The Company presently estimates a loss for the year ended December 31, 2003 of approximately \$13.1 million. In comparison, the Company reported net income of approximately \$904,000 for the year ended December 31, 2002. This approximately \$14.0 million change is attributable to a variety factors, including, among other things:

an approximately \$8.5 million gain from discontinued operations which was recorded in the Company's 2002 net income, and no similar gains were realized in 2003;

an approximately \$7.1 million increase in noninterest expenses due to: (i) increased professional fees associated with continued litigation and regulatory issues the Company has been confronting, (ii) increased foreclosed assets and related costs, as the Company has identified and addressed problems in its loan portfolio and the resulting increase in foreclosed assets, (iii) impairments on fixed assets as part of the Company's branch rationalization decisions, and (iv) losses that were realized on certain pending litigation matters;

an approximately \$5.0 million decline in net interest income which occurred in 2003, primarily due to: (i) lower levels of earning assets, resulting from the Company's decreased new loan growth and an increase in contractual and early payments, as well as charge-offs and foreclosures, and (ii) lower yields on earning assets due to: (x) an overall lower interest rate environment, (y) increased nonaccrual loans, and (z) increased levels of investment securities, which typically have lower yields than loans; and

an approximately \$1.4 increase in the provision for loan losses, reflecting the Company's continuing efforts to timely identify and resolve problem loans.

These factors were partially offset by a related tax benefit during 2003 of approximately \$8.0 million.
