**UNITED STATES
SECURITIES AND EXCHANGE COMMISSION**

Washington, D.C. 20549

FORM 10-Q

(Mark One)

**QUARTERLY REPORT PURSUANT TO SECTION 13 OR 15(d) OF THE SECURITIES
EXCHANGE ACT OF 1934**

For the quarterly period ended June 30, 2003

or

**TRANSITION REPORT PURSUANT TO SECTION 13 OR 15(d) OF THE SECURITIES
EXCHANGE ACT OF 1934**

Commission file number 001-31740

CITADEL BROADCASTING CORPORATION

(Exact name of registrant as specified in its charter)

Delaware

(State or other jurisdiction of incorporation or organization)

51-0405729

(IRS Employer Identification No.)

**City Center West, Suite 400
7201 West Lake Mead Blvd.**

Las Vegas, Nevada

(Address of principal executive offices)

89128

(Zip code)

(702) 804-5200

(Registrant's telephone number, including area code)

Indicate by check mark whether the registrant: (1) has filed all reports required to be filed by Section 13 or 15(d) of the Securities Exchange Act of 1934 during the preceding 12 months (or for such shorter period that the registrant was required to file such reports), and (2) has been subject to such filing requirements for the past 90 days. Yes No

Indicate by check mark whether the registrant is an accelerated filer (as defined in Rule 12b-2 of the Exchange Act). Yes No

As of September 1, 2003, there were 122,911,490 shares of common stock, \$.01 par value per share, outstanding.

FORWARD-LOOKING INFORMATION

Certain matters in this Form 10-Q, including, without limitation, certain matters discussed in Management's Discussion and Analysis of Financial Condition and Results of Operations and in Quantitative and Qualitative Disclosures about Market Risk, constitute "forward-looking statements" within the meaning of Section 27A of the Securities Act of 1933, as amended, and Section 21E of the Securities Exchange Act of 1934, as amended. Forward-looking statements are typically identified by the words "believes," "expects," "anticipates," and similar expressions. In addition, any statements that refer to expectations or other characterizations of future events or circumstances are forward-looking statements. Readers are cautioned that any such forward-looking statements are not guarantees of future performance and that matters referred to in such forward-looking statements involve known and unknown risks, uncertainties and other factors which may cause actual results, performance or achievements of Citadel Broadcasting Corporation to be materially different from any future results, performance or achievements expressed or implied by such forward-looking statements. Such factors include, among other things, the impact of current or pending legislation and regulation, antitrust considerations and other risks and uncertainties, as well as those matters discussed in Exhibit 20.1 titled "Risks Related to Our Business" to Citadel Broadcasting Corporation's Current Report on Form 8-K filed on August 11, 2003. Citadel Broadcasting Corporation undertakes no obligation to publicly update or revise these forward-looking statements because of new information, future events or otherwise.

CITADEL BROADCASTING CORPORATION AND SUBSIDIARIES
Notes to Consolidated Condensed Financial Statements
(unaudited)

1. BASIS OF PRESENTATION

In January 2001, Citadel Broadcasting Corporation, (formerly FLCC Holdings, Inc.), through its wholly owned subsidiary, FLCC Acquisition Corp. ("Acquisition Corp."), corporations formed by affiliates of Forstmann Little & Co. ("FL&Co."), entered into an agreement with Citadel Communications Corporation ("Citadel Communications") to acquire substantially all of the outstanding common stock of Citadel Communications for cash and a portion in exchange for equity securities of Citadel Broadcasting Corporation (the "Acquisition") in a leveraged

Edgar Filing: CITADEL BROADCASTING CORP - Form 10-Q

buyout transaction. The Acquisition was effected by the tender offer related to the exchangeable preferred stock and notes of Citadel Broadcasting Company, a wholly owned subsidiary of Citadel Communications ("Citadel Broadcasting" and together with Citadel Communications, prior to the Acquisition, the "Predecessor Company"), which was completed on June 26, 2001, followed by the merger of Acquisition Corp. into Citadel Communications, with Citadel Communications being the surviving company. Following the merger, Citadel Communications became a wholly owned subsidiary of Citadel Broadcasting Corporation.

Citadel Broadcasting Corporation was incorporated in Delaware in 1993 but did not have any business or assets until it was capitalized by partnerships affiliated with FL&Co. in connection with the Acquisition. Citadel Communications owns all of the issued and outstanding common stock of Citadel Broadcasting. Citadel Broadcasting owns and operates radio stations and holds Federal Communications Commission ("FCC") licenses in twenty-five states and has entered into a local marketing agreement for the stations it owns in Tyler, Texas. Radio stations serving the same geographic area (i.e., principally a city or combination of cities) are referred to as a market, and multiple markets aggregated geographically within the United States are referred to as a region. The Company aggregates the markets in which it operates into one reportable segment as defined by Statement of Financial Accounting Standards ("SFAS") No. 131, *Disclosures about Segments of an Enterprise and Related Information*.

The accompanying unaudited consolidated condensed financial statements of Citadel Broadcasting Corporation and Subsidiaries (the "Company") have been prepared in accordance with accounting principles generally accepted in the United States of America for interim financial information and with the instructions to Form 10-Q and Article 10 of Regulation S-X. Accordingly, they do not include all of the information and notes required by accounting principles generally accepted in the United States of America for complete financial statements. In the opinion of management, all adjustments necessary for a fair presentation of results of the interim periods have been made, and such adjustments were of a normal and recurring nature. Operating results for the six months ended June 30, 2003 are not necessarily indicative of the results that may be expected for the year ending December 31, 2003. For further information, refer to the consolidated financial statements and notes thereto included in Citadel Broadcasting Corporation's Registration Statement on Form S-1, which became effective on July 31, 2003.

Certain prior year amounts have been reclassified to conform to the current year's presentation.

Use of Estimates

Management of the Company has made a number of estimates and assumptions relating to the reporting of assets and liabilities, revenue and expenses and the disclosure of contingent assets and liabilities to prepare these financial statements in conformity with accounting principles generally accepted in the United States of America. Actual results could differ from those estimates.

7

Recent Accounting Pronouncements

In April 2002, the Financial Accounting Standards Board ("FASB") issued SFAS No. 145, *Rescission of FASB Statements No. 4, 44, and 64, Amendment of FASB Statement No. 13, and Technical Corrections*. The most significant provisions of SFAS No. 145 relate to the rescission of SFAS No. 4, *Reporting Gains and Losses from Extinguishment of Debt*, but SFAS No. 145 also amends other existing authoritative pronouncements to make various technical corrections, clarify meanings, or describe their applicability under changed conditions. Under this new statement, any gain or loss on extinguishment of debt that was classified as an extraordinary item in prior periods presented that does not meet certain defined criteria must be reclassified. Generally, SFAS No. 145 is effective for our 2003 fiscal year, with early application encouraged. The Company adopted this statement on January 1, 2003.

In June 2002, the FASB issued SFAS No. 146, *Accounting for Costs Associated with Exit or Disposal Activities*. SFAS No. 146 addresses financial accounting and reporting for costs associated with exit or disposal activities and nullifies EITF No. 94-3, *Liability Recognition for Certain Employee Termination Benefits and Other Costs to Exit an Activity (including Certain Costs Incurred in a Restructuring)*. SFAS No. 146 requires that a liability for a cost associated with an exit or disposal activity be recognized when the liability is incurred. A fundamental conclusion reached by the FASB in this statement is that an entity's commitment to a plan, by itself, does not create a present obligation to others that meets the definition of a liability. This statement also establishes that fair value is the objective for initial measurement of the liability. Adoption of SFAS No. 146 by the Company was effective on January 1, 2003 and was not retroactive to prior years. The adoption of SFAS No. 146 did not have a material impact on the Company's financial position or results of operations.

In November 2002, the FASB issued FASB Interpretation ("FIN") No. 45, *Guarantor's Accounting and Disclosure Requirements for Guarantees, Including Indirect Guarantees of Indebtedness of Others*. FIN No. 45 requires disclosures to be made by a guarantor in its interim and annual financial statements about its obligations under certain guarantees that it has issued. Additionally, a guarantor is required to

recognize, at the inception of a guarantee, a liability for the fair value of the obligation undertaken in issuing the guarantee. The initial liability recognition and measurement provisions of FIN No. 45 apply prospectively to guarantees issued or modified after December 31, 2002. The disclosure requirements in FIN No. 45 are effective for financial statements of interim or annual periods ending after December 15, 2002. The adoption of FIN No. 45 on January 1, 2003 did not have a material impact on the Company's financial position or results of operations.

In December 2002, the FASB issued SFAS No. 148, *Accounting for Stock-Based Compensation Transition and Disclosure and amendment of FASB Statement No. 123*. SFAS No. 148 amends SFAS No. 123, *Accounting for Stock-Based Compensation*, to provide alternative methods of transition to SFAS No. 123's fair value method of accounting for stock-based employee compensation. SFAS No. 148 also amends the disclosure provisions of SFAS No. 123 and Accounting Principles Board ("APB") Opinion No. 28, *Interim Financial Reporting*, to require disclosure in the summary of significant accounting policies of the effects of an entity's accounting policy with respect to stock-based employee compensation on reported net income and earnings per share in annual and interim financial statements. While SFAS No. 148 does not amend SFAS No. 123 to require companies to account for employee stock options using the fair value method, the disclosure provisions of SFAS No. 148 are applicable to companies with stock-based employee compensation, regardless of whether they account for that compensation using the fair value method of SFAS No. 123 or the intrinsic value method of APB Opinion No. 25. SFAS No. 148's amendment of the transition and annual disclosure requirements of SFAS No. 123 are effective for the fiscal years ending after December 15, 2002. SFAS No. 148's amendment of the disclosure requirements of APB Opinion No. 28 is effective for financial reports containing financial statements for interim periods beginning after December 15, 2002.

In January 2003, the FASB issued Interpretation No. 46, *Consolidation of Variable Interest Entities, an Interpretation of ARB No. 51, Consolidated Financial Statements*. This interpretation applies immediately to variable interest entities created after January 31, 2003 and to variable interest entities in which an enterprise obtains an interest after that date. It applies in the first fiscal year or interim period beginning after June 15, 2003 to variable interest entities in which an enterprise holds a variable interest that it acquired before February 1, 2003. This interpretation may be applied prospectively with a cumulative-effect adjustment as of the date on which it is first applied or by restating previously issued financial statements for one or more years with a cumulative-effect adjustment as of the beginning of the first year restated. The adoption of FIN No. 46 is not expected to have a material impact on the Company's financial position or results of operations.

In April 2003, the FASB issued SFAS No. 149, *Amendment to Statement 133 on Derivative Instruments and Hedging Activities*. SFAS No. 149 amends and clarifies accounting for derivative instruments, including certain derivative instruments embedded in other contracts, and for hedging activities under SFAS No. 133. SFAS No. 149 is applied prospectively and is effective for contracts entered into or modified after June 30, 2003, except for SFAS No. 133 implementation issues that have been effective for fiscal quarters that began prior to June 15, 2003 and certain provisions relating to forward purchases and sales of securities that do not yet exist. The Company believes that the adoption of SFAS No. 149 will not have a material impact on the Company's financial position or results of operations.

In May 2003, the FASB issued SFAS No. 150, *Accounting for Certain Financial Instruments with Characteristics of both Liabilities and Equity*. SFAS No. 150 establishes standards for how an issuer classifies and measures certain financial instruments with characteristics of both liabilities and equity. It requires that an issuer classify a financial instrument that is within its scope as a liability (or an asset in some circumstances). SFAS No. 150 is effective for financial instruments entered into or modified after May 31, 2003, and otherwise is effective at the beginning of the first interim period beginning after June 15, 2003. The Company will adopt the standard on July 1, 2003. The Company has not determined the effect, if any, that SFAS No. 150 will have on its consolidated financial statements.

2. STOCK-BASED COMPENSATION

The Company accounts for stock-based compensation in accordance with the requirements of APB Opinion No. 25 *Accounting for Stock Issued to Employees*, and related interpretations. SFAS No. 123, *Accounting for Stock-Based Compensation*, as amended by SFAS No. 148, *Accounting for Stock-Based Compensation Transition and Disclosure*, requires disclosure of the pro forma effects on net income and earnings per share as if the Company had adopted the fair value recognition provisions of SFAS No. 123. Had compensation cost for the Company's stock-based awards to employees been based on the fair value at the grant dates in accordance with the fair value provisions of SFAS No. 123, the

Edgar Filing: CITADEL BROADCASTING CORP - Form 10-Q

Company's net loss and net loss per share for the three-month and six-month periods ended June 30, 2003 and 2002 would have been changed to the pro forma amounts indicated below:

	Three Months Ended June 30,		Six Months Ended June 30,	
	2003	2002	2003	2002
(Amounts in thousands, except per share amounts)				
Net loss applicable to common shares, as reported	\$ (18,954)	\$ (18,295)	\$ (52,797)	\$ (54,963)
Add: Corporate non-cash stock compensation expense	2,135	4,700	6,022	16,383
Deduct: Total stock-based employee compensation expense determined under fair value method	(2,850)	(5,076)	(7,946)	(17,692)
Net loss applicable to common shares, pro forma	\$ (19,669)	\$ (18,671)	\$ (54,721)	\$ (56,272)
Net loss per common share:				
As reported	\$ (0.20)	\$ (0.19)	\$ (0.55)	\$ (0.57)
Pro forma	\$ (0.20)	\$ (0.19)	\$ (0.57)	\$ (0.59)

For those awards that result in the recognition of compensation expense under APB Opinion No. 25, the Company records expense for each tranche of the award over the vesting period applicable to such tranche, which results in the accelerated recognition of compensation expense.

3. INTANGIBLE ASSETS AND GOODWILL

Indefinite-Lived Intangibles and Goodwill

In June 2001, the FASB issued SFAS No. 141, *Business Combinations*, and SFAS No. 142, *Goodwill and Other Intangible Assets*. The Company adopted SFAS No. 141 for all business combinations completed after June 30, 2001, which requires that such business combinations be accounted for under the purchase method. The Company adopted SFAS No. 142 at the beginning of 2002 for all goodwill and other intangible assets recognized in the Company's balance sheet as of January 1, 2002. This standard changes the accounting for goodwill and intangible assets with indefinite lives from an amortization method to an impairment-only approach and introduces a new model for determining impairment charges. Amortization of goodwill and indefinite-lived intangibles ceased upon adoption of SFAS No. 142.

The new impairment model for goodwill under SFAS No. 142 requires performance of a two-step test for operations that have goodwill assigned to them. First, it requires a comparison of the book value of the net assets of each reporting unit to the fair value of the related operations. If fair value is determined to be less than book value, a second step is performed to compute the amount of impairment. In this process, the fair value of goodwill is estimated and is compared to its book value. Any shortfall of the fair value below book value represents the amount of goodwill impairment.

In the first quarter of 2002, the Company completed its transitional assessment of goodwill and other identifiable intangibles in accordance with the standard's guidance. The Company believes that FCC licenses are indefinite-lived intangibles under the new standard. The Company compares the fair value of these intangibles to their net book value and if the net book value exceeds fair value, the Company will record an impairment charge to its statement of operations. The transitional assessment performed by the Company did not identify any impairment as the fair value of its reporting units exceeded their net book value.

The Company's assessment for impairment of goodwill is performed at the radio market level, which the Company determined to be its reporting units. The Company's assessment of its indefinite-lived intangibles, other than goodwill, which consists primarily of FCC licenses, is also performed at the radio market level.

The fair value of each of the Company's FCC licenses was directly valued based upon a hypothetical start-up station with identical facilities and FCC licenses to the Company's stations and was not based on a residual approach. The calculation also incorporated the number of stations in the market and the total market radio revenue and an assumed operating margin. As part of the Company's transitional assessment of

Edgar Filing: CITADEL BROADCASTING CORP - Form 10-Q

identifiable intangibles in connection with the adoption of SFAS No. 142, which was completed in the first quarter 2002, the Company determined that there were no significant changes that would have negatively impacted the value of the FCC licenses or the factors considered in determining the value of the FCC licenses. Therefore, the Company determined that no impairment existed as of the date of the transitional assessment. In addition, the Company also determined that there were no significant changes that would have impacted the valuation of the FCC licenses during 2002 and therefore no impairment existed at the Company's 2002 annual assessment date, October 1.

The impairment testing for the Company's goodwill upon adoption of SFAS No. 142 and for 2002, as of October 1, its annual assessment date, was determined based primarily on discounted expected future cash flows to be generated from each market. These cash flows were then compared to the net book value of all intangible and tangible assets of each market, including goodwill. In each case, the net book value of all the assets, including goodwill, did not exceed the discounted cash flow of each market, indicating that there was no impairment of goodwill at the transitional assessment or as of its 2002 annual assessment.

The changes in the carrying amounts of FCC licenses and goodwill for the period from December 31, 2002 through June 30, 2003 are as follows:

	FCC Licenses	Goodwill
	(in thousands)	
Balance, December 31, 2002	\$ 1,187,457	\$ 596,287
Station acquisitions	35,750	1,621
Station disposition	(178)	
Balance, June 30, 2003	\$ 1,223,029	\$ 597,908

Definite-Lived Intangibles

The Company has definite-lived intangible assets that consists primarily of advertiser base, which are amortized in accordance with SFAS No. 142. The amount of the amortization expense for definite-lived intangible assets was \$61.2 million and \$62.8 million for the six months ended June 30, 2003 and 2002, respectively, and \$30.5 million and \$31.4 million for the three months ended June 30, 2003 and 2002, respectively. As of June 30, 2003, Other Intangibles, Net on the accompanying consolidated condensed balance sheet reflects \$144.2 million in unamortized definite-lived assets.

The following table presents the Company's estimate of amortization expense for each of the five succeeding years ending December 31, for definite-lived assets (in thousands):

	Amortization Expense
	(in thousands)
2003 (includes the six months ended June 30, 2003)	\$ 119,221
2004	69,256
2005	11,964
2006	2,876
2007	
	\$ 203,317

As acquisitions and dispositions occur in the future and as purchase price allocations are finalized, amortization expense may vary from the amounts detailed above.

4. ACQUISITIONS AND DISPOSITIONS

Pending Acquisitions and Dispositions

As of June 30, 2003, the Company has various agreements to acquire 15 radio stations for a combined aggregate purchase price of approximately \$158.1 million. Below is a summary of the significant acquisitions and expected periods in which the acquisitions should close:

Five radio stations in the Des Moines, IA market, four radio stations in the New Orleans, LA market, and two radio stations in the Springfield, MO market for an aggregate cash purchase price of \$133.0 million. The Company expects this acquisition to be completed in the third quarter of 2003.

Two radio stations in the Providence, RI market for an aggregate cash purchase price of \$14.5 million. The Company expects this acquisition to close in the fourth quarter of 2003.

One radio station in the Lafayette, LA market for an aggregate cash purchase price of \$7.7 million. The Company expects this acquisition to close in the fourth quarter of 2003.

The Company will operate the stations in Providence pending the acquisitions, under a local marketing agreement. The Company will also sell advertising on the station in Lafayette under a joint sales agreement.

Additionally, on November 5, 2002, the Company entered into an agreement in the form of an option, exercisable through December 31, 2006, to purchase a radio station in the Oklahoma City, OK market for an aggregate cash purchase price of (i) on or before December 31, 2004, \$15.0 million or (ii) after December 31, 2004, the greater of \$15.0 million or 85% of the fair market value of the radio station, as determined by an independent appraisal. Under the local marketing agreement, the Company will operate the station during the option period.

As of June 30, 2003, the Company has pending agreements to sell one radio station in Reno, NV for approximately \$4.3 million in cash and five stations in Tyler/Longview, TX for an aggregate purchase price of \$6.0 million, of which \$5.5 million will be in the form of a note. The Company has four additional pending asset purchase agreements to sell an aggregate of six stations in four markets for aggregate cash purchase prices totaling \$1.8 million.

Completed Acquisitions

During the six months ended June 30, 2003, the Company completed five acquisitions for a total of eight radio stations with a combined aggregate purchase price of approximately \$38.2 million.

All of the Company's acquisitions have been accounted for by the purchase method of accounting. As such, the accompanying consolidated condensed balance sheets include the acquired assets and liabilities and the accompanying consolidated condensed statements of operations include the results of operations of the acquired entities from their respective dates of acquisition.

For the completed acquisitions, the combined aggregate purchase price was allocated as follows and is based upon information available at this time and is subject to change upon the finalization of the valuation of acquired assets and liabilities:

Asset Description	Amount	Asset lives
(in thousands)		
Property and equipment, net	\$ 4,421	3-25 years
FCC licenses	35,750	non-amortizing
Goodwill	1,621	non-amortizing
Other intangibles, net	1,441	3 years
Liabilities assumed	(5,025)	
Total aggregate purchase price	\$ 38,208	

Edgar Filing: CITADEL BROADCASTING CORP - Form 10-Q

Asset Description	Amount	Asset lives
-------------------	--------	-------------

5. NOTES PAYABLE

Effective January 31, 2003, the Company's Credit Agreement was amended, decreasing the Term B loans from \$250.0 million to \$200.0 million and decreasing the applicable margins on the Term B loans from a range between 2.75% and 3.25% for Eurodollar borrowings to 2.50%. The repayment of the Term B Loan was financed through borrowings under the Revolving Loan Facility.

On March 31, 2003, the Company repaid \$34.0 million on the Term A and B loans with borrowings under the revolving loans. Payments made on the Term A and B loans reduce the commitment under the Credit Agreement and therefore the funds are not available for future borrowings. For the Term A loans, the prepayment of \$18.9 million was applied to the September 2003 and December 2003 quarterly payments of \$9.4 million each due under the Credit Agreement, and the remaining \$0.1 million was applied to the March 2004 payment. For the Term B loans, the prepayment of \$15.1 million was applied to the September 2003, December 2003, and March 2004 quarterly payments of \$0.5 million each due under the Credit Agreement, and the remaining \$13.6 million reduced the required future quarterly payments on a pro-rata basis.

Below is a table that sets forth the rates and the amounts borrowed under the Credit Agreement as of December 31, 2002 and June 30, 2003:

Type of Borrowing	December 31, 2002		June 30, 2003	
	Amount of Borrowing	Interest Rate	Amount of Borrowing	Interest Rate
	(in thousands)		(in thousands)	
Term A	\$ 250,000	3.93%	\$ 231,111	3.55%
Term B	250,000	4.54%	184,889	3.79%
Revolving Loan	17,500	3.88%	94,000	3.36%
Revolving Loan	3,500	5.75%	3,000	3.54%
Revolving Loan			22,000	3.57%

13

The required aggregate principal payments for the Term A and B loans for each of the succeeding twelve month periods and thereafter as of June 30, 2003 are as follows:

	Term A	Term B	Total
	(in thousands)		
2004	\$ 18,611	\$ 466	\$ 19,077
2005	50,000	1,863	51,863
2006	50,000	1,863	51,863
2007	50,000	1,863	51,863
2008	62,500	1,863	64,363
Thereafter		176,971	176,971
	\$ 231,111	\$ 184,889	\$ 416,000

As of June 30, 2003, the Company has outstanding borrowings under the revolving loans of \$119.0 million. In addition, the Company has \$9.1 million in letters of credit outstanding primarily related to pending acquisitions. Net of outstanding borrowings and letters of credit, the Company has \$71.9 million available for future borrowings under the revolving loans as of June 30, 2003.

At December 31, 2002 and June 30, 2003, the Company was in compliance with all covenant provisions.

6. SUBORDINATED DEBT

Edgar Filing: CITADEL BROADCASTING CORP - Form 10-Q

On June 26, 2001, the Company completed the issuance of \$500.0 million of 6% Subordinated Debentures ("6% Debentures") to two partnerships affiliated with FL&Co. The 6% Debentures are subordinate and junior in right of payment to the Notes Payable discussed in Note 5. Interest is payable semi-annually on the 30th day of June and the 31st day of December in each year, computed on the basis of a 360-day year of twelve 30-day months at an annual rate of 6%. Principal payments under these debentures of approximately \$166.7 million are due on June 26, 2012, 2013 and 2014.

7. SHAREHOLDERS' EQUITY

On May 12, 2003, the Company repurchased 457,120 shares of Class B common stock held by its former Chief Financial Officer at cost in accordance with the shareholder's agreement for an aggregate purchase price of \$1.6 million. On June 11, 2003, the Company repurchased 228,560 shares of Class B common stock held by a former officer of the Company at cost in accordance with the shareholder's agreement for an aggregate purchase price of \$0.8 million.

On May 21, 2003, the Company's new Chief Operating Officer purchased 94,400 shares of Class B common stock of the Company for an aggregate purchase price of \$0.5 million. These shares of Class B common stock are subject to a stockholder's agreement, which, among other things, restricts the transfer of the shares of Class B common stock.

8. INCOME TAXES

Income tax expense for 2003 was primarily due to the amortization of indefinite-lived intangibles for income tax purposes, for which no benefit can be recognized in the financial statements until the assets are disposed of. The income tax benefit for 2002 was primarily due to benefits related to the Company's net operating losses offset by increases in the valuation allowance.

9. NET LOSS PER SHARE

Basic net loss per share is computed by dividing loss available to common shareholders by the weighted-average number of Class A common shares outstanding for the period. Diluted net loss per

14

share reflects the potential dilution that could occur if securities or contracts to issue common stock were exercised or converted into common stock or resulted in the issuance of common stock that then shared in the losses of the Company. The Company had options to issue 4,150,000 and 5,957,750 shares of Class A common stock outstanding as of June 30, 2002 and June 30, 2003, respectively. However, these options and outstanding shares of Class B common stock have been excluded from the calculations of diluted net loss per share as their effect is antidilutive.

10. COMMITMENTS AND CONTINGENCIES

In October 1999, the Radio Music License Committee (RMLC), of which the Company is a participant, filed a motion in the New York courts against Broadcast Music, Inc. (BMI) to commence a rate-making proceeding on behalf of the radio industry and to seek a determination of fair and reasonable industry-wide license fees for the broadcast of music. In July 2003, the RMLC entered into an agreement on behalf of the radio industry with BMI. This agreement, which is subject to approval by the United States District Court in New York, replaces the interim agreement under which the Company had been operating since January 1, 1997. The Company's management estimates that the impact of this agreement will not materially affect the financial position or results of operations of the Company.

In a complaint filed on June 5, 2003, with the United States District Court for the District of Connecticut, the Company was named as one of numerous defendants in litigation seeking monetary damages arising from the injuries and deaths of certain concertgoers at a Rhode Island nightclub. The complaint contains multiple causes of action, only a small number of which are brought against the Company, in which the Company's sole involvement was to advertise the concert on one of its stations and to distribute promotional tickets provided by the organizers. The complaint alleges, among other things, that the organizers and sponsors of the concert failed to control crowd size, failed to obtain pyrotechnic permits, failed to inspect fireproofing at the club and failed to maintain emergency exits in workable condition, which contributed to the injuries and deaths of plaintiffs when pyrotechnic devices on the stage ignited soundproofing materials adjacent to the stage during the concert. The complaint alleges that the Company was a co-sponsor of the concert and asserts claims against the Company based on theories of joint venture liability and negligence. The Company believes that plaintiffs' claims against the Company are without merit and the Company intends to defend these claims vigorously.

The Company is subject to other claims and lawsuits arising in the ordinary course of its business. The Company believes that none of these legal proceedings, individually or in the aggregate, would have a material adverse impact on its results of operations, cash flows or financial

condition.

11. SUBSEQUENT EVENTS

The Company's initial public offering registration statement with the Securities and Exchange Commission was declared effective on July 31, 2003, and the Company issued 25.3 million shares (which includes the over allotment exercised by the underwriters of 3.3 million shares) of its common stock at \$19.00 per share for an aggregate gross sales price of \$480.7 million. The proceeds from the sale of the stock net of underwriting commissions of approximately \$28.8 million were paid to the Company on August 6, 2003. In connection with this initial public offering, the Company completed a recapitalization immediately prior to, or simultaneously with, the closing as follows:

each outstanding share of Class B common stock was exchanged for .518 shares of Class A common stock;

the Class A common stock was redesignated as common stock; and

the certificate of incorporation was amended and restated to reflect a single class of common stock, par value \$.01 per share.

15

After the recapitalization described above, the Company had 122,911,490 shares of common stock outstanding.

The Company used substantially all of the net proceeds to first repay amounts outstanding under the Term B loan, then to repay amounts outstanding under the revolving portion of the credit facility, with the remaining proceeds used to repay amounts outstanding under the Term A loan. After the application of the proceeds, the Company had approximately \$78.1 million outstanding under the Term A loan.

On August 8, 2003, the Company entered into an asset purchase agreement to sell one radio station in the Harrisburg, PA market and three radio stations in the Wilkes-Barre, PA market for an aggregate cash purchase price of \$2.5 million and on August 29, 2003 the Company entered into an asset purchase agreement to sell two radio stations in the Springfield, MO market for an aggregate purchase price of \$5.1 million. In addition, the purchaser of the Springfield, MO stations will operate the stations under a local marketing agreement effective September 8, 2003.

On September 8, 2003, the Company completed the acquisition of five radio stations in the Des Moines, IA market, four radio stations in the New Orleans, LA market, and two radio stations in the Springfield, MO market for an aggregate cash purchase price of \$133.0 million.

16

ITEM 2. MANAGEMENT'S DISCUSSION AND ANALYSIS OF FINANCIAL CONDITION AND RESULTS OF OPERATIONS

Forward-Looking Statements

Certain matters in this Form 10-Q, including, without limitation, certain matters discussed in this Management's Discussion and Analysis of Financial Condition and Results of Operations and in Quantitative and Qualitative Disclosures about Market Risk, constitute "forward-looking statements" within the meaning of Section 27A of the Securities Act of 1933, as amended, and Section 21E of the Securities Exchange Act of 1934, as amended. Those statements include statements regarding the intent, belief or current expectations of Citadel Broadcasting Corporation and its subsidiaries (collectively the "Company"), its directors or its officers with respect to, among other things, future events and financial trends affecting the Company.

Forward-looking statements are typically identified by the words "believes," "expects," "anticipates," and similar expressions. In addition, any statements that refer to expectations or other characterizations of future events or circumstances are forward-looking statements. Readers are cautioned that any such forward-looking statements are not guarantees of future performance and that matters referred to in such forward-looking statements involve known and unknown risks, uncertainties and other factors which may cause actual results, performance or achievements of the Company to be materially different from any future results, performance or achievements expressed or implied by such forward-looking statements. Such factors include, among other things, the impact of current or pending legislation and regulation, antitrust considerations and other risks and uncertainties, as well as those matters discussed in Exhibit 20.1 titled "Risks Related to Our Business" to Citadel Broadcasting Corporation's Current Report on Form 8-K filed on August 11, 2003. The Company undertakes no obligation to publicly update or revise these forward-looking statements because of new information, future events or otherwise.

Introduction

Citadel Broadcasting Company, which together with its parent Citadel Communications Corporation, we refer to as our predecessor company, was founded in 1991 and grew rapidly through acquisitions subsequent to the passage of the Telecommunications Act of 1996. In June 2001, affiliates of Forstmann Little & Co. acquired our predecessor company from its public shareholders for an aggregate purchase price, including the redemption of debt and exchangeable preferred stock, of approximately \$2.0 billion.

Our operating subsidiary, Citadel Broadcasting Company, owns and operates radio stations and holds Federal Communications Commission (FCC) licenses in twenty-five states.

Sources of Revenue

Our net broadcasting revenue is primarily derived from the sale of broadcasting time to local, regional and national advertisers. Net broadcasting revenue is gross revenue less agency commissions. Local revenue is comprised of advertising sales made within a station's local market or region either directly with the advertiser or through the advertiser's agency. National revenue represents sales made to advertisers/agencies who are purchasing advertising for multiple markets. These sales are typically facilitated by our national representation firm, which serves as our sales agent in these transactions. Our revenue is affected primarily by the advertising rates our radio stations charge as well as the overall demand for radio advertising time in a market. Advertising rates are based primarily on four factors:

a radio station's audience share in the demographic groups targeted by advertisers, as measured principally by quarterly reports issued by The Arbitron Ratings Company, or Arbitron;

17

the number of radio stations, as well as other forms of media, in the market competing for the same demographic groups;

the supply of and demand for radio advertising time; and

the size of the market.

In the radio broadcasting industry, seasonal revenue fluctuations are common and are due primarily to variations in advertising expenditures by local and national advertisers. Typically, revenue is lowest in the first calendar quarter of the year and highest in the second and fourth calendar quarters of the year.

Components of Expenses

Our most significant expenses are (1) sales costs, (2) programming expenses, (3) advertising and promotional expenses and (4) administrative and technical expenses. We strive to control these expenses by working closely with local management and centralizing functions such as finance, accounting, legal, human resources and management information systems. We also use our multiple stations, market presence and purchasing power to negotiate favorable rates with vendors.

Depreciation and amortization of costs associated with the acquisition of radio stations and interest carrying charges historically have been significant factors in determining our overall profitability. Based on intangible assets currently held by us, and not giving effect to the closing of pending radio station acquisitions, we expect the total amortization expense incurred will continue to decrease due to the remaining weighted-average useful amortization period of intangible assets subject to amortization.

Results of Operations

Our results of operations represent the operations of the radio stations owned or operated by us, or for which we provide sales and marketing services, during the applicable periods. The following discussion should be read in conjunction with the accompanying consolidated condensed financial statements and the related notes included in this report.

Historically, we have managed our portfolio of radio stations through selected acquisitions, dispositions and exchanges, as well as through the use of local marketing agreements, or LMAs, and joint sales agreements, or JSAs. Under an LMA or a JSA, the company operating a station provides programming or sales and marketing or a combination of such services on behalf of the owner of a station. The broadcast revenue and operating expenses of stations operated by us under LMAs and JSAs have been included in our results of operations since the respective

effective dates of such agreements.

Three Months Ended June 30, 2003 Compared to Three Months Ended June 30, 2002

Net Broadcasting Revenue. Net broadcasting revenues in the second quarter of 2003 were \$95.4 million compared with \$91.5 million in the second quarter of 2002, an increase of \$3.9 million, or 4.3%. The increase was caused by higher revenues from most of our stations. National revenue increased approximately \$0.9 million, or 5.9%, while local revenue increased approximately \$3.0 million, or 4.0%. Net broadcasting revenue, excluding barter revenue, increased in the three months ended June 30, 2003 by \$4.7 million, or 5.3%, compared to the corresponding period in 2002, while barter revenue, which represents revenue earned in exchange for goods or services received from advertisers, decreased \$0.8 million, or 29.5%.

Operating Expenses. Operating expenses decreased \$2.8 million, or 2.9%, to \$93.9 million for the three months ended June 30, 2003 from \$96.7 million for the three months ended June 30, 2002. This was primarily due to a decrease in corporate non-cash stock compensation of \$2.6 million from \$4.7 million during the three months ended June 30, 2002. The compensation expense relates to stock options granted to and shares of common stock issued to our chief executive officer in 2002, and the

18

expense is recognized over the vesting period of the options and shares. Depreciation and amortization expense of \$35.4 million for the quarter ended June 30, 2003 was relatively unchanged compared to the June 30, 2002 quarter. Amortization expense for the quarter ended June 30, 2003 and 2002 included approximately \$28.8 million of expense related to the Company's Advertiser Base asset, established upon the initial acquisition of Citadel Communications Corporation in June 2001. The amortization for the Advertiser Base will decline significantly in 2004 and 2005. The Advertiser Base amortization expense for each of the three years ending December 31 is estimated as follows: \$113 million (2003), \$66 million (2004) and \$10 million (2005), respectively.

Operating Income. Operating income for the second quarter 2003 was \$1.5 million compared with an operating loss of \$5.2 million in the corresponding 2002 period, resulting in an overall improvement of \$6.7 million. The increase in operating income for the second quarter 2003 was primarily due to higher net broadcasting revenue combined with flat operating expenses and a decrease in corporate non-cash stock compensation.

Interest Expense, Net. Net interest expense decreased \$1.8 million to \$13.7 million for the quarter ended June 30, 2003 from \$15.5 million for the quarter ended June 30, 2002, a decrease of 11.6%. Net interest expense in both periods included amortization of deferred financing costs of approximately \$0.9 million. This decrease in net interest expense was primarily due to a reduction in outstanding borrowings and lower interest rates for the quarter ended June 30, 2003 compared to the same period in 2002.

Income Tax Expense. Income tax expense for the quarter ended June 30, 2003 was \$6.8 million compared with an income tax benefit of \$2.9 million for the quarter ended June 30, 2002. The income tax expense for the quarter ended June 30, 2003 was primarily due to the amortization of indefinite-lived intangibles for income tax purposes, for which no benefit can be recognized in the financial statements until the assets are disposed of. The income tax benefit for the quarter ended June 30, 2002 was primarily due to benefits related to our net operating losses offset by increases in the valuation allowance. The income tax expense/(benefit) includes current income tax expense of approximately \$0.3 million and \$0.2 million for the three months ended June 30, 2003 and 2002, respectively.

Net Loss. Net loss for the quarter ended June 30, 2003 was \$19.0 million, or \$0.20 per basic and diluted share, as compared to a net loss of \$18.3 million, or \$0.19 per basic and diluted share, for the same period in 2002. The net loss for both periods was significantly impacted by depreciation and amortization expense and non-cash stock compensation expense of \$35.4 million and \$2.1 million, respectively, for the three months ended June 30, 2003, and \$35.5 million and \$4.7 million, respectively, for the three months ended June 30, 2002.

Net Loss Per Share. The loss per share amounts were computed based on the shares outstanding prior to the Company's initial public offering. In August of 2003, the Company completed its initial public offering and issued 25.3 million shares (including an over allotment of 3.3 million shares) of common stock at \$19.00 per share.

Six Months Ended June 30, 2003 Compared to Six Months Ended June 30, 2002

Net Broadcasting Revenue. Net broadcasting revenues for the six months ended June 30, 2003 were \$172.6 million compared with \$164.2 million for the six months ended June 30, 2002, an increase of \$8.4 million, or 5.1%. The increase was caused by higher revenues from most of our stations. National revenue increased approximately \$2.7 million, or 10.8%, while local revenue increased approximately \$5.7 million, or 4.1%. Net broadcasting revenue, excluding barter revenue, increased in the six months ended June 30, 2003 by \$9.7 million, or

6.1%, compared to the corresponding period in 2002, while barter revenue, which represents revenue earned in exchange for goods or services received from advertisers, decreased \$1.2 million, or 25.8%.

Operating Expenses. Operating expenses decreased \$11.4 million, or 5.8%, to \$184.9 million for the six months ended June 30, 2003 from \$196.3 million for the six months ended June 30, 2002. This was primarily due to corporate non-cash stock compensation, which decreased by \$10.4 million, or 63.4%, from \$16.4 million during the six months ended June 30, 2002 to \$6.0 million during the six months ended June 30, 2003. The compensation expense relates to stock options granted and shares of common stock issued to our chief executive officer in 2002, and the expense is recognized over the vesting period of the options and shares. Depreciation and amortization expense of \$70.8 million for the six months ended June 30, 2003 was relatively unchanged compared to the June 30, 2002 period. Amortization expense for the six months ended June 30, 2003 and 2002 included approximately \$57.7 million of expense related to the Company's Advertiser Base asset, established upon the initial acquisition of Citadel Communications Corporation in June 2001. The amortization for the Advertiser Base will decline significantly in 2004 and 2005. The Advertiser Base amortization expense for each of the three years ending December 31 is estimated as follows: \$113 million (2003), \$66 million (2004) and \$10 million (2005), respectively.

Operating Loss. Operating loss for the six months ended June 30, 2003 was \$12.3 million compared with \$32.1 million in the corresponding 2002 period, a decrease of \$19.8 million, or 61.7%. The decrease in operating loss for the six months ended June 30, 2003 was primarily due to the increase in net broadcasting revenue combined with flat operating expenses and a decrease in corporate non-cash stock compensation.

Interest Expense, Net. Net interest expense decreased \$3.4 million to \$27.7 million during the six months ended June 30, 2003 from \$31.1 million for the same period in June 30, 2002, a decrease of 10.9%. Net interest expense in both periods included amortization of deferred financing costs of approximately \$1.8 million. This decrease in net interest expense was primarily due to a reduction in outstanding borrowings and lower interest rates for the six months ended June 30, 2003 compared to the same period in 2002.

Income Tax Expense. Income tax expense for the six months ended June 30, 2003 was \$12.8 million compared to an income tax benefit of \$8.8 million for the six months ended June 30, 2002. The income tax expense for the six months ended June 30, 2003 was primarily due to the amortization of indefinite-lived intangibles for income tax purposes, for which no benefit can be recognized in the financial statements until the assets are disposed of. The income tax benefit for the six months ended June 30, 2002 was primarily due to benefits related to our net operating losses offset by increases in the valuation allowance. The income tax expense/(benefit) includes current income tax expense of approximately \$0.6 million and \$0.7 million for the six months ended June 30, 2003 and 2002, respectively.

Net Loss. Net loss for the first six months of 2003 was \$52.8 million, or \$0.55 per basic and diluted share, as compared to a net loss of \$55.0 million, or \$0.57 per basic and diluted share, for the same period in 2002. The net loss for both periods was significantly impacted by depreciation and amortization expense and non-cash stock compensation of \$70.8 million and \$6.0 million, respectively, for the six months ended June 30, 2003, and \$71.3 million and \$16.4 million, respectively, for the six months ended June 30, 2002.

Net Loss Per Share. The loss per share amounts were computed based on the shares outstanding prior to the Company's initial public offering. In August of 2003, the Company completed its initial public offering and issued 25.3 million shares (including an over allotment of 3.3 million shares) of common stock at \$19.00 per share.

Liquidity and Capital Resources

Our primary sources of liquidity are cash provided by operations, undrawn commitments available under our credit facility and proceeds generated from the sale of our debt and equity securities. We have used, and will continue to use, a significant portion of our capital resources to complete acquisitions.

Initial Public Offering. Our initial public offering registration statement with the Securities and Exchange Commission was declared effective on July 31, 2003, and we issued 25.3 million shares (which includes the over allotment exercised by the underwriters of 3.3 million shares) of our common stock at \$19.00 per share resulting in net proceeds to the Company of approximately \$447.0 million after expenses. We used substantially all of our net proceeds from this offering to repay amounts outstanding under our credit facility. As of August 31, 2003, we had approximately \$69.1 million outstanding under our credit facility. See "Credit Facility Initial Public Offering" for a further discussion of the impact on our credit facility.

Edgar Filing: CITADEL BROADCASTING CORP - Form 10-Q

Operating Activities. Net cash provided by operating activities of \$31.3 million for the six months ended June 30, 2003 was relatively unchanged as compared to \$32.0 million for the comparable six-month period in 2002.

Investing and Financing Activities. Net cash used in investing activities increased to \$40.9 million for the six months ended June 30, 2003, as compared to \$1.2 million for the six months ended June 30, 2002. During 2003, approximately \$41.4 million was used for the acquisition of radio stations and capital expenditures, which includes buildings, studio equipment, towers and transmitters, vehicles and other assets utilized in the operation of our stations, compared to \$5.1 million for similar costs in the 2002 period.

Net cash provided by financing activities was \$12.3 million for the six months ended June 30, 2003, as compared to net cash used in financing activities of \$9.4 million for the same period in 2002. For the six months ended June 30, 2003, the net cash provided by financing activities was primarily due to total net proceeds from notes payable of \$14.0 million offset by approximately \$1.9 million in net repurchases of our Class B common stock. For the six months ended June 30, 2002, the net cash used in financing activities was primarily due to total net proceeds from notes payable of \$1.5 million offset by approximately \$11.3 million in net repurchases of our Class B common stock.

During the six months ended June 30, 2003, we completed five acquisitions for a total of eight radio stations with a combined aggregate purchase price of approximately \$43.2 million, and we funded these acquisitions through cash flows from operating activities and borrowings under our revolving credit facility.

Additionally, on September 8, 2003, we completed the acquisition of five radio stations in the Des Moines, IA market, four radio stations in the New Orleans, LA market, and two radio stations in the Springfield, MO market for an aggregate cash purchase price of \$133.0 million. We funded this acquisition primarily through borrowings under our credit facility.

On May 12, 2003, we repurchased 457,120 shares of Class B common stock held by our former Chief Financial Officer for an aggregate purchase price of \$1.6 million and on May 21, 2003, our new Chief Operating Officer purchased 94,400 shares of our Class B common stock for an aggregate purchase price of \$0.5 million. Additionally, on June 11, 2003, we repurchased 228,560 shares of our Class B common stock held by a former officer for an aggregate purchase price of \$0.8 million and on July 15, 2003, we repurchased 514,277 shares of our Class B common stock held by two former officers for an aggregate purchase price of approximately \$1.8 million.

In addition to debt service, our principal liquidity requirements are for working capital and general corporate purposes, capital expenditures and acquisitions of additional radio stations. Our capital

expenditures totaled \$3.2 million during the six months ended June 30, 2003, as compared to \$5.1 million during the six months ended June 30, 2002. For the fiscal year ending December 31, 2003, we estimate that capital expenditures necessary for maintaining our facilities will be approximately \$8.0 million. We believe that cash flows from operating activities, together with availability under our revolving credit facility, should be sufficient for us to fund our current operations for at least the next 12 months.

As of the date of this filing, we have three transactions pending to purchase radio stations for cash purchase prices aggregating \$25.1 million and we intend to fund these acquisitions through borrowings under our credit facility, cash flows from operating activities, and from proceeds from our pending disposition of stations as described below.

The Company has pending agreements to sell one radio station in Reno, NV for approximately \$4.3 million in cash and five stations in Tyler/Longview, TX for an aggregate purchase price of \$6.0 million, of which \$5.5 million will be in the form of a note. The Company has six additional pending asset purchase agreements to sell an aggregate of twelve stations in six markets for aggregate cash purchase prices totaling \$9.4 million.

To the extent we require additional capital to fund our capital expenditures, pending or future acquisitions or any of our other contractual or commercial commitments, we intend to seek additional funding in the credit or capital markets and there can be no assurance that we will be able to obtain financing on terms acceptable to us.

Credit Facility

On June 26, 2001, we entered into a \$700 million bank credit facility with a syndicate of banks and other financial institutions led by JPMorgan Chase Bank, as a lender and administrative agent. On January 29, 2003, we amended our credit facility which, in part, reduced the facility to \$650 million by reducing the commitment on the tranche B term loan from \$250 million to \$200 million. We financed this \$50 million reduction through borrowings under our revolving credit facility. On March 31, 2003, we repaid \$34 million of term loans with borrowings

Edgar Filing: CITADEL BROADCASTING CORP - Form 10-Q

under our revolving credit facility. Payments made on the term loans reduce the commitment under our credit facility and therefore the funds are not available for future borrowings. Our credit facility, as amended, consists of the following:

	Commitment	Balance Outstanding (as of June 30, 2003)
Tranche A term loan	\$ 250,000,000	\$ 231,111,111
Tranche B term loan	200,000,000	184,888,889
Revolving credit facility	200,000,000	119,000,000

Availability. The amount available under our credit facility at June 30, 2003 was approximately \$81.0 million in the form of revolving credit commitments. This excludes approximately \$9.1 million in letters of credit outstanding as of June 30, 2003. Our ability to borrow under our credit facility is limited by our ability to comply with several financial covenants as well as a requirement that we make various representations and warranties at the time of borrowing.

Initial Public Offering. Our initial public offering registration statement with the Securities and Exchange Commission was declared effective on July 31, 2003, and we issued 25.3 million shares (which includes the over allotment exercised by the underwriters of 3.3 million shares) of our common stock at \$19.00 per share for an aggregate gross sales price of \$480.7 million. The proceeds from the sale of the stock net of underwriting commissions of approximately \$28.8 million were paid to the Company on August 6, 2003. We used substantially all of our net proceeds from this offering to repay amounts outstanding under our tranche B term loan and the revolving portion of our credit facility, with the remaining proceeds used to repay amounts outstanding under our tranche A term loan. After the application of the net proceeds, we had approximately \$78.1 million outstanding under the tranche A

22

loan. The net proceeds used to repay amounts outstanding under our tranche A and tranche B term loans reduced the outstanding commitments under our credit facility and we will not be able to reborrow these amounts. The net proceeds used to repay amounts outstanding under our revolving credit facility will not reduce the outstanding commitment under the revolving portion of our credit facility. After giving effect to the repayment of the amounts outstanding under the revolving portion of our credit facility, we had \$200 million available under our revolving credit facility, excluding approximately \$9.1 million in outstanding letters of credit. On September 8, 2003, we borrowed \$127 million under our revolving credit facility to complete the acquisition of the stations in Des Moines, IA, New Orleans, LA and Springfield, MO, discussed above. Our credit facility also provides that at any time prior to June 26, 2004, we may solicit incremental term and revolving loans not to exceed \$400 million.

In connection with the full repayment of the tranche B term loan and the partial repayment of the tranche A term loan subsequent to June 30, 2003, we expect to write off related deferred financing costs. In addition, we are in discussions with our lenders in anticipation of amending our credit facility. In the third quarter of 2003, we expect to write off a significant portion of deferred financing costs related to our credit facility, which had a net balance of approximately \$13.4 million at June 30, 2003. If all of the deferred financing costs related to our credit facility are written-off, the related amortization expense included in interest expense would decline by approximately \$2.5 million annually, exclusive of any new deferred financing costs associated with amending the credit facility.

Maturity and Amortization. The term loans are repayable in quarterly installments pursuant to a predetermined payment schedule. After the application of the net proceeds from the initial public offering, the tranche A term loan is repayable over a period of five years in quarterly installments, beginning on September 30, 2004, in amounts ranging from \$4.6 million and increasing to \$5.7 million for the final four quarterly repayments. The final quarterly payment on the tranche A term loan is due June 26, 2008. As discussed above, the tranche B term loan was repaid on August 6, 2003.

Non-Financial Covenants. Our credit facility contains customary restrictive non-financial covenants, that, among other things, and with certain exceptions, limit our ability to incur additional indebtedness, liens and contingent obligations, enter into transactions with affiliates, make acquisitions, declare or pay dividends, redeem or repurchase capital stock, enter into sale and leaseback transactions, consolidate, merge or effect asset sales, make capital expenditures, make investments, loans, enter into derivative contracts, or change the nature of our business. At December 31, 2002 and June 30, 2003, we were in compliance with all non-financial covenants under our credit facility.

Financial Covenants. Our credit facility contains covenants related to the satisfaction of financial ratios and compliance with financial tests, including ratios with respect to maximum leverage, minimum interest coverage and minimum fixed charge coverage. Our maximum leverage covenant requires that, as of the last day of each fiscal quarter, our ratio of total senior indebtedness (which excludes our 6% subordinated debentures) to consolidated EBITDA (as defined in our credit agreement) for the four immediately preceding fiscal quarters may not be greater than 5.00 to 1 through September 30, 2003, and the ratio declines on October 1 of each year thereafter. Our minimum interest coverage covenant requires that, as of the last day of each fiscal quarter, our ratio of consolidated EBITDA (as defined in our credit agreement)

minus various capital expenditures, to consolidated senior interest expense (which excludes interest expense related to our 6% subordinated debentures) for the four immediately preceding fiscal quarters may not be less than 1.80 to 1 through September 30, 2003, and the ratio increases on October 1 of each year thereafter. Our minimum fixed charges coverage covenant requires that, as of the last day of each fiscal quarter, our ratio of consolidated EBITDA (as defined in our credit agreement) minus various capital expenditures and principal debt payments to fixed charges for the four immediately preceding fiscal quarters may not be less than the 1.00 to 1 through September 30, 2004, and the ratio increases on October 1 of each year thereafter. At December 31, 2002 and June 30, 2003, we were in compliance with all financial covenants under our credit facility.

Subordinated Debt

In June 2001, we issued an aggregate of \$500.0 million of subordinated debentures to two of the partnerships affiliated with FL&Co. in connection with our acquisition of Citadel Communications. The partnerships affiliated with FL&Co. immediately distributed the subordinated debentures to their respective limited partners. The subordinated debentures are our general senior subordinated obligations, are not subject to mandatory redemption and mature in three equal annual installments beginning June 26, 2012, with the final payment due on June 26, 2014. The debentures bear interest at a fixed rate of 6% which is payable semi-annually at the end of June and December each year. The balance of debentures outstanding as of June 30, 2003 was \$500.0 million. The subordinated debentures are subordinated to our credit facility and other senior obligations we may incur in the future and do not include any restrictive financial covenants. The subordinated debentures may be prepaid by us at any time without premium, penalty or charge. We have a right of first refusal on the transfer of the debentures.

Recent Accounting Pronouncements

In January 2003, the FASB issued Interpretation No. 46, *Consolidation of Variable Interest Entities, an Interpretation of ARB No. 51, Consolidated Financial Statements*. This interpretation applies immediately to variable interest entities created after January 31, 2002 and to variable interest entities in which an enterprise obtains an interest after that date. It applies in the first fiscal year or interim period beginning after June 15, 2003 to variable interest entities in which an enterprise holds a variable interest that it acquired before February 1, 2003. This interpretation may be applied prospectively with a cumulative-effect adjustment as of the date on which it is first applied or by restating previously issued financial statements for one or more years with a cumulative-effect adjustment as of the beginning of the first year restated. Our adoption of FIN No. 46 is not expected to have a material impact on our financial position or results of operations.

In April 2003, the FASB issued SFAS No. 149, *Amendment to Statement 133 on Derivative Instruments and Hedging Activities*. SFAS No. 149 amends and clarifies accounting for derivative instruments, including certain derivative instruments embedded in other contracts, and for hedging activities under SFAS No. 133. SFAS No. 149 is applied prospectively and is effective for contracts entered into or modified after June 30, 2003, except for SFAS No. 133 implementation issues that have been effective for fiscal quarters that began prior to June 15, 2003 and certain provisions relating to forward purchases and sales of securities that do not yet exist. Our adoption of SFAS No. 149 will not have a material impact on our financial position or results of operations.

In May 2003, the FASB issued SFAS No. 150, *Accounting for Certain Financial Instruments with Characteristics of both Liabilities and Equity*. SFAS No. 150 establishes standards for how an issuer classifies and measures certain financial instruments with characteristics of both liabilities and equity. It requires that an issuer classify a financial instrument that is within its scope as a liability (or an asset in some circumstances). SFAS No. 150 is effective for financial instruments entered into or modified after May 31, 2003, and otherwise is effective at the beginning of the first interim period beginning after June 15, 2003. We will adopt the standard on July 1, 2003. We have not determined the effect, if any, that SFAS No. 150 will have on our consolidated financial statements.

Critical Accounting Policies

We prepare our consolidated financial statements in conformity with accounting principles generally accepted in the United States, which require us to make estimates and assumptions that affect the reported amounts of assets, liabilities, revenue and expenses, and related disclosures of contingent assets and liabilities. We base our estimates on historical experience and on various other assumptions that are believed to be reasonable judgments. Actual results could differ from these estimates under different assumptions and conditions.

Edgar Filing: CITADEL BROADCASTING CORP - Form 10-Q

We consider the following policies to be most critical in understanding the judgments involved in preparing our financial statements and the uncertainties that could affect our results of operations, financial condition and cash flows.

Allowance for Doubtful Accounts. We recognize an allowance for doubtful accounts based on historical experience of bad debts as a percent of its aged outstanding receivables. Based on historical information, we believe that our allowance is adequate. However, changes in general economic, business and market conditions could affect the ability of our customers to make their required payments; therefore, the allowance for doubtful accounts is reviewed monthly and changes to the allowance are updated as appropriate.

Long-Lived Assets. Our long-lived assets include FCC licenses, goodwill and other intangible assets. At June 30, 2003 and December 31, 2002, we had approximately \$1,965.1 million and \$1,987.5 million, respectively, in intangible assets, which represent approximately 90.2% and 90.4%, respectively, of our total assets. Prior to our adoption of SFAS No. 142, we determined the recoverability of all of our long-lived assets by comparing the carrying amount of an asset to the estimated future undiscounted cash flows expected to be generated by the asset. If the assets were considered to be impaired, the impairment recognized was measured by the amount by which the carrying amount of the assets exceeded the fair value of the assets. Assets to be disposed of are reported at the lower of the carrying amount or fair value less costs to sell. On January 1, 2002, we adopted SFAS No. 142 and have tested all intangible assets in accordance with the requirements of SFAS No. 142. Our policy for reviewing other long-lived assets for possible impairment has not changed. If our projections of future undiscounted cash flows were to deteriorate, this could result in an impairment of our long-lived assets.

Income Taxes. We utilize the asset and liability method of accounting for income taxes. Under the asset and liability method, deferred tax assets and liabilities are recognized for the future tax consequences attributable to differences between the financial statement carrying amounts of existing assets and liabilities and their respective tax bases. Deferred tax assets and liabilities are measured using enacted tax rates expected to apply to taxable income in the years in which those temporary differences are expected to be recovered or settled. The effect on deferred tax assets and liabilities of a change in tax rates is recognized in income in the period that includes the enactment date.

Contractual and Commercial Commitments

Due to the completion of our initial public offering in August of 2003 (See "Liquidity and Capital Resources - Credit Facility"), the contractual commitments under our Notes Payable have been significantly reduced. As of June 30, 2003, we had \$535.0 million outstanding under our Credit Facility and after the application of the net proceeds from the initial public offering we had \$78.1 million outstanding.

As of June 30, 2003, we had four transactions pending to purchase an aggregate of fifteen radio stations. One of these transactions was an agreement to purchase five radio stations in the Des Moines, IA market, four radio stations in the New Orleans, LA market, and two radio stations in the Springfield, MO market for an aggregate cash purchase price of \$133.0 million. This transaction was completed on September 8, 2003 primarily with borrowings under our credit facility. We have three additional transactions pending to purchase an aggregate of four radio stations in three markets for an aggregate cash purchase price of \$25.1 million.

There have been no other significant changes in our contractual and commercial commitments as of June 30, 2003.

Off-Balance Sheet Arrangements

We currently do not have any off-balance sheet arrangements or transactions.

Seasonality

In the radio broadcasting industry, seasonal revenue fluctuations are common and are due primarily to variations in advertising expenditures by local and national advertisers. Typically, revenue is lowest in the first calendar quarter of the year and highest in the second and fourth calendar quarters of the year.

Impact of Inflation

We do not believe inflation has a significant impact on our operations. However, there can be no assurance that future inflation would not have an adverse impact on our operating results and financial condition.

ITEM 3. QUANTITATIVE AND QUALITATIVE DISCLOSURES ABOUT MARKET RISK

We are exposed to a number of financial market risks in the ordinary course of business. We believe our primary financial market risk exposure pertains to interest rate changes, primarily as a result of our credit agreement, which bears interest based on variable rates. We have not taken any action to cover interest rate market risk, and are not a party to any interest rate market risk management activities. We have performed a sensitivity analysis assuming a hypothetical increase in interest rates of 100 basis points applied to the \$535.0 million of variable rate debt that was outstanding as of June 30, 2003. Based on this analysis, the impact on future earnings for the following twelve months would be approximately \$5.4 million of increased interest expense. This potential increase is based on certain simplifying assumptions, including a constant level of variable rate debt and a constant interest rate based on the variable rates in place as of June 30, 2003.

We believe our receivables do not represent a significant concentration of credit risk due to the wide variety of customers and markets in which we operate.

ITEM 4. CONTROLS AND PROCEDURES

Prior to the filing of this report, we carried out an evaluation, under the supervision and with the participation of the Company's management, including our Chief Executive Officer and our Principal Financial Officer, of the effectiveness of the design and operation of our disclosure controls and procedures (as defined in Rule 13a-14(c) and 15d-14(c) under the Securities Exchange Act of 1934 (the "Exchange Act")). Based on this evaluation, which disclosed no significant deficiencies or material weaknesses, our Chief Executive Officer and our Principal Financial Officer concluded that, as of June 30, 2003, our disclosure controls and procedures were effective in timely alerting them to material information required to be included in our periodic SEC reports. Disclosure controls and procedures are controls and procedures that are designed to ensure that information required to be disclosed in our reports filed or submitted under the Exchange Act is recorded, processed, summarized, and reported within the time periods specified in the SEC's rules and forms, including, without limitation, controls and procedures designed to ensure that information required to be disclosed in our reports filed or submitted under the Exchange Act is accumulated and communicated to our management, including our Chief Executive Officer and our Principal Financial Officer, to allow timely decisions regarding required disclosure.

There have been no changes in our internal control over financial reporting during the period covered by this report or subsequent to the date of our Chief Executive Officer's and Principal Financial Officer's last evaluation that materially affected, or were reasonably likely to materially affect, our internal control over financial reporting.

26

Our disclosure controls and procedures are designed to provide a reasonable level of assurance of reaching our desired disclosure objective and are effective in reaching that level of reasonable assurance.

PART II OTHER INFORMATION

ITEM 1. LEGAL PROCEEDINGS

In October 1999, the Radio Music License Committee (RMLC), of which we are a participant, filed a motion in the New York courts against Broadcast Music, Inc. (BMI) to commence a rate-making proceeding on behalf of the radio industry and to seek a determination of fair and reasonable industry-wide license fees for the broadcast of music. In July 2003, the RMLC entered into an agreement on behalf of the radio industry with BMI. This agreement, which is subject to approval by the United States District Court in New York, replaces the interim agreement under which we had been operating since January 1, 1997. We estimate that the impact of this agreement will not materially affect our financial position or results of operations.

In a complaint filed on June 5, 2003, with the United States District Court for the District of Connecticut, we were named as one of numerous defendants in litigation seeking monetary damages arising from the injuries and deaths of certain concertgoers at a Rhode Island nightclub. The complaint contains multiple causes of action, only a small number of which are brought against us, in which our sole involvement was to advertise the concert on one of our stations and to distribute promotional tickets provided by the organizers. The complaint alleges, among other things, that the organizers and sponsors of the concert failed to control crowd size, failed to obtain pyrotechnic permits, failed to inspect fireproofing at the club and failed to maintain emergency exits in workable condition, which contributed to the injuries and deaths of

plaintiffs when pyrotechnic devices on the stage ignited soundproofing materials adjacent to the stage during the concert. The complaint alleges that we were a co-sponsor of the concert and asserts claims against us based on theories of joint venture liability and negligence. We believe that plaintiffs' claims against us are without merit and we intend to defend these claims vigorously.

We are subject to other claims and lawsuits arising in the ordinary course of our business. We believe that none of these legal proceedings would have a material adverse impact on our results of operations, cash flows or financial condition.

ITEM 2. CHANGES IN SECURITIES AND USE OF PROCEEDS

The Securities and Exchange Commission declared our registration statement on Form S-1 (Registration No. 333-89844) under the Securities Act of 1933 in connection with the initial public offering of our common stock effective on July 31, 2003. Under this registration statement, we registered 25,300,000 shares of our common stock, including 3,300,000 shares subject to the underwriters' over-allotment option, with an aggregate public offering price of \$480.7 million.

Our initial public offering commenced on August 1, 2003 and all of the shares of our common stock that we registered were sold for the aggregate public offering price of \$480.7 million through an underwriting syndicate managed by Goldman, Sachs & Co., Credit Suisse First Boston LLC, Deutsche Bank Securities Inc., Merrill Lynch, Pierce, Fenner & Smith Incorporated, Bear Stearns & Co. Inc., Citigroup Global Markets Inc., J.P. Morgan Securities Inc. and Wachovia Capital Markets, LLC. This offering terminated after the sale of all of the shares of our common stock that we registered under our registration statement on Form S-1.

The sale of shares of common stock by us, including the sale of 3,300,000 shares pursuant to the exercise of the over-allotment option by the underwriters, resulted in aggregate gross proceeds of approximately \$480.7 million, approximately \$28.8 million of which we applied to underwriting

27

commissions. As a result, we received approximately \$451.9 million of the offering proceeds before legal, accounting and other related expenses.

On August 6, 2003, we used approximately \$450.9 million of the net proceeds of the offering to repay amounts outstanding under our tranche B term loan and the revolving portion of our credit facility, with the remaining proceeds used to repay amounts outstanding under our tranche A term loan.

28

ITEM 4. SUBMISSION OF MATTERS TO A VOTE OF SECURITY HOLDERS

On May 23, 2003 a majority of stockholders adopted by written consent the Company's 2002 Long-Term Incentive Plan.

The results of voting on the adoption of the 2002 Long-Term Incentive Plan were as follows:

For	Against	Broker Non-Votes	Abstain/Withheld
288,402,987			

ITEM 6. EXHIBITS AND REPORTS ON FORM 8-K
