### BT BUYS LYNX TECHNOLOGY

#### Purchase of a second leading UK IT company

BT announced today it has acquired Lynx Technology, one of the UK's foremost suppliers of IT services.

The acquisition of Lynx Technology follows the purchase of Basilica Computing that BT announced in August and further enhances BT Business' capability to create and deliver complete IT solutions for small and medium-sized enterprises (SMEs) in the UK.

Founded in 1973, Lynx Technology specialises in consulting, technology and outsourcing. It is a Microsoft, Cisco, Symantec and Surf Control Gold Partner, and an HP Business Partner. It has more than 500 employees, including 200 field engineers, 50 consultants and 100 service, support and logistics staff. Its headquarters are in Chesterfield, Derbyshire.

Bill Murphy, managing director of BT Business, said: "Lynx Technology is a very impressive IT services business, with a proven track record of understanding and meeting the needs of SMEs. Their expertise complements that of Basilica Computing and combined with our existing operation will enable us to give our customers genuinely converged communication and IT solutions.

"Small and medium sized companies need to focus on their core business. Our customers tell us they want to concentrate on 'doing what they do best'. We make that possible by taking care of their entire communications and IT; linking their customers, suppliers and partners and enabling communication, collaboration and commerce."

Paul Edgeley, managing director, Lynx Technology, said: "This is a very exciting time for everyone at Lynx Technology. We're delighted with the opportunities this transaction will deliver to the strong platform that we have developed. And we're confident that this will prove to be extremely beneficial for our customers, employees and our business partners."

Lynx Technology generated revenues of GBP47 million and had audited gross assets of GBP15.6 million for the year ended September 30, 2006.

business solutions to large corporate customers. The Company is headquartered in Paris and employs approximately 800 people operating mainly in France, but also with a presence elsewhere in Europe, USA and Morocco. For the year ended 31 December 2006, Net2S SA reported revenues of approximately EUR77 million.

The proposed acquisition is conditional upon the parties finalising their on-going exclusive negotiations and obtaining the necessary regulatory clearances. Both BT and Net2S SA will now commence consultation with the representatives from the works councils. The four founding shareholders have granted BT exclusivity until 31 December 2007 in order to finalise the transaction.

Subject to completion of the acquisition of the Block and to approval from France's Autorite des Marches Financiers, BT will implement a public tender offer for the remaining issued share capital of Net2S SA at a price of EUR5.27 per share (the "Tender Offer"). The consideration for the Tender Offer will be payable in cash.

A further announcement will be made in the coming weeks if the current negotiations lead to an agreement.

### Notes

The four founding shareholders from whom BT is purchasing the Block are Mr. Bernard Razaghi, Mr. Pascal Petit, Mr. Ali Pichvai and Mr. Christophe Canonne.

The actual number of BT shares to be issued to those three founding shareholders receiving BT shares as consideration will be determined by reference to the BT share price as at the earlier of the time of final settlement of the Tender Offer and 30 April 2008.
