Item 1.01 Entry into a Material Definitive Agreement.

Edgar Filing: FACET BIOTECH CORP - Form 8-K

On October 26, 2009, Facet Biotech Corporation ("Facet ") and EKR Therapeutics, Inc. ("EKR ") entered into Amendment No. 2 to Asset Purchase Agreement ("Amendment No. 2 "), which amends that certain Asset Purchase Agreement (the "Asset Purchase Agreement") with an effective date of February 4, 2008, as amended March 7, 2008, between Facet and EKR. Amendment No. 2 has an effective date of October 19, 2009. Amendment No. 2 amends certain provisions of the Asset Purchase Agreement and, among other things,

- (i) requires EKR to pay to Facet a one-time, non-refundable, non-creditable fee of \$2,000,000;
- (ii) increases, retroactively effective to July 1, 2009, the royalty rate on Net Sales (as defined in the Asset Purchase Agreement) of the Cardene PMB Product (as defined in the Asset Purchase Agreement) from a flat rate of 10% to the tiered royalty structure set forth below:

Net Sales per 12-month Period	
(July 1 through the following June 30)	Royalty Rate
\$0-\$40,000,000	12%
\$40,000,001- \$80,000,000	14%
>\$80,000,001	17%

- (iii) extends the royalty term for royalties on net sales of the Cardene PMB Product from December 31, 2014 to December 31, 2017;
- (iv) provides that upon the Successful Launch of a Generic PMB Product (as defined in the Asset Purchase Agreement) the applicable royalty rate on net sales of the Cardene PMB Product would be reduced by 50% instead of terminating EKR's obligation to pay such royalties;
- (v) provides payment to Facet of 20% of all consideration and contingent payments, whether in cash or in kind, received by EKR under outlicenses and distribution agreements covering the Cardene PMB Product;
- (vi) eliminates EKR's obligation to pay two \$30,000,000 milestone payments, which would have been payable if and when EKR achieved Net Sales of the Cardene PMB Product (as defined in the Asset Purchase Agreement) in any 12 consecutive month period of more than \$80,000,000 and \$150,000,000, respectively; and
- (vii) provides a specific acknowledgement by EKR of its obligations under an agreement between Centocor, Inc. and DuPont Pharmaceuticals Company, which obligations EKR assumed in March 2008 in connection with the transactions under the Asset Purchase Agreement, which require the payment of royalties on net sales of the Retavase® product, the rights to which EKR acquired in March 2008.

As disclosed in Facet's previous SEC filings, Facet expected, and continues to expect, the entrance of generic versions of the Cardene® IV product, with which the Cardene PMB Product would compete, upon the expiration of patents covering the Cardene IV product in November 2009 and, therefore, Facet did not expect that EKR would meet the net sales thresholds for the Cardene PMB Product that would trigger either of the \$30,000,000 milestone payments or otherwise receive material amounts of royalties on net sales of the Cardene PMB Product. Facet continues to expect that future revenues under the Asset Purchase Agreement with EKR will not be material.
