Table of Contents

SHARPS COMPLIANCE CORP. AND SUBSIDIARIES
NOTES TO CONDENSED CONSOLIDATED FINANCIAL STATEMENTS
(UNAUDITED)

NOTE 1 - ORGANIZATION AND BACKGROUND

The accompanying unaudited condensed consolidated financial statements include the financial transactions and accounts of Sharps Compliance Corp. and its wholly owned subsidiaries, Sharps Compliance, Inc. of Texas (dba Sharps Compliance, Inc.), Sharps e-Tools.com, Inc. (“Sharps e-Tools”), Sharps Manufacturing, Inc., Sharps Environmental Services, Inc. (dba Sharps Environmental Services of Texas, Inc.) and Sharps Safety, Inc. (collectively, “Sharps”, “We” or the “Company”). All significant intercompany accounts and transactions have been eliminated upon consolidation.

NOTE 2 - BASIS OF PRESENTATION

The accompanying unaudited condensed consolidated financial statements have been prepared in accordance with the rules and regulations of the Securities and Exchange Commission (“SEC”) for interim financial information and with instructions to Form 10-Q and, accordingly, do not include all information and footnotes required under accounting principles generally accepted in the United States of America for complete financial statements. In the opinion of management, these interim condensed consolidated financial statements contain all adjustments (consisting of normal recurring adjustments) considered necessary for a fair presentation of the consolidated financial position of the Company as of December 31, 2010, the results of its operations and cash flows for the three and six months ended December 31, 2010 and 2009 and stockholders’ equity for the year ended June 30, 2010 and six months ended December 31, 2010. The results of operations for the three and six months ended December 31, 2010 are not necessarily indicative of the results to be expected for the entire fiscal year ending June 30, 2011. These unaudited condensed consolidated financial statements should be read in conjunction with the Company’s Annual Report on Form 10-K for the year ended June 30, 2010.

NOTE 3 - SIGNIFICANT ACCOUNTING POLICIES

REVENUE RECOGNITION

The Company recognizes revenue in accordance with guidance on revenue recognition of multiple-deliverable revenue arrangements. On July 1, 2010, the Company adopted ASU No. 2009-13 which further clarified guidance on revenue recognition for multiple-deliverable revenue arrangements, changing the way the Company allocates arrangement consideration to the separate units of accounting. Under this guidance, certain products offered by the Company have revenue producing components that are recognized over multiple delivery points (Sharps® Recovery System™ (formerly the Sharps Disposal by Mail Systems®) and various TakeAway™ Environmental Return Systems referred to as “Mailbacks” and Sharps Pump Return Boxes, referred to as “Pump Returns”) and can consist of up to three separate elements, or units of measure, as follows: (1) the sale of the compliance and container system, (2) return transportation and (3) treatment service.

Prior to July 1, 2010, the individual fair value of the transportation and treatment services were determined by the sales price of the service offered by third parties, with the fair value of the compliance and container being the residual value. Beginning July 1, 2010, under the relative selling price methodology, an estimated selling price is determined for all deliverables that qualify for separate units of accounting. The actual consideration received in a multiple-deliverable arrangement is then allocated to the units based on their relative sales price. Because an estimated selling price must be set for each unit, the residual method used previously by the Company to allocate consideration to the compliance and container system is no longer allowed. The selling price for the transportation

revenue and the treatment revenue, which utilizes third party evidence, did not change from the prior method. The Company estimates the selling price of the compliance and container system based on the product and services provided including compliance with local, state and Federal laws, adherence to stringent manufacturing and testing requirements, safety to the patient and the community as well as storage and containment capabilities.

Revenue for the sale of the compliance and container is recognized upon delivery to the customer, at which time the customer takes title and assumes risk of ownership. Transportation revenue is recognized when the customer returns the compliance and container system and the container has been received at the Company's facility. The compliance and container system is mailed or delivered by an alternative logistics provider to the Company's facility. Treatment revenue is recognized upon the destruction or conversion and proof of receipt and treatment having been prepared on the container. Since the transportation element and the treatment elements are undelivered services at the point of initial sale of the compliance and container, transportation and treatment revenue is deferred until the services are performed. The current and long-term portions of deferred revenues are determined through regression analysis and historical trends. Furthermore, through regression analysis of historical data, the Company has determined that a certain percentage of all container systems sold may not be returned. Accordingly, a portion of the transportation and treatment elements are recognized at the point of sale.

Table of Contents

The Company has calculated the change in revenue assigned to each of the units of accounting under the relative selling price methodology as compared to using the residual allocation method and determined that the change is not material. The Company has determined that the implementation of ASU No. 2009-13 did not have a material effect on the consolidated financial statements when compared to its previous revenue recognition methodology.

ACCOUNTS RECEIVABLE

Accounts receivable consist primarily of amounts due to us from our normal business activities. Accounts receivable balances are determined to be delinquent when the amount is past due based on the contractual terms with the customer. The Company maintains an allowance for doubtful accounts to reflect the expected uncollectibility of accounts receivable based on past collection history and specific risks identified among uncollected accounts. Accounts receivable are charged to the allowance for doubtful accounts when we have determined that the receivable will not be collected and/or when the account has been referred to a third party collection agency. The Company has a history of minimal uncollectible accounts.

NOTE 4 – RECENTLY ISSUED ACCOUNTING STANDARDS

In July 2010, the FASB issued guidance expanding disclosure requirements related to receivables. The guidance was issued to provide financial statement users with greater transparency about an entity's allowance for credit losses and the credit quality of its financing receivables. The guidance is for receivables, off-balance sheet credit exposures and foreclosed and repossessed assets. The Company's summary of significant accounting policies shall now include: (i) basis for accounting for loans, trade receivables, and lease financing (including those classified as held for sale), (ii) method used in determining the lower of cost or fair value of nonmortgage loans held for sale, (iii) classification and method of accounting for interest-only strips, loans and other receivables and (iv) method for recognizing interest income on loan and trade receivables.

In addition, the allowance for credit losses, the allowance for doubtful accounts, and as applicable any unearned income, any unamortized premiums and discounts, and any net unamortized deferred fees and costs, shall be disclosed in the financial statements. The Company adopted this guidance, as required for both interim and annual reporting periods, effective December 15, 2010. The adoption of this guidance does not impact the Company's consolidated results of operations or financial position. The Company has included its Accounts Receivable policy in Note 3 – Significant Accounting Policies.

NOTE 5 - INCOME TAXES

The Company's effective tax rate for the six months ended December 31, 2010 was 33.0% compared to 34.4% for the six months ended December 31, 2009. The decrease in the effective tax rate resulted primarily from a reduction in the statutory rate from 35% to 34% based on forecasted fiscal year 2011 income. The Company expects to receive a Federal Tax refund of approximately \$2.6 million related to the fiscal year ended June 30, 2010. This amount is included in prepaid and other current assets and is expected to be received by December 2011.

NOTE 6 - NOTES PAYABLE AND LONG-TERM DEBT

On July 15, 2010, the Company entered into a Credit Agreement with Wells Fargo Bank, National Association. The Credit Agreement replaces the Prior Credit Agreement executed on March 9, 2010 with JPMorgan Chase Bank N.A. As of December 31, 2010, the Company had no outstanding borrowings, \$105 thousand in letters of credit outstanding, and \$4.9 million of credit available.

The Credit Agreement provides for a two-year, \$5.0 million line of credit facility, the proceeds of which may be utilized for: (i) working capital, (ii) capital expenditures, (iii) letters of credit (up to \$500,000), (iv) acquisitions (up to \$1,000,000) and (v) general corporate purposes. Unlike the Prior Credit Agreement, there is no borrowing base computation that limits the amount of borrowings under the Credit Agreement.

Indebtedness under the Credit Agreement is secured by substantially all of the Company's assets. Borrowings bear interest at either (i) a fluctuating rate per annum equal to LIBOR plus a margin of 250 basis points or (ii) at the Company's option, a fixed rate for a 30, 60, or 90 day period set at the option date's LIBOR plus a margin of 250 basis points. Any outstanding revolving loans, and accrued and unpaid interest, will be due and payable on July 15, 2012, the maturity date of the Credit Agreement. The Company paid a one-time non-refundable commitment fee of \$10,000 applicable to the entire two year term of the Credit Agreement. The Company will pay a fee of 0.2% per annum on the unused amount of the line of credit. We estimate that the interest rate applicable to the borrowings under the Credit Agreement would be approximately 2.8% as of December 31, 2010.

The Credit Agreement contains affirmative and negative covenants that, among other things, require the Company to maintain a minimum level of tangible net worth of \$21 million and not exceed a ratio of liabilities to tangible net worth of 1.0 to 1.0. As of December 31, 2010, the Company is in compliance with all financial covenants. The Credit Agreement also contains customary events of default. Upon the occurrence of an event of default that remains uncured after any applicable cure period, the lenders' commitment to make further loans may terminate and the Company may be required to make immediate repayment of all indebtedness to the lenders.

Table of Contents

NOTE 7 – STOCK-BASED COMPENSATION

Stock-based compensation cost is measured at the grant date, based on the calculated fair value of the award, and is recognized as an expense over the employee's requisite service period (generally the vesting period of the equity grant). Total stock-based compensation for the three months ended December 31, 2010 and 2009 was \$292 thousand (\$25 thousand included in cost of revenues and \$267 thousand included in general and administrative expense in the Company's consolidated statement of operations) and \$295 thousand (\$18 thousand included in cost of revenues and \$277 thousand included in general and administrative expense in the Company's consolidated statement of operations), respectively. Total stock-based compensation for the six months ended December 31, 2010 and 2009 was \$507 thousand (\$45 thousand included in cost of revenues and \$462 thousand included in general and administrative expense in the Company's consolidated statement of operations) and \$501 thousand (\$25 thousand included in cost of revenues and \$476 thousand included in general and administrative expense in the Company's consolidated statement of operations). Reductions in taxes payable resulting from tax deductions that exceed the recognized tax benefit associated with compensation expense (excess tax benefits) are classified as financing cash flows and as an increase to additional paid in capital. The Company's excess tax benefits included in its cash flows from financing activities for the six months ended December 31, 2010 was \$964 thousand. The Company's excess tax benefits included in its cash flows from financing activities for the six months ended December 31, 2009 was \$736 thousand.

In conjunction with the retirement and separation agreement of Dr. Burton Kunik, effective September 30, 2010, the Company recognized an additional \$73 thousand in stock-based compensation expense which is included in the Special Charge on the accompanying statement of operations for the six months ended December 31, 2010.

NOTE 8 - EARNINGS PER SHARE

Earnings per share are measured at two levels: basic per share and diluted per share. Basic per share is computed by dividing net income by the weighted average number of common shares outstanding during the period. Diluted per share is computed by dividing net income by the weighted average number of common shares after considering the additional dilution related to common stock options and restricted stock. In computing diluted earnings per share, the outstanding common stock options are considered dilutive using the treasury stock method. Vested restricted shares are included in basic common shares outstanding, and unvested restricted shares are included in the diluted common shares outstanding, if the effect is dilutive.

The following information is necessary to calculate earnings per share for the periods presented (in thousands, except per-share data):

	Three-Months Ended December 31, 2010 2009 (Unaudited)		Six-Months Ended December 31, 2010 2009 (Unaudited)	
Net income (loss), as reported	\$ (807)	\$ 5,617	\$ (1,604)	\$ 11,435
Weighted average common shares outstanding	14,920	14,015	14,914	13,722
Effect of dilutive stock options	-	868	-	999
Weighted average diluted common shares outstanding	14,920	14,883	14,914	14,721
Net income (loss) per common share				
Basic	\$ (0.05)	\$ 0.40	\$ (0.11)	\$ 0.83
Diluted	\$ (0.05)	\$ 0.38	\$ (0.11)	\$ 0.78

Employee stock options excluded from computation of dilutive income per share amounts because their effect would be anti-dilutive	412	38	412	38
---	-----	----	-----	----

NOTE 9 - EQUITY TRANSACTIONS

During the three months ended December 31, 2010, there were no exercises of stock options to purchase common shares. During the three months ended December 31, 2009, stock options to purchase 523,441 common shares were exercised. Total proceeds to the Company were approximately \$620 thousand (average price of \$1.18 per share).

Table of Contents

During the six months ended December 31, 2010, stock options to purchase 2,000 of common shares were exercised. Total proceeds to the Company were approximately \$2 thousand (average price of \$0.84 per share). During the six months ended December 31, 2009, stock options to purchase 694,541 common shares were exercised. Total proceeds to the Company were approximately \$828 thousand (average price of \$1.19 per share).

In the second quarter of fiscal 2010, the Company completed a public offering of 577,146 shares, of which 77,146 were sold to cover the over-allotment option, at a price of \$9.165 per shares (net of underwriting commission). The net proceeds of \$4.8 million from the shares sold by the Company (net of offering expenses) is expected to be used for general corporate purposes, including expansion of our product offering, facilities, and infrastructure to meet the continued expected growth of the Company.

As of December 31, 2010, there was \$985 thousand of stock option and restricted stock compensation expense related to non-vested awards which is expected to be recognized over a weighted average period of 2.0 years.

NOTE 10 – INVENTORIES

The components of inventories are as follows (in thousands):

	December 31, 2010 (Unaudited)	June 30, 2010
Finished goods	\$ 1,200	\$ 933
Raw materials	921	805
Total	\$ 2,121	\$ 1,738

NOTE 11 – FAIR VALUE OF FINANCIAL INSTRUMENTS

The Company considers the fair value of all financial instruments, including cash and cash equivalents, accounts receivable, accounts payable and accrued liabilities, not to be materially different from their carrying values at year-end due to their short-term nature.

Table of Contents

ITEM 2.

MANAGEMENT'S DISCUSSION AND ANALYSIS OF FINANCIAL CONDITION AND RESULTS OF OPERATIONS

INFORMATION REGARDING FORWARD-LOOKING STATEMENTS

This quarterly report on Form 10-Q contains certain forward-looking statements and information relating to the Company and its subsidiaries that are based on the beliefs of the Company's management as well as assumptions made by and information currently available to the Company's management. When used in this report, the words "anticipate", "believe", "expect", "estimate", "project" and "intend" and words or phrases of similar import, as they relate to the Company, its subsidiaries or Company management, are intended to identify forward-looking statements. Such statements reflect the current risks, uncertainties and assumptions related to certain factors, including without limitations, competitive factors, general economic conditions, customer relations, relationships with vendors, governmental regulation and supervision, seasonality, distribution networks, product introductions and acceptance, technological change, changes in industry practices, onetime events and other factors described herein. Based upon changing conditions, should any one or more of these risks or uncertainties materialize, or should any underlying assumptions prove incorrect, actual results may vary materially from those described herein as anticipated, believed, expected, estimated or intended. The Company does not intend to update these forward-looking statements.

GENERAL

Sharps is a leading full-service provider of cost-effective solutions for management of medical waste and unused dispensed medications generated outside of the hospital and large health care facility setting. The Company's solutions facilitate the proper treatment of numerous types of medical waste and unused dispensed medications, including hypodermic needles, lancets and other devices or objects used to puncture or lacerate the skin, or sharps, and unused dispensed prescription and over-the-counter drugs and medications. We serve customers in multiple markets such as government (federal, state and local), home health care, retail clinics and immunizing pharmacies, pharmaceutical manufacturers, professional offices (physicians, dentists and veterinarians), hospitality (including assisted living facilities, hotels, motels and restaurants), consumers, commercial, industrial and agriculture, and distributors to many of the aforementioned markets. We assist our customers in determining which of our distinct solution offerings best fit their needs for the collection, storage, return transportation and treatment of their or their patients' medical waste and unused dispensed medications. Our differentiated approach provides our customers the flexibility to return and ultimately properly treat their or their patients' medical waste or unused dispensed medications through pre-paid mail services primarily through the United States Postal Service ("USPS"). Furthermore, we provide comprehensive tracking and reporting tools that enable our customers to meet complex medical waste disposal and unused dispensed patient medication compliance requirements. The Company's primary solutions include Sharps® Recovery System™ (formerly Sharps Disposal by Mail System®), RxTakeAway™ System, Sharps®MWMS™, and SharpsTracer™. The Company offers a wide variety of other logistical products solutions including Pitch-It™ IV Poles, Trip LesSystem®, Sharps® Pump and Asset Return Box, Sharps Secure® Needle Recovery System, Sharps SureTemp Tote®, IsoWash® Linen Recovery System, Biohazard Spill Clean-Up Kit and Disposal System and Sharps Environmental Services.

Table of Contents

RESULTS OF OPERATIONS

The following analyzes changes in the consolidated operating results and financial condition of the Company during the three and six months ended December 31, 2010 and 2009. The following table sets forth, for the periods indicated, certain items from the Company's Condensed Consolidated Statements of Operations, dollars in thousands and percentages expressed as a percentage of revenue:

	Three-Months Ended December 31,				Six-Months Ended December 31,			
	2010 (Unaudited)	%	2009 (Unaudited)	%	2010 (Unaudited)	%	2009 (Unaudited)	%
Revenue	\$4,611	100.0 %	\$ 15,985	100.0 %	\$9,844	100.0 %	\$ 31,364	100.0 %

THREE MONTHS ENDED DECEMBER 31, 2010 AS COMPARED TO THREE MONTHS ENDED DECEMBER 31, 2009

Total revenues for the three months ended December 31, 2010 of \$4.6 million decreased by \$11.4 million, or 71.2%, over the total revenues for the three months ended December 31, 2009 of \$16.0 million. Billings by market are as follows (in thousands):

	Three-Months Ended December 31, (Unaudited)		
	2010	2009	Variance
BILLINGS BY MARKET:			
Home Health Care	\$ 1,642	\$ 1,606	\$ 36
Retail	771	1,420	(649)
Professional	519	375	144
Government	449	11,700	(11,251)
Assisted Living/ Hospitality	293	240	53

Edgar Filing: SHARPS COMPLIANCE CORP - Form 10-Q

Pharmaceutical	47	29	18
Other	331	359	(28)
Subtotal	4,052	15,729	(11,677)
GAAP Adjustment *	559	256	303
Revenue Reported	\$ 4,611	\$ 15,985	\$ (11,374)

*Represents the net impact of the revenue recognition adjustment required to arrive at reported generally accepted accounting principles (“GAAP”) revenue. Customer billings include all invoiced amounts associated with products shipped during the period reported. GAAP revenue includes customer billings as well as numerous adjustments necessary to reflect, (i) the deferral of a portion of current period sales and (ii) recognition of certain revenue associated with products returned for treatment and destruction. The difference between customer billings and GAAP revenue is reflected in the Company’s balance sheet as deferred revenue. See Note 3 “Revenue Recognition” in “Notes to Consolidated Financial Statements”.

This Quarterly Report on Form 10-Q contains certain financial information not derived in accordance with GAAP, including customer billings information. The Company believes this information is useful to investors and other interested parties as customer billings represents all invoiced amounts associated with products shipped during the period reported. Such information should not be considered as a substitute for any measures derived in accordance with GAAP, and may not be comparable to other similarly titled measures of other companies. Reconciliation of this information to the most comparable GAAP measures is included above.

Table of Contents

The decrease in revenues is primarily attributable to decreased billings in the Government (\$11.3 million) and Retail (\$0.6 million) markets. These decreases in billings were partially offset by increased billings in the Professional (\$0.1 million) and Hospitality (\$53 thousand) markets. Government billings in the current year and prior year included \$380 thousand and \$11.5 million, respectively, associated with the Company's contract with a major U.S. government agency announced in February 2009. The current quarter billings were for maintenance and the prior year billings were for the sale of the Company's Sharps MWMS to this major U.S. government agency and resulted in a decrease in billings under this contract of \$11.1 million. There was a decrease in core government billings of \$178 thousand primarily related to the TakeAway™ Envelopes program suspension which was a component of the Veterans Administration (VA) Pilot. The decrease in the Retail market billings is due to the timing of customer orders as pharmacies had accelerated their purchases for the 2010 flu shot season as well as the prior year quarter including H1N1-related flu shot activity. The increase in billings in the Professional market was a direct result of the Company's targeted telemarketing activities to educate doctors, dentists and veterinarians on the significant cost advantage and the convenience of the Sharps Recovery System™ over the traditional pick-up service. Also contributing to the Professional market increase was higher sales through the Company's distributor network.

Cost of revenues for the three months ended December 31, 2010 of \$3.4 million was 73.4% of revenues. Cost of revenues for the three months ended December 31, 2009 of \$5.3 million was 33.3% of revenue. The lower gross margin for the quarter ended December 31, 2010 of 26.6% (versus 66.7% for the quarter ended December 31, 2009) was a result of lower volume. The Company, which is largely leveraged on volume, made investments in its infrastructure during the first half of calendar year 2010 in order to provide for the capacity to take on large increases in volume. As a result, the combination of lower volume and greater capacity creates negative leverage and adversely impacts gross margin.

Selling, general and administrative ("SG&A") expenses for the three months ended December 31, 2010 of \$2.3 million, increased by \$234 thousand, from SG&A expenses of \$2.1 million for the three months ended December 31, 2009. The increase in SG&A is primarily due to higher (i) professional fee expenses of \$321 thousand (primarily due to contract government sales fees, legal fees, audit and related fees, SEC registration fees and other consulting fees) and (ii) research and development expenses of \$45 thousand (primarily related to on-going research related to the Company's patent pending new product called PELLA-DRX™). These increases in SG&A were offset by decreases in (i) compensation and benefit expense including payroll tax of \$43 thousand (primarily due to lower commissions as a result of lower sales offset by higher compensation expense as a result of an increased number of employees year-over-year headcount of 17 of which 13 are focused on sales and marketing-related activities), (ii) travel and entertainment expenses of \$41 thousand (primarily due to reduced travel expenses by senior management) and (iii) marketing expenses of \$35 thousand (primarily due to lower marketing consulting expenses and timing of new campaigns).

The Company generated an operating loss of \$1.2 million for the three months ended December 31, 2010 compared to operating income of \$8.4 million for the three months ended December 31, 2009. The operating margin was (26.0%) for the three months ended December 31, 2010 compared to 52.8% for the three months ended December 31, 2009. The decrease in operating income and operating margin is a result of the above mentioned decrease in revenue and operating leverage inherent in the Company's business model.

The Company generated a loss before tax of \$1.2 million for the three months ended December 31, 2010 versus income before tax of \$8.4 million for the three months ended December 31, 2009. The decrease in income before tax is a result of lower operating income (discussed above).

The Company's effective tax rate for the three months ended December 31, 2010 was 31.9% compared to 33.5% for the three months ended December 31, 2009. The decrease in the effective tax rate resulted primarily from a reduction in the statutory rate from 35% to 34%. The Company estimates the effective tax rate expected to be applicable for the

full year. The Company uses estimates in providing for income taxes on a year to date basis and those estimates may change in subsequent interim periods.

The Company generated a net loss of \$0.8 million for the three months ended December 31, 2010 compared to net income of \$5.6 million for the three months ended December 31, 2009. The decrease in net income is a result of lower operating income (discussed above).

The Company reported diluted loss per share of (\$0.05) for the three months ended December 31, 2010 versus diluted earnings per share of \$0.38 for the three months ended December 31, 2009. The decrease in diluted earnings per share is a result of a lower net income (discussed above).

Table of Contents

SIX MONTHS ENDED DECEMBER 31, 2010 AS COMPARED TO SIX MONTHS ENDED DECEMBER 31, 2009

Total revenues for the six months ended December 31, 2010 of \$9.8 million decreased by \$21.5 million, or 68.6%, over the total revenues for the six months ended December 31, 2009 of \$31.4 million. Billings by market are as follows (in thousands):

	Six-Months Ended December 31, (Unaudited)		
	2010	2009	Variance
BILLINGS BY MARKET:			
Home Health Care	\$ 3,655	\$ 3,265	\$ 390
Retail	2,663	2,967	(304)
Government	1,049	22,718	(21,669)
Professional	991	796	195
Assisted Living/ Hospitality	573	502	71

Subtotal	9,788	31,321	(21,533)
GAAP Adjustment *	56	43	13
Revenue Reported	\$ 9,844	\$ 31,364	\$ (21,520)

*Represents the net impact of the revenue recognition adjustment required to arrive at reported generally accepted accounting principles ("GAAP") revenue. Customer billings include all invoiced amounts associated with products shipped during the period reported. GAAP revenue includes customer billings as well as numerous adjustments necessary to reflect, (i) the deferral of a portion of current period sales and (ii) recognition of certain revenue associated with products returned for treatment and destruction. The difference between customer billings and GAAP revenue is reflected in the Company's balance sheet as deferred revenue. See Note 3 "Revenue Recognition" in "Notes to Consolidated Financial Statements".

This Year-to-Date Report on Form 10-Q contains certain financial information not derived in accordance with GAAP, including customer billings information. The Company believes this information is useful to investors and other interested parties as customer billings represents all invoiced amounts associated with products shipped during the period reported. Such information should not be considered as a substitute for any measures derived in accordance with GAAP, and may not be comparable to other similarly titled measures of other companies. Reconciliation of this information to the most comparable GAAP measures is included above.

The decrease in revenues is primarily attributable to decreased billings in the Government (\$21.7 million), Retail (\$0.3 million), and Pharmaceutical (\$0.1 million) markets. These decreases in billings were partially offset by increased billings in the Home Health Care (\$0.4 million) and Professional (\$0.2 million) markets. Government billings in the current year and prior year included \$760 thousand and \$22.4 million, respectively, associated with the Company's contract with a major U.S. government agency announced in February 2009. The current year billings were for maintenance and the prior year billings were for the sale of the Company's Sharps MWMS to this major U.S. government agency and resulted in a decrease in billings under this contract of \$21.7 million. The decrease in the Retail market billings is due to the timing of customer orders as pharmacies had accelerated their purchases for the 2010 flu shot season as well as the prior year including H1N1-related flu shot activity. The impact of timing related to the 2010 flu shot season was partially offset by the initial order of the Company's TakeAway System™ being used by one of the country's largest retail pharmacy chains as part of their Safe Medication Disposal Program. The decrease in billings in the Pharmaceutical market is a result of timing of customer orders and the discontinuation of one of the

Company's six patient support programs. The increase in billings in the Home Health Care market is a result of increased sales to home healthcare related distributors addressing the growing trend of patient volumes in the home health care industry. The increase in the Professional market was a direct result of the Company's targeted telemarketing activities to educate doctors, dentists and veterinarians on the significant cost advantage and the convenience of the Sharps Recovery System™ over the traditional pick-up service. The Professional market sales to the distributor network were flat over prior year.

Cost of revenues for the six months ended December 31, 2010 of \$6.8 million was 69.1% of revenues. Cost of revenues for the six months ended December 31, 2009 of \$9.8 million was 31.3% of revenue. The lower gross margin for the six months ended December 31, 2010 of 30.9% (versus 68.7% for the six months ended December 31, 2009) was a result of lower volume. The Company, which is largely leveraged on volume, made investments in its infrastructure during the first half of calendar year 2010 in order to provide for the capacity to take on large increases in volume. As a result, the combination of lower volume and greater capacity creates negative leverage and adversely impacts gross margin.

Selling, general and administrative ("SG&A") expenses for the six months ended December 31, 2010 of \$4.7 million, increased by \$794 thousand, from SG&A expenses of \$3.9 million for the six months ended December 31, 2009. The increase in SG&A is primarily due to higher (i) professional expenses of \$397 thousand (primarily due to contract government sales fees, legal fees, audit and related fees, SEC registration fees and other consulting fees), (ii) compensation and benefit expense including payroll tax of \$269 thousand (primarily due to increased number of employees year-over-year headcount of 17 of which 13 are focused on sales and marketing-related activities), (iii) research and development expenses of \$63 thousand (primarily related to on-going research related to the Company's patent pending new product called PELLA-DRX™), (iv) computer and systems-related expenses of \$38 thousand (primarily related to internet and offsite hosting and recovery costs), and (v) office rent and utilities expenses of \$31 thousand (primarily related to increased common area maintenance and property expenses).

Table of Contents

During the first quarter of fiscal year 2011, the Company recorded a special charge of \$570 thousand, or \$0.02 per diluted loss per share, which represents expenses incurred with the retirement of the Company's former Chief Executive Officer, Dr. Burton Kunik. The special charge consists of (i) severance-related items totaling \$491 thousand, (ii) non-cash stock-based compensation expense of \$73 (resulting from accelerated vesting of stock option awards), and (iii) legal fees related to the separation agreement of \$6 thousand. The Company paid Dr. Kunik \$68 thousand on September 30, 2010 and will pay Dr. Kunik approximately \$409 thousand in April 2011 related to the expenses noted above.

The Company generated an operating loss of \$2.4 million for the six months ended December 31, 2010 compared to operating income of \$17.4 million for the six months ended December 31, 2009. The operating margin was (24.6%) for the six months ended December 31, 2010 compared to 55.5% for the six months ended December 31, 2009. The decrease in operating income and operating margin is a result of the above mentioned decrease in revenue and operating leverage inherent in the Company's business model.

The Company generated a loss before tax of \$2.4 million for the six months ended December 31, 2010 versus income before tax of \$17.4 million for the six months ended December 31, 2009. The decrease in income before tax is a result of lower operating income (discussed above).

The Company's effective tax rate for the six months ended December 31, 2010 was 33.0% compared to 34.4% for the six months ended December 31, 2009. The decrease in the effective tax rate resulted primarily from a reduction in the statutory rate from 35% to 34%. The Company estimates the effective tax rate expected to be applicable for the full year. The Company uses estimates in providing for income taxes on a year to date basis and those estimates may change in subsequent interim periods.

The Company generated a net loss of \$1.6 million for the six months ended December 31, 2010 compared to net income of \$11.4 million for the six months ended December 31, 2009. The decrease in net income is a result of lower operating income (discussed above).

The Company reported diluted loss per share of (\$0.11) for the six months ended December 31, 2010 versus diluted earnings per share of \$0.78 for the six months ended December 31, 2009. The decrease in diluted earnings per share is a result of a lower net income (discussed above).

PROSPECTS FOR THE FUTURE

The Company continues to take advantage of the many opportunities in the markets served as communities, consumers, government and health care and commercial organizations become more aware of the need for the proper treatment of medical sharps waste and unused dispensed medications. This education process was enhanced in December 2004 when the U. S. Environmental Protection Agency ("EPA") issued its new guidelines for the proper disposal of medical sharps, revising the previous guidance that advised patients to dispose of used syringes in the trash (see <http://www.epa.gov/wastes/nonhaz/industrial/medical/med-govt.pdf>). Additionally, in July 2006 both the states of California and Massachusetts passed legislation designed to mandate appropriate disposal of sharps waste necessary to protect the general public and workers from potential exposure to contagious diseases and health and safety risks. Currently, nine states ban the disposal of used syringes in the trash and four states are considering similar legislation, while the remaining states operate under the EPA guidance noted above. In August 2008, the U.S. House of Representatives and U.S. Senate introduced bills 3251 and 1909, respectively, if enacted, which would provide for Medicare reimbursement, under part D, for the safe and effective disposal of used needles and syringes. The Centers for Disease Control (the "CDC") and the EPA estimate that there are over three billion used syringes disposed of annually outside of the hospital setting in the United States. The Company estimates that it would require 30 to 50 million Sharps® Recovery System™ (formerly Sharps Disposal by Mail System®) products to properly dispose of all

such syringes, which would equate to a market opportunity of \$1 billion. Based upon the current level of sales, the Company estimates that it has penetrated approximately 1% of this \$1 billion market opportunity. Additionally, an estimated 40% of the four billion dispensed medication prescriptions go unused every year in the United States generating an estimated 200 million pounds of unused medication waste. The Company estimated the market opportunity for the proper recovery and management of the unused medications to be at least \$1 billion per year.

Table of Contents

The Company continues to develop new products and services including the Sharps® MWMS™, the TakeAway™ line of products for unused medications (including the TakeAway™ Environmental Return System), the 18 and 28 gallon Medical Professional Recovery System, the Sharps® Recovery System™ (formerly Sharps Disposal by Mail System®) and the new TakeAway™ Recovery and Reporting System which offers the collection, storage, audit, witnessed treatment and documentation of unused medications such as flu vaccine, Tamiflu, and Relenza. The Company continues to develop products and services designed to facilitate the proper and cost effective solutions for management of medical waste and unused dispensed medication generated outside of the hospital and large health care facility setting. The Company believes its future growth will be driven by, among other items, (i) the convergence of issues regarding the environment, the cost of healthcare and changes in our healthcare delivery system and cost-savings initiatives which influence the decision making process of our customers, (ii) the effects of the Company's extensive multi-level marketing and awareness efforts and (iii) the Company's leadership position in the development and sales of products and services designed for the proper and cost effective solutions for management of medical waste and unused dispensed medications generated outside the hospital and large health care facility setting.

The Sharps®MWMS™, a Medical Waste Management System, is a comprehensive medical waste and dispensed medication solution which includes an array of products and services necessary to effectively collect, store and treat medical waste and unused dispensed medication outside of the hospital or large health care facility setting. Sharps®MWMS™, which is designed for rapid deployment, features the Sharps® Recovery System™ (formerly known as the Sharps Disposal By Mail System®) and TakeAway™ Environmental Return System products (the "Products") combined with warehousing, inventory management, training, data and other services (the "Services") necessary to provide a comprehensive solution. The Sharps®MWMS™ is designed to be an integral part of governmental and commercial emergency preparedness programs. The Company recognizes revenue for the Product portion of the contract in accordance with the revenue recognition policy for the Sharps® Recovery System™ (formerly Sharps Disposal By Mail System®) products. The Services portion of the contract, described above, is recognized as revenue as services are performed.

The Company is actively marketing its Sharps®MWMS™ to federal, state and local agencies as well as to large corporations. On February 2, 2009, the Company announced a \$40 million contract (the "U.S. Government Contract") award to provide its Sharps®MWMS™ to a major U.S. government agency. The total contract is expected to be executed over a five year period (one year plus four option years). On February 1, 2009, the Company received a purchase order for \$28.5 million (\$6.0 million of which was recognized in fiscal year 2009, \$22.5 million was recognized in the first half of fiscal year 2010). In January 2010, Sharps was awarded the first option year (ending January 31, 2011) valued at approximately \$1.6 million and is expected to be recognized from February 1, 2010 through January 31, 2011. There was approximately \$1.6 million in revenue in calendar year 2010 for the maintenance component of the contract including the \$0.8 million in the second half of fiscal year 2010, and \$0.8 million recognized in the first half of fiscal year 2011. The remaining three option years are expected to be approximately \$3.0 million per contract year. Although, the Company believes the amounts above to be reasonable based upon the underlying contract and its current project plan, it makes no assurances regarding the actual recognition of revenue by fiscal year, which could vary significantly from that noted above.

In January 2010, the Company announced a pilot program with the United States Department of Veterans Affairs ("VA"). The program was launched within the VA Capitol Health Care Network ("Veterans Integrated Service Network 5" or "VISN 5"), which currently provides quality health care for eligible veterans in Maryland and portions of Virginia, West Virginia, and Pennsylvania, as well as the District of Columbia. The pilot allows each of the medical centers within the VISN 5 region, both inpatient and outpatient, to provide the Sharps® Recovery System™ (formerly known as the Sharps Disposal By Mail System®) and the TakeAway™ Environmental Return System solutions to their patients. Since its original launch, the pilot program has now expanded to include eight VISN's (encompassing twenty-two states plus the District of Columbia). There are a total of twenty-three VISN's in the VA System. The VISN network is part of the Veterans Health Administration which encompasses the largest integrated health care

system in the United States, consisting of 153 medical centers, in addition to numerous community based outpatient clinics, community living centers and Vet Centers. Together these health care facilities provide comprehensive care to over 5.5 million Veterans each year.

The Company believes the pace of regulation of sharps and unused dispensed medications disposal is gaining momentum at both the state and federal level. Currently, 9 states (covering 30% of the U.S. population) restrict or have introduced legislation to restrict the disposal of used sharps in household trash and 22 states (covering 65% of the U.S. population) have also enacted or introduced legislation to regulate the disposal of pharmaceuticals to reduce pollution of the environment. As state and federal enforcement of these statutes increases, more companies will turn to solutions such as ours to help manage their medical waste and regulatory compliance. The Company believes it is well positioned to benefit given our strict adherence to established standards and extensive documentation and records.

RECENT DEVELOPMENTS

The Company was notified in late October by the USPS that it planned to continue to develop specific protocols to permit disposal of non-controlled prescription drugs by mail. At that time, the USPS requested Sharps to suspend the sale of the envelopes associated with its TakeAway System™ program which was operated under agreement with the USPS.

Table of Contents

Subsequent to the close of the fiscal 2011 second quarter, effective January 7, 2011, Sharps re-launched its TakeAway System™ envelope solution after meeting the newly defined and enhanced requirements under a special mailing exception issued and approved by the United States Postal Service. The Company resumed shipping the new TakeAway™ envelope solution in early January of 2011. The solution is designed to provide a means for the efficient, cost-effective and proper disposal of unused, non-controlled medications, including over-the-counter products for consumers and patients. Sharps is the only company in the U.S. permitted to provide this comprehensive, managed solution for the proper disposal of unused dispensed medications, other than controlled substances, through the mail.

The Company implemented a program late in December 2010 whereby management reallocated resources throughout the Company to be better aligned with the implementation of our more targeted and aggressive sales, marketing and market awareness building strategies. The Company believes the initiative is a more deliberate, research-based, targeted and multi-layered approach to our sales and marketing activities. The program included headcount reductions while also upgrading talent, and budget cuts in certain areas to accommodate new promotional and sales programs while adding broader market access through the internet and other electronic media. We expect that our multi-pronged approach to create demand and increase awareness of the Company and its solutions will allow us to further penetrate our targeted audiences more rapidly.

LIQUIDITY AND CAPITAL RESOURCES

Cash Flow

Cash and cash equivalents decreased by \$0.2 million to \$17.8 million at December 31, 2010 from \$18.1 million at June 30, 2010. The decrease in cash and cash equivalents is primarily due to capital expenditures and additions to intangible assets of \$0.3 million.

Inventory increased by \$0.4 million to \$2.1 million at December 31, 2010 from \$1.7 million at June 30, 2010. The increase in inventory is attributable to new product lines and timing of shipments of IV pole inventory.

Prepaid and other assets increased by \$0.4 million to \$3.8 million at December 31, 2010 from \$3.4 million at June 30, 2010. The increase is primarily due to the increase in the amount of the estimate related to the 2010 income tax return of \$2.3 million. This increase was partially offset by the receipt of the federal income tax refund of \$2.0 million in July 2010.

Property, plant and equipment, net decreased by \$235 thousand to \$5.4 million at December 31, 2010 from \$5.6 million at June 30, 2010. The decrease in property and equipment is related to depreciation expense of \$483 thousand and disposal of assets of \$45 thousand partially offset by capital expenditures of \$248 thousand. The capital expenditures are attributable primarily to the purchase of, (i) treatment facility improvement of \$68 thousand including a new boiler for the incinerator, (ii) general office improvements for the completion of the recently expanded corporate office of \$65 thousand, (iii) computer equipment and custom software programming of \$63 thousand, (iv) phone system expansion of \$23 thousand, (v) dies and printing plates of \$22 thousand primarily for new product development and (vi) scanning and scale equipment for the treatment facility of \$7 thousand.

Stockholders' equity decreased by \$0.1 million to \$26.8 million at December 31, 2010 from \$26.9 million at June 30, 2010. This decrease is primarily attributable to (i) a net loss for the six months ended December 31, 2010 of \$1.6 million and (ii) the effect on equity (credit) of non-cash stock based award expense of \$0.5 million (includes \$73 thousand related to the retirement of the Company's former Chief Executive Officer). The impact was partially offset by the effect of excess tax benefits of stock-based activity of \$1.0 million.

Off -Balance Sheet Arrangements

The Company entered into certain off-balance sheet arrangements in the ordinary course of business that result in risks not directly reflected in our balance sheets. The Company's most significant off-balance sheet transactions include commitments associated with non-cancelable operating leases. The Company has other off-balance sheet obligations involving letters of credit.

The Company entered into non-cancelable operating leases for certain of our facility, vehicle and equipment needs. These leases allow us to conserve cash by paying a monthly lease rental fee for use of facilities, vehicles and equipment rather than purchasing them. At the end of the lease, the Company has no further obligation to the lessor. If we decide to cancel or terminate a lease before the end of its term, we would typically owe the lessor the remaining lease payments under the term of the lease.

Credit Facility

On July 15, 2010, the Company entered into a Credit Agreement (the "Credit Agreement") with Wells Fargo Bank, National Association. The Credit Agreement replaces the Prior Credit Agreement executed on March 9, 2010 with JPMorgan Chase Bank, N.A. The Credit Agreement provides for a two-year, \$5.0 million line of credit facility, the proceeds of which may be utilized for: (i) working capital, (ii) capital expenditures, (iii) letters of credit (up to \$500,000), (iv) acquisitions (up to \$1,000,000) and (v) general corporate purposes. As of December 31, 2010, the Company had no outstanding borrowings, \$105 thousand in letters of credit outstanding, and \$4.9 million of credit available.

Table of Contents

Indebtedness under the Credit Agreement is secured by substantially all of the Company's assets. Borrowings bear interest at either (i) a fluctuating rate per annum equal to LIBOR plus a margin of 250 basis points or (ii) at the Company's option, a fixed rate for a 30, 60, or 90 day period set at the option date's LIBOR plus a margin of 250 basis points. Any outstanding revolving loans, and accrued and unpaid interest, will be due and payable on July 15, 2012, the maturity date of the Credit Agreement. The Company paid a one-time non-refundable commitment fee of \$10,000 applicable to the entire two year term of the Credit Agreement. The Company will pay a fee of 0.2% per annum on the unused amount of the line of credit. The Company estimates that the interest rate applicable to the borrowings under the Credit Agreement would be approximately 2.8% as of December 31, 2010.

The Credit Agreement contains affirmative and negative covenants that, among other things, require the Company to maintain a minimum level of tangible net worth of \$21 million and not exceed a ratio of liabilities to tangible net worth of 1.0 to 1.0. As of December 31, 2010, the Company is in compliance with all financial covenants. The Credit Agreement also contains customary events of default. Upon the occurrence of an event of default that remains uncured after any applicable cure period, the lenders' commitment to make further loans may terminate and the Company may be required to make immediate repayment of all indebtedness to the lenders.

Management believes that the Company's current cash resources (cash on hand and cash generated from operations) along with its \$5.0 million line of credit with Wells Fargo Bank will be sufficient to fund operations for the twelve months ending December 31, 2011.

CRITICAL ACCOUNTING ESTIMATES

The Company recognizes revenue in accordance with guidance on revenue recognition of multiple-deliverable revenue arrangements. On July 1, 2010, the Company adopted ASU No. 2009-13 which further clarified guidance on revenue recognition for multiple-deliverable revenue arrangements, changing the way the Company allocates arrangement consideration to the separate units of accounting. Under this guidance, certain products offered by the Company have revenue producing components that are recognized over multiple delivery points (Sharps® Recovery System™ (formerly the Sharps Disposal by Mail Systems®) and various TakeAway™ Environmental Return Systems referred to as "Mailbacks" and Sharps Pump Return Boxes, referred to as "Pump Returns") and can consist of up to three separate elements, or units of measure, as follows: (1) the sale of the compliance and container system, (2) return transportation and (3) treatment service.

Prior to July 1, 2010, the individual fair value of the transportation and treatment services were determined by the sales price of the service offered by third parties, with the fair value of the compliance and container being the residual value. Beginning July 1, 2010, under the relative selling price methodology, an estimated selling price is determined for all deliverables that qualify for separate units of accounting. The actual consideration received in a multiple-deliverable arrangement is then allocated to the units based on their relative sales price. Because an estimated selling price must be set for each unit, the residual method used previously by the Company to allocate consideration to the compliance and container system is no longer allowed. The selling price for the transportation revenue and the treatment revenue, which utilizes third party evidence, did not change from the prior method. The Company estimates the selling price of the compliance and container system based on the product and services provided including compliance with local, state and Federal laws, adherence to stringent manufacturing and testing requirements, safety to the patient and the community as well as storage and containment capabilities.

Revenue for the sale of the compliance and container is recognized upon delivery to the customer, at which time the customer takes title and assumes risk of ownership. Transportation revenue is recognized when the customer returns the compliance and container system and the container has been received at the Company's facility. The compliance and container system is mailed or delivered by alternative logistics provider to the Company's facility. Treatment revenue is recognized upon the destruction or conversion and proof of receipt and treatment having been prepared on

the container. Since the transportation element and the treatment elements are undelivered services at the point of initial sale of the compliance and container, transportation and treatment revenue is deferred until the services are performed. The current and long-term portions of deferred revenues are determined through regression analysis and historical trends. Furthermore, through regression analysis of historical data, the Company has determined that a certain percentage of all container systems sold may not be returned. Accordingly, a portion of the transportation and treatment elements are recognized at the point of sale.

The Company has calculated the change in revenue assigned to each of the units of accounting under the relative selling price methodology as compared to using the residual allocation method and determined that the change is not material. The Company has determined that the implementation of ASU No. 2009-13 did not have a material effect on the consolidated financial statements when compared to its previous revenue recognition methodology.

RECENTLY ISSUED ACCOUNTING STANDARDS

In July 2010, the FASB issued guidance expanding disclosure requirements related to receivables. The guidance was issued to provide financial statement users with greater transparency about an entity's allowance for credit losses and the credit quality of its financing receivables. The guidance is for receivables, off-balance sheet credit exposures and foreclosed and repossessed assets. The Company's summary of significant accounting policies shall now include: (i) basis for accounting for loans, trade receivables, and lease financing (including those classified as held for sale), (ii) method used in determining the lower of cost or fair value of nonmortgage loans held for sale, (iii) classification and method of accounting for interest-only strips, loans and other receivables and (iv) method for recognizing interest income on loan and trade receivables.

In addition, the allowance for credit losses, the allowance for doubtful accounts, and as applicable any unearned income, any unamortized premiums and discounts, and any net unamortized deferred fees and costs, shall be disclosed in the financial statements. The Company adopted this guidance, as required for both interim and annual reporting periods, effective December 15, 2010. The adoption of this guidance does not impact the Company's consolidated results of operations or financial position. The Company has included its Accounts Receivable policy in Note 3 – Significant Accounting Policies.

ITEM 3. QUANTITATIVE AND QUALITATIVE DISCLOSURES ABOUT MARKET RISK

The Company does not have exposure to significant financial market risk including commodity price risk, foreign currency exchange risk or interest rate risk. Management does not use derivative instruments. The Company has limited exposure to changes in interest rates due to its lack of indebtedness. The Company maintains a credit agreement under which we may borrow funds in the future. Currently, the Company does not foresee any borrowing needs.

ITEM 4. CONTROLS AND PROCEDURES

Evaluation of Disclosure Controls and Procedures

The Company maintains "disclosure controls and procedures", as such term is defined in Rule 13a-15(e) under the Exchange Act, that are designed to ensure that information required to be disclosed in our Exchange Act reports is recorded, processed, summarized and reported within the time periods specified in the SEC rules and forms, and that such information is accumulated and communicated to management, including, the Chief Executive Officer ("CEO") and the Chief Financial Officer ("CFO") as appropriate, to allow timely decisions regarding required disclosure.

As of December 31, 2010, the Company conducted an evaluation (the "Evaluation"), under the supervision and with the participation of the CEO and CFO, of the effectiveness of the design and operation of our disclosure controls and procedures ("Disclosure Controls"), pursuant to Rules 13a-15(e) and 15d-15(e) of the Exchange Act. Based upon this Evaluation, the CEO and CFO concluded that our Disclosure Controls were effective as of December 31, 2010.

Changes in Internal Control over Financial Reporting

During the quarter ended December 31, 2010, there were no changes in the Company's internal controls over financial reporting (as defined in Rules 13a-15(f) and 15d-15(f) of the Exchange Act), that have materially affected, or are reasonably likely to materially affect the Company's internal control over financial reporting.

CEO and CFO Certifications

Appearing immediately following the Signatures section of this report are certifications of the CEO and the CFO. The Certifications are required in accordance with Section 302 of the Sarbanes-Oxley Act of 2002 (the Section 302 Certifications). This Item of this Quarterly Report on Form 10-Q, which you are currently reading, is the information concerning the Evaluation referred to in the Section 302 Certification and this information should be read in conjunction with the Section 302 Certifications for a more complete understanding of the topics presented.
