CALGON CARBON CORPORATION

FORM 10-Q/A

QUARTER ENDED MARCH 31, 2005

EXPLANATORY NOTE

This Amendment No. 1 on Form 10-Q/A for Calgon Carbon Corporation, (the Company) for the three months ended March 31, 2005 is being filed to amend and restate the item described below contained in the Company's Quarterly Report on Form 10-Q for such period originally filed with the Securities and Exchange Commission on May 5, 2005. On March 21, 2006, management and the Audit Committee of the Company determined that the Unaudited Condensed Financial Statements for the fiscal quarter ended March 31, 2005, that have been included in the Company's Quarterly Report on Form 10-Q filed with the Securities and Exchange Commission on May 5, 2005 contained errors and should not be relied upon.

The Company determined that it had failed to record invoices for professional services in a timely manner totaling \$0.6 million for the fiscal quarter ended March 31, 2005.

This Amendment No. 1 amends Part I, Item 1, Financial Statements; Item 2, Management's Discussion and Analysis of Results of Operations and Financial Condition; and Item 4, Controls and Procedures as follows:

To amend Part I, Item 1, Financial Statements, to restate the Company's Unaudited Consolidated Financial Statements for the three month period ended March 31, 2005.

To amend Part I, Item 2, Management's Discussion and Analysis of Results of Operations and Financial Condition, to take into account the effects of the restatement; and

To amend Part I, Item 4, Controls and Procedures, to discuss the effects of the restatement on management's evaluation of the effectiveness of the Company's internal controls and procedures.

Pursuant to SEC Rule 12b-15, this Form 10-Q/A sets forth the complete text of each item of Form 10-Q listed above as amended, and includes, as Exhibits 31 and 32, new certifications by the Chief Executive Officer and Chief Financial Officer.

In order to preserve the nature and character of the disclosures set forth in such items as originally filed, this Amendment No. 1 does not reflect events occurring after the filing of the original Quarterly Report on Form 10-Q on May 5, 2005, or modify or update the disclosures presented in the original Quarterly Report on Form 10-Q, except to reflect the revisions as described above. Accordingly, this Form 10-Q/A should be read in conjunction with our filings made subsequent to the 2004 Form 10-K and our filing of the original Form 10-Q, including any amendments to those filings.

Additional detail regarding the restatement is included in Note 18 of the Notes to the Unaudited Condensed Consolidated Financial Statements included in Part I, Item 1 of this Amendment No. 1 on Form 10-Q/A.

CALGON CARBON CORPORATION

FORM 10-Q/A

QUARTER ENDED March 31, 2005

The Quarterly Report on Form 10-Q/A contains historical information and forward-looking statements. Statements looking forward in time are included in this Form 10-Q/A pursuant to the "safe harbor" provisions of the Private Securities Litigation Reform Act of 1995. They involve known and unknown risks and uncertainties that may cause the Company's actual results in the future to differ from performance suggested herein. A specific example of such uncertainties includes references to reductions in working capital. In the context of forward-looking information provided in this Form 10-Q/A and in other reports, please refer to the discussion of risk factors detailed in, as well as the other information contained in the Company's filings with the Securities and Exchange Commission.

**PART I CONDENSED CONSOLIDATED FINANCIAL INFORMATION**

**Item 1. Condensed Consolidated Financial Statements**

**INTRODUCTION TO THE CONDENSED CONSOLIDATED FINANCIAL STATEMENTS**

The unaudited interim condensed consolidated financial statements included herein have been prepared by Calgon Carbon Corporation and subsidiaries (the Company), without audit, pursuant to the rules and regulations of the Securities and Exchange Commission. Certain information and footnote disclosures normally included in annual financial statements prepared in accordance with accounting principles generally accepted in the United States of America have been condensed or omitted pursuant to such rules and regulations. Management of the Company believes that the disclosures are adequate to make the information presented not misleading when read in conjunction with the Company's audited consolidated financial statements and the notes included therein for the year ended December 31, 2004, as filed with the Securities and Exchange Commission by the Company in Form 10-K.

In management's opinion, the unaudited interim condensed consolidated financial statements reflect all adjustments, which are of a normal and recurring nature, which are necessary for a fair presentation, in all material respects, of financial results for the interim periods presented. Operating results for the first three months of 2005 are not necessarily indicative of the results that may be expected for the year ending December 31, 2005.

## CALGON CARBON CORPORATION

NOTES TO CONDENSED CONSOLIDATED FINANCIAL STATEMENTS

(Dollars in Thousands)

(Unaudited)

## 1. Acquisition

On February 18, 2004, the Company acquired substantially all of the assets of Waterlink, Incorporated's (Waterlink) United States-based subsidiary Barnebey Sutcliffe Corporation, and 100% of the outstanding common shares of Waterlink (UK) Limited, a holding company that owns 100% of the outstanding common shares of Waterlink's operating subsidiaries in the United Kingdom.

Known as Barnebey Sutcliffe in the United States and Sutcliffe Speakman in the United Kingdom, Waterlink Specialty Products is a leading provider of products, equipment, systems and services related to activated carbon and its uses for water and air purification, solvent recovery, odor control and chemical processing. The primary reasons for the Company's acquisition of Waterlink Specialty Products were to complement the Company's existing business in terms of (i) expanding its customer base; (ii) diversifying its product mix; (iii) providing access to profitable, niche markets; and (iv) enhancing its profitability and cash flow.

The aggregate purchase price, including direct acquisition costs, and net of cash acquired, was \$35.3 million, plus the assumption of certain non-working capital liabilities amounting to \$14.2 million. The Company funded approximately \$33.3 million of the purchase price through borrowings from its refinanced U.S. revolving credit facility (see Note 11).

The purchase price was allocated to the net assets acquired as follows:

(in thousands)	
Current assets	\$ 22,705
Non-current assets	6,772
Intangible assets	10,153
Goodwill	16,137
Liabilities assumed	(19,377)
Total purchase price	\$ 36,390
Less cash and cash equivalents acquired	(1,140)
Total purchase price (net of cash)	\$ 35,250

The results of Waterlink have been included in the Company's consolidated financial statements from the date of its acquisition by the Company. The following unaudited pro forma results of operations assume that Waterlink Specialty Products is included in the results of operations for the full period indicated. Such results are not necessarily indicative of the actual results of operations that would have been achieved nor are they necessarily indicative of future results of operations. There are no material, nonrecurring items included in the reported pro forma results of operations.

(in thousands except per share data)	Three Months Ended March 31,	
	2005	2004
<u>Pro Forma:</u>		
Revenues	\$ 83,406	\$ 78,417

Edgar Filing: CALGON CARBON CORPORATION - Form 10-Q/A

Net loss	\$	(3,409)	\$	(597)
Net loss per common share basic and diluted	\$	(.09)	\$	(.02)

**Table of Contents**

Additionally, in December 2004, the Company acquired the additional 20% interest of the then 80% owned Datong Carbon Corporation. The purchase resulted in the Company recording additional goodwill of \$0.4 million related to the purchase. The purchase price was paid in the first quarter of 2005.

## 2. Gulf Coast Facility Impairment Charge

In 2003, the Company temporarily suspended construction of new facility in the Gulf Coast region of the United States as it evaluated strategic alternatives. On March 22, 2005, the Company concluded, and the Board of Directors approved, that cancellation of this project was warranted and that construction of such a facility should be suspended for the foreseeable future. Accordingly, the Company recorded an impairment charge of \$2.2 million for the period ended March 31, 2005.

## 3. Inventories:

	March 31, 2005	December 31, 2004
Raw materials	\$ 14,395	\$ 15,727
Finished goods	53,163	49,116
	\$ 67,558	\$ 64,843

## 4. Supplemental Cash Flow Information:

	Three Months Ended March 31,	
	2005	2004
Cash paid during the period for:		
Interest	\$ (1,283)	\$ (670)
Income taxes net	\$ 38	\$ (741)

## 5. Dividends:

Common stock dividends of \$.03 per common share were declared and paid during the quarter ended March 31, 2005. Common stock dividends declared and paid during the quarter ended March 31, 2004 were \$.03 per common share. Common stock dividends in the amount of \$.03 per common share were declared on April 20, 2005.

## 6. Comprehensive loss:

	Three Months Ended March 31,	
	2005	2004
Net loss	\$ (3,409)	\$ (549)
Other comprehensive loss, net of taxes	(2,954)	(368)
Comprehensive loss	\$ (6,363)	\$ (917)

The only matters contributing to the other comprehensive loss during the three months ended March 31, 2005 were the foreign currency translation adjustment of (\$2.9) million and the change in the fair value of the derivative instruments of (\$56) thousand as described in Note 8. The only matters contributing to the other comprehensive loss during the three months ended March 31, 2004 were the foreign currency translation adjustment of (\$386) thousand and the change in the fair value of the derivative instruments of \$18 thousand.

7. Segment Information:

The Carbon and Service segment manufactures granular activated carbon for use in applications to remove organic compounds from liquids, gases, water, and air. This segment also consists of services related to

**Table of Contents**

activated carbon including reactivation of spent carbon and the leasing, monitoring, and maintenance of carbon fills at customer sites. The service portion of this segment also includes services related to the Company's ion exchange technologies for treatment of groundwater and process streams. The Equipment segment provides solutions to customers' air and water process problems through the design, fabrication, and operation of systems that utilize the Company's enabling technologies: carbon adsorption, ultraviolet light, and advanced ion exchange separation. The Consumer segment brings the Company's industrial purification technologies directly to the consumer in the form of products and services including carbon cloth, activated carbon for household odors, and charcoal products.

	<b>Three Months Ended March 31,</b>	
	<b>2005</b>	<b>2004</b>

	<b>\$ 356,850</b>	<b>\$ 363,898</b>

---

**Table of Contents**

**8. Derivative Instruments**

The Company accounts for its foreign exchange derivative instruments under Statement of Financial Accounting Standards ( SFAS ) No. 133, Accounting for Derivative Instruments and Hedging Activities, as amended. This standard requires recognition of all derivatives as either assets or liabilities at fair value and may result in additional volatility in both current period earnings and other comprehensive income as a result of recording recognized and unrecognized gains and losses from changes in the fair value of derivative instruments. The Company had fifty-eight derivative instruments outstanding at March 31, 2005 of which one was a foreign currency swap and fifty-seven were foreign currency forward exchange contracts. The Company applied hedge accounting treatment for eighteen of the foreign currency forward exchange contracts and the foreign currency swap. The Company held twenty-eight derivative instruments at March 31, 2004 which were all foreign currency forward exchange contracts. The Company applied hedge accounting treatment for all of the foreign currency forward exchange contracts outstanding at March 31, 2004.

At March 31, 2005 and 2004, the Company held eighteen and twenty-eight foreign currency forward exchange contracts, respectively, which are treated as foreign exchange cash flow hedges regarding payment for inventory purchases. The change in the fair market value of the effective hedge portion of the foreign currency forward exchange contracts of (\$56) thousand and \$18 thousand for the periods ended March 31, 2005 and 2004 was recorded in other comprehensive (income) loss (see Note 6). It will be released into operations over the next 12 months based on the timing of the sales of the underlying inventory. The release to operations will be reflected in cost of products sold. During the period ended March 31, 2005, the Company recorded an immaterial gain in other income for the remaining thirty-nine foreign currency forward exchange contracts that did not qualify for hedge accounting treatment.

On April 26, 2004, the Company entered into a ten-year foreign currency swap agreement to fix the foreign exchange rate on a \$6.5 million intercompany loan between the Company and its foreign subsidiary, Chemviron Carbon Ltd. Since its inception, the foreign currency swap has been treated as a foreign exchange cash flow hedge. Accordingly, the change in the fair value of the effective hedge portion of the foreign currency swap of (\$0.1) million for the period ended March 31, 2005 was recorded in other comprehensive income (loss). The balance of the effective hedge portion of the foreign currency swap recorded in other long-term liabilities was \$0.7 million as of March 31, 2005.

No component of the derivatives gains or losses has been excluded from the assessment of hedge effectiveness. For the periods ended March 31, 2005 and 2004, the net gain or loss recognized due to the amount of hedge ineffectiveness was insignificant.

**9. Contingencies**

On December 31, 1996, the Company purchased the common stock of Advanced Separation Technologies Incorporated (AST) from Progress Capital Holdings, Inc. and Potomac Capital Investment Corporation. On January 12, 1998, the Company filed a claim for unspecified damages in the United States District Court in the Western District of Pennsylvania alleging among other things that Progress Capital Holdings and Potomac Capital Investment Corporation materially breached various AST financial and operational representations and warranties included in the Stock Purchase Agreement. Based upon information obtained since the acquisition and corroborated in the course of pre-trial discovery, the Company believes that it has a reasonable basis for this claim and intends to vigorously pursue reimbursement for damages sustained. Neither the Company nor its counsel can predict with certainty the amount, if any, of recovery that will be obtained from the defendants in this matter.

The Company is also currently a party in three cases involving alleged infringement of its U.S. Patent No. 6,129,893 and U.S. Patent No. 6,565,803 B1 ( U.S. Patents ) or Canadian Patent No. 2,331,525 ( 525 Patent ) for the method of preventing cryptosporidium infection in drinking water. In the first case, Wedeco Ideal Horizons, Inc. filed suit against the Company seeking a declaratory judgment that it does not infringe the Company's U.S. Patents and alleging unfair competition by the Company. This matter is currently pending in the United States District Court for the District of New Jersey. In the second case, the

---

**Table of Contents**

Company has pending litigation against the Town of Ontario, New York, Trojan Technologies, Inc. ( Trojan ) and Robert Wykle, et al. in the United States District Court for the Western District of New York alleging that the defendant is practicing the method claimed within the U.S. Patents without a license. In the third case, the Company has pending litigation against the City of North Bay, Ontario, Canada ( North Bay ) and Trojan in the Federal Court of Canada alleging infringement of the 525 Patent by North Bay and inducement of infringement by Trojan. Neither the Company nor its counsel can predict with any certainty the outcome of the three matters.

The Company is a party in a case filed by the City of DeQuincy, Louisiana (the City ). The City seeks to repurchase land sold to the Company by the City as a site for a regeneration facility to be constructed by the Company. The City claims a right to recover title to the land under the terms of the agreement of sale upon repayment of the original purchase price of \$20,000; the claim is predicated on its assertion that the Company has not timely commenced construction of the project. The Company believes that the City's claim is without merit and that it will ultimately prevail although there can be no assurance that an adverse outcome will not occur. No other liabilities are expected in the event that the Company reconveys the land.

The Company has received a demand from the Pennsylvania Department of Environmental Protection (PADEP) that the Company reimburse PADEP for response costs incurred by the agency to remediate a site owned by a third party and located in Allegheny County, Pennsylvania ( Site ). The demand also included an unspecified amount for interest and for any future costs that might be incurred by PADEP at the Site. The Company understands that the response costs incurred by the PADEP to date are approximately \$1.4 million. Based on information provided by the PADEP, the Site is approximately 8 acres and was used from the 1950's until the 1960's as a disposal site for coke or carbon sweepings and other industrial wastes. The Company has been in discussions with PADEP regarding the Company's position that it is not the entity that disposed of materials containing the contaminants identified by PADEP at the Site and that any materials that may have been deposited by the Company's predecessor did not contain actionable levels of hazardous substances identified by PADEP. PADEP presented an offer to the Company to settle its alleged liability relating to the \$965,000 balance of unreimbursed response costs in return for a payment of \$475,000. The Company believes PADEP's position is not meritorious, and the demand is unwarranted. The Company intends to continue to vigorously defend the matter.

In September 2004, a customer of one of the Company's distributors demanded payment by the Company of approximately \$340,000 as reimbursement for losses allegedly caused by activated carbon produced by the Company and sold by the distributor. The claimant contends that the activated carbon contained contamination which adversely impacted its production process. The Company is in the process of evaluating the claim, and at this time, cannot predict with any certainty the outcome of this matter.

The Company is involved in various legal proceedings, lawsuits and claims, including employment, product warranty and environmental matters of a nature considered normal to its business. It is the Company's policy to accrue for amounts related to these legal matters if it is probable that a liability has been incurred and an amount is reasonably estimable. Management believes, after consulting with counsel, that the ultimate liabilities, if any, resulting from such lawsuits and claims will not materially affect the consolidated results of operations, cash flows, or financial position of the Company.

In conjunction with the purchase of substantially all of Waterlink's operating assets and the stock of Waterlink's U.K. subsidiary, several environmental studies were performed on the Columbus, Ohio property by environmental consulting firms which identified and characterized areas of contamination. In addition, these firms identified alternative methods of remediating the property, identified feasible alternatives and prepared cost evaluations of the cost of the various alternatives. Liability estimates are based on an evaluation of, among other factors, currently available facts, existing technology, presently enacted laws and regulations, and the remediation experience of other companies. The Company has concluded from the information in the studies that a loss at this property is probable and has included an estimate of such loss of \$5.6 million, which was recorded as an undiscounted liability on the opening balance sheet at the date of the acquisition, which is presented as a component of noncurrent other liabilities in the Company's March 31, 2005 consolidated balance sheet. As of March 31, 2005, the Company had an accrual of \$5.3 million recorded. The change in the accrual is as a result of a decrease in estimate of \$0.2 million, which reduced the acquisition price of Waterlink Specialty Products, and the environmental

**Table of Contents**

remediation previously incurred of \$0.1 million. It is reasonably possible that a change in the estimate of this obligation will occur as additional investigative work is performed and the remediation activity commences.

The ultimate remediation costs are dependent upon the extent and types of contamination, which may change as a result of more detailed information developed through upcoming investigations and experience gained through remediation activities. The accrued amounts are expected to be paid out over the course of several years. The Company has not incurred any environmental remediation expense for the three months ended March 31, 2005.

The Company owns a 49% interest in a joint venture, Calgon Mitsubishi Chemical Corporation, which was formed on October 1, 2002. At March 31, 2005, Calgon Mitsubishi Chemical Corporation has \$13.3 million in borrowings from an affiliate of the majority owner of the joint venture. The Company has agreed with the joint venture and the lender that, upon request by the lender, the Company will execute a guarantee for up to 49% of such borrowings. At March 31, 2005, the lender has not requested, and the Company has not provided, such guarantee.

10. Goodwill & Intangible Assets

The Company accounts for goodwill and intangible assets in accordance with SFAS No. 142, Goodwill and Other Intangible Assets. This standard requires that goodwill and intangible assets with indefinite useful lives not be amortized but should be tested for impairment at least annually. Management has elected to do the annual impairment test on December 31<sup>st</sup> of each year. As required by SFAS No. 142, management has allocated goodwill to the Company's reporting units. No such impairment existed based on the Company's most recent test at December 31, 2004.

The Company used a combination of methods to determine the fair value of the intangible assets of the acquired Waterlink Specialty Products, (see Note 1), including the cost approach, the market approach, and the income approach. The acquired intangible assets consist primarily of customer contracts, customer relationships, and large equipment contracts backlog and are recognized apart from goodwill. The acquired intangible assets' useful lives are based on the expected future cash flows the Company is expected to realize and the amortization will be recognized to match the expected cash flows.

**Table of Contents**

The following is the categorization of the Company's intangible assets as of March 31, 2005 and December 31, 2004 respectively:

	Weighted Average Amortization Period	March 31, 2005		December 31, 2004	
		Gross Carrying Amount	Accumulated Amortization	Gross Carrying Amount	Accumulated Amortization
<b>Amortized Intangible Assets:</b>					
Patents	15.6 Years	\$ 1,369	\$ (650)	\$ 1,369	\$ (626)
Customer Relationships	17.0 Years	9,323	(1,414)	9,323	(1,125)
Customer Contracts	2.0 Years	664	(392)	664	(322)
Large Equipment Contracts Backlog	1.0 Years	166	(142)	166	(109)
License Agreement	5.0 Years	500	(142)	500	(117)
Other	10.0 Years	665	(203)	665	(161)
Unpatented Technology	20.0 Years	2,875	(907)	2,875	(865)
<b>Total</b>	<b>16.0 Years</b>	<b>\$ 15,562</b>	<b>\$ (3,850)</b>	<b>\$ 15,562</b>	<b>\$ (3,325)</b>

For the three months ended March 31, 2005 and 2004, the Company recognized \$0.5 million and \$0.3 million, respectively, of amortization expense. The Company estimates amortization expense to be recognized during the next five years as follows:

For the year ended 12/31/05	\$ 1,963
For the year ended 12/31/06	\$ 1,763
For the year ended 12/31/07	\$ 1,530
For the year ended 12/31/08	\$ 1,330
For the year ended 12/31/09	\$ 1,057

The changes in the carrying amounts of goodwill by segment for the three months ended March 31, 2005 are as follows:

	Carbon & Service Segment	Equipment Segment	Consumer Segment	Total
Balance as of January 1, 2005	\$ 20,983	\$ 14,028	\$ 60	\$ 35,071
Foreign exchange	(80)	(41)		(121)
Balance as of March 31, 2005	\$ 20,903	\$ 13,987	\$ 60	\$ 34,950

#### 11. Borrowing Arrangements

During the quarter ended March 31, 2005, the Company amended its existing \$125.0 million unsecured United States revolving Credit Facility that was due to expire in February 2007. The amendment extended the credit facility an additional year to February 2008 and increased the ratio of debt to EBITDA covenant in the agreement. All other terms of the agreement remain the same. Included in the agreement is a letter of credit sub-facility that may not exceed \$30.0 million. The interest rate is based upon Euro based rates with other interest rate options available. The applicable Euro Dollar margin ranges from 0.80% to 1.85% and the annual facility fee ranges from 0.20% to 0.40% of the committed amount and is based upon the Company's ratio of debt to earnings before interest, income tax, depreciation and amortization (EBITDA). The current applicable Euro Dollar margin was 1.53% in addition to a facility fee of 0.35%. At March 31, 2005, borrowings under the facility were being charged a weighted average interest of 4.41%. The credit facility's covenants impose financial restrictions on the Company, including maintaining certain ratios of debt to EBITDA, operating income to net interest expense and operating assets to debt and net worth. In addition, the facility imposes gross spending restrictions on capital expenditures, dividends, treasury share repurchases, acquisitions and investments in non-controlled subsidiaries. The facility contains mandatory prepayment provisions for proceeds in excess of pre-established amounts of certain events as defined within the loan agreement.

**Table of Contents****12. Stock Compensation Plans**

The Company applies Accounting Principles Board Opinion No. 25, Accounting for Stock issued to Employees, and related interpretations in accounting for its stock-based compensation plans. Accordingly, no compensation cost has been recognized for these plans. Had compensation cost for the Company's stock-based compensation plans been determined based on the fair value at the grant dates for awards under those plans, the Company's net loss and net loss per common share would have been as follows:

(Dollars in thousands except per share data)	Three Months Ended March 31	
	2005	2004
Net loss		
As reported	\$ (3,409)	\$ (549)
Stock-based compensation, net of tax effect	\$ (127)	\$ (328)
Pro forma	\$ (3,536)	\$ (877)
Weighted average shares outstanding		
Basic and Diluted	39,200,362	39,024,316
Net loss per common share Basic and Diluted		
As reported	\$ (.09)	\$ (.01)
Pro forma	\$ (.09)	\$ (.02)

**13. Integration accrual for acquired business**

At the time of the acquisition of substantially all of Waterlink's U.S. operating assets and the stock of Waterlink's U.K. subsidiary, the Company had begun to formulate a plan for eliminating redundant activities and reviewing substantially all employment positions at the acquired companies. Subsequent to the acquisition, the preliminary plan was communicated to all affected employees and the Company began execution of the plan. Management has finalized the plan and substantially all of the separations resulting from the Company's integration plan have been completed and benefits paid as of January 31, 2005 with the remainder to be paid by December 31, 2005.

The Company has currently estimated an obligation for termination and relocation benefits of \$0.5 million related to sales, administrative, engineering and production positions of the acquired companies which was recorded on the opening balance sheet as of the date of acquisition and is presented as a component of accounts payable and accrued liabilities in the Company's consolidated balance sheet. For the three months ended March 31, 2005 and 2004, the amounts that the Company has paid and charged against the termination and relocation reserve were \$57 thousand and \$0, respectively.

No further significant changes to the current plan are expected. Any future change to the Company's original estimate of termination and relocation benefits for employees of the acquired companies as a result of the finalization of the integration plan will be recorded as an adjustment to earnings.

**14. Restructuring of Operations**

On February 4, 2005, the Company's Board of Directors approved a re-engineering plan presented by the Company. The plan includes the closure of two small manufacturing facilities, the potential divestiture of two non-core businesses, and the elimination of approximately 70 employees globally. The Company communicated the plan to certain employees on February 16, 2005 and plans to communicate the plan to the remaining affected employees during the third quarter of 2005. It is unlikely that a significant change to the plan will be made or that the plan will be withdrawn.

**Table of Contents**

The restructuring charge for the three months ended March 31, 2005 was:

(in thousands)	
Pension curtailment charge	\$ 215
Closure of manufacturing facilities	37
<b>Total restructuring charge</b>	<b>\$ 252</b>

## 15. Pensions

U.S. Plans:

For U.S. plans, the following table provides the components of net periodic pension costs of the plans for the periods ended March 31, 2005 and 2004:

Pension Benefits (in thousands)	Three Months Ended March 31	
	2005	2004
Service cost	\$ 768	\$ 677
Interest cost	1,172	1,090
Expected return on plan assets	(1,044)	(893)
Amortization of prior service cost	118	118
Net amortization	139	113
Curtailment	215	
<b>Net periodic pension cost</b>	<b>\$ 1,368</b>	<b>\$ 1,105</b>

The expected long-term rate of return on plan assets is 8.50% in 2005.

Employer Contributions

In its 2004 financial statements, the Company disclosed that it expected to contribute \$0.4 million to its U.S. pension plans in 2005. As of March 31, 2005, no contributions have been made. The Company expects to contribute the \$0.4 million over the remainder of the year.

European Plans:

For European plans, the following table provides the components of net periodic pension costs of the plans for the periods ended March 31, 2005 and 2004:

Pension Benefits (in thousands)	Three Months Ended March 31	
	2005	2004
Service cost	\$ 241	\$ 188
Interest cost	430	342
Expected return on plan assets	(302)	(215)
Transition amount amortization	14	12
Net amortization	23	7

## Edgar Filing: CALGON CARBON CORPORATION - Form 10-Q/A

Net periodic pension cost	\$ 406	\$ 334
---------------------------	--------	--------

The expected long-term rate of return on plan assets ranges from 5.00% to 8.00 % in 2005.

### Employer Contributions

In its 2004 financial statements, the Company disclosed that it expected to contribute \$1.5 million to its European pension plans in 2005. As of March 31, 2005, the Company contributed \$0.2 million. The Company expects to contribute the remaining \$1.3 million as well as an additional \$0.7 million over the remainder of the year.

## **Table of Contents**

### **Defined Contribution Plans**

The Company makes matching contributions on behalf of each participant in an amount equal to 25% of the employee contribution up to a maximum of 4% of employee compensation. Employer contributions vest immediately. Total expenses related to this defined contribution plan were \$49 thousand and \$36 thousand, respectively, for the periods ended March 31, 2005 and 2004.

### **16. New Accounting Pronouncements**

In November 2004, the FASB issued SFAS No. 151, *Inventory Costs* an amendment of ARB No. 43, Chapter 4, which requires the recognition of costs of idle facilities, excessive spoilage, double freight and rehandling costs as a component of current-period expenses. The provisions of SFAS No. 151 are effective for inventory costs incurred during fiscal years beginning after June 15, 2005. Management has not yet evaluated the impact of the adoption of SFAS No. 151 on the Company's financial statements. The Company plans to adopt SFAS No. 151 effective July 1, 2005 as required.

In December 2004, the FASB issued SFAS No. 123R, *Share-Based Payment*, which establishes the accounting for transactions in which an entity exchanges its equity instruments or certain liabilities based upon an entity's equity instruments for goods or services. SFAS No. 123R generally requires that publicly traded companies measure the cost of employee services received in exchange for an award of equity instruments based on the fair value of the award at the grant date. That cost will be recognized over the period during which an employee is required to provide service in exchange for the award which is usually the vesting period. Management expects to adopt SFAS No. 123R beginning January 1, 2006 as required. Management has not yet evaluated the impact of the adoption of SFAS No. 123R.

### **17. Reclassification**

The Company has reclassified its 2004 equity in the income of Calgon Mitsubishi Chemical Corporation line item from above loss before income taxes to below loss before income taxes to conform with the Company's presentation for the year ended December 31, 2004 and the period ended March 31, 2005.

### **18. Restatement**

Subsequent to the issuance of the Company's Condensed Consolidated Financial Statements for the three months ended March 31, 2005, management of the Company determined that certain invoices for professional services totaling \$0.5 million for the three months ended March 31, 2005 had not been recorded during the periods in which the liabilities were incurred.

As a result, the accompanying Condensed Consolidated Financial Statements for the three months ended March 31, 2005 have been restated from the amounts previously reported. The restatement adjustment for the three months ended March 31, 2005 includes \$371,000 relating to the prior fiscal year, which the Company determined to be immaterial in relation to its Financial Statements for the current and prior periods.

The effect of the restatement for the three months ended March 31, 2005 is to increase selling, general and administrative expenses by \$0.6 million; increase income tax benefit by \$28 thousand; increase net loss by \$0.6 million; and increase net loss per common share by \$0.02.

**Table of Contents**

A summary of the significant effects of the restatement is as follows:

	<b>As Previously Reported</b>	<b>As Restated</b>
	<b>(Dollars in Thousands, Except Per Share Data)</b>	
	<b>(Unaudited)</b>	
<b>Three Months Ended March 31, 2005:</b>		
Selling, general and administrative expenses	\$ 16,020	\$ 16,636
Loss from operations	(2,522)	(3,138)
Loss before income taxes, equity income, and minority interest	(3,820)	(4,436)
Net loss	(2,821)	(3,409)
Net loss per common share Basic and diluted	(.07)	(.09)
<b>As of March 31, 2005:</b>		
Deferred income tax asset long term	\$ 15,488	\$ 15,516
Total assets	356,822	356,850
Accounts payable and accrued liabilities	33,943	34,559
Total current liabilities	60,109	60,725
Total liabilities	194,224	194,840
Retained earnings	108,806	108,218
Total shareholders equity	162,598	162,010

---

**Table of Contents**

**Item 2. Management's Discussion and Analysis of Results of Operations and Financial Condition**

This discussion should be read in connection with the information contained in the Unaudited Condensed Consolidated Financial Statements and Notes to the Unaudited Condensed Financial Statements and gives effect to the restatement discussed in Note 18 to the Unaudited Condensed Consolidated Financial Statements.

**Results of Operations**

On February 18, 2004, the Company completed the acquisition of the Specialty Products Division of Waterlink, Incorporated (WSP). The acquisition is reflected in the Company's 2005 results of operations for a full quarter and for one and one half months for the comparative 2004 period.

Consolidated net sales increased by \$12.2 million or 17.1% for the quarter ended March 31, 2005 versus the quarter ended March 31, 2004. Net sales for the quarter ended March 31, 2005 for the Carbon and Service segment increased \$3.4 million or 6.2% versus the similar 2004 period. The increase was primarily due to strong demand in Europe for activated carbon for potable water and specialty applications and a \$0.8 million positive impact of foreign currency translation. Net sales for the Equipment segment increased \$6.1 million or 76.2% in the first quarter 2005 versus the comparable 2004 period. The increase was primarily due to stronger demand for both ISEP® systems for food applications and solvent recovery equipment as well as a \$0.1 million positive impact of foreign currency translation. Net sales for the quarter ended March 31, 2005 for the Consumer segment increased by \$2.6 million or 35.5% versus the quarter ended March 31, 2004. The increase was attributable to stronger sales in all product categories in the segment: charcoal, activated carbon cloth, and PreZerve® storage products as well as a \$0.4 million positive impact of foreign currency translation. The total positive impact of foreign currency translation on consolidated net sales for the quarter ended March 31, 2005 was \$1.4 million.

Net sales less cost of products sold, as a percentage of net sales was 27.3% for the quarter ended March 31, 2005 compared to 29.8% for the similar 2004 period, a 2.5 percentage point decrease. Carbon and Service margins in the Americas were adversely affected by higher raw material, energy, employee benefits, and transportation costs as well as higher outsourced product costs. An additional source of the margin decline was due to increased sales of lower margin outsourced products as a percent of the Company's overall carbon and service sales mix. Partially offsetting the higher product costs was the lower cost of U.S. sourced carbon products shipped to the Company's Belgian branch as a result of the strengthening of the Euro in 2005 versus the comparable 2004 period.

The depreciation and amortization increase of \$0.5 million during the quarter ended March 31, 2005 versus the quarter ended March 31, 2004 was primarily related to the intangible amortization and additional depreciation charges resulting from the acquisition of WSP that is reflected in the 2005 results for a full quarter versus one and one half months of the comparative 2004 period.

Selling, general and administrative expenses for the quarter ended March 31, 2005 were higher than the comparable 2004 quarter by \$1.7 million. The increase was primarily related to severance costs for employee separations that occurred during the first quarter of 2005 and increased litigation expense.

The impairment charge of \$2.2 million for the quarter ended March 31, 2005 was as a result of the Company's decision on March 22, 2005 to cancel the construction of a reactivation facility on the U.S. Gulf Coast and to suspend the construction of such a facility for the foreseeable future.

The restructuring charge of \$0.2 million was primarily related to pension curtailment charges as a result of the above mentioned employee separations.

Other expense for the quarter ended March 31, 2005 decreased \$0.4 million as compared to March 31, 2004. The decrease is primarily due to a non-recurring foreign exchange loss of approximately \$0.3 million recorded in the quarter ended March 31, 2004 which related to an intercompany loan between the Company and its subsidiary, Chemviron Carbon Ltd., for the purchase of 100% of the outstanding common shares of Waterlink (UK) Limited.

## Table of Contents

Interest expense, net of interest income, for the quarter ended March 31, 2005 increased versus the quarter ended March 31, 2004 by \$0.4 million. The increase in interest expense was primarily the result of increased interest rates and the increased debt from the 2004 acquisition.

The effective tax rate for the quarter ended March 31, 2005 was 17.0% compared to 12.8% for the quarter ended March 31, 2004. The quarter ended March 31, 2005 tax rate was lower than the Federal Income Tax Rate due to certain benefits, principally the exclusion provided under United States income tax laws with respect to the Extraterritorial Income Exclusion Benefit, recognition of foreign tax credit benefits, and recognition of state income tax benefits. The quarter ended March 31, 2004 tax rate was lower than the Federal Income Tax Rate due to the Extraterritorial Income Exclusion Benefit, recognition of foreign tax credit benefits, recognition of state income tax benefits and change in estimate of prior year accruals. The primary items that contributed to the change in the effective tax rate between the quarter ended March 31, 2005 and the similar period for 2004 were the Extraterritorial Income Exclusion Benefit and the equity income in Calgon Mitsubishi Chemical Corporation which was reclassified from loss before income taxes to loss after income taxes (see Note 17).

During the preparation of its effective tax rate, the Company uses an annualized estimate of pre-tax earnings. Throughout the year this annualized estimate may change based on actual results and annual earnings estimate revisions. Because the Company's permanent tax benefits are relatively constant, changes in the annualized estimate may have a significant impact on the effective tax rate in future periods.

The Company provides an estimate for income taxes based on an evaluation of the underlying accounts, its tax filing positions and interpretations of existing law. Changes in estimates are reflected in the year of settlement or expiration of the statute of limitations. The Company does not believe that resolution of existing unresolved tax matters will have a material impact on the consolidated financial condition of the Company, although a resolution could have a material impact on the Company's consolidated statement of income and comprehensive income for a particular future period and on the Company's effective tax rate.

Equity in income of Calgon Mitsubishi Chemical Corporation for the quarter ended March 31, 2005 decreased by \$0.2 million versus the quarter ended March 31, 2004. A large municipal fill in the quarter ended March 31, 2004 contributed to the stronger 2004 results which was not repeated in the first quarter of 2005.

## Financial Condition

### Working Capital and Liquidity

Cash flows used in operating activities were \$2.4 million for the period ended March 31, 2005 compared to cash generated from operations of \$4.6 million for the comparable 2004 period. The \$7.0 million decrease represents a combination of decreased earnings and an increase in operating working capital (exclusive of debt) in 2005 versus the comparable 2004 period.

Common stock dividends paid during the quarter ended March 31, 2005 represented \$.03 per common share which was consistent with the quarter ended March 31, 2004.

Total debt at March 31, 2005 was \$87.7 million, an increase of \$3.1 million from December 31, 2004. The additional borrowings were used in financing operating activities.

The Company expects that current cash from operating activities plus cash balances and available external financing will be sufficient to meet its operating requirements for the next twelve months and the foreseeable future.

During the quarter ended March 31, 2005, the Company amended its existing \$125.0 million unsecured revolving United States Credit Facility that was due to expire in February 2007. The amendment extended the credit facility an additional year to February 2008 and increased the ratio of debt to EBITDA covenant in the agreement. All other terms of the agreement remain the same. Included in the agreement is a letter of credit sub-facility that may not exceed \$30.0 million. The interest rate is based upon Euro based rates with other

---

## Table of Contents

interest rate options available. The applicable Euro Dollar margin ranges from 0.80% to 1.85% and the annual facility fee ranges from 0.20% to 0.40% of the committed amount and is based upon the Company's ratio of debt to earnings before interest, income tax, depreciation and amortization (EBITDA). The current applicable Euro Dollar margin was 1.53% in addition to a facility fee of 0.35%. At March 31, 2005, borrowings under the facility were being charged a weighted average interest of 4.41%. The credit facility's covenants impose financial restrictions on the Company, including maintaining certain ratios of debt to EBITDA, operating income to net interest expense and operating assets to debt and net worth. In addition, the facility imposes gross spending restrictions on capital expenditures, dividends, treasury share repurchases, acquisitions and investments in non-controlled subsidiaries. The facility contains mandatory prepayment provisions for proceeds in excess of pre-established amounts of certain events as defined within the loan agreement.

The Company is obligated to make future payments under various contracts such as debt agreements, lease agreements, and unconditional purchase obligations. As of March 31, 2005, there have been no changes in the payment terms of long-term debt since December 31, 2004. The expectation for the Company's commitments on operating leases increased as a result of the lease extensions of certain office space. As of March 31, 2005, the Company expects future minimum requirements under the terms of operating leases to be \$8.2 million in 2005, \$5.0 million in 2006, \$3.8 million in 2007, \$3.0 million in 2008, \$2.7 million in 2009, \$2.5 million in 2010, and \$12.2 million thereafter. The Company's expectations on future minimum purchase requirements for raw and other materials increased since December 31, 2004 as a result of two additional purchase contracts. The Company expects its purchases of raw and other materials to be \$26.1 million in 2005, \$23.0 million in 2006, \$17.9 million in 2007, \$13.1 million in 2008, \$5.7 million in 2009, \$5.7 million in 2010, and \$5.7 million thereafter.

### Capital Expenditures and Investments

Capital expenditures for property, plant and equipment totaled \$1.7 million for the three months ended March 31, 2005 compared to expenditures of \$3.8 million for the same period in 2004. The expenditures for the period ended March 31, 2005 consisted primarily of improvements to the Company's manufacturing facilities of \$1.4 million and customer capital of \$0.1 million. The comparable 2004 expenditures included capacity expansion at the Company's Catlettsburg, Kentucky facility of \$1.2 million, customer capital of \$1.2 million, and \$0.8 million of other improvements to manufacturing facilities. Capital expenditures for 2005 are projected to be approximately \$13.6 million.

The March 31, 2005 purchase of business cash out flow of \$0.5 million, as shown on the statement of cash flows, represents the Company's increased equity ownership in Datong Carbon Corporation from 80% to 100% for a purchase price of \$0.7 million with the final balance to be paid in the second quarter. The transaction was initiated in December 2004 and the Company recorded goodwill of \$0.4 million at that time. The 2004 purchase of business cash out flow of \$35.3 million, as shown on the statement of cash flows, represents the Company's February 18, 2004 acquisition of Waterlink Specialty Products. The purchase resulted in the Company recording goodwill of \$16.1 million.

In 2003, the Company temporarily suspended construction of a new facility in the Gulf Coast region of the United States as it evaluated strategic alternatives. On March 22, 2005, the Company concluded and the Board of Directors approved that cancellation of this project was warranted and that construction of such a facility should be suspended for the foreseeable future. Accordingly, the Company recorded an impairment charge of \$2.2 million for the period ended March 31, 2005.

### Regulatory Matters

Each of the Company's domestic production facilities has permits and licenses regulating air emissions and water discharges. All of the Company's domestic production facilities are controlled under permits issued by local, state and federal air pollution control entities. The Company is presently in compliance with these permits. Continued compliance will require administrative control and will be subject to any new or additional standards. In May 2003, the Company partially discontinued operation of one of its three activated carbon lines at its Catlettsburg, Kentucky facility. The Company will need to install pollution abatement equipment estimated at approximately \$7.0 million in order to remain in compliance with state requirements regulating air emissions before resuming full operation of this line. Management has not determined its plan of action for

## **Table of Contents**

compliance related to this activated carbon line; however, if it is determined that a shutdown of the full operation of the activated carbon line for other than a temporary period is warranted, the impact to current operating results would be insignificant.

### **New Accounting Pronouncements**

In November 2004, the FASB issued SFAS No. 151, *Inventory Costs* an amendment of ARB No. 43, Chapter 4, which requires the recognition of costs of idle facilities, excessive spoilage, double freight and rehandling costs as a component of current-period expenses. The provisions of SFAS No. 151 are effective for inventory costs incurred during fiscal years beginning after June 15, 2005. Management has evaluated the impact of the adoption of SFAS No. 151 on the Company's financial statements and expects it to be immaterial. The Company plans to adopt SFAS No. 151 effective January 1, 2006 as required.

In December 2004, the FASB issued SFAS No. 123R, *Share-Based Payment*, which establishes the accounting for transactions in which an entity exchanges its equity instruments or certain liabilities based upon an entity's equity instruments for goods or services. SFAS No. 123R generally requires that publicly-traded companies measure the cost of employee services received in exchange for an award of equity instruments based on the fair value of the award at the grant date. That cost will be recognized over the period during which an employee is required to provide service in exchange for the award which is usually the vesting period. Management expects to adopt SFAS No. 123R January 1, 2006 as required. Management has not yet completed its evaluation of the impact of the adoption of SFAS No. 123R.

### **Critical Accounting Policies**

Management of the Company has evaluated the accounting policies used in the preparation of the financial statements and related footnotes and believes the policies to be reasonable and appropriate. The preparation of the financial statements in accordance with accounting principles generally accepted in the United States requires management to make judgments, estimates, and assumptions regarding uncertainties that affect the reported amounts of assets and liabilities, disclosure of contingent assets and liabilities, and the reported amounts of revenues and expenses. Management uses historical experience and all available information to make these judgments and estimates, and actual results will inevitably differ from those estimates and assumptions that are used to prepare the Company's financial statements at any given time. Despite these inherent limitations, management believes that Management's Discussion and Analysis (MD&A) and the financial statements and related footnotes provide a meaningful and fair perspective of the Company.

The following are the critical accounting policies impacted by management's judgments, assumptions, and estimates. Management believes that the application of these policies on a consistent basis enables the Company to provide the users of the financial statements with useful and reliable information about the Company's operating results and financial condition.

#### **Revenue Recognition**

The Company recognizes revenue and related costs when goods are shipped or services are rendered to customers provided that ownership and risk of loss have passed to the customer. Revenue for major equipment projects is recognized under the percentage of completion method by comparing actual costs incurred to total estimated costs to complete the respective projects.

#### **Allowance for Doubtful Accounts**

The Company maintains allowances for doubtful accounts for estimated losses resulting from the inability of its customers to make required payments. The amount of allowance recorded is based upon a quarterly review of specific customer transactions that remain outstanding at least three months beyond their respective due dates. If the financial condition of the Company's customers were to deteriorate resulting in an impairment of their ability to make payments, additional allowances may be required.

#### **Inventories**

The Company's inventories are carried at the lower of cost or market and adjusted to net realizable value by recording a reserve for inventory obsolescence. The inventory obsolescence reserve is adjusted quarterly based upon a review of specific products that have remained unsold for a prescribed period of time. If the market demand for various products softens, an additional reserve may be required.

## **Table of Contents**

### **Goodwill and Other Intangible Assets**

The Company tests goodwill for impairment at least annually by initially comparing the fair value of the Company's reporting units to their related carrying values. If the fair value of a reporting unit were less than its carrying value, additional steps would be necessary to determine the amount, if any, of goodwill impairment. Fair values are estimated using discounted cash flow and other valuation methodologies that are based on projections of the amounts and timing of future revenues and cash flows.

### **Pensions**

Accounting for pensions involves estimating the cost of benefits to be provided well into the future and attributing that cost over the time period each employee works. To accomplish this, extensive use is made of assumptions about inflation, investment returns, mortality, turnover and discount rates. These assumptions are reviewed annually. In determining the expected return on plan asset assumption, the Company evaluates long-term actual return information, the mix of investments that comprise plan assets and future estimates of long-term investment returns.

### **Income Taxes**

During the ordinary course of business, there are many transactions and calculations for which the ultimate tax determination is uncertain. Significant judgment is required in determining the Company's annual tax rate and in evaluating tax positions. The Company establishes reserves when, despite management's belief that the Company's tax return positions are fully supportable, it believes that certain positions are probable to be challenged upon review by tax authorities. Changes in estimates are reflected in the year of settlement or expiration of the statute of limitations. While it is often difficult to predict the final outcome or the timing of resolution of any particular tax matter, the Company believes that its reserves reflect the probable outcome of known tax contingencies. The resolution of tax matters will not have a material impact on the consolidated financial condition of the Company, although a resolution could have a material impact on the Company's consolidated statements of income and comprehensive income for a particular future period and on the Company's effective tax rate.

The Company is subject to varying statutory tax rates in the countries where it conducts business. Fluctuations in the mix of the Company's income between countries result in changes to the Company's overall effective tax rate.

### **Litigation**

The Company is involved in various asserted and unasserted legal claims. An estimate is made to accrue for a loss contingency relating to any of these legal claims if it is probable that a liability was incurred at the date of the financial statements and the amount of loss can be reasonably estimated. Because of the subjective nature inherent in assessing the outcome of legal claims and because the potential that an adverse outcome in a legal claim could have material impact on the Company's legal position or results of operations, such estimates are considered to be critical accounting estimates. After review, it was determined at March 31, 2005, that for each of the various unresolved legal claims in which the Company is involved, the conditions mentioned above were not met. As such, no accrual was recorded. The Company will continue to evaluate all legal matters as additional information becomes available.

### **Long-Lived Assets**

The Company evaluates long-lived assets under the provisions of Statement of Financial Accounting Standards (SFAS) No. 144, *Accounting for the Impairment or Disposal of Long-Lived Assets*, which addresses financial accounting and reporting for the impairment of long-lived assets, and for long-lived assets to be disposed of. For assets to be held and used, the Company groups a long-lived asset or assets with other assets and liabilities at the lowest level for which identifiable cash flows are largely independent of the cash flows of other assets and liabilities. An impairment loss for an asset group reduces only the carrying amounts of a long-lived asset or assets of the group being evaluated. The loss is allocated to the long-lived assets of the group on a pro-rata basis using the relative carrying amounts of those assets, except that the loss allocated to an individual long-lived asset of the group does not reduce the carrying amount of that asset below its fair value whenever that fair value is determinable without undue cost and effort. Estimates of future cash flows used to test the recoverability of a long-lived asset group include only the future cash flows that are associated with and that are expected to arise as a direct result of the use and eventual disposition of the asset group. The future cash flow estimates used by the Company exclude interest charges.

### **Item 4. Controls and Procedures**

#### **Disclosure Controls and Procedures:**

The Company's principal executive officer and principal financial officer have evaluated the effectiveness of the Company's disclosure controls and procedures, as such term is defined in Rule 13a-15(e) of the Securities Exchange Act of 1934, as amended (the Exchange Act), at the end of the period covered by its originally filed Quarterly Report on Form 10-Q (the Evaluation Date). Based upon that evaluation, the principal executive officer and principal financial officer concluded, as of the Evaluation Date, that the Company's disclosure controls and procedures were effective to ensure that information required to be disclosed by the Company in the reports filed or submitted by it under the Exchange Act is recorded, processed, summarized, and reported within the time periods specified in the SEC's rules and forms, and that information required to be disclosed by the Company in such reports is accumulated and communicated to the Company's management, including its principal executive officer and principal financial officer, as appropriate to allow timely decisions regarding required disclosure.

On March 21, 2006, management and the Audit Committee of the Company determined that the Unaudited Condensed Consolidated Financial Statements for the fiscal quarter ended March 31, 2005 contained errors and should not be relied upon. These errors consisted of the failure to record invoices for professional services in a timely manner. Pursuant to the Public Company Accounting Oversight Board Standard No. 2, paragraph 140, this restatement reflects a material weakness in internal controls over financial reporting.

In connection with this restatement, management re-evaluated the effectiveness of our disclosure controls and procedures. Solely as a result of this material weakness, our principal executive officer and principal financial officer have concluded that our disclosure controls and procedures were not effective as of the end of the fiscal quarter ended March 31, 2005.

#### **Changes in Internal Control:**

On February 18, 2004, the Company acquired Waterlink Specialty Products, which was comprised of the following operating units: Waterlink, Incorporated's U.S. subsidiary, Barnebey Sutcliffe Corporation (Barnebey), and Waterlink (UK) Limited, a holding company that owns the stock of Waterlink, Incorporated's operating subsidiaries in the United Kingdom.

During the first quarter of 2005, an integration effort was performed to transfer the transactional processing used for accounting and financial reporting for Waterlink (UK) Limited prior to the acquisition to the systems and processes used by the Company. Pursuant to Exchange Act Rule 13a-15(d), this effort constituted a material change to the internal control structure.

#### **Remediation Activities:**

Subsequent to the filing of the original Form 10-Q, and in connection with the preparation of this Form 10-Q/A, we have re-evaluated the internal controls relative to this area and have implemented additional internal controls so that, as of the date hereof, we believe that we have remediated this material weakness. The additional controls we have implemented, as of the filing date of this Form 10-Q/A, to ensure proper recording of invoices for professional services in a timely manner are as follows:

Centralized the collection and recordkeeping of invoices for professional services.

Established balance sheet reconciliation review meetings with the business process owners.

**PART II OTHER INFORMATION**

**Item 1. Legal Proceedings**

See Note 9 to the unaudited interim Condensed Consolidated Financial Statements contained herein.

**Item 4. Submission of Matters to a Vote of Security Holders**

The annual meeting of stockholders was held April 20, 2005. In connection with the meeting, proxies were solicited pursuant to the Securities Exchange Act. The following are the voting results on the proposals considered and voted upon at the meeting and described in the proxy statement.

Election of directors:

<b>Class of 2008</b>	<b>Votes For</b>	<b>Votes Withheld</b>
Seth E. Schofield	26,015,417	10,211,302
John P. Surma	25,952,039	10,274,680

Amendment and restatement of the Company's Stock Option Plan:

<b>Votes For</b>	<b>Votes Against</b>	<b>Votes Withheld</b>
18,876,806	5,724,933	1,000,894

Amendment and restatement of the Company's 1993 Non-Employee Directors' Stock Option Plan:

<b>Votes For</b>	<b>Votes Against</b>	<b>Votes Withheld</b>
18,014,573	6,571,853	1,016,206

Ratification of Deloitte & Touche LLP as Independent Registered Public Accounting Firm for 2005:

<b>Votes For</b>	<b>Votes Against</b>	<b>Votes Withheld</b>
35,614,712	453,433	158,572

**Item 6. Exhibits and Reports on Form 8-K**

(c) Exhibits

Exhibit 10.1 Calgon Carbon Corporation Senior Credit Facility, as amended. Incorporated by reference by the Company's Form 10-Q as originally filed with the Securities and Exchange Commission on May 5, 2005.

Exhibit 10.2 Employment agreement between Calgon Carbon Corporation and executive officers (i) The form of employment agreement has been entered into with the following executive officers; Leroy M. Ball, Nicholas A. Colletti, James G. Fishburne, Gail A. Geron, Robert P. O'Brien, John S. Stanik, and Michael J. Mocniak. Incorporated by reference by the Company's Form 10-Q as originally filed with the Securities and Exchange Commission on May 5, 2005.

Exhibit 31.1 Certification pursuant to 18 U.S.C. Section 1350, as adopted pursuant to Section 302 of the Sarbanes-Oxley Act of 2002.

Exhibit 31.2 Certification pursuant to 18 U.S.C. Section 1350, as adopted pursuant to Section 302 of the Sarbanes-Oxley Act of 2002.

Exhibit 32.1 Certification pursuant to 18 U.S.C. Section 1350, as adopted pursuant to Section 906 of the Sarbanes-Oxley Act of 2002.
