The Summary Compensation Table and Outstanding Incentive Plan Awards tables below for the directors of the Corporation summarize the total compensation paid during the Corporation's financial year ending on December 31, 2008 to the directors of the Corporation and all incentive plan awards outstanding at December 31, 2008 for the directors.

Two current directors, Dr. Paul Averbach, the President and CEO of the Corporation, and Jack Gemmell, General Counsel, are members of the senior management of the Corporation and do not receive any compensation for acting as a director. Their compensation as Named Executive Officers are summarized in the summary tables for compensation and incentive plans for Named Executive Officers below.

Compensation Discussion and Analysis

The Human Resources and Compensation Committee of the Board of Directors oversees the compensation of executive officers of the Corporation. The members of the Human Resources and Compensation Committee for the financial year ending December 31, 2008 were Dr. Roger Guy, Paul McDonald and Randall Lanham.

The Corporation's current compensation policy for its executive officers, including the Chief Executive Officer and the Named Executive Officers, emphasizes the granting of options over base salary as a means of attracting, motivating and retaining talented individuals. Such a policy is believed to better further the Corporation's business goals by allocating more financial resources to the Corporation's ongoing product development programs. Given the current stage of the Corporation's development, the Corporation has not established and does not use formal benchmarks, performance goals, review processes or other qualitative or quantitative criteria or targets relating to the performance of the Company or the individual in order to determine compensation. The Corporation does not have a non-equity incentive plan or a policy of annually granting performance bonuses or salary increases to its executive officers.

The Corporation grants option-based awards to executive officers in accordance with a stock option plan approved by the shareholders. Further details of the stock option plan are provided below in section 8, Stock Option Plan. The stock option plan provides long-term incentives to the Corporation's officers and employees to advance the Corporation's drug development programs towards commercialization and to enhance shareholder value. The

Corporation endeavors to provide salaries and option grants that are internally equitable and that are consistent with both job performance and ongoing progress towards corporate goals. The amount of option grants is determined in part by the amount and terms of outstanding and expiring options, the experience and expertise of each executive officer and the needs of the Corporation, among other factors. The Human Resources and Compensation Committee of the Board of Directors reviews all proposals for awards of stock options to executive officers and decides on the appropriateness of the awards. In doing so, the Committee relies solely on discussion among the independent board members on the Committee without any formal pre-determined objectives, criteria or analytic processes but with a view to attracting and retaining executive officers who can help further the Corporation's business plan.

By relying on option grants as a primary means of compensating its executive officers, the Corporation's intention is to provide a direct link between corporate performance and executive compensation while maximizing shareholder value and controlling cash expenditures.

The Corporation and its operations and corporate governance are subject to a wide range of laws, rules and regulations, including applicable rules and regulations of the NASDAQ Stock Market, the Securities Exchange Commission, as well as federal, state and provincial corporate and securities legislation in Canada and the United States, including the *Sarbanes-Oxley Act*. In addition, given the nature of its operation, the Corporation is subject to specific regulatory regimes governing its products and services such as the U.S. *Food and Drug Act*.

The Board of Directors of the Corporation has adopted corporate governance practices, including formal written mandates for the Board of Directors and its committees, a Code of Ethics for Senior Financial Officers and a Code of Business Conduct for its directors, officers and employees. These documents are available at nymox.com/company/corporate-_governance and have been filed on the EDGAR and SEDAR systems. The Corporation considers good corporate governance to be important to ensure that its operations are managed with a view to enhancing long-term shareholder value, and continues to review its corporate governance practices with a view to ensuring and enhancing compliance with applicable regulations.

The Board of Directors is currently composed of six directors, a majority of whom are independent directors. The Board of Directors has determined that four of its current directors (Dr. Roger Guy, Paul McDonald, Randall Lanham and Dr. David Morse) meet the requisite standard of independence as set out in applicable securities laws, rules and regulations, such as the Sarbanes-Oxley Act, the NASDAQ rules, and National Instrument 58-101 *Disclosure of Corporate Governance Practices*. The other two current directors are not independent: Dr. Paul Averback is the President and CEO of the Corporation and Mr. Jack Gemmell is a member of the senior management of the Corporation.

The Board of Directors is responsible for supervising the management of the business and affairs of the Corporation with a view to the best interests of the Corporation and its shareholders generally. The Board of Directors reviews and approves matters relating to the strategic direction, business and operations and the organizational structure of the Corporation. The Board appoints the Chairman of the Board and establishes its committees and appoints their members. The Board does not have an executive committee. The Board's specific responsibilities include recommending candidates for election or appointment to the Board, approving the issuance of any securities and any related transactions, reviewing financings, investments, acquisitions, dispositions and other transactions not in the ordinary course of business, reviewing the compensation and performance of the Corporation's officers, approving the issuance of any stock options pursuant to the Corporation's stock option plan, reviewing, approving and supervising the Corporation's accounting principles and practices, financial statements and security filings, approving the annual budget, ensuring the proper and timely disclosure of material matters and appropriate communications with the shareholders, reviewing the corporate governance practices of the Corporation and the Board, and reviewing management practices and processes with respect to risk assessment and management and internal controls and audit functions.

The Corporate Governance Committee consists of three independent directors of the Board. This Committee has the general mandate of providing an independent and regular review of the management, business and affairs of the Corporation and has regularly scheduled meetings in executive session. This Committee also reviews the corporate governance of the Corporation to ensure compliance, relevance and effectiveness. This Committee also reviews and approves director nominations to ensure each nominee meets the requisite requirements under applicable corporate and securities laws, rules and regulations and otherwise possesses the skills, judgment and independence appropriate for a director of a public corporation.

The Audit Committee currently consists of three independent directors of the Corporation, each of whom are knowledgeable in financial and auditing matters. The Board has determined that each of the current members of the Audit Committee meet the criteria for independence as set out in applicable securities laws, rules and regulations, such as the *Sarbanes-Oxley Act*, the NASDAQ rules, and National Instrument 58-101 *Disclosure of Corporate Governance Practices*, and are otherwise free of any relationship that would interfere with his individual exercise of independent judgment. The Board has also determined that the Chairman of the Audit Committee, Paul McDonald, possesses the requisite financial management expertise and sophistication to meet the criteria for an audit committee financial expert in accordance with applicable securities laws, rules and regulations.

The Audit Committee provides independent oversight of the quality and integrity of the accounting, auditing, and reporting practices of the Corporation with a particular focus on financial statements and financial reporting to shareholders. Subject to shareholder approval, the Committee is responsible for the appointment, compensation, and oversight of the public accounting firm engaged to prepare or issue an audit report on the financial statements of the Corporation. The independent auditors report directly to the Committee. The Committee's responsibilities include pre-approving all audit services and permissible non-audit services, reviewing on an ongoing basis all relationships between the auditors and the Corporation, including any that may impact the objectivity or independence of the auditors and taking such appropriate action to oversee and ensure the auditors' independence, reviewing the scope and results of the audit with the independent auditors, meeting at least four times a year to review with management and the independent auditors the Corporation's financial condition and results, assessing the adequacy of the internal accounting, bookkeeping and control procedures of the Corporation; reviewing with management and the independent auditors any significant risks or exposures to the Corporation and assess the steps management has taken to minimize such risk to the Corporation, reviewing and approving on an ongoing basis the terms of all transactions and arrangements between the Corporation and related parties, reviewing all financial statements and reports prior to filing with the Securities and Exchange Commission or other regulatory authorities, and reviewing and assessing on an annual basis the adequacy of its charter and recommending any changes needed to enable the Committee to properly discharge its duties to the shareholders.

The Audit Committee has the additional responsibilities for establishing procedures for the handling of complaints regarding accounting, internal accounting controls, or auditing matters, including procedures for the receipt, retention and treatment of such complaints and for the confidential and anonymous submission by employees of the Corporation or its affiliates of concerns regarding questionable accounting or auditing matters.

The Audit Committee has the power to conduct or authorize investigations into any matters within its scope of responsibilities. The Committee may ask members of management or other employees of the Corporation to attend at a meeting of the Audit Committee and provide pertinent information as necessary. The Committee may meet with the independent auditors in executive session to discuss any matters that, in the opinion of the Committee or the independent auditors, should be discussed in private. The Committee has the power and authority to retain and determine funding for independent counsel, accountants, or other advisors as it determines necessary to carry out its duties.

The Human Resources and Compensation Committee consists of three independent directors of the Board. When considering the compensation arrangements for the CEO, the Committee meets in executive session without the presence of the CEO. BY ORDER OF THE BOARD OF DIRECTORS

/s/ Paul Averback MD

Dr. Paul Averback
CEO & President

Schedule A**Statement of Corporate Governance Disclosure¹****1. Board of Directors**

The Board of Directors is currently composed of six directors, a majority of whom are independent directors. The Board has determined that four of its directors (Dr. Roger Guy, Paul McDonald, Randall Lanham and Dr. David Morse) meet the requisite standard of independence as set out in applicable securities laws, rules and regulations, such as the *Sarbanes-Oxley Act*, the NASDAQ rules, and National Instrument 58-101 *Disclosure of Corporate Governance Practices*. The other two directors are not independent: Dr. Paul Averback is the President and CEO of the Corporation and Mr. Jack Gemmell is a member of the senior management of the Corporation.

None of the directors are presently a director of another reporting issuer.

Since the last Annual Meeting of Shareholders held on June 20, 2008, in order to facilitate open and candid discussion among its independent directors, the independent directors arranged to meet at least three times both informally (in person and by telephone) and in executive sessions following Audit Committee meetings when non-independent directors and members of management were not in attendance.

The Board appoints the Chairman of the Board. The current Chairman of the Board, Dr. Paul Averback, is not independent as he is the President and CEO of the Corporation. The Corporation's Lead Director is Randall Lanham.

The following table sets out the attendance record of each director for all Board of Directors meetings since the Corporation's last Annual Meeting of the Shareholders:

Name of Director	Board of Directors (4 meetings)
Dr. Paul Averback	4/4
Mr. Jack Gemmell	4/4
Randall Lanham	4/4

Paul McDonald	4/4
Dr. Roger Guy	4/4
Dr. David Morse	4/4

2. Board Mandate

The Board's written mandate is as follows:

The Board of Directors of Nymox Pharmaceutical Corporation is responsible for supervising the management of the business and affairs of the company with a view to the best interests of the company and its shareholders generally.

The Board reviews and approves matters relating to the strategic direction, business and operations and the organizational structure of the company. The Board's specific responsibilities include submitting any matter requiring shareholder approval to the shareholders, recommending candidates for election or appointment to the Board, approving the issuance of any securities and any related transactions, reviewing financings, investments, acquisitions, dispositions and other transactions not in the ordinary course of business, reviewing the compensation and performance of the company's officers, approving the issuance of any stock options pursuant to the company's stock option plan, reviewing, approving and supervising the company's accounting principles and practices, financial statements and security filings, approving the annual budget, ensuring the proper and timely disclosure of material matters and appropriate communications with the shareholders, reviewing the corporate governance of the company and the Board, including compliance with relevant legal and ethical standards, and reviewing management practices and processes with respect to risk assessment and management and internal controls and audit functions.

The Board appoints the Chairman of the Board, establishes its Committees and appoints directors to serve as members of those Committees. The Board meets regularly as scheduled by the Board. Special meetings of the Board may be called by the Board, the Chairman of the Board, the President or CEO of the company or by any two Directors.

¹ This Statement is made pursuant to National Instrument 58-101 *Disclosure of Corporate Governance Practices* and Form 58-101F1 thereto.

3. Position Descriptions

The Board has adopted formal written position descriptions for the Chairman of the Board and the Chair of each Board committee. The Board has also adopted a formal written position description for the CEO.

4. Orientation and Continuing Education

It is anticipated that the Board will address in the current financial year what measures are needed to orient new directors regarding the role of the Board, its committees and its directors and the nature and operation of the Corporation's business. Orientation is currently provided on an informal basis through discussions with senior management about the nature and operation of the Corporation's business areas in the pharmaceutical and diagnostic industry and with other Board members about the role of the Board. The nature and extent of each director's orientation in these areas will depend on the extent to which director's experience, skills and training relate to the industry in general and the specific areas of research and product development the Corporation is engaged in. The Board has also developed written mandates for the Board and its committees, a Code of Business Conduct for directors, officers and employees of the Corporation and a Code of Ethics for Senior Financial Officers, which are available as guidance for new directors. Extensive information about the Corporation's business and financial situation is available through the Corporation's annual and quarterly reports and press releases.

The Board has relied on the prior experience and expertise of each director brought to the Board. It is anticipated that director training programs and continuing education will be provided for new directors to ensure that the directors acquire or maintain the necessary skill and knowledge to meet their obligations as directors and, where applicable, as members of the Audit Committee.

5. Ethical Business Conduct

The Board has adopted written codes for the directors, officers and employees in its Code of Ethics for Senior Financial Officers and its Code of Business Conduct for Officers, Directors and Employees. A copy is available at www.nymox.com/company/corporate_governance or by written request to the Corporation and has been filed on EDGAR and on SEDAR. The Board monitors compliance with these codes by requiring Board approval of waivers of the code by directors and executive officers and by adopting complaint procedures. Only the Audit Committee of the Board of Directors may authorize or approve any waiver of the Code of Ethics for Senior Financial Officers to the CEO and CFO and then only when truly necessary and warranted, and subject to any limitations and qualifications designed as to protect the Corporation to the greatest extent possible. Any such waiver must be disclosed promptly to

the shareholders and the public. Similarly, any waivers of the Code of Business Conduct for directors and executive officers must be approved by the Board of Directors. To promote and monitor compliance with its Codes, the Corporation operates an open door policy with respect to the reporting of violations of the Codes or of legal or ethical standards with reporting up to the CEO and the Board where appropriate. The Board has also adopted a specific complaints procedure for reports or complaints of questionable accounting, internal accounting controls or auditing matters to be handled by the Audit Committee, including the submission of anonymous and confidential complaints. This procedure is outlined in the Code of Business Conduct in Appendix A, Policies and Procedures about Handling Complaints Regarding Accounting, Internal Accounting Controls or Auditing Matters. Since the beginning of the most recently completed financial year, no material change report has been filed that pertains to the conduct of a director or executive officer that constitutes a departure from either Code.

The Board has taken steps to ensure that directors exercise independent judgment in considering transactions and agreements in respect of which a director or executive officer has a material interest. Under the terms of the Conflict of Interest provision of the Corporation's by-laws, a director is required to disclose the nature and extent of his or her interest in any material contract or proposed material contract with the Corporation if he or she is a party to the contract, is a director or officer of such a party or has a material interest in such a party. Under the Board's policy, any Director with such an interest or similar conflict of interest is required to excuse him or herself from participating in any discussion about the matter and to abstain from voting on it. As well, the Corporation's Code of Business Conduct requires officers of the Corporation to advise the CEO of any actual or potential conflict of interest situation. The CEO and CFO must advise the Audit Committee of the Board in accordance with the Code of Ethics for Senior Financial Officers.

The Board has taken other steps to encourage and promote a culture of ethical business conduct. Every officer, director and employee has received a copy of the Code of Business Conduct. The Corporation has made it a positive duty for each employee and officer to report violations of the Code or the law and to investigate any reports of such violations.

6. Nomination of Directors

The Board has not established specific procedures for the identification of new candidates for nomination to the Board. As a matter of practice, new candidates for board nomination may be proposed by a director, by management, or by a shareholder. Under the *Canada Business Corporations Act*, a shareholder or group of shareholders owning or controlling 5% or more of the Corporation's shares may submit a proposal to nominate a director to be included in the management proxy circular, subject to certain time limits. Nominations may also be made at the annual meeting of shareholders.

The Corporate Governance Committee which consists of the independent directors of the Board acts as the nominating committee. Under its mandate, the Corporate Governance Committee is to review and approve director nominations to ensure each nominee meets the requisite requirements under applicable corporate and securities laws, rules and regulations and otherwise possesses the skills, judgment and independence appropriate for a director of a public corporation.

7. Compensation

The Board has not established specific procedures or guidelines for the determination of compensation for the Corporation's directors and officers. As a matter of practice, the Board's Human Resources and Compensation Committee determines the compensation arrangements for directors, executive officers and key employees. The compensation arrangements for the directors sitting on the Human Resources and Compensation Committee are determined by the other directors of the Board. It is anticipated that this is an area that the Board will be addressing in the current financial year.

The Human Resources and Compensation Committee of the Board consists of three independent directors of the Board. This Committee establishes and reviews overall policy and structure with respect to compensation and employment matters, including the determination of compensation arrangements for directors, executive officers and key employees of the Corporation. When considering the compensation arrangements for the CEO, the Committee's mandate requires the committee members to meet in executive session without the presence of the CEO. The Committee is also responsible for the administration and award of options to purchase shares pursuant to the Corporation's stock option plan.

Since the beginning of the Corporation's most recently completed financial year, no compensation consultant or advisor has been retained to assist in determining the compensation for any of the Corporation's directors and officers.

8. Other Board Committees

The Board has established two other committees other than the Audit Committee and the Human Resources and Compensation Committee. These are the Corporate Governance Committee (which also acts as the nominating committee) and the Communications Committee.

The Corporate Governance Committee consists of three independent directors of the Board. This Committee has the general mandate of providing an independent and regular review of the management, business and affairs of the Corporation and has regularly scheduled meetings in executive session. This Committee also reviews the corporate governance of the Corporation to ensure compliance, relevance and effectiveness.

The Corporate Governance Committee also reviews and approves director nominations to ensure each nominee meets the requisite requirements under applicable corporate and securities laws, rules and regulations and otherwise possesses the skills, judgment and independence appropriate for a director of a public corporation.

The Communications Committee establishes and reviews overall policy, practices and controls as they relate to the Corporation's communications to the public and its shareholders about its business and affairs other than financial statements and related security filings within the mandate of the Audit Committee.

9. Assessments

Currently, the Board, its Committees and individual directors are not regularly assessed with respect to their effectiveness and contribution. The Corporation relies on the individual experience, competence and expertise of each director, the written mandates of the Board and its committees, and informal assessments in gauging a director's effectiveness and contribution in light of the needs of the Board and the Corporation.
