

ADVERTISING COSTS - Advertising costs are expensed as incurred. For the years ended December 31, 2011 and 2012 there were no expenses for 2011, in 2012 costs were \$1,404.

ACCOUNTING FOR STOCK BASED COMPENSATION. Stock based compensation cost is measured at the grant date fair value of the award and is recognized as expense over the requisite service period. The Company uses the Black-Sholes option-pricing model to determine fair value of the awards, which involves certain subjective assumptions. These assumptions include estimating the length of time employees will retain their vested stock options before exercising them (“expected term”), the estimated volatility of the Company’s common stock price over the expected term (“volatility”) and the number of options for which vesting requirements will not be completed (“forfeitures”). Changes in the subjective assumptions can materially affect estimates of fair value stock-based compensation, and the related amount recognized on the consolidated statements of operations. Refer to Note 8 “Stock Option Plans” in the Notes to Consolidated Financial Statements in this report for a more detailed discussion.

INCOME TAXES - Deferred income taxes are recognized for temporary differences between financial statement and income tax basis of assets and liabilities for which income tax or tax benefits are expected to be realized in future years. A valuation allowance is established to reduce deferred tax assets, if it is more likely than not, that all or some portion of such deferred tax assets will not be realized. The effect on deferred taxes of a change in tax rates is recognized in income in the period that includes the enactment date.

RECENTLY ISSUED ACCOUNTING PRONOUNCEMENTS

Except for rules and interpretive releases of the SEC under authority of federal securities laws and a limited number of grandfathered standards, the FASB Accounting Standards Codification™ (“ASC”) is the sole source of authoritative GAAP literature recognized by the FASB and applicable to the Company. Management has reviewed the aforementioned rules and releases and believes any effect will not have a material impact on the Company's present or future financial statements.

(\$100,000) (the "Facility Fee Shares"). It is the intention of the Company and TCA that the value of the Facility Fee Shares shall equal \$100,000. In the event the value of the Facility Fee Shares issued to TCA does not equal \$100,000 after a ninth month evaluation date, the Equity Agreement provides for an adjustment provision allowing for necessary action to adjust the number of shares issued. In June 2012, the Company issued 196,078 shares of common stock as the initial Facility Fee Shares.

NOTE 13. CONVERTIBLE PROMISSORY NOTE

Registration Rights Agreement

On June 12, 2012, the Company finalized the Registration Rights Agreement with TCA. Pursuant to the terms of the Registration Rights Agreement, the Company is obligated to file a registration statement (the "Registration Statement") with the U.S. Securities and Exchange Commission (the "SEC") to cover the Registrable Securities. The Company must use its commercially reasonable efforts to cause the Registration Statement to be declared effective by the SEC. To date, no Registration Statement has been filed by the Company.

On June 12, 2012, the Company closed on a security agreement dated as of May 31, 2012 (the "Security Agreement") with TCA related to a \$350,000 convertible promissory note issued by the Company in favor of TCA (the "Convertible Note"), which Convertible Note was funded by TCA on June 12, 2012. The maturity date of the Convertible Note is December 2013, and the Convertible Note bears interest at a rate of twelve percent (12%) per annum. The Convertible Note is convertible into shares of the Company's common stock at a price equal to ninety-five percent (95%) of the average of the lowest daily volume weighted average price of the Company's common stock during the five (5) trading days immediately prior to the date of conversion. The Convertible Note may be prepaid in whole or in part at the Company's option without penalty. The Security Agreement grants to TCA a continuing, first priority security interest in all of the Company's assets, wheresoever located and whether now existing or hereafter arising or acquired. The Company's wholly-owned subsidiary, Mobiquity Networks, Inc., also entered into a similar Security Agreement and Guaranty Agreement.

NOTE 14: SUBSEQUENT EVENTS

- (a) In January 2013, the board of directors approved, subject to stock holder approval of a change in corporate name to “Applied Marketing Technologies, Inc.”

On November 27, 2012, the Company engaged Legend Securities, Inc. to act a Placement Agent in connection with a private placement offering, which offering was completed in January 2013. The Company received gross proceeds of \$950,000 from the completion of said offering, including \$100,000 and \$50,000 from directors of the Company, Thomas Arnost and Sean Trepeta. In connection with this offering, the Company issued to Legend’s investors a total of approximately 3,166,670 shares of common stock. For every two shares invested, each investor received a warrant to purchase one share of common stock, exercisable at \$.50 per share through December, 15, 2017. In addition to cash compensation, Legend received warrants to purchase 15% of the number of shares sold in (b) the offering. The Placement Agent warrants are identical to the warrants sold to investors in the offering. After the aforementioned offering, a current stockholder of the Company invested a total of \$60,000 into the Company and in February 2013, another current stockholder of the Company invested \$160,000 into the Company. In both cases, the current stockholders received the same terms as those offered to the Legend Securities investors. As a result of these offerings completed in January/February 2013, the Company received gross proceeds of \$1,170,000 to improve its financial condition and for use as general working capital with an emphasis on its Proximity Marketing business. Exemption from registration for the sale of securities is claimed under Rule 506 of Regulation D promulgated pursuant to Section 4(2) of the Securities Act of 1933, as amended.

The Company, through its wholly-owned subsidiary, Mobiquity Networks, operates the largest mall-based proximity marketing network in the United States covering 75 malls and a potential audience of approximately 95 million consumers. The Company has been licensing the U.S. rights to its proximity marketing units from FuturLink, SA, a pioneer in the field of location-based mobile marketing and purchasing its inventory directly from FuturLink. These proximity marketing units were developed by FuturLink with innovative platforms utilizing (c) Bluetooth, Wi-Fi, QR (Quick Response codes) and NFC (Near Field Communications) to create, manage and deploy mobile marketing campaigns. On March 7, 2013, the Company acquired the assets of FuturLink in exchange for an undisclosed amount of cash, which cash was paid from the Company’s current working capital. These assets include, without limitation, the FuturLink technology (patents and source codes), trademark(s) and access point (proximity marketing) component parts.

NOTES TO CONSOLIDATED FINANCIAL STATEMENTS

YEARS ENDED DECEMBER 31, 2012 AND 2011

As the technology owner, the Company realized immediate cost savings and will leverage the hardware and software included in its purchase to expand its mall-based footprint in the United States. The acquisition of FuturLink's technology and corresponding patents provides the Company with vertical integration and provides it with flexibility and autonomy. By owning the technology, the Company has the ability to do the following:

- Increase download speed for both Bluetooth and Wi-Fi,
- Add customer dashboard for real-time reporting of campaign statistics,
- Implementation of a rewards program to increase download loyalty,
- Ability to deliver apps directly via Bluetooth and Wi-Fi
- Reduce cost of proximity marketing units by approximately 60-70% and
- Eliminate the payment of licensing fees to FuturLink of approximately \$175,000 per annum.

It is the Company's intention to continue its established relationship with Blue Bite, to maintain the proximity marketing network and to enhance the FuturLink platform capabilities through the integration of additional mobile solutions.

The acquisition of assets of FuturLink's assets did not result in the acquisition of a significant subsidiary as defined under Article 1(w) of Regulation S-X.

In March 2013, TCA notified Ace that the facility fee of \$100,000 needed to be paid in additional shares or cash. In this respect, the 196,078 shares of Common Stock previously advance by the Company to TCA toward the facility fee were sold by TCA and it realized net proceeds of approximately \$48,000. In March 2013, the Company elected to pay the remaining facility fee in cash.

The Company has evaluated all subsequent events through the filing date of this form 10-K for appropriate accounting and disclosures.

(1) The Series 1 Preferred Stock has the following conversion rights::

Automatic Conversion into Common Stock. Each Preferred Share shall automatically convert on March 31, 2013 into shares of the Company's Common Stock (the "Common Shares") based on a conversion price of the lower of \$.60 per share or an amount equal to 90% of the average closing sales price for the Company's Common Stock on the OTC Bulletin Board (or Pink Sheets) for the 20 trading days immediately preceding March 31, 2013, with a floor of \$.45 per share. The number of shares of Common Stock issuable pursuant to the automatic conversion ranges from a minimum of 366,666 shares to a maximum of 488,888 shares.

Optional Conversion into Common Stock. Commencing July 1, 2012, each Preferred Share shall at the option of the holder become convertible into Common Shares based on a conversion price of the lower of \$.60 per share or 85% of the average closing sales price for the Company's Common Stock on the OTC Bulletin Board (or Pink Sheets) for the 20 trading days immediately preceding the Conversion Date, with a floor of \$.45 per share.

Conversion Premium. Upon calculation of the number of Common Shares, the Preferred Shareholder is entitled to receive upon conversion of Series 1 Preferred Stock into Common Stock, the investor will receive an additional 8% premium. Accordingly, once the number of Common Shares is determined based upon the automatic conversion or optional conversion formulas set forth above, the investor will have that number of Common Stock multiplied by 1.08 (i.e. 108%) to determine the actual number of Common Shares to be issued upon conversion.\

On July 10, 2012, the Company sold 1,347,201 shares of its Common Stock to various investors at \$.45 per share subject to certain anti-dilution rights for a period of twenty four months. The Company received gross proceeds of \$606,240 before offering costs. Each investor received Fixed Price Warrants to purchase 50% of the number of shares of Common Stock purchased in the Offering. The Fixed Price Warrants are exercisable at any time from the date of issuance through July 10, 2017 at an exercise price of \$.55. Each investor also received a Warrant to (2) purchase 20% of the number of shares that were purchased in the Offering (the "Milestone Warrants"). The Milestone Warrants will automatically be exercised without any additional consideration to be paid in the event the Company reports audited gross revenues of less than \$5,000,000 for the period July 1, 2012 through June 30, 2013 unless the volume weighted average price for the Company's Common Stock exceeds \$1.00 per share for a period of at least 30 trading days prior to January 5, 2013. In January, 2013, we issued 673,598 shares pursuant to the anti-dilution rights of said securities.

Series 1 Preferred Stockholders have agreed to exchange 250,000 shares of Series 1 Preferred Stock for 833,334 (3) shares of Common Stock and Warrants to purchase 416,667 shares exercisable at \$.50 per share through December 15, 2017.

In November 2012, immediately prior to this offering, the Company raised \$301,000 from the sale of 1,033,336 shares of Common Stock at \$.30 per share. For every two shares of Common Stock sold in the private offering, the (4) investor received one Warrant to purchase one share of Common Stock at \$.50 per share exercisable through December 15, 2017. Warrants to purchase 501,668 shares of Common Stock were issued in connection with this Offering. No commissions were paid.

In June 2011, the Company hired the Placement Agent to furnish ongoing investor awareness and business advisory services, including, without limitation, assistance with investor presentations, identification and evaluation of financing transactions and introductions to broker/dealers and research analysts. For the period June 2011 through May 2012, the Company paid the Placement Agent \$10,000 per month and 25,000 shares of restricted Common Stock. Effective June 1, 2012, a new one-year agreement was entered into for the Placement Agent to continue to provide the same investor awareness and business awareness services to the Company at a (5) monthly cash cost of \$10,000 and 100,000 restricted shares of Common Stock to be issued on a quarterly basis. On November 8, 2012, the Placement Agent and the Company agreed to terminate the advisory agreement which had an effective date of June 1, 2012, with 200,000 shares to be issued to Legend. On November 12, 2012, a new advisory agreement was entered into pursuant to which Legend received a five-year warrant to purchase 125,000 shares of Common Stock at an exercise price of \$.35 per share. During July 2012, the Company also issued 5 year Warrants to purchase 37,250 shares exercisable at \$.55 per share to a consultant, which are not reflected in the table above.

On March 31, 2013, based upon the current trading price of our outstanding Common Stock on the filing date of (6) this Form 10-K, it is expected that the currently outstanding 220,000 shares of Series 1 Preferred Shares will automatically convert into approximately 528,000 shares of Common Stock based upon a conversion price of \$.45 per share and an 8% premium.

Item 17. Undertakings

The undersigned registrant hereby undertakes:

(1) To file, during any period in which offers or sales are being made, a post-effective amendment to this registration statement:

i. To include any prospectus required by section 10(a)(3) of the Securities Act of 1933;

ii. To reflect in the prospectus any facts or events arising after the effective date of the registration statement (or the most recent post-effective amendment thereof) which, individually or in the aggregate, represent a fundamental change in the information set forth in the registration statement. Notwithstanding the foregoing, any increase or decrease in volume of securities offered (if the total dollar value of securities offered would not exceed that which was registered) and any deviation from the low or high end of the estimated maximum offering range may be reflected in the form of prospectus filed with the Commission pursuant to Rule 424(b) if, in the aggregate, the changes in volume and price represent no more than 20% change in the maximum aggregate offering price set forth in the "Calculation of Registration Fee" table in the effective registration statement.

iii. To include any material information with respect to the plan of distribution not previously disclosed in the registration statement or any material change to such information in the registration statement;

(2) That, for the purpose of determining any liability under the Securities Act of 1933, each such post-effective amendment shall be deemed to be a new registration statement relating to the securities offered therein, and the offering of such securities at that time shall be deemed to be the initial bona fide offering thereof.

(3) To remove from registration by means of a post-effective amendment any of the securities being registered which remain unsold at the termination of the offering.

(4) Insofar as indemnification for liabilities arising under the Securities Act of 1933 may be permitted to directors, officers and controlling persons of the registrant pursuant to the foregoing provisions, or otherwise, the registrant has been advised that in the opinion of the Securities and Exchange Commission such indemnification is against public policy as expressed in the Act and is, therefore, unenforceable. In the event that a claim for indemnification against

such liabilities (other than the payment by the registrant of expenses incurred or paid by a director, officer or controlling person of the registrant in the successful defense of any action, suit or proceeding) is asserted by such director, officer or controlling person in connection with the securities being registered, the registrant will, unless in the opinion of its counsel the matter has been settled by controlling precedent, submit to a court of appropriate jurisdiction the question whether such indemnification by it is against public policy as expressed in the Act and will be governed by the final adjudication of such issue.

(5) Each prospectus filed pursuant to Rule 424(b) as part of a registration statement relating to an offering, other than registration statements relying on Rule 430B or other than prospectuses filed in reliance on Rule 430A, shall be deemed to be part of and included in the registration statement as of the date it is first used after effectiveness. Provided, however, that no statement made in a registration statement or prospectus that is part of the registration statement or made in a document incorporated or deemed incorporated by reference into the registration statement or prospectus that is part of the registration statement will, as to a purchaser with a time of contract of sale prior to such first use, supersede or modify any statement that was made in the registration statement or prospectus that was part of the registration statement or made in any such document immediately prior to such date of first use.
