PROXY STATEMENT

March 24, 2006

SOLICITATION

The solicitation of the enclosed proxy is made on behalf of the Board of Directors of Murphy Oil Corporation (the Company) for use at the Annual Meeting of Stockholders to be held on May 10, 2006. It is expected that this Proxy Statement and related materials will first be mailed to stockholders on or about March 24, 2006.

The complete mailing address of the Company's principal executive offices is 200 Peach Street, P.O. Box 7000, El Dorado, Arkansas 71731-7000.

VOTING PROCEDURES

The affirmative vote of a majority of the shares present in person or represented by proxy at the meeting is required for approval of matters presented at the meeting. Your proxy will be voted at the meeting, unless you (i) revoke it at any time before the vote by filing a revocation with the Secretary of the Company, (ii) duly execute a proxy card bearing a later date, or (iii) appear at the meeting and vote in person. Proxies returned to the Company, votes cast other than in person and written revocations will be disqualified if received after commencement of the meeting. If you elect to vote your proxy by telephone or internet as described in the telephone/internet voting instructions on your proxy card, we will vote your shares as you direct. Your telephone/internet vote authorizes the named proxies to vote your shares in the same manner as if you had marked, signed and returned your proxy card.

Votes cast by proxy or in person at the meeting will be counted by the persons appointed by the Company to act as election inspectors for the meeting. The election inspectors will treat shares represented by proxies that reflect abstentions as shares that are present and entitled to vote for purposes of determining the presence of a quorum and for purposes of determining the outcome of any other business submitted at the meeting to the stockholders for a vote. Abstentions, however, do not constitute a vote for or against any matter and thus will be disregarded in the calculation of votes cast.

The election inspectors will treat shares referred to as broker non-votes (i.e., shares held by brokers or nominees as to which instructions have not been received from the beneficial owners or persons entitled to vote and that the broker or nominee does not have discretionary power to vote on a particular matter) as shares that are present and entitled to vote for purposes of determining the presence of a quorum. However, for purposes of determining the outcome of any matter as to which the broker has physically indicated on the proxy that it does not have discretionary authority to vote, those shares will be treated as not present and not entitled to vote with respect to that matter (even though those shares are considered entitled to vote for quorum purposes and may be entitled to vote on other matters).

Edgar Filing: MURPHY OIL CORP /DE - Form DEF 14A

Unless specification to the contrary is made, the shares represented by the enclosed proxy will be voted FOR all the nominees for director and FOR approval of the appointment of KPMG LLP as the Company's independent registered public accounting firm.

VOTING SECURITIES

On March 13, 2006 the record date for the meeting, the Company had outstanding 186,618,476 shares of Common Stock, all of one class and each share having one vote in respect of all matters to be voted on at the meeting. This amount does not include 209,554 shares of treasury stock. Information as to Common Stock Ownership of certain beneficial owners and management is set forth in the tables on pages 7 and 8 (Security Ownership of Certain Beneficial Owners and Security Ownership of Management).

ELECTION OF DIRECTORS

The by-laws of the Company provide for ten directors who will be elected at the Annual Meeting of Stockholders. Proxies cannot be voted for a greater number of persons than the number of nominees named. The by-laws also provide that the directors elected at each Annual Meeting of Stockholders shall serve until their successors are elected and qualified.

To the extent authorized by the proxies, the shares represented by the proxies will be voted in favor of the election as directors of the ten nominees whose names are set forth below. If for any reason any of these nominees is not a candidate when the election occurs, the shares represented by such proxies will be voted for the election of the other nominees named and may be voted for any substituted nominees. However, management of the Company does not expect this to occur. All of management's nominees were elected at the last Annual Meeting of Stockholders. All directors, other than Mr. Deming, have been deemed independent by the Board based on the categorical standards of independence included in the Company's Corporate Governance Guidelines and attached as Exhibit A. Mr. Nolan, the Non-Employee Chairman of the Board, serves as presiding director at regularly scheduled (February, August and December) meetings of non-management directors without the Company's management. Interested parties, as well as shareholders, may send communications to the board and/or specified individual directors c/o the Secretary, Murphy Oil Corporation, P.O. The Executive Committee is empowered to exercise certain functions of the Board of Directors when the Board is not in session.

The Audit Committee has the sole authority to appoint or replace the Company's independent auditors who report directly to the committee. The committee also assists the Board's oversight of the integrity of the Company's financial statements, the independent auditors' qualifications and

Edgar Filing: MURPHY OIL CORP /DE - Form DEF 14A

independence, the performance of the Company's internal audit function and independent auditors, the compliance by the Company with legal and regulatory requirements and review of programs related to compliance with the Company's Code of Business and Ethics. This committee meets with representatives of the independent auditors and with members of the internal Auditing Division for these purposes. All of the members of the Audit Committee are independent under the rules of the New York Stock Exchange, the requirements of the Securities and Exchange Commission and the Company's independence standards.

The Executive Compensation Committee oversees the compensation of the Company's executives and directors and administers the Company's Annual Incentive Compensation Plan, the 1992 Stock Incentive Plan and the Stock Plan for Non-Employee Directors. All of the members of the Executive Compensation Committee are independent under the rules of the New York Stock Exchange and the Company's independence standards.

The Nominating & Governance Committee identifies and recommends potential Board members, recommends appointments to Board committees, oversees evaluation of Board performance and reviews and assesses the Corporate Governance Guidelines of the Company. All of the members of the Nominating & Governance Committee are independent under the rules of the New York Stock Exchange and the Company's independence standards. Information regarding the process for evaluating and selecting potential director candidates, including those recommended by stockholders, is set out in the Company's Corporate Governance Guidelines. Stockholders desiring to recommend candidates for membership on the Board of Directors for consideration by the Nominating & Governance Committee should address their recommendations to: Nominating & Governance Committee of the Board of Directors, c/o Secretary, Murphy Oil Corporation, P.O. Box 7000, El Dorado, Arkansas 71731-7000. The Corporate Governance Guidelines also provide a mechanism by which security holders may send communications to Board members and contain the Company's policy with respect to board member attendance at annual meetings of shareholders. All Board members, except Mr. Dembroski, attended the 2005 annual meeting.

The Public Policy & Environmental Committee assists the Board in monitoring compliance with applicable environmental, health and safety laws and regulations and provides guidance as to public issues affecting the Company.

Charters for the Audit, Executive Compensation, Nominating & Governance and Public Policy & Environmental Committees, along with the Corporate Governance Guidelines and the Code of Ethical Conduct for Executive Management, are available on the Company's website, www.murphyoilcorp.com/cr/governance, and free of charge from the Corporate Secretary. The Audit Committee charter is also included as Exhibit B.

Meetings and Attendance

During 2005 there were six regular meetings and one special meeting of the Board of Directors, 11 regular meetings of the Executive Committee, ten meetings of the Audit Committee, three meetings of the Executive Compensation Committee, two meetings of the Nominating & Governance Committee, and two meetings of the Public Policy & Environmental Committee. All nominees attended a minimum of 75% of the total number of meetings of the Board of Directors and committees on which they served.

Compensation of Directors

The Company's standard arrangement for the compensation of non-employee directors was revised in 2003 to divide remuneration into cash and equity components. To this end, a Stock Plan for Non-Employee Directors was submitted to, and approved by, stockholders at the 2003 annual meeting. The aim of the revision was twofold: (i) to further align the interests of directors and the shareholders they represent and (ii) to bring total director compensation to a level near the 50th percentile of the competitive market (as determined by a major national compensation consulting firm) which will enhance the Company's ability to retain and recruit qualified individuals.

In 2005, the cash component consisted of an annual retainer of \$50,000 plus \$1,500 for each Board or committee meeting attended. Committee Chairmen and the Audit Committee Financial Expert received an additional \$5,000, the Audit Committee Chairman received an additional \$10,000 and the Chairman of the Board received an additional \$115,000. The Company also reimburses directors for travel, lodging and related

expenses they incur in attending Board and committee meetings.

The equity component for 2005 was provided by time lapse restricted stock. Each director received 2,550 shares of restricted stock (as adjusted for 2-for-1 stock split effective June 3, 2005), valued at \$115,680.75 on February 1, 2005, vesting after three years. During the vesting period the shares carry voting and dividend rights but no dispositive power.

For 2006, the per meeting fee increased to \$2,000 but the cash component is otherwise unchanged. The equity component is provided by an award of 2,154 shares of restricted stock valued at \$122,778 on January 31, 2006, vesting after three years. During the vesting period the shares carry voting and dividend rights but no dispositive power.

- (1) The number of securities awarded and exercise price have been adjusted for 2-for-1 stock split effective June 3, 2005. No stock appreciation rights were granted in 2005.
- (2) Options granted in 2005 vest 50% at the end of two years and 100% at the end of three years from the date of grant and are exercisable for a period of seven years from the date of grant.
- (3) Values were based on the Black-Scholes option pricing model adapted for use in valuing stock options. The actual value, if any, an executive may realize will depend on the excess of the stock price over the exercise price on the date the option is exercised. There is no assurance that value realized by the executive will be at or near the value estimated by the Black-Scholes model. The estimated values under that model are based on assumptions as to certain variables and in 2005 included the following:

Risk-free rate of return	3.74%
Stock volatility	26.00%
Dividend yield	1.25%
Expected life of option	5 years

Based on the Black-Scholes option pricing model, using the above assumptions, the options granted in 2005 have been valued at \$11.79 per share as of the grant date.

COMPENSATION COMMITTEE REPORT FOR 2005

Executive Compensation Philosophy and Principles

The Company's executive compensation policies applicable to the Named Executives are based on principles designed to align the interests of the executives with those of shareholders. Compensation is also intended to provide a direct link with the Company's values, objectives, business strategies and financial results. In order to attract and retain key executives who are critical to its long-term success, the Company believes that its pay package should be competitive with others in the energy industry. Executives should be rewarded for both the short-term and long-term success of the Company and, conversely, be subject to a degree of downside risk in the event that the Company does not achieve its performance objectives.

As guidance in establishing the proper levels of compensation for its executives, the Company relies on compensation surveys conducted by one or more major consulting firms. The data provided includes an analysis of trends in and the total compensation practices for: general industry, the overall oil and gas industry and a select group of peer companies within the oil and gas industry. Many of the companies in the oil and gas specific surveys are also included in the AMEX Oil Index which is depicted in the performance graph shown on page 16. The Company's goal is to maintain a total compensation package at or near the 50th percentile of the competitive market.

To this end, the Named Executives each have a compensation package which includes a base salary, participation in a cash based annual incentive plan and participation in an equity based long-term incentive plan. Each of these three elements is discussed in more detail below.

Base Salary Practices

In addition to the available survey data, base salaries for the Named Executives are ultimately based on a combination of experience, performance and responsibilities. For each of the Named Executives, their salaries and the amount of increases for 2005 were at or near the mid-point of the salary surveys. Annual salary review for the Named Executives focuses on factors including individual performance, Company performance, general economic conditions and marketplace compensation trends.

Annual Incentive Compensation Program

The Company's annual incentive plan provides for cash bonuses, based on a percentage of base salary, if the Company achieves a targeted return on capital employed. The target level for 2005 was developed based on a projection of the Company's weighted average cost of capital. Because the Company met the performance target for 2005, the Named Executives received annual incentive awards for the 2005 plan year in accordance with the Plan's formula.

Long-Term Incentive Compensation

Long-term incentive compensation is provided by the 1992 Stock Incentive Plan, which provides for stock options, stock appreciation rights and performance based restricted stock. In 2005, stock options and performance based restricted stock were awarded. A stock option gives the executive the right to purchase a specified number of shares of the Company's common stock at a price equal to the market price on the date of the grant. The options, all of which are nonqualified, vest in two years as to half and in three years as to the remaining half. Once vested, the options are exercisable for seven years from the date of the grant. The restricted stock grants are totally performance based in that the restrictions will only be lifted and the shares earned in the event that the Company meets or exceeds its performance target. In this event, the recipient also receives a cash payment from the Company to cover the recipient's income tax liability. The performance target for restricted share grants is the Company's total shareholder return as compared to a selected peer group of oil and gas companies over a three-year performance period. During this three-year performance

period executives are extended voting and dividend rights on their restricted stock. The Company's stock option and performance based restricted grants in 2005 were based on survey data provided by a major compensation consulting firm, generally between the 25th and 50th percentile levels of energy industry practices. Total grants in 2005 equaled .68% of the Company's issued and outstanding shares.

Internal Revenue Code Section 162(m)

The Company structures its executive compensation packages so as to maximize deductibility of compensation in accordance with Section 162(m) of the Internal Revenue Code. However, where necessary to comport with the foregoing philosophy and principles, and when considered in the best interest of the Company, compensation for which deductibility is limited by Section 162(m) may be approved.

Discussion of 2005 Compensation for the President and Chief Executive Officer

Factors and criteria on which the CEO's compensation is based are consistent with the policies and philosophies applicable to the other Named Executives outlined at the beginning of this report. Claiborne P. Deming, the Company's President and CEO, received a salary increase in 2005 of 4.36%. Both the amount of the increase and the resulting base salary are near the median of the competitive market as determined by a major compensation consulting firm. As noted earlier, in 2005 the Company met its performance target as established for the annual incentive compensation plan. As a participant in the plan in 2005, Mr. Deming earned an annual incentive award of \$1,650,000. In 2005, Mr. Deming was awarded long-term compensation (as adjusted for 2-for-1 stock split effective June 3, 2005) in the form of 156,000 nonqualified stock options and 46,000 shares of performance based restricted stock with terms and conditions as discussed above. Mr. Deming's long-term compensation is below the 50th percentile of the competitive market as determined by a major compensation consulting firm.

This report is submitted by the members of the Executive Compensation Committee: George S. Dembroski (Chairman), Neal E. Schmale, David J. H. Smith and William C. Nolan, Jr.

(2) Number of shares available for issuance determined by calculating one percent of the issued and outstanding shares for the 1992 Management Incentive Plan, plus 615,690 available shares for the Stock Plan for Non-Employee Directors and 149,485 available shares for the Employee Stock Purchase Plan.

(3) Assumes that the 1992 Management Incentive Plan terminates on May 31, 2008.

SUMMARY DESCRIPTION OF MATERIAL TERMS OF EQUITY COMPENSATION PLANS NOT APPROVED BY SHAREHOLDERS:

The Company's Canadian subsidiary offers its employees a Canada Revenue Agency approved savings plan. The plan matches on a one-for-one basis employee contributions up to 4% of base salary for employees with less than two years service and up to 6% for those with two years or more service. A number of investment alternatives are available with each employee determining the direction of his/her contributions as well as the Company match. One of the investment alternatives is Company stock. In 2005, the employee-directed Company match into Company stock under this plan totaled 1,206 shares.

In 2003 the Company's UK based subsidiary offered its employees two types of plans that encourage savings and provide for the acquisition of Company stock: a Save As You Earn Plan (SAYE) and a Share Incentive Plan (SIP). The SAYE and the SIP are Inland Revenue approved.

The SAYE allows employees to contribute up to £3,000 annually. Contributions are invested in an approved Building Trust for a three year period, at the end of which, the employee has the option to direct the amount saved and the interest earned to purchase Company stock at a price equal to 90% of the fair market value of the stock at the beginning of that period. It is permitted to run three plans concurrently but the individual

Edgar Filing: MURPHY OIL CORP /DE - Form DEF 14A

savings limit is £3,000 annually on an aggregate basis. The following details the SAYE plans:

	Start		Options	Options
	Date	Maturity	Outstanding	Exercised
SAYE 2002	11/02	10/05		15,667
SAYE 2003	05/04	04/07	9,346	
SAYE 2005	01/06	12/09	12,435	

Under the SIP, employees may contribute up to the lower of 5% of their base salary or £1,500 for the purchase of Company stock. The Company matches the employee purchases on a 1-for-1 basis. The Company match totaled 4,054 shares in 2005.

RETIREMENT PLANS

The following table shows the estimated annual pension benefit payable, at age 65, under Murphy Oil Corporation's Retirement Plan at December 31, 2005 for the salary and length of service indicated. The amounts shown are subject to reduction for social security benefits.

Pension Plan Table

Remuneration	Years of Service				
	15	20	25	30	35
\$ 200,000	\$ 48,000	\$ 64,000	\$ 80,000	\$ 96,000	\$ 112,000
400,000	96,000	128,000	160,000	192,000	224,000
600,000	144,000	192,000	240,000	288,000	336,000
800,000	192,000	256,000	320,000	384,000	448,000
1,000,000	240,000	320,000	400,000	480,000	560,000
1,500,000	360,000	480,000	600,000	720,000	840,000
2,000,000	480,000	640,000	800,000	960,000	1,120,000
2,500,000	600,000	800,000	1,000,000	1,200,000	1,400,000
3,000,000	720,000	960,000	1,200,000	1,440,000	1,680,000

The compensation covered by the plan is the average cash compensation (salary and bonus) over the highest paid 36-month period during the employee's last ten years of employment. This covered compensation differs from that reflected in the Summary Compensation Table on page 9 in that, for purposes of the plan, bonus is included as a component of cash compensation in the month/year paid, whereas the Summary Compensation Table presents bonus as a component of the prior year's compensation.

For the Named Executive Officers, The covered compensation and estimated credited years of service for the executives are as follows:

Deming \$1,797,500 (27 years); Cossé \$642,778 (26 years); Hulse \$438,750 (16 years); Stobaugh \$450,833 (11 years); and Eckart \$354,167 (15 years).

Benefits are computed on a single life annuity basis and are subject to a deduction for social security amounts. The above table does not reflect any reductions in retirement benefits that would result from the selection of one of the plan's various available survivorship options nor the actuarial reductions required by the plan for retirement earlier than age 62. It is not feasible to calculate the specific amount attributable to the plan for each employee. The Company had no required contributions to the retirement plan in 2005; however a voluntary contribution totaling \$14,500,000 was made during the year.

Employees of Murphy Exploration & Production Company, formerly named Ocean Drilling & Exploration Company (ODECO), who were participants in the ODECO plan on the date of its merger into the Company plan (August 1, 1992) automatically became immediate participants under the Company's plan. As a result of this plan merger, the retirement benefits for Mr. Cossé, a former participant in the ODECO plan, will be the greater of: (i) the retirement benefit determined under the Company plan as to all credited years of service; or (ii) the retirement benefit determined under the ODECO plan for credited years of service up to July 31, 1991 plus the retirement benefit determined under the Company plan for credited years of service from August 1, 1991.

APPROVAL OF APPOINTMENT OF INDEPENDENT REGISTERED PUBLIC ACCOUNTING FIRM

The Board of Directors desires that the stockholders indicate their approval or disapproval of the Audit Committee's action in appointing KPMG LLP the Company's independent registered public accounting firm for the year 2006. KPMG LLP has been serving the Company and its subsidiaries in this role for many years.

KPMG LLP has advised the Company that its members have no direct or indirect financial interest in the Company or any of its subsidiaries. Members of KPMG LLC are expected to be present at the Annual Meeting for the purpose of responding to inquiries by stockholders, and such representatives will have an opportunity to make a statement if they desire to do so.

The Audit Committee pre-approves any engagement of KPMG LLP. In 2005, the percentage of services designated for audit fees, audit-related fees and tax fees that were approved by the Audit Committee were 87%, 6%, and 7%, respectively.

In the event a majority of the stockholders voting should indicate disapproval of the appointment of KPMG LLP, the adverse vote will be considered as a directive to the Audit Committee to select other auditors for the following year. Because of the difficulty and expense of making any substitution of auditors during a year, it is contemplated that the appointment for 2006 will be permitted to stand unless the Audit Committee finds other good reason for making a change.

The Board of Directors recommends that shareholders vote FOR approval of the appointment of KPMG LLP as the Company's independent registered public accounting firm for the year 2006. Proxies solicited on behalf of the Board will be voted FOR this proposal.

The Committee met ten times in 2005. Fees for services provided by the Company's principal independent registered public accounting firm, KPMG LLP, for the years ended December 31, 2005 and 2004 were as follows:

Audit-related fees ⁽¹⁾	169,969	344,831
Audit and audit-related fees	2,625,511	2,489,234
Tax fees ⁽²⁾	200,724	619,153
All other fees		
Total fees	\$ 2,826,235	\$ 3,108,387

- (1) Audit-related fees consisted principally of fees for audits of financial statements of employee benefit plans, review of accounting for proposed transactions, Sarbanes-Oxley implementation advice, audits of properties sold in Western Canada, and other reports primarily required by U.S. government agencies.
- (2) Tax fees consisted of services for sales and use tax consultation, income tax consultation and tax compliance services.

Based on these reviews and discussions, the Audit Committee recommended to the Board that the Company's audited consolidated financial statements be included in its Annual Report on Form 10-K for the year ended December 31, 2005.

This report is submitted by the members of the Audit Committee: R. Madison Murphy (Chairman), Frank W. Blue, George S. Dembroski, Neal E. Schmale and William C. Nolan, Jr.
