

AMERICAN SHARED HOSPITAL SERVICES  
Form 10-Q  
August 10, 2017

UNITED STATES

SECURITIES AND EXCHANGE COMMISSION

WASHINGTON, DC 20549

---

**FORM 10-Q**

**(Mark One)**

QUARTERLY REPORT PURSUANT TO SECTION 13 OR 15(d) OF THE SECURITIES EXCHANGE ACT OF 1934

For the quarterly period ended June 30, 2017 or

TRANSITION REPORT PURSUANT TO SECTION 13 OR 15(d) OF THE SECURITIES EXCHANGE ACT OF 1934

For the transition period from \_\_\_\_\_ to \_\_\_\_\_.

Commission file number 1-08789

---

American Shared Hospital Services

(Exact name of registrant as specified in its charter)

Edgar Filing: AMERICAN SHARED HOSPITAL SERVICES - Form 10-Q

California 94-2918118  
(State or other jurisdiction of (IRS Employer  
Incorporation or organization) Identification No.)

Two Embarcadero Center, Suite 410, San Francisco, California 94111  
(Address of Principal Executive Offices) (Zip Code)

Registrant's telephone number, including area code: (415) 788-5300

Indicate by check mark whether the registrant: (1) has filed all reports required to be filed by Section 13 or 15(d) of the Securities Exchange Act of 1934 during the preceding 12 months (or for such shorter period that the Registrant was required to file such reports), and (2) has been subject to such filing requirements for the past 90 days. Yes  No

Indicate by check mark whether the registrant has submitted electronically and posted on its corporate Web site, if any, every Interactive Data File required to be submitted and posted pursuant to Rule 405 of Regulation S-T during the preceding 12 months (or for such shorter period that the registrant was required to submit and post such files). Yes  No

Indicate by check mark whether the registrant is a large accelerated filer, an accelerated filer, a non-accelerated filer or a smaller reporting company. See definition of "large accelerated filer", "accelerated filer", "smaller reporting company" and "emerging growth company" in Rule 12b-2 of the Exchange Act. (Check one):

Large Accelerated Filer  Accelerated Filer  Non-Accelerated Filer  Smaller reporting company   
Emerging Growth Company

If an emerging growth company, indicate by check mark if the registrant has elected not to use the extended transition period for complying with any new or revised financial accounting standards provided pursuant to Section 13(a) of the Exchange Act.

Indicate by a check mark whether the registrant is a shell company ( as defined in Rule 12b-2 of the Exchange Act).

Yes  No

As of August 7, 2017, there are outstanding 5,710,000 shares of the Registrant's common stock.

AMERICAN SHARED HOSPITAL SERVICES

NOTES TO CONDENSED CONSOLIDATED FINANCIAL STATEMENTS

(Unaudited)

Note 1. Basis of Presentation

In the opinion of management, the accompanying unaudited condensed consolidated financial statements contain all adjustments (consisting of only normal recurring accruals) necessary to present fairly American Shared Hospital Services' consolidated financial position as of June 30, 2017 and the results of its operations for the three and six month periods ended June 30, 2017 and 2016, which results are not necessarily indicative of results on an annualized basis. Consolidated balance sheet amounts as of December 31, 2016 have been derived from audited consolidated financial statements.

These unaudited condensed consolidated financial statements should be read in conjunction with the audited consolidated financial statements for the year ended December 31, 2016 included in the Company's 10-K filed with the Securities and Exchange Commission.

These consolidated financial statements include the accounts of American Shared Hospital Services and its subsidiaries (the "Company") as follows: the Company wholly-owns the subsidiaries American Shared Radiosurgery Services ("ASRS"), PBRT Orlando, LLC ("Orlando"), OR21, Inc. ("OR21"), and MedLeader.com, Inc. ("MedLeader"); the Company is the majority owner of Long Beach Equipment, LLC ("LBE"); ASRS is the majority-owner of GK Financing, LLC ("GKF") which wholly-owns the subsidiaries Instituto de Gamma Knife del Pacifico S.A.C. ("GKPeru") and GK Financing U.K., Limited ("GKUK"); GKF is the majority owner of the subsidiaries Albuquerque GK Equipment, LLC ("AGKE") and Jacksonville GK Equipment, LLC ("JGKE").

The Company (through ASRS) and Elekta AB, the manufacturer of the Gamma Knife (through its wholly-owned United States subsidiary, GKV Investments, Inc.), entered into an operating agreement and formed GK Financing, LLC. As of June 30, 2017, GKF provided Gamma Knife units to sixteen medical centers in the United States in the states of Arkansas, California, Florida, Illinois, Massachusetts, Mississippi, Nevada, New Jersey, New Mexico, New York, Tennessee, Oklahoma, Ohio, Oregon, and Texas.

The Company through its wholly-owned subsidiary, Orlando, provided proton beam radiation therapy ("PBRT") and related equipment to a customer in the United States. The Company also directly provides radiation therapy and

related equipment, including Intensity Modulated Radiation Therapy (“IMRT”), Image Guided Radiation Therapy (“IGRT”) and a CT Simulator to the radiation therapy department at an existing Gamma Knife site in Massachusetts.

The Company formed the subsidiaries GKPeru and GKUK for the purposes of expanding its business internationally into Peru and the United Kingdom, respectively; Orlando and LBE to provide proton beam therapy services in Orlando, Florida and Long Beach, California; and AGKE and JGKE to provide Gamma Knife services in Albuquerque, New Mexico and Jacksonville, Florida, respectively. AGKE began operations in the second quarter of 2011 and JGKE began operations in the fourth quarter of 2011. Orlando treated its first patient in April 2016. GKPeru treated its first patient in July 2017. GKUK is inactive and LBE is not expected to generate revenue within the next two years.

The Company continues to develop its design and business model for “The Operating Room for the 21st Century<sup>SM</sup>” (“OR21<sup>SM</sup>”), through its 50% owned OR21, LLC (“OR21 LLC”). The remaining 50% is owned by an architectural design company. OR21 is not expected to generate significant revenue within the next two years.

MedLeader was formed to provide continuing medical education online and through videos for doctors, nurses, and other healthcare workers. This subsidiary is not operational at this time.

All significant intercompany accounts and transactions have been eliminated in consolidation.

Based on the guidance provided in accordance with Accounting Standards Codification (“ASC”) 280 *Segment Reporting* (“ASC 280”), the Company has analyzed its subsidiaries which are all in the business of leasing radiosurgery and radiation therapy equipment to healthcare providers, and concluded there is one reportable segment, Medical Services Revenue. The Company provides Gamma Knife, PBRT, and IGRT equipment to seventeen hospitals in the United States as of June 30, 2017. These seventeen locations operate under different subsidiaries of the Company, but offer the same radiosurgery and radiation therapy service. The operating results of the subsidiaries are reviewed by the Company’s Chief Executive Officer and Chief Financial Officer, who are also deemed the Company’s Chief Operating Decision Makers (“CODMs”) and this is done in conjunction with all of the subsidiaries and locations.

In February 2016, the Company used proceeds from the lease financing of its MEVION S250 at Orlando Health – UF Health Cancer Center (“Orlando Health”) to pay down \$1,000,000 in Promissory Notes (the “Notes”) with four members of the Company’s Board of Directors. Based on the guidance provided in accordance with ASC 405 *Extinguishment of Liabilities* (“ASC 405”) and ASC 470 *Debt Modifications and Extinguishments* (“ASC 470”), the pay-down of the Notes is considered an extinguishment of debt and, as such, the difference between the net carrying amount of the Notes and the costs of extinguishment was recognized as a loss on the Company’s condensed consolidated statements of operations. During the year ended December 31, 2016, the Company recorded a loss on early extinguishment of debt of \$108,000. The Notes were issued with common stock warrants with an estimated fair value of \$145,000. The unamortized balance of the discount on the Notes, of \$80,000, and deferred fees incurred from the issuance of the Note of approximately \$28,000, were recorded as a loss on early extinguishment.

As of December 31, 2016, the Company had warrants outstanding representing the right to purchase 100,000 shares of the Company’s common stock at \$2.20 per share. These warrants were issued with the Notes to four members of the Company’s Board of Directors in a prior year. During the six month period ended June 30, 2017, 100,000 of the warrants were exercised. 50,000 of the 100,000 warrants were exercised via a cashless exercise resulting in the net issuance of approximately 25,000 shares. There are no warrants outstanding as of June 30, 2017.

In April 2017, an existing customer exercised their option to purchase the Gamma Knife unit at its hospital at the end of the lease term for a predetermined purchase price, pursuant to the lease agreement. The lease terminated in April 2017, at which time, the unit was depreciated to the purchase price of the sale. Based on the guidance provided in ASC 360 *Property, Plant and Equipment* (“ASC 360”), the Company did not classify or measure the asset as held for sale prior to the lease termination, because the Gamma Knife unit was not available for immediate sale.

On July 21, 2017, the Company entered into a Maintenance and Support Agreement (the “Mevion Service Agreement”) with Mevion Medical Systems, Inc. (“Mevion”), formerly Still River Systems, which provides for maintenance and support of the Company’s PBRT unit at Orlando Health. The Mevion Service Agreement begins September 5, 2017 and required an upfront payment of \$1,000,000 which was made on August 4, 2017, and further requires payments over the next 11 months. This payment portion will be recorded as a prepaid contract and amortized over the one year service period. The Mevion Service Agreement is for a five (5) year period.

In May 2014, the Financial Accounting Standards Board (“FASB”) issued Accounting Standards Update (“ASU”) No. 2014-09, *Revenue from Contracts with Customers* (Topic 606), (“ASU 2014-09”), which requires an entity to recognize the amount of revenue to which it expects to be entitled for the transfer of promised goods or services to customers. The ASU will replace most existing revenue recognition guidance in United States Generally Accepted Accounting Principles (“GAAP”) when it becomes effective. In December 2016, FASB issued ASU 2016-20 *Technical Corrections and Improvements to Topic 606*, (“ASU 2016-20”), which affects some narrow aspects of ASU 2014-09. The new standard is effective for the Company for annual reporting periods beginning after December 15, 2017 and interim reporting periods therein. Early application is permitted for reporting periods beginning after December 15, 2016. The standard permits the use of either the retrospective or cumulative effect transition method. The Company has a project team in place to analyze the impact of ASU 2014-09 to its revenue stream. This includes performing a review of current policies to identify potential differences that would result from applying ASU 2014-09. The Company believes it is following an appropriate timeline to allow for proper recognition, presentation, and disclosure upon adoption. The Company intends to adopt the standard at the date required for public companies, but has not yet selected a transition method.

In January 2016, the FASB issued ASU No. 2016-01 *Recognition and Measurement of Financial Assets and Financial Liabilities* (“ASU 2016-01”), which requires equity investments, except those accounted for under the equity method of accounting or those that result in consolidation of the investee, to be measured at fair value with changes in fair value recognized in net income. The new guidance is effective for the Company on January 1, 2018. Early adoption is permitted. The standard permits the use of cumulative-effect transition method. The Company is evaluating the effect that ASU 2016-01 will have on its consolidated financial statements and related disclosures.

In February 2016, the FASB issued ASU No. 2016-02 *Leases* (“ASU 2016-02”), which requires lessees to recognize, for all leases, at the commencement date, a lease liability, and a right-of-use asset. Under the new guidance, lessor accounting is largely unchanged. The new guidance is effective for the Company on January 1, 2019. Early adoption is permitted. The Company is evaluating the effect that ASU 2016-02 will have on its consolidated financial statements and related disclosures.

In March 2016, the FASB issued ASU No. 2016-09 *Compensation – Stock Compensation* (Topic 718) (“ASU 2016-09”), which changes five aspects of accounting for share-based payment award transactions including 1) accounting for income taxes; 2) classification of excess tax benefits on the statement of cash flows; 3) forfeitures; 4) minimum statutory tax withholding requirements; and 5) classification of employee taxes paid on the statement of cash flows when an employer withholds shares for tax-withholding purposes. The new guidance is effective for the Company for interim and annual periods beginning after December 15, 2016. The Company adopted ASU 2016-09 on January 1, 2017. The Company elected to estimate the impact of forfeitures. There was no material impact on the consolidated financial statements and related disclosures.

In June 2016, the FASB issued ASU No. 2016-13 *Financial Instruments – Credit Losses (Topic 326): Measurement of Credit Losses on Financial Instruments* (“ASU 2016-13”), which requires measurement and recognition of expected credit losses for financial assets held. The new guidance is effective for fiscal periods beginning after December 15, 2019. Early adoption is permitted for fiscal periods beginning after December 15, 2018. The Company is evaluating the effect that ASU 2016-13 will have on its consolidated financial statements and related disclosures.

In August 2016, the FASB issued ASU No. 2016-15 *Statement of Cash Flows (Topic 230) – Classification of Certain Cash Receipts and Cash Payments* (“ASU 2016-15”), which provides guidance on eight specific cash flow issues: debt prepayment or extinguishment costs; settlement of zero-coupon or other debt instruments with coupon interest rates that are insignificant in relation to the effective interest rate of the borrowing; contingent consideration payments made after a business combination; proceeds from the settlement of insurance claims; proceeds from the settlement of corporate-owned life insurance policies; distributions received from equity method investees; beneficial interests in securitization transactions; and separately identifiable cash flows and application of the Predominance Principle. The new guidance is effective for fiscal periods beginning after December 15, 2017 and interim periods within those fiscal years. Early adoption is permitted, including adoption in an interim period. The Company is evaluating the effect that ASU 2016-15 will have on its consolidated financial statements and related disclosures.

In November 2016, the FASB issued ASU No. 2016-18 *Statement of Cash Flows (Topic 230) – Restricted Cash* (“ASU 2016-18”), which requires that a statement of cash flows explain the change during the period in total cash, cash equivalents, and amounts generally described as restricted cash or restricted cash equivalents. Amounts generally described as restricted cash and restricted cash equivalents should be included with cash and cash equivalents when reconciling the beginning-of-period and end-of-period total amounts shown on the statement of cash flows. The new guidance is effective for fiscal years beginning after December 15, 2017, and interim periods within those fiscal years. Early adoption is permitted, including adoption in an interim period. The Company is evaluating the effect that ASU

2016-18 will have on its consolidated financial statements and related disclosures.

In May 2017, the FASB issued ASU No. 2017-09 *Compensation – Stock Compensation (Topic 718): Scope of Modification Accounting* (“ASU 2017-09”), which provides guidance on determining which changes to the terms and conditions of share-based payment awards require an entity to apply modification accounting under Topic 718. The new guidance is effective for fiscal years beginning after December 31, 2017. Early adoption is permitted, including adoption in an interim period. The Company is evaluating the effect that ASU 2017-09 will have on its consolidated financial statements and related disclosures.

## Note 2. Per Share Amounts

Per share information has been computed based on the weighted average number of common shares and dilutive common share equivalents outstanding. The computation for the three and six month periods ended June 30, 2017 included all of the Company’s outstanding stock options because the exercise price of the options was lower than the average market price during those periods. The computation for the three and six month periods ended June 30, 2016 excluded approximately 605,000 and 627,000 of the Company’s stock options, respectively, because the exercise price of the options was higher than the average market price during those periods.

Based on the guidance provided in accordance with ASC 260 *Earnings Per Share* (“ASC 260”), the weighted average common shares for basic earnings per share, for the three and six month periods ended June 30, 2017, excluded the weighted average impact of the performance share awards, discussed below. These awards are legally outstanding but are not deemed participating securities and therefore are excluded from the calculation of basic earnings per share. These shares are also excluded from the denominator for diluted earnings per share because they are considered contingent shares not deemed probable as of June 30, 2017.

The following table sets forth the computation of basic and diluted earnings per share for the three and six month periods ended June 30, 2017 and 2016:

	Three months ended June 30,		Six months ended June 30,	
	2017	2016	2017	2016
Net income attributable to American Shared Hospital Services	\$ 113,000	\$ 93,000	\$ 406,000	\$ 144,000

Diluted earnings per share	\$ 0.02	\$ 0.02	\$ 0.07	\$ 0.03

Note 3. Stock-based Compensation

In June 2010, the Company's shareholders approved an amendment and restatement of the Company's stock incentive plan, renaming it the Incentive Compensation Plan (the "Plan"), and among other things, increasing the number of shares of the Company's common stock reserved for issuance under the Plan to 1,630,000. The Plan provides that the shares reserved under the Plan are available for issuance to officers of the Company, other key employees, non-employee directors, and advisors. The Plan is a successor to the Company's previous plans, and any shares awarded and outstanding under those plans were transferred to the Plan. No further grants or share issuances will be made under the previous plans. On June 27, 2017, the Company's shareholders approved an amendment and restatement of the Plan in order to extend the term of the Plan by two years.

Stock-based compensation expense associated with the Company's stock-based options to employees is calculated using the Black-Scholes valuation model. The Company's stock-based awards have characteristics significantly different from those of traded options, and changes in the subjective input assumptions can materially affect the fair value estimates. The estimated fair value of the Company's option grants is estimated using assumptions for expected life, volatility, dividend yield, and risk-free interest rate which are specific to each award. The estimated fair value of the Company's options is amortized over the period during which an employee is required to provide service in exchange for the award (requisite service period), usually the vesting period. Accordingly, stock-based compensation cost before income tax effect for the Company's options and restricted stock awards, in the amount of \$50,000 and \$100,000 is reflected in net income for the three and six month periods ended June 30, 2017 compared to \$60,000 and \$119,000 in the same periods prior year, respectively. At June 30, 2017, there was approximately \$358,000 of unrecognized compensation cost related to non-vested share-based compensation arrangements granted under the Plan, excluding the unrecognized compensation cost associated with the Award Agreements, discussed below. This cost is expected to be recognized over a period of approximately three years.

On January 4, 2017, the Company entered into a Performance Share Award Agreement with three executive officers of the Company (the "Award Agreements") for 161,766 restricted stock awards which vest upon the achievement of certain performance metrics. The Award Agreements expire on March 31, 2020. Based on the guidance in ASC 718 *Stock Compensation* ("ASC 718"), the Company concluded these were performance based awards with vesting criteria tied to performance metrics and that as of June 30, 2017 it is not probable that any of the required metrics for vesting will be achieved. As a result, the Company has not recognized any stock-based compensation expense associated with these awards for the three and six month periods ended June 30, 2017. The unrecognized stock-based compensation expense for these awards was approximately \$542,000 as of June 30, 2017. If and when the Company determines that the performance metrics' achievement becomes probable, the Company will record a cumulative catch-up stock-based compensation amount and the remaining unrecognized amount will be recorded over the remaining requisite service period of the awards.

The following table summarizes the outstanding restricted stock awards, consisting primarily of annual automatic grants and deferred compensation to non-employee directors, for the six month period ended June 30, 2017:

	Restricted Stock Awards/Units	Grant Date Weighted- Average Fair Value	Intrinsic Value
Outstanding at January 1, 2017	4,000	\$ 2.25	\$ -
Granted	21,000	\$ 3.48	\$ -
Vested	(13,000 )	\$ 3.07	\$ -
Forfeited	-	\$ -	\$ -
Outstanding at June 30, 2017	12,000	\$ 3.54	\$ 4,000

The following table summarizes stock option activity for the six month period ended June 30, 2017:

	Stock Options	Grant Date Weighted- Average Exercise Price	Weighted- Average Remaining Contractual Life (in Years)	Intrinsic Value
Outstanding at January 1, 2017	625,000	\$ 2.85	4.25	\$-
Granted	14,000	\$ 3.90	-	\$-
Exercised	(4,000 )	\$ 2.81	-	\$-
Forfeited	(23,000 )	\$ 2.82	-	\$-
Outstanding at June 30, 2017	612,000	\$ 2.87	3.85	\$630,000
Exercisable at June 30, 2017	295,000	\$ 2.82	3.63	\$318,000

#### Note 4. Investment in Equity Securities

As of June 30, 2017 and December 31, 2016, the Company had a \$579,000 investment in the common stock of Mevion, representing an approximate 0.46% interest in Mevion. The Company accounts for this investment under the cost method. The Company carries its investment in Mevion at cost and reviews it for impairment on a quarterly basis, or as events or circumstances might indicate that the carrying value of the investment may not be recoverable.

The Company reviewed this investment at June 30, 2017 in light of both current market conditions and the current operations of Mevion as they continue to grow their PBRT business. Based on its analysis, the Company determined no additional impairment needed to be recognized as of June 30, 2017.

#### Note 5. Fair Value of Financial Instruments

The Company's disclosures of the fair value of financial instruments is based on a fair value hierarchy that prioritizes the inputs to the valuation techniques used to measure fair value into three levels. Level 1 inputs are unadjusted quoted market prices in active markets for identical assets and liabilities that the Company has the ability to access at the measurement date. Level 2 inputs are inputs other than quoted prices within Level 1 that are observable for the asset or liability, either directly or indirectly. Level 3 inputs are unobservable inputs for assets or liabilities, and reflect the Company's own assumptions about the assumptions that market participants would use in pricing the asset or liability.

The estimated fair value of the Company's assets and liabilities as of June 30, 2017 and December 31, 2016 were as follows (in thousands):

	Level 1	Level 2	Level 3	Total	Carrying Value
June 30, 2017					
Assets:					
Cash, cash equivalents, restricted cash	\$2,851	\$ -	\$-	\$2,851	\$ 2,851
Investment in equity securities	-	-	579	579	579
Total	\$2,851	\$ -	\$579	\$3,430	\$ 3,430
Liabilities:					
Debt obligations	\$-	\$ -	\$7,236	\$7,236	\$ 7,149
Total	\$-	\$ -	\$7,236	\$7,236	\$ 7,149
December 31, 2016					
Assets:					
Cash, cash equivalents, restricted cash	\$3,121	\$ -	\$-	\$3,121	\$ 3,121
Investment in equity securities	-	-	579	579	579
Total	\$3,121	\$ -	\$579	\$3,700	\$ 3,700
Liabilities:					
Debt obligations	\$-	\$ -	\$7,354	\$7,354	\$ 7,311
Total	\$-	\$ -	\$7,354	\$7,354	\$ 7,311

#### Note 6. Repurchase of Common Stock

In 1999 and 2001, the Board of Directors approved resolutions authorizing the Company to repurchase up to a total of 1,000,000 shares of its own stock on the open market, which the Board reaffirmed in 2008. There were no shares repurchased during the three and six month periods ended June 30, 2017 or 2016, respectively. There are approximately 72,000 shares remaining under this repurchase authorization as of June 30, 2017.

#### Note 7. Income Taxes

The Company generally calculates its effective income tax rate at the end of an interim period using an estimate of the annualized effective income tax rate expected to be applicable for the full fiscal year. However, when a reliable

estimate of the annualized effective income tax rate cannot be made, the Company computes its provision for income taxes using the actual effective income tax rate for the results of operations reported within the year-to-date periods. The Company's effective income tax rate is highly influenced by relative income or losses reported and the amount of the nondeductible stock-based compensation associated with grants of its common stock options and historically from the results of foreign operations. A small change in estimated annual pretax income (loss) can produce a significant variance in the annualized effective income tax rate given the expected amount of these items. As a result, the Company has computed its provision for income taxes for the three and six month periods ended June 30, 2017 and 2016 by applying the actual effective tax rates to income or (loss) reported within the condensed consolidated financial statements through those periods.

Item 2. Management's Discussion and Analysis of Financial Condition and Results of Operations

This quarterly report to the Securities and Exchange Commission may be deemed to contain certain forward-looking statements with respect to the financial condition, results of operations and future plans of the Company, which involve risks and uncertainties including, but not limited to, the risks of the Gamma Knife, proton therapy and radiation therapy businesses, the risks of developing The Operating Room for the 21<sup>st</sup> Century<sup>SM</sup> program, and the risks of investing in Mevion. Further information on potential factors that could affect the financial condition, results of operations and future plans of American Shared Hospital Services is included in the filings of the Company with the Securities and Exchange Commission, including the Company's Annual Report on Form 10-K for the year ended December 31, 2016 and the definitive Proxy Statement for the Annual Meeting of Shareholders held on June 27, 2017.

The Company had sixteen Gamma Knife units, one PBRT system and one IGRT unit in operation at June 30, 2017, and seventeen Gamma Knife units, one PBRT system and one IGRT machine in operation at June 30, 2016. Two of the Company's customer contracts are through subsidiaries where GKF or its subsidiary is the majority owner and managing partner. Nine of the Company's sixteen current Gamma Knife customers are under fee-per-use contracts, and seven customers are under retail arrangements. The Company's contracts to provide radiation therapy and related equipment services to an existing Gamma Knife customer and the Company's PBRT system at Orlando Health, are also considered retail arrangements. Retail arrangements are further classified as either turn-key or revenue sharing. Revenue from fee per use contracts is determined by each hospital's contracted rate. Revenue is recognized at the time procedures are performed, based on each hospital's contracted rate. Under revenue sharing arrangements, the Company receives a contracted percentage of the reimbursement received by the hospital. The amount the Company expects to receive is recorded as revenue and estimated based on historical experience. Revenue estimates are reviewed periodically and adjusted as necessary. Under turn-key arrangements, the Company receives payment from the hospital in the amount of the hospital's reimbursement from third party payors, and the Company is responsible for paying all the operating costs of the equipment. Operating costs are determined primarily based on historical treatment protocols and cost schedules with the hospital. The Company records an estimate of operating costs which are reviewed on a regular basis and adjusted as necessary to more accurately reflect the actual operating costs. For turn-key sites, the Company also shares a percentage of net operating profit. The Company records an estimate of net operating profit based on estimated revenues, less estimated operating costs. The operating costs and estimated net operating profit are recorded as other direct operating costs in the condensed consolidated statement of operations.

Effective January 1, 2017, the Centers for Medicare and Medicaid (“CMS”) established a Comprehensive Ambulatory Payment Classification for single session radiosurgery treatments. CMS has established a 2017 total reimbursement rate of approximately \$9,000 (\$8,800 in 2016) for a Medicare Gamma Knife treatment. The approximate CMS reimbursement rates for delivery of proton therapy for a simple treatment without compensation will be \$494 (\$506 in 2016) and \$994 (\$1,150 in 2016) for simple with compensation, intermediate and complex treatments, respectively.

Medical services revenue increased by \$427,000 and \$1,103,000 to \$4,945,000 and \$9,859,000 for the three and six month periods ended June 30, 2017 from \$4,518,000 and \$8,756,000 for the same periods prior year, respectively. The Company’s PBRT system at Orlando Health treated its first patient in April 2016. For the three and six month periods ended June 30, 2017, revenues from this system were \$862,000 and \$2,017,000 compared to \$446,000 in the same periods prior year, respectively. The number of PBRT fractions increased 747 and 1,967 to 1,189 and 2,409 for the three and six month periods ended June 30 2017 compared to 442 in the same periods prior year, respectively. The increase for the three and six month periods ended June 30, 2017 is due to the PBRT ramping up volume in its first year of operations.

Gamma Knife revenues increased \$6,000 and decreased \$500,000 to \$3,968,000 and \$7,586,000 for the three and six month periods ended June 30, 2017 compared to \$3,962,000 and \$8,087,000 in the same periods prior year, respectively. Excluding the customer site who purchased their Gamma Knife unit in April 2017, revenues increased \$238,000 and decreased \$256,000 for the three and six month periods ended June 30, 2017 compared to the same periods prior year, respectively. For the three month period ended June 30, 2017, the increase in Gamma Knife revenue was due to a favorable payor mix at the Company’s retail sites. For the six month period ended June 30, 2017, the decrease in revenue was due to a decline in volume.

The number of Gamma Knife procedures decreased by 64 and 89 to 418 and 874 for the three and six month periods ended June 30, 2017 from 482 and 963 in the same periods prior year, respectively. Excluding the customer site who purchased their Gamma Knife unit in April 2017, Gamma Knife procedures decreased 9 and 31 for the three and six month periods ended June 30, 2017 compared to the same periods prior year, respectively. For the three month period ended June 30, 2017, the lower volume was due to normal, cyclical fluctuations. For the six month period ended June 30, 2017, the decrease in volume was primarily due to two customer sites experiencing downtime in order to perform a Cobalt-60 reload.

IGRT revenues increased \$5,000 and \$32,000 to \$115,000 and \$255,000 for the three and six month periods ended June 30, 2017 compared to \$110,000 and \$223,000 in the same periods prior year. For the three and six month periods ended June 30, 2017, the increase in revenue was due to increased volumes at the Company’s IGRT site.

Total costs of revenue increased by \$15,000 and \$78,000 to \$2,694,000 and \$5,262,000 for the three and six month periods ended June 30, 2017 from \$2,679,000 and \$5,184,000 for the same periods prior year, respectively.

Maintenance and supplies decreased by \$2,000 and \$14,000 for the three and six month periods ended June 30, 2017, respectively. Depreciation and amortization increased by \$73,000 and \$115,000 for the three and six month periods ended June 30, 2017, respectively, primarily due to depreciation incurred on the PBRT system and increased depreciation expense from two Cobalt-60 reloads which were done in the first quarter of 2017. When a reload is performed the book value of the unit increases which increases depreciation expense. Other direct operating costs decreased by \$56,000 and \$23,000 for the three and six month periods ended June 30, 2017, respectively, due to decreased marketing expense.

Selling and administrative costs increased by \$175,000 and \$365,000 to \$1,138,000 and \$2,277,000 for the three and six month periods ended June 30, 2017 from \$963,000 and \$1,912,000 for the same periods prior year, respectively. For the three month period ended June 30, 2017, the increase was driven by start-up costs for the Company's new site in Peru, legal fees, consulting fees, and travel costs. For the six month period ended June 30, 2017, the increase was driven by start-up costs for the Company's new site in Peru, legal fees, consulting fees, travel costs, severance expense, and building rent. The Company moved offices on August 13, 2016. Prior to the move, the Company subleased a portion of its existing office space. The sublease income offset total rent expense over the term of the sublease, which ended in May 2016.

Interest expense increased by \$11,000 and \$179,000 to \$444,000 and \$897,000 for the three and six month periods ended June 30, 2017 from \$433,000 and \$718,000 for same periods prior year, respectively. Interest expense increased for the three and six month periods ended June 30, 2017, due to the interest incurred on the PBRT lease financing. This increase was offset by a lower average principal base on the Gamma Knife debt and leases, compared to prior year, effectively reducing interest expense.

The Company incurred a loss on early extinguishment of debt of \$0 for the three and six month periods ended June 30, 2017 compared to \$0 and \$108,000 for the same periods prior year, respectively. In February 2016, the Company used a portion of the proceeds from the lease financing for its first MEVION S250 to pay down the \$1,000,000 of Notes that were issued pursuant to the Note agreements between the Company and four members of the Company's Board of Directors. The Notes and warrant agreements permitted for early payment without penalty to the Company. The Notes were issued with common stock warrants with an estimated fair value of \$145,000. The unamortized balance of the discount on the Notes, of \$80,000, and deferred fees incurred from the issuance of the Note of approximately \$28,000, were recorded as a loss on early extinguishment of debt on the Company's condensed consolidated Statement of Operations.

Interest and other loss or income decreased by \$8,000 and \$9,000 to a loss of \$5,000 and \$1,000 for the three and six month periods ended June 30, 2017 from income of \$3,000 and \$8,000 for the same periods prior year, respectively. Interest and other income or loss is generated from interest earned or lost on the Company's investments.

Income tax expense increased \$127,000 and \$279,000 to \$220,000 and \$436,000 for the three and six month periods ended June 30, 2017 compared to income tax expense of \$93,000 and \$157,000 for the same periods prior year, respectively. For the three and six month periods ended June 30, 2017, income tax expense was primarily due to taxable income attributable to GKF and Orlando operations. Income tax expense for the three and six month periods ended June 30, 2017 was also higher, compared to the same periods prior year, because the Company's income tax expense computation could not include the start-up losses associated with the Company's Gamma Knife unit in Peru for financial reporting purposes.

Net income attributable to non-controlling interest increased by \$71,000 and \$39,000 to \$331,000 and \$580,000 for the three and six month periods ended June 30, 2017 from \$260,000 and \$541,000 for the same periods prior year, respectively. Non-controlling interest primarily represents the 19% interest of GKF owned by a third party, as well as non-controlling interests in subsidiaries of GKF owned by third parties that began operations in 2011. Variances in net income attributable to non-controlling interest represent the relative increase or decrease in profitability of GKF and these ventures.

Net income increased \$20,000 and \$262,000 to \$113,000, or \$0.02 per diluted share, and \$406,000, or \$0.07 per diluted share, for the three and six month periods ended June 30, 2017, compared to net income of \$93,000, or \$0.02 per diluted share, and \$144,000, or \$0.03 per diluted share, in the same periods prior year, respectively. Excluding the loss on early extinguishment of debt, net of estimated taxes, net income increased \$198,000 for the six month period ended June 30, 2017. For the three and six month periods ended June 30, 2017, the increase in net income was due to Orlando operations, offset by increased selling and administrative costs.

#### Liquidity and Capital Resources

The Company had cash and cash equivalents of \$2,851,000 at June 30, 2017 compared to \$3,121,000 at December 31, 2016. The Company's cash position decreased by \$270,000 due to payments for the purchase of property and equipment of \$1,469,000, principal payments on long term debt and capital leases of \$3,805,000, and distributions to non-controlling interests of \$291,000. These decreases were offset by net cash from operating activities of \$4,038,000, proceeds from the sale of equipment of \$150,000, proceeds from long term debt financing on property and equipment of \$992,000, and proceeds from warrants and options exercised of \$115,000.

The Company has scheduled interest and principal payments under its debt obligations of approximately \$2,836,000 and scheduled capital lease payments of approximately \$5,982,000 during the next 12 months. The Company believes that its cash flow from cash on hand, operations, and other resources are adequate to meet its scheduled debt and capital lease obligations during the next 12 months. See additional discussion below related to commitments.

As of June 30, 2017, the Company had shareholders' equity of \$28,083,000, working capital of \$398,000 and total assets of \$58,994,000.

#### Commitments

As of June 30, 2017, the Company had commitments to purchase two MEVION S250 PBRT systems for \$25,800,000 and the Company had \$2,000,000 in non-refundable deposits toward the purchase of these two PBRT systems from Mevion. The non-refundable deposits are recorded in the Condensed Consolidated Balance Sheets as deposits and construction in progress.

On July 21, 2017, the Company signed First Amendments to two System Build Agreements (the “Amendments”) for the Company’s second and third Mevion PBRT units. The Company and Mevion have agreed on preliminary construction and delivery timetables for the second and third PBRT units for which the Company has purchase commitments. The Company’s delivery timeframe is triggered by USFDA 510K clearance of Mevion’s recently developed treatment nozzle. The Company is actively seeking sites for these units but, to date, has not entered into agreements with any party for either placement of a PBRT unit or the related financing. The Company projects that it will be required to commence taking delivery of the second and third PBRT units no later than 2019 and 2020, respectively.

As of June 30, 2017, the Company had a commitment to purchase one Gamma Knife Perfexion system. Total Gamma Knife commitments as of June 30, 2017 were \$2,150,000. The Perfexion unit is for a new site where the Company expects to start treating patients in the latter half of 2017. The Company has secured financing for this unit. There are no other significant cash requirements in the next 12 months for this commitment. There can be no assurance that financing will be available for the Company’s current or future projects, or at terms that are acceptable to the Company.

The Company estimates the following commitments for each of the equipment systems with expected timing of payments as follows as of June 30, 2017:

	2017	Thereafter	Total
Proton Beam Units	\$-	\$25,800,000	\$25,800,000
Gamma Knife Units	2,150,000	-	2,150,000
Total Commitments	\$2,150,000	\$25,800,000	\$27,950,000

### Item 3. Quantitative and Qualitative Disclosures about Market Risk

The Company does not hold or issue derivative instruments for trading purposes and is not a party to any instruments with leverage or prepayment features. The Company does not have affiliation with partnerships, trusts or other entities whose purpose is to facilitate off-balance sheet financial transactions or similar arrangements, and therefore has no exposure to the financing, liquidity, market or credit risks associated with such entities. At June 30, 2017, the Company had no significant long-term, market-sensitive investments.

### Item 4. Controls and Procedures

Under the supervision and with the participation of our management, including our chief executive officer and our chief financial officer, we have evaluated the effectiveness of the design and operation of our disclosure controls and procedures as defined in Rule 13a-15(e) of the Securities Exchange Act of 1934. These controls and procedures are designed to ensure that material information relating to the company and its subsidiaries is communicated to the chief executive officer and the chief financial officer. Based on that evaluation, our chief executive officer and our chief financial officer concluded that, as of June 30, 2017, our disclosure controls and procedures are effective to ensure that information required to be disclosed by us in reports that we file or submit under the Securities Exchange Act of 1934 is accumulated and communicated to the chief executive officer and the chief financial officer, and recorded, processed, summarized and reported within the time periods specified in Securities and Exchange Commission rules and forms.

Disclosure controls and procedures include, without limitation, controls and procedures designed to ensure that information required to be disclosed by an issuer in the reports that it files or submits under the Act is accumulated and communicated to the issuer's management, including its principal executive and principal financial officers, or persons performing similar functions, as appropriate to allow timely decisions regarding required disclosure.

There were no changes in our internal control over financial reporting during the three months ended June 30, 2017 that have materially affected, or are reasonably likely to materially affect, our internal control over financial reporting.

PART II - OTHER INFORMATION

None. Item 1. Legal Proceedings.

Item 1A. Risk Factors.  
There are no changes from those listed in the Company's Annual Report on Form 10-K for the year ended December 31, 2016.

None. Item 2. Unregistered Sales of Equity Securities and Use of Proceeds.

None. Item 3. Defaults Upon Senior Securities.

Not applicable. Item 4. Mine Safety Disclosures

None. Item 5. Other Information.

Item 6.
