Municipal High Income Fund Inc.

Dear Shareholder:

We are pleased to provide the annual report for Municipal High Income Fund Inc. ("Fund") for the year ended October 31, 2002. In this report, we summarize what we believe to be the period's prevailing economic and market conditions and outline our investment strategy. A detailed summary of the Fund's performance can be found in the appropriate sections that follow. We hope you find this report to be useful and informative.

Special Notice to Shareholders

Please note that R. Jay Gerken, a managing director of Salomon Smith Barney, Inc., has been elected Chairman of the Board and Chief Executive Officer of the Fund replacing Heath B. McLendon, who has been appointed Chairman of Salomon Smith Barney Inc.'s new Equity Research Policy Committee. On behalf of all our shareholders and the Fund's Board of Directors, I would like to extend my deepest gratitude to Heath for his dedication to keeping our shareholders' needs as the firm's top priority. Previously, Jay managed the Smith Barney Growth and Income Fund for six years; developed and managed the Smith Barney Allocation Series Inc. from inception in 1996 through the end of 2001; and was responsible for the investment design and implementation of Citigroup Asset Management's college savings programs with the states of Illinois and Colorado.

Performance Review(1)

During the past twelve months, the Fund distributed income dividends to shareholders totaling \$0.57 per share. The table on page 2 details the annualized distribution yield and the twelve-month total return for the Fund based on its October 31, 2002 net asset value ("NAV") per share and the New York Stock Exchange ("NYSE") closing price. (2)

(1) Past performance is not indicative of future results.

Edgar Filing: MUNICIPAL HIGH INCOME FUND INC - Form N-30D

- (2) NAV is calculated by subtracting total liabilities from the closing value of all securities held by the Fund (plus all other assets) and dividing the result (total net assets) by the total number of shares outstanding. The NAV fluctuates with changes in the market prices of securities in which the Fund has invested. However, the price at which an investor may buy or sell shares of the Fund is at the Fund's market (NYSE) price as determined by supply of and demand for the Fund's shares.

1

===== [CLIP ART] =====

Price Per Share	Annualized Distribution Yield(3)	Twelve-Month Total Return(3)
\$8.16 (NAV)	6.84%	0.91%
\$7.68 (NYSE)	7.27%	(4.70)%

The Fund's Lipper Inc. ("Lipper") (4) peer group of high-yield municipal debt closed-end funds returned 1.81% based on NAV for the year ended October 31, 2002.

Investment Strategy

The Fund's investment objective is to maximize current income exempt from federal income tax(5) by investing, under normal circumstances, at least 80% of the value of its net assets, plus any borrowings for investment purposes, in intermediate-term and long-term municipal securities.

Portfolio Manager Market Review and Outlook

The past year has been characterized by slow economic growth, disappointing corporate earnings and increased corporate governance concerns. Weaker economic reports in the latter part of the period raised fears of a "double-dip" recession, with many market participants calling for the U.S. Federal Reserve Board ("Fed") to further reduce short-term interest rates in order to add more stimulus to the economy. Heightened geo-political risk and the potential for war in Iraq also weighed on the markets. Against this backdrop, equity markets plummeted, while the fixed-income markets staged a strong move that drove U.S. Treasury and municipal yields to four decade lows. After rallying for six months, municipal and other fixed income markets sold off sharply during October in response to a rebound in equity prices. After exhibiting extraordinary volatility for a couple of weeks in the middle of the month, the municipal debt market began showing signs of stabilizing at the new higher yield levels by the end of the reporting period.

- (3) Total returns are based on changes in NAV or the market price, respectively. Total returns assume the reinvestment of all dividends and/or capital gains distributions in additional shares. Annualized distribution yield is the Fund's current monthly income dividend rate, annualized, and then divided by the NAV or the market price noted in this report. The annualized distribution yield assumes a current monthly income dividend rate of \$0.0465 for 12 months. This rate is as of October 31, 2002 and is subject to change. The important difference between a total return and an annualized distribution yield is that the total return takes into consideration a number of factors including the fluctuation of the NAV or the market price during the period reported. The NAV fluctuation includes the effects of unrealized appreciation or depreciation in the

Edgar Filing: MUNICIPAL HIGH INCOME FUND INC - Form N-30D

Fund. Accordingly, since an annualized distribution yield only reflects the current monthly income dividend rate annualized, it should not be used as the sole indicator to judge the return you receive from your Fund investment.

- (4) Lipper is an independent mutual fund tracking organization. Average annual returns are based on the twelve-month period ended October 31, 2002, calculated among 12 funds in the high-yield municipal debt closed-end funds category.
- (5) Please note a portion of the Fund's income may be subject to the Alternative Minimum Tax ("AMT"). Capital gains, if any, are fully taxable. Please consult your personal tax adviser.

=====
[CLIP ART] =====

In our opinion, due to different supply and demand characteristics, municipal securities did not quite keep up with U.S. Treasury returns. U.S. Treasury markets not only benefited from core reallocation trends out of equities by large institutional investors, but also from very strong demand from mortgage market investors who needed to lengthen the duration(6) of their holdings to offset the acceleration in prepayments as rates declined.

In the municipal market, lower rates fueled record high year-to-date new issue volume as many issuers took advantage of this opportunity to refinance. The municipal market also saw a sizeable increase in the volume of tobacco settlement asset securitization deals as many states and counties resorted to this form of financing to plug budget gaps arising from the weak economy. Despite strong demand, we believe this abundance of supply left many municipal securities at or near record cheap levels relative to U.S. Treasuries. Specifically, at the end of the period, we saw that municipal security yields(7) were over 90% of the yield available on comparable maturity U.S. Treasuries across the yield curve(8) and by one measure, the Bond Buyer 25-Revenue Bond Index, (9) yields on long-term municipal securities were actually greater than the yield on 30-year U.S. Treasuries. Normally, the added value of tax-exemption allows municipals to trade at lower levels than comparable maturity treasuries. The decline in rates also steepened the yield curve drastically. The yield on tax-free money funds was, in our opinion, exceptionally low, forcing investors who wanted a reasonable return to extend into longer maturities. Most of this demand was concentrated in the intermediate maturity range.

The high yield segment of the municipal market did not participate in the rally enjoyed by higher rated issues. In our view, credit spreads(10) widened dramatically as the weak economy heightened concerns over the creditworthiness of these issues, more than offsetting the overall decline in yields on investment grade bonds. In October, the Lehman Brothers Non-Investment

-
- (6) Duration is a common gauge of the price sensitivity of a fixed income asset or portfolio to a change in interest rates.
 - (7) Municipal security yields as defined by the Bond Buyer's Municipal Bond Index, an index of yields for AA-rated and A-rated municipal bonds that is widely used by dealers to evaluate yields on new municipal bond issues. The index is published in The Bond Buyer, a daily publication specializing in fixed-income securities.
 - (8) The yield curve is the graphical depiction of the relationship between the yield on bonds of the same credit quality but different maturities.
 - (9) The Bond Buyer 25-Revenue Bond Index is the average yield on 25 revenue bonds rated "A1" by Moody's Investors Service, which is a nationally

=====
[CLIP ART] =====

Grade (High Yield) Municipal Index ("Lehman High Yield Index") (11) recorded its worst monthly return (negative 3.16%) since its inception in January of 1996. This index has underperformed the broad based investment-grade Lehman Brothers Municipal Bond Index (12) for seven consecutive months and the spread between the two indices increased to its highest recorded level of 435 basis points. (13) According to Lehman, (14) the performance of the Lehman High Yield Index was particularly hard hit by plummeting prices of special airport facilities bonds issued by airlines. After US Airways Group, Inc. filed for bankruptcy protection and the other major airlines continued reporting mounting losses in the wake of greatly reduced air travel and extraordinary security costs, the market reflected fears that some or all of the other airlines might also be forced into bankruptcy. According to Lehman, municipal bonds backed by airlines experienced price declines in a range of 7% to as much as 44%. The future will continue to be difficult for the airlines as they take draconian cost cutting measures in an attempt to stay out of bankruptcy court. Ultimately, we expect most, if not all of them, to remain viable, albeit with the help of government loan guarantees and possible government assumption of greatly increased security costs. Other market sectors that came under pressure in the weak economic environment included industrial development, life care retirement communities and toll roads. These sectors have experienced higher incidences of severe credit quality deterioration or default resulting in substantial price declines.

Looking ahead, we expect economic growth to remain sluggish over at least the next few months. On November 6th, the Fed surprised most market participants with a 50 basis point cut in the federal funds rate ("fed funds rate") (15) instead of a widely expected 25 basis point reduction. This gave rise to worries that the Fed may be concerned about something more than the "soft spot" in the economy and possible conflicts with Iraq cited in their post-meeting statement. The markets responded with more turmoil as bonds and equities faltered.

We think the Fed is likely to continue holding short-term interest rates at current low levels until there is solid evidence the economy is on sound footing for sustainable growth. In the long run, we feel the additional stimulus provided by the Fed and the Republican victory at the polls may be beneficial to the business climate and the economy. We also feel an improving economy

-
- (11) The Lehman High Yield Index includes issues which have a maximum credit rating of BA1, are issued as part of a deal of at least \$20 million, have an amount outstanding of at least \$3 million, have a maturity of at least one year, and have been issued after December 31, 1990. Please note that an investor cannot invest directly in an index.
- (12) The Lehman Brothers Municipal Bond Index is a broad measure of the municipal bond market with maturities of at least one year. Please note that an investor cannot invest directly in an index.
- (13) A basis point is one one-hundredth (1/100 or 0.01) of one percent.
- (14) Lehman Brothers Municipal Market Commentary, November 2002.
- (15) The fed funds rate is the interest rate that banks with excess reserves at a Federal Reserve district bank charge other banks that need overnight

Edgar Filing: MUNICIPAL HIGH INCOME FUND INC - Form N-30D

loans. The fed funds rate often points to the direction of U.S. interest rates.

[CLIP ART]

should provide a better operating environment for high yield issuers. Performance, however, will rest on the merits of the credits we hold and select for new commitments. We intend to increase our efforts to exercise care in credit selection. We believe that the high yield municipal market can continue to provide after tax income streams well above other market alternatives.

Looking for more information?

Municipal High Income Fund Inc. is traded on the New York Stock Exchange under the symbol "MHF." Daily closing prices are available online under symbol "MHF" and in most newspapers under the New York Stock Exchange listings. Barron's and The Wall Street Journal's Monday editions carry closed-end fund tables that provide weekly net asset value per share information. In addition, the Fund issues a quarterly allocation press release that can be found on most major financial web sites.

Thank you for investing in Municipal High Income Fund Inc. We look forward to continuing to help you meet your investment objectives.

Sincerely,

/s/ R. Jay Gerken

Take Advantage of the Fund's Dividend Reinvestment Plan!

Did you know that Fund investors may reinvest their dividends in an effort to take advantage of what can be one of the most effective wealth-building tools available today? When the Fund achieves its objectives, systematic investments by shareholders put time to work for them through the strength of compounding.

As an investor in the Fund, you can participate in its Dividend Reinvestment Plan ("Plan"), a convenient, simple and efficient way to reinvest your dividends and capital gains, if any, in additional shares of the Fund. A more complete description of the Plan begins on page 32. Below is a short summary of how the Plan works.

Plan Summary

If you are a Plan participant who has not elected to receive your dividends in the form of a cash payment, then your dividend and capital gain distributions will be reinvested automatically in additional shares of the Fund.

The number of common stock shares in the Fund you will receive in lieu of a cash dividend is determined in the following manner. If the market price of the common stock is equal to or higher than 98% of the net asset value ("NAV") per share on the date of valuation, you will be issued shares for the equivalent of either 98% of the most recently determined NAV per share or 95% of the market price, whichever is greater.

If 98% of the NAV per share at the time of valuation is greater than the market price of the common stock, the Fund will buy common stock for your account in the open market or on the New York Stock Exchange.

If the Fund begins to purchase additional shares in the open market and the market price of the shares subsequently rises above 98% of the NAV before the purchases are completed, the Fund will attempt to cancel any remaining orders and issue the remaining dividend or distribution in shares at 98% of the Fund's NAV per share. In that case, the number of Fund shares you receive will be based on the weighted average of prices paid for shares purchased in the open market and the price at which the Fund issues the remaining shares.

To find out more detailed information about the Plan and about how you can participate, please call PFPC Global Fund Services at 1 (800) 331-1710.

Municipal High Income Fund Inc.
Bond Ratings (unaudited)

[CLIP ART]

The definitions of the applicable ratings symbols are set forth below:

Standard & Poor's Ratings Service ("Standard & Poor's") -- Ratings from "AA" to "CCC" may be modified by the addition of a plus (+) or a minus (-) sign to show relative standings within the major rating categories.

AAA -- Bonds rated "AAA" have the highest rating assigned by Standard & Poor's. Capacity to pay interest and repay principal is extremely

Edgar Filing: MUNICIPAL HIGH INCOME FUND INC - Form N-30D

- strong.
- AA -- Bonds rated "AA" have a very strong capacity to pay interest and repay principal and differ from the highest rated issue only in a small degree.
 - A -- Bonds rated "A" have a strong capacity to pay interest and repay principal although it is somewhat more susceptible to the adverse effects of changes in circumstances and economic conditions than debt in higher rated categories.
 - BBB -- Bonds rated "BBB" are regarded as having an adequate capacity to pay interest and repay principal. Whereas they normally exhibit adequate protection parameters, adverse economic conditions or changing circumstances are more likely to lead to a weakened capacity to pay interest and repay principal for debt in this category than in higher rated categories.
 - BB, B, CCC and CC -- Bonds rated "BB", "B", "CCC" and "CC" are regarded, on balance, as predominantly speculative and with respect to capacity to pay interest and repay principal in accordance with the terms of the obligation. "BB" represents a lower degree of speculation than "B", and "CC" the highest degree of speculation. While such bonds will likely have some quality and protective characteristics, these are outweighed by large uncertainties or major risk exposures to adverse conditions.

Moody's Investors Service ("Moody's") -- Numerical modifiers 1, 2 and 3 may be applied to each generic rating from "Aa" to "Caa" where 1 is the highest and 3 the lowest rating within its generic category.

- Aaa -- Bonds rated "Aaa" are judged to be of the best quality. They carry the smallest degree of investment risk and are generally referred to as "gilt edge." Interest payments are protected by a large or by an exceptionally stable margin and principal is secure. While the various protective elements are likely to change, such changes as can be visualized are most unlikely to impair the fundamentally strong position of such issues.
- Aa -- Bonds rated "Aa" are judged to be of high quality by all standards. Together with the "Aaa" group they comprise what are generally known as high grade bonds. They are rated lower than the best bonds because margins of protection may not be as large in "Aaa" securities or fluctuation of protective elements may be of greater amplitude or there may be other elements present which make the long-term risks appear somewhat larger than in "Aaa" securities.
- A -- Bonds rated "A" possess many favorable investment attributes and are to be considered as upper medium grade obligations. Factors giving security to principal and interest are considered adequate but elements may be present which suggest a susceptibility to impairment some time in the future.

Municipal High Income Fund Inc.
Bond Ratings (unaudited) (continued)

[CLIP ART]

=====

- Baa -- Bonds rated "Baa" are considered as medium grade obligations, i.e., they are neither highly protected nor poorly secured. Interest payments and principal security appear adequate for the present but certain protective elements may be lacking or may be characteristically unreliable over any great length of time. Such bonds lack outstanding investment characteristics and in fact have

Edgar Filing: MUNICIPAL HIGH INCOME FUND INC - Form N-30D

- speculative characteristics as well.
- Ba -- Bonds rated "Ba" are judged to have speculative elements; their future cannot be considered as well assured. Often the protection of interest and principal payments may be very moderate thereby not well safeguarded during both good and bad times over the future. Uncertainty of position characterizes bonds in this class.
 - B -- Bonds rated "B" generally lack characteristics of desirable investments. Assurance of interest and principal payments or of maintenance of other terms of the contract over many long period of time may be small.
 - Caa -- Bonds that are rated "Caa" are of poor standing. These issues may be in default, or there may be present elements of danger with respect to principal or interest.
 - Ca -- Bonds rated "Ca" represent obligations which are speculative in a high degree. Such issues are often in default or have other marked shortcomings.

Fitch IBCA, Duff & Phelps ("Fitch") -- Ratings from "BBB" to "CCC" may be modified by the addition of a plus (+) or a minus (-) sign to show relative standings with the major ratings categories.

- BBB -- Bonds rated "BBB" by Fitch currently have a low expectation of credit risk. The capacity for timely payment of financial commitments is considered to be adequate. Adverse changes in economic conditions and circumstances, however, are more likely to impair this capacity. This is the lowest investment grade category assigned by Fitch.
- BB -- Bonds rated "BB" by Fitch carry the possibility of credit risk developing, particularly as the result of adverse economic change over time. Business or financial alternatives may, however, be available to allow financial commitments to be met. Securities rated in this category are not considered by Fitch to be investment grade.
- CCC, CC and C -- Default on bonds rated "CCC", "CC" and "C" by Fitch is a real possibility. The capacity to meet financial commitments depends solely on a sustained, favorable business and economic environment. Default of some kind on bonds rated "CC" appears probable, a "C" rating indicates imminent default.
- NR -- Indicates that the bond is not rated by Standard & Poor's, Moody's or Fitch.

Short-Term Bond Ratings (unaudited)

- =====
- A-1 -- Standard & Poor's highest commercial paper and variable-rate demand obligation (VRDO) rating indicating that the degree of safety regarding timely payment is either overwhelming or very strong; those issues determined to possess overwhelming safety characteristics are denoted with a plus (+) sign.
 - VMIG 1 -- Moody's highest rating for issues having a demand feature -- VRDO.

[CLIP ART] Municipal High Income Fund Inc.
Notes to Financial Statements
=====

1. Significant Accounting Policies

Municipal High Income Fund Inc. ("Fund"), a Maryland corporation, is registered under the Investment Company Act of 1940, as amended, as a diversified, closed-end management investment company.

The significant accounting policies consistently followed by the Fund are: (a) security transactions are accounted for on trade date; (b) securities are valued at the mean between the bid and asked prices provided by an independent pricing service. Securities with no readily obtainable market quotations are valued at fair value as determined by an independent pricing service under the supervision of the Fund's Board of Directors; (c) securities maturing within 60 days are valued at cost plus accreted discount, or minus amortized premium, which approximates value; (d) gains or losses on the sale of securities are calculated by using the specific identification method; (e) interest income, adjusted for amortization of premium and accretion of discount, is recorded on an accrual basis; (f) dividends and distributions to shareholders are recorded on the ex-dividend date; (g) the Fund intends to comply with the applicable provisions of the Internal Revenue Code of 1986, as amended, pertaining to regulated investment companies and to make distributions of taxable income sufficient to relieve it from substantially all Federal income and excise taxes; (h) the character of income and gains to be distributed are determined in accordance with income tax regulations which may differ from accounting principles generally accepted in the United States of America. At October 31, 2002, reclassifications were made to the Fund's capital accounts to reflect permanent book/tax differences and income and gains available for distributions under income tax regulations. Accordingly, a portion of accumulated net realized loss amounting to \$1,197,488 was reclassified to paid-in capital. Net investment income, net realized gains and net assets were not affected by this adjustment; and (i) estimates and assumptions are required to be made regarding assets, liabilities and changes in net assets resulting from operations when financial statements are prepared. Changes in the economic environment, financial markets and any other parameters used in determining these estimates could cause actual results to differ.

Edgar Filing: MUNICIPAL HIGH INCOME FUND INC - Form N-30D

In addition, the Fund invests in high yield instruments that are subject to certain credit and market risks. The yields of high yield debt obligations reflect, among other things, perceived credit risk. The Fund's investment in securities rated below investment grade typically involve risks not associated with higher rated securities including, among others, greater risk of timely and ultimate payment of interest and principal, greater market price volatility and less liquid secondary market trading.

In November 2000, the American Institute of Certified Public Accountants ("AICPA") issued a revised version of the AICPA Audit and Accounting Guide for Investment Companies ("Guide"). This Guide is effective for financial statements issued for fiscal years beginning after December 15, 2000. The revised Guide requires the Fund to amortize premium and accrete all discounts on all fixed-income securities. The Fund adopted this requirement November 1, 2001. This change does not affect the Fund's net asset value, but does change the classification of certain amounts in the

23

Municipal High Income Fund Inc.
Notes to Financial Statements (continued)

[CLIP ART]

=====

statement of operations. For the year ended October 31, 2002, interest income increased by \$74,113, net realized loss increased by \$8,564 and the change in net unrealized depreciation of investments increased by \$65,549. In addition, the Fund recorded adjustments to increase the cost of securities and increase undistributed net investment income by \$125,262 to reflect the cumulative effect of this change up to the date of the adoption.

2. Exempt-Interest Dividends and Other Distributions

The Fund intends to satisfy conditions that will enable interest from municipal securities, which is exempt from Federal income tax, to retain such tax-exempt status when distributed to the shareholders of the Fund.

Capital gains distributions, if any, are taxable to shareholders, and are declared and paid at least annually.

3. Investment Advisory Agreement, Administration Agreement and Other Transactions

Smith Barney Fund Management LLC ("SBFM"), a subsidiary of Salomon Smith Barney Holdings Inc., which, in turn, is a subsidiary of Citigroup Inc. ("Citigroup"), acts as investment adviser to the Fund. The Fund pays SBFM an advisory fee calculated at an annual rate of 0.40% of the average daily net assets. SBFM also acts as the administrator of the Fund for which it receives a fee calculated at an annual rate of 0.20% of the average daily net assets. These fees are calculated daily and paid monthly.

All officers and one Director of the Fund are employees of Citigroup or its affiliates.

4. Investments

During the year ended October 31, 2002, the aggregate cost of purchases and proceeds from sales of investments (including maturities, but excluding short-term securities) were as follows:

Purchases \$ 57,015,012

Edgar Filing: MUNICIPAL HIGH INCOME FUND INC - Form N-30D

Sales	\$ 58,768,163
-------------	---------------

At October 31, 2002, the aggregate gross unrealized appreciation and depreciation of investments for Federal income tax purposes were substantially as follows:

Gross unrealized appreciation	\$ 4,028,973
Gross unrealized depreciation	(22,687,491)
Net unrealized depreciation	\$(18,658,518)

Municipal High Income Fund Inc.
Notes to Financial Statements (continued)

5. Futures Contracts

Initial margin deposits made upon entering into futures contracts are recognized as assets. Securities equal to the initial margin amount are segregated by the custodian in the name of the broker. Additional securities are also segregated up to the current market value of the futures contracts. During the period the futures contract is open, changes in the value of the contract are recognized as unrealized gains or losses by "marking to market" on a daily basis to reflect the market value of the contract at the end of each day's trading. Variation margin payments are received or made and recognized as assets due from or liabilities due to broker, depending upon whether unrealized gains or losses are incurred. When the contract is closed, the Fund records a realized gain or loss equal to the difference between the proceeds from (or cost of) the closing transactions and the Fund's basis in the contract. The Fund enters into such contracts to hedge a portion of its portfolio. The Fund bears the market risk that arises from changes in the value of the financial instruments and securities indices (futures contracts).

At October 31, 2002, the Fund had the following open futures contracts:

	# of Contracts	Expiration	Basis Value	Market Value	Unrealized Loss
Sold Contracts:					
U.S. Treasury 20 Year Bond	150	12/02	\$16,153,125	\$16,598,437	\$(445,312)

6. Capital Loss Carryforward

At October 31, 2002, the Fund had, for Federal income tax purposes, approximately \$3,744,000 of unused capital loss carryforwards available to offset future capital gains. To the extent that these carryforward losses are used to offset capital gains, it is probable that the gains so offset will not be distributed. The amount and year of expiration for each carryforward loss is indicated below. Expiration occurs on October 31 of the year indicated:

Edgar Filing: MUNICIPAL HIGH INCOME FUND INC - Form N-30D

	2003	2004	2005	2007	2008	2009
Carryforward amounts	\$270,000	\$205,000	\$400,000	\$786,000	\$748,000	\$733,000

7. Income Tax Information and Distributions to Shareholders At October 31, 2002, the tax basis components of distributable earnings were:

Undistributed tax exempt income	\$ 339,577
Undistributed ordinary income	--
Accumulated capital losses	(3,743,721)
Unrealized depreciation	(18,658,518)

25

[CLIP ART] Municipal High Income Fund Inc.
Notes to Financial Statements (continued)

The difference between book basis and tax basis unrealized depreciation is attributable primarily to mark to market losses and remaining AICPA accretion adjustment.

The tax character of distributions paid during the year ended October 31, 2002 was:

Tax exempt income	\$11,889,314
Ordinary income	13,182
Long term capital gains	--
Total	\$11,902,496

8. Capital Shares

At October 31, 2002, the Fund had 500,000,000 shares of capital stock authorized with a par value of \$0.01 per share. Capital stock transactions were as follows:

	Year Ended October 31, 2002		Year Ended October 31, 2001	
	Shares	Amount	Shares	Amount
Shares issued on reinvestment ..	174,992	\$1,446,084	235,025	\$2,166,492

26

[CLIP ART] Municipal High Income Fund Inc.
Financial Highlights

For a share of capital stock outstanding throughout each year ended October 31, unless otherwise noted:

Edgar Filing: MUNICIPAL HIGH INCOME FUND INC - Form N-30D

	2002	2001	2000	1999
	----	----	----	----
Net Asset Value, Beginning of Year	\$ 8.67	\$ 8.86	\$ 9.00	\$ 9.7
Income (Loss) From Operations:				
Net investment income(1)	0.58	0.59	0.60	0.5
Net realized and unrealized gain (loss)(1)	(0.52)	(0.20)	(0.16)	(0.7)
Total Income (Loss) From Operations	0.06	0.39	0.44	(0.1)
Less Distributions From:				
Net investment income	(0.57)	(0.58)	(0.58)	(0.5)
In excess of net investment income	--	--	--	--
Total Distributions	(0.57)	(0.58)	(0.58)	(0.5)
Net Asset Value, End of Year	\$ 8.16	\$ 8.67	\$ 8.86	\$ 9.0
Total Return, Based on Market Value	(4.70)%	13.85%	9.39%	(15.7)
Total Return, Based on				
Net Asset Value	0.91%	4.77%	5.97%	(1.7)
Net Assets, End of Year (000s)	\$ 170,508	\$ 179,568	\$ 181,326	\$ 184,08
Ratios to Average Net Assets:				
Expenses	0.80%	0.82%	0.71%	0.7
Net investment income(1)	6.84	6.74	6.72	6.0
Portfolio Turnover Rate	33%	15%	27%	2
Market Value, End of Year	\$ 7.680	\$ 8.640	\$ 8.125	\$ 8.00

(1) Without the adoption of the change in the accounting method discussed in Note 1 to the financial statements, for the year ended October 31, 2002, the ratio of net investment income to average net assets would have been 6.80%. Per share, ratios and supplemental data for the periods prior to November 1, 2001 have not been restated to reflect this change in presentation. In addition, the impact of this change to net investment income and net realized and unrealized loss was less than \$0.01 per share.

[CLIP ART] Municipal High Income Fund Inc.
Independent Auditors' Report

The Shareholders and Board of Directors of
Municipal High Income Fund Inc.:

We have audited the accompanying statement of assets and liabilities, including the schedule of investments, of Municipal High Income Fund Inc. ("Fund") as of October 31, 2002, and the related statement of operations for the

Edgar Filing: MUNICIPAL HIGH INCOME FUND INC - Form N-30D

year then ended, the statements of changes in net assets for each of the years in the two-year period then ended and financial highlights for each of the years in the five-year period then ended. These financial statements and financial highlights are the responsibility of the Fund's management. Our responsibility is to express an opinion on these financial statements and financial highlights based on our audits.

We conducted our audits in accordance with auditing standards generally accepted in the United States of America. Those standards require that we plan and perform the audit to obtain reasonable assurance about whether the financial statements and financial highlights are free of material misstatement. An audit includes examining, on a test basis, evidence supporting the amounts and disclosures in the financial statements. Our procedures included confirmation of securities owned as of October 31, 2002, by correspondence with the custodian. As to securities sold but not yet delivered, we performed other appropriate auditing procedures. An audit also includes assessing the accounting principles used and significant estimates made by management, as well as evaluating the overall financial statement presentation. We believe that our audits provide a reasonable basis for our opinion.

In our opinion, the financial statements and financial highlights referred to above present fairly, in all material respects, the financial position of the Fund as of October 31, 2002, and the results of its operations for the year then ended, the changes in its net assets for each of the years in the two-year period then ended, and financial highlights for each of the years in the five-year period then ended, in conformity with accounting principles generally accepted in the United States of America.

Municipal High Income Fund Inc.
 Dividend Reinvestment Plan (unaudited)

[CLIP ART]

=====

The Fund's policy, which may be changed by the Fund's Board of Directors, is generally to make monthly distributions of substantially all its net investment income (i.e., income other than net realized capital gains) to the holders of the Fund's common stock. From time to time, when the Fund makes a substantial capital gains distribution, it may do so in lieu of paying its regular monthly dividend, net income of the Fund consists of all interest income accrued on portfolio assets less all expenses of the Fund. Expenses of the Fund are accrued each day. Net realized capital gains, if any, will be distributed to the shareholders at least once a year.

Under the Fund's Dividend Reinvestment Plan ("Plan"), a shareholder whose common stock is registered in his or her own name will have all distributions reinvested automatically by PFPC Global Fund Services ("PFPC"), as purchasing agent under the Plan, unless the shareholder elects to receive cash. Distributions with respect to shares registered in the name of a broker-dealer or other nominee (that is, in "street name") will be reinvested by the broker or nominee in additional shares under the Plan, unless the service is not provided by the broker or nominee or the shareholder elects to receive distributions in cash. Investors who own common stock registered in street name should consult their broker-dealers for details regarding reinvestment. All distributions to shareholders who do not participate in the Plan will be paid by check mailed directly to the record holder by or under the direction of PFPC, as dividend-paying agent.

The number of shares of common stock distributed to participants in the Plan in lieu of a cash dividend is determined in the following manner. Whenever the market price of the common stock is equal to or exceeds 98% of net asset value ("NAV") per share on the determination date (generally, the record date for the distribution), participants will be issued shares of common stock valued at the greater of (1) 98% of the NAV or (2) 95% of the market price. To the extent that the Fund issues shares to participants in the Plan at a discount to

Edgar Filing: MUNICIPAL HIGH INCOME FUND INC - Form N-30D

NAV, the interests of remaining shareholders (i.e., those who do not participate in the Plan) in the Fund's net assets will be proportionately diluted.

If 98% of the NAV per share of the common stock at the time of valuation (which is the close of business on the determination date) exceeds the market price of common stock, PFPC will buy common stock in the open market, on the NYSE or elsewhere, for the participants' accounts. If, following the commencement of the purchases and before PFPC has completed its purchases, the market price exceeds 98% of what the NAV per share of the common stock was at the valuation time, PFPC will attempt to terminate purchases in the open market and cause the Fund to issue the remaining portion of the dividend or distribution by issuing shares at a price equal to the greater of (1) 98% of the NAV per share as of the valuation time, or (2) 95% of the then current market price. In this case, the number of shares of common stock received by a Plan participant will be based on the weighted average of prices paid for shares purchased in the open market and the price at which the Fund issues the remaining shares. To the extent PFPC is unable to stop open market purchases

Municipal High Income Fund Inc.
[CLIP ART] Dividend Reinvestment Plan (unaudited) (continued)

and cause the Fund to issue the remaining shares, the average per share price paid by PFPC may exceed 98% of the NAV per share of the common stock. PFPC will begin to purchase common stock on the open market as soon as practicable after the payment date of the dividend or capital gains distribution, but in no event shall such purchases continue later than 30 days after that date, except when necessary to comply with applicable provisions of the Federal securities laws.

PFPC maintains all shareholder accounts in the Plan and furnishes written confirmations of all transactions in each account, including information needed by a shareholder for personal and tax records. The automatic reinvestment of dividends and capital gains distributions will not relieve Plan participants of any income tax that may be payable on the dividends or capital gains distributions. Common stock in the account of each Plan participant will be held by PFPC in uncertificated form in the name of the Plan participant.

Plan participants are subject to no charge for reinvesting dividends and capital gains distributions under the Plan. PFPC's fees for handling the reinvestment of dividends and capital gains distributions will be paid by the Fund. No brokerage charges shall apply with respect to shares of common stock issued directly by the Fund under the Plan. Each Plan participant will, however, bear a pro-rata share of brokerage commissions actually incurred with respect to any open market purchases made under the Plan.

Experience under the Plan may indicate that changes to it are desirable. The Fund reserves the right to amend or terminate the Plan as applied to any dividend or capital gains distribution paid subsequent to written notice of the change sent to participants at least 30 days before the record date for the dividend or capital gains distribution. The Plan also may be amended or terminated by PFPC or the Fund on at least 30 days' written notice to Plan participants. All correspondence concerning the Plan should be directed by mail to PFPC Global Fund Services, P.O. Box 8030, Boston, Massachusetts 02266-8030 or by telephone at 1 (800) 331-1710.

Notice is hereby given in accordance with Section 23(c) of the Investment

Edgar Filing: MUNICIPAL HIGH INCOME FUND INC - Form N-30D

Company Act of 1940, as amended, that from time to time the Fund may purchase at market prices shares of its common stock in the open market. As of October 31, 2002, the Fund has not repurchased any shares.
