Note 1 – Company Background

Sociedad Química y Minera de Chile S.A. (the “Company”) was registered with the Chilean Superintendency of Securities and Insurance (“SVS”) on September 18, 1983.

The subsidiary registered in the Superintendency of Securities and Insurance registry of securities is as follows:

Soquimich Comercial S.A., Registration No. 0436 dated January 11, 1993.

Note 2 – Summary of Significant Accounting Policies

a) Basis for the preparation of the consolidated financial statements

The accompanying consolidated financial statements have been prepared in U.S. dollars in accordance with accounting principles generally accepted in Chile (“Chilean GAAP”) and the regulations of the SVS. Certain accounting practices applied by the Company that conform to Chilean GAAP may not conform to generally accepted accounting principles in the United States (“US GAAP”). For the convenience of the reader, the consolidated financial statements and their accompanying notes have been translated from Spanish into English.

The consolidated financial statements include the accounts of Sociedad Química y Minera de Chile S.A. (the “Parent Company”) and subsidiaries (companies in which the Parent Company holds a controlling participation, generally equal to direct or indirect ownership of more than 50%). The Parent Company and its subsidiaries are referred to as the “Company”.

The preparation of financial statements requires Management to make estimates and assumptions that affect the reported amounts of assets and liabilities, disclosures of contingent assets and liabilities as of the date of the financial statements and the reported amounts of revenues and expenses during the reported period. Actual results could differ from those estimates.

In accordance with SVS Circular No. 1,697 and Technical Bulletins Nos. 64 and 72 of the Chilean Association of Accountants, the consolidated financial statements include the following subsidiaries:

Notes to the Consolidated Financial Statements

Note 2 - Summary of Significant Accounting Policies (continued)

b) Accounting period

These consolidated financial statements have been prepared as of September 30, 2008 and 2007 and for the nine-month periods then ended.

c) Reporting currency and monetary correction

The financial statements of the Company are prepared in U.S. dollars. As a significant portion of the Company's operations are transacted in U.S. dollars, the U.S. dollar is considered the currency of the primary economic environment in which the Company operates.

The Parent Company and those subsidiaries which maintain their accounting records in U.S. dollars are not required, or permitted, to restate the historical dollar amounts for the effects of inflation.

The financial statements of domestic subsidiaries that maintain their accounting records in Chilean pesos have been restated to reflect the effects of variations in the purchasing power of the Chilean peso during the period. For this purpose, and in accordance with Chilean regulations, non-monetary assets and liabilities, equity and income statement accounts have been restated in terms of year-end constant pesos based on the change in the consumer price index during the period (6.9% and 5.1% in 2008 and 2007, respectively). The resulting net charge or credit to income arises as a result of the gain or loss in purchasing power from the holding of non-U.S. dollar denominated monetary assets and liabilities exposed to the effects of inflation.

Prior period financial statements presented for comparative purposes have not been restated to reflect the change in the purchasing power of the Chilean peso during the most recent period. In accordance with Chilean GAAP, amounts expressed in U.S. dollars, including amounts included in the consolidated financial statements as determined in prior years from the translation of financial statements of those Chilean subsidiaries which maintain their accounting records in Chilean pesos, are not adjusted for price-level changes.

SOCIEDAD QUIMICA Y MINERA DE CHILE S.A.
Notes to the Consolidated Financial Statements

Note 2 - Summary of Significant Accounting Policies (continued)

d) Foreign currency

i) Foreign currency transactions

Monetary assets and liabilities denominated in Chilean pesos and other currencies have been translated to U.S. dollars at the observed exchange rates determined by the Central Bank of Chile in effect at each year-end of Ch\$ 551.31 per US\$1 at September 30, 2008 and Ch\$ 511.23 per US\$1 at September 30, 2007.

ii) Translation of non-U.S. dollar financial statements

In accordance with Chilean GAAP, the financial statements of foreign and domestic subsidiaries that do not maintain their accounting records in U.S. dollars are translated from the respective local currencies to U.S. dollars in accordance with Technical Bulletin No. 64 and No. 72 of the Chilean Association of Accountants (“BT 64-BT 72”) as follows:

a) For those subsidiaries and affiliates located in Chile that keep their accounting records in price-level adjusted Chilean pesos:

- Balance sheet accounts are translated to U.S. dollars at the year-end exchange rate without eliminating the effects of price-level restatement.

- Income statement accounts are translated to U.S. dollars at the average exchange rate each month. The monetary correction account on the income statement, which is generated by the inclusion of price-level restatement on the non-monetary assets and liabilities and shareholders’ equity, is translated to U.S. dollars at the average exchange rate for each month.

- Translation gains and losses, as well as the price-level restatement to the balance sheet mentioned above, are included as an adjustment in shareholders’ equity, in conformity with Circular No. 1697 of the SVS.

SOCIEDAD QUIMICA Y MINERA DE CHILE S.A.
Notes to the Consolidated Financial Statements
(A translation of the original in Spanish- see note 2 (a))

Note 2 - Summary of Significant Accounting Policies (continued)**d) Foreign currency (continued)**

b) The financial statements of those foreign subsidiaries that keep their accounting records in currencies other than the U.S. dollar have been translated at historical exchange rates as follows:

- Monetary assets and liabilities are translated at year-end exchange rates between the U.S. dollar and the local currency.
 - All non-monetary assets and liabilities and shareholders' equity are translated at historical exchange rates between the US dollar and the local currency.
 - Income and expense accounts are translated at average exchange rates between the U.S. dollar and the local currency.
- Any exchange differences are included in the results of operations for the period.

Foreign exchange differences for the periods ended September 30, 2008 and 2007 generated a net gain (loss) of ThUS\$ (7,585) and ThUS\$ (2,311), respectively, which has been charged to the consolidated statements of income in each respective period.

The monetary assets and liabilities of foreign subsidiaries were translated into U.S. dollars at the exchange rates per US dollar prevailing at September 30, as follows:

	2008	2007
	US\$	US\$
Brazilian Real	1.96	1.96
New Peruvian Sol	3.19	3.10
Argentine Peso	3.15	3.15
Japanese Yen	118.50	115.43
Euro	0.68	0.71
Mexican Peso	10.94	10.92
Australian Dollar	1.27	1.13
Pound Sterling	0.56	0.51
Ecuadorian Sucre	1.00	1.00
South African Rand	8.30	7.01

The Company uses the "observed exchange rate", which is the rate determined daily by the Chilean Central Bank based on the average exchange rates at which bankers conduct authorized transactions.

SOCIEDAD QUIMICA Y MINERA DE CHILE S.A.
Notes to the Consolidated Financial Statements
(A translation of the original in Spanish- see note 2 (a))

Note 2 - Summary of Significant Accounting Policies (continued)

e) Cash and cash equivalents

Included in cash and cash equivalents are cash and bank balances included in cash, time deposits, financial instruments classified as marketable securities and other short-term investments maturing within 90 days, in compliance with Technical Bulletin No. 50 issued by the Chilean Association of Accountants.

The Company has considered as operating cash movements, all positive or negative cash flows directly related to its line of business and in general all cash flows that are not defined as from investment or financing.

f) Time deposits

Time deposits are recorded at cost plus accrued interest.

g) Marketable securities

Marketable securities are recorded at the lower of cost plus accrued interest or market value.

h) Allowance for doubtful accounts

The Company records an allowance for doubtful accounts based on estimated probable losses.

i) Inventories and materials

Inventories of finished products and products in process are stated at average production cost, which is presented net of provisions. Provisions have been made based on a technical study which covers the different variables which affect our products (density, moisture, and others).

Materials and supplies received are stated at average acquisition cost and inventories in transit are stated at cost incurred at the end of the period.

The cost of inventories does not exceed their net realizable value.

j) Income taxes and deferred income taxes

In conformity with current Chilean tax regulations, the Company recognizes the provision for corporate income tax expense and the income tax for the mining activity on an accrual basis.

SOCIEDAD QUIMICA Y MINERA DE CHILE S.A.
Notes to the Consolidated Financial Statements
(A translation of the original in Spanish- see note 2 (a))

Note 2 - Summary of Significant Accounting Policies (continued)

j) Income and deferred taxes (continued)

Prior to 2000, income taxes were charged to results in the same period in which the income and expenses were recorded and were calculated in accordance with the enacted tax laws in Chile and the other jurisdictions in which the Company operated.

Under Chilean law, the Parent Company and its subsidiaries are required to file separate tax returns.

Beginning January 1, 2000, the Company records deferred income taxes in accordance with Technical Bulletin Nos. 60, 69, 71 and 73 of the Chilean Association of Accountants, and with SVS Circular No. 1466 issued on January 27, 2000, recognizing the deferred tax effects of temporary differences between the financial and tax values of assets and liabilities, using the liability method. The effect of the temporary differences at March 31, 1999 were recorded in complementary asset and liability accounts, which are recognized in the statement of operations over the estimated period in which they reverse.

k) Property, plant and equipment

Property, plant, equipment and property rights are recorded at acquisition cost, considering in general an average residual value of 5%, except for certain assets that were restated in accordance with a technical appraisal in 1989. Depreciation for the period is calculated according to the straight-line method based on the remaining technical useful lives of assets, estimated by management.

Property, plant and equipment acquired through financial lease agreements are accounted for at the present value of the minimum lease payments plus the purchase option based on the interest rate included in each contract. The Company does not legally own these assets and therefore cannot freely dispose of them.

In conformity with Technical Bulletin No. 31 and 33 of the Chilean Association of Accountants, the Company capitalizes interest cost associated with the financing of new assets during the construction period of such assets.

Maintenance costs of plant and equipment are charged to expenses as incurred.

The Company obtains property rights and mining concessions from the Chilean state. Other than minor filing fees, the property rights are usually obtained without initial cost, and once obtained, are retained by the Company as long as the annual fees are paid. Such fees, which are paid annually in September, are recorded as prepaid assets to be amortized over the following twelve months. Values attributable to these original mining concessions are recorded in property, plant and equipment.

SOCIEDAD QUIMICA Y MINERA DE CHILE S.A.
Notes to the Consolidated Financial Statements
(A translation of the original in Spanish- see note 2 (a))

Note 2 - Summary of Significant Accounting Policies (continued)

l) Investments in related companies

Investments in related companies over which the Company has significant influence are included in other assets and are recorded using the equity method of accounting, in accordance with SVS Circulars Nos. 368 and 1697 and Technical Bulletins Nos. 64 and 72 issued by the Chilean Association of Accountants. Accordingly, the Company's proportional share in the net income or loss of each investee is recognized in the non-operating income and expense classification in the consolidated statements of income on an accrual basis, after eliminating any unrealized profits from transactions with the related companies.

The translation adjustment to U.S. dollars of investments in domestic subsidiaries that maintain their accounting records and are controlled in Chilean pesos is recognized in other reserves within shareholders' equity. Direct and indirect investments in foreign subsidiaries or affiliates are controlled in U.S. dollars.

Investments in which the Company has less than 20% ownership and the capacity to exert significant influence or control over the investment, because SQM forms part of its Board of Directors have been valued using the equity method.

m) Goodwill and negative goodwill

Goodwill is calculated as the excess of the purchase price of companies acquired over their net book value, whereas negative goodwill occurs when the net book value exceeds the purchase price of companies acquired. Goodwill and negative goodwill resulting from equity method investments are maintained in the same currency in which the investment was made and are amortized based on the estimated period of investment return, generally 20 years for goodwill and negative goodwill.

Beginning on January 1, 2004, goodwill and negative goodwill represents the difference between the acquisition cost of the investment in a related company and the fair value of this investment at the acquisition date, which is amortized with a charge or credit to income in the expected period of return of the investment, which does not exceed 20 years.

n) Intangible assets

Intangible assets are stated at cost plus acquisition expenses and are amortized over a period of up to a maximum of 40 years, in accordance with Technical Bulletin No. 55 of the Chilean Association of Accountants.

o) Mining development cost

Mining development costs are recorded in other long-term assets and are amortized utilizing the unit of production basis.

Note 2 - Summary of Significant Accounting Policies (continued)

p) Accrued employee severance

The Company calculates the liability for staff severance indemnities based on the present value of the accrued benefits for the actual years of service worked assuming average employee tenure of 24 years and a real annual discount rate of 8%.

q) Vacations

The cost of employee vacations is recognized in the financial statements on an accrual basis.

r) Saleback operations

Saleback operations are registered in Other Current Assets at the amount of the purchase. Starting at the purchase date, the respective interest is recorded in accordance with SVS Circular 768.

s) Derivative contracts

The Company maintains derivative contracts to hedge against movements in foreign currencies, which are recorded in conformity with Technical Bulletin No. 57 of the Chilean Association of Accountants. Such contracts are recorded at fair value with net losses recognized on an accrual basis and gains recognized when realized.

t) Reclassifications

For comparison purposes, certain reclassifications have been made to the 2007 financial statements.

u) Revenue recognition

Income from the operation of the lines of business of the Parent Company and its subsidiaries is recorded as of the date of physical delivery of the products in accordance with the sales conditions stated in Technical Bulletin No. 70 issued by the Chilean Association of Accountants.

Note 2 - Summary of Significant Accounting Policies (continued)

v) Computer software

Computer systems developed internally using the Company's personnel and materials are charged to income during the year in which the expenses are incurred. In accordance with SVS Circular No. 1819 dated November 14, 2007, computer systems acquired by the Company are recorded at cost

w) Research and development expenses

Research and development cost are charged to the income statement in the period in which they are incurred. Property, plant and equipment that are acquired for use in research and development activities and determined to provide additional benefits to the Company are recorded in property, plant and equipment.

x) Obligations with the public (Bonds payable)

Bonds are stated at the principal amount plus interest accrued. The difference between the carrying value and the placement value is capitalized and amortized in the period of expiration of the bonds.

y) Provisions for mine closure costs

The Company has made a provision to cover those costs associated with mine closure and mining facilities and mitigation of environmental damage, which has been recorded at its present value. The amount determined is presented under accrued expenses in long-term liabilities.

z) Deferred income

Deferred income relate to the recognition of documented sales the delivery of which occurs subsequent to the closing date of the financial statements.

aa) Employee benefits

Benefits agreed other than staff severance indemnities which the Company and its subsidiaries will have to pay to its employees by virtue of agreements entered recognized on an accrual basis.

II.

SQM S.A. and its subsidiaries have been participating and probably will continue to participate habitually as plaintiffs or defendants in certain judicial proceedings that have been and will be filed and are subject to the decisions of the Ordinary Courts of Justice. Those proceedings, which are regulated by the applicable legal provision, mainly seek to exercise or oppose certain actions or exceptions related to certain mining concessions constituted or in the process of being constituted and do not and will not essentially affect the development of SQM S.A. and its subsidiaries.

III.

Soquimich Comercial S.A. has been participating and probably will continue to participate habitually as a plaintiff in certain judicial proceedings through which it seeks mainly to collect and receive the amounts owed to it in the total approximate amount of ThUS\$900.

IV.

SQM S.A. and its subsidiaries have tried and currently continue to try to obtain payment of certain amounts still owed to them for their regular activities. Those amounts will continue to be judicially and non-judicially demanded by the plaintiffs and the actions exercised in relation to them are currently in full force.

V.

SQM S.A. and its subsidiaries have not been legally notified of other complaints other than those mentioned in paragraph I above and which pursue the voidance of certain mining properties purchased by SQM S.A. and its subsidiaries and whose proportional purchase price, in respect to the part affected by the respective overlap, exceeds the nominal and approximate amount of ThUS\$150 or which seek to obtain payment of certain amounts allegedly owed from exercising their own activities and which exceed the nominal individual amount of approximately ThUS\$150.

Note 25 – Commitments and Contingencies (continued)**b) Restrictions:**

The bank loans of SQM S.A. and its subsidiaries contain restrictions similar to those of loans of the same nature that have been in force from time to time and which, among others, are related to maximum debt and minimum shareholders' equity. Except for the above, SQM S.A. is not exposed to other restrictions in its management or to financial indicator limits by contracts or covenants with creditors.

c) Commitments:

Subsidiary SQM Salar S.A. has signed a rental contract with CORFO which establishes that such subsidiary, will pay to CORFO, for the exploitation of certain mining properties owned by CORFO and for the products resulting from such exploitation, the annual rent stated in the aforementioned contract, the amount of which is calculated on the basis of the sales of each type of product. The contract is in force until 2030 and rent began being paid in 1996 reflecting in income a value of ThUS\$ 12,349 in 2008 (ThUS\$ 10,182 in 2007).

II. Indirect Guarantees

The guarantees that do not have a pending payment balance reflect, indirectly, that the respective guarantees are in force and approved by the Company's Board of Directors and that they have not been used by the corresponding subsidiary.

Note 29 – Environmental Project(continued)

Operations that use caliche as raw material are developed in desert areas with climatic conditions favorable for drying solids and evaporating liquids using solar energy. Operations for the open-pit extraction of minerals, due to their low waste to mineral ratio, generate remaining deposits which slightly alter the environment. During the extraction process and subsequent crushing of ore, particle emissions occur, which is normal for this type of operations.

On August 10, 1993, the Ministry of Health published a resolution under the Sanitary Code that established that the levels of breathable particles present at Maria Elena Plant exceeded the level allowed for air quality and, consequently, affected the nearby city of Maria Elena. These particles mainly come from the dust that results from caliche processing, particularly during the crushing process prior to leaching. Within the framework of a decontamination plan for this city and in accordance with its Sustainable Development Policy, the Company has implemented a series of measures that have shown notable improvement in air quality at María Elena. In October 2005, the Company obtained environmental approval for a project entitled “Technological Change at Maria Elena”. The operation of this project will facilitate the reduction of particle emissions, as required by the new environmental standard, which is estimate to go into effect during the second half of 2008. The Company is requesting from CONAMA, the environmental authority, certain adjustments to the particle emissions reduction timeline that is currently considered in the decontamination plant in order to allow consistency with the degree of completion of the “Technological Change at Maria Elena” project.

In addition, for all its operations, the Company carries out environmental follow-up and monitoring plans based on specialized scientific studies and develops an annual training program in environmental matters to both its direct employees and its contractors’ employees. Within this context, SQM entered into a contract with the National Forestry Corporation (CONAF) aimed at researching the activities of flamingo groups that live in the Salar de Atacama lagoons. Such research includes a population count of the birds and breeding research. Environmental follow-up maintained by the Company at the Salar de Atacama and other systems in which it operates are supported by a number of studies which have integrated diverse scientific efforts from prestigious research centers, including Dictuc from Pontificia Universidad Católica and the School of Agricultural Science of Universidad de Chile.

Furthermore, the Company is performing significant activities in relation to the recording of Pre-Columbian and historical cultural heritage, as well as the protection of heritage sites, in accordance with current Chilean laws. These actions have been especially performed in the areas surrounding Maria Elena and the Nueva Victoria plant. This effort is being accompanied by cultural initiatives within the community and the organization of exhibits in local and regional museums.

Note 29 – Environmental Projects(continued)

As emphasized in its Sustainable Development Policy, the Company strives to maintain positive relationships with the surrounding community, as well as to participate in the development of communities near its operations by supporting joint projects and activities which help to improve the quality of life for residents. For this purpose, the Company has focused its efforts on activities involving the rescue of historical heritage, education and culture, and development, and in order to do so, it acts both individually and in conjunction with both private and public entities.

Note 30 – Significant Events

1. On March 18, 2008, the Company informed the Superintendency of Securities and Insurance (SVS) that the Board of Directors of Sociedad Química y Minera de Chile (SQM) at its meeting held on September 18, 2008, unanimously agreed to propose the payment of a final dividend for a sum of US\$0.44459 per share to those shareholders of SQM who were registered with the Shareholders' Registry during the fifth business day prior to the date of payment of this dividend.

Upon approval of this proposal by the shareholders at the General Ordinary Shareholder's Meeting to be held on April 30, 2008, this proposal will allow that the Company effectively pays and distributes dividends in conformity with the respective dividend policy, an annual dividend equivalent to 65% of distributable net income obtained during 2007.

2. On April 21, 2008, Inversiones SQ S.A. and SQH S.A have acquired from Yara Netherland B.V. 49% of the shares of the privately-held shareholder's company, Inversiones SQYA S.A. Beginning on the date referred to above, SQYA S.A. Yara is no longer a related company of Sociedad Química y Minera de Chile S.A.
