Note 4 – EQUITY

During the Quarter ended: June 30, 2013:

No equity transactions occurred in the period ended June 30, 2013.

Note 5 – GOING CONCERN

The Company generated minimal revenues prior to the current fiscal year. No revenues were generated for the three month period ended June 30, 2013. This level of revenues is not sufficient for the Company to meet its future obligations. This factor raises substantial doubt about the Company's ability to continue as a going concern.

The Company is in the midst of the Dutro litigation and other litigation. The litigation has hindered the operation of the Company and have set back the ability to raise capital and develop ongoing business. The Company is in the process of restructuring the business in order to continue forward as a going concern. It is expected that the restructuring will be completed after the current litigation is completed. After the restructuring is completed, revenues are not expected to be generated at the earliest by the end of the year ended March 31, 2014.

Note 6 - INCOME TAX

Income taxes are accounted for using the asset and liability method. Deferred taxes are provided on a liability method whereby deferred tax assets are recognized for deductible temporary differences and operating loss and tax credit carryforwards and deferred tax liabilities are recognized for taxable temporary differences. Temporary differences are the differences between the reported amounts of assets and liabilities and their tax bases. Deferred tax assets are reduced by a valuation allowance when, in the opinion of management, it is more likely than not that some portion or all of the deferred tax assets will not be realized. Deferred tax assets and liabilities are adjusted for the effects of changes in tax laws and rates on the date of enactment.

The Company's financial statements for the three month period ended June 30, 2013 and 2012 do not include any provision for income taxes. No income tax accrual has been recorded based on the expectation that the Company will be in a net loss position for the overall applicable fiscal year. Accordingly, deferred tax assets have been entirely offset by valuation allowances. The difference between the amounts of income tax benefit that would result from applying domestic federal statutory income tax rates to the net loss and the net deferred tax assets is related to certain nondeductible expenses, state income taxes, and the change in the valuation allowance.

The Financial Accounting Standards Board ("FASB") has issued ASC 740 for Accounting for Income Taxes that clarifies the accounting for uncertainty in income taxes recognized in an enterprise's financial statements. ASC 740 requires a company to determine whether it is more likely than not that a tax position will be sustained upon examination based upon the technical merits of the position. If the more-likely-than-not threshold is met, a company must measure the tax position to determine the amount to recognize in the financial statements. As a result of the implementation of ASC 740, the Company performed a review of its material tax positions in accordance with recognition and measurement standards established by ASC 740.

The Company had no unrecognized tax benefit which would affect the effective tax rate if recognized.

The Company includes interest and penalties arising from the underpayment of income taxes in the consolidated statements of operations in the provision for income taxes. As of June 30, 2013 the Company had no accrued interest or penalties related to uncertain tax positions.

The Company files income tax returns in the U.S. federal jurisdiction and in the states of Delaware, Utah and any other jurisdiction where required. With few exceptions, the Company is no longer subject to U.S. federal, state and local, or non-U.S. income tax examinations by tax authorities for years before 2010.

Note 7 – SUBSEQUENT EVENTS

The Company has evaluated subsequent events per the requirements of ASC Topic 855 and has determined that the following events should be disclosed.

- 1) Litigation involving various parties continues and is expected to continue for the foreseeable future. The impact of the issues surrounding the litigation impact the Company's ability to obtain funding needed to operate the Company according to their strategic plans.

Item 2. Management's Discussion And Analysis Or Plan Of Operation

This report contains forward-looking statements within the meaning of Section 29a of the Securities Act of 1933, as amended, and Section 21e of the Securities Exchange Act of 1934, as amended. These forward-looking statements are subject to numerous risks and uncertainties that could cause actual results to differ materially from historical or anticipated results. You should not place undue reliance on such forward-looking statements, and, when considering such forward-looking statements, you should keep in mind the risk factors noted in this report, including the section of this report entitled "Risks Related to Our Business and Operations." You should also keep in mind that all forward-looking statements are based on management's existing beliefs about present and future events outside of management's control and on assumptions that may prove to be incorrect. The following discussion and analysis should be read in conjunction with the Company's financial statements and notes thereto, which are included elsewhere in this report.

Overview

Sector 10 has developed and seeks to market pre-deployed emergency and disaster response equipment with the world's first patented Stationary Response Units (SRU) and Mobile Response Units (MRU). Sector 10 has patents issued in the United States and patent applications pending with U.S. and international agencies. Sector 10's initial SRU and MRU design has been developed, produced, nationally test marketed and sold.

The Company's cash balance is insufficient to satisfy the Company's cash requirements for the next 12 months. Due to issues surrounding Dutro Group and other pending litigation, the ability to deliver products to customers has been delayed. Litigation involving various parties continues and is expected to continue for the foreseeable future. The impact of the issues surrounding the litigation impact the Company's ability to obtain funding needed to operate the Company according to their strategic plans.

Going Concern Qualification

Our notes to the financial statements disclose that the cash flow of the Company has been absorbed in operating activities, has incurred net losses for the fiscal year and has a working capital deficiency. Due to the pending litigation and the current restructuring, the Company operations are not likely to produce positive cash flow until at least the end of the fiscal year ended March 31, 2014. These factors raise substantial doubt about our ability to continue as a going concern. Our going concern uncertainty may affect our ability to raise additional capital, and may also affect our relationships with suppliers and customers. Investors should carefully examine our financial statements and read the notes to the financial statements.

PART II - OTHER INFORMATION

Item 1. Legal Proceedings

The Company is aware of the following situation regarding litigation, pending or threatened, to which it is a party.

Dutro Group, Dutro Company & Reality Engineering

The Dutro Group consists of Dutro Company, Reality Engineering, William Dutro, Vicki Davis and Lee Allen and other parties. The litigation is ongoing and is expected to continue until at least during the fiscal year ended March 31, 2014. The Company has filed a claim against the Dutro Group to seek relief for the damages incurred by Dutro Group actions. The Company believes that sufficient reserves are included in the financial statements for exposures for the issues represented in these actions.

Edward Johnson

The Company is past due on the unpaid balance of a note payable plus accrued interest to Edward Johnson. The note collection and other issues are pending in current litigation. The litigation is not expected to be resolved until at least during the fiscal year ended March 31, 2014. A court date tentatively has been established in November 2013. The Company has never disputed that an amount is due Johnson. However a counterclaim has been filed against Johnson for damages in excess of \$1 Million. The Judge has ruled that although a debt is owed Johnson, it is pending the resolution to the multi-million dollar counterclaim which is expected to be resolved by the court date. The Company believes that sufficient reserves are included in the financial statements for exposures for this case
