The Facility Agreement was entered into in connection with the refinancing of the Rockwood and Kemira TiO2 joint venture s (the Joint Venture) existing facility agreement, consisting of 195 million outstanding term loans and a 30 million revolving credit facility. The Facility Agreement provides for a 200 million Facility A term loan (Facility A) and a 200 million Facility B term loan (Facility B) and together with Facility A, collectively, the Term Loans) and a revolving credit facility in an aggregate amount of 30 million (the Revolving Loan , and together with the Term Loans, collectively, the Loans) and is subject to certain conditions. The Loans mature in five years from the date of the Facility Agreement.

KCM is an affiliate of KKR & Co. L.P., an affiliate of the beneficial owners of 10.5% of the Company s common stock outstanding, and have been paid customary fees for their services in connection with the Facility Agreement.

The foregoing description does not purport to be complete and is qualified in its entirety by reference to Item 2.03 and the Facility Agreement a copy of which is filed as Exhibit 10.1 hereto and each of which is incorporated herein by reference.

Item 2.03 Creation of a Direct Financial Obligation or an Obligation Under an Off-Balance Sheet Arrangement of a Registrant.

On May 31, 2012, Sachtleben, Sachtleben Chemie and Sachtleben Pigments entered into the Facility Agreement to borrow the Loans, subject to certain conditions. The proceeds of the Term Loans will be used to repay the outstanding balance of the existing facility agreement, pay a dividend to the Joint Venture partners and other corporate purposes. The Revolving Loan will be available for use by the Original Borrowers for working capital requirements and general corporate purposes including bank guarantees and letters of credit. The interest rate on the Term Loans will be up to EURIBOR (or LIBOR if the currency is not Euro) plus 375bp for Facility A and 400bp for Facility B, subject to a step down determined by reference to a leverage ratio test, with an initial interest rate of EURIBOR (or LIBOR if the currency is not Euro) plus 325bp for Facility A and 350bp for Facility B. Facility A shall be repaid in semi-annual installments over a five-year period, with payments commencing on December 31, 2012. Facility B shall be repaid in one lump sum on the date which is 5 years after the date of the Facility Agreement; the Loans may be prepaid without penalty. The interest rate on the Revolving Loan will be up to EURIBOR (or LIBOR if the currency is not Euro) plus 375bp, subject to a step down determined by reference to a leverage ratio test, with an initial interest rate of EURIBOR (or LIBOR if currency is not Euro) of 325bp. The Facility Agreement requires Sachtleben to meet certain affirmative and restrictive covenants, subject to certain thresholds and exceptions. The restrictive covenants limit the Original Borrowers ability to undertake certain actions, including but not limited to acquiring or disposing of assets, creating liens on assets, entering into a merger or corporate restructuring, and incurring additional indebtedness. In addition, the Facility Agreement requires Sachtleben to meet certain financial covenants, including a leverage ratio test and interest coverage ratio tests. The Loans will be secured by the stock and the assets of Sachtleben Chemie and Sachtleben Pigments and guaranteed by the Original Guarantors. Prior to an

initial public offering, in the event that Kemira and Rockwood cease to own more than fifty percent (50%) of the ownership interest in Sachtleben, any Lender may cancel its commitment and demand prepayment of its respective portion of the Loans, including accrued and unpaid interest. After an initial public offering, in the event that a third party or third parties acting in concert other than Rockwood or Kemira Oyj acquire thirty percent (30%) or more of the ownership interest in Sachtleben, any Lender may cancel its commitment and demand prepayment of its respective portion of the Loans, including accrued and unpaid interest. The Facility Agreement contains customary events of default, subject to remedy periods, thresholds and exceptions. Upon the occurrence of an event of default under the Facility Agreement, the Lenders are able to terminate the commitments and declare all amounts, including accrued and unpaid interest, to be due and payable.

The foregoing description does not purport to be complete and is qualified in its entirety by reference to Item 1.01 and the Facility Agreement a copy of which is filed as Exhibit 10.1 hereto and each of which is incorporated herein by reference.
