NOTES TO FINANCIAL STATEMENTS (UNAUDITED)

NOTE 1 – Summary of Significant Accounting Policies

Basis of Presentation

This Quarterly Report on Form 10-Q is a combined report of CH Energy Group, Inc. ("CH Energy Group") and its regulated electric and natural gas subsidiary, Central Hudson Gas & Electric Corporation ("Central Hudson"). The Notes to the Consolidated Financial Statements apply to both CH Energy Group and Central Hudson. CH Energy Group's Consolidated Financial Statements include the accounts of CH Energy Group and its wholly owned subsidiaries, which include Central Hudson and CH Energy Group's non-utility subsidiary, Central Hudson Enterprises Corporation ("CHEC"). Operating results of CHEC include its wholly owned subsidiaries, Griffith Energy Services, Inc. ("Griffith"), CH-Auburn Energy, LLC ("CH-Auburn"), CH-Greentree, LLC ("CH-Greentree"), CH Shirley Wind, LLC ("CH Shirley Wind"), CH-Lyonsdale, LLC ("CH-Lyonsdale") and Lyonsdale Biomass, LLC ("Lyonsdale"), and its majority owned subsidiary Shirley Wind (Delaware), LLC ("Shirley Delaware"). The non-controlling interest shown on CH Energy Group's Consolidated Financial Statements represents the minority owner's proportionate share of the income and equity of Shirley Delaware for 2011 and 2010 and Lyonsdale for 2010 prior to the purchase of the minority owner's interest on October 1, 2010. Inter-company balances and transactions have been eliminated in consolidation.

The Financial Statements were prepared in conformity with accounting principles generally accepted in the United States of America ("GAAP"), which for regulated public utilities, includes specific accounting guidance for regulated operations. For additional information regarding regulatory accounting, see Note 2 - "Regulatory Matters."

Unaudited Financial Statements

The accompanying Consolidated Financial Statements of CH Energy Group and Financial Statements of Central Hudson are unaudited but, in the opinion of Management, reflect adjustments (which include normal recurring adjustments) necessary for a fair statement of the results for the interim periods presented. These unaudited quarterly Financial Statements do not contain all footnote disclosures concerning accounting policies and other matters which would be included in annual Financial Statements and, accordingly, should be read in conjunction with the audited Financial Statements (including the Notes thereto) included in the combined CH Energy Group/Central Hudson Annual Report on Form 10-K for the year ended December 31, 2010 (the "Corporations' 10-K Annual Report").

CH Energy Group's and Central Hudson's balance sheet as of March 31, 2010 is not required to be included in this Quarterly Report on Form 10-Q; however, this balance sheet is included for supplemental analysis purposes.

Table of Contents

Reclassification

Certain amounts in the 2010 Financial Statements have been reclassified to conform to the 2011 presentation.

On March 31, 2011, CH Energy Group's subsidiary CHEC entered into an agreement to sell its Lyonsdale Biomass subsidiary, which operates a wood-burning electric generating facility in New York. CH Energy Group concluded that the criteria for reporting held for sale and discontinued operations were met at March 31, 2011, and accordingly, presented the results of operations associated with these operations for current and prior periods in discontinued operations in the CH Energy Group Consolidated Statement of Income and has presented the assets and liabilities of Lyonsdale separately in the CH Energy Group Consolidated Balance Sheet. Management has elected to include cash flows from discontinued operations with those from continuing operations in the CH Energy Group Consolidated Statement of Cash Flows.

For more information regarding discontinued operations and assets held for sale, see Note 5 - "Acquisition, Divestitures and Investments."

Consolidation of Variable Interest Entities

CH Energy Group and its subsidiaries do not have any interests in special purpose entities and do not have material affiliations with any variable interest entities which were not consolidated.

Revenue Recognition

CH Energy Group's deferred revenue balances as of March 31, 2011, December 31, 2010 and March 31, 2010 were \$3.9 million, \$4.7 million and \$3.9 million, respectively. The deferred revenue balance will be recognized in CH Energy Group's operating revenues over the 12-month term of the respective customer contract.

As required by the PSC, Central Hudson records gross receipts tax revenues and expenses on a gross income statement presentation basis (i.e., included in both revenue and expenses). Sales and use taxes for both Central Hudson and Griffith are accounted for on a net basis (excluded from revenue).

Table of Contents

Fuel, Materials & Supplies

The following is a summary of CH Energy Group's and Central Hudson's inventories (In Thousands):

CH Energy Group

	March 31, 2011			December 31, 2010		March 31, 2010	
Natural gas	\$	5,467	\$	10,809	\$	7,414	
Petroleum products and propane		2,284		3,831		2,111	
Fuel used in electric generation		266 (1))	820		798	
Materials and supplies		9,908 (1))	9,987		10,422	
Total	\$	17,925	\$	25,447	\$	20,745	

Central Hudson

	March 31,		D	December 31,		March 31,
		2011		2010		2010
Natural gas	\$	5,467	\$	10,809	\$	7,414
Petroleum products and propane		519		519		525
Fuel used in electric generation		266		271		293
Materials and supplies		8,658		8,428		9,096
Total	\$	14,910	\$	20,027	\$	17,328

(1) Fuel used in electric generation of \$525 and materials and supplies of \$216 related to Lyonsdale have been excluded from these amounts as of March 31, 2011 and designated as held for sale under current accounting guidance. For further details, see Note 5 - "Acquisitions, Divestitures and Investments."

Depreciation and Amortization

Current accounting guidance related to asset retirements precludes the recognition of expected future retirement obligations as a component of depreciation expense or accumulated depreciation. Central Hudson, however, is required to use depreciation methods and rates approved by the PSC under regulatory accounting. These depreciation rates include a change for the cost of future removal and retirement of fixed assets. In accordance with current accounting guidance for regulated operations, Central Hudson continues to accrue for the future cost of removal for its rate-regulated natural gas and electric utility assets. In accordance with current accounting guidance related to asset retirements, Central Hudson has classified \$52.5 million, \$46.9 million, and \$46.5 million of cost of removal as regulatory liabilities as of March 31, 2011, December 31, 2010, and March 31, 2010, respectively. This liability represents the portion of the cost of removal charge in excess of the amount reported as an Asset Retirement Obligation under GAAP.

See Note 6 - "Goodwill and Other Intangible Assets" for further discussion of amortization of intangibles (other than goodwill).

- 14 -

Table of Contents

Earnings Per Share

In the calculation of earnings per share (basic and diluted) of CH Energy Group's Common Stock, earnings for CH Energy Group are reduced by the Preferred Stock dividends of Central Hudson.

The average dilutive effect of CH Energy Group's stock options, performance shares and restricted shares are as follows (In Shares):

Three Months Ended				
March 31,				
2011	2010			
193 449	158 461			

Certain stock options are excluded from the calculation of diluted earnings per share because the exercise price of those options were greater than the average market price per share of Common Stock. Options excluded are as follows (In Shares):

Three Months	Three Months Ended		
March 3	March 31,		
2011	2010		
-	35,980		

For additional information regarding stock options, performance shares and restricted shares, see Note 11 - "Equity-Based Compensation."

Parental Guarantees

CH Energy Group and CHEC have issued guarantees to counterparties to assure the payment, when due, of certain obligations incurred by CH Energy Group subsidiaries, in physical and financial transactions.

(In Thousands)

	March 31, 2011		
	Maximum		
	Potential	Outstanding	
Transaction Description	Payments	Liabilities(1)	
Heating oil, propane, other petroleum products, weather and commodity hedges	\$33,750	\$ 6,283	
Certain equipment supply and construction agreements	\$1,044	\$ 789	

(1) Balances included in CH Energy Group's Consolidated Balance Sheet

Management is not aware of any existing condition that would require payment under the guarantees.

- 15 -

Table of Contents

Common Stock Dividends

CH Energy Group's ability to pay dividends is affected by the ability of its subsidiaries to pay dividends. The Federal Power Act limits the payment of dividends by Central Hudson to its retained earnings. More restrictive is the PSC's limit on the dividends Central Hudson may pay to CH Energy Group which is 100% of the average annual income available for common stock, calculated on a two-year rolling average basis. Based on this calculation, Central Hudson was restricted to a maximum payment of \$38.5 million in dividends to CH Energy Group for the year ended December 31, 2010. Central Hudson's dividend would be reduced to 75% of its average annual income in the event of a downgrade of its senior debt rating below "BBB+" by more than one rating agency if the stated reason for the downgrade is related to CH Energy Group or any of Central Hudson's affiliates. Further restrictions are imposed for any downgrades below this level. During the three months ended March 31, 2011, Central Hudson declared and paid dividends of \$11.0 million to CH Energy Group. CH Energy Group's other subsidiaries do not have express restrictions on their ability to pay dividends.

On March 31, 2011, the Board of Directors of CH Energy Group declared a quarterly dividend of \$0.54 per share, payable May 2, 2011, to shareholders of record as of April 11, 2011.

⁽¹⁾ Central Hudson offset deferred storm costs and incremental bad debt expense and associated carrying charges, in accordance with the PSC prescribed Order issued on April 14, 2011.

Table of Contents

2010 Rate Order

From July 1, 2010 through June 30, 2013, Central Hudson operates under the terms of the 2010 Rate Order, which provides for the following:

Description	2010 Rate Order
Electric delivery revenue increases	\$11.8 million(1)
	7/1/10
	\$9.3
	million(1) 7/1/11
	\$9.0 million
	7/1/12
Natural gas delivery revenue increases	\$5.7 million
	7/1/10
	\$2.4 million
	7/1/11
	\$1.6 million
ROE	7/1/12 10.0%
Earnings sharing	Yes(2)
Capital structure – common equity	48%
Targets with true-up provisions - % of revenue requirement to defer	40 /0
for shortfalls	
Net plant balances	100%
Transmission and distribution ROW maintenance	100%
RDMs – electric and natural gas(3)	Yes
New deferral accounting for full recovery	
Fixed debt costs	Yes(4)
Transmission sag mitigation	Yes
New York State Temporary Assessment	Yes
Material regulatory actions(5)	Yes(5)
Property taxes – Deferral for 90% of excess/deficiency relative to	
revenue requirement	Yes(6)

- (1) Moderated by \$12 million and \$4 million bill credits, respectively.
- (2) ROE > 10.5%, 50% to customers, > 11.0%, 80% to customers, > 11.5%, 90% to customers.
 - (3) Electric is based on revenue dollars; gas is based on usage per customer.
 - (4) Deferral authorization in RY2 and RY3 only.
- (5) Legislative, governmental or regulatory actions with individual impacts greater than or equal to 2% of net income of the applicable department.
 - (6) The Company's pre-tax gain or loss limited to \$0.7 million per rate year.

Other PSC Proceedings

On September 23, 2010, Central Hudson filed a petition with the PSC requesting approval to defer for future recovery the incremental bad debt expense and storm costs, and incremental gas and electric property tax expense above the respective rate allowances for the twelve months ended June 30, 2010. The petition also requests approval of offsets of the foregoing against significant tax refunds resulting from a change in the way Central Hudson treats certain capital expenditures for tax purposes.

On April 14, 2011, the Commission issued an Order authorizing deferral of \$18.8 million of the incremental electric storm restoration expense and the \$2.6 million of incremental bad debt expense and denying deferral of the Company's \$2.6 million of incremental electric and gas property tax expense. The PSC also approved the ratemaking treatment proposed by the Company in its filing and the offsets have been recorded as of March 31, 2011. The remaining balance of the tax refund not subject to offset has been established as a regulatory liability, electric rate base credit fund, for the benefit of customers totaling \$9.6 million.

Table of Contents

NOTE 3 - New Accounting Guidance

Newly adopted and soon to be adopted accounting guidance is summarized below, and explanations of the underlying information for all guidance (except that which is not currently applicable) that is expected to have a material impact on CH Energy Group and its subsidiaries.

Impact	Category	Accounting Reference	Title	Issued Date	Effective Date
i	Fair Value Measurements and Disclosures (Topic 820)	ASU No. 2010-06	Improving Disclosures about Fair Value Measurements	Jan-10	Jan-11
1	Intangibles - Goodwill and Other (Topic 360)	ASU No. 2010-28	Intangibles - Goodwill and Other: When to Perform Step 2 of the Goodwill Impairment Test for Reporting Units with Zero or Negative Carrying Amounts	Dec-10	Jan-11
1	Business Combinations (Topic 805)	ASU No. 2010-29	Disclosure of Supplementary Pro Forma Information for Business Combinations	Dec-10	Jan-11

Impact Key:

(1) No current impact on the financial condition, results of operations and cash flows of CH Energy Group and its subsidiaries when adopted on the effective date noted.

NOTE 4 – Income Tax

In September of 2010, Central Hudson filed a request with the Internal Revenue Service ("IRS") to change the Company's tax accounting method related to costs to repair and maintain utility assets. The change was effective for the tax year ending December 31, 2009. This change allows Central Hudson to take a current tax deduction for a significant amount of repair costs that were previously capitalized for tax purposes.

Other than the uncertain tax position related to the Company's accounting method change, there are no other uncertain tax positions. The following is a summary of activity related to uncertain tax positions (In Thousands):

Three Months Ended

NOTE 5 – Acquisitions, Divestitures and Investments

Acquisitions

During the three months ended March 31, 2011, Griffith acquired fuel distribution companies as follows (Dollars in Thousands):

	# of		Total		Total
	Acquired	Purchase	Intangible		Tangible
Quarter Ended	Companies	Price	Assets(1)	Goodwill	Assets
March 31, 2011	2	\$ 1,961	\$ 1,936	\$ 515	\$ 25
Total	2	\$ 1,961	\$ 1,936	\$ 515	\$ 25

(1) Including goodwill.

Divestitures

In the first quarter of 2011, Griffith reduced its environmental reserve by \$0.6 million based on the completion of an environmental study. The reserve adjustment related to the 2009 divestiture of operations in certain geographic locations. As such, \$0.4 million, net of tax, has been reflected in income from discontinued operations in the CH Energy Group Consolidated Income Statement for the three months ended March 31, 2011.

On March 29, 2011, CH Energy Group's subsidiary CHEC entered into an agreement to sell its Lyonsdale Biomass Facility. CH Energy Group concluded that the criteria for reporting held for sale and discontinued operations were met at March 31, 2011, and accordingly, presented the results of operations associated with these operations for current and prior periods in discontinued operations in the CH Energy Group Consolidated Statement of Income and has presented the assets and liabilities of Lyonsdale separately in the CH Energy Group Consolidated Balance Sheet. Management has elected to include cash flows from discontinued operations with those from continuing operations in the CH Energy Group Consolidated Statement of Cash Flows.

- 21 -

Table of Contents

The table below provides additional detail of the financial results of the discontinued operations (In Thousands):

	Three Months Ended		
	Ma

Table of Contents

Investments

CHEC's current investments at March 31, 2011 include the following (Dollars in Thousands):

			Equity		
CHEC Investment	Description	Intercompany Debt			Total
Griffith Energy Services	100% controlling interest in a fuel distribution	45,000	Φ 26.1	10 d	01.140
Y 1.1	business	\$ 45,000	\$ 36,1	40 \$	81,140
Lyonsdale	100% ownership in a wood-fired biomass	5 175	2.1	57	0 222
CH-Greentree	electric generating plant 100% equity interest in a molecular gate used to	5,175	3,1	.57	8,332
	remove nitrogen from landfill gas	-	4,9	1 81	4,981
CH-Auburn	100% equity interest in a 3-megawatt electric generating plant that utilizes landfill gas to produce electricity	2,750	1.6	574	4,424
CH-Community Wind	50% equity interest in a joint venture that owns 18% interest in two	2,730			
CH Shirley Wind	operating wind projects 100% ownership of CH Shirley Wind, which owns 90% controlling interest in Shirley Wind (Delaware), LLC ("Shirley Delaware"), which owns 100% interest in Shirley Wind, LLC ("Shirley Wind"), a 20	25,000		710	3,710
Other	megawatt wind project Other renewable energy projects and partnerships and an energy sector	25,000	20,2		45,235
	venture capital fund	\$ 77,925	\$ 73.2	264 \$	3,367 151,189
		Ψ 11,923	φ 13,2	,U 1 Þ	131,109

On April 21, 2011, CHEC's Board of Directors passed a resolution authorizing entering into a purchase and sale agreement and accordingly, the assets and liabilities of Shirley Wind have been designated as held for sale subsequent to the March 31, 2011 reporting date. See Note 16 – "Subsequent Events" for further details of assets held for sale after the balance sheet date. Management updated its test for recoverability from year end assuming a sale transaction, noting the cash flows indicated by the bid from an interested party together with the receipt of federal grants, on an undiscounted basis, exceed the net book value of the investment in Shirley Wind at March 31, 2011. Therefore, no impairment is indicated.

NOTE 7 – Short-Term Borrowing Arrangements

divestitures, is approximately \$2.0 million.

CH Energy Group and Central Hudson's borrowings under a revolving credit facility are as follows (In Thousands):

	March 31, 2011	December 31, 2010	March 31, 2010
CH Energy Group Holding Company Short-term borrowings	\$16,500	\$-	\$-
Central Hudson Short-term borrowings	-	-	30,000
CH Energy Group Consolidated	\$16,500	\$-	\$30,000

NOTE 8 – Capitalization – Common and Preferred Stock

For a schedule of activity related to common stock, paid-in capital and capital stock, see the Consolidated Statement of Equity for CH Energy Group and Central Hudson.

Effective July 31, 2007, CH Energy Group's Board of Directors extended and amended the Common Stock Repurchase Program of the Company (the "Repurchase Program"), which was originally authorized in 2002. As amended, the Repurchase Program authorizes the repurchase of up to 2,000,000 shares (excluding shares repurchased before July 31, 2007) or approximately 13% of the CH Energy Group's outstanding Common Stock, from time to time, through July 31, 2012. As of March 31, 2011, CH Energy Group had purchased 202,345 shares under the Repurchase Program of which 172,783 shares were purchased during the three months ended March 31, 2011. Subsequent to March 31, 2011 and through April 29, 2011, CH Energy Group purchased 78,394 additional shares under the Repurchase Program. CH Energy Group intends to purchase additional shares under the Program during the remainder of 2011. CH Energy Group intends to set repurchase targets, if any, from time to time based on then prevailing circumstances. Management's repurchase of shares does not represent a retirement or constructive retirement of shares and accordingly, has been presented as an increase to treasury stock in CH Energy Group's

2011

2010

Consolidated Balance Sheet.

- 24 -

Table of Contents

There were no repurchases of preferred stock in the three months ended March 31, 2011 and 2010.

On January 24, 2011, Central Hudson made an \$11.0 million dividend payment to parent CH Energy Group. Central Hudson made an additional dividend payment of \$11.0 million to parent CH Energy Group on May 2, 2011.

NOTE 9 – Capitalization – Long-Term Debt

NYSERDA

On December 7, 2010, Central Hudson issued \$82.15 million of its unsecured Medium Term Notes. Central Hudson used the proceeds from the sale of the notes for refunding its 1999 NYSERDA Bonds Series C and Series D of \$41.15 million and \$41.0 million, respectively. Central Hudson has retired these Series C and Series D NYSERDA Bonds and no notes are outstanding in these two Series.

Central Hudson's Series B NYSERDA Bonds total \$33.7 million at March 31, 2011. These bonds are tax-exempt multi-modal bonds that are currently in a variable rate mode. In its Orders, the PSC has authorized deferral accounting treatment for variations in the interest costs from these bonds. As such, variations between the actual interest rates on these bonds and the interest rate included in the current delivery rate structure for these bonds are deferred for future recovery from or refund to customers. As a result, variations in interest rates do not have any impact on earnings.

To mitigate the potential cash flow impact of unexpected increases in short-term interest rates, Central Hudson purchases interest rate caps based on an index of short-term tax-exempt debt. Two of the rate caps were one-year in length with notional amounts that were aligned to the Series C and Series D NYSERDA Bonds that are no longer outstanding. These two rate caps expired on April 1, 2011. The third rate cap is two years in length with a notional amount aligned with Series B and will expire on April 1, 2012. The caps are based on the monthly weighted average of an index of tax-exempt variable rate debt, multiplied by 175%. Central Hudson would receive a payout if the adjusted index exceeds 5.0% for a given month.

Table of Contents

Central Hudson is currently evaluating what actions, if any, it may take in the future in connection with its Series B NYSERDA Bonds. Potential actions may include converting the debt to another interest rate mode or refinancing with taxable bonds.

NOTE 10 – Post-Employment Benefits

Central Hudson provides certain health care and life insurance benefits for retired employees through its post-retirement benefit plans.

Post-retirement benefit plans at Central Hudson do not have any adverse impact on earnings. The following information is provided in accordance with current accounting requirements.

The following are the components of Central Hudson's net periodic benefit costs for its pension and OPEB plans for the three months ended March 31, 2011 and 2010 (In Thousands):

	1 41151	on Benefits Months Ended	Three N	PEB(1) Months Ended
	Ma	arch 31,	M	arch 31,
	2011	2010	2011	2010
Service cost	\$2,448	\$2,272	\$673	\$531
Interest cost	6,537	6,571	1,732	1,712
Expected return on plan assets	(6,860) (6,225) (1,711) (1,267)
Amortization of:				
Prior service cost (credit)	536	544	(1,466) (1,467)
Transitional obligation (asset)	-	-	641	641
Recognized actuarial loss	6,523	7,377	2,688	2,073
Net Periodic Benefit Cost	\$9,184	\$10,539	\$2,557	\$2,223

⁽¹⁾ The OPEB amounts for both years reflect the effect of the Medicare Prescription Drug Improvement and Modernization Act of 2003.

Central Hudson's pension liability balance (i.e., the under-funded status) is as follows (In Thousands):

		December	
	March 31,	31,	March 31,
	2011	2010	2010
Pension liability balance	\$97,195	\$103,227	\$125,461

These balances include recognition for the difference between the projected benefit obligation ("PBO") for pensions and the market value of the pension assets, as well as consideration for non-qualified executive plans. In addition to the Retirement Plan, a portion of CH Energy Group's and Central Hudson's executives are covered under a non-qualified Supplemental Executive Retirement Plan.

Table of Contents

The following reflects the impact of the recording of funding status adjustments on the Balance Sheets of CH Energy Group and Central Hudson (In Thousands):

		December	
	March 31,	31,	March 31,
	2011	2010	2010
Prefunded pension costs prior to funding status adjustment	\$33,280	\$34,307	\$31,261
Additional liability required	(130,475)	(137,534) (156,722)
Total accrued pension liability	\$(97,195)	\$(103,227) \$(125,461)
Total offset to additional liability - Regulatory assets - Pension Plan	\$130,475	\$137,534	\$156,722

Gains or losses and prior service costs or credits that arise during the period but that are not recognized as components of net periodic pension cost would typically be recognized as a component of other comprehensive income, net of tax. However, Central Hudson has PSC approval to record regulatory assets rather than adjusting comprehensive income to offset the additional liability.

Contributions to the Retirement Plan during the three months ended March 31, 2011 and 2010 were \$8.0 million and \$30.0 million, respectively.

No employer contributions for the OPEB plan were made during the three months ended March 31, 2011 and \$0.5 million for the three months ended March 31, 2010.

Contribution levels for the Retirement Income Plan and Post-Employment Benefit plans are determined by various factors including the discount rate, expected return on plan assets, benefit changes, and corporate resources. In addition, OPEB plan contribution levels are also impacted by medical claims assumptions used and mortality assumptions used.

Retirement Plan Policy and Strategy

Central Hudson's Retirement Plan investment policy seeks to achieve long-term growth and income to match the long-term nature of its funding obligations. During the first quarter of 2010, Management began a transition to a long-duration investment ("LDI") strategy for its pension plan assets. Management's objective is to minimize the plan's funded status volatility and the level of contributions by more closely aligning the characteristics of plan assets with liabilities.

- 27 -

Table of Contents

Asset allocation targets in effect as of March 31, 2011, expressed as a percentage of the market value of the Retirement Plan's assets, are summarized in the table below:

			Target			
Asset Class	Minimun	n	Average		Maximur	m
Equity Securities	49	%	54	%	59	%
Debt Securities	41	%	46	%	51	%
Alternative Investments(1)	-	%	-	%	5	%

(1) Includes Real Estate

Central Hudson plans to continue the transition to an LDI strategy in 2011, resulting in an asset allocation of approximately 50% equity and 50% long duration fixed income assets by year-end. The targeted benchmark index during the transition to long-duration investment strategy is comprised of 28% Russell 1000 Stock Index; 10% Russell 2500 Stock Index; 12% Morgan Stanley Capital International Europe, Australasia and Far East (MSCI EAFE) International Stock Index (Net) and 50% BC Long Government Credit Index.

Due to market value fluctuations, Retirement Plan assets will require rebalancing from time-to-time to maintain the target asset allocation.

Central Hudson cannot assure that the Retirement Plan's return objectives or funded status objectives will be achieved.

NOTE 11 – Equity-Based Compensation

Performance Shares

A summary of the status of outstanding performance shares granted to executives under the 2006 Plan is as follows:

			Performance Shares
	Grant Date	Performance Shares	Outstanding at
Grant Date	Fair Value	Granted	March 31, 2011
January 24, 2008	\$ 35.76	33,440	28,420
January 26, 2009	\$ 49.29	36,730	32,810
February 8, 2010	\$ 38.62	48,740	48,740
February 7, 2011	\$ 49.77	40,320	40,320

The ultimate number of shares earned under the awards is based on metrics established by the Compensation Committee at the beginning of the award cycle. Compensation expense is recorded as performance shares are earned over the relevant three-year life of the performance share grant prior to its award. The portion of the compensation expense related to an employee who retires during the performance period is the amount recognized up to the date of retirement.

Table of Contents

Performance shares granted January 24, 2008, and shown as outstanding as of March 31, 2011 in the above table are expected to be paid out in May 2011. Additionally, due to the retirement of one of Central Hudson's executive officers on January 1, 2011, a pro-rated number of shares under the January 26, 2009 and February 8, 2010 grants are expected to be paid to this individual in July 2011.

Restricted Shares and Restricted Stock Units

The following table summarizes information concerning restricted shares and stock units outstanding as of March 31, 2011:

		Shares or			Unvested Shares
	Type of	Stock Units	Grant Date		Outstanding at
Grant Date	Award	Granted	Fair Value	Vesting Terms	March 31, 2011
January 2, 2008	Shares	10,000	\$ 44.32	End of 3 years	- (1)
				Ratably over 3	
January 2, 2008	Shares	2,100	\$ 44.32	years	- (2)
January 26, 2009	Shares	2,930	\$ 49.29	End of 3 years	2,320 (3)
				Ratably over 5	
October 1, 2009	Shares	14,375	\$ 43.86	years	11,500
	Stock			1/3 each year in	
November 20, 2009	Units	13,900	\$ 41.43	Years 5, 6 and 7	13,900
February 8, 2010	Shares	3,060	\$ 38.62	End of 3 years	2,655 (4)
February 10, 2010	Shares	5,200	\$ 38.89	End of 3 years	5,200
				Ratably over 3	
November 15, 2010	Shares	3,000	\$ 46.53	years	3,000
				1/3 each year in	
February 7, 2011	Shares	1,500	\$ 49.77	Years 3, 4 and 5	1,500
February 7, 2011	Shares	2,230	\$ 49.77	End of 3 years	2,230

- (1)500 shares were forfeited upon resignation of the employee holding the shares, the vesting of 600 shares was accelerated upon a change in control for an individual resulting from the sale of certain assets of Griffith, vesting of 800 shares was accelerated as approved by the Board of Directors and remaining 8,100 shares vested on January 2, 2011.
- (2)2100 shares vested ratably over three years ending January 2, 2011.
- (3) The vesting of 250 shares was accelerated upon a change in control for an individual resulting from the sale of certain assets of Griffith and the vesting of 360 shares was accelerated as approved by the Board of Directors.
- (4) The vesting of 405 shares was accelerated as approved by the Board of Directors.

Compensation Expense

The following table summarizes expense for equity-based compensation by award type for the three months ended March 31, 2011 and 2010 (In Thousands):

	Three Mo	onths Ended
	Ma	rch 31,
	2011	2010
Performance shares	\$690	\$604
Restricted shares and stock units	\$102	\$124
Recognized tax benefit of restricted shares and stock units	\$41	\$50

Compensation expense for performance shares is recognized over the three year performance period based on the fair value of the awards at the end of each reporting period and the time elapsed within each grant's performance period. Compensation expense for restricted shares and stock options is recognized over the defined vesting periods based on the grant date fair value of the awards.

- 29 -

Table of Contents

NOTE 12 – Commitments and Contingencies

Electricity Purchase Commitments

On March 6, 2007, Central Hudson entered into an agreement with Entergy Nuclear Power Marketing, LLC to purchase electricity (but not capacity) on a unit-contingent basis at defined prices from January 1, 2008 through December 31, 2010. During this period, the electricity purchased through this Entergy contract represented approximately 23% of Central Hudson's full-service customer requirements on an annual basis. For the three months ended March 31, 2010, energy supplied under this agreement cost approximately \$13.8 million. On June 30, 2010 and September 9, 2010, Central Hudson entered into additional agreements with Entergy Nuclear Power Marketing, LLC to purchase electricity on a unit-contingent basis at defined prices from January 1, 2011 through December 31, 2013. The electricity purchased under these current contracts with Entergy is generated from the Indian Point and FitzPatrick nuclear power facilities and is estimated to represent approximately 13% of Central Hudson's full-service customer requirements on an annual basis. For the three months ended March 31, 2011, energy supplied under this agreement cost approximately \$4.4 million.

In the event the above noted counterparty is unable to fulfill its commitment to deliver under the terms of the agreements, Central Hudson would obtain the supply from the NYISO market, and under Central Hudson's current ratemaking treatment, recover the full cost from customers. As such, there would be no impact on earnings.

Central Hudson must also acquire sufficient peak load capacity to meet the peak load requirements of its full service customers. This capacity is made up of contracts with capacity providers, purchases from the NYISO capacity market and its own generating capacity.

Environmental Matters

Central Hudson

• Air

In October 1999, Central Hudson was informed by the New York State Attorney General ("Attorney General") that the Danskammer Point Steam Electric Generating Station ("Danskammer Plant") was included in an investigation by the Attorney General's Office into the compliance of eight older New York State coal-fired power plants with federal and state air emissions rules. Specifically, the Attorney General alleged that Central Hudson "may have constructed, and continues to operate, major modifications to the Danskammer Plant without obtaining certain requisite preconstruction permits." In March 2000, the Environmental Protection Agency ("EPA") assumed responsibility for the investigation. Central Hudson has completed its production of documents requested by the Attorney General, the New York State Department of Environmental Conservation ("DEC"), and the EPA, and believes any permits required for these projects were obtained in a timely manner. Central Hudson sold the Danskammer Plant on January 30, 2001. In March 2009, Dynegy notified Central Hudson that Dynegy had received an information request pursuant to the Clean Air Act from the EPA for the Danskammer Plant covering the period beginning January 2000 to present. At that time, Dynegy also submitted to Central Hudson a demand for indemnification for any fines, penalties or other losses that may be incurred by Dynegy arising from the period that Central Hudson owned the Danskammer Plant. While Central Hudson could have retained liability after the sale, depending on the type of remedy, Central Hudson believes that the statutes of limitation relating to any alleged violation of air emissions rules have lapsed.

Table of Contents

- 31 -

• Former Manufactured Gas Plant Facilities

Central Hudson and its predecessors owned and operated manufactured gas plants ("MGPs") to serve their customers' heating and lighting needs. MGPs manufactured gas from coal and oil. This process produced certain by-products that may pose risks to human health and the environment.

The DEC, which regulates the timing and extent of remediation of MGP sites in New York State, has notified Central Hudson that it believes Central Hudson or its predecessors at one time owned and/or operated MGPs at seven sites in Central Hudson's franchise territory. The DEC has further requested that Central Hudson investigate and, if necessary, remediate these sites under a Consent Order, Voluntary Cleanup Agreement, or Brownfield Cleanup Agreement. The DEC has placed all seven of these sites on the New York State Environmental Site Remediation Database. A number of the sites are now owned by third parties and have been redeveloped for other uses. The status of the seven MGP sites are as follows:

	Site	Status
#1	Beacon,	Remediation work complete. Final Report approved by the DEC. A revised Site Management
	NY	Plan ("SMP") was submitted by Central Hudson to the DEC on September 20, 2010. Central
		Hudson is finalizing a deed restriction for the Metro-North property.
#2	Newburgh, NY	The DEC has approved the Construction Completion Report ("CCR") for the remediation that was completed at Area A of the site. Remediation for the other two areas at the site, Areas B and C, was completed in December 2010. The remaining site restoration work is expected to be completed in the spring of 2011. Central Hudson is preparing a Final Engineering Report for submittal to the DEC later this year.

Table of Contents

	Site	Status
#3		Remediation work is complete. The CCR was approved by the DEC. As requested by the DEC, fifteen additional monitoring wells were installed and the last of the four quarterly groundwater sampling events was conducted in January 2011. Central Hudson continues to investigate off-site groundwater impacts.
#4	North Water Street Poughkeepsie, NY	As requested by the DEC, additional land and river investigations were conducted. The final monitoring event for the reactive cap pilot study was completed and the cap removed. Central Hudson has submitted a Remedial Investigation ("RI") Report to the DEC and is beginning to develop remedial alternatives.
#5	Kingston, NY	•
#6	Catskill, NY	Site investigation has been completed under the DEC-approved Brownfield Cleanup Agreement. A RI Report was approved. A Remedial Alternatives Analysis ("RAA") was submitted to the DEC on February 8, 2011. The DEC has completed a draft Decision Document for the site that is currently under public review.
#7	Bayeaux Street Poughkeepsie, NY	Per the DEC, no further investigation or remedial action is required at this time.

In the second quarter of 2008, Central Hudson updated the estimate of potential remediation and future operating, maintenance, and monitoring costs for sites #2, 3, 4, 5 and 6, indicating the total cost for the five sites could exceed \$165 million over the next 30 years. Amounts are subject to change based on current investigations, final remedial design (and associated engineering estimates), DEC and NYS Department of Health ("NYSDOH") comments and requests, remedial design changes/negotiations, and changed or unforeseen conditions during the remediation or additional requirements following the remediation.

Table of Contents

Site #1 remediation work has been completed and the final report has been approved by the DEC. With regard to site #8, Central Hudson does not have sufficient information to estimate its potential remediation cost, if any. As stated above, Central Hudson believes that it has no further liability for this site and the DEC in a letter dated March 13, 2009 has indicated no further investigation or remedial action is required at this time.

Information for sites #2 through #6 are detailed in the chart below (In Thousands):

										Current]	Long term
		Lial	bility	Amounts				Liability]	Portion of		portion of
		Reco	rded as	Spent in		Liability	R	ecorded as	Ι	Liability at	I	Liability at
Site #	Estimate	of 12	/31/10	2011(3)	A	Adjustment	C	of 3/31/11		3/31/11		3/31/11
2, 3(1)	\$ 44,700	\$	1,766	\$ 498	\$	82	\$	1,350	\$	412	\$	938
4, 5,												
6(2)	121,000		1,479	134		40		1,385		630		755
	\$ 165,700	\$	3,245	\$ 632	\$	122	\$	2,735	\$	1,042	\$	1,693

- (1) The estimates for sites #2 and 3 are currently based on the actual completed or contracted remediation costs. However, these estimates are subject to change. The estimated liability recorded for sites #2 and 3 are based on estimates of remediation costs for the proposed clean-up plans.
- (2) No amounts have been recorded in connection with physical remediation for sites #4, 5 and 6. Absent DEC-approved remediation plans, Management cannot reasonably estimate what cost, if any, will actually be incurred. The estimated liability for sites #4, 5 and 6 are based on the latest forecast of activities at these sites in connection with preliminary investigations, site testing and development of remediation plans for these sites. For additional discussion of estimates, see paragraphs below.
- (3) There were no legal fees for 2011.

The estimates for sites #4, 5 and 6 were based on partially completed remedial investigations and current DEC and NYSDOH preferences related to site remediation, and are considered conceptual and preliminary. The cost estimate involves assumptions relating to investigation expenses, remediation costs, potential future liabilities, and post-remedial operating, maintenance and monitoring costs, and is based on a variety of factors including projections regarding the amount and extent of contamination, the location, size and use of the sites, proximity to sensitive resources, status of regulatory investigations, and information regarding remediation activities at other MGP sites in New York State. The cost estimate also assumes that proposed or anticipated remediation techniques are technically feasible and that proposed remediation plans receive DEC and NYSDOH approval. Further, the updated estimate could change materially based on changes to technology relating to remedial alternatives and changes to current laws and regulations.

As authorized by the PSC, Central Hudson is currently permitted to defer for future recovery the differences between actual costs for MGP site investigation and remediation and the associated rate allowances, with carrying charges to be accrued on the deferred balances at the authorized pre-tax rate of return. Central Hudson spent \$0.6 million for the three months ended March 31, 2011, related to site investigation and remediation for sites #2, 3, 4, 5 and 6. On July 1, 2007, Central Hudson started recovering through a rate allowance for MGP Site Investigation and Remediation Costs. The 2010 Rate Order provided for an increase in this rate allowance to an amount of \$13.6 million over the three year settlement period ending June 30, 2013. As authorized in the 2009 Rate Order, Central Hudson also received deferral authority and subsequent recovery for amounts spent over the rate allowance from a net electric regulatory liability balance during the three year settlement period ending June 30, 2010. The total MGP Site Investigation and Remediation costs recovered from July 1, 2007 through March 31, 2011 was approximately \$16.5 million, with \$1.2 million recovered in the first quarter of 2011.

Table of Contents

Central Hudson has put its insurers on notice and intends to seek reimbursement from its insurers for the costs of any liabilities. Certain of these insurers have denied coverage.

Future remediation activities, including operating, maintenance and monitoring and related costs may vary significantly from the assumptions used in Central Hudson's current cost estimates, and these costs could have a material adverse effect (the extent of which cannot be reasonably determined) on the financial condition, results of operations and cash flows of CH Energy Group and Central Hudson if Central Hudson were unable to recover all or a substantial portion of these costs via collection in rates from customers and/or through insurance.

• Little Britain Road property owned by Central Hudson

In 2000, Central Hudson and the DEC entered into a Voluntary Cleanup Agreement ("VCA") whereby Central Hudson removed approximately 3,100 tons of soil and conducted groundwater sampling. Central Hudson believes that it has fulfilled its obligations under the VCA and should receive the release provided for in the VCA, but the DEC has proposed that additional ground water work be done to address groundwater sampling results that showed the presence of certain contaminants at levels exceeding DEC criteria. Central Hudson believes that such work is not necessary and has completed a soil vapor intrusion study showing that indoor air at the facility met Occupational Safety and Health Administration ("OSHA") and NYSDOH standards; in addition, in 2008, it also installed an indoor air vapor mitigation system (that continues to operate).

In September 2010, NYSDEC personnel orally advised that Central Hudson would likely receive a letter from the NYSDEC proposing closure of the VCA, and inclusion of the site into the Brownfield Cleanup Program ("BCP"). To date that letter has not been received.

At this time Central Hudson does not have sufficient information to estimate the need for additional remediation or potential remediation costs. Central Hudson has put its insurers on notice regarding this matter and intends to seek reimbursement from its insurers for amounts, if any, for which it may become liable. Central Hudson cannot predict the outcome of this matter.

- 34 -

Table of Contents

• Eltings Corners

Central Hudson owns and operates a maintenance and warehouse facility located in Lloyd, NY. In the course of Central Hudson's recent hazardous waste permit renewal process for this facility, sediment contamination was discovered within the wetland area across the street from the main property. In cooperation with NYSDEC, Central Hudson continues to investigate the nature and extent of the contamination. The extent of the contamination, as well as the timing and costs for continued investigation and future remediation efforts, cannot be reasonably estimated at this time.

• Asbestos Litigation

As of March 31, 2011, of the 3,327 asbestos cases brought against Central Hudson, 1,169 remain pending. Of the cases no longer pending against Central Hudson, 2,003 have been dismissed or discontinued without payment by Central Hudson, and Central Hudson has settled 155 cases. Central Hudson is presently unable to assess the validity of the remaining asbestos lawsuits; however, based on information known to Central Hudson at this time, including Central Hudson's experience in settling asbestos cases and in obtaining dismissals of asbestos cases, Central Hudson believes that the costs which may be incurred in connection with the remaining lawsuits will not have a material adverse effect on the financial position, results of operations or cash flows of either CH Energy Group or Central Hudson.

CHEC

During the three months ended March 31, 2011, Griffith spent less than \$0.1 million on remediation efforts in Maryland, Virginia and Connecticut.

Griffith's reserve for environmental remediation is \$2.6 million as of March 31, 2011, of which \$1.1 million is expected to be spent in the next twelve months.

In connection with the 2009 sale of operations in certain geographic locations, Griffith agreed to indemnify the purchaser for certain claims, losses and expenses arising out of any breach by Griffith of the representations, warranties and covenants Griffith made in the sale agreement, certain environmental matters and all liabilities retained by Griffith. Griffith's indemnification obligation is subject to a number of limitations, including time limits within which certain claims must be brought, an aggregate deductible of \$0.8 million applicable to certain types of non-environmental claims and other deductibles applicable to certain specific environmental claims, and caps on Griffith's liability with respect to certain of the indemnification obligations. The sale agreement includes an aggregate cap of \$5.7 million on Griffith's obligation to indemnify the purchaser for breaches of many of Griffith's representations and warranties and for certain environmental liabilities. In 2009, the Company reserved \$2.6 million for environmental remediation costs it may be obligated to pay based on its indemnification obligations under the sale agreement. To date, Griffith has paid approximately \$0.2 million under its environmental remediation cost obligation. In the first quarter of 2011, Griffith reduced the reserve by \$0.6 million based on the completion of an environmental study. The reserve balance as of March 31, 2011 related to the divestiture is \$1.8 million. Management believes this is the most likely amount Griffith would pay with respect to its indemnification obligations under the sale agreement.

Table of Contents

CH-Auburn received a Notice of Violation of its air permit from the NYS DEC in 2010. CH-Auburn reached an agreement with the NYS DEC to resolve this issue and paid a civil penalty of approximately \$30,000 in the first quarter of 2011. During the time period in which the issue was being resolved, CH-Auburn was not running one of its three engine generators. The third engine generator is back in operation and CH-Auburn continues to meet its obligations under the Energy Services Agreement with the City of Auburn.

Other Matters

Central Hudson and Griffith are involved in various other legal and administrative proceedings incidental to their businesses, which are in various stages. While these matters collectively could involve substantial amounts, it is the opinion of Management that their ultimate resolution will not have a material adverse effect on either of CH Energy Group's or the individual segment's financial positions, results of operations or cash flows.

CH Energy Group and Central Hudson expense legal costs as incurred.

- 36 -

Table of Contents

NOTE 13 – Segments and Related Information

CH Energy Group's reportable operating segments are the regulated electric utility business and regulated natural gas utility business of Central Hudson and the unregulated fuel distribution business of Griffith. Other activities of CH Energy Group, which do not constitute a business segment include the investment, financing, and business development activities of CH Energy Group and the renewable energy and investment activities of CHEC, including its ownership interests in ethanol, wind, landfill gas and biomass energy projects and are reported under the heading "Other Businesses and Investments."

Certain additional information regarding these segments is set forth in the following tables. General corporate expenses and Central Hudson's property common to both electric and natural gas segments have been allocated in accordance with practices established for regulatory purposes.

Central Hudson's and Griffith's operations are seasonal in nature and weather-sensitive and, as a result, financial results for interim periods are not necessarily indicative of trends for a twelve-month period. Demand for electricity typically peaks during the summer, while demand for natural gas and heating oil typically peaks during the winter.

- 37 -

Table of Contents

In the following segment charts for CH Energy Group, information related to Griffith represents continuing operations unless otherwise noted.

NOTE 14 - Accounting for Derivative Instruments and Hedging Activities

Accounting for Derivatives

Central Hudson has been authorized to fully recover risk management costs as a component for its natural gas and electricity cost adjustment charge clauses. Risk management costs are defined by the PSC as "costs associated with transactions that are intended to reduce price volatility or reduce overall costs to customers. These costs include transaction costs, and gains and losses associated with risk management instruments." The related gains and losses associated with Central Hudson's derivatives are included as part of Central Hudson's commodity cost and/or price-reconciled in its natural gas and electricity cost adjustment charge clauses, and are not designated as hedges. Additionally, Central Hudson has been authorized to fully recover the interest costs associated with its variable rate debt, which includes costs and gains or losses associated with its interest rate cap contracts. As a result, derivative activity at Central Hudson does not impact earnings.

Derivative activity related to Griffith's heating oil contracts is not material.

Notwithstanding the above, the following information is provided in accordance with current accounting requirements.

The percentage of Central Hudson's electric and gas requirements hedged by derivative contracts is as follows:

	% of	
	Requirement	Ĺ
Central Hudson	Hedged (1)	
Electric Derivative Contracts:		
April 2011 – December 2011	22.1	%
2012	22.4	%
Natural Gas Derivative Contracts:		
November 2011 – March 2012	5.6	%
(1) Projected coverage as of March 31, 2011.

Derivative Risks

The basic types of risks associated with derivatives are market risk (that the value of the derivative will be adversely impacted by changes in the market, primarily the change in interest and exchange rates) and credit risk (that the counterparty will not perform according to the terms of the contract). The market risk of the derivatives generally offset the market risk associated with the hedged commodity.

The majority of Central Hudson and Griffith's derivative instruments contain provisions that require the company to maintain specified issuer credit ratings and financial strength ratings. Should the company's ratings fall below these specified levels, it would be in violation of the provisions, and the derivatives' counterparties could terminate the contracts and request immediate payment.

To help limit the credit exposure of their derivatives, both Central Hudson and Griffith have entered into master netting agreements with counterparties whereby contracts in a gain position can be offset against contracts in a loss position. Of the sixteen total agreements held by both companies, eleven contain credit-risk related contingent features. As of March 31, 2011, there were 14 open derivative contracts under these eleven master netting agreements containing credit-risk related contingent features. The circumstances that could trigger these features, the aggregate fair value of the derivative contracts that contain contingent features and the amount that would be required to settle these instruments on March 31, 2011 if the contingent features were triggered, are summarized in the table below.

			Cost to
	# of		Settle if
	Contracts		Contingent
	Containing		Feature is
	the	Gross Fair	Triggered
	Triggering	Value of	(net of
Triggering Event	Feature	Contract	collateral)
Central Hudson:			
Change in Ownership (CHEG ownership of CHG&E falls below 51%)	1	\$7	\$7
Credit Rating Downgrade (to below BBB-)	2	16	16
Adequate Assurance(1)	-	-	-
Total Central Hudson	3	23	23
Griffith:			
Change in Ownership (CHEG ownership of CHEC falls below 51%)	-	-	-
Adequate Assurance(1)	11	39	39
Total Griffith	11	39	39
Total CH Energy Group	14	\$62	\$62

⁽¹⁾ If the counterparty has reasonable grounds to believe Central Hudson's or Griffith's creditworthiness or performance has become unsatisfactory, it can request collateral in an amount determined by the counterparty, not to exceed the amount required to settle the contract.

CH Energy Group and Central Hudson have elected gross presentation for their derivative contracts under master netting agreements and collateral positions. On March 31, 2011, neither Central Hudson nor Griffith had collateral posted against the fair value amount of derivatives.

The fair value of CH Energy Group's and Central Hudson's derivative instruments and their location in the respective Balance Sheets are summarized in the table below, followed by a summarization of their effect on the respective Statements of Income. For additional information regarding Central Hudson's physical hedges, see the discussion following the caption "Electricity Purchase Commitments" in Note 12 - "Commitments and Contingencies."

Gross Fair Value of Derivative Instruments

Derivative contracts are measured at fair value on a recurring basis. As of March 31, 2011, December 31, 2010 and March 31, 2010, CH Energy Group's and Central Hudson's derivative assets and liabilities by category and hierarchy level follows (In Thousands):

		Quoted Prices in Active Markets for Identical Assets	Significant Other Observable Inputs	Significant Unobservable Inputs
Asset or Liability Category	Fair Value	(Level 1)	(Level 2)	(Level 3)
As of March 31, 2011				
Assets:				
Derivative Contracts:				
Central Hudson - natural gas	\$68	\$-	\$68	\$ -
Total Central Hudson Assets	\$68	\$-	\$68	\$ -
Griffith - heating oil	39	-	39	-
Total CH Energy Group Assets	\$107	\$-	\$107	\$ -
Liabilities:				
Derivative Contracts:				
Central Hudson - electric	\$(19,716)	\$-
