Gilat Selected to Provide Broadband Connectivity for e-Education Program in Latin America

- The Sky Edge II network will be used to bring high-speed Internet services to schools through a government funded initiative -

Petah Tikva, Israel, 19 September, 2011 -- Gilat Satellite Networks Ltd. (NASDAQ: GILT) today announced that it has signed an agreement with a leading Latin American government agency for the delivery of over 1,800 SkyEdge II VSATs to facilitate broadband Internet connectivity in schools.

The agreement is part of a nationwide, government sponsored initiative to connect thousands of schools across the country to the Internet over the next three years. The network is expected to be used predominantly to support school connectivity across the country's main urban regions and may be extended as part of the nationwide program.

"Latin America represents one of Gilat's key markets and we are proud to have our technology deployed where broadband connectivity is going to make a noticeable and important contribution to children's lives," said Russell Ribeiro, Gilat's Regional Vice President of Latin America.

Gilat's SkyEdge II is a multi-service platform enabling the delivery of high-quality voice, broadband data and video services for diverse environments including enterprises, rural networks, cellular backhaul and government network applications. SkyEdge II is a standards-based system using DVB-S2 and DVB-RCS. With better efficiencies and full adaptivity for both the inbound and outbound channels, it provides higher performance that serves the growing requirements of a range of end-users.

Gilat's diverse portfolio of SkyEdge II VSATs are all supported by a unified platform, offering service providers the most suitable product for their application needs as well as the flexibility to evolve their networks.
