PLAINS GP HOLDINGS, L.P. AND SUBSIDIARIES

NOTES TO THE CONDENSED CONSOLIDATED FINANCIAL STATEMENTS

(unaudited)

Note 1 Organization and Basis of Presentation

Organization

Plains GP Holdings, L.P. (*PAGP*) is a Delaware limited partnership formed on July 17, 2013 to own an interest in the general partner and incentive distribution rights (*IDRs*) of Plains All American Pipeline, L.P. (*PAA*), a publicly traded Delaware limited partnership. *PAGP* has elected to be treated as a corporation for U.S. federal income tax purposes.

We completed our initial public offering (*IPO*) on October 21, 2013. Immediately prior to our *IPO*, certain owners of Plains AAP, L.P. (*AAP*) sold a portion of their interests in *AAP* to us, resulting in our ownership of *AAP* units, which represent limited partnership interests in *AAP*. As of March 31, 2014, we owned 135,833,637 *AAP* units (representing a 22.4% limited partner interest in *AAP*). *AAP* is a Delaware limited partnership that directly owns all of *PAA*'s incentive distribution rights and indirectly owns the 2% general partner interest in *PAA*. *AAP* is the sole member of *PAA GP LLC* (*PAA GP*), a Delaware limited liability company that directly holds the 2% general partner interest in *PAA*. Also, through a series of transactions prior to our *IPO* with our general partner and the owners of Plains All American GP LLC (*GP LLC*), a Delaware limited liability company formed on May 2, 2001, *GP LLC*'s general partner interest in *AAP* became a non-economic interest, and we became the owner of a 100% managing member interest in *GP LLC*. See *Basis of Consolidation and Presentation* below for the resulting accounting impacts.

GP LLC manages the business and affairs of *PAA* and *AAP*. Except for certain matters relating to *PAA* that require the approval of the limited partners of *PAA*, and certain matters relating to *AAP* that require the approval of the limited partners of *AAP* or of us as the sole member of *GP LLC*, either pursuant to the governing documents of *PAA*, *AAP* or *GP LLC*, or as may be required by non-waivable provisions of applicable law, *GP LLC* has full and complete authority, power and discretion to manage and control the business, affairs and property of *PAA* and *AAP*, to make all decisions regarding those matters and to perform any and all other acts or activities customary or incident to the management of *PAA* and *AAP*'s business, including the execution of contracts and management of litigation. *GP LLC* employs all domestic officers and personnel involved in the operation and management of *PAA* and *AAP*. *PAA*'s Canadian officers and personnel are employed by Plains Midstream Canada ULC (*PMC*).

PAA is a publicly traded master limited partnership that owns and operates midstream energy infrastructure and provides logistics services for crude oil, natural gas liquids (*NGL*), natural gas and refined products. The term *NGL* includes ethane and natural gasoline products as well as products commonly referred to as liquefied petroleum gas (*LPG*) such as propane and butane. When used in this Form 10-Q, *NGL* refers to all *NGL* products including *LPG*. *PAA* owns an extensive network of pipeline transportation, terminalling, storage, and gathering assets in key crude oil and *NGL* producing basins and transportation corridors and at major market hubs in the United States and Canada. Our business activities are conducted through three operating segments: (i) Transportation, (ii) Facilities and (iii) Supply and Logistics. See Note 12 for further discussion of our operating segments.

Edgar Filing: PLAINS GP HOLDINGS LP - Form 10-Q

As used in this Form 10-Q and unless the context suggests otherwise (taking into account the fact that PAGP has no operating activities apart from those conducted by PAA and its subsidiaries), the terms PAGP, Partnership, Plains, we, us, our, ours and similar terms refer to PAA and its consolidated subsidiaries.

Definitions

Additional defined terms are used in this Form 10-Q and shall have the meanings indicated below:

AOCI	=	Accumulated other comprehensive income
Bcf	=	Billion cubic feet
Btu	=	British thermal unit
CAD	=	Canadian dollar
DERs	=	Distribution equivalent rights
EBITDA	=	Earnings before interest, taxes, depreciation and amortization
FASB	=	Financial Accounting Standards Board
GAAP	=	Generally accepted accounting principles in the United States
ICE	=	IntercontinentalExchange
IPO	=	Initial public offering

Edgar Filing: PLAINS GP HOLDINGS LP - Form 10-Q

Table of Contents

LIBOR	=	London Interbank Offered Rate
LTIP	=	Long-term incentive plan
Mcf	=	Thousand cubic feet
NGL	=	Natural gas liquids including ethane, natural gasoline products, propane and butane
NYMEX	=	New York Mercantile Exchange
PLA	=	Pipeline loss allowance
PNG	=	PAA Natural Gas Storage, L.P.
SEC	=	Securities and Exchange Commission
USD	=	United States dollar
White Cliffs	=	White Cliffs Pipeline, LLC
WTI	=	West Texas Intermediate

Basis of Consolidation and Presentation

The accompanying unaudited condensed consolidated interim financial statements and notes thereto should be read in conjunction with our 2013 Annual Report on Form 10-K. The financial statements have been prepared in accordance with the instructions for interim reporting as set forth by the SEC. All adjustments (consisting only of normal recurring adjustments) that in the opinion of management were necessary for a fair statement of the results for the interim periods have been reflected. All significant intercompany transactions have been eliminated in consolidation. Certain reclassifications have been made to information from previous years to conform to the current presentation. The condensed consolidated balance sheet data as of December 31, 2013 was derived from audited financial statements, but does not include all disclosures required by GAAP. The results of operations for the three months ended March 31, 2014 should not be taken as indicative of results to be expected for the entire year. These financials include PAGP and all of our wholly owned subsidiaries and those entities that we control. Under GAAP, we consolidate PAA, AAP and GP LLC. Amounts associated with the interests in these entities not owned by us are reflected in our results of operations as net income attributable to noncontrolling interests and in our balance sheet partners' capital section as noncontrolling interests.

For periods prior to our IPO, the accompanying condensed consolidated financial statements reflect the financial statements of GP LLC, the predecessor of PAGP, and are based on the historical ownership percentages of GP LLC and AAP. These financial statements, to the extent they relate to periods prior to our IPO, have been prepared from the separate financial records maintained by GP LLC and may not necessarily be indicative of the actual results of operations that might have occurred if PAGP had operated separately during those periods.

Subsequent events have been evaluated through the financial statements issuance date and have been included in the following footnotes where applicable.

Note 2 Recent Accounting Pronouncements

Other than as discussed below and in our 2013 Annual Report on Form 10-K, no new accounting pronouncements have become effective or have been issued during the three months ended March 31, 2014 that are of significance or potential significance to us.

Edgar Filing: PLAINS GP HOLDINGS LP - Form 10-Q

In March 2013, the FASB issued guidance regarding the release of cumulative translation adjustments into net income when a parent either sells a part or all of its investment in a foreign entity or no longer holds a controlling financial interest in a subsidiary or group of assets that is a business within a foreign entity. This guidance became effective for interim and annual periods beginning after December 15, 2013. We adopted this guidance on January 1, 2014. Our adoption did not have a material impact on our financial position, results of operations or cash flows.

Table of Contents**Note 3 Accounts Receivable**

Our accounts receivable are primarily from purchasers and shippers of crude oil and, to a lesser extent, purchasers of NGL and natural gas storage. These purchasers include, but are not limited to refiners, producers, marketing and trading companies and financial institutions that are active in the physical and financial commodity markets. The majority of our accounts receivable relate to our crude oil supply and logistics activities that can generally be described as high volume and low margin activities, in many cases involving exchanges of crude oil volumes.

To mitigate credit risk related to our accounts receivable, we have in place a rigorous credit review process. We closely monitor market conditions in order to make a determination with respect to the amount, if any, of credit to be extended to any given customer and the form and amount of financial performance assurances we require. Such financial assurances are commonly provided to us in the form of standby letters of credit, parental guarantees or advance cash payments. As of March 31, 2014 and December 31, 2013, we had received approximately \$105 million and \$117 million, respectively, of advance cash payments from third parties to mitigate credit risk. Furthermore, as of March 31, 2014 and December 31, 2013, we had received approximately \$206 million and \$426 million, respectively, of standby letters of credit to support obligations due from third parties, a portion of which applies to future business. In addition, in an effort to mitigate credit risk, a significant portion of our transactions with counterparties are settled on a net-cash basis. Further, we enter into netting agreements (contractual agreements that allow us to offset receivables and payables with those counterparties against each other on our balance sheet) for a majority of such arrangements.

We review all outstanding accounts receivable balances on a monthly basis and record a reserve for amounts that we expect will not be fully recovered. We do not apply actual balances against the reserve until we have exhausted substantially all collection efforts. At March 31, 2014 and December 31, 2013, substantially all of our accounts receivable (net of allowance for doubtful accounts) were less than 30 days past their scheduled invoice date. Our allowance for doubtful accounts receivable totaled approximately \$4 million and \$5 million at March 31, 2014 and December 31, 2013, respectively. Although we consider our allowance for doubtful accounts receivable to be adequate, actual amounts could vary significantly from estimated amounts.

Note 4 Inventory, Linefill and Base Gas and Long-term Inventory

Inventory, linefill and base gas and long-term inventory consisted of the following as of the dates indicated (barrels and natural gas volumes in thousands and carrying value in millions):

	March 31, 2014				December 31, 2013			
	Volumes	Unit of Measure	Carrying Value	Price/Unit (1)	Volumes	Unit of Measure	Carrying Value	Price/Unit (1)
Inventory								
Crude oil	7,274	barrels	\$ 645	\$ 88.67	6,951	barrels	\$ 540	\$ 77.69
NGL	3,846	barrels	181	\$ 47.06	8,061	barrels	352	\$ 43.67
Natural gas	12,660	Mcf	61	\$ 4.82	40,505	Mcf	150	\$ 3.70
Other	N/A		27	N/A	N/A		23	N/A
Inventory subtotal			914				1,065	
Linefill and base gas								
Crude oil	11,031	barrels	681	\$ 61.74	10,966	barrels	679	\$ 61.92

Edgar Filing: PLAINS GP HOLDINGS LP - Form 10-Q

NGL	1,431	barrels	61	\$	42.63	1,341	barrels	62	\$	46.23
Natural gas	25,612	Mcf	122	\$	4.76	16,615	Mcf	57	\$	3.43
Linefill and base gas subtotal			864					798		
Long-term inventory										
Crude oil	2,655	barrels	214	\$	80.60	2,498	barrels	202	\$	80.86
NGL	1,210	barrels	50	\$	41.32	1,161	barrels	49	\$	42.20
Long-term inventory subtotal			264					251		
Total				\$	2,042			\$	2,114	

(1) Price per unit of measure represents a weighted average associated with various grades, qualities and locations. Accordingly, these prices may not coincide with any published benchmarks for such products.

At the end of each reporting period, we assess the carrying value of our inventory and make any adjustments necessary to reduce the carrying value to the applicable net realizable value. We recorded a charge of approximately \$37 million during the three months ended March 31, 2014 related to the writedown of our natural gas inventory that was purchased in conjunction with managing natural gas storage deliverability requirements during the extended period of severe cold weather in the three months ended March 31, 2014. This adjustment is a component of Purchases and related costs in our accompanying condensed consolidated statements of operations.

[Table of Contents](#)
Note 5 Goodwill

The table below reflects our goodwill by segment and changes during the period indicated (in millions):

	Transportation	Facilities	Supply and Logistics	Total
Balance at December 31, 2013	\$ 878	\$ 1,162	\$ 463	\$ 2,503
2014 Goodwill Related Activity:				
Foreign currency translation adjustments	(11)	(5)	(2)	(18)
Balance at March 31, 2014	\$ 867	\$ 1,157	\$ 461	\$ 2,485

Note 6 Debt

Debt consisted of the following as of the dates indicated (in millions):

	March 31, 2014	December 31, 2013
SHORT-TERM DEBT		
PAA commercial paper notes, bearing a weighted-average interest rate of 0.30% and 0.33%, respectively (1) (2)	\$ 876	\$ 1,109
Other	3	4
Total short-term debt	879	1,113
LONG-TERM DEBT		
PAA senior notes, net of unamortized discounts of \$14 and \$15, respectively	\$ 6,711	\$ 6,710
PAA commercial paper notes, bearing a weighted-average interest rate of 0.30% (2)	102	
Credit Facilities and Other:		
AAP term loan, bearing a weighted-average interest rate of 1.9% and 1.9%, respectively	500	500
AAP senior secured revolving credit facility, bearing a weighted-average interest rate of 1.9% and 2.2%, respectively	20	15
Other	5	5
Total long-term debt	7,338	7,230
Total debt (1) (3)	\$ 8,217	\$ 8,343

(1) At March 31, 2014 and December 31, 2013, we classified \$876 million and \$1.1 billion, respectively, of borrowings under the PAA commercial paper program as short-term. These borrowings are primarily designated as working capital borrowings, must be repaid within one year and are primarily for hedged NGL and crude oil inventory and NYMEX and ICE margin deposits.

(2) PAA commercial paper notes are backstopped by the PAA senior unsecured revolving credit facility and the PAA senior secured hedged inventory facility, which mature in August 2018 and August 2016, respectively; as such, any borrowings under the PAA commercial paper program reduce the available capacity under these facilities. Although the PAA commercial paper notes generally have maturities of less than one year, we classified \$102 million of such notes as long-term based on the ability and intent to refinance them on a

long-term basis.

(3) PAA's fixed-rate senior notes had a face value of approximately \$6.7 billion at both March 31, 2014 and December 31, 2013. We estimated the aggregate fair value of these notes as of March 31, 2014 and December 31, 2013 to be approximately \$7.3 billion and \$7.2 billion, respectively. PAA's fixed-rate senior notes are traded among institutions, and these trades are routinely published by a reporting service. Our determination of fair value is based on reported trading activity near quarter end. We estimate that the carrying value of outstanding borrowings under credit facilities and agreements and commercial paper program approximates fair value as interest rates reflect current market rates. The fair value estimates for both the senior notes and credit facilities are based upon observable market data and are classified within Level 2 of the fair value hierarchy.

Borrowings and Repayments

Total borrowings under credit agreements and the commercial paper program for the three months ended March 31, 2014 and 2013 were approximately \$19.2 billion and \$3.2 billion, respectively. Total repayments under credit agreements and the commercial paper program were approximately \$19.3 billion and \$3.6 billion for the three months ended March 31, 2014 and 2013, respectively. The variance in total gross borrowings and repayments is impacted by various business and financial factors including, but not limited to, the timing, average term and method of general partnership borrowing activities.

Table of Contents

Letters of Credit

In connection with our supply and logistics activities, we provide certain suppliers with irrevocable standby letters of credit to secure our obligation for the purchase of crude oil, NGL and natural gas. Additionally, we issue letters of credit to support insurance programs and construction activities. At March 31, 2014 and December 31, 2013 we had outstanding letters of credit of approximately \$70 million and \$41 million, respectively.

PAA Senior Notes Issuance

In April 2014, PAA completed the issuance of \$700 million, 4.70% senior notes due 2044 at a public offering price of 99.734%. Interest payments are due on June 15 and December 15 of each year, commencing on December 15, 2014. In anticipation of the issuance of these senior notes, PAA entered into \$250 million notional principal amount of U.S. treasury locks in March and April 2014 to hedge the treasury rate portion of the interest rate on a portion of the notes. See Note 10 for additional disclosure.

Note 7 Net Income Per Class A Share

Basic net income per Class A share is determined by dividing net income attributable to PAGP by the weighted average number of outstanding Class A shares during the period. Class B shares do not share in the earnings of the Partnership. Accordingly, basic and diluted net income per Class B share has not been presented.

Diluted net income per Class A share is determined by dividing net income attributable to PAGP by the weighted average number of outstanding diluted Class A shares during the period. For the purposes of the calculation of diluted net income per Class A share, both the net income attributable to PAGP and the weighted average number of outstanding diluted Class A shares consider the impact of possible future exchanges of (i) AAP units and the associated Class B shares into our Class A shares and (ii) certain AAP Management Units into our Class A shares. In addition, the calculation of the weighted average number of outstanding diluted Class A shares considers the effect of potentially dilutive awards under the Plains GP Holdings, L.P. Long-Term Incentive Plan (the PAGP LTIP).

AAP Management Units are considered potentially dilutive unless (i) vesting occurs only upon the satisfaction of a performance condition and (ii) that performance condition has yet to be satisfied. Conversions of AAP units and AAP Management Units are assumed to have occurred at the beginning of the period and the incremental income attributable to PAGP resulting from the assumed conversions is representative of the incremental income that would have been attributable to PAGP if the assumed conversions occurred on that date. Our PAGP LTIP awards that contemplate the issuance of Class A Shares are considered dilutive unless (i) vesting occurs only upon the satisfaction of a performance condition and (ii) that performance condition has yet to be satisfied. PAGP LTIP awards that are deemed to be dilutive are reduced by a hypothetical share repurchase based on the remaining unamortized fair value, as prescribed by the treasury stock method in guidance issued by the FASB. All outstanding PAGP LTIP awards as of March 31, 2014 are dilutive.

Edgar Filing: PLAINS GP HOLDINGS LP - Form 10-Q

For the three months ended March 31, 2014, the possible conversion of any AAP units and certain AAP Management Units would have had an antidilutive effect on net income per Class A share. For the same period, our PAGP LTIP awards are dilutive; however, there are less than 0.1 million dilutive LTIP awards, which amount is not large enough to change the presentation of weighted average shares outstanding or net income per Class A share. The following table illustrates the calculation of basic net income per Class A share and diluted net income per Class A share for the three months ended March 31, 2014 (amounts in millions, except per share data):

	Three Months Ended March 31, 2014	
Basic and Diluted Net Income per Class A Share		
Net income attributable to PAGP	\$	14
Basic and diluted weighted average number of Class A shares outstanding		135
Basic and diluted net income per Class A share	\$	0.11

Table of Contents**Note 8 Partners Capital and Distributions*****Distributions***

The following table details the distributions paid to Class A shareholders during or pertaining to the first three months of 2014 (in millions, except per share amounts):

Date Declared	Date Paid or To Be Paid	Distributions Paid to Class A Shareholders			Distributions per Class A Share (2)
April 7, 2014	May 15, 2014 (1)	\$	23	\$	0.17055
January 9, 2014	February 14, 2014	\$	17	\$	0.12505

(1) Payable to shareholders of record at the close of business on May 2, 2014, for the period January 1, 2014 through March 31, 2014.

(2) The distribution per Class A share paid on February 14, 2014 was prorated for the partial quarter following the closing of our IPO on October 21, 2013.

Noncontrolling Interests in Subsidiaries

As of March 31, 2014, noncontrolling interests in subsidiaries consisted of the following: (i) a 98% limited partner interest in PAA, (ii) an approximate 78% limited partner interest in AAP that consists of Class A units and AAP Management Units (a profits interest) and (iii) a 25% interest in SLC Pipeline LLC.

Distributions

The following table details the distributions PAA paid during or pertaining to the first three months of 2014, net of incentive distribution reductions (in millions, except per unit amounts):

Date Declared	Date Paid or To Be Paid	Common Units	Distributions Paid AAP			Total	Distributions per limited partner unit
			Incentive	2%			
April 7, 2014	May 15, 2014 (1)	\$ 229	\$ 110	\$ 5	\$ 344	\$ 0.6300	

Edgar Filing: PLAINS GP HOLDINGS LP - Form 10-Q

January 9, 2014	February 14, 2014	\$	221	\$	102	\$	5	\$	328	\$	0.6150
-----------------	-------------------	----	-----	----	-----	----	---	----	-----	----	--------

(1) Payable to unitholders of record at the close of business on May 2, 2014, for the period January 1, 2014 through March 31, 2014.

On February 14, 2014, AAP distributed approximately \$104 million of the distributions received from PAA, net of cash reserves of approximately \$3 million, to its partners. The distribution was prorated as of the date of the consummation of our IPO, such that the owners of AAP prior to our IPO received the portion of the distribution attributable to the period of the fourth quarter of 2013 prior to our IPO, and the owners of AAP at the date of record of January 31, 2014, including us, received the portion of the distribution attributable to the period beginning on the date of our IPO through the end of the fourth quarter of 2013. Of the \$104 million distributed by AAP, approximately \$87 million was paid to noncontrolling interests.

On May 15, 2014, AAP will distribute approximately \$111 million of the distributions it receives from PAA, net of cash reserves of approximately \$4 million, to its partners as of the date of record of May 2, 2014. Of the \$111 million to be distributed by AAP, approximately \$88 million will be paid to noncontrolling interests.

Additionally, during the three months ended March 31, 2014, distributions of approximately \$1 million were paid to noncontrolling interests in SLC Pipeline.

PAA Continuous Offering Program

During the three months ended March 31, 2014, PAA sold an aggregate of approximately 2.8 million common units under its continuous offering program, generating proceeds of approximately \$148 million, net of offering costs.

Table of Contents

Note 9 Equity-Indexed Compensation Plans

We refer to the PAGP LTIP, PAA LTIPs and AAP Management Units collectively as our Equity-indexed compensation plans. For additional discussion of our equity-indexed compensation plans and awards, see Note 15 to our Consolidated Financial Statements included in Part IV of our 2013 Annual Report on Form 10-K.

In connection with our IPO in October 2013, our general partner adopted the PAGP LTIP, which is intended to align the interests of employees and directors with those of our shareholders by providing such employees and directors incentive compensation awards that reward achievement of targeted distribution levels and other business objectives. The PAGP LTIP provides for awards of options, restricted shares, phantom shares and share appreciation rights. Certain awards may also include distribution equivalent rights (DERs), which, subject to applicable vesting criteria, entitle the grantee to a cash payment equal to the cash distribution paid on an outstanding Class A share. The PAGP LTIP authorizes the issuance of up to 10 million Class A shares deliverable upon vesting. In February 2014, an aggregate of 83,200 phantom Class A shares were issued to our directors, resulting in expense of less than \$1 million for the three months ended March 31, 2014. These awards will vest annually in 25% increments and have an automatic re-grant feature such that as they vest, an equivalent amount is granted.

Equity-indexed compensation activity for PAA and PAGP LTIP awards is summarized in the following table (units in millions):

	PAA Units (1)	Weighted Average Grant Date Fair Value per Unit	PAGP Shares (1)	Weighted Average Grant Date Fair Value per Share
Outstanding, December 31, 2013	8.4	\$ 36.97		\$
Granted	0.6	\$ 45.02	0.1	\$ 27.84
Vested (2)	(0.1)	\$ 34.78		\$
Cancelled or forfeited	(0.1)	\$ 38.07		\$
Outstanding, March 31, 2014	8.8	\$ 37.55	0.1	\$ 27.84

(1) Amounts do not include AAP Management Units.

(2) Approximately 0.1 million PAA common units were issued net of tax withholding of less than 0.1 million units during the three months ended March 31, 2014 in connection with the settlement of vested awards. The remaining PAA awards that vested during the three months ended March 31, 2014 (less than 0.1 million units) were settled in cash.

AAP Management Units

The following table contains a summary of AAP Management Units (in millions):

Edgar Filing: PLAINS GP HOLDINGS LP - Form 10-Q

	Reserved for Future Grants	Outstanding	Outstanding Units Earned	Grant Date Fair Value Of Outstanding AAP Management Units (1)	
Balance as of December 31, 2013	3.5	48.6	47.0	\$	51
Granted	(0.4)	0.4			11
Earned	N/A	N/A	0.3		N/A
Balance as of March 31, 2014	3.1	49.0	47.3	\$	62

(1) Of the grant date fair value, approximately \$1 million was recognized as expense during the three months ended March 31, 2014. Of the \$62 million grant date fair value, approximately \$50 million had been recognized through March 31, 2014.

Table of Contents***Other Equity-Indexed Compensation Information***

The table below summarizes the expense recognized and the value of vesting (settled both in PAA common units and cash) related to our equity-indexed compensation plans and includes both liability-classified and equity-classified awards (in millions):

		Three Months Ended March 31,	
		2014	2013
Equity-indexed compensation expense	\$	34	\$ 51
LTIP unit-settled vestings	\$	5	\$
LTIP cash-settled vestings	\$	1	\$
DER cash payments	\$	2	\$ 2

Note 10 Derivatives and Risk Management Activities

We identify the risks that underlie our core business activities and use risk management strategies to mitigate those risks when we determine that there is value in doing so. Our policy is to use derivative instruments for risk management purposes and not for the purpose of speculating on hydrocarbon commodity (referred to herein as "commodity") price changes. We use various derivative instruments to (i) manage our exposure to commodity price risk as well as to optimize our profits, (ii) manage our exposure to interest rate risk and (iii) manage our exposure to currency exchange rate risk. Our commodity risk management policies and procedures are designed to help ensure that our hedging activities address our risks by monitoring our derivative positions, as well as physical volumes, grades, locations, delivery schedules and storage capacity. Our interest rate and currency exchange rate risk management policies and procedures are designed to monitor our derivative positions and ensure that those positions are consistent with our objectives and approved strategies. When we apply hedge accounting, our policy is to formally document all relationships between hedging instruments and hedged items, as well as our risk management objectives for undertaking the hedge. This process includes specific identification of the hedging instrument and the hedged transaction, the nature of the risk being hedged and how the hedging instrument's effectiveness will be assessed. Both at the inception of the hedge and on an ongoing basis, we assess whether the derivatives used in a transaction are highly effective in offsetting changes in cash flows or the fair value of hedged items.

Commodity Price Risk Hedging

Our core business activities involve certain commodity price-related risks that we manage in various ways, including through the use of derivative instruments. Our policy is to (i) only purchase inventory for which we have a market, (ii) structure our sales contracts so that price fluctuations do not materially affect our operating income and (iii) not acquire and hold physical inventory or derivatives for the purpose of speculating on commodity price changes. The material commodity-related risks inherent in our business activities can be divided into the following general categories:

Commodity Purchases and Sales In the normal course of our operations, we purchase and sell commodities. We use derivatives to manage the associated risks and to optimize profits. As of March 31, 2014, net derivative positions related to these activities included:

Edgar Filing: PLAINS GP HOLDINGS LP - Form 10-Q

- An average of 272,000 barrels per day net long position (total of 8.2 million barrels) associated with our crude oil purchases, which was unwound ratably during April 2014 to match monthly average pricing.
- A net short spread position averaging approximately 24,700 barrels per day (total of 9.8 million barrels), which hedges a portion of our anticipated crude oil lease gathering purchases through May 2015. These derivatives are time spreads consisting of offsetting purchases and sales between two different months. Our use of these derivatives does not expose us to outright price risk.
- An average of 2,900 barrels per day (total of 1.1 million barrels) of butane/WTI spread positions, which hedge specific butane sales contracts that are priced as a percentage of WTI through March 2015.
- An average of 19,000 barrels per day (total of 1.2 million barrels) of Brent/WTI spread positions, which hedge purchases based on WTI derived indices and sales based on Brent derived indices through June 2014.
- A long position of approximately 2.1 Bcf through April 2016 related to anticipated base gas requirements.
- A short position of approximately 12.6 Bcf through July 2014 related to anticipated sales of natural gas inventory.

Table of Contents

- A net short position of approximately 5.0 million barrels through March 2015 related to the anticipated sales of our crude oil, NGL and refined products inventory.

Storage Capacity Utilization We own a significant amount of crude oil, NGL and refined products storage capacity other than that used in our transportation operations. This storage may be leased to third parties or utilized in our own supply and logistics activities, including for the storage of inventory in a contango market. For capacity allocated to our supply and logistics operations, we have utilization risk in a backwardated market structure. As of March 31, 2014, we used derivatives to manage the risk of not utilizing approximately 0.5 million barrels of storage capacity through June 2014. These positions involve no outright price exposure, but instead enable us to profitably use the capacity to store hedged crude oil.

Pipeline Loss Allowance Oil As is common in the pipeline transportation industry, our tariffs incorporate a loss allowance factor that is intended to offset losses due to evaporation, measurement and other losses in transit. We utilize derivative instruments to hedge a portion of the anticipated sales of the allowance oil that is to be collected under our tariffs. As of March 31, 2014, our PLA hedges included a net short position for an average of approximately 1,800 barrels per day (total of 1.1 million barrels) through December 2015 and a long call option position of approximately 0.4 million barrels through December 2015.

Natural Gas Processing/NGL Fractionation As part of our supply and logistics activities, we purchase natural gas for processing and NGL mix for fractionation, and we sell the resulting individual specification products (including ethane, propane, butane and condensate). In conjunction with these activities, we hedge the price risk associated with the purchase of the natural gas and the subsequent sale of the individual specification products. As of March 31, 2014, we had a long natural gas position of approximately 21.8 Bcf through December 2015, a short propane position of approximately 3.8 million barrels through December 2015, a short butane position of approximately 1.2 million barrels through December 2015 and a short WTI position of approximately 0.4 million barrels through December 2015. In addition, we had a long power position of 0.7 million megawatt hours which hedges a portion of our power supply requirements at our natural gas processing and fractionation plants through December 2016.

All of our commodity derivatives that qualify for hedge accounting are designated as cash flow hedges. We have determined that substantially all of our physical purchase and sale agreements qualify for the normal purchase normal sale scope exception. Physical commodity contracts that meet the definition of a derivative but are ineligible, or not designated, for the normal purchase normal sale scope exception are recorded on the balance sheet at fair value, with changes in fair value recognized in earnings.

Interest Rate Risk Hedging

We use interest rate derivatives to hedge interest rate risk associated with anticipated debt issuances and outstanding debt instruments. The derivative instruments we use to manage this risk consist primarily of interest rate swaps and treasury locks. As of March 31, 2014, AOCI includes deferred losses of approximately \$83 million that relate to open and terminated interest rate derivatives that were designated for hedge accounting. The terminated interest rate derivatives were cash-settled in connection with the issuance or refinancing of debt agreements. The deferred loss related to these instruments is being amortized to interest expense over the terms of the hedged debt instruments.

Edgar Filing: PLAINS GP HOLDINGS LP - Form 10-Q

PAA has entered into forward starting interest rate swaps to hedge the underlying benchmark interest rate related to forecasted debt issuances through 2015. The following table summarizes the terms of these forward starting interest rate swaps as of March 31, 2014 (notional amounts in millions):

Hedged Transaction	Number and Types of Derivatives Employed	Notional Amount	Expected Termination Date	Average Rate Locked	Accounting Treatment
Anticipated debt offering	10 forward starting swaps (30-year)	\$ 250	6/15/2015	3.60%	Cash flow hedge

In anticipation of PAA's April 2014 issuance of senior notes, PAA entered into four treasury lock agreements in March 2014 for a combined notional amount of \$200 million at a locked in rate of 3.64%. In addition, PAA entered into a treasury lock agreement in April 2014 for a notional amount of \$50 million. The treasury locks were designated as cash flow hedges, thus changes in fair value are deferred in AOCI. In connection with PAA's April 2014 senior notes issuance, these treasury locks were terminated prior to maturity for an aggregate cash payment of approximately \$7 million. The effective portion of the treasury locks will be deferred in AOCI and amortized to interest expense over the life of the senior notes.

Table of Contents***Currency Exchange Rate Risk Hedging***

Because a significant portion of our Canadian business is conducted in CAD and, at times, a portion of our debt is denominated in CAD, we use foreign currency derivatives to minimize the risks of unfavorable changes in exchange rates. These instruments include foreign currency exchange contracts and forwards.

As of March 31, 2014, our outstanding foreign currency derivatives include derivatives we use to (i) hedge currency exchange risk associated with USD-denominated commodity purchases and sales in Canada and (ii) hedge currency exchange risk created by the use of USD-denominated commodity derivatives to hedge commodity price risk associated with CAD-denominated commodity purchases and sales.

The following table summarizes our open forward exchange contracts as of March 31, 2014 (in millions):

		USD		CAD	Average Exchange Rate USD to CAD	
Forward exchange contracts that exchange CAD for USD:						
	2014	\$	265	\$	293	\$1.00 - \$1.11
	2015		9		10	\$1.00 - \$1.11
		\$	274	\$	303	\$1.00 - \$1.11
Forward exchange contracts that exchange USD for CAD:						
	2014	\$	265	\$	291	\$1.00 - \$1.10
	2015		9		9	\$1.00 - \$1.06
		\$	274	\$	300	\$1.00 - \$1.10
Net position by currency:						
	2014	\$		\$	2	
	2015				1	
		\$		\$	3	

Table of Contents**Summary of Financial Impact**

We record all open derivatives on the balance sheet as either assets or liabilities measured at fair value. Changes in the fair value of derivatives are recognized currently in earnings unless specific hedge accounting criteria are met. For derivatives that qualify as cash flow hedges, changes in fair value of the effective portion of the hedges are deferred in AOCI and recognized in earnings in the periods during which the underlying physical transactions are recognized in earnings. Derivatives that do not qualify for hedge accounting and the portion of cash flow hedges that are not highly effective in offsetting changes in cash flows of the hedged items are recognized in earnings each period. Cash settlements associated with our derivative activities are reflected as cash flows from operating activities in our condensed consolidated statements of cash flows.

A summary of the impact of our derivative activities recognized in earnings for the three months ended March 31, 2014 and 2013 is as follows (in millions):

Location of gain/(loss)	Three Months Ended March 31, 2014				Three Months Ended March 31, 2013			
	Derivatives in Hedging Relationships		Derivatives Not Designated as a Hedge		Derivatives in Hedging Relationships		Derivatives Not Designated as a Hedge	
	Gain/(loss) reclassified from AOCI into income	Other gain/(loss) recognized in income		Total	Gain/(loss) reclassified from AOCI into income (1)	Other gain/(loss) recognized in income		Total
Commodity Derivatives								
Supply and Logistics segment revenues	\$ (19)	\$	\$	\$ (19)	\$ 10	\$	\$ 35	\$ 45
Facilities segment revenues					(4)			(4)
Field operating costs			(1)	(1)			1	1
Interest Rate Derivatives								
Interest expense	(1)			(1)	(2)			(2)
Foreign Currency Derivatives								
Supply and Logistics segment revenues			(9)	(9)				
Other expense, net					1			1
Total Gain/(Loss) on Derivatives Recognized in Net Income								
	\$ (20)	\$	\$ (10)	\$ (30)	\$ 5	\$	\$ 36	\$ 41

(1) During the three months ended March 31, 2013, we reclassified a gain of approximately \$2 million from AOCI to Supply and Logistics segment revenues as a result of anticipated hedged transactions that are probable of not occurring. During the three months ended March 31, 2014, all of our hedged transactions were probable of occurring.

Edgar Filing: PLAINS GP HOLDINGS LP - Form 10-Q

Table of Contents

The following table summarizes the derivative assets and liabilities on our condensed consolidated balance sheet on a gross basis as of March 31, 2014 (in millions):

	Asset Derivatives		Liability Derivatives
