Eltek Wins a New Major Flex Rigid PCB Customer in the U.S.

Receives a \$320,000 initial order from a U.S. industrial manufacturer to be delivered in the third quarter of 2006.

PETACH-TIKVA, Israel, July 10, 2006 Eltek Ltd. (NasdaqSC:ELTK), the leading Israeli manufacturer of advanced circuitry solutions, today announced that a major U.S. industrial manufacturer has placed an initial order for flex rigid PCBs that will be used in the production of advanced industrial equipment. This order valued at \$320,000 is anticipated to be supplied during the third quarter of 2006.

This new win signifies an important strategic and quantitative achievement in our expanded penetration into the higher margin U.S. flex rigid PCB market, said Arieh Reichart, President and Chief Executive Officer of Eltek.

As we are optimistic that we will receive follow-on quarterly orders with at least similar characteristics, we believe that this new engagement will enable us to ramp up our flex rigid PCBs revenues, further improve our revenue mix and associated operating margins, and increase our overall corporate productivity and visibility, he concluded.

About the Company

Eltek is Israel's leading manufacturers of printed circuit boards, the core circuitry of most electronic devices. It specializes in the complex high-end of PCB manufacturing, i.e., HDI, multi-layered and flex-rigid boards. Eltek's technologically advanced circuitry solutions are used in today's increasingly sophisticated and compact electronic products. The Company has invested heavily in upgrading its production facilities over the past five years.
