EDWARDS LIFESCIENCES CORPORATION

(Exact name of registrant as specified in its charter)

Delaware
(State or other jurisdiction of
incorporation or organization)

36-4316614
(I.R.S. Employer Identification No.)

One Edwards Way, Irvine, California
(Address of principal executive offices)

92614
(Zip Code)

(949) 250-2500
(Registrant's telephone number, including area code)

Edgar Filing: Edwards Lifesciences Corp - Form 10-Q

Indicate by check mark whether the registrant (1) has filed all reports required to be filed by Section 13 or 15(d) of the Securities Exchange Act of 1934 during the preceding 12 months (or for such shorter period that the registrant was required to file such reports), and (2) has been subject to such filing requirements for the past 90 days. Yes No

Indicate by check mark whether the registrant has submitted electronically and posted on its corporate Web site, if any, every Interactive Data File required to be submitted and posted pursuant to Rule 405 of Regulation S-T (§232.405 of this chapter) during the preceding 12 months (or for such shorter period that the registrant was required to submit and post such files). Yes No

Indicate by check mark whether the registrant is a large accelerated filer, an accelerated filer, a non-accelerated filer, or a smaller reporting company. See the definitions of "large accelerated filer," "accelerated filer," and "smaller reporting company" in Rule 12b-2 of the Exchange Act.

Large accelerated filer Accelerated filer Non-accelerated filer Smaller Reporting Company
(Do not check if a smaller reporting company)

Indicate by check mark whether the registrant is a shell company (as defined in Rule 12b-2 of the Exchange Act). Yes No

The number of shares outstanding of the registrant's common stock, \$1.00 par value, as of July 31, 2014 was 106,033,418.

Table of Contents

1. BASIS OF PRESENTATION

The accompanying interim consolidated condensed financial statements and related disclosures have been prepared pursuant to the rules and regulations of the Securities and Exchange Commission ("SEC") and should be read in conjunction with the consolidated financial statements and notes included in Edwards Lifesciences Corporation's Annual Report on Form 10-K for the year ended December 31, 2013. Certain information and footnote disclosures normally included in financial statements prepared in accordance with generally accepted accounting principles ("GAAP") have been condensed or omitted.

In the opinion of management of Edwards Lifesciences Corporation ("Edwards Lifesciences" or the "Company"), the interim consolidated condensed financial statements reflect all adjustments considered necessary for a fair statement of the interim periods. All such adjustments are of a normal, recurring nature. The results of operations for the interim periods are not necessarily indicative of the results of operations to be expected for the full year.

Cash Flow Statement Revision

In preparing the consolidated financial statements for the year ended December 31, 2013, the Company determined that it had misclassified certain accrued capital expenditures in the consolidated condensed statements of cash flows for the six months ended June 30, 2013. The Company has evaluated and concluded that this did not result in a material misstatement of the Company's previously issued consolidated financial statements. However, the Company has elected to revise its consolidated condensed statement of cash flows for the six months ended June 30, 2013 to correct the presentation of accrued capital expenditures, resulting in an increase to net cash used in investing activities (with a corresponding increase to net cash provided by operating activities) of \$14.9 million.

Recently Adopted Accounting Standards

In July 2013, the Financial Accounting Standards Board ("FASB") issued an amendment to the accounting guidance on income taxes impacting the presentation of unrecognized tax benefits. The guidance requires an entity to net its unrecognized tax benefits against the deferred tax assets for all same jurisdiction net operating loss or similar tax loss carryforwards, or tax credit carryforwards. The guidance was effective for annual reporting periods beginning after December 15, 2013 and interim periods therein. The adoption of this guidance did not have a material impact on the Company's consolidated condensed financial statements.

New Accounting Standards Not Yet Adopted

In May 2014, the FASB issued an update to the accounting guidance on revenue recognition. The new guidance provides a comprehensive, principles-based approach to revenue recognition, and supersedes most previous revenue recognition guidance. The core principle of the guidance is that an entity should recognize revenue to depict the transfer of promised goods or services to customers in an amount that reflects the consideration to which the entity expects to be entitled in exchange for those goods or services. The guidance also requires improved disclosures on the nature, amount, timing and uncertainty of revenue that is recognized. The guidance is effective for annual reporting periods beginning after December 15, 2016 and interim periods therein. The new guidance can be applied retrospectively to each prior reporting period presented or retrospectively with the cumulative effect of the change recognized at the date of the initial application. The Company is currently assessing the impact this guidance will have on its consolidated financial statements, and has not yet selected a transition method.

Table of Contents**2. CHANGE IN ACCOUNTING PRINCIPLE**

Effective January 1, 2014, the Company changed its method of accounting for certain intellectual property litigation expenses related to the defense and enforcement of issued patents. Previously, the Company capitalized these legal costs if a favorable outcome in the patent defense was determined to be probable, and amortized the capitalized legal costs over the life of the related patent. As of December 31, 2013, the Company had remaining unamortized capitalized legal costs of \$23.7 million, which, under the previous accounting method, would have been amortized through 2021. Under the new method of accounting, these legal costs are expensed in the period they are incurred. The Company has retrospectively adjusted the comparative financial statements of prior periods to apply this new method of accounting.

The Company believes this change in accounting principle is preferable because (1) as more competitors enter the Company's key product markets and the threat of complex intellectual property litigation across multiple jurisdictions increases, it will become more difficult for the Company to accurately assess the probability of a favorable outcome in such litigation, and (2) it will enhance the comparability of the Company's financial results with those of its peer group because it is the predominant accounting practice in the Company's industry.

The accompanying consolidated condensed financial statements and related notes have been adjusted to reflect the impact of this change retrospectively to all prior periods presented. The cumulative effect of the change in accounting principle was a decrease in retained earnings of \$12.2 million as of January 1, 2013. The following tables present the effects of the retrospective application of the change in accounting principle (in millions):

Consolidated Condensed Balance Sheet	As of December 31, 2013	
	As Reported	As Adjusted
Other intangible assets, net	\$ 57.2	\$ 33.5
Deferred income taxes	70.1	79.0

Other	(5.4)	0.3

3. INTELLECTUAL PROPERTY LITIGATION (INCOME) EXPENSE, NET

In May 2014, the Company entered into an agreement with Medtronic, Inc. and its affiliates ("Medtronic") to settle all outstanding patent litigation between the companies, including all cases related to transcatheter heart valves. Pursuant to the agreement, all pending cases or appeals in courts and patent offices worldwide have been dismissed, and the parties will not litigate patent disputes with each other in the field of transcatheter valves for the eight-year term of the agreement. Under the terms of a patent cross-license that is part of the agreement, Medtronic made a one-time, upfront payment to the Company in the amount of \$750.0 million. In addition, Medtronic will pay the Company quarterly license royalty payments through April 2022. For sales in the United States, the royalty payments will be based on a percentage of Medtronic's sales of transcatheter aortic valves, subject to a minimum annual payment of \$40.0 million and a maximum annual payment of \$60.0 million. A separate royalty payment will be calculated based on sales of Medtronic transcatheter aortic valves manufactured in the United States but sold elsewhere. For further information, see Note 13.

The Company accounted for the settlement agreement as a multiple-element arrangement and allocated the total consideration to the identifiable elements based upon their relative fair value. The consideration assigned to each element was as follows:

Past damages	\$ 754.3
License agreement	238.0
Covenant not to sue	77.7
Total	\$ 1,070.0

The Company recognized the upfront payment of \$750.0 million in "*Intellectual Property Litigation (Income) Expense, net*" during the second quarter of 2014. The accounting guidance limits the amount to be recognized upfront to the amount of cash received. Therefore, the remaining fair value associated with the past damages element, and the amounts assigned to the license agreement and covenant not to sue, will be recognized in "*Net Sales*" over the term of the license agreement as delivery occurs since the Company considers the future royalties to be part of its revenue-earning activities that constitute its ongoing major or central operations.

Edgar Filing: Edwards Lifesciences Corp - Form 10-Q

Table of Contents

The Company incurred external legal costs related to intellectual property litigation of \$2.6 million and \$5.5 million for the three months ended June 30, 2014 and 2013, respectively, and \$8.1 million and \$11.0 million for the six months ended June 30, 2014 and 2013, respectively.

In February 2013, the Company received \$83.6 million from Medtronic in satisfaction of the initial April 2010 jury award of damages for infringement of the United States Andersen transcatheter heart valve patent, including accrued interest.

4. SPECIAL CHARGES

Charitable Foundation Contribution

In June 2014, the Company contributed \$50.0 million to the Edwards Lifesciences Foundation, a related-party not-for-profit organization intended to provide philanthropic support to health- and community-focused charitable organizations. The contribution was irrevocable and was recorded as an expense at the time of payment.

Settlement

In March 2014, the Company recorded a \$7.5 million charge to settle past and future obligations related to one of its intellectual property agreements.

5. INVENTORIES

Inventories consisted of the following (in millions):

	June 30, 2014	December 31, 2013
Raw materials	\$ 60.4	\$ 57.8
Work in process	79.1	82.2
Finished products	177.6	168.9
	\$ 317.1	\$ 308.9

6. INVESTMENTS

Held-to-maturity Investments

Held-to-maturity investments at the end of each period were as follows (in millions):

	June 30, 2014				December 31, 2013			
	Cost	Gross Unrealized Gains	Gross Unrealized Losses	Fair Value	Cost	Gross Unrealized Gains	Gross Unrealized Losses	Fair Value
Bank time deposits	\$ 886.3	\$	\$	\$ 886.3	\$ 516.5	\$	\$	\$ 516.5
Commercial paper	89.8			89.8				
U.S. government and agency securities	50.8	0.1		50.9				
Asset-backed securities	9.4			9.4				
Corporate debt securities	25.0			25.0				
Municipal securities	5.1			5.1				
Total	\$ 1,066.4	\$ 0.1	\$	\$ 1,066.5	\$ 516.5	\$	\$	\$ 516.5

Edgar Filing: Edwards Lifesciences Corp - Form 10-Q

Table of Contents

The cost and fair value of held-to-maturity investments, by contractual maturity, as of June 30, 2014 were as follows:

	Cost	Fair Value
	(in millions)	
Due in 1 year or less	\$ 985.5	\$ 985.5
Due after 1 year through 5 years	63.6	63.7
Instruments not due at a single maturity date	17.3	17.3
	\$ 1,066.4	\$ 1,066.5

Actual maturities may differ from the contractual maturities due to call or prepayment rights.

Investments in Unconsolidated Affiliates

The Company has a number of equity investments in privately and publicly held companies. Investments in these unconsolidated affiliates are recorded in "Long-term Investments" on the consolidated condensed balance sheets, and are as follows:

	June 30, 2014	December 31, 2013
	(in millions)	
Available-for-sale investments		
Cost	\$ 0.4	\$ 0.4
Unrealized gains	0.1	0.4
Fair value of available-for-sale investments	0.5	0.8
Equity method investments		
Cost	12.4	14.1
Equity in losses	(1.5)	(2.7)
Carrying value of equity method investments	10.9	11.4
Cost method investments		
Carrying value of cost method investments	6.7	9.7
Total investments in unconsolidated affiliates	\$ 18.1	\$ 21.9

In March 2014, the Company recorded an other-than-temporary impairment charge of \$3.5 million related to one of its cost method investments.

Edgar Filing: Edwards Lifesciences Corp - Form 10-Q

Table of Contents

7. OTHER INTANGIBLE ASSETS

Other intangible assets consisted of the following (in millions):

	June 30, 2014			December 31, 2013		
	Cost	Accumulated Amortization	Net Carrying Value	Cost	Accumulated Amortization	Net Carrying Value
Amortizable intangible assets						
Patents	\$ 181.5	\$ (166.3)	\$ 15.2	\$ 181.6	\$ (163.5)	\$ 18.1
Developed technology	48.0	(36.0)	12.0	43.3	(35.1)	8.2
Other	10.7	(8.4)	2.3	10.7	(8.1)	2.6
	240.2	(210.7)	29.5	235.6	(206.7)	28.9
Unamortizable intangible assets						
In-process research and development				4.6		4.6
	\$ 240.2	\$ (210.7)	\$ 29.5	\$ 240.2	\$ (206.7)	\$ 33.5

The net carrying value of patents as of December 31, 2013 has been adjusted to reflect the Company's change in its method of accounting for certain legal costs related to the defense and enforcement of issued patents. For further information, see Note 2.

In June 2014, the Company transferred its remaining in-process research and development assets, which related to technology acquired from BMEYE, B.V., to developed technology because the Company had received United States Food and Drug Administration approval for the product.

Amortization expense related to other intangible assets was \$2.0 million and \$2.5 million for the three months ended June 30, 2014 and 2013, respectively, and \$4.1 million and \$5.0 million for the six months ended June 30, 2014 and 2013, respectively. Estimated amortization expense for each of the years ending December 31 is as follows (in millions):

2014	\$ 8.5
2015	7.8
2016	7.6
2017	6.9
2018	1.6

The Company expenses costs incurred to renew or extend the term of acquired intangible assets.

8. DEBT

In October 2013, the Company issued \$600.0 million of 2.875% fixed-rate unsecured senior notes due October 15, 2018 (the "Notes"). Interest is payable semi-annually in arrears, with the first payment due in April 2014. The effective interest rate is 2.983%. Issuance costs of \$5.4 million, as well as a \$3.0 million discount on the Notes, are being amortized to interest expense over the term of the Notes. As of June 30, 2014, the carrying value of the Notes was \$598.0 million.

The Company has a Four-Year Credit Agreement ("Credit Facility") that matures on July 29, 2015. The Credit Facility provides for aggregate borrowings up to \$750.0 million. As of June 30, 2014, there were no borrowings outstanding under the Credit Facility.

Edgar Filing: Edwards Lifesciences Corp - Form 10-Q

In July 2014, the Company entered into a new Five-Year Credit Agreement ("the Credit Agreement") which matures on July 18, 2019, and the existing Credit Facility was terminated. The Credit Agreement provides up to an aggregate of \$750.0 million in borrowings in multiple currencies. The Company may increase the amount available under the Credit Agreement, subject to agreement of

Table of Contents

the lenders, by up to an additional \$250.0 million in the aggregate. Borrowings generally bear interest at the London interbank offered rate ("LIBOR") plus a spread ranging from 1.0% to 1.5%, depending on the leverage ratio, as defined in the Credit Agreement. The Company also pays a facility fee ranging from 0.125% to 0.25%, depending on the leverage ratio, on the entire credit commitment available, whether or not drawn. The Credit Agreement is unsecured and contains various financial and other covenants, including a maximum leverage ratio and a minimum interest coverage ratio, as defined in the Credit Agreement.

9. FAIR VALUE MEASUREMENTS

The consolidated condensed financial statements include financial instruments for which the fair market value of such instruments may differ from amounts reflected on a historical cost basis. Financial instruments of the Company consist of cash deposits, accounts and other receivables, investments, accounts payable, certain accrued liabilities and borrowings under a revolving credit agreement. The carrying value of these financial instruments generally approximates fair value due to their short-term nature. Financial instruments also include notes payable. As of June 30, 2014, the fair value of the notes payable, based on Level 2 inputs, was \$617.4 million.

Fair value is defined as the price that would be received to sell an asset or paid to transfer a liability in an orderly transaction between market participants. The Company prioritizes the inputs used to determine fair values in one of the following three categories:

Level 1 Quoted market prices in active markets for identical assets or liabilities.

Level 2 Inputs, other than quoted prices in active markets, that are observable, either directly or indirectly.

Level 3 Unobservable inputs that are not corroborated by market data.

In certain cases, the inputs used to measure fair value may fall into different levels of the fair value hierarchy. In such cases, the level in the fair value hierarchy within which the fair value measurement in its entirety falls has been determined based on the lowest level input that is significant to the fair value measurement in its entirety.

Table of Contents

Assets and Liabilities Measured at Fair Value on a Recurring Basis

The following table summarizes the Company's financial instruments which are measured at fair value on a recurring basis (in millions):

June 30, 2014	Level 1	Level 2	Level 3	Total
Assets				
Investments held for deferred compensation plans	\$ 26.5	\$	\$	\$ 26.5
Available-for-sale investments	0.5			0.5
Derivatives		3.9		3.9
	\$ 27.0	\$ 3.9	\$	\$ 30.9

Liabilities				
Derivatives	\$	\$ 7.1	\$	\$ 7.1
Deferred compensation plans	26.5			26.5
	\$ 26.5	\$ 7.1	\$	\$ 33.6

December 31, 2013

Available-for-sale investments	0.8			0.8
Derivatives		13.8		13.8
	\$ 15.9	\$ 13.8	\$	\$ 29.7

Liabilities				
Derivatives	\$	\$ 17.2	\$	\$ 17.2
Deferred compensation plans	15.5			15.5
	\$ 15.5	\$ 17.2	\$	\$ 32.7

Deferred Compensation Plans

Edgar Filing: Edwards Lifesciences Corp - Form 10-Q

The Company holds investments in trading securities related to its deferred compensation plans. The investments are in a variety of stock and bond mutual funds. The fair values of these investments and the corresponding liabilities are based on quoted market prices and are categorized as Level 1.

Available-for-sale Investments

The Company has a number of long-term equity investments in companies that are in various stages of development. Certain of these investments have been designated as available-for-sale. These investments are carried at fair market value based on quoted market prices and are categorized as Level 1.

Derivative Instruments

The Company uses derivative financial instruments in the form of foreign currency forward exchange contracts to manage foreign currency exposures and interest rate swap agreements to manage its interest rate exposures. All derivatives contracts are recognized on the balance sheet at their fair value. The fair value of foreign currency derivative financial instruments was estimated by discounting expected cash flows using quoted market interest rates and foreign exchange rates. The fair value of the interest rate swap agreements was determined based on a discounted cash flow analysis reflecting the contractual terms of the agreements and the 6-month LIBOR forward interest rate curve. Judgment was employed in interpreting market data to develop estimates of fair value; accordingly, the estimates

Table of Contents

presented herein are not necessarily indicative of the amounts that the Company could realize in a current market exchange. The use of different market assumptions or valuation methodologies could have a material effect on the estimated fair value amounts. The derivative instruments are categorized as Level 2.

10. DERIVATIVE INSTRUMENTS AND HEDGING ACTIVITIES

The Company uses derivative financial instruments to manage its currency exchange rate risk and its interest rate risk, as summarized below. Notional amounts are stated in United States dollar equivalents at spot exchange rates at the respective dates.

	Notional Amount	
	June 30, 2014	December 31, 2013
	(in millions)	
Foreign currency forward exchange contracts	\$ 805.3	\$ 805.5
Interest rate swap agreements	\$ 300.0	\$ 300.0

The Company uses derivative financial instruments to manage interest rate and foreign currency risks. It is the Company's policy not to enter into derivative financial instruments for speculative purposes. The Company uses interest rate swaps to convert a portion of its fixed-rate debt into variable-rate debt. These interest rate swaps are designated as fair value hedges and meet the shortcut method requirements under the accounting standards for derivatives and hedging. Accordingly, changes in the fair values of the interest rate swaps are considered to exactly offset changes in the fair value of the underlying long-term debt. The Company uses foreign currency forward exchange contracts to offset the changes due to currency rate movements in the amount of future cash flows associated with intercompany transactions and certain third-party expenses expected to occur within the next 13 months. These foreign currency forward exchange contracts are designated as cash flow hedges. Certain of the Company's locations have assets and liabilities denominated in currencies other than their functional currencies resulting from intercompany and third-party transactions. The Company uses foreign currency forward exchange contracts that are not designated as hedging instruments to offset the transaction gains and losses associated with certain of these assets and liabilities. All foreign currency forward exchange contracts are denominated in currencies of major industrial countries, principally the Euro and the Japanese yen.

All derivative financial instruments are recognized at fair value in the consolidated condensed balance sheets. For each derivative instrument that is designated and effective as a fair value hedge, the gain or loss on the derivative is recognized immediately to earnings, and offsets the loss or gain on the underlying hedged item. The gain or loss on fair value hedges is classified in net interest expense, as they hedge the interest rate risk associated with the Company's fixed-rate debt. The Company reports in "*Accumulated Other Comprehensive Loss*" the effective portion of the gain or loss on derivative financial instruments that are designated, and that qualify, as cash flow hedges. The Company reclassifies these gains and losses into earnings in the same period in which the underlying hedged transactions affect earnings. Any hedge ineffectiveness (which represents the amount by which the changes in the fair value of the derivative exceed the variability in the cash flows of the forecasted transaction) is recorded in current period earnings. For the six months ended June 30, 2014 and 2013, the Company did not record any gains or losses due to hedge ineffectiveness. The gains and losses on derivative financial instruments for which the Company does not elect hedge accounting treatment are recognized in the consolidated condensed statements of operations in each period based upon the change in the fair value of the derivative financial instrument. Cash flows from derivative financial instruments are reported as operating activities in the consolidated condensed statements of cash flows.

Edgar Filing: Edwards Lifesciences Corp - Form 10-Q

Table of Contents

Derivative financial instruments involve credit risk in the event the counterparty should default. It is the Company's policy to execute such instruments with global financial institutions that the Company believes to be creditworthy. The Company diversifies its derivative financial instruments among counterparties to minimize exposure to any one of these entities. The Company also uses International Swap Dealers Association master-netting agreements. The master-netting agreements provide for the net settlement of all contracts through a single payment in a single currency in the event of default, as defined by the agreements.

The following table presents the location and fair value amounts of derivative instruments reported in the consolidated condensed balance sheets (in millions):

Derivatives designated as hedging instruments	Balance Sheet Location	Fair Value	
		June 30, 2014	December 31, 2013
Assets			
Foreign currency contracts	Other current assets	\$ 3.2	\$ 13.8
Interest rate swap agreements	Other assets	\$ 0.7	\$
Liabilities			
Foreign currency contracts	Accrued and other liabilities	\$ 7.1	\$ 13.2
Interest rate swap agreements	Other long-term liabilities	\$	\$ 4.0

The following table presents the effect of master-netting agreements and rights of offset on the consolidated condensed balance sheets (in millions):

June 30, 2014	Gross Amounts	Gross Amounts Offset in the Consolidated Balance Sheet	Net Amounts Presented in the Consolidated Balance Sheet	Gross Amounts Not Offset in the Consolidated Balance Sheet		
				Financial Instruments	Cash Collateral Received	Net Amount
Derivative Assets						
Foreign currency contracts	\$ 3.2	\$	\$ 3.2	\$ (3.2)	\$	\$
Interest rate swap agreements	\$ 0.7	\$	\$ 0.7	\$	\$	\$ 0.7

Table of Contents

The Company expects that during the next twelve months it will reclassify to earnings a \$2.8 million loss currently recorded in "Accumulated Other Comprehensive Loss."

11. DEFINED BENEFIT PLANS

The components of net periodic benefit cost for the three and six months ended June 30, 2014 and 2013 were as follows (in millions):

	Three Months Ended June 30,		Six Months Ended June 30,	
	2014	2013	2014	2013
Service cost	\$ 1.8	\$ 1.9	\$ 3.5	\$ 3.9
Interest cost	0.6	0.5	1.2	1.0
Expected return on plan assets	(0.5)	(0.3)	(0.9)	(0.6)
Amortization of actuarial loss, prior service credit and other		0.3	0.1	0.5
Net periodic benefit cost	\$ 1.9	\$ 2.4	\$ 3.9	\$ 4.8

12. STOCK-BASED COMPENSATION

Stock-based compensation expense related to awards issued under the Company's incentive compensation plans for the three and six months ended June 30, 2014 and 2013 was as follows (in millions):

	Three Months Ended June 30,		Six Months Ended June 30,	
	2014	2013	2014	2013
Cost of sales	\$ 1.5	\$ 1.5	\$ 3.0	\$ 2.9
Selling, general and administrative expenses	8.6	9.4	17.4	17.6
Research and development expenses	1.8	1.9	3.5	3.5
Total stock-based compensation expense	\$ 11.9	\$ 12.8	\$ 23.9	\$ 24.0

At June 30, 2014, the total remaining compensation cost related to nonvested stock options, restricted stock units, market-based restricted stock units and employee stock purchase plan ("ESPP") subscription awards amounted to \$100.8 million, which will be amortized on a straight-line basis over the weighted-average remaining requisite service period of 32 months.

During the six months ended June 30, 2014, the Company granted 1.3 million stock options at a weighted-average exercise price of \$82.23 and 0.2 million shares of restricted stock units at a weighted-average grant-date fair value of \$78.88. The Company also granted 39,000 shares of market-based restricted stock units at a weighted-average grant-date fair value of \$108.75. The market-based restricted stock units vest based on a combination of certain service and market conditions. The actual number of shares issued will be determined based on the Company's total shareholder return relative to a selected industry peer group over a three-year performance period, and may range from 0% to 175% of the targeted number of shares granted.

Fair Value Disclosures

The fair value of the market-based restricted stock units was determined using a Monte Carlo simulation model, which uses multiple input variables to determine the probability of satisfying the market condition requirements. The weighted-average assumptions used to determine the

fair value of

Edgar Filing: Edwards Lifesciences Corp - Form 10-Q

Table of Contents

the market-based restricted stock units granted during the six months ended June 30, 2014 and 2013 included a risk-free interest rate of 0.9% and 0.4%, respectively, and an expected volatility rate of 31.7% and 33.4%, respectively.

The Black-Scholes option pricing model was used with the following weighted-average assumptions for options granted during the following periods:

Option Awards

	Three Months Ended June 30,		Six Months Ended June 30,	
	2014	2013	2014	2013
Average risk-free interest rate	1.4%	0.8%	1.4%	0.8%
Expected dividend yield	None	None	None	None
Expected volatility	30.7%	30.7%	30.7%	30.7%
Expected term (years)	4.5	4.6	4.6	4.6
Fair value, per share	\$ 23.58	\$ 19.40	\$ 23.21	\$ 19.47

The Black-Scholes option pricing model was used with the following weighted-average assumptions for ESPP subscriptions granted during the following periods:

ESPP

	Three Months Ended June 30,		Six Months Ended June 30,	
	2014	2013	2014	2013
Average risk-free interest rate	0.1%	0.1%	0.1%	0.1%
Expected dividend yield	None	None	None	None
Expected volatility	29.2%	33.3%	31.3%	35.4%
Expected term (years)	0.7	0.7	0.7	0.7
Fair value, per share	\$ 18.33	\$ 21.48	\$ 16.96	\$ 22.94

13. COMMITMENTS AND CONTINGENCIES

On May 19, 2014, Edwards Lifesciences entered into an agreement (the "Settlement Agreement") with Medtronic to, among other things, settle all outstanding patent litigation between the parties (see Note 3). Pursuant to the Settlement Agreement, all of the following pending cases and related appeals in courts worldwide were dismissed:

the lawsuit filed in February 2008 by Edwards Lifesciences against Medtronic in the U.S. District Court for the District of Delaware (the "District Court") alleging that its ReValving System infringes three of Edwards' U.S. Andersen patents, later narrowed to one patent;

a second lawsuit pending in the District Court against Medtronic alleging infringement of two of Edwards' U.S. Andersen patents;

the lawsuit against Medtronic in the District Court alleging infringement of an Edwards' U.S. Letac-Cribier transcatheter heart valve patent;

the lawsuit filed in June 2011 by Medtronic against Edwards Lifesciences in the U.S. District Court for the District of Minnesota alleging that certain surgical valve holders and a surgical embolic filter device infringe its patents and including Edwards' counterclaim alleging infringement of Edwards' annuloplasty ring patents;

Edgar Filing: Edwards Lifesciences Corp - Form 10-Q

Table of Contents

the lawsuit filed in June 2011 by Medtronic against Edwards Lifesciences in the U.S. District Court for the Central District of California alleging that the *Edwards SAPIEN* transcatheter heart valve infringes a Medtronic patent, which patent was subsequently ruled invalid and the lawsuit was dismissed in favor of Edwards;

the lawsuit filed in March 2012 by Medtronic in the U.S. District Court for the Central District of California alleging that the methods of implanting the *Edwards SAPIEN* transcatheter heart valve in the United States infringe two Medtronic patents relating to methods of pacing the heart; and

the lawsuit filed in August 2012 by Edwards Lifesciences against Medtronic in the German District Court of Mannheim alleging that Medtronic's CoreValve and Evolut valves infringed three of Edwards' transcatheter valve patents.

Edwards Lifesciences is or may be a party to, or may otherwise be responsible for, pending or threatened lawsuits related primarily to products and services currently or formerly manufactured or performed, as applicable, by Edwards Lifesciences. Such cases and claims raise difficult and complex factual and legal issues and are subject to many uncertainties, including, but not limited to, the facts and circumstances of each particular case or claim, the jurisdiction in which each suit is brought, and differences in applicable law. Upon resolution of any such legal matter or other claim, Edwards Lifesciences may incur charges in excess of established reserves. The Company is not able to estimate the amount or range of any loss for legal contingencies for which there is no reserve or additional loss for matters already reserved. While any such charge related to matters could have a material adverse impact on Edwards Lifesciences' net income or cash flows in the period in which it is recorded or paid, management does not believe that any such charge relating to any currently pending lawsuit would have a material adverse effect on Edwards Lifesciences' financial position, results of operations or liquidity.

Edwards Lifesciences is subject to various environmental laws and regulations both within and outside of the United States. The operations of Edwards Lifesciences, like those of other medical device companies, involve the use of substances regulated under environmental laws, primarily in manufacturing and sterilization processes. While it is difficult to quantify the potential impact of continuing compliance with environmental protection laws, management believes that such compliance will not have a material impact on Edwards Lifesciences' financial position, results of operations or liquidity.

14. ACCUMULATED OTHER COMPREHENSIVE LOSS

Presented below is a summary of activity for each component of "Accumulated Other Comprehensive Loss" for the six months ended June 30, 2014.

	Foreign Currency Translation Adjustments	Unrealized Gain (Loss) on Cash Flow Hedges	Unrealized Gain on Available-for- sale Investments (in millions)	Unrealized Pension Costs	Total Accumulated Other Comprehensive Loss
December 31, 2013	\$ (20.2)	\$ 3.5	\$ 0.3	\$ (11.2)	\$ (27.6)
Other comprehensive loss before reclassifications	(6.2)	(4.4)	(0.3)		(10.9)
Amounts reclassified from accumulated other comprehensive loss		(8.0)	0.3		(7.7)
Deferred income tax benefit		5.0	0.1		5.1
June 30, 2014	\$ (26.4)	\$ (3.9)	\$ 0.4	\$ (11.2)	\$ (41.1)

Edgar Filing: Edwards Lifesciences Corp - Form 10-Q

Table of Contents

The following table provides information about amounts reclassified from "Accumulated Other Comprehensive Loss" (in millions):

Details about Accumulated Other Comprehensive Loss Components	Three Months Ended June 30, 2014		Six Months Ended June 30, 2014		Affected Line on Consolidated Condensed Statements of Operations
	2014	2013	2014	2013	
Gain on cash flow hedges	\$ 3.0	\$ 5.8	\$ 8.0	\$ 11.0	Cost of sales
	(1.1)	(2.3)	(3.0)	(4.2)	Provision for income taxes
	\$ 1.9	\$ 3.5	\$ 5.0	\$ 6.8	Net of tax
Loss on available-for-sale investments	\$ (0.3)	\$	\$ (0.3)	\$	Other expense, net
					Provision for income taxes
	\$ (0.3)	\$	\$ (0.3)	\$	Net of tax

15. EARNINGS PER SHARE

Basic earnings per share is computed by dividing net income by the weighted-average common shares outstanding during a period. Employee equity share options, nonvested shares and similar equity instruments granted by the Company are treated as potential common shares in computing diluted earnings per share. Diluted shares outstanding include the dilutive effect of restricted stock units, market-based restricted stock units, and in-the-money options. The dilutive impact of the restricted stock units, market-based restricted stock units, and in-the-money options is calculated based on the average share price for each fiscal period using the treasury stock method. Under the treasury stock method, the amount that the employee must pay for exercising stock options, the amount of compensation expense for future service that the Company has not yet recognized, and the amount of tax benefits that would be recorded in "Additional Paid-in Capital" when the award becomes deductible are assumed to be used to repurchase shares. Potential common share equivalents have been excluded where their inclusion would be anti-dilutive.

The table below presents the computation of basic and diluted earnings per share (in millions, except for per share information):

	Three Months Ended June 30,		Six Months Ended June 30,	
	2014	2013	2014	2013
Basic:				
Net income	\$ 547.0	\$ 93.3	\$ 607.3	\$ 237.2
Weighted-average shares outstanding	105.6	112.6	106.1	113.3
Basic earnings per share	\$ 5.18	\$ 0.83	\$ 5.72	\$ 2.09

Edgar Filing: Edwards Lifesciences Corp - Form 10-Q

Diluted:

Net income	\$ 547.0	\$ 93.3	\$ 607.3	\$ 237.2
------------	----------	---------	----------	----------

Weighted-average shares outstanding	105.6	112.6	106.1	113.3
Dilutive effect of stock plans	1.8	2.1	1.8	2.3

Dilutive weighted-average shares outstanding	107.4	114.7	107.9	115.6
--	-------	-------	-------	-------

Diluted earnings per share	\$ 5.09	\$ 0.81	\$ 5.63	\$ 2.05
----------------------------	---------	---------	---------	---------

Table of Contents

Stock options, restricted stock units, and market-based restricted stock units to purchase 4.4 million and 3.7 million shares for the three months ended June 30, 2014 and 2013, respectively, and 4.0 million and 3.0 million for the six months ended June 30, 2014 and 2013, respectively, were outstanding, but were not included in the computation of diluted earnings per share because the effect would have been anti-dilutive.

16. INCOME TAXES

The Company's effective income tax rates were 32.7% and 22.6% for the three months ended June 30, 2014 and 2013, respectively, and 31.8% and 23.8% for the six months ended June 30, 2014 and 2013, respectively.

The effective tax rate for the three and six months ended June 30, 2014 included (1) \$262.1 million of tax expense associated with a \$750.0 million litigation settlement payment received from Medtronic in May 2014 (see Note 3) and (2) \$6.2 million of tax benefits from the remeasurement of uncertain tax positions.

The federal research credit expired on December 31, 2013 and has not been reinstated as of June 30, 2014. Therefore, the effective income tax rates for the three and six months ended June 30, 2014 were calculated without an assumed benefit for the federal research credit. In 2013, the federal research credit related to 2013 favorably impacted the effective tax rate by approximately 1.3%. The effective income tax rate for the six months ended June 30, 2013 included (1) an \$8.4 million benefit for the full year 2012 federal research credit, which was reinstated on January 2, 2013 and (2) \$31.3 million of tax expense associated with the \$83.6 million litigation award received from Medtronic in February 2013 (see Note 3).

The Company strives to resolve open matters with each tax authority at the examination level and could reach agreement with a tax authority at any time. While the Company has accrued for matters it believes are more likely than not to require settlement, the final outcome with a tax authority may result in a tax liability that is more or less than that reflected in the consolidated condensed financial statements. Furthermore, the Company may later decide to challenge any assessments, if made, and may exercise its right to appeal. The uncertain tax positions are reviewed quarterly and adjusted as events occur that affect potential liabilities for additional taxes, such as lapsing of applicable statutes of limitations, proposed assessments by tax authorities, negotiations between tax authorities, identification of new issues and issuance of new legislation, regulations or case law.

As of June 30, 2014 and December 31, 2013, the liability for income taxes associated with uncertain tax positions was \$172.0 million and \$127.7 million, respectively. The Company estimates that these liabilities would be reduced by \$30.3 million and \$30.9 million, respectively, from offsetting tax benefits associated with the correlative effects of potential transfer pricing adjustments, state income taxes and timing adjustments. The net amounts of \$141.7 million and \$96.8 million, respectively, if not required, would favorably affect the Company's effective tax rate.

At June 30, 2014, all material state, local and foreign income tax matters have been concluded for years through 2006. During the third quarter of 2013, the Internal Revenue Service ("IRS") completed its fieldwork for the 2009 and 2010 tax years. The case is currently in suspense pending finalization of an Advance Pricing Agreement ("APA") and Joint Committee of Taxation approval. The IRS began its examination of the 2011 and 2012 tax years during the fourth quarter of 2013. The Company has also entered into an APA process between the Switzerland and United States governments for the years 2009 through 2013 covering transfer pricing matters. The transfer pricing matters are significant to the Company's consolidated condensed financial statements, and the final outcome of the negotiations between the two governments is uncertain.

Table of Contents

17. SEGMENT INFORMATION

Edwards Lifesciences conducts operations worldwide and is managed in the following geographical regions: United States, Europe, Japan, and Rest of World. All regions sell products that are used to treat advanced cardiovascular disease.

The Company's geographic segments are reported based on the financial information provided to the Chief Operating Decision Maker (the Chief Executive Officer). The Company evaluates the performance of its geographic segments based on net sales and income before provision for income taxes ("pre-tax income"). The accounting policies of the segments are substantially the same as those described in Note 2 of the Company's consolidated financial statements included in its Annual Report on Form 10-K for the year ended December 31, 2013. Segment net sales and segment pre-tax income are based on internally derived standard foreign exchange rates, which may differ from year to year, and do not include inter-segment profits. Because of the interdependence of the reportable segments, the operating profit as presented may not be representative of the geographical distribution that would occur if the segments were not interdependent. Net sales by geographic area are based on the location of the customer.

Certain items are maintained at the corporate level and are not allocated to the segments. The non-allocated items include net interest expense, global marketing expenses, corporate research and development expenses, manufacturing variances, corporate headquarters costs, special gains and charges, stock-based compensation, foreign currency hedging activities, certain litigation costs and most of the Company's amortization expense. Although most of the Company's depreciation expense is included in segment pre-tax income, due to the Company's methodology for cost build-up, it is impractical to determine the amount of depreciation expense included in each segment, and, therefore, a portion is maintained at the corporate level. The Company neither discretely allocates assets to its operating segments, nor evaluates the operating segments using discrete asset information.

The table below presents information about Edwards Lifesciences' reportable segments (in millions):

	Three Months Ended June 30,		Six Months Ended June 30,	
	2014	2013	2014	2013
Segment Net Sales

Item 2. Management's Discussion and Analysis of Financial Condition and Results of Operations

This report contains forward-looking statements within the meaning of Section 27A of the Securities Act of 1933 and Section 21E of the Securities Exchange Act of 1934. We intend the forward-looking statements contained in this report to be covered by the safe harbor provisions of such Acts. All statements other than statements of historical fact in this report or referred to or incorporated by reference into this report are "forward-looking statements" for purposes of these sections. These statements include, among other things, any predictions of earnings, revenues, expenses or other financial items, plans or expectations with respect to development activities, clinical trials or regulatory approvals, any statements of plans, strategies and objectives of management for future operations, any statements concerning our future operations, financial conditions and prospects, and any statements of assumptions underlying any of the foregoing. These statements can sometimes be identified by the use of the forward-looking words such as "may," "believe," "will," "expect," "project," "estimate," "should," "anticipate," "plan," "goal," "continue," "seek," "pro forma," "forecast," "intend," "guidance," "optimistic," "aspire," "confident," other forms of these words or similar words or expressions or the negative thereof. Investors are cautioned not to unduly rely on such forward-looking statements. These forward-looking statements are subject to substantial risks and uncertainties that could cause our results or future business, financial condition, results of operations or performance to differ materially from our historical results or experiences or those expressed or implied in any forward-looking statements contained in this report. Investors should carefully review the information contained in, or incorporated by reference into, our annual report on Form 10-K for the year ended December 31, 2013 and subsequent reports on Forms 10-Q and 8-K for a description of certain of these risks and uncertainties. These forward-looking statements speak only as of the date on which they are made and we do not undertake any obligation to update any forward-looking statement to reflect events or circumstances after the date of the statement. If we do update or correct one or more of these statements, investors and others should not conclude that we will make additional updates or corrections.

Overview

We are the global leader in the science of heart valves and hemodynamic monitoring. Driven by a passion to help patients, we partner with clinicians to develop innovative technologies in the areas of structural heart disease and critical care monitoring, enabling them to save and enhance lives. We conduct operations worldwide and are managed in the following geographical regions: United States, Europe, Japan, and Rest of World. Our products are categorized into the following main areas: Surgical Heart Valve Therapy, Transcatheter Heart Valves, and Critical Care.

Effective January 1, 2014, we changed our method of accounting for certain intellectual property litigation expenses related to the defense and enforcement of issued patents. Under the new method of accounting, these legal costs are expensed in the period incurred; previously, these costs were capitalized and then amortized over the life of the related patent. The financial results below reflect the change in accounting principle. For further information, see Note 2 to the "Consolidated Condensed Financial Statements."

Edgar Filing: Edwards Lifesciences Corp - Form 10-Q

Table of Contents

Financial Results

The following is a summary of our financial performance (dollars in millions, except per share data):

	Three Months Ended June 30,			Six Months Ended June 30,		
	2014	2013	Change	2014	2013	Change
Net sales	\$ 575.1	\$ 517.2	11.2%	\$ 1,097.5	\$ 1,013.9	8.2%
Gross profit as a percentage of net sales	73.7%	76.1%	(2.4) pts.	72.9%	75.9%	(3.0)pts.
Net income	\$ 547.0	\$ 93.3	486.3%	\$ 607.3	\$ 237.2	156.0%
Earnings per share						
Basic	\$ 5.18	\$ 0.83	524.1%	\$ 5.72	\$ 2.09	173.7%
Diluted	\$ 5.09	\$ 0.81	528.4%	\$ 5.63	\$ 2.05	174.6%

Our sales growth was driven by our Transcatheter Heart Valves, primarily in Europe, which benefited from the launch of the *Edwards SAPIEN 3* transcatheter heart valve. In connection with the launch of the *Edwards SAPIEN XT* transcatheter heart valve in the United States and the continued launch of *SAPIEN 3* in Europe, our gross profit margin was reduced by the impact from estimated product returns expected in 2014 upon introduction of next-generation transcatheter heart valve products, and weaker currencies. Net income in the first six months of 2014 and 2013 benefited from special items. In the second quarter of 2014, we received \$750.0 million (\$487.9 million, net of tax), from Medtronic, Inc. ("Medtronic") for an upfront payment due under a litigation settlement agreement, and in the first quarter of 2013, we received from Medtronic an \$83.6 million (\$52.3 million, net of tax) litigation award.

Healthcare Environment, Opportunities and Challenges

The medical device industry is highly competitive and continues to evolve. Our success is measured both by the development of innovative products and the value we bring to our stakeholders. We are committed to developing new technologies and providing innovative patient care, and we are committed to defending our intellectual property. To strengthen our leadership and enable future growth opportunities, in the first six months of 2014 we invested 15.9% of our net sales in research and development. In the coming year, we expect increased competition with our Transcatheter Heart Valves as our competitors introduce products in the United States and Europe.

New Accounting Standards

For information on new accounting standards, see Note 1 to the "*Consolidated Condensed Financial Statements.*"

Results of Operations

Net Sales Trends

(dollars in millions)

	Three Months Ended June 30,				Six Months Ended June 30,

Edgar Filing: Edwards Lifesciences Corp - Form 10-Q

Table of Contents

In the United States, the \$1.5 million increase and the \$4.0 million decrease in net sales for the three and six months ended June 30, 2014, respectively, were due primarily to:

Transcatheter Heart Valves, which decreased net sales by \$4.1 million and \$16.0 million, respectively, due primarily to (1) a reduction in net sales of the *Edwards SAPIEN* transcatheter heart valve due to net stocking orders as customers convert from direct sales to consignment and (2) an increase to the sales reserve for estimated Transcatheter Heart Valve product returns expected in the second half of 2014 upon introduction of the *Edwards SAPIEN XT* transcatheter heart valve. This sales reserve is expected to reverse during 2014 as the introduction of the next-generation valves is expected to be substantially completed in 2014. These decreases were partially offset by an increase in clinical sales of the *Edwards SAPIEN 3* transcatheter heart valve;

partially offset by:

Critical Care, which increased net sales by \$4.4 million and \$7.6 million, respectively, due primarily to enhanced surgical recovery products; and

Surgical Heart Valves, which increased net sales by \$1.2 million and \$4.5 million, respectively, driven primarily by sales of pericardial aortic tissue valves and clinical sales of the *EDWARDS INTUITY Elite* valves.

International net sales increased \$56.4 million and \$87.6 million for the three and six months ended June 30, 2014, respectively, due primarily to:

Transcatheter Heart Valves, which increased net sales by \$37.0 million and \$66.7 million, respectively, driven primarily by the launch of the *Edwards SAPIEN 3* transcatheter heart valve in Europe and the ongoing launch of the *Edwards SAPIEN XT* transcatheter heart valve in Japan;

Surgical Heart Valves, which increased net sales by \$7.7 million and \$12.7 million, respectively, driven primarily by sales of pericardial aortic tissue valves;

Critical Care, which increased net sales by \$6.7 million and \$9.3 million, respectively, driven primarily by core hemodynamic products and enhanced surgical recovery products; and

foreign currency exchange rate fluctuations, which increased net sales for the three months ended June 30, 2014 by \$4.8 million due primarily to the strengthening of the Euro against the United States dollar, partially offset by the weakening of the Japanese yen against the United States dollar. Foreign currency exchange rate fluctuations did not have a significant impact to total net sales for the six months ended June 30, 2014.

The impact of foreign currency exchange rate fluctuations on net sales is not necessarily indicative of the impact on net income due to the corresponding effect of foreign currency exchange rate fluctuations on international manufacturing and operating costs and our hedging activities. For more information, see Item 3, "*Quantitative and Qualitative Disclosures About Market Risk*."

Table of Contents**Net Sales by Product Group**

(dollars in millions)

	Three Months Ended June 30,				Six Months Ended June 30,			
	2014	2013	Change	Percent Change	2014	2013	Change	Percent Change
Transcatheter Heart Valves	\$ 219.7	\$ 182.1	\$ 37.6	20.6%	\$ 408.9	\$ 351.8	\$ 57.1	16.2%
Surgical Heart Valve Therapy	214.0	204.3	9.7	4.8%	416.6	402.4	14.2	3.6%
Critical Care	141.4	130.8	10.6	8.1%	272.0	259.7	12.3	4.7%
Total net sales	\$ 575.1	\$ 517.2	\$ 57.9	11.2%	\$ 1,097.5	\$ 1,013.9	\$ 83.6	8.2%

Transcatheter Heart Valves

The \$37.6 million and \$57.1 million increases in net sales of Transcatheter Heart Valves for the three and six months ended June 30, 2014, respectively, were due primarily to:

the *Edwards SAPIEN 3* transcatheter heart valve, driven primarily by the launch in Europe; and

the ongoing launch of the *Edwards SAPIEN XT* transcatheter heart valve in Japan;

partially offset by:

the *Edwards SAPIEN* transcatheter heart valve, primarily in the United States, due to a reduction in net stocking orders as customers convert from direct sales to consignment, and an increase to the sales reserve for estimated Transcatheter Heart Valve product returns expected in the second half of 2014 upon introduction of the *Edwards SAPIEN XT* transcatheter heart valve in the United States.

During the first quarter of 2014, we completed enrollment in the 500 patient cohort of The PARTNER II Trial studying the *Edwards SAPIEN 3* transcatheter valve system in high risk and inoperable patients. In January 2014, we received United States Food and Drug Administration ("FDA") approval to expand The PARTNER II Trial to include a 1,000 patient single-arm, non-randomized cohort to study the *Edwards SAPIEN 3* transcatheter valve system in the treatment of intermediate risk patients with severe symptomatic aortic stenosis. In January 2014, we also received CE Mark for the *Edwards SAPIEN 3* transcatheter valve system in Europe and immediately commenced a launch. In June 2014, we received FDA approval for the *Edwards SAPIEN XT* transcatheter heart valve in the United States for the treatment of high-risk and inoperable patients with severe symptomatic aortic stenosis.

Surgical Heart Valve Therapy

The \$9.7 million and \$14.2 million increases in net sales of Surgical Heart Valve Therapy products for the three and six months ended June 30, 2014, respectively, were due primarily to surgical heart valve products, which increased net sales by \$8.8 million and \$17.3 million, respectively, driven by sales in the United States and Europe of pericardial aortic tissue valves and *EDWARDS INTUITY Elite* valves.

Edgar Filing: Edwards Lifesciences Corp - Form 10-Q

In April 2014, we received CE Mark for our advanced *EDWARDS INTUITY Elite* valve system. This next-generation, rapid deployment system facilitates smaller incisions in surgical aortic valve replacement procedures. In the United States, we continued enrolling patients in our TRANSFORM Trial for *EDWARDS INTUITY Elite*, and our COMMENCE clinical trial, which is studying our next-generation *GLX* tissue treatment platform applied to the *Magna Ease* aortic surgical valve and the *Magna Mitral Ease* valve.

Edgar Filing: Edwards Lifesciences Corp - Form 10-Q

Table of Contents

Critical Care

The \$10.6 million and \$12.3 million increases in net sales of Critical Care products during the three and six months ended June 30, 2014, respectively, were due primarily to enhanced surgical recovery products and core hemodynamic products outside the United States, partially offset by foreign currency exchange rate fluctuations, which decreased net sales by \$0.5 million and \$4.5 million, respectively, due primarily to the weakening of the Japanese yen against the United States dollar. In June 2014, we received FDA clearance for the *ClearSight* system, a noninvasive monitor that provides clinicians access to blood volume and blood flow information for patients at moderate or high risk of post-surgical complications, in whom invasive monitoring would not be used. The *ClearSight* system is part of our enhanced surgical recovery product portfolio.

Gross Profit

	Three Months Ended June 30,			Six Months Ended June 30,		
	2014	2013	Change	2014	2013	Change
Gross profit as a percentage of net sales	73.7%	76.1%	(2.4) pts.	72.9%	75.9%	(3.0) pts.

The percentage point decrease in gross profit for the three and six months ended June 30, 2014 was driven primarily by (1) the impact of foreign currency exchange rate fluctuations, including the settlement of foreign currency hedging contracts, and (2) the impact from the transcatheter heart valve sales return reserve and related inventory write-off, primarily in the United States, in connection with our *SAPIEN 3* and *SAPIEN XT* launches.

Selling, General and Administrative ("SG&A") Expenses

(dollars in millions)

	Three Months Ended June 30,			Six Months Ended June 30,		
	2014	2013	Change	2014	2013	Change
SG&A expenses	\$ 215.5	\$ 186.6	\$ 28.9	\$ 412.7	\$ 369.0	\$ 43.7
SG&A expenses as a percentage of net sales	37.5%	36.1%	1.4 pts.	37.6%	36.4%	1.2 pts.

The increase in SG&A expenses for the three and six months ended June 30, 2014 was due primarily to (1) higher sales and marketing expenses in the United States, Europe, and Japan, mainly to support the Transcatheter Heart Valve program, and (2) a larger accrual for incentive compensation.

Research and Development Expenses

(dollars in millions)

	Three Months Ended June 30,			Six Months Ended June 30,		
	2014	2013	Change	2014	2013	Change
Research and development expenses	\$ 89.1	\$ 80.5	\$ 8.6	\$ 174.9	\$ 160.3	\$ 14.6
Research and development expenses as a percentage of net sales	15.5%	15.6%	(0.1) pts.	15.9%	15.8%	0.1 pts.

The increase in research and development expenses for the three and six months ended June 30, 2014 was due primarily to additional investments in clinical studies in the Surgical Heart Valve and Transcatheter Heart Valve programs, new mitral Transcatheter Heart Valve product development efforts, and a larger accrual for incentive compensation.

Table of Contents

Intellectual Property Litigation (Income) Expense, Net

In May 2014, we entered into an agreement with Medtronic to settle all outstanding patent litigation between the companies, including all cases related to transcatheter heart valves. Pursuant to the agreement, we received an upfront payment from Medtronic in the amount of \$750.0 million. For further information, see Note 3 and Note 13 to the "Consolidated Condensed Financial Statements."

We incurred external legal costs related to intellectual property litigation of \$2.6 million and \$5.5 million for the three months ended June 30, 2014 and 2013, respectively, and \$8.1 million and \$11.0 million for the six months ended June 30, 2014 and 2013, respectively.

In February 2013, we received \$83.6 million from Medtronic in satisfaction of the initial April 2010 jury award of damages for infringement of the United States Andersen transcatheter heart valve patent, including accrued interest. For further information, see Note 13 to the "Consolidated Condensed Financial Statements."

Special Charges

Charitable Foundation Contribution

In June 2014, we contributed \$50.0 million to the Edwards Lifesciences Foundation, a related-party not-for-profit organization intended to provide philanthropic support to health- and community-focused charitable organizations. The contribution was irrevocable and was recorded as an expense at the time of payment.

Settlement

In March 2014, we recorded a \$7.5 million charge to settle past and future obligations related to one of our intellectual property agreements.

Interest Expense, net

(in millions)

	Three Months Ended June 30,			Six Months Ended June 30,		
	2014	2013	Change	2014	2013	Change
Interest expense	\$ 4.4	\$ 1.4	\$ 3.0	\$ 9.0	\$ 2.8	\$ 6.2
Interest income	(1.3)	(1.0)	(0.3)	(2.4)	(2.6)	0.2
Interest expense, net	\$ 3.1	\$ 0.4	\$ 2.7	\$ 6.6	\$ 0.2	\$ 6.4

The increase in interest expense for the three and six months ended June 30, 2014 resulted primarily from a higher average debt balance as compared to the prior year period, and higher average interest rates due to the issuance in October 2013 of \$600.0 million of 2.875% fixed-rate unsecured senior notes.

Table of Contents**Other Expense, net**

(in millions)

	Three Months Ended June 30,		Six Months Ended June 30,	
	2014	2013	2014	2013
Foreign exchange losses, net	\$ 1.3	\$ 0.3	\$ 1.1	\$ 1.2
(Gain) loss on investments in unconsolidated affiliates	(0.9)	(0.2)	2.6	
Insurance settlement gain			(3.7)	
Other			0.1	0.1
Other expense, net	\$ 0.4	\$ 0.1	\$ 0.1	\$ 1.3

The foreign exchange losses relate to the foreign currency fluctuations in our global trade and intercompany receivable and payable balances, offset by the gains and losses on derivative instruments intended as an economic hedge of those exposures.

The (gain) loss on investments in unconsolidated affiliates primarily represents our net share of gains and losses in investments accounted for under the equity method, and realized gains and losses on our available-for-sale and cost method investments. During the six months ended June 30, 2014, we recorded an other-than-temporary impairment charge of \$3.5 million related to one of our cost method investments, and we recorded a \$1.4 million gain related to a distribution we received from one of our equity method investments.

In March 2014, we recorded a \$3.7 million insurance settlement gain related to inventory that was damaged in the fourth quarter of 2013.

Provision for Income Taxes

The provision for income taxes consists of provisions for federal, state and foreign income taxes. We operate in an international environment with significant operations in various locations outside the United States, which have statutory tax rates lower than the United States tax rate. Accordingly, the consolidated income tax rate is a composite rate reflecting the earnings in the various locations and the applicable rates. Our effective income tax rates were 32.7% and 22.6% for the three months ended June 30, 2014 and 2013, respectively, and 31.8% and 23.8% for the six months ended June 30, 2014 and 2013, respectively.

The effective tax rate for the three and six months ended June 30, 2014 included (1) \$262.1 million of tax expense associated with a \$750.0 million litigation settlement payment received from Medtronic in May 2014 (see Note 3 to the "Consolidated Condensed Financial Statements"), and (2) \$6.2 million of tax benefits from the remeasurement of uncertain tax positions.

The federal research credit expired on December 31, 2013 and has not been reinstated as of June 30, 2014. Therefore, the effective income tax rates for the three and six months ended June 30, 2014 were calculated without an assumed benefit for the federal research credit. In 2013, the federal research credit related to 2013 favorably impacted the effective tax rate by approximately 1.3%. The effective income tax rate for the six months ended June 30, 2013 included (1) an \$8.4 million benefit for the full year 2012 federal research credit, which was reinstated on January 2, 2013, and (2) \$31.3 million of tax expense associated with the \$83.6 million litigation award received from Medtronic in February 2013 (see Note 3 to the "Consolidated Condensed Financial Statements").

We strive to resolve open matters with each tax authority at the examination level and could reach agreement with a tax authority at any time. While we have accrued for matters we believe are more likely than not to require settlement, the final outcome with a tax authority may result in a tax liability

Table of Contents

that is more or less than that reflected in the consolidated financial statements. Furthermore, we may later decide to challenge any assessments, if made, and may exercise our right to appeal. The uncertain tax positions are reviewed quarterly and adjusted as events occur that affect potential liabilities for additional taxes, such as lapsing of applicable statutes of limitations, proposed assessments by tax authorities, negotiations between tax authorities, identification of new issues and issuance of new legislation, regulations or case law. Management believes that adequate amounts of tax and related penalty and interest have been provided in income tax expense for any adjustments that may result from these uncertain tax positions. For further information, see Note 16 to the "*Consolidated Condensed Financial Statements*."

Liquidity and Capital Resources

Our sources of cash liquidity include cash and cash equivalents, short-term investments, amounts available under credit facilities, and cash from operations. We believe that these sources are sufficient to fund the current requirements of working capital, capital expenditures and other financial commitments for the next twelve months. However, we periodically consider various financing alternatives and may, from time to time, seek to take advantage of favorable interest rate environments or other market conditions. We believe that we have the financial flexibility to attract long-term capital to fund short-term and long-term growth objectives. However, no assurances can be given that such long-term capital will be available to us on favorable terms, or at all.

We believe that cash held in the United States, in addition to amounts available under credit facilities and cash from operations, are sufficient to fund our United States operating requirements. Cash and cash equivalents and short-term investments held outside the United States have historically been used to fund international operations and acquire businesses outside of the United States, although a portion of those amounts may from time to time be subject to temporary intercompany loans into the United States. As of June 30, 2014, cash and cash equivalents and short-term investments held outside the United States were \$767.6 million. The majority of cash and cash equivalents and short-term investments held outside the United States relates to undistributed earnings of certain of our foreign subsidiaries which are considered by us to be indefinitely reinvested. Repatriations of cash and cash equivalents and short-term investments held outside the United States are subject to restrictions in certain jurisdictions and may be subject to withholding and other taxes. The potential tax liability related to any repatriation would be dependent on the facts and circumstances that exist at the time such repatriation is made and the complexities of the tax laws of the United States and the respective foreign jurisdictions.

We have a Four-Year Credit Agreement ("Credit Facility") which provides up to an aggregate of \$750.0 million in borrowings in multiple currencies. As of June 30, 2014, there were no borrowings outstanding under the Credit Facility. In July 2014, we entered into a new Five-Year Credit Agreement ("Credit Agreement") which matures on July 18, 2019, and the existing Credit Facility was terminated. The Credit Agreement provides up to an aggregate of \$750.0 million in borrowings in multiple currencies. We may increase the amount available under the Credit Agreement, subject to agreement of the lenders, by up to an additional \$250.0 million in the aggregate. For further information, see Note 8 to the "*Consolidated Condensed Financial Statements*." In October 2013, we issued \$600.0 million of 2.875% fixed-rate unsecured senior notes due October 15, 2018. As of June 30, 2014, the total carrying value of our long-term debt was \$598.0 million.

From time to time, we repurchase shares of our common stock under share repurchase programs authorized by the Board of Directors. We consider several factors in determining when to execute share repurchases, including, among other things, expected dilution from stock plans, cash capacity, and the market price of our common stock. The current \$750.0 million program provides for repurchases through December 31, 2016. During 2014, we repurchased a total of 4.4 million shares under the program at an aggregate cost of \$300.0 million, and as of June 30, 2014, had remaining authority to

Edgar Filing: Edwards Lifesciences Corp - Form 10-Q

Table of Contents

purchase \$202.5 million of our common stock. In July 2014, the Board of Directors approved a new stock repurchase program providing for an additional \$750.0 million of repurchases of our common stock.

At June 30, 2014, there had been no material changes in our significant contractual obligations and commercial commitments as disclosed in our Annual Report on Form 10-K for the year ended December 31, 2013.

Net cash flows provided by **operating activities** of \$916.9 million for the six months ended June 30, 2014 increased \$687.7 million over the same period last year due primarily to (1) the \$750.0 million upfront payment received from Medtronic under a litigation settlement agreement, and (2) the \$37.6 million impact from excess tax benefits from stock plans as compared to the prior year, primarily as a result of the prior year realization of excess tax benefits that had been previously unrealized due to credit carryforwards and net operating losses in the United States in 2011. These increases were partially offset by (1) the prior year receipt of \$83.6 million from Medtronic in satisfaction of the initial April 2010 jury award of damages for infringement of the United States Andersen transcatheter heart valve patent, and (2) the \$50.0 million charitable contribution to the Edwards Lifesciences Foundation.

Net cash used in **investing activities** of \$590.2 million for the six months ended June 30, 2014 consisted primarily of net purchases of investments of \$561.2 million and capital expenditures of \$30.3 million.

Net cash used in investing activities of \$59.3 million for the six months ended June 30, 2013 consisted primarily of capital expenditures of \$66.3 million, partially offset by net proceeds from investments of \$7.1 million.

Net cash used in **financing activities** of \$247.6 million for the six months ended June 30, 2014 consisted primarily of purchases of treasury stock of \$300.6 million, partially offset by proceeds from stock plans of \$32.9 million, and the excess tax benefit from stock plans of \$21.3 million (including the realization of previously unrealized excess tax benefits).

Net cash used in financing activities of \$114.2 million for the six months ended June 30, 2013 consisted primarily of purchases of treasury stock of \$246.6 million, partially offset by the excess tax benefit from stock plans of \$58.9 million (including the realization of previously suspended excess tax benefits), net proceeds from debt of \$40.2 million, and proceeds from stock plans of \$27.4 million.

Critical Accounting Policies and Estimates

The consolidated condensed financial statements have been prepared in accordance with accounting principles generally accepted in the United States which require us to make estimates and assumptions that affect the reported amounts of assets and liabilities at the date of the consolidated financial statements and revenues and expenses during the periods reported. Actual results could differ from those estimates. Information with respect to our critical accounting policies and estimates which we believe could have the most significant effect on our reported results and require subjective or complex judgments by management is contained on pages 36-39 in Item 7, "*Management's Discussion and Analysis of Financial Condition and Results of Operations*," of our Annual Report on Form 10-K for the year ended December 31, 2013. There have been no significant changes from the information discussed therein.

Table of Contents

Item 3. Quantitative and Qualitative Disclosures About Market Risk

Interest Rate Risk, Foreign Currency Risk, Credit Risk and Concentrations of Risk

For a complete discussion of our exposure to interest rate risk, foreign currency risk, credit risk and concentrations of risk, refer to Item 7A "Quantitative and Qualitative Disclosures About Market Risk" on pages 39-41 of our Annual Report on Form 10-K for the year ended December 31, 2013. There have been no significant changes from the information discussed therein.

Investment Risk

We are exposed to investment risks related to changes in the fair values of our investments. Our investments include short-term and long-term investments in fixed interest rate securities and time deposits, and investments in equity instruments of public and private companies. See Note 6 to the "Consolidated Condensed Financial Statements" for additional information on our investments.

As of June 30, 2014, we had \$1,066.4 million of investments in time deposits and fixed interest rate securities designated as held-to-maturity, of which \$80.9 million were long-term. The market value of these investments varies inversely with changes in current market interest rates. Our intent is to hold these investments to maturity so that they can be redeemed at their stated or face value. However, should we be forced to sell securities that have declined in market value prior to their maturity, we may suffer losses in principal. In addition, we had \$18.1 million of investments in equity instruments of other companies and had recorded unrealized gains of \$0.4 million on these investments in "Accumulated Other Comprehensive Loss," net of tax. Should these companies experience a decline in financial condition or fail to meet certain development milestones, the decline in the investments' value may be considered other-than-temporary and impairment charges may be necessary.

Item 4. Controls and Procedures

Evaluation of Disclosure Controls and Procedures. Our management, including the Chief Executive Officer and the Chief Financial Officer, performed an evaluation of the effectiveness of the design and operation of our disclosure controls and procedures (as defined in Rules 13a-15(e) and 15d-15(e) under the Securities Exchange Act of 1934, as amended) as of June 30, 2014. Based on their evaluation, the Chief Executive Officer and Chief Financial Officer have concluded as of June 30, 2014 that our disclosure controls and procedures are effective in providing reasonable assurance that the information we are required to disclose in the reports we file or submit under the Securities Exchange Act of 1934, as amended, is recorded, processed, summarized, and reported within the time periods specified in the Securities and Exchange Commission's rules and forms, and that such information is accumulated and communicated to our management, including the Chief Executive Officer and Chief Financial Officer, as appropriate, to allow timely decisions regarding required disclosure. There have been no changes in our internal controls over financial reporting during the quarter ended June 30, 2014 that have materially affected, or are reasonably likely to materially affect, our internal control over financial reporting.

Table of Contents**Part II. Other Information****Item 1. Legal Proceedings**

For a description of our material pending legal proceedings, please see Note 13 to the "Consolidated Condensed Financial Statements" of this Quarterly Report on Form 10-Q, which is incorporated by reference.

Item 1A. Risk Factors

There have been no material changes to the risk factors under Part I, Item 1A "Risk Factors" in our Annual Report on Form 10-K for the year ended December 31, 2013.

Item 2. Unregistered Sales of Equity Securities and Use of Proceeds*Issuer Purchases of Equity Securities*

Period	Total Number of Shares (or Units) Purchased(a)	Average Price Paid per Share (or Unit)	Total Number of Shares (or Units) Purchased as Part of Publicly Announced Plans or Programs	Maximum Number (or Approximate Dollar Value) of Shares that May Yet Be Purchased Under the Plans or Programs (in millions)(b)
April 1, 2014 through April 30, 2014	437	\$ 74.58		\$ 202.5
May 1, 2014 through May 31, 2014	6,855	85.83		202.5
June 1, 2014 through June 30, 2014				202.5
Total	7,292	85.15		

(a) The difference between the total number of shares (or units) purchased and the total number of shares (or units) purchased as part of publicly announced plans or programs is due to shares withheld by us to satisfy tax withholding obligations in connection with the vesting of restricted stock units issued to employees.

(b) On May 14, 2013, the Board of Directors approved a stock repurchase program authorizing us to purchase on the open market, including pursuant to a Rule 10b5-1 plan, and in privately negotiated transactions up to \$750.0 million of our common stock from time to time until December 31, 2016. On July 10, 2014, the Board of Directors approved a new stock repurchase program providing for an additional \$750.0 million of repurchases of our common stock.

Item 6. Exhibits

Exhibits required by Item 601 of Regulation S-K are listed in the Exhibit Index hereto and include the following:

Edgar Filing: Edwards Lifesciences Corp - Form 10-Q

- 10.1 Five-Year Credit Agreement, dated as of July 18, 2014, among Edwards Lifesciences and certain of its subsidiaries, as Borrowers; the lenders signatory thereto, Bank of America, N.A., as Administrative Agent, Swing Line Lender and Issuing Bank; JPMorgan Chase Bank, N.A. and Wells Fargo Bank, National Association, as Co-Syndication Agents, and Deutsche Bank Securities Inc., HSBC Bank USA, National Association, PNC Bank, National Association, The Bank of Tokyo-Mitsubishi UFJ, Ltd., and U.S. Bank National Association, as Co-Documentation Agents (incorporated by reference to Exhibit 10.1 in Edwards Lifesciences' report on Form 8-K, filed July 24, 2014)
