Cautionary Note on Forward-Looking Statements

This Quarterly Report on Form 10-Q contains "forward-looking statements" within the meaning of the Private Securities Litigation Reform Act of 1995, the provisions of Section 27A of the Securities Act of 1933, as amended (the "Securities Act"), and Section 21E of the Securities Exchange Act of 1934, as amended (the "Exchange Act"). Forward-looking statements include financial projections, statements of plans and objectives for future operations, statements of future economic performance, and statements of assumptions relating thereto. Forward-looking statements may appear throughout this report, including without limitation, Part I, Item 2, "Management's Discussion and Analysis of Financial Condition and Results of Operations," and are often identified by future or conditional words such as "will", "plans", "expects", "intends", "believes", "seeks", "estimates", or "anticipates", or by variations of such words or by similar expressions. There can be no assurances that forward-looking statements will be achieved. By their very nature, forward-looking statements involve known and unknown risks, uncertainties, assumptions, and other important factors that could cause our actual results or conditions to differ materially from those expressed or implied by such forward-looking statements. Important risks, uncertainties, assumptions, and other factors that could cause our actual results or conditions to differ materially from those expressed or implied by such forward-looking statements. Important risks, uncertainties, assumptions, and other factors that could cause our actual results or conditions to differ materially from those expressed or implied by such forward-looking statements. Important risks, uncertainties, assumptions, and other factors that could cause our actual results or conditions to differ materially from those expressed or implied by such forward-looking statements.

uncertainties regarding the impact of general economic conditions in the United States and abroad, particularly in information technology spending and government budgets, on our business;

risks associated with our ability to keep pace with technological changes, evolving industry standards, and customer challenges, such as the proliferation and strengthening of encryption and the transition of portions of the software market to the cloud, to adapt to changing market potential from area to area within our markets, and to successfully develop, launch, and drive demand for new, innovative, high-quality products that meet or exceed customer needs, while simultaneously preserving our legacy businesses;

risks due to aggressive competition in all of our markets, including with respect to maintaining margins and sufficient levels of investment in our business;

risks created by the continued consolidation of our competitors or the introduction of large competitors in our markets with greater resources than we have;

risks associated with our ability to successfully compete for, consummate, and implement mergers and

• acquisitions, including risks associated with valuations, capital constraints, costs and expenses, maintaining profitability levels, expansion into new areas, management distraction, post-acquisition integration activities, and potential asset impairments;

risks relating to our ability to effectively and efficiently enhance our existing operations and execute on our growth strategy and profitability goals, including managing investments in our business and operations, managing our cloud transition and our revenue mix, and enhancing and securing our internal and external operations;

risks associated with our ability to effectively and efficiently allocate limited financial and human resources to business, developmental, strategic, or other opportunities, and risk that such investments may not come to fruition or produce satisfactory returns;

risks that we may be unable to establish and maintain relationships with key resellers, partners, and systems integrators;

risks associated with our reliance on third-party suppliers, partners, or original equipment manufacturers ("OEMs") for certain components, products, or services, including companies that may compete with us or work with our competitors;

risks associated with the mishandling or perceived mishandling of sensitive or confidential information and with security vulnerabilities or lapses, including information technology system breaches, failures, or disruptions; risks that our products or services, or those of third-party suppliers, partners, or OEMs which we incorporate into our offerings or otherwise rely on, may contain defects or may be vulnerable to cyber-attacks;

risks associated with our significant international operations, including, among others, in Israel, Europe, and Asia, exposure to regions subject to political or economic instability, and fluctuations in foreign exchange rates;

risks associated with a significant amount of our business coming from domestic and foreign government customers, including the ability to maintain security clearances for applicable projects;

ii

risks associated with complex and changing local and foreign regulatory environments in the jurisdictions in which we operate;

risks associated with our ability to retain and recruit qualified personnel in regions in which we operate, including in new markets and growth areas we may enter;

challenges associated with selling sophisticated solutions, including with respect to educating our customers on the benefits of our solutions or assisting them in realizing such benefits;

challenges associated with pursuing larger sales opportunities, including with respect to longer sales cycles, transaction reductions, deferrals, or cancellations during the sales cycle, risk of customer concentration, our ability to accurately forecast when a sales opportunity will convert to an order, or to forecast revenue and expenses, and increased volatility of our operating results from period to period;

risks that our intellectual property rights may not be adequate to protect our business or assets or that others may make claims on our intellectual property or claim infringement on their intellectual property rights;

risks that our customers or partners delay or cancel orders or are unable to honor contractual commitments due to liquidity issues, challenges in their business, or otherwise;

risks that we may experience liquidity or working capital issues and related risks that financing sources may be unavailable to us on reasonable terms or at all;

risks associated with significant leverage resulting from our current debt position or our ability to incur additional debt, including with respect to liquidity considerations, covenant limitations and compliance, fluctuations in interest rates, dilution considerations (with respect to our convertible notes), and our ability to maintain our credit ratings; risks arising as a result of contingent or other obligations or liabilities assumed in our acquisition of our former parent company, Comverse Technology, Inc. ("CTI"), or associated with formerly being consolidated with, and part of a consolidated tax group with, CTI, or as a result of CTI's former subsidiary, Xura, Inc. (formerly, Comverse, Inc.) ("Xura"), being unwilling or unable to provide us with certain indemnities or transition services to which we are entitled;

risks relating to the adequacy of our existing infrastructure, systems, processes, policies, procedures, and personnel and our ability to successfully implement and maintain adequate systems and internal controls for our current and future operations and reporting needs, including related risks of financial statement omissions, misstatements, restatements, or filing delays; and

risks associated with changing tax rates, tax laws and regulations, and the continuing availability of expected tax benefits.

These risks, uncertainties, assumptions, and challenges, as well as other factors, are discussed in greater detail in "Risk Factors" under Item 1A of our Annual Report on Form 10-K for the year ended January 31, 2016. You are cautioned not to place undue reliance on forward-looking statements, which reflect our management's view only as of the date of this report. We make no commitment to revise or update any forward-looking statements in order to reflect events or circumstances after the date any such statement is made, except as otherwise required under the federal securities laws. If we were in any particular instance to update or correct a forward-looking statement, investors and others should not conclude that we would make additional updates or corrections thereafter except as otherwise required under the federal securities laws.

VERINT SYSTEMS INC. AND SUBSIDIARIES Notes to Condensed Consolidated Financial Statements

1. BASIS OF PRESENTATION AND SIGNIFICANT ACCOUNTING POLICIES

Description of Business

Unless the context otherwise requires, the terms "Verint", "we", "us", and "our" in these notes to condensed consolidated financial statements refer to Verint Systems Inc. and its consolidated subsidiaries.

Verint is a global leader in Actionable Intelligence solutions. Actionable Intelligence is a necessity in a dynamic world of massive information growth because it empowers organizations with crucial insights and enables decision makers to anticipate, respond, and take action. With Verint solutions and value-added services, organizations of all sizes and across many industries can make more timely and effective decisions. Today, more than 10,000 organizations in approximately 180 countries, including over 80 percent of the Fortune 100, use Verint solutions to improve enterprise performance and make the world a safer place. Verint's vision is to create A Smarter World with Actionable Intelligence[®].

Our Actionable Intelligence solutions help organizations address three important challenges: Customer Engagement Optimization; Security Intelligence; and Fraud, Risk, and Compliance. We help our customers capture large amounts of information from numerous data types and sources, use analytics to glean insights from the information, and leverage the resulting Actionable Intelligence to help achieve their customer engagement, enhanced security, and risk mitigation goals.

Headquartered in Melville, New York, we support our customers around the globe directly and with an extensive network of selling and support partners.

Preparation of Condensed Consolidated Financial Statements

The condensed consolidated financial statements included herein have been prepared in accordance with accounting principles generally accepted in the United States of America ("GAAP") and on the same basis as the audited consolidated financial statements included in our Annual Report on Form 10-K filed with the U.S. Securities and Exchange Commission ("SEC") for the year ended January 31, 2016. The condensed consolidated statements of operations, comprehensive (loss) income, stockholders' equity, and cash flows for the periods ended October 31, 2016 and 2015, and the condensed consolidated balance sheet as of October 31, 2016, are not audited but reflect all adjustments that are of a normal recurring nature and that are considered necessary for a fair presentation of the results for the periods shown. The condensed consolidated balance sheet as of January 31, 2016 is derived from the audited consolidated financial statements presented in our Annual Report on Form 10-K for the year ended January 31, 2016. Certain information and disclosures normally included in annual consolidated financial statements have been omitted pursuant to the rules and regulations of the SEC. Because the condensed consolidated interim financial statements do not include all of the information and disclosures required by GAAP for a complete set of financial statements, they should be read in conjunction with the audited consolidated financial statements and notes included in our Annual Report on Form 10-K filed with the SEC for the year ended January 31, 2016. The results for interim periods are not necessarily indicative of a full year's results.

Recasting of Prior Period Segment Information

Through July 31, 2016, we were organized and had reported our operating results in three operating segments. In August 2016, we reorganized into two businesses and now report our results in two operating segments, as further discussed in Note 14, "Segment Information". Comparative segment financial information for prior periods appearing in Note 5, "Intangible Assets and Goodwill" and Note 14, "Segment Information", has been recast to conform to this revised segment structure.

Reclassification Within Condensed Consolidated Statements of Cash Flows

Certain amounts within the presentation of net cash provided by operating activities in our condensed consolidated statement of cash flows for the nine months ended October 31, 2015 have been reclassified to conform to the current period's presentation. These reclassifications had no effect on net cash provided by operating activities.

Principles of Consolidation

Table of Contents

The accompanying condensed consolidated financial statements include the accounts of Verint Systems Inc., our wholly owned or otherwise controlled subsidiaries, and a joint venture in which we hold a 50% equity interest. The joint venture is a variable interest entity in which we are the primary beneficiary. The noncontrolling interest in this joint venture is reflected within stockholders' equity on our condensed consolidated balance sheet, but separately from our equity. We have two majority owned subsidiaries for which we hold an option to acquire the noncontrolling interest. We account for the option as an in-substance investment in the noncontrolling common stock of each such subsidiary. We include the fair value of the option within other liabilities and do not recognize noncontrolling interests in these subsidiaries.

We include the results of operations of acquired companies from the date of acquisition. All significant intercompany transactions and balances are eliminated.

Investments in companies in which we have less than a 20% ownership interest and can not exercise significant influence are accounted for at cost.

Use of Estimates

The preparation of financial statements in conformity with GAAP requires our management to make estimates and assumptions, which may affect the reported amounts of assets and liabilities and the disclosure of contingent assets and liabilities at the date of the condensed consolidated financial statements and the reported amounts of revenue and expenses during the reporting period. Actual results could differ from those estimates.

Accounts Receivable, Net

Accounts receivable, net, includes unbilled accounts receivable on arrangements recognized under contract accounting methods, representing revenue recognized on contracts for which billing will occur in subsequent periods, in accordance with the terms of the contracts. Unbilled accounts receivable on such contracts were \$64.5 million and \$46.6 million at October 31, 2016 and January 31, 2016, respectively. Under most contracts, unbilled accounts receivable are typically billed and collected within one year of revenue recognition. However, as of October 31, 2016, we have unbilled accounts receivable on certain complex projects with a long-standing customer for which the underlying billing milestones are still in progress and have remained unbilled for periods in excess of one year, and in some cases, for several years. We have no history of uncollectible accounts with this customer and believe that collection of such amounts is still reasonably assured. We expect billing and collection of these unbilled accounts receivable to occur within the next twelve months.

Significant Accounting Policies

Our significant accounting policies are described in Note 1 to the consolidated financial statements included in our Annual Report on Form 10-K for the year ended January 31, 2016. There were no material changes to our significant accounting policies during the nine months ended October 31, 2016.

Recent Accounting Pronouncements

New Accounting Pronouncements Not Yet Effective

In November 2016, the Financial Accounting Standards Board ("FASB") issued Accounting Standards Update ("ASU") No. 2016-18, Statement of Cash Flows (Topic 230): Restricted Cash. This update requires that a statement of cash flows explain the change during the period in the total of cash, cash equivalents, and amounts generally described as restricted cash or restricted cash equivalents. Therefore, amounts generally described as restricted cash and

restricted cash equivalents should be included with cash and cash equivalents when reconciling the beginning-of-period and end-of-period total amounts shown on the statement of cash flows. This update also requires an entity to disclose the nature of restrictions on its cash, cash equivalents, and amounts generally described as restricted cash or restricted cash equivalents. ASU No. 2016-18 is effective for fiscal years beginning after December 15, 2017, including interim periods within those fiscal years with early adoption permitted, including adoption in an interim period. We typically have restrictions on certain amounts of cash and cash equivalents, primarily consisting of amounts used to secure bank guarantees in connection with sales contract performance obligations, and expect to continue to have similar restrictions in the future. We currently report changes in such restricted amounts as cash flows from investing activities on our condensed consolidated statement of cash flows. This standard will change that presentation. We are currently reviewing this standard to assess other potential impacts on our future condensed consolidated financial statements.

Table of Contents

In August 2016, the FASB issued ASU No. 2016-15, Statement of Cash Flows (Topic 230): Classification of Certain Cash Receipts and Cash Payments, which provides guidance with the intent of reducing diversity in practice in how certain cash receipts and cash payments are presented and classified in the statement of cash flows. ASU No. 2016-15 is effective for fiscal years beginning after December 15, 2017, including interim periods within those fiscal years with early adoption permitted, including adoption in an interim period. We are currently reviewing this standard to assess the impact on our future condensed consolidated financial statements.

In June 2016, the FASB issued ASU No. 2016-13, Financial Instruments—Credit Losses (Topic 326). This new standard changes the impairment model for most financial assets and certain other instruments. Entities will be required to use a model that will result in the earlier recognition of allowances for losses for trade and other receivables, held-to-maturity debt securities, loans, and other instruments. For available-for-sale debt securities with unrealized losses, the losses will be recognized as allowances rather than as reductions in the amortized cost of the securities. The new standard is effective for annual periods, and for interim periods within those annual periods, beginning after December 15, 2019, with early adoption permitted. We are currently reviewing this standard to assess the impact on our future condensed consolidated financial statements.

In March 2016, the FASB issued ASU No. 2016-09, Compensation—Stock Compensation (Topic 718), which amends the accounting for stock-based compensation and requires excess tax benefits and deficiencies to be recognized as a component of income tax expense rather than stockholders' equity. This guidance also requires excess tax benefits to be presented as an operating activity on the statement of cash flows and allows an entity to make an accounting policy election to either estimate expected forfeitures or to account for them as they occur. ASU No. 2016-09 is effective for reporting periods beginning after December 15, 2016, with early adoption permitted. We are currently reviewing this standard to assess the impact on our future condensed consolidated financial statements.

In February 2016, the FASB issued ASU No. 2016-02, Leases (Topic 842), which will require lessees to recognize assets and liabilities for leases with lease terms of more than 12 months. Consistent with current GAAP, the recognition, measurement, and presentation of expenses and cash flows arising from a lease by a lessee primarily will depend on its classification as a finance or operating lease. However, unlike current GAAP, which requires only capital leases to be recognized on the balance sheet, the new guidance will require both types of leases to be recognized on the balance is effective for all periods beginning after December 15, 2018 and we are currently evaluating the effects that the adoption of ASU No. 2016-02 will have on our condensed consolidated financial statements, but anticipate that the new guidance will significantly impact our condensed consolidated financial statements given our significant number of leases.

In May 2014, the FASB issued ASU No. 2014-09, Revenue from Contracts with Customers (Topic 606). ASU No. 2014-09 supersedes the revenue recognition requirements in Topic 605, Revenue Recognition, and most industry-specific revenue recognition guidance throughout the Industry Topics of the Accounting Standards Codification. Additionally, this update supersedes some cost guidance included in Subtopic 605-35, Revenue Recognition—Construction-Type and Production-Type Contracts. The core principle of the guidance is that an entity should recognize revenue to depict the transfer of promised goods or services to customers in an amount that reflects the consideration to which the entity expects to be entitled in exchange for those goods or services. As originally issued, this guidance was effective for interim and annual reporting periods beginning after December 15, 2016, and early adoption was not permitted. In July 2015, the FASB deferred the effective date by one year, to interim and annual reporting periods beginning after December 15, 2016. Entities may choose from two adoption methods, with certain practical expedients. We are currently reviewing this standard to assess the impact on our future condensed consolidated financial statements and evaluating the available adoption methods.

2.NET (LOSS) INCOME PER COMMON SHARE ATTRIBUTABLE TO VERINT SYSTEMS INC.

The following table summarizes the calculation of basic and diluted net (loss) income per common share attributable to Verint Systems Inc. for the three and nine months ended October 31, 2016 and 2015:

			Nine Mon	ths
	Ended		Ended	
	October :	31,	October 3	1,
(in thousands, except per share amounts)	2016	2015	2016	2015
Net (loss) income	\$(7,434)	\$8,470	\$(34,705)	\$3,441
Net income attributable to noncontrolling interest	803	836	2,693	3,308
Net (loss) income attributable to Verint Systems Inc.	\$(8,237)	\$7,634	\$(37,398)	\$133
Weighted-average shares outstanding:				
Basic	62,895	62,206	62,602	61,666
Dilutive effect of employee equity award plans		572		1,137
Dilutive effect of 1.50% convertible senior notes		—		
Dilutive effect of warrants				
Diluted	62,895	62,778	62,602	62,803
Net (loss) income per common share attributable to Verint Systems Inc.:				
Basic	\$(0.13)	\$0.12	\$(0.60)	\$0.00
Diluted	\$(0.13)	\$0.12	\$(0.60)	\$0.00

We excluded the following weighted-average potential common shares from the calculations of diluted net (loss) income per common share during the applicable periods because their inclusion would have been anti-dilutive:

	Three	Nine
	Months	Months
	Ended	Ended
	October 31,	October 31,
(in thousands)	2016 2015	2016 2015
Common shares excluded from calculation:		
Stock options and restricted stock-based awards	1,239 1,466	1,060 650
1.50% convertible senior notes	6,205 6,205	6,205 6,205
Warrants	6,205 6,205	6,205 6,205

In periods for which we report a net loss attributable to Verint Systems Inc., basic net loss per common share and diluted net loss per common share are identical since the effect of all potential common shares is anti-dilutive and therefore excluded.

Our 1.50% convertible senior notes ("Notes") will not impact the calculation of diluted net income per share unless the average price of our common stock, as calculated in accordance with the terms of the indenture governing the Notes, exceeds the conversion price of \$64.46 per share. Likewise, diluted net income per share will not include any effect from the Warrants (as defined in Note 6, "Long-Term Debt") unless the average price of our common stock, as calculated under the terms of the Warrants, exceeds the exercise price of \$75.00 per share.

Our Note Hedges (as defined in Note 6, "Long-Term Debt") do not impact the calculation of diluted net income per share under the treasury stock method, because their effect would be anti-dilutive. However, in the event of an actual conversion of any or all of the Notes, the common shares that would be delivered to us under the Note Hedges would neutralize the dilutive effect of the common shares that we would issue under the Notes. As a result, actual conversion of any or all of the Notes would not increase our outstanding common stock. Up to 6,205,000 common shares could be issued upon exercise of the Warrants. Further details regarding the Notes, Note Hedges, and the Warrants appear in Note 6, "Long-Term Debt".

3. CASH, CASH EQUIVALENTS, AND SHORT-TERM INVESTMENTS

The following tables summarize our cash, cash equivalents, and short-term investments as of October 31, 2016 and January 31, 2016:

	October 31, 2016				
(in thousands)	Cost Basis	Gross Unrealized Gains	Gross Unrealize Losses		Estimated Fair Value
Cash and cash equivalents:					
Cash and bank time deposits	\$295,661	\$ -	\$		\$295,661
Money market funds	168				168
Total cash and cash equivalents	\$295,829	\$ -	-\$		\$295,829
Short-term investments:					
Commercial paper and corporate debt securities (available-for-sale)	\$2,997	\$ -	\$		\$2,997
Bank time deposits	7,321				7,321
Total short-term investments	\$10,318	\$ -	\$		-\$10,318
	January 3	1, 2016			
(in thousands)	Cost Basis	Gross Unrealized Gains	Gross Unrealize Losses		Estimated Fair Value
Cash and cash equivalents:					
Cash and bank time deposits	\$334,938	\$\$ -	_\$		\$334,938
Money market funds	12,137				12,137
Commercial paper and corporate debt securities	5,054		(24)	5,030
Total cash and cash equivalents	\$352,129	\$ -	-\$ (24)	\$352,105
Short-term investments: Commercial paper and corporate debt securities (available-for-sale)	\$53,018	\$ -	\$ (86)	\$52,932
Bank time deposits	3,050	Ψ	φ (00 —	,	3,050
Total short-term investments	\$56,068	\$ -	-\$ (86		\$55,982
	,		`	·	-

Bank time deposits which are reported within short-term investments consist of deposits held outside of the U.S. with maturities of greater than 90 days, or without specified maturity dates which we intend to hold for periods in excess of 90 days. All other bank deposits are included within cash and cash equivalents.

As of October 31, 2016 and January 31, 2016, all of our available-for-sale investments had contractual maturities of less than one year. Gains and losses on sales of available-for-sale securities during the nine months ended October 31, 2016 and 2015 were not significant.

During the nine months ended October 31, 2016 and 2015, proceeds from maturities and sales of available-for-sale securities were \$79.9 million and \$31.0 million, respectively.

None of our available-for-sale securities had unrealized gains or losses at October 31, 2016.

4. BUSINESS COMBINATIONS

On November 16, 2016, we completed the acquisition of OpinionLab, Inc., a leading software-as-a-service ("SaaS") provider of omnichannel Voice of Customer ("VoC") feedback solutions which help organizations collect, understand, and leverage customer insights, helping drive smarter, real-time business action.

Please refer to Note 15, "Subsequent Event", for information regarding this business combination.

Nine Months Ended October 31, 2016

Contact Solutions, LLC

On February 19, 2016, we completed the acquisition of Contact Solutions, LLC ("Contact Solutions"), a provider of real-time, contextual self-service solutions, based in Reston, Virginia. The purchase price consisted of \$66.9 million of cash paid at closing, and a \$2.5 million post-closing purchase price adjustment based upon a determination of Contact Solutions' acquisition-date working capital, which was paid during the three months ended July 31, 2016. The cash paid at closing was funded with cash on hand.

In connection with the purchase price allocation for Contact Solutions, the estimated fair value of undelivered performance obligations under customer contracts assumed in the acquisition was determined utilizing a cost build-up approach. The cost build-up approach calculates fair value by estimating the costs required to fulfill the obligations plus a reasonable profit margin, which approximates the amount that we believe would be required to pay a third party to assume the performance obligations. The estimated costs to fulfill the performance obligations were based on the historical direct costs for delivering similar services. As a result, in allocating the purchase price, we recorded \$0.6 million of current and long-term deferred revenue, representing the estimated fair value of undelivered performance obligations are delivered. For undelivered performance obligations for which payment had been received, which will be recognized as revenue as the underlying performance obligations are delivered. For undelivered performance obligations for which payment had not yet been received, we recorded a \$2.9 million of which is included within prepaid expenses and other current assets, and \$1.7 million of which is included in other assets. We are amortizing this asset over the underlying delivery periods, which adjusts the revenue we recognize for providing these services to its estimated fair value.

The purchase price for Contact Solutions was allocated to the tangible and intangible assets acquired and liabilities assumed based on their estimated fair values on the acquisition dates, with the remaining unallocated purchase price recorded as goodwill. The fair value assigned to identifiable intangible assets acquired were determined primarily by using the income approach, which discounts expected future cash flows to present value using estimates and assumptions determined by management.

The purchase price allocation for Contact Solutions has been prepared on a preliminary basis and changes to the allocation may occur as additional information becomes available during the measurement period (up to one year from the acquisition date). Fair values still under review include values assigned to identifiable intangible assets and certain pre-acquisition loss contingencies.

Among the factors contributing to the recognition of goodwill as a component of the Contact Solutions purchase price allocation were synergies in products and technologies, and the addition of a skilled, assembled workforce. This goodwill has been assigned to our Customer Engagement segment and is deductible for income tax purposes.

Transaction and related costs directly related to the acquisition of Contact Solutions, consisting primarily of professional fees and integration expenses, were \$0.4 million and \$1.0 million for the three and nine months ended October 31, 2016, and were expensed as incurred and are included in selling, general and administrative expenses.

Revenue and (loss) income before provision for income taxes attributable to Contact Solutions included in our condensed consolidated statement of operations for the three and nine months ended October 31, 2016 were not significant.

The following table sets forth the components and the allocation of the purchase price for our acquisition of Contact Solutions.

(in thousands) Components of Purchase Price:	Amount				
Cash paid at closing	\$66,915				
Other purchase price adjustments	2,518				
Total purchase price	\$69,433				
Allocation of Purchase Price:					
Net tangible assets (liabilities):					
Accounts receivable	\$8,102				
Other current assets, including cash acquired	2,392				
Property and equipment, net	7,007				
Other assets	1,904				
Current and other liabilities	(4,943)				
Deferred revenue - current and long-term	(642)				
Net tangible assets	13,820				
Identifiable intangible assets:					
Customer relationships	18,000				
Developed technology	13,100				
Trademarks and trade names	2,400				
Total identifiable intangible assets	33,500				
Goodwill	22,113				
Total purchase price allocation	\$69,433				

The acquired customer relationships, developed technology, and trademarks and trade names were assigned estimated useful lives of ten years, four years, and five years, respectively, the weighted average of which is approximately 7.4 years.

The acquired identifiable intangible assets are being amortized on a straight-line basis, which we believe approximates the pattern in which the assets are utilized, over their estimated useful lives.

The pro forma impact of the acquisition of Contact Solutions was not material to our historical consolidated operating results and is therefore not presented.

Other Business Combination

During the nine months ended October 31, 2016, we completed a transaction that qualified as a business combination in our Customer Engagement segment. This business combination was not material to our condensed consolidated financial statements.

Year Ended January 31, 2016

During the year ended January 31, 2016, we completed three business combinations:

On February 12, 2015, we completed the acquisition of a business that has been integrated into our Customer Engagement operating segment.

On May 1, 2015, we completed the acquisition of a business that has been integrated into our Cyber Intelligence operating segment.

On August 11, 2015, we acquired certain technology and other assets for use in our Customer Engagement operating segment in a transaction that qualified as a business combination.

These business combinations were not individually material to our condensed consolidated financial statements.

The combined consideration for these business combinations was approximately \$49.5 million, including \$33.2 million of combined cash paid at the closings. For one of these business combinations, we also agreed to make potential additional cash payments to the respective former shareholders aggregating up to approximately \$30.5 million, contingent upon the achievement of certain performance targets over periods extending through April 2020. The fair value of these contingent consideration obligations was estimated to be \$16.2 million at the applicable acquisition date.

Included among the factors contributing to the recognition of goodwill in these transactions were synergies in products and technologies, and the addition of skilled, assembled workforces. Of the \$28.7 million of goodwill associated with these business combinations, \$7.7 million and \$21.0 million was assigned to our Customer Engagement and Cyber Intelligence segments, respectively. For income tax purposes, \$5.1 million of this goodwill is deductible and \$23.6 million is not deductible.

Transaction and related costs, consisting primarily of professional fees and integration expenses, directly related to these acquisitions were insignificant for the three and nine months ended October 31, 2016, and \$0.3 million and \$1.0 million for the three and nine months ended October 31, 2015, respectively. All transaction and related costs were expensed as incurred and are included in selling, general and administrative expenses.

The purchase price allocations for business combinations completed during the year ended January 31, 2016 are final.

The following table sets forth the components and the allocations of the combined purchase prices for the business combinations completed during the year ended January 31, 2016:

combinations completed during the year ended	January 51, 2
(in thousands)	Amount
Components of Purchase Prices:	
Cash	\$33,222
Fair value of contingent consideration	16,237
Total purchase prices	\$49,459
Allocation of Purchase Prices:	
Net tangible assets (liabilities):	
Accounts receivable	\$992
Other current assets, including cash acquired	4,274
Other assets	395
Current and other liabilities	(3,037)
Deferred revenue - current and long-term	(1,872)
Deferred income taxes - current and long-term	(2,922)
Net tangible liabilities	(2,170)
Identifiable intangible assets:	
Customer relationships	1,212
Developed technology	20,300
Trademarks and trade names	300
In-process research and development	1,100
Total identifiable intangible assets	22,912
Goodwill	28,717
Total purchase price allocations	\$49,459

For these acquisitions, customer relationships, developed technology, and trademarks and trade names were assigned estimated useful lives of from five years to ten years, from four years to five years, and three years, respectively, the weighted average of which is approximately 4.4 years.

The pro forma impact of these acquisitions was not material to our historical consolidated operating results and is therefore not presented.

Other Business Combination Information

The acquisition date fair values of contingent consideration obligations associated with business combinations are estimated based on probability adjusted present values of the consideration expected to be transferred using significant inputs that are not observable in the market. Key assumptions used in these estimates include probability assessments with respect to the likelihood of achieving the performance targets and discount rates consistent with the level of risk of achievement. At each reporting date, we revalue the contingent consideration obligations to their fair values and record increases and decreases in fair value within selling, general and administrative expenses in our condensed consolidated statements of operations. Changes in the fair value of the contingent consideration obligations result from changes in discount periods and rates, and changes in probability assumptions with respect to the likelihood of achieving the performance targets.

In connection with an immaterial business combination that closed during the nine months ended October 31, 2016, we recorded a contingent consideration obligation with a fair value of \$7.7 million.

For the three and nine months ended October 31, 2016, we recorded \$2.2 million and \$4.8 million respectively, within selling, general and administrative expenses for changes in the fair values of contingent consideration obligations associated with business combinations. For the three and nine months ended October 31, 2015, we recorded net benefits of \$1.0 million and \$0.1 million, respectively, within selling, general and administrative expenses for changes in the fair values of contingent consideration obligations associated with business combinations. The aggregate fair value of the remaining contingent consideration obligations associated with business combinations was \$31.6 million at October 31, 2016, of which \$10.1 million was recorded within accrued expenses and other current liabilities, and \$21.5 million was recorded within other liabilities.

Payments of contingent consideration earned under these agreements were \$3.3 million for the nine months ended October 31, 2016, and \$1.9 million and \$4.9 million for the three and nine months ended October 31, 2015, respectively. There were no payments of contingent consideration earned during the three months ended October 31, 2016.

5. INTANGIBLE ASSETS AND GOODWILL

Acquisition-related intangible assets consisted of the following as of October 31, 2016 and January 31, 2016:

	October 31, 2016		
(in thousands)	Cost	Accumulated Amortization Net	
Intangible assets, with finite lives:			
Customer relationships	\$378,056	\$ (233,255) \$144,801	
Acquired technology	219,805	(158,571) 61,234	
Trade names	20,719	(13,276) 7,443	
Non-competition agreements	3,047	(2,409) 638	
Distribution network	4,440	(4,162) 278	
Total intangible assets with finite lives	626,067	(411,673) 214,394	
In-process research and development, with indefinite lives	1,100	— 1,100	
Total intangible assets	\$627,167	\$ (411,673) \$215,494	
	January 3	1, 2016	
(in thousands)	January 3 Cost	1, 2016 Accumulated Amortization Net	
(in thousands) Intangible assets, with finite lives:	•	Accumulated Net	
	Cost	Accumulated Net	
Intangible assets, with finite lives:	Cost \$371,722	Accumulated Net Amortization	
Intangible assets, with finite lives: Customer relationships	Cost \$371,722	Accumulated Amortization Net \$ (211,824) \$159,898 (134,391) 76,997	
Intangible assets, with finite lives: Customer relationships Acquired technology	Cost \$371,722 211,388 18,457	Accumulated Amortization Net \$ (211,824) \$159,898 (134,391) 76,997	
Intangible assets, with finite lives: Customer relationships Acquired technology Trade names	Cost \$371,722 211,388 18,457 3,047	Accumulated Amortization Net \$ (211,824) \$159,898 (134,391) 76,997 (11,570) 6,887	
Intangible assets, with finite lives: Customer relationships Acquired technology Trade names Non-competition agreements	Cost \$371,722 211,388 18,457 3,047	Accumulated Amortization Net \$ (211,824) \$159,898 (134,391) 76,997 (11,570) 6,887 (2,137) 910 (3,550) 890	
Intangible assets, with finite lives: Customer relationships Acquired technology Trade names Non-competition agreements Distribution network	Cost \$371,722 211,388 18,457 3,047 4,440	Accumulated Amortization Net \$ (211,824) \$159,898 (134,391) 76,997 (11,570) 6,887 (2,137) 910 (3,550) 890	

The following table presents net acquisition-related intangible assets by reportable segment as of October 31, 2016 and January 31, 2016:

	October	January
	31,	31,
(in thousands)	2016	2016
Customer Engagement	\$183,258	\$201,503
Cyber Intelligence	32,236	45,179
Total	\$215,494	\$246,682

Total amortization expense recorded for acquisition-related intangible assets was \$19.9 million and \$61.0 million for the three and nine months ended October 31, 2016, respectively, and \$20.0 million and \$59.3 million for the three and nine months ended October 31, 2015, respectively. The reported amount of net acquisition-related intangible assets can fluctuate from the impact of changes in foreign currency exchange rates on intangible assets not denominated in U.S. dollars.

Estimated future amortization expense on finite-lived acquisition-related intangible assets is as follows: (in thousands)

(III tilousalius)	
Years Ending January 31,	Amount
2017 (remainder of year)	\$19,442
2018	61,838
2019	35,028
2020	25,730
2021	19,693
2022 and thereafter	52,663
Total	\$214,394

During the nine months ended October 31, 2015, we recorded a \$2.3 million impairment of an acquired technology asset, which is included within cost of product revenue. No other impairments of acquired intangible assets were recorded during the nine months ended October 31, 2016 and 2015.

As discussed in Note 14, "Segment Information", effective in August 2016, we reorganized into two businesses and now report our results in two operating segments. We have reallocated \$51.8 million of goodwill, net of \$25.3 million of accumulated impairment losses, from our former Video Intelligence segment to our Customer Engagement segment, and \$22.2 million of goodwill, net of \$10.8 million of accumulated impairment losses to our Cyber Intelligence segment using a relative fair value approach. In addition, we completed an assessment for potential impairment of the goodwill previously allocated to our former Video Intelligence segment immediately prior to the reallocation and determined that no impairment existed.

Goodwill activity for the nine months ended October 31, 2016, in total and by reportable segment, was as follows:

	Reportable Segment		
(in thousands)	Total Customer Cyber		
(III thousands)	Engagement Intelligence		
Year Ended January 31, 2016:			
Goodwill, gross, at January 31, 2016	\$1,274,041 \$1,131,249 \$142,792		
Accumulated impairment losses through January 31, 2016	(66,865) (56,043) (10,822)		
Goodwill, net, at January 31, 2016	1,207,176 1,075,206 131,970		
Business combinations	30,725 30,725 —		
Foreign currency translation and other	(40,344) (41,212) 868		
Goodwill, net, at October 31, 2016	\$1,197,557 \$1,064,719 \$132,838		
Balance at October 31, 2016:			
Goodwill, gross, at October 31, 2016	\$1,264,422 \$1,120,762 \$143,660		
Accumulated impairment losses through October 31, 2016	(66,865) (56,043) (10,822)		
Goodwill, net, at October 31, 2016	\$1,197,557 \$1,064,719 \$132,838		

Based upon our November 1, 2015 goodwill impairment reviews, we concluded that the estimated fair values of all of our reporting units, then consisting of Enterprise Intelligence, Cyber Intelligence, and Video Intelligence, significantly exceeded their carrying values.

As a result of the segment reorganization discussed above, we have concluded that we now have three reporting units, consisting of Customer Engagement, Cyber Intelligence (excluding situational intelligence solutions), and the Situational Intelligence business of our former Video Intelligence segment, which is now a component of our Cyber

Intelligence operating segment. No events or circumstances indicating the potential for goodwill impairment were identified during the nine months ended October 31, 2016.

6. LONG-TERM DEBT

The following table summarizes our long-term debt at October 31, 2016 and January 31, 2016:

C	C	October	January
		31,	31,
(in thousands)		2016	2016
1.50% Convertible Senior Notes		\$400,000	\$400,000
February 2014 Term Loans		130,394	130,729
March 2014 Term Loans		279,696	280,413
Other debt		502	
Less: Unamortized debt discounts and	issuance costs	(63,816)	(73,055)
Total debt		746,776	738,087
Less: current maturities		4,709	2,104
Long-term debt		\$742,067	\$735,983

Current maturities of long-term debt are reported within accrued expenses and other current liabilities on the condensed consolidated balance sheet.

1.50% Convertible Senior Notes

On June 18, 2014, we issued \$400.0 million in aggregate principal amount of 1.50% convertible senior notes ("Notes") due June 1, 2021, unless earlier converted by the holders pursuant to their terms. Net proceeds from the Notes after underwriting discounts were \$391.9 million. The Notes pay interest in cash semiannually in arrears at a rate of 1.50% per annum.

The Notes are convertible into, at our election, cash, shares of common stock, or a combination of both, subject to satisfaction of specified conditions and during specified periods. If converted, we currently intend to pay cash in respect of the principal amount of the Notes.

The Notes have a conversion rate of 15.5129 shares of common stock per \$1,000 principal amount of Notes, which represents an effective conversion price of approximately \$64.46 per share of common stock and would result in the issuance of approximately 6,205,000 shares if all of the Notes were converted. The conversion rate has not changed since issuance of the Notes, although throughout the term of the Notes, the conversion rate may be adjusted upon the occurrence of certain events.

On or after December 1, 2020 until the close of business on the second scheduled trading day immediately preceding the maturity date, holders may surrender their Notes for conversion regardless of whether any of the other specified conditions for conversion have been satisfied.

As of October 31, 2016, the Notes were not convertible.

In accordance with accounting guidance for convertible debt with a cash conversion option, we separately accounted for the debt and equity components of the Notes in a manner that reflected our estimated nonconvertible debt borrowing rate. We estimated the debt and equity components of the Notes to be \$319.9 million and \$80.1 million, respectively, at the issuance date, assuming a 5.00% non-convertible borrowing rate. The equity component was

recorded as an increase to additional paid-in capital. The excess of the principal amount of the debt component over its carrying amount (the "debt discount") is being amortized as interest expense over the term of the Notes using the effective interest method. The equity component is not remeasured as long as it continues to meet the conditions for equity classification.

Issuance costs attributable to the debt component of the Notes were netted against long-term debt and are being amortized as interest expense over the term of the Notes, and issuance costs attributable to the equity component were netted with the equity component in additional paid-in capital. The carrying amount of the equity component, net of issuance costs, was \$78.2 million at October 31, 2016.

Table of Contents

As of October 31, 2016, the carrying value of the debt component was \$338.7 million, which is net of unamortized debt discount and issuance costs of \$56.0 million and \$5.3 million, respectively. Including the impact of the debt discount and related deferred debt issuance costs, the effective interest rate on the Notes was approximately 5.29% at October 31, 2016.

Based on the closing market price of our common stock on October 31, 2016, the if-converted value of the Notes was less than the aggregate principal amount of the Notes.

Note Hedges and Warrants

Concurrently with the issuance of the Notes, we entered into convertible note hedge transactions (the "Note Hedges") and sold warrants (the "Warrants"). The combination of the Note Hedges and the Warrants serves to increase the effective initial conversion price for the Notes to \$75.00 per share. The Note Hedges and Warrants are each separate instruments from the Notes.

Note Hedges

Pursuant to the Note Hedges, we purchased call options on our common stock, under which we have the right to acquire from the counterparties up to approximately 6,205,000 shares of our common stock, subject to customary anti-dilution adjustments, at a price of \$64.46, which equals the initial conversion price of the Notes. Our exercise rights under the Note Hedges generally trigger upon conversion of the Notes and the Note Hedges terminate upon maturity of the Notes, or the first day the Notes are no longer outstanding. The Note Hedges may be settled in cash, shares of our common stock, or a combination thereof, at our option, and are intended to reduce our exposure to potential dilution upon conversion of the Notes. We paid \$60.8 million for the Note Hedges, which was recorded as a reduction to additional paid-in capital. As of October 31, 2016, we had not purchased any shares of our common stock under the Note Hedges.

Warrants

We sold the Warrants to several counterparties. The Warrants provide the counterparties rights to acquire from us up to approximately 6,205,000 shares of our common stock at a price of \$75.00 per share. The Warrants expire incrementally on a series of expiration dates beginning in August 2021. At expiration, if the market price per share of our common stock exceeds the strike price of the Warrants, we will be obligated to issue shares of our common stock having a value equal to such excess. The Warrants could have a dilutive effect on net income per share to the extent that the market value of our common stock exceeds the strike price of the strike price of the Warrants. Proceeds from the sale of the Warrants were \$45.2 million and were recorded as additional paid-in capital. As of October 31, 2016, no Warrants had been exercised and all Warrants remained outstanding.

The Note Hedges and Warrants both meet the requirements for classification within stockholders' equity, and their respective fair values are not remeasured and adjusted as long as these instruments continue to qualify for stockholders' equity classification.

Credit Agreement

In April 2011, we entered into a credit agreement with our lenders, which was amended and restated in March 2013, and further amended in February, March, and June 2014 (the "Credit Agreement"). The Credit Agreement, as amended and restated, provides for senior secured credit facilities, comprised of \$943.5 million of term loans, of which \$300.0 million was borrowed in February 2014 (the "February 2014 Term Loans") and \$643.5 million was borrowed in March 2014 (the "March 2014 Term Loans"), all of which matures in September 2019, and a \$300.0

million revolving credit facility maturing in September 2018 (the "Revolving Credit Facility"), subject to increase and reduction from time to time, as described in the Credit Agreement.

The February 2014 Term Loans were borrowed in connection with our February 2014 acquisition of Kana Software, Inc. ("Kana"). The March 2014 Term Loans were borrowed as part of a refinancing of previously outstanding amounts under the Credit Agreement. In June 2014, we utilized the majority of the combined net proceeds from the issuance of the Notes and the concurrent issuance of 5,750,000 shares of common stock to retire \$530.0 million of the February 2014 Term Loans and March 2014 Term Loans, and all \$106.0 million of then-outstanding borrowings under the Revolving Credit Facility.

The outstanding February 2014 Term Loans and March 2014 Term Loans incur interest at our option at either a base rate plus a spread of 1.75% or an Adjusted LIBOR Rate, as defined in the Credit Agreement, plus a spread of 2.75%. As of October 31, 2016 and January 31, 2016, the interest rate on both the February 2014 Term Loans and the March 2014 Term Loans was 3.50%. Taking into account the impact of original issuance discounts, if any, and related deferred debt

issuance costs, the effective interest rates on the February 2014 Term Loans and March 2014 Term Loans were approximately 4.03% and 3.58%, respectively, at October 31, 2016.

We are required to pay a commitment fee equal to 0.50% per annum of the undrawn portion on the Revolving Credit Facility, payable quarterly, and customary administrative agent and letter of credit fees.

Debt issuance and debt modification costs, as well as original issuance discounts, incurred in connection with the Credit Agreement are deferred and amortized as adjustments to interest expense over the remaining contractual life of the associated borrowing.

The Credit Agreement, contains certain customary affirmative and negative covenants for credit facilities of this type, as well as a financial covenant that currently requires us to maintain a ratio of Consolidated Total Debt to Consolidated EBITDA (each as defined in the Credit Agreement) of no greater than 4.50 to 1. The limitations imposed by the covenants are subject to certain exceptions as detailed in the Credit Agreement. Future Principal Payments on Term Loans

As of October 31, 2016, future scheduled principal payments on the February 2014 Term Loans and March 2014 Term Loans are presented in the following table:

(in thousands)	February	March	
(in thousands)	2014	2014	
Years Ending January 31,	Term	Term	
	Loans	Loans	
2017 (remainder of year)	\$334	\$717	
2018	1,337	2,869	
2019	1,337	2,869	
2020	127,386	273,241	
Total	\$130,394	\$279,696	
Interest Expense			

The following table presents the components of interest expense incurred on the Notes and on borrowings under our Credit Agreement for the three and nine months ended October 31, 2016 and 2015:

	Three Months		Nine Months	
	Ended		Ended	
	October 31,		October 31,	
(in thousands)	2016	2015	2016	2015
1.50% Convertible Senior Notes:
