PROXY STATEMENT

This statement is furnished by the Board of Directors of Derma Sciences, Inc. (the "Company") in connection with the Board's solicitation of proxies for use at its Annual Meeting of Shareholders (the "Meeting") to be held at 3:00 p.m. on Wednesday, May 25, 2011, at the offices of the Company, 214 Carnegie Center, Suite 300, Princeton, New Jersey, 08540, and at any adjournments thereof. The purpose of the Meeting and the matters to be acted upon are set forth under the headings Proposal 1, Proposal 2 and Proposal 3 hereinbelow and in the Notice of Annual Meeting of Shareholders previously mailed to shareholders.

If the on-line or paper form of Proxy is executed properly and submitted, shares represented by it will be voted at the Meeting in accordance with the instructions on the Proxy. However, if no instructions are specified, shares will be voted for the election as directors of those nominees named in the Proxy, for amendment of the Company's stock option plan and for ratification of the selection of KPMG LLP as independent registered public accounting firm for the year ending December 31, 2011. The Board knows of no matters which are to be presented for consideration at the Meeting other than those specifically described herein and in the Notice of Annual Meeting of Shareholders, but if other matters are properly presented, it is the intention of the persons designated as proxies to vote on them in accordance with their judgment.

A Proxy may be revoked at any time prior to the time it is voted by written notice to the Secretary of the Company at the above address or by submission of a proxy bearing a later date. Any shareholder may attend the Meeting and vote in person whether or not a Proxy was previously submitted.

The close of business on April 4, 2011, has been fixed as the record date (the "Record Date") for the determination of shareholders entitled to notice of, and to vote at, the Meeting. On the Record Date, the Company had 6,724,894 shares of Common Stock, 18,598 shares of Series A Convertible Preferred Stock, 54,943 shares of Series B Convertible Preferred Stock, 77,384 shares of Series C Convertible Preferred Stock and 133,919 shares of Series D Convertible Preferred Stock outstanding and entitled to vote. The foregoing shares of Common and Preferred Stock (collectively, "Shares") are the only voting securities of the Company.

The presence at the Meeting, in person or by proxy, of the holders of 3,504,870 Shares (a majority of the aggregate number of shares of Common Stock and Preferred Stock issued and outstanding and entitled to vote as of the Record Date) is necessary to constitute a quorum to transact business. Proxies marked "Abstain" and broker proxies that have not voted on a particular proposal ("Broker Non-Votes"), if any, will be counted in determining the presence of a quorum. Other than for election of directors (discussed below), each holder of Common Stock and Preferred Stock as of the Record Date is entitled to one vote per Share.

Election of the director nominees named in Proposal No. 1 requires the affirmative vote of a plurality of the total number of votes cast for the election of directors at the Meeting by the holders of Common Stock and Preferred Stock, voting together as a single class. Votes may be cast in favor of or withheld with respect to all of the director nominees, or any of them. Abstentions and Broker Non-Votes, if any, will not be counted as having been voted and will have no

effect on the election of directors except to the extent the failure to vote for a nominee results in another nominee receiving a larger number of votes. Shareholders may cumulate their votes in the election of directors. That is, shareholders may multiply the number of Shares owned and entitled to vote at the Meeting by the number of directors (9) to be elected and cast the resulting number of votes for any one or more candidates. Cumulative voting cannot be accomplished online. Therefore, shareholders desiring to cumulate their votes for the election of directors have the option of requesting a paper proxy from the Company or voting in person at the Meeting.

Adoption of Proposals No. 2 and No. 3 requires the affirmative vote of a majority of the total number of shares of the Common Stock and Preferred Stock represented and entitled to vote at the Meeting, voting together as a single class. In determining whether Proposals No. 2 and No. 3 have received the requisite number of affirmative votes, abstentions will be counted and will have the same effect as votes against the proposals, and broker non-votes, if any, will have no effect on the votes for the proposals.

The expense of solicitation will be borne by the Company. The solicitation of Proxies will be largely by mail, but may include telephonic, telegraphic or oral communications by officers or other representatives of the Company. The Company will also reimburse brokers or other persons holding shares in their names or in the names of their nominees for reasonable out-of-pocket expenses in connection with forwarding Proxies and proxy materials to the beneficial owners of such shares.

It is expected that the Notice of Annual Meeting, Proxy Statement and form of Proxy will first be made available on-line and, upon request, mailed to shareholders on or about April 11, 2011.

Qualifications of Directors

The Nominating and Corporate Governance Committee has not established specific criteria or minimum qualifications that must be met by committee-nominated or shareholder-nominated nominees for director. Regardless of the source of a given nominee's nomination, the Nominating and Corporate Governance Committee evaluates each nominee based solely upon his/her educational attainments, relevant experience and professional stature. We seek board candidates with a broad diversity of experience, professions, skills, geographic representation, backgrounds and commitment necessary to make a significant contribution to our Company. The Nominating and Corporate Governance Committee does not assign specific weights to particular criteria and no particular criterion is necessarily applicable to all prospective nominees. Experience in the healthcare industry, while not a prerequisite for nomination, is a positive factor in the selection process.

Our Board of Directors believes that the backgrounds and qualifications of the directors, considered as a group, should provide a significant composite mix of experience, knowledge and abilities that will allow the Board of Directors to fulfill its responsibilities. Nominees are not discriminated against on the basis of race, religion, national origin, sexual orientation, disability or any other basis proscribed by law. The Nominating and Corporate Governance Committee has not set either term limits or age limits for members of the Board of Directors, believing that the Company's interests are best served by members of the Board of Directors with substantial experience and knowledge of the Company's business and that age is generally not a barrier to effective performance as a member of the Board of Directors.

In connection with the selection of nominees for director, consideration will be given to the Board of Directors' overall balance of diversity of perspectives, backgrounds and experiences; however, the Board of Directors has not adopted a formal diversity policy. The Nominating and Corporate Governance Committee will evaluate potential nominees, including shareholder nominees, by reviewing qualifications, considering references, conducting interviews and reviewing such other information as committee members may deem relevant. The Nominating and Corporate Governance Committee primarily seeks nominations for director from institutional security holders, members of the investment banking community and current directors. We have not employed consultants to help us identify or screen prospective directors in the past, but may do so at the discretion of the Nominating and Corporate Governance Committee.

Board of Directors Leadership

Our Board of Directors recognizes that one of its key responsibilities is to evaluate and determine its optimal leadership structure so as to provide independent oversight of management. The Board of Directors understands that the right Board of Directors leadership structure may vary as circumstances warrant. Consistent with this understanding, non-employee directors consider the Board of Directors' leadership structure on an annual basis.

The Board of Directors has determined that the optimal Board of Directors leadership structure for us is served by the role of Chairman of the Board being held by our Chief Executive Officer, Edward J. Quilty. Mr. Quilty possess detailed and in-depth knowledge of the issues, opportunities and challenges we face, and is thus best positioned to develop agendas that ensure that the Board of Directors' time and attention are focused on the most critical matters.

Our non-employee directors have also determined that it is optimal for the Board of Directors to have a “lead director,” whose responsibilities include, among others, (i) serve as primary intermediary between non-employee directors and management; (ii) formulate, in consultation with the Chairman of the Board of Directors, the agenda and meeting schedules for the Board of Directors; (iii) advise the Chairman of the Board of Directors as to the quality, quantity and timeliness of the information submitted by management to directors; (iv) recommend to the Chairman of the Board of Directors the retention of advisors and consultants who report directly to the Board of Directors; (v) call meetings of non-employee directors; (vi) serve as liaison for consultation and communication with stockholders; and (vii) serve as Chairman of the Executive Committee of the Board of Directors if, and when, same shall be established. Our lead director is Stephen T. Wills.

The Board of Directors has determined that this leadership structure is optimal for us because it believes that having one leader serving as both the Chairman and Chief Executive Officer provides decisive, consistent and effective leadership, as well as clear accountability. This also enhances our ability to communicate our message and strategy clearly and consistently to our shareholders, employees, customers and suppliers, particularly during times of turbulent economic and industry conditions.

Although we believe that the combination of the Chairman and Chief Executive Officer roles is appropriate in the current circumstances, we will continue to review this issue periodically to determine whether, based on the relevant facts and circumstances, separation of these offices would serve our best interests and the best interests of our shareholders.

Role of the Board of Directors in Risk Oversight

Our executive officers are responsible for the day-to-day management of risks the Company faces, while our Board of Directors has responsibility, as a whole and also at the committee level, for the oversight of the Company’s risk management. The Board of Directors regularly reviews the Company’s long-term business strategy, including industry trends and their potential impact on the Company, our competitive positioning, potential acquisitions and divestitures, as well as the Company’s technology and market direction. The Board of Directors also reviews information regarding the Company’s actual and planned financial position and operational performance, as well as the risks associated with each. The Company’s Compensation Committee is responsible for overseeing the management of risks relating to the Company’s executive compensation and the Company’s incentive, equity award and other benefit plans. The Audit Committee oversees management of financial risks, including but not limited to accounting matters, tax positions, insurance coverage and security of the Company’s cash reserves. The Nominating and Corporate Governance Committee manages risks associated with the independence and remuneration of the Board of Directors and potential conflicts of interest. While each committee is responsible for evaluating certain risks and overseeing the management of such risks, the entire Board of Directors is regularly informed about such risks by committee reports as well as advice and counsel from expert advisors.

Director Independence

All directors, with the exception of Edward J. Quilty, are “independent” as defined in NASDAQ Marketplace Rule 5605(a)(2). The term of office of each person elected as director will continue until our next annual meeting of shareholders or until his successor has been elected and qualifies.

The Board of Directors unanimously recommends that shareholders vote “FOR” the election as directors of the nominees listed above.

PROPOSAL 2 – AMENDMENT TO THE COMPANY’S STOCK OPTION PLAN

Summary of the Plan

General Purpose

The Company's Board of Directors believes that providing selected persons with an opportunity to invest in the Company will give such persons additional incentive to increase their efforts on behalf of the Company and will enable the Company and its subsidiaries to attract and retain the best available associates, officers, directors, consultants and advisors. The Company's Board of Directors has approved an amendment to the Derma Sciences, Inc. Stock Option Plan (the "Plan") to increase the number of shares of Common Stock reserved for issuance upon the exercise of options granted under the Plan from 1,250,000 shares to 2,500,000 shares.

The Plan was adopted on July 18, 1991 and most recently amended and restated on February 9, 2011. The Plan is attached to this Proxy Statement as Appendix A.

Amendment

The Board of Directors has approved the most recent amendment to the Plan to increase the number of shares available for issuance under the Plan from 1,250,000 to 2,500,000. The Board of Directors believes that an increase in shares available for issuance is necessary for the Company to have the ability to attract and retain the best available personnel.

Approval of this amendment requires the affirmative vote of the holders of a majority of the shares of the Company's common and preferred stock represented at the Annual Meeting.

Administration of the Plan

The Plan is administered by a committee of directors designated by the Board of Directors (the "Compensation Committee"). The Compensation Committee recommends to the Board of Directors: (i) those employees and agents to receive stock options, (ii) the nature, amount and timing of options to be granted, (iii) the exercise price and vesting schedule of options to be granted, and (iv) all other terms and conditions of the options to be granted. The Board of Directors may approve, disapprove or modify the recommendations of the Compensation Committee.

Federal Income Tax Consequences of the Plan

The Plan permits the granting of Incentive Stock Options as well as Nonqualified Stock Options. Neither incentive options nor non-qualified options may have an exercise price less than fair market value of the common stock on the date of grant. Likewise, neither incentive options nor non-qualified options may have an exercise period that exceeds ten years from the date of grant. Generally, no income is recognized when either type of option is granted to the option holder, but the subsequent tax treatment differs widely.

Nonqualified Stock Options

No income is recognized by an optionee for federal income tax purposes upon the grant of a nonqualified stock option. Upon exercise of a nonqualified stock option, the optionee recognizes ordinary income in an amount equal to the excess of the fair market value of the shares on the date of exercise over the option price of the shares. Income recognized by optionees who are employees of the Company upon the exercise of nonqualified stock options is considered compensation subject to withholding at the time the income is recognized, and therefore, the Company or one of its affiliates must make the necessary arrangements with the optionee to ensure that the amount of the tax required to be withheld is available for payment. The nonqualified stock options granted under the Plan are designed to provide the Company with a deduction, subject to certain limitations, equal to the amount of ordinary income recognized by the optionee at the time of recognition.

The basis of shares transferred to an optionee pursuant to exercise of a nonqualified stock option is the price paid for the shares plus an amount equal to any income recognized by the optionee as a result of the exercise of the option. If an optionee thereafter sells shares acquired upon exercise of a nonqualified stock option, the difference between the amount realized and the basis of the shares constitutes capital gain or loss to the optionee for federal income tax purposes.

Incentive Stock Options

No income is recognized by an optionee for federal income tax purposes upon the grant or the exercise of an incentive stock option. The basis of shares transferred to an optionee pursuant to the exercise of an incentive stock option is the price paid for the shares. If the optionee holds such shares for at least one year after transfer of the shares to the optionee and two years after the grant of the option, whichever is later, the optionee recognizes capital gain or loss upon sale of the shares received upon exercise of the option equal to the difference between the amount realized on such sale and the exercise price. Generally, if the shares are not held for that period, the optionee recognizes ordinary income upon disposition in an amount equal to the excess of the fair market value of the purchased shares on the date of exercise over the option price of the shares, or if less (and if the disposition is a transaction in which loss, if any, is recognized), the gain on disposition. Any additional gain realized by the optionee upon such disposition is a capital gain.

The excess of the fair market value of shares on the date of the exercise of an incentive stock option over the option price for the shares is an item of adjustment for purposes of the alternative minimum tax.

The Company is not entitled to a deduction upon the exercise of an incentive stock option by an optionee. If the optionee disposes of the shares of stock received pursuant to such exercise prior to the expiration of one year following transfer of the shares to the optionee or two years after grant of the option, however, the Company may, subject to certain limitations, deduct an amount equal to the ordinary income recognized by the optionee upon disposition of the shares at the time the income is recognized by the optionee.

The Board of Directors unanimously recommends that shareholders vote “FOR” amendment of the Company’s Stock Option Plan to increase the number of shares of the Company’s Common Stock issuable under the Plan from 1,250,000 to 2,500,000.

EQUITY COMPENSATION PLAN INFORMATION

Stock Option Plan

Plan Description

We adopted the Derma Sciences, Inc. Stock Option Plan (the “Plan”) on July 18, 1991 and amended the Plan upon several occasions, the latest being February 9, 2011. In this connection, please refer to Proposal 2 – Amendment to the Company’s Stock Option Plan above. As of December 31, 2010, the number of shares of common stock reserved for issuance pursuant to the Plan was 1,250,000 shares. The Plan authorizes us to grant two types of equity incentives: (i) options intended to qualify as “incentive stock options” (“ISOs”) as defined in Section 422 of the Internal Revenue Code of 1986, as amended, and (ii) nonqualified stock options (“NQSOs”). The Plan authorizes options to be granted to our directors, officers, key employees and consultants, except that ISOs may be granted only to employees. The Plan is administered by a committee of directors designated by our board of directors (the “Compensation Committee”). Subject to approval of the Board of Directors, the Compensation Committee determines who is eligible to receive stock options, together with the nature, amount, timing, exercise price, vesting schedule and all other terms and conditions of the options to be granted.

Under the Plan, ISOs and NQSOs may have a term of up to ten years. Stock options are not assignable or transferable except by will or the laws of descent and distribution. Stock options granted under the Plan which have lapsed or terminated revert to the status of “unissued” and become available for reissuance.

As of December 31, 2010 options to purchase 1,020,974 shares of our common stock at prices in the range of \$2.88 to \$13.60 per share were issued and outstanding under the Plan.

The per share exercise price of the options is in the range of \$2.88 to \$13.60. Save for shares of common stock in respect of options awarded to directors and executive officers since May 20, 2010, the shares of common stock underlying the options have been registered under the Securities Act of 1933.
- (2) Securities available for future issuance are calculated by deducting from the 1,250,000 shares reserved for issuance under the plan the following: (i) outstanding (unexercised) options of 1,020,974, and (ii) options exercised to date of 29,751.
- (3) The securities consist of Nonqualified Stock Options granted to our officers, directors, employees and consultants during the period 1995 through 2002 and 2007. These options were effected pursuant to employment agreements or stock option agreements recommended by the Compensation Committee of our board of directors and approved by our board of directors. Audit Committee Report

THE FOLLOWING REPORT OF THE AUDIT COMMITTEE SHALL NOT BE DEEMED TO BE SOLICITING MATERIAL OR TO BE FILED WITH THE SECURITIES AND EXCHANGE COMMISSION UNDER THE SECURITIES ACT OF 1933 OR THE SECURITIES EXCHANGE ACT OF 1934 OR INCORPORATED BY REFERENCE IN ANY DOCUMENT SO FILED.

On November 30, 2010, the Company, at the direction of the Audit Committee, dismissed Ernst & Young LLP as the Company's independent registered public accounting firm and engaged KPMG LLP as the Company's new independent registered public accounting firm. References in this report to the Company's independent registered public accounting firms are references to Ernst & Young LLP and/or KPMG LLP, as applicable.

The reports of Ernst & Young on the consolidated financial statements of the Company for the fiscal years ended December 31, 2008 and 2009 did not contain an adverse opinion or a disclaimer of opinion, nor were they qualified or modified as to uncertainty, audit scope or accounting principles. During the Company's fiscal years ended December 31, 2008 and 2009, and through November 30, 2010, the Company did not have any disagreement with Ernst & Young on any matter of accounting principle or practice, financial statement disclosure or auditing scope or procedure which, if not resolved to the satisfaction of Ernst & Young, would have caused it to make reference to the matter in connection with its report on the Company's financial statements for the relevant year.

During the Company's fiscal years ended December 31, 2008 and 2009 and through November 30, 2010, no "reportable events" as defined in Item 304(a)(1)(v) of Regulation S-K have occurred. Ernst & Young has indicated to the Company that it concurs with the foregoing statements as they relate to Ernst & Young and has furnished a letter to the Securities and Exchange Commission to this effect. A copy of this letter is attached to the Company's Form 8-K as Exhibit 16.1 filed with the Securities and Exchange Commission on December 2, 2010.

During the Company's fiscal years ended December 31, 2008 and 2009 and through November 30, 2010, neither the Company nor anyone acting on its behalf consulted with KPMG regarding any of the matters specified in Item 304(a)(2) of Regulation S-K.

The Audit Committee met privately with the Company's independent registered public accounting firms and Company financial personnel, each of whom has unrestricted access to the Audit Committee. The Audit Committee met with management periodically during the year to consider the adequacy of the Company's internal controls and the objectivity of its financial reporting. The Audit Committee discussed these matters with the Company's independent registered public accounting firms and with appropriate Company financial personnel.

The Audit Committee also discussed with the Company's senior management and independent registered public accounting firms the process used for certifications by the Company's chief executive officer and chief financial officer which are required by the Securities and Exchange Commission and the Sarbanes-Oxley Act of 2002 for certain of the Company's filings with the Securities and Exchange Commission.

Management has primary responsibility for the implementation of the system of internal controls and for the preparation of the consolidated financial statements in accordance with accounting principles generally accepted in the United States. The Company's independent registered public accounting firms audited the financial statements prepared by management for the years ended December 31, 2010 (KPMG LLP) and 2009 (Ernst & Young LLP), expressed an opinion as to whether those financial statements fairly present the financial position, results of operations and cash flows of the Company in conformity with accounting principles generally accepted in the United States and discussed with the Audit Committee any issues they believed should be raised with the Audit Committee.

The Audit Committee reviewed with management and with the Company's independent registered public accounting firms the Company's financial statements and met separately with both management and the independent registered public accounting firms to discuss and review those financial statements and reports prior to their issuance. Management has represented to the Audit Committee, and the independent registered public accounting firms have confirmed, that the financial statements were prepared in accordance with accounting principles generally accepted in the United States.

The Audit Committee obtained from and discussed with the independent registered public accounting firms a formal written statement describing all relationships between the accounting firms and the Company that might bear on the firms' independence under Independence Standards Board No. 1, "Independence Discussions with Audit Committees," discussed with the accounting firms any relationships that may impact their objectivity and independence and satisfied itself as to the firms' independence. The Audit Committee continued to monitor auditor independence and reviewed non-audit services performed by the independent registered public accounting firms.

The Audit Committee discussed and reviewed with the independent registered public accounting firms all communications required by standards of the Public Company Accounting Oversight Board (United States), including those described in Statement on Auditing Standards No. 61, as amended, "Communication with Audit Committees" and, with and without management present, discussed and reviewed the results of the independent registered public accounting firms' audit of the financial statements.

Based on the above-mentioned reviews and discussions with management and the independent registered public accounting firm, the Audit Committee recommended to the Board that the Company's audited consolidated financial statements be included in its Annual Report on Form 10-K for the year ended December 31, 2010.

Compensation Committee Members

Compensation Committee Report

The Compensation Committee is charged with the following responsibilities: (i) recommendations to the Board of Directors relative to the compensation of executive officers, (ii) administration of the stock option plan and recommendations to the Board relative to the grant of options to employees, directors and consultants of the Company, (iii) review of, and recommendations to the Board concerning, proposed employment agreements with executive officers, and (iv) evaluation of the performance of, and determination of compensation policies for, executive officers.

Competition for qualified senior management personnel in the Company's industry is intense. In order to attract and retain qualified personnel, the Company must offer compensation which is comparable to similarly situated companies and which provides the potential for substantial rewards if the Company is successful over the long-term. The objectives of the Company's executive compensation policy are to attract, retain and reward executive officers and other key employees who contribute to its success and to motivate these individuals to enhance stockholder value. The Company seeks to pay base, bonus and long-term incentive compensation at levels competitive with other medical device companies.

The Compensation Committee meets several times per year in order to: (i) review the effectiveness of the Company's executive compensation policy in advancing the Company's objectives, (ii) make recommendations to the Board for any adjustments, and (iii) recommend annual compensation for the coming year. The Company's Chief Executive Officer and the Chairman of the Audit Committee gather and report on information about compensation levels in comparable companies.

The Compensation Committee reviews the performance of each executive officer and the financial condition of the Company in relation to the following major components of executive compensation:

1. **Base Salary.** The employment agreement with each executive sets an initial base salary in accordance with industry norms and the subject executive's experience and qualifications. The Compensation Committee annually reviews each executive officer's base salary. Among the factors taken into consideration are: (i) individual and corporate performance, (ii) levels of responsibility, (iii) prior experience, (iv) breadth of knowledge of the industry, and (v) competitive pay practices. If salaries at comparable companies have increased, the Compensation Committee normally recommends similar increases. Provided, however, increases will be recommended only if the subject executive's historical performance warrants an increase and if the increase is prudent in view of the Company's financial condition.
2. **Annual Bonus.** In addition to base salary, the Company seeks to reward executives each year for the achievement of specific goals which may be financial, operational or technological. In this regard, the Compensation Committee considers objectively measurable goals such as obtaining new investment capital, negotiating valuable contracts or meeting sales objectives, together with subjective goals such as quality of management performance and consistency of effort.
3. **Long-Term Incentives.** Historically, the Company's long-term incentives for executive officers have consisted exclusively of stock options awarded both pursuant to, and outside, the Company's 1991 stock option plan (the "Plan"). Effective February 6, 2003, the Company undertook to issue options exclusively under the Plan. The exercise price of both plan and non-plan options is at least equal to the fair market value of the Common Stock on the date of grant.

The Compensation Committee determines the number and terms of recommended option grants to the Company's executive officers based on practices at comparable companies in the medical device industry and the Company's policy of linking long-term incentives to performance.

Pursuant to its mandate, and in accordance with the foregoing criteria, the Compensation Committee recommended to the Board of Directors of the Company as follows:

1. **Bonus Compensation – 2010.** The Compensation Committee recommended that no bonus compensation relative to 2010 performance be awarded.

2. Vesting of Performance Options – 2010. The Compensation Committee recommended that performance options awarded on March 4, 2010 to the President and Chief Executive Officer, the Vice President and Chief Financial Officer, the Executive Vice President for Sales, the Executive Vice President for Operations and the Executive Vice President for Global Business Development and Marketing not vest to any extent and that same lapse effective immediately.

3. Long-term Incentive Compensation – 2010. The Compensation Committee recommended that options to purchase shares of the Company's common stock, exercisable at \$4.95 per share (the closing price of the Company's common stock on the NASDAQ Stock Market on January 20, 2011), to expire on January 20, 2021 and to vest 25% upon the later of January 20, 2011 or the date of execution of stock option agreements reflecting the subject grants and 25% annually thereafter, be awarded to the executives, and in the amounts, hereinbelow set forth:

Stock Options –
Time Vesting

President and Chief Executive Officer	12,000
Vice President and Chief Financial Officer	6,500
Executive Vice President for Sales	6,500
Executive Vice President for Operations	6,500
Executive Vice President for Global Business Development and Marketing	6,500

4. Base Compensation – 2011. The Compensation Committee recommended that the base compensation of the Company’s executive officers be increased by the following amounts effective January 1, 2011: (i) President and Chief Executive Officer – 3% to \$367,710; (ii) Vice President and Chief Financial Officer – 3% to \$232,523; (iii) Executive Vice President for Sales – 3% to \$210,893; (iv) Executive Vice President for Operations – 5% to \$233,553; and (v) Executive Vice President for Global Business Development and Marketing – 11.4% to \$210,893.

5. Bonus Compensation – 2011. The Compensation Committee recommended that the 2011 executive bonus pool, in the case of a given executive officer, consist of 35% of the base salary of the President and Chief Executive Officer and 25% of the base salaries of each of the other executive officers, such bonuses to be allocated to the Company’s executive officers, if at all, as follows: (i) to the extent of 75% thereof, if, and only if, the Company achieves its 2011 financial budget which budget shall have been approved by the Board of Directors, and (ii) to the extent of 25% thereof, if, and to the extent, the subject executive officers attain their performance objectives and thereby contribute to the Company’s overall performance. That portion of the bonus pool contingent upon achievement of the Company’s financial budget shall be allocated, to the extent of 50% thereof, based upon achievement of the Company’s pre-tax budget and to the extent of 50% thereof based upon the Company’s earning pre-tax net income of \$500,000.

6. Long-term Incentive Compensation – 2011. The Compensation Committee recommended that: (i) options to purchase shares of the Company’s common stock, exercisable at \$4.95 per share (the closing price of the Company’s common stock on the NASDAQ Stock Market on January 20, 2011), to expire on January 20, 2021, and (ii) shares of restricted common stock of the Company, pursuant to and in accordance with the Derma Sciences, Inc. Restricted Stock Plan, such options and restricted stock to vest, if at all, to the extent of the Company’s performance in 2011 and each executive officers’ contribution thereto as determined by the Board of Directors not later than April 1, 2012, be awarded in the amounts, and to the executive officers, hereinbelow set forth:

	Stock Options – Performance Vesting	Restricted Stock
President and Chief Executive Officer	15,000	5,000
Vice President and Chief Financial Officer	10,000	3,000
Executive Vice President for Sales	10,000	3,000
Executive Vice President for Operations	10,000	3,000
Executive Vice President for Global Business Development and Marketing	10,000	3,000

The Compensation Committee also recommended to the Board of Directors that, pursuant to Section 952 of the Dodd-Frank Wall Street Reform and Consumer Act, Public Law 111-203, the Company implement a “claw back” requirement pursuant to which the Company would recoup incentive compensation from its executive officers in the event of a financial restatement or other serious issue that results in a downward adjustment of the revenues, profits or other financial criteria upon which the foregoing incentive-based compensation was predicated.

The Board of Directors, at its meeting held January 20, 2011, ratified and adopted the foregoing recommendations of the Compensation Committee.

DERMA SCIENCES, INC.

AMENDED AND RESTATED STOCK OPTION PLAN

THIS DERMA SCIENCES, INC. STOCK OPTION PLAN, made, adopted and declared effective July 18, 1991 and amended and restated January 14, 1994, May 22, 1996, July 14, 1998, February 6, 2003, February 24, 2004, March 31, 2006, November 9, 2007 and February 9, 2011 by Derma Sciences, Inc. (herein referred to as the "Plan").

1. Purpose. The Plan is intended to enable Derma Sciences, Inc. and its subsidiaries (the "Company") to attract and retain capable officers, other employees, capable outside consultants, advisors and directors, to provide them with incentives to promote the best interests of the Company through the grant of incentive stock options and nonqualified stock options (collectively, "Options").

As used in the Plan, the term "incentive stock options" means options which are intended to qualify as incentive stock options within the meaning of §422 of the Internal Revenue Code of 1986, as amended, (the "Code"). The term "nonqualified stock options" means options which are not intended to qualify as incentive stock options.

2. Administration. The Plan shall be administered by the Board of Directors of the Company (the "Board"). Subject to the terms of the Plan, the Board shall have full and final authority in its absolute discretion to select the persons to whom Options shall be granted under the Plan and to set the date of grant and the other terms of such Options. The Board also shall have the authority to establish and rescind, from time to time, such rules and regulations, not inconsistent with the provisions of this Plan, for the proper administration of this Plan and Options granted hereunder, and to make such determinations and interpretations under or in connection with this Plan as it deems necessary or advisable. The Board may correct any defect, supply any omission and reconcile any inconsistency in this Plan or in any Option granted hereunder in the manner and to the extent it shall deem desirable. All such rules, regulations, determinations and interpretations shall be binding and conclusive upon the Company and its officers, employees, directors and outside consultants and advisors (including former officers, employees and directors) of the Company, and upon their respective legal representatives, beneficiaries, successors and assigns and upon all other persons claiming under or through any of them. No member of the Board shall be liable for any action or determination made in good faith with respect to the Plan or any Option granted hereunder.

3. Eligibility. The persons eligible to receive options ("Eligible Individuals") under the Plan shall be the directors, officers and other employees of the Company, outside consultants and advisors.

4. Stock Subject to the Plan. Subject to adjustment as provided in paragraph 7 hereof, 2,500,000 shares (the "Shares") of \$.01 par value common stock (the "Common Stock") shall be available for the grant of Options under the Plan, which shares may be authorized but unissued Shares or reacquired Shares, as the Company shall determine.

If any Option granted under the Plan expires or otherwise terminates, in whole or in part, without having been exercised, the Shares subject to the unexercised portion of such Option shall be available for the granting of Options under the Plan as fully as if such Shares had never been subject to an Option.

5. Grants, Terms and Conditions of Options. From time to time until the expiration or earlier termination of the Plan, the Board may grant Options to Eligible Individuals (such grantees are hereinafter referred to as "Optionees") under the Plan; provided, however, that grants of incentive and nonqualified stock options shall be separate and not in tandem. Options granted pursuant to the Plan shall be in such form as the Board shall from time to time approve, and shall be subject to the following terms and conditions:

(a) Price. The option price per Share under each Option granted under the Plan shall be determined and fixed by the Board in its discretion but shall not be less than (i) in the case of an Incentive Stock Option granted to a person who owns more than 10% of the combined voting power of all shares of stock of the Company or any subsidiary on the date of grant, the greater of \$.01 or 110% of the fair market value of the Shares on the date of grant of such Option, and (ii) in all other cases the greater of \$.01 or 100% of the fair market value of the Shares on the date of grant of such Option. The fair market value of a Share on any day shall mean that amount determined by such method of determining fair market value as shall be permitted by the Code, or the rules or regulations thereunder, and used by the Board from time to time. For purposes of this paragraph 5 an individual shall be deemed to own any shares of stock of the Company which are attributed to such individual under § 424(d) of the Code.

(b) Term. The duration of the Plan shall be ten (10) years from the date of the Plan's most recent amendment as set forth in the preamble hereof. Subject to earlier termination as provided in subparagraphs (c) through (f) below and in paragraph 8 hereof, the duration of each Option shall not be more than ten (10) years from the date of grant; provided that the duration of any Incentive Stock Option granted to a person who owns more than 10% of the combined voting powers of all shares of stock of the Company on the date of grant of the Option shall not be more than five (5) years from the date of grant.

(c) Exercise and Payment. Except as otherwise provided in paragraph 8 hereof, options shall be exercisable in such installments and on such dates, as the Board may specify; provided that the Board may determine that Options will become immediately exercisable in whole or in part in the event of death, disability or termination of employment. Except as otherwise provided in subparagraphs (d) through (f) below, Optionees must be in the employ of, or associated with, the Company at the time of Option exercise. Any Shares which may be purchased upon exercise of an Option ("Option Shares"), the right to the purchase of which has accrued, may be purchased at any time up to the expiration or termination of the Option. Options may be exercised, in whole or in part, from time to time, by giving written notice of exercise to Derma Sciences, Inc. at its principal office, specifying the number of Shares to be purchased, and accompanied by payment in full of the aggregate purchase price for the Shares. Only full Shares shall be delivered and any fractional share which might otherwise be deliverable upon exercise of an Option granted hereunder shall be forfeited.

The purchase price shall be payable: (i) in cash or its equivalent, or (ii) if the Board, in its discretion, so provides in the stock option agreement or, in the case of nonqualified stock options, if the Board, in its discretion, so determines at or prior to the time of exercise, in whole or in part through the transfer of Common Stock previously acquired by the Optionee, provided the Common Stock so transferred has been held for the applicable holding period set forth below:

(i) If such previously acquired shares of Common Stock were acquired through exercise of an incentive stock option and are being tendered as payment of the option price under an incentive stock option, such shares have been held by the Optionee for a period not less than the holding period described in § 422(a)(1) of the Code;

(ii) If such previously acquired shares of Common Stock were acquired through exercise of an incentive stock option or a nonqualified stock option and are being tendered as payment of the option price under a nonqualified stock option, such shares have been held by the Optionee for more than six months; or

(iii) If such previously acquired shares of Common Stock were acquired through exercise of a nonqualified stock option and are being tendered as payment of the option price under an incentive stock option, such Shares have been held by the Optionee for more than six months.

In the event such purchase price is paid, in whole or in part, with shares of Common Stock, the portion of the purchase price so paid shall be equal to the fair market value, as determined by, or in the manner prescribed by, the Board in accordance with subparagraph (a) above, on the date of exercise of the Option, of the shares of Common Stock so tendered in payment of such purchase price.

(d) Death of Optionee. If an Optionee's employment or association with the Company is terminated by reason of his death prior to the expiration date of his Option, or if an Optionee whose employment or association with the Company is terminated (as described in subparagraphs (e) and (f) below) shall die within three (3) months thereafter but prior to the expiration date of his Option or expiration of the period determined under subparagraphs (e) or (f) below, if earlier, such Option may be exercised by the Optionee's estate, personal representative or beneficiary who acquired the right to exercise such Option by bequest or inheritance or by reason of the death of the Optionee, to the extent of the number of Shares with respect to which the Optionee could have exercised it on the date of his death, or to any greater extent permitted by the Board, at any time prior to the earlier of: (i) one year following the date of the

Optionee's death, or (ii) the expiration date of such Option (which, in the case of death following a termination of employment or association with the Company pursuant to subparagraphs (e) or (f) below, shall be deemed to mean the expiration of the exercise period determined thereunder).

(e) Disability of Optionee. If an Optionee shall become permanently and totally disabled during his employment or association with the Company and his employment or association with the Company is terminated as a consequence of such permanent and total disability prior to the expiration date of his Option, such Option may be exercised by the Optionee, to the extent of the number of Shares with respect to which the Optionee could have exercised it on the date of such termination of employment or association, or to any greater extent permitted by the Board, at any time prior to the earlier of: (i) one year following the date of the Optionee's termination of employment or association, or (ii) the expiration date of such Option. In the event of the Optionee's legal disability, such Option may be so exercised by the Optionee's legal representative.

(f) Termination of Employment or Association of Optionee. If an Optionee's employment or association with the Company is terminated prior to the expiration date of his Option, such Option may be exercised by the Optionee, to the extent of the number of Shares with respect to which the Optionee could have exercised it on the date of such termination, or to any greater extent permitted by the Board, at any time prior to the later of: (i) three (3) months after the date of termination, or (ii) the expiration date of such Option; provided, however, if an Optionee's employment or association with the Company is terminated by the Company "for cause" (as defined below), the Optionee shall have no right to exercise his Option on or after the date of such termination. As used herein, termination of an Optionee's employment or association by the Company shall be "for cause" if the Board reasonably concludes that the Optionee has materially failed to perform his or her responsibilities to the Company, materially failed to follow directives or policies established by or at the direction of the Board, or conducted himself or herself in a manner materially detrimental to the interests of the Company.

(g) Transferability. No option shall be assignable or transferable by an Optionee otherwise than by will or by the laws of descent and distribution, and during the lifetime of the Optionee, his Options shall be exercisable only by him, or in the event of his legal disability, by his legal representative.

(h) Rights as a Shareholder. An Optionee shall have no rights as a shareholder with respect to any Shares covered by his Option until the exercise of such Option and his payment for such Shares.

(i) Annual Limit on Incentive Stock Options. The aggregate fair market value (determined in accordance with Subparagraph (a) above as of the time an incentive stock option is granted) of the Shares with respect to which incentive stock options are exercisable for the first time by an Eligible Individual during any calendar year (under the Plan and any other incentive stock option plan of the Company) may not exceed one hundred thousand dollars (\$100,000), or such other number as may be in effect under the Code from time to time.

(j) Option Agreement and Further Conditions. As soon as practicable after the grant of an Option, each Optionee shall enter into, and be bound by the terms of, a stock option agreement (the "Option Agreement") which shall state the number of Shares to which the Option pertains and specify whether the Option is intended to be an incentive stock option or a nonqualified stock option. The Option Agreement shall set forth such terms, conditions and restrictions regarding the Option not inconsistent with the Plan (and, in the case of incentive stock options, the provisions of § 422(b) of the Code) as the Board shall determine. Without limiting the generality of the foregoing, the Board, in its discretion, may impose further conditions upon the exercisability of Options and restrictions on transferability with respect to Shares issued upon exercise of Options.

(k) Withholding. The obligation of the Company to deliver Shares upon the exercise of any Option (or cash in lieu thereof) shall be subject to any applicable federal, state and local tax withholding requirements.

6. Listing and Registration of Shares. Each Option under the Plan shall be subject to the requirement that, if at any time the Company shall determine, in its discretion, that the listing, registration or qualification of the Option or Shares covered thereby upon any securities exchange or under the laws of any jurisdiction, or the consent or approval of any governmental or regulatory body, is necessary or desirable as a condition of, or in connection with, the granting of such Option, or the exercise thereof, then no such Option may be exercised in whole or in part unless and until such listing, registration, qualification, consent or approval shall have been effected or obtained, on conditions acceptable to the Company. Each Optionee, or his legal representative or beneficiaries, also may be required to give satisfactory assurance that Shares acquired upon exercise of an Option are being acquired for investment and not with a view to distribution, and certificates representing such Shares may be legended accordingly.

7. Adjustments. The number of Shares which may be issued under the Plan, as stated in paragraph 4 hereof, and the number of Shares issuable upon exercise of outstanding Options under the Plan (as well as the exercise price per

share under such outstanding Options), shall be equitably adjusted by the Board to reflect any stock dividend, stock split, share combination, or similar change in the capitalization of the Company.

8. Merger, Liquidation or Sale. In the event of a proposed dissolution, liquidation or sale of substantially all of the assets of the Company, or of a merger or consolidation involving a 50% change of ownership or control of the Company, the Board shall, in its unlimited discretion, have the power prior to such event: (a) to terminate all outstanding Options upon at least seven (7) days prior notice to each Optionee and, if the Board deems it appropriate, to cause the Company to pay to each Optionee an amount in cash with respect to each Share to which a terminated Option pertains equal to the difference between the option price and the value, as determined by the Board in its sole discretion, of the consideration to be received by the holders of shares of Common Stock in connection with such transaction, or (b) to provide for the exchange of Options outstanding under the Plan for options to acquire securities or other property to be delivered in connection with the transaction and in connection therewith to make an equitable adjustment, as determined by the Board in its sole discretion, in the option price and number of Shares or amount of property subject to the Option and, if deemed appropriate, provide for a cash payment to Optionees in partial consideration for such exchange. Anything hereinbefore or hereinafter to the contrary notwithstanding, upon the approval of the Board of Directors of the Company to implement a dissolution, liquidation, sale of substantially all of the assets of the Company or merger or consolidation involving a 50% change of ownership or control of the Company, all unexercised Options issued hereunder shall become immediately exercisable.

9. Acquisitions. Notwithstanding any other provision of this Plan, Options may be granted hereunder in substitution for options held by officers and employees of other corporations who are about to, or have, become employees of the Company as a result of a merger, consolidation, acquisition of assets or similar transaction by the Company. The terms, including the option price, of the substitute options so granted may vary from the terms set forth in this Plan to such extent as the Board may deem appropriate to conform, in whole or in part, to the provisions of the options in substitution for which they are granted.

10. Amendment or Discontinuance of the Plan. The Board at any time, and from time to time, may suspend or discontinue the Plan or amend it and any outstanding Options in any respect whatsoever; provided, however, that without the approval of the holders of at least a majority of the outstanding shares of Common Stock as may be required by applicable law: (a) the maximum number of Shares with respect to which Options may be granted under the Plan shall not be increased except as permitted under paragraph 7 hereof, (b) the lowest price at which Options may be granted shall not be reduced, and (c) the duration of the Plan under paragraph 14 shall not be extended; and provided further, that no such suspension, discontinuance or amendment shall materially impair the rights of any holder of an outstanding Option without the consent of such holder.

11. Absence of Rights. The recommendations or selection of an Eligible Individual as a recipient of an Option under the Plan shall not entitle such person to any Option unless and until the grant actually has been made by appropriate action of the Board, and any such grant is subject to the provisions of the Plan. Further, the granting of an Option to a person shall not entitle that person to continued employment by the Company or affect the terms and conditions of such employment, and the Company shall have the absolute right, in its discretion, to retire such person in accordance with its retirement policies or otherwise to terminate his employment, whether or not such termination may result in a partial or total termination of this Option.

IN WITNESS WHEREOF, this amendment and restatement of the Plan has been executed this 9th day of February, 2011.
