(1) On January 18, 2005, Home Federal Savings and Loan Association (the Association) completed its reorganization into the mutual holding company form of organization and formed Home Federal Bancorp, Inc. of Louisiana (the Company) to serve as the stock holding company for the Association. In connection with the reorganization, the Company sold 1,423,583 shares of its common stock in a subscription and community offering at a price of \$10.00 per share. The financial statements set forth herein reflect the financial condition and operations of the Association prior to the completion of the reorganization. As of December 31, 2004, the Company had not issued any stock, had no assets or liabilities, and had not conducted any business other than that of an organizational nature. For a further discussion of the Company's formation and operations, see the Company's Registration Statement on Form SB-2, as amended, and declared effective on November 12, 2004 (File Number 333-119026). Based upon the foregoing, the unaudited interim financial statements filed as a part of this quarterly report are those of the Association.

**HOME FEDERAL SAVINGS AND LOAN ASSOCIATION AND SUBSIDIARY  
NOTES TO CONSOLIDATED FINANCIAL STATEMENTS**

**1. SUMMARY OF ACCOUNTING POLICIES**

**Basis of Presentation**

The accompanying unaudited financial statements were prepared in accordance with instructions for Form 10-QSB and Regulation S-X and do not include information or footnotes necessary for a complete presentation of financial condition, results of operations, and cash flows in conformity with generally accepted accounting principles. However, in the opinion of management, all adjustments (consisting of normal recurring adjustments) necessary for a fair presentation of the financial statements have been included. The results of operations for the six month period ended December 31, 2004, is not necessarily indicative of the results which may be expected for the entire fiscal year.

**Use of Estimates**

In preparing consolidated financial statements in conformity with accounting principles generally accepted in the United States of America, management is required to make estimates and assumptions that affect the reported amounts of assets and liabilities as of the date of the Consolidated Statements of Financial Condition and reported amounts of revenues and expenses during the reporting period. Actual results could differ from those estimates. Material estimates that are particularly susceptible to significant change in the near term relate to the allowance for loan losses.

**Nature of Operations**

On January 18, 2005, Home Federal Savings and Loan Association (the Association), completed its reorganization to the mutual holding company form of organization and formed Home Federal Bancorp, Inc. of Louisiana (the Company) to serve as the stock holding company for the Association. As of December 31, 2004, the Company had not issued any stock, had no assets or liabilities, and had not conducted any business other than that of an organizational nature. The Association is a federally chartered, stock savings and loan association and is subject to federal regulation by the Federal Deposit Insurance Corporation and the Office of Thrift Supervision. Services are provided to its customers by three offices, all of which are located in the City of Shreveport, Louisiana. The area served by the Association is primarily the Shreveport-Bossier City metropolitan area; however, loan and deposit customers are found dispersed in a wider geographical area covering much of northwest Louisiana.

**Cash and Cash Equivalents**

For purposes of the Consolidated Statements of Cash Flows, cash and cash equivalents include cash on hand, balances due from banks, and federal funds sold, all of which mature within ninety days.

**Securities**

The Association classifies its debt and equity investment securities into one of three categories: held-to-maturity, available-for-sale, or trading. Investments in nonmarketable equity securities and debt securities, in which the Association has the positive intent and ability to hold to maturity, are classified as held-to-maturity and carried at amortized cost. Investments in debt securities that are not classified as held-to-maturity and marketable equity securities that have readily determinable fair values are classified as either trading or available-for-sale securities. Securities that are acquired and held principally for the

**HOME FEDERAL SAVINGS AND LOAN ASSOCIATION AND SUBSIDIARY  
NOTES TO CONSOLIDATED FINANCIAL STATEMENTS (Continued)**

purpose of selling in the near term are classified as trading securities. Investments in securities not classified as trading or held-to-maturity are classified as available-for-sale.

Trading account and available-for-sale securities are carried at fair value. Unrealized holding gains and losses on trading securities are included in earnings while net unrealized holding gains and losses on available-for-sale securities are excluded from earnings and reported in other comprehensive income. Purchase premiums and discounts are recognized in interest income using the interest method over the term of the securities. Declines in the fair value of held-to-maturity and available-for-sale securities below their cost that are deemed to be other than temporary are reflected in earnings as realized losses. In estimating other-than-temporary impairment losses, management considers (1) the length of time and the extent to which the fair value has been less than cost, (2) the financial condition and near-term prospects of the issuer, and (3) the intent and ability of the Association to retain its investment in the issuer for a period of time sufficient to allow for any anticipated recovery in fair value. Gains and losses on the sale of securities are recorded on the trade date and are determined using the specific identification method.

**Loans Held For Sale**

Loans originated and intended for sale in the secondary market are carried at the lower of cost or estimated fair value in the aggregate. Net unrealized losses, if any, are recognized through a valuation allowance by charges to income.

**Loans**

Loans receivable are stated at unpaid principal balances, less allowances for loan losses and unamortized deferred loan fees. Net nonrefundable fees (loan origination fees, commitment fees, discount points) and costs associated with lending activities are being deferred and subsequently amortized into income as an adjustment of yield on the related interest earning assets using the interest method. Interest income on contractual loans receivable is recognized on the accrual method. Unearned discount on property improvement and automobile loans is deferred and amortized on the interest method over the life of the loan.

**Allowance For Loan Losses**

The allowance for loan losses is established as losses are estimated to have occurred through a provision for loan losses charged to earnings. Loan losses are charged against the allowance when management believes the uncollectibility of a loan balance is confirmed. Subsequent recoveries, if any, are credited to the allowance.

The allowance for loan losses is evaluated on a regular basis by management and is based upon management's periodic review of the collectibility of the loans in light of historical experience, the nature and volume of the loan portfolio, adverse situations that may affect the borrower's ability to repay, estimated value of the underlying collateral and prevailing economic conditions. The evaluation is inherently subjective as it requires estimates that are susceptible to significant revision as more information becomes available.

A loan is considered impaired when, based on current information or events, it is probable that the Association will be unable to collect the scheduled payments of principal and interest when due according to the contractual terms of the loan agreement. When a loan is impaired, the measurement of such

**HOME FEDERAL SAVINGS AND LOAN ASSOCIATION AND SUBSIDIARY  
NOTES TO CONSOLIDATED FINANCIAL STATEMENTS (Continued)**

impairment is based upon the fair value of the collateral of the loan. If the fair value of the collateral is less than the recorded investment in the loan, the Association will recognize the impairment by creating a valuation allowance with a corresponding charge against earnings.

An allowance is also established for uncollectible interest on loans classified as substandard. Substandard loans are those, which are in excess of ninety days delinquent. The allowance is established by a charge to interest income equal to all interest previously accrued and income is subsequently recognized only to the extent that cash payments are received. When, in management's judgment, the borrower's ability to make period interest and principal payments is back to normal, the loan is returned to accrual status.

**Off-Balance Sheet Credit Related Financial Instruments**

In the ordinary course of business, the Association has entered into commitments to extend credit. Such financial instruments are recorded when they are funded.

**Premises and Equipment**

Land is carried at cost. Buildings and equipment are carried at cost less accumulated depreciation computed on the straight-line method over the estimated useful lives of the assets.

**Income Taxes**

Deferred income tax assets and liabilities are determined using the liability (or balance sheet) method. Under this method, the net deferred tax asset or liability is determined based on the tax effects of the temporary differences between the book and tax bases of the various assets and liabilities and gives current recognition to changes in tax rates and laws.

**Comprehensive Income**

Accounting principles generally require that recognized revenue, expenses, gains and losses be included in net income. Although certain changes in assets and liabilities, such as unrealized gains and losses on available-for-sale securities, are reported as a separate component of the equity section of the Consolidated Statements of Financial Condition, such items, along with net income, are components of comprehensive income.

**2. NET INCOME PER COMMON SHARE**

Basic and diluted net income per common share is not calculated since the Association was in the process of reorganizing to stock form at December 31, 2004.

**3. CONVERSION TO STOCK FORM OF OWNERSHIP**

On April 14, 2004, the Board of Directors unanimously adopted the Plan of Reorganization and the Plan of Stock Issuance (together, the Plan). Pursuant to the Plan, on January 18, 2005, the Association converted to a stock savings and loan association as the successor to the Association in its mutual form and organized Home Federal Bancorp, Inc. of Louisiana (the Company) as a federally-chartered corporation that owns 100% of the common stock of the Association. The Association organized Home Federal Mutual Holding Company of Louisiana (the Mutual Holding Company) as a federally-chartered mutual

**HOME FEDERAL SAVINGS AND LOAN ASSOCIATION AND SUBSIDIARY  
NOTES TO CONSOLIDATED FINANCIAL STATEMENTS (Continued)**

holding company that acquired 60% of the Common Stock of the Company. The Company sold 1,423,583 shares of Common Stock in a subscription and community offering.

All depositors who had liquidation and other rights with respect to the Association as of the effective date of the reorganization continue to have such rights solely with respect to the Mutual Holding Company so long as they continue to hold deposit accounts with the Association. In addition, all persons who become depositors of the Association subsequent to the reorganization will have such liquidation and other rights with respect to the Mutual Holding Company.

The shares of common stock sold in the public offering represent a minority ownership of the estimated pro forma market value of the Association as determined by an independent appraisal. The Mutual Holding Company is the majority owner of the Stock Holding Company. Cost incurred in connection with the offering will be recorded as a reduction of the proceeds from the offering. As of December 31, 2004, costs in the amount of approximately \$323,000 were incurred in connection with the offering.

## ITEM 2 MANAGEMENT'S DISCUSSION AND ANALYSIS OR PLAN OF OPERATION

### General

The Company was formed by the Association in connection with the Association's reorganization and had not yet commenced operations as of December 31, 2004. The Company's results of operations initially will be primarily dependent on the results of the Association, which became a wholly owned subsidiary upon completion of the reorganization. The Association's results of operations depend, to a large extent, on net interest income, which is the difference between the income earned on its loan and investment portfolios and the cost of funds, consisting of the interest paid on deposits and borrowings. Results of operations are also affected by provisions for loan losses and loan sale activities. Non-interest expense principally consists of compensation and employee benefits, office occupancy and equipment expense, data processing and other expense. Our results of operations are also significantly affected by general economic and competitive conditions, particularly changes in interest rates, government policies and actions of regulatory authorities. Future changes in applicable law, regulations or government policies may materially impact our financial conditions and results of operations.

### Critical Accounting Policies

Home Federal Savings and Loan Association has identified the calculation of the allowance for loan losses as a critical accounting policy, due to the higher degree of judgment and complexity than its other significant accounting policies. Provisions for loan losses will continue to be based upon management's periodic valuation and assessment of the overall loan portfolio and the underlying collateral, trends in non-performing loans, current economic conditions and other relevant factors in order to maintain the allowance for loan losses at a level believed by management to be sufficient to absorb estimated, probable losses. Although management uses the best information available, the level of the allowance for loan losses remains an estimate which is subject to significant judgment and short-term change.

### *Discussion of Financial Condition Changes from June 30, 2004 to December 31, 2004*

At December 31, 2004, total assets amounted to \$109.8 million compared to \$95.7 million at June 30, 2004, an increase of \$14.1 million or 14.8%. This increase was primarily due to an increase in cash and cash equivalents primarily as a result of funds received for subscription orders in the Association's recently completed subscription and community offering conducted in connection with the Association's mutual holding company reorganization. Securities available for sale increased \$3.3 million or 5.1% due to purchases of securities during the first quarter ended September 30, 2004. Loans receivable, net decreased \$479,000 or 2.1% primarily due to loan payments. Home Federal Savings and Loan has continued to invest funds from operations primarily in marketable securities rather than long-term, fixed rate loans as part of its interest-rate risk strategy during this period of historically low interest rates. Securities held-to-maturity decreased \$751,000, or 30% for the six months ended December 31, 2004 compared to securities held-to-maturity at June 30, 2004 primarily due to maturities and principal payments.

The Association's total liabilities amounted to \$90.7 million at December 31, 2004, an increase of \$12.4 million, or 15.8%, compared to total liabilities at June 30, 2004. The primary reason for the increase in liabilities was \$12.9 million of stock subscription funds held in escrow by the Association at December 31, 2004, partially offset by a decrease in FHLB advances during the same time period of \$1.3 million or 12.8%. Deposits increased \$937,000 or 1.4% to \$69.1 million at December 31, 2004 compared to June 30, 2004, due to normal deposits inflow. The decrease in FHLB advances was due to repayments of maturing advances.

Equity increased \$1.8 million or 10.6% to \$19.1 million at December 31, 2004 compared to \$17.3 million at June 30, 2004. This increase was primarily due to a change in accumulated other comprehensive loss from a loss of \$1.7 million at June 30, 2004 to a loss of \$106,000 at December 31, 2004, as a result of an

**MANAGEMENT'S DISCUSSION AND ANALYSIS OR PLAN OF OPERATION (Continued)**

increase in the market value of securities available for sale at December 31, 2004 compared to June 30, 2004. The increase in equity was also due to continued profitable operations during the six months ended December 31, 2004 of \$267,000.

The Association is required to meet minimum capital standards promulgated by the Office of Thrift Supervision (OTS). At December 31, 2004, Home Federal Savings and Loan's regulatory capital was well in excess of the minimum capital requirements.

***Comparison of Operating Results for the three and six Month Periods Ended December 31, 2004 and 2003***

*General*

Net income amounted to \$129,000 for the three months ended December 31, 2004 compared to \$242,000 for the same period in 2003, a decrease of \$113,000 or 46.6%. For the six months ended December 31, 2004, the Association's net income was \$267,000, a \$200,000, or 42.8% decrease from \$467,000 for the six months ended December 31, 2003. The decreases during the respective periods were primarily due to decreases in net interest income and non-interest income, partially offset by decreases in non-interest expense and income taxes.

*Net Interest Income*

Net interest income decreased \$54,000 and \$208,000 for the three and six months, respectively, ended December 31, 2004 over the prior year periods primarily due to continued margin compression. Home Federal Savings and Loan's average interest rate spread was 2.34% and 2.41%, respectively, for the three and six months ended December 31, 2004 compared to 2.62% and 2.75%, respectively, for the same periods in 2003. The Association's net interest margin was 2.89% and 2.90%, respectively, for the three and six months ended December 31, 2004, compared to 3.12% and 3.27%, respectively for the 2003 periods. This margin compression was due in large part to Home Federal Savings and Loan's interest rate risk strategy of investing in marketable securities rather than long-term, fixed rate loans. While management believes that purchasing available for sale securities rather than investing in long-term, fixed rate loans is a better interest rate risk strategy during this period of historically low interest rates, these investment securities generally yield less than loans, resulting in lower net interest income.

*Provision for Losses on Loans*

As a result of an analysis of historical experience, the volume and type of lending conducted by Home Federal, the status of past due principal and interest payments, general economic conditions, particularly as such conditions relate to Home Federal's market area, the decrease in the loan portfolio and other factors related to the collectibility of Home Federal's loan portfolio, no provisions were made during the three and six months ended December 31, 2004 or 2003. The Association's allowance for loan losses was \$235,000, or 1.04% of total loans, at December 31, 2004 compared to \$235,000, or 0.85% of total loans at December 31, 2003. Home Federal did not have any non-performing loans at December 31, 2004 or 2003. There can be no assurance that the loan loss allowance will be sufficient to cover losses on nonperforming assets in the future.

*Non-interest Income*

Total non-interest income amounted to \$12,000 for the three months ended December 31, 2004 compared to \$103,000 for the same period in 2003. The decrease was primarily due to a \$90,000 decrease in gain on sale of investment securities due to a decrease in sales activity during the three-month period ended December 31, 2004. Total non-interest income decreased \$126,000 for the six months ended

**MANAGEMENT'S DISCUSSION AND ANALYSIS OR PLAN OF OPERATION (Continued)**

December 31, 2004 compared to the prior year period. The decrease was primarily due to a decrease in gain on sale of securities, as well as a decrease in gain on sale of loans as a result of a decrease in the volume of loans sold.

*Non-interest Expense*

Total non-interest expense increased \$23,000 or 4.6% for the three months ended December 31, 2004 compared to the prior year period. The increase was primarily due to an increase of \$59,000 in other expense, consisting primarily of advertising expenses and audit fees, which was partially offset by decreases in compensation and benefits expense of \$30,000 due to decreased staffing levels and an \$11,000 decrease in data processing expense. Total non-interest expense decreased \$38,000 or 3.7% for the six months ended December 31, 2004 compared to the prior year period. The decrease was primarily related to a \$75,000 decrease in compensation and benefits expense and a \$27,000 decrease in data processing expense, which were partially offset by a \$61,000 increase in other expense, consisting primarily of advertising expenses and audit fees.

*Income Taxes*

Income taxes amounted to \$66,000 and \$121,000 for the three months ended December 31, 2004 and 2003, respectively, resulting in effective tax rates of 33.9% and 33.4%, respectively. Income taxes amounted to \$137,000 and \$233,000 for the six months ended December 31, 2004 and 2003, respectively, resulting in effective tax rates of 33.9% and 33.3%, respectively. The decrease in income taxes for the three and six months ended December 31, 2004 was due to decreased income before income taxes.

*Liquidity and Capital Resources*

Home Federal Savings and Loan maintains levels of liquid assets deemed adequate by management. The Association adjusts its liquidity levels to fund deposit outflows, repay its borrowings and to fund loan commitments. Home Federal Savings and Loan also adjusts liquidity as appropriate to meet asset and liability management objectives.

Home Federal Savings and Loan's primary sources of funds are deposits, amortization and prepayment of loans and mortgage-backed securities, maturities of investment securities and other short-term investments, loan sales and earnings and funds provided from operations. While scheduled principal repayments on loans and mortgage-backed securities are a relatively predictable source of funds, deposit flows and loan prepayments are greatly influenced by general interest rates, economic conditions and competition. The Association sets the interest rates on its deposits to maintain a desired level of total deposits. In addition, Home Federal Savings and Loan invests excess funds in short-term interest-earning accounts and other assets, which provide liquidity to meet lending requirements. Home Federal Savings and Loan's deposit accounts with the Federal Home Loan Bank of Dallas amounted to \$7.6 million at December 31, 2004.

A significant portion of Home Federal Savings and Loan's liquidity consists of securities classified as available for sale and cash and cash equivalents. Home Federal Savings and Loan's primary sources of cash are net income, principal repayments on loans and mortgage-backed securities and increases in deposit accounts. If Home Federal Savings and Loan requires funds beyond its ability to generate them internally, borrowing agreements exist with the Federal Home Loan Bank of Dallas which provide an additional source of funds. At December 31, 2004, Home Federal Savings and Loan had \$8.5 million in advances from the Federal Home Loan Bank of Dallas.

**MANAGEMENT'S DISCUSSION AND ANALYSIS OR PLAN OF OPERATION (Continued)**

At December 31, 2004, Home Federal Savings and Loan had outstanding loan commitments of \$3.1 million to originate loans. At December 31, 2004, certificates of deposit scheduled to mature in less than one year, totaled \$27.3 million.

Based on prior experience, management believes that a significant portion of such deposits will remain with us, although there can be no assurance that this will be the case. In addition, the cost of such deposits could be significantly higher upon renewal, in a rising interest rate environment. Home Federal Savings and Loan intends to utilize its high levels of liquidity to fund its lending activities. If additional funds are required to fund lending activities, Home Federal Savings and Loan intends to sell its securities classified as available for sale as needed.

Home Federal Savings and Loan is required to maintain regulatory capital sufficient to meet tangible, core and risk-based capital ratios of at least 1.5%, 3.0% and 8.0%, respectively. At December 31, 2004, Home Federal Savings and Loan exceeded each of its capital requirements with ratios of 17.46%, 66.31% and 67.12%, respectively.

In connection with the Association's reorganization to the mutual holding company form of organization, Home Federal Bancorp, Inc., the parent holding company of the Association, sold 1,423,583 shares of its common stock in a subscription and community offering, which was completed on January 18, 2005 at a price of \$10.00 per share. This includes 113,887 shares acquired by the Association's Employee Stock Ownership Plan. The Company has invested 50% of the net proceeds from the reorganization in the Association.

*Off-Balance Sheet Arrangements*

At December 31, 2004, the Association did not have any off-balance sheet arrangements, as defined by Securities and Exchange Commission rules.

*Impact of Inflation and Changing Prices*

The financial statements and related financial data presented herein have been prepared in accordance with instructions to Form 10-QSB, which require the measurement of financial position and operating results in terms of historical dollars, without considering changes in relative purchasing power over time due to inflation.

Unlike most industrial companies, virtually all of the Association's assets and liabilities are monetary in nature. As a result, interest rates generally have a more significant impact on a financial institution's performance than does the effect of inflation.

*Forward-Looking Statements*

This Form 10-QSB contains certain forward-looking statements and information relating to the Association that are based on the beliefs of management as well as assumptions made by and information currently available to management. In addition, in those and other portions of this document, the words anticipate, believe, estimate, expect, intend, should and similar expressions, or the negative thereof, as they relate to the Association or the Association's management, are intended to identify forward-looking statements. Such statements reflect the current views of the Association with respect to future looking events and are subject to certain risks, uncertainties and assumptions. Should one or more of these risks or uncertainties materialize or should underlying assumptions prove incorrect, actual results may vary from those described herein as anticipated, believed, estimated, expected or intended. The Association does not intend to update these forward-looking statements.

**ITEM 3. CONTROLS AND PROCEDURES**

Under the supervision and with the participation of our management, including our Chief Executive Officer and our principal officer, we evaluated the effectiveness of the design and operation of our disclosure controls and procedures (as defined in Rules 13a-15(e) and 15d-15(e) under the Securities Exchange Act of 1934) as of the end of the period covered by this report. Based upon that evaluation, the Chief Executive Officer and the principal financial officer has concluded that, as of the end of the period covered by this report, our disclosure controls and procedures are effective to ensure that information required to be disclosed in the reports that the Company files or submits under the Securities Exchange Act of 1934, is recorded, processed, summarized and reported within the applicable time periods specified by the Securities and Exchange Commission's rules and forms. There has been no change in the Association's internal control over financial reporting during the Association's most recent fiscal quarter that has materially affected, or is reasonably likely to materially affect, the Association's internal control over financial reporting.

**PART II**

**ITEM 1. LEGAL PROCEEDINGS**

The Association is not involved in any pending legal proceedings other than routine legal proceedings occurring in the ordinary course of business, which involve amounts in the aggregate believed by management to be immaterial to the financial condition of the Association.

**ITEM 2. CHANGES IN SECURITIES AND SMALL BUSINESS ISSUER PURCHASES OF EQUITY SECURITIES**

(a), (b) and (c) Not applicable.

(d) The Company's Form SB-2 (File No. 333-119026) was declared effective by the SEC on November 12, 2004. A total of 1,423,583 shares of common stock were sold at \$10.00 per share in the subscription and community offering, including 113,887 shares acquired by the Home Federal Savings and Loan Association Employee Stock Ownership Plan, which was consummated on January 18, 2005. The gross offering proceeds were \$14,235,830 and net proceeds are estimated to be approximately \$13,635,830.

(e) Not applicable.

**ITEM 3. DEFAULTS UPON SENIOR SECURITIES**

Not applicable.

**ITEM 4. SUBMISSION OF MATTERS TO A VOTE OF SECURITY HOLDERS**

Not applicable.

**ITEM 5. OTHER INFORMATION**

Not applicable.

**ITEM 6. EXHIBITS**

The following Exhibits are filed as part of this report:

No.	Description
31.1	Certification of Chief Executive Officer Pursuant to Section 302 of the Sarbanes-Oxley Act of 2002.
31.2	Certification of Chief Financial Officer Pursuant to Section 302 of the Sarbanes-Oxley Act of 2002.
32.0	Section 1350 Certification.

**SIGNATURES**

Pursuant to the requirements of the Securities Exchange Act of 1934, the registrant has duly caused this report to be signed on its behalf by the undersigned thereunto duly authorized.
