December 2009

### W. Douglas Munn

President and Chief Executive Officer

#### **Dear Shareholder:**

We are pleased to provide the Annual Report for Evergreen Multi-Sector Income Fund for the twelve-month period ended October 31, 2009 (the period).

Capital markets throughout the globe continued to experience extreme pressure during the period. Home prices fell and job losses persisted. Distrust prevailed, and counterparty risk, whether real or imagined, escalated. Inter-bank lending ceased to exist, and the credit markets froze. In response, the Federal Reserve Board (the Fed ), the U.S. Treasury, the Federal Deposit Insurance Corporation, and the Securities and Exchange Commission took a series of dramatic and innovative steps to help the economy and the financial markets emerge from this crisis. In October 2008, Congress rushed through a \$700 billion rescue plan designed to address the capital inadequacy of banks. Meanwhile, in a further effort to re-stimulate lending activity, the Fed twice slashed the key fed funds rate in October, bringing the influential overnight lending rate to just 1.00%. The Fed slashed rates again in December to near zero, where it stayed during the remainder of the period. Overseas, other major central banks also cut short-term rates to inject liquidity into the financial markets. At the same time, foreign governments took other measures to buttress financial institutions.

Early in 2009, the fixed income markets worried about deflation, as evidenced by investor willingness to accept virtually nothing for short-term loans to the government. Concerns about federal spending also increased with the \$787 billion American Recovery and Reinvestment Act of 2009, signed into law in February. Yields climbed for longer-term U.S. Treasuries during the first quarter of 2009. International markets were hit hard, as economies in both developed and emerging countries struggled. Equity markets were affected by the weakness in economic data and corporate profits, although stocks rallied off their March 9th lows, with international and small cap stocks leading the gains. Signs of stability emerged in the corporate credit markets, as both issuance and performance improved. Stocks finished a banner third quarter, with all major market indexes climbing by approximately 15%, as investor sentiment was buoyed by signs of improvement in the economy and corporate earnings. At fiscal year end, however, stocks closed lower for the first time in seven months as investors questioned whether the huge rally had exceeded the economy s ability to generate growth in output and profits. The weakness in U.S. markets failed to extend beyond our borders, as developed markets, which had also rallied off the lows of last year, experienced just a fractional loss in October 2009, and emerging markets managed to rise by 1%, adding to impressive year-to-date returns by the end of the period.

#### **LETTER TO SHAREHOLDERS** continued

Fortunately, the fundamental picture has brightened. Better-than-expected economic data at the end of the fiscal year suggests the possibility of improvements in corporate performance. Interest rates and inflation remain low, providing a healthy backdrop for corporations that have been very aggressive cutting costs from their expense structures. However, given our projections for a less spectacular recovery in 2010, we continue to question whether the fundamentals are in place for sustainable growth. Until we see stabilization in home prices and employment, it is unlikely that activity will exceed anything beyond what is considered to be below potential for any period of time.

During a volatile and challenging period in the capital markets, the investment managers of Evergreen Multi-Sector Income Fund maintained their strategy seeking a high level of income with limited exposure to the risks from changing interest rates. Assets of this closed-end fund were allocated among sleeves of U.S. high yield, corporate bonds, investment-grade foreign debt securities and U.S. adjustable-rate, mortgage-backed securities.

We believe the changing conditions in the investment environment over the period have underscored the value of a well-diversified, long-term investment strategy to help soften the effects of volatility in any one market or asset class. As always, we encourage investors to maintain diversified investment portfolios in pursuit of their long-term investment goals.

Sincerely,

### W. Douglas Munn
