Item 1. Business.

Morgan Group Holding Co. (the "Company" or "MGHL") was incorporated in November 2001 to serve, among other business purposes, as a holding company for Lynch Interactive Corporation's ("Lynch Interactive") controlling interest in The Morgan Group, Inc. ("Morgan"). Morgan managed the delivery of manufactured homes, commercial vehicles and specialized equipment. Upon the Company's formation as a wholly owned subsidiary of Lynch Interactive, Lynch Interactive made a capital contribution to MGHL of \$500,000. Lynch Interactive also transferred to MGHL 161,100 shares of Morgan's Class A common stock, warrants to purchase an additional 161,100 such shares at \$9.00 per share, 2,200,000 shares of Morgan's Class B common stock and warrants to purchase an additional 2,200,000 such shares at \$9.00 per share, giving MGHL control of more than 80% of Morgan's aggregate voting power. On January 24, 2002, Lynch Interactive spun off all but 235,294 of its shares in MGHL to its stockholders.

Unfortunately, a combination of industry dynamics, poor management decisions, and a surge in insurance costs crippled Morgan. On October 3, 2002 Morgan ceased operations when its liability insurance expired and it was unable to secure replacement insurance. On October 18, 2002, Morgan and two of its operating subsidiaries filed voluntary petitions under Chapter 11 of the United States Bankruptcy Code in the United States Bankruptcy Court for the Northern District of Indiana, South Bend Division. As of December 31, 2004, the debtors of Morgan were continuing to conduct an orderly liquidation of their assets.

Effective October 15, 2002, the shares of Morgan's Class A Common Stock were delisted from the American Stock Exchange. The stock exchange determined that Morgan's Class A Common Stock no longer satisfied Sections 1002, 1003 and 1009 of the listing rules.

On November 12, 2002, Morgan filed a Certification and Notice of Termination of Registration under Section 12(g) of the Securities Exchange Act of 1934.

The Company expects that its ownership interest in Morgan will have no residual value upon completion of the liquidation of the assets of The Morgan Group Inc. The Company's strategy is to look for additional investment opportunities. However the loss did yield a capital loss of about \$4 million.

Risk Factors That May Affect Future Results

The Company operates in a rapidly changing environment that involves a number of risks, some of which are beyond the Company's control. The following discussion highlights the most material of the risks.

We have no substantial assets for operations.

As of December 31, 2005, the Company's only assets consisted of \$408,000 in cash and an unrecognized asset relating to capital loss carry

Edgar Filing: MORGAN GROUP HOLDING CO - Form 10KSB

forward of about \$4 million. This amount is insufficient to maintain commercially reasonable operations. In addition, the Company has no product to sell and has no revenue.

We need additional financing.

The Company has very limited funds, and such funds may not be adequate to take advantage of any available business opportunities. Even if the Company's currently available funds prove to be sufficient until it is able to acquire an interest in, or complete a transaction with, a business opportunity, such funds will not be sufficient to enable it to exploit the opportunity. There is no assurance that additional capital will be available from any source or, if available, that it can be obtained on terms acceptable to the Company. If additional funds are not available, the Company's operations will be limited to those that can be financed with its modest capital.

3

There are conflicts of interest inherent in our existence as a company and acquisition candidate.

Certain conflicts of interest exist between the Company and its officers and directors. Such individuals have other business interests to which they currently devote attention, and are expected to continue to do so. Consequently, conflicts of interest may arise that can be resolved only through their exercise of judgment in a manner which is consistent with their fiduciary duties to the Company.

It is anticipated that the Company's principal stockholders may actively negotiate or otherwise consent to the purchase of a portion of their common stock as a condition to, or in connection with, a proposed merger or acquisition transaction. In this process, the Company's principal stockholders may consider their own personal pecuniary benefit rather than the best interest of other Company stockholders. Depending upon the nature of a proposed transaction, Company stockholders other than the principal stockholders may not be afforded the opportunity to approve or consent to a particular transaction.

The potential business opportunity has not been identified and may be highly risky.

The Company has not identified, nor has it initiated, any commitments to enter into or acquire a specific business opportunity. As a result, it is only able to make general disclosures concerning the risks and hazards of acquiring a business opportunity, rather than providing disclosure with respect to specific risks and hazards. As a general matter, prospective investors can expect any potential business opportunity to be quite risky.

The type of business opportunity that may be acquired presents certain risks.

The type of business to be acquired may be one that desires to avoid effecting its own public offering and the accompanying expense, delays, uncertainties, and onerous federal and state requirements. Because of the Company's limited capital, it is more likely than not that any acquisition by the Company will involve other parties whose primary interest is the acquisition of control of a publicly traded company. Moreover, any business opportunity acquired may be currently unprofitable or present other negative factors.

Item 2. Properties.

The Company owns no properties.

Item 3. Legal Proceedings.

The Company is not a party to any legal proceedings.

Item 4. Submission of Matters To a Vote of Security Holders.

None.

The Company has never repurchased any of its equity securities and does not anticipate that it will do so in the foreseeable future.

Item 6. Management's Discussion and Analysis or Plan of Operation.

Overview

The Company was incorporated in November 2001 as a wholly-owned subsidiary of Lynch Interactive Corporation ("Interactive") to serve as an acquisition vehicle. Initially, we received \$500,000 cash and 68.5% of The Morgan Group, Inc.'s ("Morgan") equity interest and 80.8% of Morgan's voting interest. On January 24, 2002, Interactive spun off 2,820,051 shares of our

Edgar Filing: MORGAN GROUP HOLDING CO - Form 10KSB

common stock through a pro rata distribution ("Spin-Off") to its stockholders. Interactive retained 235,294 shares at the time of the spin-off.

A combination of industry dynamics, poor management decisions, and a surge in insurance costs crippled Morgan. On October 3, 2002, Morgan ceased operations when its liability insurance expired and it was unable to secure replacement insurance. On October 18, 2002, Morgan and two of its operating subsidiaries filed voluntary petitions under Chapter 11 of the United States Bankruptcy Code in the United States Bankruptcy Court for the Northern District of Indiana, South Bend Division for the purpose of conducting an orderly liquidation of Morgan's assets.

As Morgan is in the process of liquidation, in the accompanying financial statements the assets and liabilities and results of operations of Morgan have been reflected as a discontinued operation. In addition, the Company's management currently believes that it is very unlikely that the Company will realize any value from its equity ownership in Morgan. Given the fact that the Company has no obligation or intention to fund any of Morgan's liabilities, management believes that the Company's investment in Morgan will have no value after the liquidation. As the liquidation of Morgan is under the control of the bankruptcy court, the Company believes it has relinquished control of Morgan and accordingly has ceased consolidating the financial statements of Morgan.

On October 18, 2002, Morgan adopted the liquidation basis of accounting and accordingly, Morgan's assets and liabilities have been adjusted to estimate net realizable value. As the carry value of Morgan's liabilities exceeded the fair value of its assets, the liabilities were reduced to equal the estimated net realizable value of the assets.

As of December 31, 2005, the Company's only assets consisted of \$408,000 in cash and an unrecognized asset relating to capital loss carryforward of about \$4 million.

The Company currently has no operating businesses and will seek acquisitions as part of its strategic alternatives. Its only costs are the administrative expenses required to make the regulatory filings needed to maintain its public status. These costs are estimated at \$25,000 to \$50,000 per year.

5

Results of Operations

For the year ended December 31, 2005, the Company incurred administrative expenses of \$3,000 as compared to \$2,000 in 2004. Administrative expenses are lower than expected due to the Company's inability to retain an independent auditor.

Investment income of \$10,000 was recorded during the three years ended December 31, 2005 as compared to \$4,000 during 2004 respectively as a result of the Company's investment in a United States Treasury money market fund. Higher interest rates caused the increase in 2005.

Morgan Group Holding Co.
 Notes to Financial Statements

Note 1. Basis of Presentation

Morgan Group Holding Co. ("Holding" or "the Company") was incorporated in November 2001 as a wholly-owned subsidiary of Lynch Interactive Corporation ("Interactive") to serve, among other business purposes, as a holding company for Interactive's controlling interest in The Morgan Group, Inc. ("Morgan"). On December 18, 2001, Interactive's controlling interest in Morgan was transferred to Holding. At the time, Holding owned 68.5% of Morgan's equity interest and 80.8% of Morgan's voting interest. On January 24, 2002, Interactive spun off 2,820,051 shares of our common stock through a pro rata distribution ("Spin-Off") to its stockholders. Interactive retained 235,294 shares of our common stock to be distributed in connection with the potential conversion of a convertible note that had been issued by Interactive. Such note was repurchased by Interactive in 2002 and Interactive retains the shares.

On October 3, 2002, Morgan ceased its operations when its liability insurance expired and it was unable to secure replacement insurance. On October 18, 2002, Morgan and two of its operating subsidiaries filed voluntary petitions under Chapter 11 of the United States Bankruptcy Code in the United States Bankruptcy Court for the Northern District of Indiana, South Bend Division for the purpose of conducting an orderly liquidation of Morgan's assets.

Edgar Filing: MORGAN GROUP HOLDING CO - Form 10KSB

As Morgan has ceased operations and is in the process liquidating itself, in the accompanying financial statements, the assets and liabilities and results of operations of Morgan have been reflected as a discontinued operation. In addition, Holding's management currently believes, it is very unlikely that it will realize any value from its equity ownership in Morgan, and given the fact that Holding has no obligation or intention to fund any of Morgan's liabilities, its investment in Morgan was believed to have no value after the liquidation. As the liquidation of Morgan is under the control of the bankruptcy court, the Company believes it has relinquished control of Morgan and accordingly, has ceased consolidating the financial statements of Morgan. As Holding's investment in Morgan was a negative \$2,182,000, at the date of adoption of the plan of liquidation, this resulted in a gain to Holding of that amount.

On October 18, 2002, Morgan adopted the liquidation basis of accounting and, accordingly, Morgan's assets and liabilities have been adjusted to estimate net realizable value. As the carry value of Morgan's liabilities exceeded the fair value of its assets, the liabilities were reduced to equal the estimated net realizable value of the assets.

Significant intercompany accounts and transactions have been eliminated in combination/consolidation.

Net income per common share ("EPS") is computed using the number of common shares issued in connection with the Spin-Off as if such shares had been outstanding for all periods presented.

All highly liquid investments with maturity of three months or less when purchased are considered to be cash equivalents. The carrying value of cash equivalents approximates its fair value based on its nature.

At December 31, 2005 and 2004 all cash and cash equivalents were invested in a United States Treasury money market fund, which an affiliate of the Company serves as the investment manager.

At December 31, 2005 and 2004, the carrying value of financial instruments such as cash and cash equivalents, accounts receivable, trade payables and long-term debt approximates their fair values. Fair value is determined based on expected future cash flows, discounted at market interest rates, and other appropriate valuation methodologies.

The accompanying unaudited consolidated financial statements reflect, in the opinion of management, all adjustments (consisting of normal recurring items) necessary for a fair presentation, in all material respects, of the

financial position and results of operations for the periods presented. The preparation of financial statements in accordance with Generally Accepted Accounting Principles requires management to make estimates and assumptions. Such estimates and assumptions affect the reported amounts of assets and liabilities, the disclosure of contingent assets and liabilities at the date of the financial statements and the reported amounts of revenues and expenses during the reporting period. Actual results could differ from those estimates.

The financial statements include the accounts of the Company and through October, 18, 2002, its majority owned subsidiary, Morgan. Morgan has the following subsidiaries: Morgan Drive Away, Inc., TDI, Inc., Interstate Indemnity Company, and Morgan Finance, Inc., all of which are wholly owned. Morgan Drive

Edgar Filing: MORGAN GROUP HOLDING CO - Form 10KSB

Away, Inc. has two subsidiaries, Transport Services Unlimited, Inc. and MDA Corp. Significant intercompany accounts and transactions have been eliminated in consolidation. During 2002, Morgan is treated as a discontinued operations and previously issued financial statements have been restated to reflect that presentation.

Recently Issued Accounting Pronouncements

In June 2004, the Emerging Issues Task Force ("EITF") issued EITF No. 03-01, "The Meaning of Other-Than-Temporary Impairment and its Application to Certain Investments". EITF 03-01 includes new guidance for evaluating and recording impairment losses on debt and equity investments, as well as new disclosure requirements for investments that are deemed to be temporarily impaired. The provisions of EITF 03-01 were initially effective for reporting periods beginning after June 15, 2004, while the disclosure requirements for debt and equity securities accounted for under SFAS 115, "Accounting for Certain Investments in Debt and Equity Securities", are effective for annual periods ending after December 15, 2003. In September 2004, the FASB delayed the effective date for the measurement and recognition guidance of EITF 03-01. The Company will evaluate the effect of adopting the recognition and measurement guidance when the final consensus is reached.

In December 2004, the FASB issued SFAS No.153, "Exchanges of Non-monetary Assets", which eliminates the exception for non-monetary exchanges of similar productive assets and replaces it with a general exception for exchanges of non-monetary assets that do not have commercial substance. SFAS No.153 will be effective for non-monetary asset exchanges occurring in fiscal periods beginning after June 15, 2005. The Company does not believe the adoption of SFAS No.153 will have a material impact on its financial statements.

In December 2004, the FASB issued SFAS No.123(R), "Share-Based Payment", which establishes standards for transactions in which an entity exchanges its equity instruments for goods or services. This standard requires a public entity to measure the cost of employee services received in exchange for an award of equity instruments based on the grant-date fair value of the award. This eliminates the exception to account for such awards using the intrinsic method previously allowable under APB Opinion No.25. SFAS No.123(R) will be effective in the first quarter of 2006. The Company does not believe that the adoption of SFAS No.123(R) will have a material impact on its consolidated financial statements.

In March 2005, the FASB issued FASB Interpretation No. 47, "Accounting for Conditional Asset Retirement Obligations" ("FIN 47"). FIN 47 clarifies that a conditional asset retirement obligation, as used in FASB Statement 143, "Accounting for Asset Retirement Obligations," refers to a legal obligation to perform an asset retirement activity in which the timing and/or method of the settlement are conditional on a future event that may or may not be within the control of the entity. Accordingly, an entity is required to recognize a liability for the fair value of a conditional asset retirement obligation if the fair value can be reasonably estimated. FIN 47 was effective no later than fiscal years ending after December 15, 2005. The adoption of FIN 47 did not have an impact on the Company's financial statements.

In May 2005, the FASB issued SFAS 154, "Accounting Changes and Error Corrections". SFAS 154 eliminates the requirement in APB Opinion No. 20, "Accounting Changes", to include the cumulative effect of changes in accounting principle in the income statement in the period of change. Instead, to enhance

Edgar Filing: MORGAN GROUP HOLDING CO - Form 10KSB

the comparability of prior period financial statements, SFAS 154 requires that changes in accounting principle be retrospectively applied. Under the retrospective application, the new accounting principle is applied as of the beginning of the first period presented as if that principle had always been used. Adoption of SFAS 154 is required for accounting changes and corrections of errors made in the fiscal year beginning after December 15, 2005. The Company will adopt this new accounting standard on January 1, 2006.

Note 2. Net assets of Discontinued Operation

At December 31, 2005 and 2004, the estimated value of Morgan's assets in liquidation were insufficient to satisfy its estimated obligations.

Note 5. Income Taxes

No income tax benefit has been recorded in the accompanying financial statements as the realization of such losses, for income tax purposes, is dependent upon the generation of future taxable income during the period when such losses would be deductible. Therefore, the recording of the deferred tax asset of \$1.5 million would be inconsistent with applicable accounting rules.

Note 6. Segment Reporting

As the results of operations of the Morgan Group are currently being accounted for as discontinued operation and the Holding currently have limited operations there is no Segment Reporting.

Note 7. Commitments and Contingencies

Holding has not guaranteed any of the obligations of Morgan and it has no further commitment or obligation to fund any creditors.

The Company's certificate of incorporation provides for the elimination and limitation of the personal liability of its directors for monetary damages to the fullest extent permitted by Delaware law. In addition, the certificate of incorporation provides that if Delaware law is amended to authorize the further elimination or limitation of the liability of a director, then the liability of our directors shall be eliminated or limited to the fullest extent permitted by Delaware law, as amended. The effect of this provision is to eliminate the Company's rights and its stockholders rights, through stockholders' derivative suits, to recover monetary damages against a director for breach of the fiduciary duty of care as a director, except in the situations described above. This provision does not limit or eliminate the Company's rights or its stockholders' rights to seek non-monetary relief such as an injunction or rescission in the event of a breach of a director's duty of care.

Insofar as indemnification for liabilities arising under the Securities Act of 1933, as amended, may be permitted for its directors, officers, and controlling persons, pursuant to the foregoing provisions, or otherwise, the Company has been advised that in the opinion of the Securities and Exchange Commission this sort of indemnification is against public policy as expressed in the Securities Act of 1933, as amended, and is therefore unenforceable.

Edgar Filing: MORGAN GROUP HOLDING CO - Form 10KSB

At present, there is no pending litigation or proceeding involving any of our directors, officers, employees or agents where indemnification will be required or permitted.
