Managed Distribution Plan (“MDP”)

The Board of Directors (the “Board”) of The Mexico Fund, Inc. (the “Fund”) has authorized quarterly distributions under the MDP at an annual rate of 6% of the Fund’s net asset value (“NAV”) per share recorded on the last business day of the previous calendar year. With each distribution, the Fund will issue a notice to stockholders and an accompanying press release which will provide detailed information regarding the amount and composition of the distribution and other information required by the Fund’s MDP exemptive order. The Board may amend or terminate the MDP at any time without prior notice to stockholders; however, at this time, there are no reasonably foreseeable circumstances that might cause the termination of the MDP. You should not draw any conclusions about the Fund’s investment performance from the amount of distributions or from the terms of the Fund’s MDP.

2016 Semi Annual Report

April 30, 2016

Highlights

- The first half of the Fund's fiscal year 2016 ended on April 30, 2016. Mexico's gross domestic product ("GDP") grew 2.6% during both calendar year 2015 and the first quarter of 2016, as compared with the same period of the previous year. Analysts surveyed by the Mexican Central Bank ("Banxico") estimate Mexican GDP growth of 2.4% for calendar year 2016 and 2.9% for calendar year 2017. During the first half of fiscal year 2016, the Fund's NAV per share registered a total return of -0.02%, compared with returns of -0.51% and -0.50% over the same period registered by the Morgan Stanley Capital International ("MSCI") Mexico Index and the Bolsa IPC Index, respectively. In local currency, the NAV per share total return was 4.06%, compared with returns of 3.56% and 3.57% over the same period registered by the MSCI Mexico Index and the Bolsa IPC Index, respectively. During the first half of fiscal year 2016, the Fund's market price per share registered a total return of -0.04%. As of April 30, 2016, the Fund's market price and NAV per share were \$17.65 and \$20.00, respectively, reflecting a discount of 11.75%, compared with a discount of 11.28% at the end of fiscal year 2015. Under the Fund's Equity Shelf Program ("ESP"), the Fund did not issue shares during the first half of fiscal year 2016. Given the discount at which Fund shares have traded recently, on December 4, 2015, the Board decided not to renew the Fund's ESP. The Fund's repurchase policy allows the Fund to repurchase its own stock in the market whenever the Fund's discount exceeds 10%. During the first half of fiscal year 2016, the Fund repurchased 17,178 Fund shares in the open market. The Fund has declared a distribution of \$0.2831 per share under its MDP, to be paid on July 26, 2016, to stockholders of record on July 14, 2016.

¹ All performance figures included here take into account the reinvestment of distributions.

The Mexico Fund, Inc. is a non-diversified closed-end management investment company with the investment objective of long-term capital appreciation through investments in securities, primarily equity, listed on the Mexican Stock Exchange. The Fund provides a vehicle to investors who wish to invest in Mexican companies through a managed non-diversified portfolio as part of their overall investment program.

Notice is hereby given in accordance with Section 23(c) of the Investment Company Act of 1940, as amended (the "1940 Act"), that the Fund may purchase, from time to time, shares of its common stock in the open market.

To Our Stockholders:

We present to you the Fund's 2016 Semi Annual Report for the six-month period ended April 30, 2016. In this report, we summarize the period's prevailing economic, political and market conditions in Mexico and outline the Fund's investment strategy and resulting performance. We hope you find this report useful and informative.

Economic and Political Environment

During calendar year 2015, Mexico's GDP expanded 2.6%, despite a difficult external environment and a significant drop in oil prices, due to robust domestic consumption. During the first quarter of 2016, GDP also expanded at an annual rate of 2.6%.

During the first half of fiscal year 2016, oil prices declined further with the price of West Texas Intermediate oil (used as a benchmark for oil pricing) and the Mexican oil mix decreasing 8.8% and 4.4%, respectively, to \$46 and \$38 USD/bbl. Due to the decline in oil prices, the dependence of the Mexican economy on oil revenues has diminished, as in 2015 it represented 20% of public sector revenues and 6% of GDP, compared to 35% of public sector revenues and 10% of GDP in 2013. The Mexican government hedged a significant portion of oil exports for 2016 at \$49 USD/bbl.

Notwithstanding the above, Mexico's energy reform has progressed. During 2015, the National Hydrocarbons Commission ("CNH") held three rounds of auctions for both domestic and foreign companies, related to shallow water blocks and mature onshore blocks. More significant investments are expected under the auction of 10 license agreements for exploration and production in deep waters, which is expected to take place during 2016.

Due to the lower oil revenues and in order to maintain a strong fiscal position, the Mexican Government announced public expenditure cuts for 2016 of \$132 billion pesos ("Ps."), equivalent to 0.7% of GDP, and Ps. 175 billion for 2017, (0.9% of GDP), in addition to public expenditure cuts of Ps. 124 billion (0.7% of GDP) applied during 2015. Furthermore, Banxico transferred Ps. 239 billion to the Federal Government corresponding to its operational surplus during 2015. The government will use the proceeds from Banxico as follows: 70% to buy back outstanding public debt and reduce the amount of debt placements during 2016 and 30% to contribute to the country's budget revenue stabilization fund. The government announced, on May 4, 2016, that it repurchased Ps. \$98 billion of outstanding public debt.

As a result of the measures mentioned above, public finances are healthy and Mexico's fiscal deficit was 3.5% in 2015 and is expected to decrease during the following years. Inflation is near its lowest historical levels, registering an annual rate of 2.5% as of April 2016.

The Federal Reserve (the "Fed") has maintained its overnight interest rate between the range of 0.25% and 0.50%, after an increase of 25 basis points in December 2015. Conversely, Banxico increased its overnight interest rate 50 basis points to 3.75% at a meeting on February 17, 2016, after an increase of 25 basis points in December 2015. Analysts are expecting additional increases in both countries' interest rates during 2016. Moreover, the European Central Bank (the "ECB") increased its monetary stimulus by reducing its main refinancing rate by 5 basis points to 0.00% and increasing its bond buying by €20 billion per month to €80 billion.

The Mexican peso depreciated 3.9% against the U.S. dollar to Ps. 17.18 in the six-month period ended on April 30, 2016. The Foreign Exchange Commission canceled, on February 17, 2016, the mechanisms under which it auctioned up to \$400 million dollars in the market during any given day. These mechanisms were set to expire on March 31, 2016. However, the possibility was left open to sell dollars to the market on a discretionary basis. From February 17, 2016 to April 30, 2016, Banxico has sold \$2.0 billion to the market to reduce volatility and the peso appreciated 6.9%. We believe the peso depreciation has been derived from the decrease in oil and other commodity prices and expectations that the Fed will keep increasing its interest rate.

Mexican economists surveyed by Banxico at the end of April 2016 estimate GDP growth for 2016 and 2017 at 2.4% and 2.9%, respectively, with inflation at annual rates of 3.2% and 3.4%, respectively. Economists also expect the overnight interest rate to reach 4.2% and 4.9% by the end of 2016 and 2017, respectively.

Table of Contents**The Mexico Fund, Inc.****Management Discussion of Fund's Performance and Portfolio Strategy**

During the first half of fiscal year 2016, the Fund's NAV declined¹ 0.02%, while the MSCI Mexico Index and the Bolsa IPC Index reported declines of 0.51% and 0.50%, respectively. The Mexican equity market was affected by the depreciation of the Mexican peso, as previously mentioned in this report. The Fund's market price declined 0.04% during the first half of 2016, resulting in a discount of 11.75%, a lower valuation as compared to the discount of 11.28% as of October 31, 2015.

The following table shows the annualized performance¹ of the Fund's market price and NAV per share, as well as that of the Fund's benchmark and the Bolsa IPC Index, for periods ended April 30, 2016.

During the first half of fiscal year 2016, Impulsora del Fondo México, S.C. (the “Adviser” or “Impulsora”) decreased the Fund’s position in industries related to domestic consumption as some issuers presented relative high valuations. On the other hand, the Adviser increased the Fund’s exposure to the financial sector as some issuers’ stock prices had sharp declines which translated into attractive valuations and the Adviser took advantage to reduce its underweight position relative to the MSCI Mexico Index. The Adviser increased the Fund’s cash position to 4.9% as of April 30, 2016, from 4.0% as of October 31, 2015, as the Adviser believes that attractive equity opportunities will arise in the months to come.

Table of Contents**The Mexico Fund, Inc.**

The following table shows the top five contributors to the performance of the Fund's NAV relative to the MSCI Mexico Index during the first half of fiscal year 2016. The table is sorted according to the contribution of these issuers to the Fund's outperformance relative to the MSCI Mexico Index and shows the issuers' market price returns during the period. The Fund's outperformance was achieved by double-digit returns in Ternium, Grupo Aeroportuario del Centro Norte and Alsea, as these issuers reported strong financial reports during the period and the Fund had an overweight exposure. In addition, the Fund benefited from underweight positions in América Móvil and Grupo Financiero Inbursa, which presented negative returns during the period.

Portfolio Composition by Industry**Percentage of Net Assets and Weights on MSCI Mexico Index**

April 30, 2016

During the first half of fiscal year 2016, a total of 4,082,869 Fund shares traded on all U.S. consolidated markets, resulting in a daily average value of shares traded of \$551,314 dollars, higher than the daily average of \$436,600 dollars during the same period for comparable funds³.

The average price-to-earnings ratio (“PER”) of the Mexican equity market at the end of April 2016 was 22.8 times, while the price-to-book value ratio was 2.8 times⁴. The market capitalization of the Bolsa at the end of April 2016 amounted to \$462.8 billion. During the first quarter of calendar year 2016, financial statements of Mexican listed companies showed, in general, solid operating results, as revenues and EBITDA⁵ increased 12.0% and 8.7%, respectively, much higher than the overall economic figures already mentioned in this report. Net profit increased 36.2% due to the positive consumption environment and lower foreign exchange losses reported during the quarter compared with the same period of 2015. The Adviser will continue to be prudent in identifying companies with strong balance sheets that include manageable debt levels, positive free cash flows, strong corporate governance policies, high-quality management teams, attractive growth potential and proven business models.

2 Since the Fund acquired shares in this issuer, the stock price return is 21.17% as of April 30, 2016.

Table of Contents**The Mexico Fund, Inc.****Annual Meeting of Stockholders**

The Fund held its Annual Meeting of Stockholders on March 16, 2016 at 9:30 a.m. Central time at the John Jacob Boardroom on the Mezzanine Level of the St. Regis Hotel, located at 1919 Briar Oaks Lane, Houston, Texas 77027. Stockholders re-elected Edward P. Djerejian and Claudio X. González as Directors of the Fund and elected Alberto Osorio as a new Board member. A total of 12,315,739.38 shares were represented in the meeting, constituting a quorum of 81.86%.

Regarding the election of the Fund's Class II Directors, the results of the Annual Meeting were as follows*:

	For	% Outstanding	% of Voted	Withheld	% Outstanding	% of Voted
Edward P. Djerejian	11,773,871.74	78.26%	95.60%	541,867.64	3.60%	4.40%
Claudio X. González	10,973,694.28	72.94%	89.10%	1,342,045.09	8.92%	10.90%
Alberto Osorio	11,126,585.76	73.96%	90.34%	1,189,153.61	7.90%	9.66%

* There were no abstentions or broker non-votes with regard to the election of the Fund's Class II Directors.

Equity Shelf Program (ESP)

Since June 2013, the Fund issued additional Fund shares when the Fund traded at a premium under the ESP. The ESP was conducted pursuant to a shelf registration statement filed with the Securities and Exchange Commission ("SEC"). The ESP was set to expire on June 2016 and, as the Fund has been trading at a discount greater than 10%, the Board decided not to renew the program in February 2016. During the period the ESP was in place, the Fund issued a total of 1.5 million shares, resulting in additional available assets of \$44.2 million.

Open Market Repurchases

The Fund's repurchase policy allows the Fund to repurchase its own stock in the market whenever the Fund's discount exceeds 10%. During the first half of fiscal year 2016, the Fund repurchased 17,178 Fund shares in the open market.

Declaration of Distributions Under the MDP

Under the MDP, the Fund pays quarterly distributions at an annual rate of 6% of the Fund's NAV per share recorded on the last business day of the previous calendar year. Pursuant to the MDP, the Board has declared a dividend distribution of \$0.2831 per share, payable in cash on July 26, 2016 to stockholders of record on July 14, 2016.

For each distribution under the MDP, the Fund will issue a notice to stockholders and an accompanying press release which will provide detailed information regarding the amount and composition of the distribution and other information. The Board may amend or terminate the MDP at any time without prior notice to stockholders; however, at this time, there are no reasonably foreseeable circumstances that might cause the termination of the MDP. You should not draw any conclusions about the Fund's investment performance from the amount of distributions or from the terms of the Fund's MDP.

As mentioned in this report, the Mexican economy and equity market have faced a challenging environment; notwithstanding the above, your Fund has outperformed its benchmark during the recent past. We are confident that the solid fundamentals of portfolio companies and the long-term strength of key economic variables in Mexico will continue to result in attractive investment opportunities for the Fund. We hope you find this report useful and informative, and we thank you for your continued confidence in the Fund.

Sincerely yours,

Alberto Osorio President and Chief Executive Officer June 14, 2016	Emilio Carrillo Gamboa Chairman of the Board

General Information

Renewal of Investment Advisory and Management Agreement

At an in-person meeting of the Board held on March 16, 2016 at which a majority of the Directors were in attendance, including a majority of the Independent Directors, the Board, and separately a majority of the Independent Directors, taking into consideration the recommendation of the Contract Review Committee of the Board (“Committee”), approved the continuation of the Investment Advisory Agreement (“Agreement”) with Impulsora based on its consideration of various factors, including (1) the nature, extent and quality of services provided by the Adviser to the Fund; (2) the investment performance of the Fund; (3) the costs of the services provided, and profits to be realized, by the Adviser from its relationship with the Fund; (4) the extent to which economies of scale may be realized as the Fund grows and whether fee levels reflect these economies of scale for the benefit of Fund investors; and (5) other benefits to the Adviser from its relationship with the Fund (and any corresponding benefit to the Fund). In response to a specific request by the Independent Directors, Impulsora provided detailed information concerning the foregoing factors. The Board also received a memorandum from independent legal counsel discussing the duties of board members in considering the approval of the continuation of the Agreement. The Board evaluated information consisting of comparative figures of overall expenses, management and other fees, of a group of substantially similar funds. As discussed more fully below, the Board considered the Fund’s historical performance through the beginning of March 2016, as well as the Fund’s current advisory fee rate, noting that the advisory fee rate is below both of the median and average for regional closed-end funds followed by Lipper, Inc. The Board determined that the fees payable to Impulsora were reasonable, especially in light of the quality of the services provided, as well as the level of advisory fees paid by comparable funds.

The following discussion is not intended to be all-inclusive. The Board reviewed a variety of factors and considered a significant amount of information, including information received on an ongoing basis at meetings of the Board and Board committees. In view of the broad scope and variety of these factors and information, the Board did not find it practicable to, and did not, make specific assessments of, quantify or otherwise assign relative weights to the specific factors in reaching their conclusions and determination to approve the continuance of the Agreement.

The Board has determined that the Agreement is in the best interests of the Fund’s stockholders, as it would enable the stockholders to obtain high quality services at a cost that is appropriate and reasonable. In addition, the Board has concluded that the Agreement appropriately aligns the interests of the Adviser, the Fund, and Fund stockholders by rewarding superior performance or penalizing poor investment results when compared with the MSCI Mexico Index.

Performance adjustments under the Agreement began on April 1, 2015 based upon the Fund's performance during the trailing 12-month period and adjustments were made during 2015 and 2016, which the Board reviewed in its consideration of renewal of the Agreement.

Nature, Extent and Quality of Services. The Board considered the nature, extent and quality of advisory services provided by the Adviser. The Board receives information at regular meetings throughout the year regarding the services rendered by the Adviser concerning the management of the Fund and the Adviser's role in coordinating providers of other services to the Fund. Also, the Adviser provides all facilities and services necessary to analyze, execute and maintain investments consistent with the Fund's objectives, and has done so since the Fund's inception in 1981. The Board had available to it the qualifications, backgrounds and responsibilities of the personnel primarily responsible for the day-to-day portfolio management of the Fund and recognized that these individuals report to the Board regularly and provide a detailed report on the Fund's performance at each regular meeting of the Board. The Board also received and considered the Adviser's financial information, including recent operating results and expenses, as well as the specific services performed by the Adviser. The Board concluded that overall, it was satisfied with the nature, quality and extent of services that the Adviser provides to the Fund.

Investment Performance. At the in-person Board meeting on March 16, 2016, the Board received and considered information regarding Fund performance relative to the leading Mexican equity indices, including the Bolsa IPC Index and the MSCI Mexico Index, as well as comparable funds. The Board had also received information throughout the year at periodic intervals regarding the Fund's performance, including with respect to the leading Mexican equity indices. The Board was provided with the performance matrix as of January 31, 2016 with periods of three months, year-to-date, one year, three years, five years and ten years, and determined that the Fund had outperformed both the MSCI Mexico Index and the Bolsa IPC Index over all periods. The Board also determined that the Adviser had achieved superior investment performance compared with nearly all of the major Mexican equity mutual funds over the one year and five year periods. The Board also considered the efforts made by the Adviser to address the Fund's stock price relative to NAV, including the Fund's MDP, the open market repurchase policy, and efforts to provide investors with more timely information about the Fund's assets. Based on its review and the Adviser's explanation, the Board concluded that the Fund's performance has been positive and competitive.

General Information

Continued

Costs and Profitability. The Board reviewed the fees charged by Impulsora for investment advisory services, as well as the gross revenues and pre-tax profits earned by Impulsora. The Board also reviewed and considered comparative information supplied by Lipper Inc., which the Board noted showed that the effective investment advisory fee of the Fund remained competitive and equal to the average fee rate of other comparable regional closed-end funds. The Board also reviewed and considered comparative information regarding administrative fees and expense ratios charged to comparable funds. Additionally, the Board reviewed the actual dollar amount of the fees payable under the Agreement, as well as the fee as a percentage of assets under management. On the basis of this information, the Board concluded that the level of the investment advisory fee and the profitability of the relationship between the Fund and Impulsora are appropriate in light of the nature, extent and quality of services provided to the Fund. The Board also concluded that the Agreement's performance component and its use of the MSCI Mexico Index were fair and appropriate.

Economies of Scale. The Board determined that the investment advisory fees payable under the Agreement already reflect potential future economies of scale, through the existing fee structure, which includes the imposition of breakpoints as Fund assets increase, of 1.0% of average daily net assets for assets up to and including \$200 million, 0.90% of average daily net assets for assets in excess of \$200 million and up to and including \$400 million, 0.80% of average daily net assets for assets in excess of \$400 million and up to and including \$600 million, 0.70% of average daily net assets for assets in excess of \$600 million and up to and including \$800 million, and 0.60% of average daily net assets for assets over \$800 million.

Other Benefits to the Adviser. The Board determined that the other benefits described by the Adviser were reasonable, fair, and consistent with industry practice and the best interest of the Fund and its stockholders. In this regard, the Board specifically considered the benefits to the Adviser due to the fact that it also serves, and receives an additional administrative fee from, the Fund pursuant to the Fund Services Agreement.

Concentration Policy

The Fund has adopted a concentration policy, as permitted by the 1940 Act, that allows it to concentrate its investments in any industry or group of industries beyond 25% of the Fund's assets if, at the time of investment, such industry represents 20% or more of the IPC Index; provided, however, that the Fund will not exceed the IPC Index concentration by more than 5%. At the end of April 2016, no industry group represented 20% or more of the value of

the securities included in the IPC Index.

Electronic Delivery of Fund Materials

We encourage our stockholders to receive Fund materials via e-mail in order to save on printing expenses and contribute to saving the environment. Please inform your broker about your preference for electronic delivery (if you are holding your shares in street name) or if you are a recordholder of Fund shares, by logging in to your AST account at www.amstock.com and consenting to electronically receive Fund materials.

Open Market Repurchases

Under the Fund's open market share repurchase policy, the Fund may repurchase up to 10% of the Fund's outstanding common stock in open market transactions during any 12-month period if and when Fund shares trade at a price which is at a discount of at least 10% to NAV. During the first half of fiscal year 2016, the Fund repurchased 17,178 Fund shares in the open market, equivalent to 0.11% of the Fund's outstanding shares at the end of April 30, 2016.

Distribution Reinvestment and Stock Purchase Plan

The Fund's Distribution Reinvestment and Stock Purchase Plan ("the Plan") provides a convenient way to increase your holdings in the common stock of the Fund through the reinvestment of distributions paid by the Fund. The Plan includes the following:

- Voluntary Stock Purchase Option.** All registered stockholders (regardless of whether they are Plan participants) can make monthly voluntary cash investments in Fund shares through AST (the "Plan Agent"). The minimum investment for a voluntary cash investment is \$25.00; you may vary the amount of your investment as long as it equals or exceeds this \$25.00 minimum. There is a fixed transaction fee of \$2.50 and a \$0.10 per share commission for this service. Optional cash payments can be made online or by mail, as described further in the enclosed brochure. Stockholders can also authorize AST to make automatic withdrawals from a bank account.
- (1)

Clarification Regarding Reinvestment of Distributions. Distributions received through the Fund's MDP can be (2) reinvested directly in additional Fund shares, regardless of the character of such distributions for accounting and tax reporting purposes.

Online Enrollment in the Plan. As an alternative to mailing an authorization card to AST, stockholders may (3) enroll in the Plan through AST's website at www.amstock.com. To have distributions reinvested, stockholder authorization must be received by AST by the record date for a given distribution.

Withdrawal from the Plan. Stockholders may withdraw from the Plan by notifying AST. If a request for (4) withdrawal is received by AST more than three (3) business days before a distribution payment date that distribution will be paid out in cash.

(5) **Amendment of Plan.** The Fund reserves the right to amend or supplement the Plan at any time, but only by mailing to participants appropriate written notice at least thirty (30) days prior to the effective date thereof, except when necessary to comply with applicable laws or the rules or policies of the SEC or other regulatory authority.

The Plan brochure can be accessed through AST's or the Fund's website, at www.amstock.com or www.themexicofund.com. If you have any questions, please contact AST at 1-877-573-4007 or 1-718-921-8124. You may also contact AST via mail at:

If you are a Fund shareholder of record, you may enroll in the Plan by mail or online at www.amstock.com. Please contact AST for further information or to request an authorization card for enrollment. If your shares are held in nominee or "street name" through a broker, bank or other nominee who does not provide an automatic reinvestment service and you wish to have distributions reinvested in shares of the Fund, you must notify such nominee and request that the change be made on your behalf or that your shares be re-registered in your own name.

General Information

Concluded

You may withdraw from the Plan, without penalty, at any time by notice to AST. If your request to withdraw from the Plan is received more than three business days before any distribution payment date, then that distribution will be paid out in cash. If your request to withdraw from the Plan is received less than three business days prior to any distribution payment date, then that distribution will be reinvested. However, all subsequent distributions would be paid out in cash on all balances.

Should you choose to withdraw any shares from the Plan or discontinue your participation in the Plan, you will receive a certificate or certificates for the appropriate number of full shares, along with a check in payment for any fractional share interest you may have. The payment for the fractional shares will be valued at the market price of the Fund's shares on the date your termination is effective. In lieu of receiving a certificate, you may request the Plan Agent to sell part or all of your shares at market price and remit the proceeds to you, net of any brokerage commissions.

Under the terms of the Plan, whenever the Fund declares a distribution, Plan participants will receive their distribution entirely in shares of common stock purchased either in the open market or from the Fund. If, on the date a distribution becomes payable or such other date as may be specified by the Board (the valuation date), the market price of the common stock plus estimated brokerage commissions is equal to or exceeds the NAV per share of common stock, the Plan Agent will invest the distribution in newly issued shares of common stock, which will be valued at the greater of the NAV per share or the current market price on the valuation date. If on the valuation date, the market price of the common stock plus estimated brokerage commissions is lower than the NAV per share, the Plan Agent will buy common stock in the open market. Although stockholders in the Plan may receive no cash distributions, participation in the Plan will not relieve participants of any income tax that may be payable on such dividends or distributions. As a participant in the Plan, you will be charged a *pro-rata* portion of brokerage commissions on all open market purchases.

If you have any questions concerning the Plan, or would like a hard copy of the Plan brochure, please contact AST using the contact information listed above.

New York Stock Exchange Certifications

The Fund is listed on the New York Stock Exchange (the “NYSE”). As a result, it is subject to certain corporate governance rules and related interpretations issued by the NYSE. Pursuant to those requirements, the Fund must include information in this report regarding certain certifications. The Fund’s President and Treasurer have filed certifications with the SEC regarding the quality of the Fund’s public disclosure. Those certifications were made pursuant to Section 302 of the Sarbanes-Oxley Act (“Section 302 Certifications”). The Section 302 Certifications were filed as exhibits to the Fund’s semi-annual report on Form N-CSR, which included a copy of the semi-annual report along with other information about the Fund. After the Fund’s 2016 annual meeting of stockholders, it filed an annual certification with the NYSE stating that its President was unaware of any violation of the NYSE’s Corporate Governance listing standards.

Cost Basis Information

The Fund is required to report to shareholders of record and the Internal Revenue Service, annually on Form 1099-B, not only the gross proceeds of Fund shares sold, but also their cost basis, for shares purchased or acquired on or after January 1, 2012. Cost basis will be reported using the Fund’s default method of first-in-first-out (“FIFO”), unless the shareholder of record instructs the Fund to use an average cost method for their shares purchased or acquired on or after January 1, 2012. Alternatively, a shareholder can generally supply instructions for specific lot identification for a given transaction.

If your Fund shares are registered in your name and you wish to elect an average cost method rather than the default method of FIFO, you may do so by downloading a form that is available on the Fund’s website, www.themexicofund.com, under the section “Services”, and mailing it to the Fund’s Transfer Agent at the address indicated on the form. If you hold Fund shares through a financial intermediary, please contact that financial intermediary for instructions on how to make your election. If you wish to supply instructions for specific lot identification for shares purchased or acquired on or after January 1, 2012, please contact the Fund’s Transfer Agent at (800) 937-5449.

The Mexico Fund, Inc.

Notes to Financial Statements

April 30, 2016 (Unaudited)

1. Operations and Significant Accounting Policies:

The Mexico Fund, Inc. (the “Fund”) is registered under the 1940 Act as a closed-end non-diversified management investment company. The investment objective of the Fund is to seek long-term capital appreciation through investment in securities, primarily equity, listed on the Mexican Stock Exchange.

The following is a summary of significant accounting policies followed by the Fund. The Fund is an investment company and, accordingly, follows the investment company accounting and reporting guidance of the Financial Accounting Standards Board Accounting Standards Codification Topic 946 — Investment Companies, which is part of U.S. generally accepted accounting principles (“GAAP”). The preparation of financial statements in conformity with GAAP requires management to make estimates and assumptions that affect the reported amounts of assets and liabilities and disclosure of contingent assets and liabilities at the date of the financial statements and the reported amounts of increases and decreases in net assets from operations during the reporting period. Actual results could differ from those estimates.

Valuation of investments — Investments in which the principal exchange is the Mexican Stock Exchange are valued at the closing price reported by the Mexican Stock Exchange. The closing price represents the weighted average for the last twenty minutes of operations in any business day. Investments in which the principal exchange is the NASDAQ Stock Market or the New York Stock Exchange are valued at the NASDAQ official closing price or the last sale price, respectively. Short-term securities with remaining maturities of less than 60 days at the time of purchase are carried at amortized cost, which approximates fair value. All other securities are valued in accordance with methods determined by the Board. If the Board believes that the price of a security obtained under the Fund’s valuation procedures does not represent the amount that the Fund reasonably expects to receive on a current sale of the security, the Fund will value the security based on a method that the Board believes to accurately reflect fair value.

GAAP establishes a fair value hierarchy that distinguishes between market data obtained from independent sources (observable inputs) and the Fund's own market assumptions (unobservable inputs). These inputs are used in determining the value of the Fund's investments and are summarized in the following fair value hierarchy:

- Level 1 — quoted prices in active markets for identical securities
- Level 2 — other significant observable inputs (including quoted prices for similar securities, interest rates, prepayment speeds, credit risk, etc.)
- Level 3 — significant unobservable inputs (including the Fund's own assumptions in determining the fair value of investments)

The inputs or methodology used for valuing securities are not necessarily an indication of the risk associated with investing in those securities. An investment's level within the fair value hierarchy is based on the lowest level of any input, both individually and in the aggregate, that is significant to the fair value measurement.

The following is a summary of the inputs used as of April 30, 2016, in valuing the Fund's investments in securities:

Valuation Inputs	LEVEL 1	LEVEL 2	LEVEL 3	TOTAL
ASSETS:				
Investments in Securities:

During the six months ended April 30, 2016, there were no transfers of investments between fair value levels.

Security transactions and investment income - Security transactions are recorded on the date on which the transactions are entered into (the trade date). Dividend income is recorded on the ex-dividend date and interest income is recorded as earned.

Foreign Currency - The market value of Mexican securities, currency holdings and other assets and liabilities denominated in Pesos was recorded in the financial statements after being translated into U.S. dollars based on the open market exchange rate prevailing in Mexico City at the end of the period. The open market exchange rate at April 30, 2016 was Ps. \$17.1770 to \$1.00.

The identified cost of portfolio holdings is translated at approximate rates prevailing when acquired. Income and expense amounts are translated at approximate rates prevailing when earned or incurred.

The Fund does not isolate that portion of the results of operations arising as a result of changes in the foreign exchange rates from the fluctuations arising from changes in the market prices of securities during the year. Accordingly, the net realized and unrealized gain on investments presented in the accompanying financial statements include the effects of both such changes.

Reported net realized foreign exchange gains or losses arise from sales of short-term securities in exchange for cash, payment of services or non-functional currency denominated assets; currency gains or losses realized between the trade and settlement dates on securities transactions; and the difference between the amounts of dividends, interest, and foreign withholding taxes recorded by the Fund and the U.S. dollar equivalent of the amount actually received or

paid.

Net unrealized foreign exchange gains and losses arise from changes in the value of assets and liabilities other than investments in common stocks, resulting from changes in the exchange rate.

Repurchase Agreements - The Fund enters into repurchase agreements with approved institutions. The Fund's repurchase agreements are fully collateralized by Mexican or U.S. Government securities. The Fund takes possession of the collateral and Impulsora del Fondo México S.C., the Fund's investment adviser (the "Adviser"), monitors the credit standing of repurchase agreement counterparties. It is the Fund's policy that the fair value of the collateral be at least equal to the principal amount of the repurchase transaction, including accrued interest, at all times. If the counterparty defaults, and the fair value of the collateral declines, realization of the collateral by the Fund may be delayed or limited.

Realized gains and losses on investments - Realized gains and losses on investments are determined on the identified cost basis.

Foreign Taxes - The Fund may be subject to foreign taxes on income, gains on investments or currency purchases/repatriation, a portion of which may be recoverable. The Fund will accrue such taxes and recoveries, as applicable, based on its current interpretation of tax rules and regulations that exist in the markets in which it invests.

Under the Mexican tax reform law, which became effective January 1, 2014, gains realized on sales of securities listed on the Mexican Stock Exchange are subject to a 10% income tax payment for non-residents of Mexico. However, non-resident sellers that reside in a country with which Mexico has in effect a tax treaty (such as the United States), and that are eligible for the benefits of such tax treaty, are generally exempt from such tax. The Fund, as an investment company organized in the United States, is claiming eligibility for the benefits of such tax treaty. Therefore, the Fund believes that it should be exempt from such tax on realized gains, and no such tax is being recognized or paid by the Fund.

The Mexican tax reform law also included a 10% income tax withholding on dividends distributed by companies to non-residents of Mexico, which applies to profits generated since 2014. As a result, the Fund expects that the amount of taxes withheld on dividends the Fund earns will continue to increase as investee companies pay dividends from profits generated since 2014.

Income Taxes - No provision has been made for U.S. income or excise taxes for the six months ended April 30, 2016 on net investment company taxable income or net long-term capital gains as defined by the Internal Revenue Code (the "Code"), since the Fund intends to comply with the requirements of the Code applicable to regulated investment companies and to distribute substantially all of such income to its stockholders

GAAP prescribes the minimum recognition threshold a tax position must meet before being recognized in the financial statements. The Fund recognizes the tax benefits of uncertain tax positions only when the position is more likely than not to be sustained, assuming examination by the Internal Revenue Service. An assessment of the Fund's tax positions has been made and it has been determined that there is no liability for unrecognized tax benefits that should be recorded relating to uncertain tax positions taken on returns filed for open tax years.

Each of the Fund's federal income tax returns for the prior three fiscal years remains subject to examination by the Internal Revenue Service.

The Fund is not aware of any tax positions for which it is reasonably possible that the total amounts of unrecognized tax benefit will change materially in the next 12 months.

Dividends to stockholders - Cash dividends are recorded by the Fund on the ex-dividend date.

A tax return of capital generally occurs when distributions exceed current and accumulated tax earnings and profits. The Fund had earnings and profits for the six months ended April, 30, 2016 that were lower than the distributions made to stockholders. This has had the effect of recharacterizing a portion of the Fund's distributions as a tax return of capital.

Risks of Investment in Mexican Securities - Investing in Mexican securities involves certain considerations not typically associated with investing in securities of U.S. issuers, including (1) lesser liquidity and smaller market capitalization of the Mexican securities markets, (2) currency fluctuations, (3) higher rates of inflation and domestic interest rates and (4) less stringent disclosure requirements, less available information regarding Mexican public

companies and less active regulatory oversight of Mexican public companies.

The Mexican Stock Exchange is a concentrated market. A large percentage of the value of the Mexican securities market is currently represented by certain industry sectors, in particular, the communications industry. Also, a certain individual has a controlling interest in companies representing approximately 18.4% of the market capitalization of the Mexican Stock Exchange. As of April 30, 2016, the Fund held investments representing 13.3% of its net assets in three of these companies (América Móvil, Grupo Financiero Inbursa and Telesites). The value of the Mexican Stock Exchange may be subject to greater volatility than markets that are less concentrated. Any factors or events which impact this individual could have negative repercussions for the issuers in which he holds a controlling interest, including certain Fund investments and the Mexican Stock Exchange as a whole.

2. Investment Advisory Agreement:

The Fund has a management contract (the “Agreement”) with the Adviser, a Mexican company registered under the U.S. Investment Advisers Act of 1940. The Adviser furnishes investment research and portfolio management services consistent with the Fund’s stated investment policies. Under the terms of the Agreement, the Fund pays the Adviser a monthly fee (the “Base Fee”) at the annual rate of 1.00% on the first \$200 million of average daily net assets, 0.90% on the excess over \$200 million up to \$400 million, 0.80% on the excess over \$400 million up to \$600 million, 0.70% on the excess over \$600 million up to \$800 million and 0.60% on the excess over \$800 million.

Under the terms of the Agreement, a performance component of the Advisory fee was implemented effective on April 1, 2015. The performance component is based on the performance of the Fund relative to the MSCI Mexico Index. A performance adjustment factor will be applied to the Base Fee that will either increase or decrease the Base Fee, depending on how the Fund’s NAV performs relative to the MSCI Mexico Index over a trailing 12-month period. The performance adjustment factor is to be applied daily; it is applied to the average net assets of the Fund over the trailing 12-month period. The resulting dollar figure will be added to or subtracted from the Base Fee depending on whether the Fund experienced better or worse performance than the MSCI Mexico Index. If the investment performance of the Fund exceeds the investment record of the MSCI Mexico Index by 2 percentage points or more, the performance adjustment will increase the Base Fee by 0.025% for every additional percentage point of outperformance. If the

investment performance of the Fund trails the investment record of the MSCI Mexico Index by 2 percentage points or more, the performance adjustment will decrease the Base Fee by 0.025% for every additional percentage point of underperformance. The maximum amount of the performance adjustment in either direction is 0.20%, if the difference between the investment performance of the Fund and the investment record of the MSCI Mexico Index is 10 percentage points or more.

Performance adjustments began on April 1, 2015. As of April 30, 2016 the accumulated Base Fee of \$1,385,372 was increased by \$94,627, resulting in a net advisory fee of \$1,480,000.

3. Fund Services Agreement:

The Fund has entered into a Fund Services Agreement with the Adviser, which provides for certain services to be performed by the Adviser, including among other activities, the determination and publication of the NAV of the Fund, the maintenance of the Fund's books and records in accordance with applicable U.S. and Mexican Laws and assistance in the preparation and filing of annual reports and tax returns. The Fund pays the Adviser a monthly fee at the annual rate of 0.11% on the first \$600 million of average daily net assets, and 0.09% on the excess over \$600 million, with a minimum amount of \$450,000 per year.

4. Purchases and Sales of Investments:

Purchases and sales of investments, excluding short-term securities, for the six months ended April 30, 2016 were as follows:

Purchases	
Common Stock	\$20,627,686
Total Purchases	\$20,627,686
Proceeds from Investments Sold	
Common Stock	\$32,557,805
Total Sales	\$32,557,805

5. Capital Stock:

At April 30, 2016, there were 150,000,000 shares of \$1.00 par value common stock authorized, of which 15,043,368 shares were outstanding.

The Fund offers a Distribution Reinvestment and Stock Purchase Plan (the "Plan") to its stockholders. Fund stockholders are automatically enrolled as participants in the Plan unless they notify the Fund's transfer agent otherwise.

On June 7, 2013 the Fund filed a Registration Statement with the SEC in order to be able to offer, from time to time and subject to market conditions, its shares of common stock at a price equal to or greater than the Fund's NAV per share at the time of the offer, exclusive of any underwriting commissions and other expenses related to the offer. In accordance with the terms of the Registration Statement, for the year ended October 31, 2015 the Fund issued 1,700 shares at market prices above NAV, resulting in net proceeds to the Fund of \$44,961. Offering costs of approximately \$580, related to the issuance of these shares were charged against the Fund's Additional paid in capital during the year ended October 31, 2015. For the six months ended April 30, 2016, the Fund did not issue shares. Given the discount at which Fund shares have traded recently, on December 4, 2015, the Board decided not to renew the Fund's ESP.

6. Distributions to Stockholders and Income Taxes:

The amount and characterization of certain income and capital gains to be distributed are determined in accordance with U.S. federal income tax regulations, which may differ from GAAP. These differences are primarily due to differing book and tax treatments in the timing of the recognition of net investment income or gains and losses, including losses deferred due to wash sales and foreign currency gains and losses.

The Fund may periodically make reclassifications among its capital accounts to reflect income and gains available for distribution (or available capital loss carryovers) under income tax regulations, without impacting the Fund's NAV. Any such reclassifications are not reflected in the financial highlights.

On August 12, 2008, the Fund received authorization from the SEC that permits the Fund to distribute long-term capital gains to stockholders more than once per year. Accordingly, the Board approved the implementation of a MDP to make quarterly cash distributions to stockholders. Under the MDP, distributions will be made from current income, supplemented by realized capital gains and, to the extent necessary, paid in capital.

The Board authorized quarterly distributions under its MDP at an annual rate of 10% of NAV as of the last dividend payment on July 23, 2015. On September 18, 2015, the Board approved a change in the quarterly distribution payable under the Fund's MDP, effective with the distribution to be paid in October 2015, adjusting the rate of the MDP from 10% to 6% of NAV as of the last business day of the previous calendar year.

The tax character of distributions paid during the fiscal year ended October 31, 2015 were as follows:

2015

Distributions paid from:	
Ordinary income	\$2,909,241
Long term capital gains	30,360,300
Total distributions paid	\$33,269,541

As of April 30, 2016, the components of accumulated earnings (deficit) on a tax basis were as follows:

Net long term capital gains	\$157,092
Undistributed ordinary income	1,997,654
Unrealized depreciation	(25,898,246)
Total accumulated earnings	\$(23,743,502)

As of April 30, 2016, the cost of investments for federal income tax purposes was \$327,090,382. Gross unrealized appreciation of investments was \$19,611,687 and gross unrealized depreciation of investments was \$45,710,836 resulting in net unrealized depreciation on investments of \$26,099,149, excluding foreign currency transactions. The difference between book basis and tax basis unrealized appreciation/(depreciation) is attributable primarily to wash sale loss deferrals.

7. Stock Repurchases:

In June 2009, the Board authorized the Fund to repurchase up to 10% of the Fund's outstanding common stock in open market transactions during any 12-month period if and when Fund shares trade at a price which is at a discount of at least 10% to NAV. During the year ended October 31, 2015, the Fund repurchased 36,710 shares at a cost of \$659,172. These shares were repurchased at an average price of \$17.96 per share, which represented an average discount of 10.17%. During the six months ended April 30, 2016, the Fund repurchased 17,178 shares at a cost of \$298,918. These shares were repurchased at an average price of \$17.40 per share, which represented an average discount of 10.78%.

8. Commitments and Contingencies:

In the normal course of business, the Fund enters into contracts that contain a variety of representations and warranties or provide general indemnifications. The Fund's maximum exposure under these arrangements is unknown as this would involve future claims that may be made against the Fund that have not yet occurred. However, based on experience, the Fund expects the risk of loss to be remote.

9. Subsequent Events:

Subsequent to April 30, 2016, the Fund declared a distribution of \$0.2831 per share payable on July 26, 2016 to stockholders of record on July 14, 2016.
