Independent Auditor's Report

The Shareholders

USCorp

(a Development Stage Company)

We have reviewed the accompanying consolidated balance sheets of USCorp as of December 31, 2004 and the related statements of operations, cash flows, and changes in stockholders' equity for the three months ended December 31, 2004 and 2003. These financial statements are the responsibility of management. Our responsibility is to express an opinion on these financial statements based on our review.

We conducted our review in accordance with reviewing standards generally accepted in the United States of America. Those standards require that we plan and perform the review to obtain reasonable assurance about whether the financial statements are free of material misstatement. A review includes examining, on a test basis, evidence supporting the amounts and disclosures in the financial statements. A review also includes assessing the accounting principles used and significant estimates made by the management, as well as evaluating the overall financial statement presentation. We believe that our review provides a reasonable basis for our opinion.

In our opinion, the financial statements referred to above present fairly, in all material respects, the financial position of USCorp as of the dates referred to above and the related consolidated statements of operations and consolidated statement of changes in shareholders' equity and cash flows for the period then ended then ended in conformity with generally accepted accounting principles generally accepted in the United States of America.

As more fully discussed in Note 2 to the consolidated financial statements, there are significant matters concerning the Company that raise substantial doubt as to the ability of the Company to continue as a going concern. Management's plans with regard to these matters are also described in Note 2 to the consolidated financial statements. The consolidated financial statements do not include any adjustments relating to the recoverability and classification of recorded assets or the amounts and classifications of recorded liabilities that might be necessary in the event that the Company cannot continue in existence.

USCorp.

(a Development Stage Company)

Unaudited Notes to the Financial Statements

For the Quarters Ended December 31, 2004 and December 31, 2003

1. Organization of the Company and Significant Accounting Principles

USCorp. (the Company) is a publicly held corporation formed in May 1989 in the state of Nevada as The Movie Greats Network, Inc. In August 1992, the Company changed its name to The Program Entertainment Group, Inc. and in August 1997 the Company changed its name to Santa Maria Resources, Inc. In September 2000 the Company changed its name to Fantasticon, Inc. and in January 2002 the Company changed its name to US Corp.

In April 2002 the Company acquired US Metals, Inc. (USMetals), a Nevada corporation, by issuing 24,200,000 shares of common stock. US Metals became a wholly owned subsidiary of the Company.

The Company, through its wholly owned subsidiary, USMetals, owns 141 Lode Mining Claims in the Eureka Mining District of Yavapai County, Arizona, called the Twin Peaks Mine; and through its wholly owned subsidiary Southwest Resource Development, Inc., owns 8 Lode and 21 Placer Claims in the Mesquite Mining District of Imperial County, California, which the Company refers to as the Chocolate Mountain Region Claims.

The Company has no business operations to date.

Use of Estimates- The preparation of the financial statements in conformity with generally accepted accounting principles requires management to make reasonable estimates and assumptions that affect the reported amounts of the assets and liabilities and disclosure of contingent assets and liabilities and the reported amounts of revenues and expenses at the date of the financial statements and for the period they include. Actual results may differ from these estimates.

Cash and interest bearing deposits- For the purpose of calculating changes in cash flows, cash includes all cash balances and highly liquid short-term investments with an original maturity of three months or less.

Long Lived Assets- The Company reviews for the impairment of long-lived assets whenever events or changes in circumstances indicate that the carrying amount of an asset may not be recoverable. An impairment loss would be recognized when estimated future cash flows expected to result from the use of the asset and its eventual disposition is less than its carrying amount.

Shareholder Loans Payable- The Company applies Emerging Issues Task Force (EITF) No. 98-5, *Accounting for Convertible Debt Issued with Beneficial Conversion Features*. EITF No.98-5 requires that a beneficial conversion feature be recognized upon the issuance of the debt with a favorable conversion feature, and the resultant debt discount be amortized to interest expense during the period from the date of issuance to the date the securities become convertible.

Property and Equipment- Property and equipment are stated at cost. Depreciation expense is computed using the straight-line method over the estimated useful life of the asset, which is estimated at three years.

Income taxes- The Company accounts for income taxes in accordance with the Statement of Accounting

Standards No. 109 (SFAS No. 109), "*Accounting for Income Taxes*". SFAS No. 109 requires an asset and liability approach to financial accounting and reporting for income taxes. Deferred income tax assets and liabilities are computed annually for differences between financial statement and income tax bases of assets and liabilities that will result in taxable income or deductible expenses in the future based on enacted tax laws and rates applicable to the periods in which the differences are expected to affect taxable income. Valuation allowances are established when necessary to reduce deferred tax assets and liabilities to the amount expected to be realized. Income tax expense is the tax payable or refundable for the period adjusted for the change during the period in deferred tax assets and liabilities.

Mineral Properties- The Company uses the successful efforts method of accounting for mineral properties. Costs incurred to acquire mineral interest in properties, to drill and equip exploratory sites within the claims groups are capitalized. Costs to conduct exploration and assay work that does not find proved reserves, geological and geophysical costs and costs of carrying and retaining unproved sites are expensed. Potential mineral properties are periodically assessed for impairment of value and a loss will be recognized at the time of impairment.

Revenue Recognition- Mineral sales will result from undivided interests held by the Company in mineral properties. Sales of minerals will be recognized when delivered to be picked up by the purchaser. Mineral sales from marketing activities will result from sales by the Company of minerals produced by the Company (or affiliated entities) and will be recognized when delivered to purchasers. Mining revenues generated from the Company's day rate contracts, included in mine services revenue, will be recognized as services are performed or delivered.

Development Stage Company- the Company has had no operations or revenues since its inception and therefore qualifies for treatment as a development stage company as per Statement of Financial Accounting Standards (SFAS) No. 7. As per SFAS No.7, financial transactions are accounted for as per generally accepted accounting principles. Costs incurred during the development stage are accumulated in losses accumulated during the development stage and are reported in the Stockholders' Equity section of the balance sheet.

2. Going Concern

The accompanying financial statements have been presented in accordance with generally accepted accounting principles, which assume the continuity of the Company as a going concern. However, the Company has incurred significant losses since its inception and has no business operations and continues to rely on the issuance of shares to raise capital to fund its business operations.

Management's plans with regard to this matter are as follows:

-

Raise capital to complete the company's mining plan of operations.

-

Complete exploration and drilling on claims of the Twin Peaks Mine and Chocolate Mountain Region Claims.

-

Complete testing operations on all properties.

-

Complete reports and feasibility studies on the Twin Peaks Mine and Chocolate Mountain Region Claims.

-

Bring the Twin Peaks Mine and Chocolate Mountain Region Claims to full-scale commercial mining.

-

Obtain a credit facility based in part on the value of its proven reserves when necessary and if appropriate given market conditions.

3. Net Loss per Share

The Company applies SFAS No. 128, *Earnings per Share* to calculate loss per share. In accordance with SFAS No. 128, basic net loss per share has been computed based on the weighted average of common shares outstanding during the years. Fully diluted loss per share includes the dilutive effects of outstanding common stock equivalents. There were shareholder notes convertible into 100,000 shares of common stock outstanding during fiscal 2004 that expired on September 30, 2004. The effect of the outstanding convertible debt is not included in the calculation for net loss per share because their inclusion would be anti-dilutive.

4. Related Party Transactions

The Company is provided office space by the chief executive officer and majority shareholder at no cost to the Company.

In September 2003, the Company issued convertible debt at no interest to shareholders in the Company and received proceeds of \$40,000. The debt matured in September 2004 and entitled the shareholders to convert the debt into 100,000 shares of common stock at an exercise price of \$0.40 per share. The Company recorded a beneficial conversion feature of \$3,767 as a result of the transaction and amortized the beneficial conversion feature to interest expense during fiscal year 2004. In addition, the Company imputed interest on the shareholder advance of 10% and recorded the interest expense in the statement of operations.

5. Property and Equipment

A summary of equipment is as follows:

	12/31/2004	9/30/2004
Office equipment	3,000	3,000
Accumulated depreciation	(835)	(583)

Net property & equipment	\$2,165	\$2,417
--------------------------	---------	---------

6. Income Tax Provision

Provision for income taxes is comprised of the following:

	12/31/2004	12/31/2003
Net loss before provision for income taxes	(\$56,312)	(\$42,909)
Current tax expense:		
Federal	\$0	\$0
State	0	0
Total	\$0	\$0
Less deferred tax benefit:		
Timing differences	(1,505,309)	(1,148,561)
Allowance for recoverability	1,505,309	1,148,561
Provision for income taxes	\$0	\$0

A reconciliation of provision for income taxes at the statutory rate to provision for income taxes at the Company's effective tax rate:is as follows

Statutory U.S. federal rate	34%	34%
Statutory state and local income tax	10%	10%
Less allowance for tax recoverability	-44%	-44%
Effective rate	0%	0%

Deferred income taxes are comprised of the following:

Timing differences	\$1,505,309	\$1,148,561
Allowance for recoverability	(1,505,309)	(1,148,561)
Deferred tax benefit	\$0	\$0

Note: The deferred tax benefits arising from the timing differences begin to expire in fiscal year 2010 and may not be recoverable upon the purchase of the Company under current IRS statutes.

ITEM 2. MANAGEMENT'S DISCUSSION AND ANALYSIS OF FINANCIAL CONDITION AND RESULTS OF OPERATIONS

You should read the following discussion and analysis in conjunction with the Consolidated Financial Statements and Notes thereto, and the other financial data appearing elsewhere in this Report.

The information set forth in Management's Discussion and Analysis of Financial Condition and Results of Operations ("MD&A") contains certain "forward-looking statements" within the meaning of Section 27A of the Securities Act of 1933, as amended, Section 21E of the Securities Exchange Act of 1934, as amended, and the Private Securities Litigation Reform Act of 1995, including, among others (i) expected changes in the Company's revenues and profitability, (ii) prospective business opportunities and (iii) the Company's strategy for financing its business. Forward-looking statements are statements other than historical information or statements of current condition. Some forward-looking statements may be identified by use of terms such as "believes", "anticipates", "intends" or "expects". These forward-looking statements relate to the plans, objectives and expectations of the Company for future operations. Although the Company believes that its expectations with respect to the forward-looking statements are based upon reasonable assumptions within the bounds of its knowledge of its business and operations, in light of the risks and uncertainties inherent in all future projections, the inclusion of forward-looking statements in this report should not be regarded as a representation by the Company or any other person that the objectives or plans of the Company will be achieved.

The Company's revenues and results of operations could differ materially from those projected in the forward-looking statements as a result of numerous factors, including, but not limited to, the following: (i) changes in external competitive market factors, (ii) termination of certain operating agreements or inability to enter into additional operating agreements, (iii) inability to satisfy anticipated working capital or other cash requirements, (iv) changes in or developments under domestic or foreign laws, regulations, governmental requirements or in the mining industry, (v) changes in the Company's business strategy or an inability to execute its strategy due to unanticipated changes in the market, (vi) various competitive factors that may prevent the Company from competing successfully in the marketplace, and (ix) the Company's lack of liquidity and its ability to raise additional capital. In light of these risks and uncertainties, there can be no assurance that actual results, performance or achievements of the Company will not differ materially from any future results, performance or achievements expressed or implied by such forward-looking statements. The foregoing review of important factors should not be construed as exhaustive. The Company undertakes no obligation to release publicly the results of any future revisions it may make to forward-looking statements to reflect events or circumstances after the date hereof or to reflect the occurrence of unanticipated events.

The Company is a "development stage" company. During period ended December 31, 2004, the Company's operations centered on the development of USMetals' mining property known as the Twin Peaks Mine and Southwest's mining property known as the Chocolate Mountain Region claims. During the period year, the Company did not engage in any commercially viable operations and realized no revenues from operations. The annual operating costs incurred to

date were primarily for the continued development of the Company's mining properties, development and maintenance of the Company's website, legal and accounting costs in conjunction with the Company's general and administrative expenses in anticipation of completing exploration and development of USMetals' and Southwest's mining properties. The annual lease payment for the 170 claims owned by the Registrant is \$125 per claim effective September 1, 2004.

Significant Accounting Policies and Estimates

Management's Discussion and Analysis of Financial Condition and Results of Operations discusses the Company's consolidated financial statements, which have been prepared in accordance with generally accepted accounting principles. The preparation of these financial statements requires management to make estimates and assumptions that affect the reported amounts of assets and liabilities at the date of the financial statements and the reported amounts of revenues and expenses during the reporting period. On an on-going basis, management evaluates its estimates and judgments, including those related to reserves and intangible assets. Management bases its estimates and judgments on historical experiences and on various other factors that are believed to be reasonable under the circumstances, the results of which form the basis for making judgments about the carrying value of assets and liabilities that are not readily apparent from other sources. Actual results may differ from these estimates under different assumptions or conditions. The most significant accounting estimates inherent in the preparation of the Company's financial statements include estimates as to the appropriate carrying value of certain assets which are not readily apparent from other sources, primarily allowance for the cost of the Mineral Properties based on the successful efforts method of accounting. These accounting policies are described at relevant sections in this discussion and analysis and in the notes to the consolidated financial statements included in our Annual Report on Form 10-KSB for the fiscal year ended September 30, 2003.

OVERVIEW

On April 2, 2002, the Company acquired USMetals, Inc. ("USMetals") for 24,200,000 shares of its common stock in a share-for-share exchange whereby USMetals became a wholly owned subsidiary of USCorp. The fair value of the property owned by USMetals is based upon the values that were estimated by field personnel. The estimated fair market values of the assets acquired and liabilities assumed* in the acquisition of USMetals are as follows:

Estimated fair value of assets acquired:

Property		\$19,600
Mine Development under prior owners		
and contractors		
	Hayes Mining, Phillips Mining	400,000
	American Metals and Minerals	297,758
	Santa Maria Resources	600,000
	International Energy and Resources	<u>818,000</u>
	Total fair value of assets	2,435,358
*Liabilities assumed:		
	Annual Lease Payment 2002	<u>14,100</u>
	Estimated fair value of acquisition	\$2,449,466

Complete details of the transaction were disclosed in a Current Report on Form 8-K dated April 2, 2002.

All of the Company's mining business operations are conducted at this time through its subsidiaries, USMetals, Inc. and Southwest Resource Development, Inc.

As a result of the USMetals acquisition, Registrant owns 141 unpatented contiguous mining claims totaling approximately 2,820 acres in Township 13, Yavapai County, Arizona. These claims have a history of mining activity from the middle of the 19th century to the beginning of World War II. Gold, silver, copper and other minerals were recovered in important quantities. The previous owners started acquisition of this claim group in the early 1940's and by the mid-1980's the claims group totaled 134 claims. Exploration, drilling and assessment work was done and several geological reports were completed indicating the presence of economically viable deposits of precious metals and complex ores.

Chocolate Mountain Region Claims Acquisition

On June 15, 2004 the Company filed a Form 8-K with the Securities and Exchange Commission reporting that on May 29, 2004, the Company concluded the acquisition of an aggregate of 29 additional gold mining claims located in Imperial County, California from two individuals. In lieu of cash payment for the claims the Company entered into what is essentially a joint venture with the former owners whereby the Company is obligated to commence production on these claims within two years with the former owners entitled to receive 20% of all net smelter returns of gold, whether paid in cash or in kind.

Under the terms of the acquisition, the Company granted each of the two sellers an option to acquire 50,000 shares of the Company's common stock at the then current market price at any time within a two year period. The agreements further provide that the Company's obligation to commence gold production within two years would be terminated in the event that the foregoing stock options were exercised. Further, in the event that the Company subsequently sells the claims within two years of the acquisition date, then the sellers will be entitled to receive 20% of the net proceeds of such sale.

On June 15, 2004, we issued a press release regarding these acquisitions.

MANAGEMENT'S DEVELOPMENT PLANS

In order to improve operations and liquidity and meet its cash flow needs, the company has or intends to do the following:

- Secure additional equity financing needed to accomplish Corporate goals from private sources and institutional funds, nationally and internationally;
- Complete acquisitions of other potential producing properties in the region surrounding the Twin Peaks Mine and in other areas of California and Nevada;
- Establish a corporate office in Arizona, a field office on or near the Twin Peaks Mine site and an office centrally located near the financial markets of Southern California;
- Development of the Twin Peaks Mine and the Chocolate Mountain Region Claims by implementing a comprehensive exploration program of the entire group of 170 claims;
- Complete Twin Peaks Mine and Chocolate Mountain Region Claims ore testing program in order to determine the best mining methods and recovery rates;
- Retain an environmental consulting firm to design a post-production reclamation program;
- Complete bankable feasibility studies meeting SEC standards for placing the true reserve value of existing claims on the financial statements; and
- Complete, file and secure approval of major Mining Plans of Operations with the U.S. Bureau of Land Management (BLM).

As a result of these plans, management believes that it will generate sufficient cash flows to meet its obligations in 2005.

Discussion of Financial Condition.

As of December 31, 2004 the Company had total assets of \$2,472,502 with total liabilities of \$193,669 (compared with \$2,475,953 and \$40,000 respectively for December 31, 2003). The company has incurred a net loss of approximately \$57,210 for the three months ended December 31, 2004 (compared to \$403,896 net loss at December 31, 2003).

Registrant will require significant additional funds in order to complete exploration and development of the Twin Peaks Mine. The Company has made plans to undertake a private placement of its securities in order to raise the needed funding. Based upon available cash on hand, management is of the opinion that, without additional financing, the Company will have adequate funds available to meet its cash needs for the next three (3) months. Thereafter, it will need to secure additional funds in order to continue its operations.

ITEM 3. CONTROLS AND PROCEDURES

Under the supervision and with the participation of the Company's management, including the Chief Executive Officer and Chief Financial Officer, the Company has evaluated the effectiveness of the design and operation of its disclosure controls and procedures (as defined in Rule 13a-15(e) and 15d-15(e) under the Exchange Act) as of the end of the period covered by this quarterly report. Based upon that evaluation, the Chief Executive Officer and Chief Financial Officer concluded that, as of the end of the period covered by this quarterly report, the Company's disclosure controls and procedures are effective to ensure that information required to be disclosed in the reports that the Company files or submits under the Securities Exchange Act of 1934 is recorded, processed, summarized and reported, within the time periods specified in the Securities and Exchange Commission's rules and forms.

There has been no change in the Company's internal control over financial reporting during the most recent fiscal quarter that has materially affected, or is reasonably likely to materially affect, the Company's internal control over financial reporting.

PART II - OTHER INFORMATION

ITEM 6. EXHIBITS
