Notes:

1. Effective from the fiscal 2003 year-end presentation, the Company classified gains and losses on sale and disposal of fixed assets, which were previously included in "Others, net" in "Other income (expenses)," into "Selling, general and administrative expenses." Previously reported amounts have been reclassified accordingly.
2. As a result of the sale of subsidiaries in audio/video software business in the second quarter of the fiscal 2004, the gain on such sale, as well as the business results of discontinued operations, are presented as a separate line item in the consolidated statements of income in accordance with Statement of Financial Accounting Standards No. 144, "Accounting for the Impairment or Disposal of Long-Lived Assets." Previously reported amounts have been reclassified accordingly.

CONSOLIDATED BUSINESS RESULTS

The third quarter of fiscal 2004, ended December 31, 2003, saw operating revenue at 198,865 million yen (US\$1,858.6 million), up 7.6% from the corresponding period in the previous year. Operating income was 16,784 million yen (US\$156.9 million), a 41.2% increase, and net income was 9,140 million yen (US\$85.4 million), a 14.8% increase. The average value of the yen was up 12.5% against the U.S. dollar and down 5.3% against the euro from the corresponding period in the previous year.

HOME ELECTRONICS sales decreased 6.4% to 71,824 million yen (US\$671.3 million) from the corresponding period last year. In Japan, sales rose 2.0% to 24,916 million yen (US\$232.9 million), due mainly to an increase in sales of DVD recorders, despite the decrease in sales of DVD players and home-use plasma displays. Overseas, sales decreased 10.3% to 46,908 million yen (US\$438.4 million), mainly due to a decrease in sales of DVD players worldwide; digital cable-TV set-top boxes and audio products in North America; and digital broadcast set-top boxes in Europe, despite the increase in sales worldwide of plasma displays for home use, as well as the increase in North America and Europe of DVD recorder sales.

CAR ELECTRONICS sales increased 15.7% to 75,172 million yen (US\$702.5 million) from the corresponding period last year. In Japan, sales rose 28.6% to 34,514 million yen (US\$322.6 million) due to an increase in sales of car navigation systems both to automobile manufacturers and consumer markets. Overseas, sales increased 6.6% to 40,658 million yen (US\$380.0 million) primarily due to an increase in sales of car audio products in regions including Central America, South America and Oceania, as well as car audio/video products to consumer markets in North America, despite the decrease in sales of car audio products in Europe.

Royalty revenue from PATENT LICENSING decreased 56.3% to 1,759 million yen (US\$16.4 million) from the corresponding period last year, due to the expiration of the Company's optical disc-related patents in certain regions.

OTHERS sales increased by 28.1% to 50,110 million yen (US\$468.3 million) from

Edgar Filing: PIONEER CORP - Form 6-K

the corresponding period last year. In Japan, sales remained almost the same at 20,886 million yen (US\$195.2 million) as in the corresponding period last year. This resulted from increased sales of cellular phone-related devices such as organic electroluminescent (OEL) display panels, despite decreased sales of commercial karaoke products, as a result of the sale of the Company's karaoke business subsidiaries. Overseas sales increased 60.2% to 29,224 million yen (US\$273.1 million), due to an increase in sales worldwide of recordable DVD drives for personal computer use, as well as increased sales of optical disc-manufacturing systems in Asia.

Operating income increased 41.2% from the corresponding period of the previous year to 16,784 million yen (US\$156.9 million), mainly reflecting increased sales and improved gross profit margin, despite a decrease in royalty revenue. Foreign exchange fluctuation, mainly the yen's depreciation against the euro, as well as cost reductions, are attributable to the improvement of gross profit margin. Net income also increased 14.8% to 9,140 million yen

(US\$85.4 million) from the corresponding period in the previous year, reflecting an increase in operating income.

Basic net income per share of common stock was 52.10 yen (US\$0.49), compared with 44.81 yen for the corresponding period in the previous year. Diluted net income per share of common stock was 52.08 yen (US\$0.49), compared with 44.81 yen for the corresponding period in the previous year.

Nine-month results - Operating revenue for the nine-month period ended December 31, 2003, was 519,955 million yen (US\$4,859.4 million), a 3.1% increase, and net income for the period was 21,615 million yen (US\$202.0 million), a 58.6% increase, each compared with the corresponding period in the previous year.

Basic net income per share of common stock was 123.21 yen (US\$1.15), compared with 76.12 yen for the corresponding period in the previous year. Diluted net income per share of common stock was 123.18 yen (US\$1.15), compared with 76.12 yen for the corresponding period in the previous year.

CASH FLOWS

Net cash provided by operating activities was 9,299 million yen (US\$86.9 million), a decrease of 3,221 million yen compared with the corresponding period in the previous year. This decrease is mainly caused by an increase in operating capital requirements, which resulted from an increase in inventories and accounts receivable. Net cash used in investing activities was 14,867 million yen (US\$138.9 million), an increase of 6,479 million yen compared with the corresponding period in the previous year, mainly due to an increase in capital expenditures.
