We believe that our audits provide a reasonable basis for our opinion.

In our opinion, the financial statements referred to above present fairly, in all material respects, the net assets available for benefits of the Virginia Bankers Association Defined Contribution Plan for Citizens and Farmers Ba as of December 31, 2002 and 2001, and the changes in net assets available for benefits for the years then ended in conformity with accounting principles generally accepted in the United States of America.

The supplemental schedule of assets held for investment purposes as of December 31, 2002 is presented for the purpose of additional analysis and is not a required part of the basic financial statements, but is supplementary information required by the United States Department of Labor Rules and Regulations for Reporting and Disclosure under the Employee Retirement Income Security Act of 1974. The supplemental schedule is the responsibility of the Plan s management. **VIRGINIA BANKERS ASSOCIATION DEFINED CONTRIBUTION PLAN
FOR CITIZENS AND FARMERS BANK**

Notes to Financial Statements

Note 1. Description of the Plan

The following description of the Virginia Bankers Association Defined Contribution Plan for Citizens and Farmers Bank (Plan) provides only general information. Participants should refer to the Plan agreement for a more complete description of the Plan's provisions.

General

The Plan is a defined contribution plan sponsored by Citizens and Farmers Bank (Bank) pursuant to the provisions of Section 401(k) of the Internal Revenue Code (Code) established for the benefit of substantially all full time employees electing to participate in the Plan. Employees are eligible to participate in the Plan on the first day of the calendar quarter after completing three months of service and must be eighteen years old or older. The Plan is subject to the provisions of the Employee Retirement Income Security Act of 1974 (ERISA).

Contributions

Each year, participants may contribute up to 20% of pretax annual compensation, as defined in the Plan. Participants may also contribute amounts representing distributions from other qualified defined benefit or defined contribution plans. Participants direct the investment of their contributions into various investment options offered by the Plan. The Bank matches 100% of the first 5% of compensation that a participant contributes to the Plan. The Bank may also make a discretionary profit sharing contribution, determined annually by its Board of Directors. This contribution is allocated in proportion to a participant's covered compensation to covered compensation of all participants. Discretionary profit sharing contributions declared or made by the Bank were \$177,149 and \$194,215 during the plan years ended December 31, 2002 and 2001, respectively. Contributions are subject to certain limitations as established by the Code.

Participants' Accounts

Each participant's account is credited with the participant's contribution and allocations of (a) the Bank's contributions (b) Plan earnings and (c) forfeitures. Allocations are based on participant earnings or account balances, as defined. The benefit to which a participant is entitled is the benefit that can be provided from the participant's vested account.

Notes to Financial Statements

Vesting

Participants are vested immediately in their contributions plus actual earnings thereon. Vesting in the portion of their accounts contributed by the Bank is based on years of continuous service. A participant is 100% vested after seven years of credited service.

Investment Options

All assets in the Plan are directed by individual participants. Participants are given the option to direct account balances and all contributions made into any of 24 separate investment options consisting of managed, indexed or individual equity or fixed income funds.

A participant may choose to invest up to 25% (in increments of 5%) of their account balance and future contributions in the common stock of C&F Financial Corporation (Employer Common Stock), the remaining balance and future contributions may be invested in the other investment fund options.

Participant Loans

Participants may borrow from their fund accounts a minimum of \$1,000 up to a maximum equal to the lesser of \$50,000 or 50% of their vested account balance. Loan transactions are treated as a transfer to (from) the investment fund from (to) the Participants Notes Fund. Loan terms are limited to 5 years or up to 30 years for the purchase of a primary residence. The loans are fully secured by the balance in the participant's account and bear interest at 1/4 of 1% over the Corporation's prime rate and will remain unchanged for the life of the loan. Principal and interest is paid ratably through monthly payroll deductions.

Payment of Benefits

On termination of service due to death, disability, or retirement, a participant may elect to receive either a lump sum amount equal to the value of the participant's vested interest in his or her account, periodic installments for a period of up to 10 years or a combination of both. A written election must be made with the administrator at least 30 days before the benefit payment date. Participants whose vested account balance has never exceeded \$5,000 must be paid out in the form of a lump sum distribution.

Forfeited Accounts

As of December 31, 2002 and 2001, forfeited nonvested account balances totaled \$31,895 and \$127,424, respectively. These accounts will be allocated to remaining participants' accounts.

Reclassifications

Certain reclassifications have been made to prior period amounts to conform to current year presentation.

Note 2. Summary of Accounting Policies

Basis of Accounting

The financial statements of the Plan are prepared under the accrual method of accounting.

Use of Estimates

The preparation of financial statements in conformity with accounting principles generally accepted in the United States of America requires management to make estimates and assumptions that affect the reported amounts of assets and liabilities and changes therein, and disclosure of contingent assets and liabilities. Actual results could differ from those estimates.

Investment Valuation and Income Recognition

The Plan's investments are stated at fair value. Quoted market prices are used to value investments. Shares of mutual funds are valued at the net asset value of shares held by the Plan at year end. Participant notes receivable are valued at cost which approximates fair value.

Purchases and sales of securities are recorded on a trade-date basis. Interest income is recorded on the accrual basis. Dividends are recorded on the ex-dividend date.

In accordance with the policy of stating investments at current value, net realized and unrealized appreciation (depreciation) for the year is reflected in the statements of changes in net assets available for benefits.

Benefit Payments

Benefit payments are recorded when paid.

Note 3. Plan Termination

Although it has not expressed any intent to do so, the Bank has the right under the Plan to terminate the Plan subject to the provisions of ERISA. In the event of plan termination, participants would become 100 percent vested in their employer contributions.

Use of Estimates

The Plan's Guaranteed Interest Accounts guarantee a rate of return for a defined term.
