## **Section 1 - Conflict Mineral Disclosure**

### **Item 1.01 Conflict Minerals Disclosure and Report**

Stoneridge, Inc. (“Stoneridge” or the “Company”) evaluated its product lines across its four reportable segments, and in good faith determined that certain products it manufactured or contracted to manufacture in 2013 contained tantalum, tin, tungsten and/or gold (collectively “Conflict Minerals”). These Conflict Minerals are necessary to the functionality or production of certain Stoneridge products, and therefore are required to be reported in this specialized disclosure report.

The Company does not purchase Conflict Minerals directly from smelters or mines. As such, a reasonable country of origin inquiry of our direct suppliers was conducted regarding the presence of Conflict Minerals in products, components or parts purchased and designed due diligence procedures were performed to determine whether these Conflict Minerals originated in the Democratic Republic of the Congo (“DRC”) or an adjoining country or arose from recycled or scrap sources.

Based upon the results of the due diligence performed for the year ended December 31, 2013, Stoneridge is unable to exclude the presence of Conflict Minerals (as defined in Section 1502 of the Dodd-Frank Wall Street Reform and Consumer Protection Act of 2010 (“Dodd-Frank Act”)) in certain of its products or to determine the origin of any Conflict Minerals used in its manufactured products. Accordingly, Stoneridge cannot exclude the possibility that some of its products contain Conflict Minerals which may have originated in the DRC or an adjoining country (as defined in Section 1502 of the Dodd-Frank Act). As a result, the Company is filing a Conflict Minerals Report as Exhibit 1.02 to this Form SD.
