TOT ENERGY, INC.

NOTES TO CONDENSED CONSOLIDATED FINANCIAL STATEMENTS

NOTE 1. SUMMARY OF SIGNIFICANT ACCOUNTING POLICIES

Organization and Basis of Presentation

TOT Energy, Inc. (the “Company”), formerly Splinx Technology, Inc., was organized on February 6, 2004 under the laws of the State of Delaware as a wholly-owned subsidiary of Splinx, LLC, a Florida limited liability company, and was the surviving entity pursuant to a merger with Ener1 Acquisition Corp., a Delaware corporation and wholly-owned subsidiary of Ener1, Inc., a Florida corporation. The Company initially intended to develop advanced technologies in the three-dimensional or 3D computer graphics industry. Under an agreement effective April 1, 2004 (the “Contribution Agreement”), Splinx, LLC contributed substantially all of its assets, liabilities and operations to the Company. The Company began its development stage activity on October 28, 2003 (“Inception”), the date of formation of Splinx, LLC, and ended development stage activity on July 16, 2008 when we acquired a 75% interest in the TOT-SIBBNS joint venture and began operations in the oil and gas service industry.

In January 2010, the Company altered its business focus and decided to exercise its option to unwind the joint venture and pursue other development opportunities in the alternative energy business. The Company and TOT-SIBBNS executed an unwind agreement whereby the Company exchanged its 75% interest in TOT-SIBBNS for the 3,000,000 shares given to Evgeny Borograd in 2008. The unwind of the joint venture was consummated as of March 31, 2010. The unwind of the TOT-SIBBNS joint venture has been accounted for using the guidance provided in ASC 845 (previously APB 29), as a disposal “other than by sale” similar to a spin-off transaction, with the shares received reflected as treasury stock and recorded on the Company’s balance sheet at its carrying basis in the net assets of the joint venture as of March 31, 2010. Operations of TOT-SIBBNS are included in the Company’s consolidated financial statements until March 31, 2010 as discontinued operations, but are not included in the consolidated financial statements subsequent to March 31, 2010.

The accompanying unaudited condensed consolidated financial statements have been prepared in accordance with generally accepted accounting principles for interim financial information and pursuant to the rules and regulations of the Securities and Exchange Commission for reporting on Form 10-Q. Accordingly, certain information and footnotes required for complete financial statements are not included herein. In the opinion of management, all adjustments (consisting of normal recurring adjustments) considered necessary for a fair presentation of the results for the interim periods presented have been included. These results have been determined on the basis of generally accepted accounting principles and practices applied consistently with those used in the preparation of the Company's Annual Financial Statements for the year ended March 31, 2010. Operating results for the three months ended June 30, 2010 are not necessarily indicative of the results that may be expected for any particular quarterly period or the year ending March 31, 2011. It is recommended that the accompanying condensed consolidated financial statements be read in conjunction with the financial statements and notes for the year ended March 31, 2010 included in the Company’s Annual Report on Form 10-K filed with the Securities and Exchange Commission.

Basis of Consolidation

The interim financial statements include the accounts of TOT Energy, Inc. and the accounts of our 51% joint venture, Korlea-TOT, a limited liability company formed under the laws of the Czech Republic. All material intercompany accounts and transactions have been eliminated in this consolidation.

Business Activity

TOT Energy, Inc. is working to acquire a portfolio of energy related assets. To this end, from time to time, the Company may be engaged in various discussions to acquire businesses or formulate joint venture or other arrangements with energy companies located around the world. Where appropriate, acquisitions will be financed with equity shares and this may result in substantial dilution to existing stockholders. Although we are not currently engaged in operating activities, we intend to develop or acquire an alternative energy solar business concentrating on commercial solar installations and other energy saving/management offerings.

KORLEA-TOT is our 51% joint venture with Korlea Invest Holding AG of Switzerland (“Korlea”) who is a provider and trader of electricity in the Czech Republic. Korlea-TOT was expected to assist in the marketing of oil assets sourced by other TOT-Energy companies and contacts. There has been no activity to date with this joint venture.

Use of Estimates

The preparation of financial statements in conformity with accounting principles generally accepted in the United States of America requires management to make estimates and assumptions that affect the reported amounts of assets and liabilities and disclosures of contingent assets and liabilities as of the balance sheet date and the reported amounts of expenses for the period presented. Actual results could differ from those estimates.

Cash and Cash Equivalents

Cash and cash equivalents include highly liquid money market investments purchased with an original maturity of three months or less. At June 30, 2010 and March 31, 2010, the Company had no cash equivalents. The Company maintains its U.S. Dollar-denominated cash in a bank deposit account, the balance of which, at times, may exceed federally insured limits. Bank accounts in the United States are guaranteed by the Federal Deposit Insurance Corporation (FDIC) up to a limit of \$250,000. At June 30, 2010 and March 31, 2010, our balances did not exceed the FDIC limit.

The Company also maintains a bank account in Czech Republic and at June 30, 2010 and March 31, 2010, the balances were \$75,208 and \$84,009, respectively. The Czech Republic bank balances are not insured and there is risk of loss in the event the bank should fail.

Foreign Currency Transactions

The Company's primary operations were formerly conducted outside the United States and we used foreign currencies to operate our consolidated foreign subsidiaries. Quarterly income and expense items are translated into U.S. dollars using the average interbank rate for the three-month period. Assets and liabilities are translated into U.S. dollars using the interbank rate as of the balance sheet date. Equity items are translated at their historical rate. The Company does not engage in any currency hedging activities.

Net Loss Per Share

Basic net loss per common share is computed by dividing net loss applicable to common stockholders by the weighted-average number of common shares outstanding during the period. Diluted net loss per common share is determined using the weighted-average number of common shares outstanding during the period, adjusted for the dilutive effect of common stock equivalents, consisting of shares issuable upon exercise of common stock options or warrants. In periods when losses are reported, the weighted-average number of common shares outstanding excludes common stock equivalents because their inclusion would be anti-dilutive.

The Company did not issue any new options for the three months ended June 30, 2010, but recorded a compensation expense of \$8,426 for previously granted options that vested during the period. During the quarter ended June 30, 2010, the Company issued 10,037,315 shares of common stock and warrants to purchase 5,019,157 shares of common stock in exchange for \$200,746 pursuant to the terms of its Subscription Agreement with TGR Energy, LLC (see Notes 6 and 7). In addition, during the quarter ended June 30, 2010, the Company repurchased 3,000,000 shares of common stock from an unrelated third party in exchange for \$300,000 (see Note 6).

At June 30, 2010, the Company had outstanding vested stock options to purchase 835,185 shares of common stock and warrants to purchase 54,475,082 shares of common stock. For the three months ended June 30, 2010, these securities are excluded from the earnings per share calculation because their inclusion would be anti-dilutive.

Fair Value of Financial Instruments

The Company's financial instruments consist mainly of cash deposits, short-term payables and related party payables. The Company believes that the carrying amounts of third-party financial instruments approximate fair value, due to their short-term maturities and the related party payables are interest bearing and payable on demand.

NOTE 2. GOING CONCERN CONSIDERATIONS

The Company's financial statements have been prepared on a going concern basis, which contemplates the realization of assets and the settlement of liabilities and commitments in the normal course of business. The Company was in the development stage until the second quarter of 2008 and has had minimal revenues since Inception. Since the unwind of the TOT-SIBBNS joint venture effective March 31, 2010, the Company has had no operations and may again be considered a development stage company. The Company intends to focus on developing or acquiring an alternative energy solar business concentrating on commercial solar installations. Management recognizes that the Company must raise capital sufficient to fund business activities until such time as it can generate sufficient revenues and net cash flows in amounts necessary to enable it to continue in existence, of which there can be no assurance.

The Company is dependent upon TGR Energy, LLC or Mike Zoi (as a result of his controlling interest in TGR and the Company's dependence on the Subscription Agreement with TGR) to fund its operations. On August 7, 2008, the Board of Directors of the Company approved a Subscription Agreement dated August 7, 2008 (the "Subscription Agreement") with TGR, wherein TGR committed to invest up to \$2,000,000 in exchange for up to 100,000,000 shares of the Company's common stock for \$0.02 per share. In addition, the Company granted TGR warrants to purchase up to 50,000,000 shares of common stock for \$0.05 per share. These warrants may be exercised within five years from the date of grant. The shares and warrants are issuable under the Subscription Agreement upon the funding from time to time by TGR. The valuation date to determine the appropriate compensation charge is the last day of the quarter then ended. Pursuant to the Subscription Agreement, TGR will fund the Investment Amount as required in the Company's operational budget. TGR's obligation to fund the Investment Amount will be reduced by any future third party funding or investments in the Company on terms no less favorable than those contained in the Subscription Agreement. In January 2009, the Company and TGR amended the Subscription Agreement to increase the Investment Amount to \$4,000,000.

The Company's independent auditors' report on the Company's financial statements for the year ended March 31, 2010 contains an explanatory paragraph about our ability to continue as a going concern. Management believes that its current operating strategy, as described herein, provides the opportunity for the Company to continue as a going concern; however, there is no assurance this will occur.

NOTE 3. SEGMENT INFORMATION

The Company's sole reportable business segment was the oil and gas service sector until the Company decided to unwind the TOT-SIBBNS joint venture effective March 31, 2010. The Company's accounting policies for segments are the same as those described in the summary of significant accounting policies.

NOTE 4. JOINT VENTURES

On July 18, 2008, the Company executed an agreement to acquire a 75% controlling interest in TOT-SIBBNS, a limited liability company organized under the laws of the Russian Federation. Pursuant to the Joint Venture Agreement, the owner (the "JV Partner") of Sibburnefteservis, Ltd. of Novosibirsk, Russia ("SIBBNS") contributed certain assets of SIBBNS to TOT SIBBNS in exchange for 3,000,000 shares of the Company's common stock. The assets were appraised at more than \$6 million at the time of contribution and the Company was obligated to issue an additional 2,000,000 shares to the JV Partner if TOT SIBBNS achieved \$10,000,000 in cumulative revenues. If on the third anniversary of the joint venture agreement, the Company's stock price is not at least \$1.00 per share, the Company had the option of making an additional payment to the JV Partner or returning the Company's interest in the joint venture to the JV Partner.

On or about January 27, 2010, the Company determined to unwind the TOT-SIBBNS joint venture. The Company and TOT-SIBBNS executed an unwind agreement whereby the Company exchanged its 75% interest in TOT-SIBBNS for the 3,000,000 shares given to Evgeny Borograd in 2008. The unwind of the joint venture was consummated as of March 31, 2010. The unwind of the TOT-SIBBNS joint venture has been accounted for using the guidance provided in ASC 845 (previously APB 29), as a disposal "other than by sale" similar to a spin-off transaction, with the shares received reflected as treasury stock and recorded on the Company's balance sheet at its carrying basis in the net assets of the joint venture as of March 31, 2010.

The Company formed a joint venture, Korlea-TOT Energy s.r.o., in July 2008 with its Czech Republic partner Korlea Invest. The Company invested \$56,000 to provide the 51% of share capital that the Company owns for this limited liability company in the Czech Republic. The Company financed this investment through a related party note with Kazo, LLC. Korlea-TOT Energy s.r.o. was expected to engage in marketing and trading of oil and natural gas in

Eastern Europe. The Company issued Alexander Kaplan 350,000 newly issued shares of Company stock for his assistance in completing this transaction. To date, the joint venture has no activity.

NOTE 5. ACCRUED EXPENSES

Accrued expenses represent expenses that are owed at the end of the period and have not been billed by the provider or are estimates of services provided.

At June 30, 2010 and March 31, 2010, accrued expenses consisted of the following:

	June 30, 2010	March 31, 2010
Accrued professional fees	33,068	31,468
Accrued payroll	838,625	723,428
Other accrued expenses	149,998	165,663
	\$ 1,021,691	\$ 920,559

NOTE 6. STOCKHOLDERS' EQUITY

The Company is authorized to issue 800,000,000 shares of common stock, par value of \$0.001 per share. Each holder of common stock is entitled to one vote for each share held. The Company is authorized to issue 100,000,000 shares of preferred stock, par value \$0.001 per share, which may be divided into series with the designations, powers, preferences, and relative rights and any qualifications, limitations or restrictions as determined by the Company's board of directors.

Under an Exchange Agreement dated December 18, 2007, the Company agreed to issue 113,500,000 newly issued shares of common stock of the Company to TGR Energy, LLC, of which 8,500,000 shares were issued to Bzinfm, S.A., a British Virgin Islands limited corporation that is indirectly owned by an affiliate of the Ener1 Group, and 2,125,000 shares were issued to Alexander Malovik, a principal of Splinex, LLC, in exchange for the Bzinfm and Ener1 Group notes totaling \$3,688,132. TGR Energy, LLC owned 98,157,334 shares of common stock of the Company as of December 17, 2007, and after the completion of the Exchange Agreement transactions owned an aggregate of 201,032,334 shares of common stock of the Company as of December 18, 2007. The Company had a total of 100,757,773 shares of common stock outstanding at December 17, 2007 and 214,507,773 shares of common stock outstanding at December 18, 2007.

On August 7, 2008, the Board of Directors approved a Subscription Agreement dated August 7, 2008 (the "Subscription Agreement") with TGR Energy, LLC ("TGR"), wherein TGR committed to invest up to \$2,000,000 in exchange for up to 100,000,000 shares of the Company's common stock for \$0.02 per share. In addition, the Company granted TGR warrants to purchase up to 50,000,000 shares of common stock for \$0.05 per share. These warrants may be exercised within five years from the date of grant. The shares and warrants are issuable under the Subscription Agreement upon the funding from time to time by TGR. The valuation date to determine the appropriate compensation charge is the last day of the quarter then ended. The Subscription Agreement was amended on January 12, 2010 to increase the Investment Amount by an additional \$2,000,000 to \$4,000,000 in exchange for up to an additional 100,000,000 common shares and 50,000,000 warrants to purchase the Company's common stock for \$0.05 per share for a period of 5 years from date of issuance.

For the fiscal year ended March 31, 2009, TGR was issued an aggregate of 82,725,335 shares of common stock of the Company and fully vested warrants to purchase 41,362,168 shares of common stock of the Company at an exercise price of \$0.05 per share pursuant to the terms of the Subscription Agreement. These issuances were in exchange for financings under the Subscription Agreement in the aggregate amount of \$1,654,507 of which \$1,017,097 was cash and \$637,410 related to refinancing of previously outstanding notes payable. A compensation charge of \$8,827,218 was recorded for the fiscal year ended March 31, 2009. This amount is calculated as the difference between the market price of our common stock at the end of each quarter in which shares were issued and the subscription price of the common shares (\$0.02) multiplied by the number of shares issued, plus the Black-Scholes valuation of the warrants issued as calculated at the end of each quarter.

For the fiscal year ended March 31, 2010, TGR was issued an aggregate of 16,186,515 shares of common stock of the Company and fully vested warrants to purchase 8,093,757 shares of common stock of the Company at an exercise price of \$0.05 per share pursuant to the terms of the Subscription Agreement. These issuances were in exchange for financings under the Subscription Agreement in the aggregate amount of \$323,730. A compensation charge of \$4,717,677 was recorded for the fiscal year ended March 31, 2010. This amount is calculated as the difference between the market price of our common stock at the end of each quarter in which shares were issued and the subscription price of the common shares (\$0.02) multiplied by the number of shares issued, plus the Black-Scholes valuation of the warrants issued as calculated at the end of each quarter.

Edgar Filing: TOT Energy - Form 10-Q

For the quarter ended June 30, 2010, TGR was issued 10,037,315 shares of common stock of the Company and fully vested warrants to purchase 5,019,157 shares of common stock of the Company for \$0.05 per share in exchange for funding of \$200,746 provided during the quarter under the terms of the Subscription Agreement. A compensation charge of \$1,154,336 was recorded for the quarter ended June 30, 2010 as an officer of the Company is also a principal of TGR and the securities issued were below market value as of the issue date.

For the quarter ended June 30, 2010, the Company recorded compensation expense of \$0.10 per share or \$8,426 for options of Mr. New issued on August 13, 2008 that vested during the quarter ended June 30, 2010.

Up until May 15, 2009, Mr. New's base salary was \$140,000 with a \$30,000 bonus payable quarterly for meeting agreed upon objectives. On May 15, 2009, Mr. New's base salary was reduced from \$140,000 to \$91,000 and his bonus was reduced from \$30,000 to \$19,500 annually. To partially offset the reduction in salary, the Company provided Mr. New with 25,000 shares of fully vested common stock in lieu of his March 31, 2009 cash bonus and 200,000 shares of common stock which vest monthly from April 1, 2009 to September 30, 2009. A compensation charge of \$12,500 was recorded for the quarter ended June 30, 2009 and a compensation charge of \$10,000 was recorded for the quarter ended September 30, 2009, which reflects the market value per share (\$0.10) on the first trading day after the date of grant. At March 31, 2010, the Company provided Mr. New with 250,000 shares of fully vested common stock for services provided to the company under a salary reduction. A compensation charge of \$37,500 was recorded for the quarter ended March 31, 2010, which reflects the market value per share (\$0.15) on the first trading day after the date of grant.

Other employees (other than officers and directors) receiving salary reductions were granted a total of 50,000 shares of common stock vesting monthly between April 1, 2009 and September 30, 2009. The Company recorded a compensation charge of \$2,347 for the quarter ended June 30, 2009 and a compensation expense of \$1,042 for the quarter ended September 30, 2009, to reflect the market value of stock provided in lieu of cash compensation. Both of these charges were calculated using the price per share of common stock (\$0.10) on the first trading date after the date of grant.

On November 1, 2008, the Company entered into a Letter Agreement with Olympus Securities LLC (the "Agreement"). Under the Agreement, Olympus was appointed TOT Energy's exclusive financial advisor and investment banker (collectively, the "Services") for a period of seven (7) months. After expiration of this initial term, the Agreement is to automatically continue on a month-to-month basis, with each party having the right to terminate on thirty (30) days notice. The Agreement included a fee of one thousand dollars (\$1,000) per month in return for the Services, except for the first month, where, instead of the monthly fee, the Company granted five (5) year warrants to Olympus to purchase one million (1,000,000) shares of the Company's common stock at ten cents (\$0.10) per share. The warrants were valued at \$149,998 and were to be amortized over the seven-month term of the Agreement. The Agreement contains other provisions relating to payments of cash, stock and warrants in connection with any future financing or investment transaction completed through Olympus. The Company has not yet paid a cash fee or provided the abovementioned warrants to Olympus due to the failure by Olympus to provide meaningful investment banking services until world financial markets stabilized and, more recently, due to the unwind of the TOT-SIBBNS joint venture. The Company has amortized the warrant charge of \$149,999 during fiscal 2010 and accrued this amount in the financial statements.

The Company entered into a Sponsorship Agreement with American Speed Factory dated April 22, 2009, whereby the Company receives certain promotional services and sponsorship rights to display the Company's logo in connection with the 2009 Ferrari Challenge racing season in exchange for the issuance of 500,000 shares of restricted stock of the Company. This arrangement is valued at \$50,000, which amount was recorded as an advertising expense for the quarter ended June 30, 2009.

Pursuant to a Stock Purchase Agreement dated November 23, 2009, TGR agreed to sell to Dune Capital Group ("Dune") an aggregate of 5,000,000 shares of common stock of TOT Energy, Inc. held by TGR for a purchase price of \$0.10 per share or an aggregate of \$500,000. The purchase price is required to be paid on or before April 1, 2010. Dune paid \$300,000 on November 23, 2009. In order to ensure compliance with obligations under Section 16 of the Securities Exchange Act of 1934, prior to the issuance of shares to Dune by TGR, TGR assigned this Purchase Agreement to the Company. Accordingly, the Company received \$300,000 pursuant to this agreement and issued an aggregate of 3,000,000 shares of common stock of the Company to Dune on January 12, 2010. On April 28, 2010, the Company agreed to terminate the Stock Purchase Agreement with Dune and rescind the prior issuance of common stock. The Company repurchased the 3,000,000 shares of common stock previously issued to Dune for \$300,000. The redeemed shares were accounted for as treasury stock.

At June 30, 2010, the Company had options to purchase 1,200,000 shares of common stock outstanding under its stock option plan, of which options to purchase 835,185 shares of common stock are vested, with an exercise price of \$0.25 per share and with a remaining weighted average contractual term of 4.74 years. The Company also had warrants to purchase 54,475,082 shares of common stock outstanding at June 30, 2010 with a strike price of \$0.05 per share and a remaining average contractual term of 3.75 years.

NOTE 7. RELATED PARTY TRANSACTIONS

On August 7, 2008, the Company and TGR, which held 97% of the Company's outstanding common stock, entered into the Subscription Agreement described above pursuant to which TGR has agreed to provide funding of up to

\$4,000,000 (the “Investment Amount”) in exchange for up to 200,000,000 shares of the Company’s common stock and warrants to purchase up to 100,000,000 shares of the Company’s common stock at an exercise price of \$0.05 per share. Pursuant to the Subscription Agreement, TGR will fund the Investment Amount as required in the Company’s operational budget. TGR’s obligation to fund the Investment Amount will be reduced by any future third party funding or investment in the company on terms no less favorable than those contained in the Subscription Agreement. See Note 6 – Stockholders’ Equity, for more information relating to equity securities issued to TGR Energy, LLC under the terms of the Subscription Agreement.

NOTE 8. DISCONTINUED OPERATIONS

Effective March 31, 2010, the Company entered into a Joint Venture Dissolution Agreement, which dissolved the TOT-SIBBNS joint venture. The Company received the 3,000,000 shares of common stock issued in 2008 in connection with the establishment of the joint venture and the assets of the joint venture were returned to the non-controlling interest holder (JV Partner). For comparative purposes, the discontinued operations results are taken out of operations and detailed as discontinued operations in the Consolidated Condensed Balance Sheets and Income Statements as of March 31, 2010. The following table provides additional details on the results from discontinued operations for the quarter ended June 30, 2009. There was no effect on results for the quarter ended June 30, 2010 as the unwind was consummated as of March 31, 2010.

Quarter ended
June 30, 2009

Revenues	\$ -
Cost of Sales	-
Operating Expenses	(337,900)
Other (Income) Expenses	(55)
Foreign currency gain	300,681
Net loss from discontinued operations	(37,274)

Item 2. Management's Discussion and Analysis of Financial Condition and Results of Operations.

This Quarterly Report on Form 10-Q contains forward-looking statements. These statements relate to our expectations, hopes, beliefs, intentions or strategies regarding future events or future financial performance. Any statements contained in this report that are not statements of historical fact may be deemed forward-looking statements. In some cases, forward-looking statements can be identified by terminology such as “may,” “will,” “should,” “expect,” “plan,” “anticipate,” “intend,” “believe,” “estimate,” “predict,” “potential” or “continue,” or the negative of such terms or comparable terminology. Forward-looking statements include but are not limited to statements regarding: our future business plans; future sales of our products and services; introduction of new products and services; expected hiring levels; marketing plans; increases of selling, general and administrative costs; financing requirements and capital raising plans; successful integration and development of acquired businesses; regulatory and economic factors affecting the alternative energy business and other factors that may impact our acquisition and development strategy, some of which are beyond our control and difficult to predict. These statements are only predictions and are subject to a number of assumptions, risks and uncertainties that could cause actual results to differ materially from those expressed or implied in the forward-looking statements. The following important factors, in addition to those discussed in our other filings with the Securities and Exchange Commission (the “Commission”) from time to time, and other unforeseen events or circumstances, could affect our future results and could cause those results or other outcomes to differ materially from those expressed or implied in our forward-looking statements: general economic conditions; competition; weather; our ability to raise capital; our ability to control costs; changes within our industries; new and upgraded products and services by us or our competitors; employee retention; sovereign risk; legal and regulatory issues; changes in accounting policies or practices; currency translation and exchange risks; and the market acceptance of alternative energy products and services.

All forward-looking statements are based on information available to us on the date of this filing, and we assume no obligation to update such statements, although we will continue to comply with our obligations under the securities laws.

The following discussion should be read in conjunction with our audited financial statements and notes contained in our Annual Report on Form 10-K for the fiscal year ended March 31, 2010 filed with the Commission and the consolidated interim financial statements and related notes included in this Report.

General

We are working to build a diversified portfolio of renewable energy assets. To this end, from time to time, we may be engaged in various discussions to acquire businesses or formulate joint venture or other arrangements with energy companies located around the world. Our policy is not to disclose discussions or potential transactions until definitive agreements have been executed. Where appropriate, acquisitions will be financed with equity shares and this may result in substantial dilution to existing stockholders. Since the unwind of the TOT-SIBBNS joint venture effective March 31, 2010, the Company has had no operations. The Company intends to focus on developing or acquiring an

alternative energy business concentrating on commercial solar installations. Management recognizes that the Company must raise capital sufficient to fund business activities until such time as it can generate sufficient revenues and net cash flows in amounts necessary to enable it to continue in existence, of which there can be no assurance.

On July 16, 2008, we entered into a Joint Venture Agreement (the "JV Agreement") with Evgeny Bogorad ("Bogorad"), owner of Sibburnefteservis, Ltd. of Novosibirsk, Russia, an oil service company ("SIBBNS"). Pursuant to the JV Agreement, Bogorad has contributed certain of SIBBNS assets and personnel to a joint venture company named TOT-SIBBNS, Ltd., a Russian corporation ("TOT-SIBBNS"). An independent appraisal company has appraised the contributed assets at \$6,221,881.

At the closing on July 16, 2008, we issued to Bogorad 3,000,000 shares of our common stock in exchange for a 75% interest in TOT-SIBBNS. We are obligated to issue to Bogorad 2,000,000 additional shares of common stock upon TOT-SIBBNS obtaining \$10,000,000 in gross revenue during the three-year period following the closing. If TOT-SIBBNS achieves this gross revenue target and Bogorad continues to hold the shares issued pursuant to the JV Agreement on the third anniversary of the closing and the stock price is less than \$1.00 per share, then we, in our sole discretion, must either make an additional payment in cash or additional shares of stock to Bogorad in an amount equal to the difference in the value per share and \$1.00 multiplied by the total number of shares held by Bogorad, or, if we decline to make such payment, Bogorad may require us to return our interest in TOT-SIBBNS in exchange for a payment to us of the fair market value of any assets acquired directly by TOT-SIBBNS (other than the assets initially contributed to the Joint Venture by Bogorad pursuant to the JV Agreement) and 75% of the retained earnings, accounts receivable and cash of TOT-SIBBNS. Bogorad acted as the manager of TOT-SIBBNS although we had the ability to appoint a majority of the Board of Directors of TOT-SIBBNS.

TOT-SIBBNS provided exploration services to oil exploration and production companies located in and around Novosibirsk, Russia. TOT-SIBBNS owned and operated four oil-drilling rigs that have generated the majority of the revenues of TOT-SIBBNS prior to March 31, 2010. TOT-SIBBNS used this equipment for drilling exploratory wells for fees. In addition, TOT-SIBBNS provided engineering services and well remediation services on a contract fee basis.

On or about January 27, 2010, the Company determined to unwind the TOT-SIBBNS joint venture. The Company and TOT-SIBBNS executed an unwind agreement whereby the Company exchanged its 75% interest in TOT-SIBBNS for the 3,000,000 shares given to Evgeny Borograd. The unwind of the joint venture was consummated as of March 31, 2010. The unwind of the TOT-SIBBNS joint venture was accounted for using the guidance provided in ASC 845 (previously APB 29). In this regard, the unwind will be accounted for as a spin-off, with the shares received reflected as treasury stock and recorded on the Company's balance sheet at its carrying basis in the net assets of the joint venture as of March 31, 2010. For more information relating to the unwind of the TOT-SIBBNS joint venture, see Note 4 – Joint Ventures, of the Notes to Condensed Financial Statements, which information is incorporated herein by reference.

KORLEA-TOT is our 51% joint venture with Korlea Invest Holding AG of Switzerland (“Korlea”) who is a provider and trader of energy assets in the Czech Republic. The new joint venture, Korlea-TOT, established as of July 17, 2008, is expected to assist in the marketing of oil assets sourced by other TOT-Energy companies and contacts. There has been no activity to date with this joint venture.

Short term financing is provided by TGR Energy, LLC (“TGR”), an entity controlled by our president, as we require additional working capital, pursuant to a Subscription Agreement dated August 7, 2008 (the “Subscription Agreement”). TGR has agreed to provide up to \$2,000,000 (the “Investment Amount”) in exchange for up to 100,000,000 shares of common stock and warrants to purchase up to 50,000,000 shares of common stock at an exercise price of \$0.05 per share. Pursuant to the Subscription Agreement, TGR will fund the Investment Amount as required in our operational budget. TGR's obligation to fund the Investment Amount will be reduced by any future third party funding or investment on terms no less favorable than those contained in the Subscription Agreement. On January 12, 2010, TGR agreed to increase its funding commitment from \$2,000,000 to \$4,000,000 in exchange for up to an additional 100,000,000 shares of the Company's common stock and warrants to purchase up to 50,000,000 shares of the Company's common stock at an exercise price of \$0.05 per share for a period of five years from date of issuance.

For the fiscal year ended March 31, 2009, TGR was issued an aggregate of 82,725,335 shares of common stock of the Company and fully vested warrants to purchase 41,362,168 shares of common stock of the Company at an exercise price of \$0.05 per share pursuant to the terms of the Subscription Agreement. These issuances were in exchange for financings under the Subscription Agreement in the aggregate amount of \$1,654,507 of which \$1,017,097 was cash and \$637,410 related to refinancing of previously outstanding notes payable. A compensation charge of \$8,827,218 was recorded for the fiscal year ended March 31, 2009. This amount is calculated as the difference between the market price of our common stock at the end of each quarter in which shares were issued and the subscription price of the common shares (\$0.02) multiplied by the number of shares issued, plus the Black-Scholes valuation of the warrants issued as calculated at the end of each quarter.

For the fiscal year ended March 31, 2010, TGR was issued an aggregate of 16,186,515 shares of common stock of the Company and fully vested warrants to purchase 8,093,757 shares of common stock of the Company at an exercise price of \$0.05 per share pursuant to the terms of the Subscription Agreement. These issuances were in exchange for financings under the Subscription Agreement in the aggregate amount of \$323,730. A compensation charge of \$4,717,677 was recorded for the fiscal year ended March 31, 2010. This amount is calculated as the difference between the market price of our common stock at the end of each quarter in which shares were issued and the subscription price of the common shares (\$0.02) multiplied by the number of shares issued, plus the Black-Scholes

valuation of the warrants issued as calculated at the end of each quarter.

For the quarter ended June 30, 2010, TGR was issued 10,037,315 shares of common stock of the Company and fully vested warrants to purchase 5,019,157 shares of common stock of the Company for \$0.05 per share in exchange for funding of \$200,746 provided during the quarter under the terms of the Subscription Agreement. A compensation charge of \$1,154,336 was recorded for the quarter ended June 30, 2010 as an officer of the Company is also a principal of TGR and the securities issued were below market value as of the issue date.

The Company entered into a Sponsorship Agreement with American Speed Factory dated April 22, 2009, whereby the Company would receive certain promotional services and sponsorship rights to display the Company's logo in connection with the 2009 Ferrari Challenge racing season in exchange for the issuance of 500,000 shares of restricted stock of the Company. This arrangement is valued at \$50,000, which amount was recorded as an advertising expense for the quarter ended June 30, 2009.

Up until May 15, 2009, Mr. New's base salary was \$140,000 with a \$30,000 bonus payable quarterly for meeting agreed upon objectives. On May 15, 2009, Mr. New's base salary was reduced from \$140,000 to 91,000 and his bonus was reduced from \$30,000 to \$19,500 annually. To partially offset the reduction in salary, the Company provided Mr. New with 25,000 shares of fully vested common stock in lieu of his March 31, 2009 cash bonus and 200,000 shares of common stock which vest monthly from April 1, 2009 to September 30, 2009. A compensation charge of \$12,500 was recorded for the quarter ended June 30, 2009 and a compensation charge of \$10,000 was recorded for the quarter ended September 30, 2009, which reflects the market value per share (\$.10) on the first trading day after the date of grant. At March 31, 2010, the Company provided Mr. New with 250,000 shares of fully vested common stock for services provided to the company under a salary reduction. A compensation charge of \$37,500 was recorded for the quarter ended March 31, 2010, which reflects the market value per share (\$.15) on the first trading day after the date of grant.

Other employees (other than officers and directors) receiving salary reductions were granted a total of 50,000 shares of common stock vesting monthly between April 1, 2009 and September 30, 2009. The Company recorded a compensation expense of \$2,347 for the quarter ended June 30, 2009 and a compensation expense of \$1,042 for the quarter ended September 30, 2009, to reflect the market value of stock provided in lieu of cash compensation. Both of these charges were calculated using the price per share of common stock (\$.10) on the first trading date after the date of grant.

Pursuant to a Stock Purchase Agreement dated November 23, 2009, TGR agreed to sell to Dune Capital Group ("Dune") an aggregate of 5,000,000 shares of common stock of TOT Energy, Inc. held by TGR for a purchase price of \$.10 per share or an aggregate of \$500,000. The purchase price is required to be paid on or before April 1, 2010. Dune paid \$300,000 on November 23, 2009. In order to ensure compliance with obligations under Section 16 of the Securities Exchange Act of 1934, prior to the issuance of shares to Dune by TGR, TGR assigned this Purchase Agreement to the Company. Accordingly, the Company received \$300,000 pursuant to this agreement and issued an aggregate of 3,000,000 shares of common stock of the Company to Dune on January 12, 2010. On April 28, 2010, the Company agreed to terminate the Stock Purchase Agreement with Dune and rescind the prior issuance of common stock. The Company repurchased the 3,000,000 shares of common stock previously issued to Dune for \$300,000. The redeemed shares were accounted for as treasury stock.

At June 30, 2010, the Company had options to purchase 1,200,000 shares of common stock outstanding under its stock option plan, of which options to purchase 835,185 shares of common stock are vested, with an exercise price of \$.25 per share and with a remaining weighted average contractual term of 4.74 years. The Company also had warrants to purchase 54,475,082 shares of common stock outstanding at December 31, 2009 with a strike price of \$.05 per share and a remaining average contractual term of 3.75 years.

Several factors raise significant doubt as to our ability to continue operating as a going concern. These factors include our history of net losses and that we have recently commenced operations and, until the second quarter of 2008, have earned minimal revenues, as well as the termination of TOT-SIBBNS first contract and the decision to unwind the TOT-SIBBNS joint venture. Since the unwind of the TOT-SIBBNS joint venture effective March 31, 2010, the Company has had no operations. The Company intends to focus on developing or acquiring an alternative energy business concentrating on commercial solar installations. Management recognizes that the Company must raise capital sufficient to fund business activities until such time as it can generate sufficient revenues and net cash flows in amounts necessary to enable it to continue in existence, of which there can be no assurance. We are dependent upon TGR Energy, LLC or Mike Zoi (as a result of his controlling interest in TGR and the Company's dependence on the Subscription Agreement with TGR) to fund our operations. Our independent auditors' report on our financial statements for the year ended March 31, 2010 contains an explanatory paragraph about our ability to continue as a going concern. The Company intends to develop or acquire a downstream solar business that will provide complete solar solutions (design, installation, maintenance and finance) to commercial customers. This is intended to

be accomplished through acquisitions and hiring of key personnel. We expect to utilize existing commercial real estate industry relationships of our management to generate opportunities for solar installation proposals in the United States. Management believes that our current operating plans to develop or acquire a downstream solar business, provides the opportunity for us to continue as a going concern; however, there is no assurance this will occur.

Results of Operations for the Three-Month Periods Ended June 30, 2010 and 2009

We reported a net loss of \$1,388,304 or \$(0.00) per share for the three months ended June 30, 2010, compared to a net loss of \$1,625,839 or \$(0.01) per share for the quarter ended June 30, 2009. Weighted average shares outstanding were 320,890,038 and 300,822,957 for the quarters ended June 30, 2010 and 2009, respectively.

The net loss for the three month period ended June 30, 2010 was negatively impacted by the non-cash compensation expense of \$1,162,762 related primarily to shares and warrants issued pursuant to the Subscription Agreement with TGR. The non-cash compensation expense for the three months ended June 30, 2009 was \$1,264,087.

General and administrative expenses for the three months ended June 30, 2010 were \$1,388,333 of which \$1,162,762 was attributable to non-cash compensation expenses as compared to general and administrative expenses for the three months ended June 30, 2009 of \$1,588,579 that includes non-cash compensation expenses of \$1,264,087.

Primarily due to a reduction in investor relations expenses of \$71,285, the remaining general and administrative expenses of \$225,571 for the three months ended June 30, 2010 were slightly lower than the general and administrative expenses (excluding non-cash compensation) of \$251,254 for the three months ended June 30, 2009. The savings in investor relations was partially offset by higher professional fees.

During the three months ended June 30, 2010, we obtained funding of an aggregate of \$200,746 under the Subscription Agreement with TGR and recognized a non-cash compensation expense of \$1,154,336. This charge is the result of an intrinsic value calculation that measures the difference between fair value on date of issuance of the shares and the purchase price per share under the Subscription Agreement, which amounted to a compensation expense of \$702,612. Additionally, the warrants to purchase 5,019,157 shares of common stock issued in connection with these fundings resulted in a corresponding compensation expense of \$451,724 based on a Black-Scholes valuation model.

The non-controlling interest relating to the Korlea-TOT joint venture was \$29 for the three months ended June 30, 2010 as compared with \$14 for the three months ended June 30, 2009. The joint venture non-controlling interest reflects the joint venture partner's ownership of the joint venture.

Liquidity and capital resources

At June 30, 2010, we had an accumulated deficit of \$24,708,150 and cash of \$80,358. We are dependent upon receiving funds from our controlling stockholder, TGR Energy, LLC, which is controlled by our president, Mike Zoi. Pursuant to the Subscription Agreement, TGR is obligated to invest up to \$4,000,000 to fund short term working capital requirements in exchange for up to 200,000,000 shares of our common stock and warrants to purchase up to 100,000,000 shares of common stock with an exercise price of \$0.05. The shares and warrants will be issued quarterly and we will record an appropriate compensation expense as necessary based on the fair value of the securities on the last day of each fiscal quarter (the date of issuance). At June 30, 2010, the remaining investment obligation was \$1,821,017.

Pursuant to a Stock Purchase Agreement dated November 23, 2009, TGR agreed to sell to Dune Capital Group ("Dune") an aggregate of 5,000,000 shares of common stock of TOT Energy, Inc. held by TGR for a purchase price of \$0.10 per share or an aggregate of \$500,000. The purchase price is required to be paid on or before April 1, 2010. Dune paid \$300,000 on November 23, 2009. In order to ensure compliance with obligations under Section 16 of the Securities Exchange Act of 1934, prior to the issuance of shares to Dune by TGR, TGR assigned this Purchase Agreement to the Company. Accordingly, the Company received \$300,000 pursuant to this agreement and issued an aggregate of 3,000,000 shares of common stock of the Company to Dune on January 12, 2010. On April 28, 2010, the Company agreed to terminate the Stock Purchase Agreement with Dune and rescind the prior issuance of common stock. The Company repurchased the 3,000,000 shares of common stock previously issued to Dune for \$300,000. The redeemed shares were accounted for as treasury stock.

Off-balance sheet arrangements

At June 30, 2010, we did not have any off-balance sheet arrangements as defined in item 303(a)(4) of Regulation S-K.

Recently Issued Accounting Pronouncements

In June 2009 the FASB issued an amendment to ASC 810-10. This amendment requires an enterprise to qualitatively assess the determination of the primary beneficiary of a VIE based on whether the enterprise: (1) has the power to direct the activities of a VIE that most significantly effect the entity's economic performance; and (2) has the obligation to absorb losses of the entity or the right to receive benefits from the entity that could potentially be

significant to the VIE. ASC 810-10, as amended, requires an ongoing reconsideration of the primary beneficiary, and amends the events that trigger a reassessment of whether an entity is a VIE. This statement is effective as of the beginning of a reporting entity's first annual reporting period that begins after November 15, 2009. Earlier application is prohibited. Retrospective application is optional. Adoption of this standard is not expected to have a significant impact on our financial condition and results of operations.

In September 2009 the FASB issued ASU 2009-13, "Multiple-Deliverable Revenue Arrangements." ASU 2009-13 addresses the unit of accounting for multiple-element arrangements. In addition, ASU 2009-13 revises the method by which consideration is allocated among the units of accounting. Specifically, the overall consideration is allocated to each deliverable by establishing a selling price for individual deliverables based on a hierarchy of evidence, involving vendor-specific objective evidence, other third party evidence of the selling price, or the reporting entity's best estimate of the selling price of individual deliverables in the arrangement. ASU 2009-13 will be effective prospectively for revenue arrangements entered into or materially modified in fiscal years beginning on or after June 15, 2010. Adoption of this standard is not expected to have a significant impact on our financial condition and results of operations.

Item 4. Controls and Procedures.

Our disclosure controls and procedures are designed to provide reasonable assurance that information required to be disclosed in our reports filed or submitted under the Securities Exchange Act of 1934 is recorded, processed, summarized and reported within the time periods specified in the SEC's rules and forms, and that such information is accumulated and communicated to our management, including our chief executive officer and chief financial officer, as appropriate, to allow for timely decisions regarding required disclosure. In designing and evaluating the disclosure controls and procedures, management recognized that any controls and procedures, no matter how well designed and operated, can provide only reasonable assurance of achieving the desired control objectives, and management is required to apply its judgment in evaluating the cost-benefit relationship of possible controls and procedures.

As of March 31, 2010, we have discontinued operations and unwound the TOT-SIBBINS joint venture. Accordingly, during the quarter ended June 30 2010, we have not engaged in an operating business, but continue to focus our resources on the development or acquisition of an alternative energy solar business concentrating on commercial solar installations. Our disclosure controls and procedures are currently not effective because there are a limited number of personnel employed and we cannot have an adequate segregation of duties, and due to material weaknesses in internal control over financial reporting as discussed in our annual report on Form 10-K previously filed with the SEC. Accordingly, management cannot provide reasonable assurance of achieving the desired control objective. Management works to mitigate these risks by being personally involved in all substantive transactions and attempts to obtain verification of transactions and accounting policies and treatments involving our operations. We are in the process of reviewing and, where necessary, modifying controls and procedures throughout the Company as resources permit. We expect this process to continue through at least the fiscal year 2011.

During the quarter ended June 30, 2010, there were no changes in internal controls over financial reporting that have materially affected, or are reasonably likely to materially affect our internal control over financial reporting, except that we have unwound the TOT-SIBBINS joint venture and therefore certain former material weaknesses in our internal control over financial reporting primarily affecting overseas operations are no longer relevant.

PART II — OTHER INFORMATION

Item 1. Legal proceedings

We are not currently a party to any such proceedings the outcome of which would have a material effect on our financial condition or results of operations.

Item 2. Unregistered Sales of Equity Securities

For the quarter ended June 30, 2010, TGR was issued 10,037,315 shares of common stock of the Company and fully vested warrants to purchase 5,019,157 shares of common stock of the Company for \$0.05 per share in exchange for funding of \$200,794 provided during the quarter under the terms of the Subscription Agreement.

Pursuant to a Stock Purchase Agreement dated November 23, 2009, TGR agreed to sell to Dune Capital Group ("Dune") an aggregate of 5,000,000 shares of common stock of TOT Energy, Inc. held by TGR for a purchase price of \$0.10 per share or an aggregate of \$500,000. The purchase price is required to be paid on or before April 1, 2010. Dune paid \$300,000 on November 23, 2009. In order to ensure compliance with obligations under Section 16 of the Securities Exchange Act of 1934, prior to the issuance of shares to Dune by TGR, TGR assigned this Purchase Agreement to the Company. Accordingly, the Company received \$300,000 pursuant to this agreement and issued an aggregate of 3,000,000 shares of common stock of the Company to Dune on January 12, 2010. On April 28, 2010, the Company agreed to terminate the Stock Purchase Agreement with Dune and rescind the prior issuance of common

stock. The Company repurchased the 3,000,000 shares of common stock previously issued to Dune for \$300,000. The redeemed shares were accounted for as treasury stock.

We believe that each of the foregoing securities transactions were exempt from the registration requirements of Section 5 of the Securities Act of 1933, as amended, by virtue of Section 4(2) of the Securities Act which exempts transactions by an issuer not involving any public offering.

Edgar Filing: TOT Energy - Form 10-Q
