Security Valuation:

Debt securities generally are valued by pricing services approved by the Fund's Board of Trustees, based upon market transactions for normal, institutional-size trading units of similar securities. The services may use various pricing techniques which take into account appropriate factors such as yield, quality, coupon rate, maturity, type of issue, trading characteristics and other data, as well as broker quotes. Debt securities for which quotations are readily available are valued at an over-the-counter or exchange bid quotation. Certain debt securities, which tend to be more thinly traded and of lesser quality, are priced based on fundamental analysis of the financial condition of the issuer and the estimated value of any collateral. Valuations developed through pricing techniques may vary from the actual amounts realized upon sale of the securities, and the potential variation may be greater for those securities valued using fundamental analysis.

Short-term debt obligations maturing within 60 days are valued at amortized cost, which approximates market value.

Futures contracts are valued at the settlement price established each day by the board of trade or exchange on which they are traded.

Investments for which market quotations are not readily available, or quotations which management believes are not appropriate, are valued at fair value under procedures approved by the Board of Trustees. If a security is valued at a fair value, such value is likely to be different from the last quoted market price for the security.

- (a) The Fund has been informed that each issuer has placed direct obligations of the U.S. Government in an irrevocable trust, solely for the payment of principal and interest.
- (b) Zero coupon bond.
- (c) A portion of this security with a market value of \$58,556 is pledged as collateral for open futures contracts.
- (d) Variable rate demand note. This security is payable upon not more than one, seven or thirty business days' notice. Put bonds and notes have a demand feature that matures within one year. The interest rate changes periodically. The interest rate shown reflects the rate as of February 28, 2007.
- (e) Cost for federal income tax purposes is \$61,980,469.
- (f) Unrealized appreciation and depreciation at February 28, 2007 based on cost of investments for federal income tax purposes was:

<b>Unrealized Appreciation</b>	<b>Unrealized Depreciation</b>	<b>Net Unrealized Appreciation</b>
------------------------------------	------------------------------------	--

Edgar Filing: COLONIAL CALIFORNIA INSURED MUNICIPAL FUND - Form N-Q

\$ 4,614,449 \$ (-) \$ 4,614,449

At February 28, 2007, the Fund held the following open short future contracts:

Type	Number of Contracts	Value	Aggregate Face Value	Expiration Date	Unrealized (Depreciation)
10-Year U.S. Treasury Notes	34	\$ 3,672,155	\$ 3,692,187	Jun-2007	\$ (20,032)

**Item 2. Controls and Procedures.**

(a) The registrant's principal executive officer and principal financial officers, based on their evaluation of the registrant's disclosure controls and procedures as of a date within 90 days of the filing of this report, have concluded that such controls and procedures are adequately designed to ensure that information required to be disclosed by the registrant in Form N-Q is accumulated and communicated to the registrant's management, including the principal executive officer and principal financial officer, or persons performing similar functions, as appropriate to allow timely decisions regarding required disclosure.

(b) There was no change in the registrant's internal control over financial reporting that occurred during the registrant's last fiscal quarter that has materially affected, or is reasonably likely to materially affect, the registrant's internal control over financial reporting.

**Item 3. Exhibits.**

Certifications pursuant to Rule 30a-2(a) under the Investment Company Act of 1940 (17 CFR 270.30a-2(a)) attached hereto as Exhibit 99.CERT.

---

**SIGNATURES**
