EXHIBIT 1

SGL Carbon Successfully Concludes Refinancing

WIESBADEN, Germany--(BUSINESS WIRE)--Dec. 20, 2002--SGL Carbon AG has

Edgar Filing: SGL CARBON AKTIENGESELLSCHAFT - Form 6-K

concluded a comprehensive financing package of firm loan commitments amounting to 510 million euros.

The syndicated loan has a term of two and a half years, and is lead managed by Deutsche Bank and Dresdner Bank. The loans are secured at standard market conditions. The financing package will be used, among other things, to replace short-term credit facilities. Together with the existing 134 million euros convertible bond, it covers all of SGL Carbon's financial liabilities, including the anti-trust fines. SGL Carbon expects the average interest rate for Group financing, including the convertible bond, to be approximately six percent. This entirely covers the Company's medium-term finance requirements.

After the substantial investments made in recent years to establish new businesses, especially in SGL Technologies, SGL Carbon announced its top priority in its Five Point Program this year, to increase cash flow and to reduce debt. In the first nine months of 2002, the Company reduced its net financial debt by 73 million euros to 454 million euros, already clearly exceeding its goal of cutting debt by a minimum of 5 percent in 2002.

"We shall continue to focus on cutting debt in the coming years. The refinancing package has created a stable basis for our long-term, international strategy," said Robert Koehler, Chief Executive Officer of SGL Carbon AG.
