SECURITIES AND EXCHANGE COMMISSION

Washington, DC 20549

FORM 20-F

ANNUAL REPORT PURSUANT TO SECTION 13 OF THE SECURITIES EXCHANGE ACT OF 1934

For the fiscal year ended December 31, 2005

Commission File Number: 001-32741

Teléfonos de México, S.A. de C.V.

(Exact name of registrant as specified in its charter)

Telephones of Mexico

(Translation of registrant's name into English)

United Mexican States

(Jurisdiction of incorporation or organization)

Parque Vía 190, Colonia Cuauhtémoc, 06599 México, D.F., México

(Address of principal executive offices)

SECURITIES REGISTERED PURSUANT TO SECTION 12(b) OF THE ACT:

Title of each class	Name of each exchange on which registered
American Depositary Shares, each representing 20 Series L Shares, without par value (L Share ADSs)	New York Stock Exchange
Series L Shares, without par value (L Shares)	

New York Stock Exchange
(for listing purposes only)

8.75% Senior Notes due 2016

New York Stock Exchange

SECURITIES REGISTERED PURSUANT TO SECTION 12(g) OF THE ACT:

American Depositary Shares, each representing 20

Series A Shares, without par value (A Share ADSs)

Series A Shares, without par value (A Shares)

SECURITIES FOR WHICH THERE IS A REPORTING OBLIGATION PURSUANT TO SECTION 15(d) OF THE ACT: None

The number of outstanding shares of each class of capital or common stock as of December 31, 2005 was:

8,115 million	AA Shares
479 million	A Shares
13,451 million	L Shares

Indicate by check mark if the registrant is a well-known seasoned issuer, as defined in Rule 405 of the Securities Act. Yes No

If this report is an annual or transition report, indicate by check mark if the registrant is not required to file reports pursuant to Section 13 or 15(d) of the Securities Exchange Act of 1934. Yes No

Indicate by check mark whether the registrant: (1) has filed all reports required to be filed by Section 13 or 15(d) of the Securities Exchange Act of 1934 during the preceding 12 months (or for such shorter period that the registrant was required to file such reports) and (2) has been subject to such filing requirements for the past 90 days. Yes No

Indicate by check mark whether the registrant is a large accelerated filer, an accelerated filer, or a non-accelerated filer. See definition of accelerated filer and large accelerated filer in Rule 12b-2 of the Exchange Act. (Check one):

Large accelerated filer Accelerated filer Non-accelerated filer
Indicate by check mark which financial statement item the registrant has elected to follow. Item 17 Item 18

If this is an annual report, indicate by check mark whether the registrant is a shell company (as defined in Rule 12b-2 of the Exchange Act). Yes No

SELECTED FINANCIAL DATA

The selected consolidated financial data set forth below have been derived from our audited consolidated financial statements for each of the five years in the period ended December 31, 2005, which have been reported on by Mancera, S.C., a member of Ernst & Young Global, an independent, registered public accounting firm. The selected consolidated financial data should be read in conjunction with, and are qualified in their entirety by reference to, our consolidated financial statements and notes thereto included elsewhere in this Annual Report.

Our consolidated financial statements have been prepared in accordance with generally accepted accounting principles in Mexico, or Mexican GAAP, which differ in certain respects from generally accepted accounting principles in the United States, or U.S. GAAP. Note 19 to our audited consolidated financial statements provides a description of the principal differences between Mexican GAAP and U.S. GAAP, as they relate to us; a reconciliation to U.S. GAAP of operating income, net income and total stockholders' equity; and a condensed statement of cash flows under U.S. GAAP.

Pursuant to Mexican GAAP, in the consolidated financial statements and the selected consolidated financial data set forth below:

nonmonetary assets (excluding plant, property and equipment of non-Mexican origin) and stockholders' equity are restated for inflation based on the Mexican National Consumer Price Index;

plant, property and equipment of non-Mexican origin are restated based on the rate of inflation in the country of origin and converted into Mexican pesos using the prevailing exchange rate at the balance sheet date;

gains and losses in purchasing power from holding monetary assets and liabilities are recognized in income; and

all financial statements are restated in constant pesos as of December 31, 2005.

We have not reversed the effect of inflation accounting under Mexican GAAP in the reconciliation to U.S. GAAP of our net income and stockholders' equity, except with respect to the methodology for restatement of plant, property and equipment of non-Mexican origin. See Note 19 to our audited consolidated financial statements.

- (1) We have not presented net income or dividends on a per ADS basis. Each L Share ADS represents twenty L Shares, and each A Share ADS represents twenty A Shares.
- (2) All amounts have been adjusted to reflect a two-for-one stock split effected on May 25, 2005.
- (3) Nominal amounts. For information on dividends paid per share translated into U.S. dollars, see *Item 8. Financial Information Dividends*.
- (4) Earnings for this purpose consist of earnings before provision for income tax but after provision for employee profit sharing, plus fixed charges and depreciation of capitalized interest and minus interest capitalized during the period. Fixed charges for this purpose consist of interest expense plus interest capitalized during the period. Fixed charges do not take into account gain or loss from monetary position or exchange gain or loss attributable to our indebtedness.

Table of Contents**EXCHANGE RATES**

Mexico has a free market for foreign exchange, and the Mexican government allows the peso to float freely against the U.S. dollar. There can be no assurance that the Mexican government will maintain its current policies with regard to the peso or that the peso will not depreciate or appreciate significantly in the future.

The following table sets forth, for the periods indicated, the high, low, average and period-end noon buying rate in New York City for cable transfers in pesos published by the Federal Reserve Bank of New York, expressed in pesos per U.S. dollar. The rates have not been restated in constant currency units.

Period	High	Low	Average⁽¹⁾	Period End
2001	P. 8.95	P. 9.97	P. 9.33	P. 9.16
2002	9.00	10.43	9.66	10.43
2003	10.11	11.41	10.79	11.24
2004	10.81	11.64	11.29	11.15
2005	10.41	11.41	10.87	10.63
2005:				
December	10.41	10.77		10.63
2006:				
January	10.44	10.64		10.44
February	10.43	10.53		10.45
March	10.46	10.95		10.90
April	10.86	11.16		11.09
May	10.84	11.31		11.29
June (through June 23)	11.28	11.46		11.44

(1) Average of month-end rates.

On June 23, 2006, the noon buying rate was P.11.44 to U.S.\$1.00.

We will pay any cash dividends in pesos, and exchange rate fluctuations will affect the U.S. dollar amounts received by holders of American Depositary Shares, or ADSs, on conversion by the depository of cash dividends on the shares represented by such ADSs. Fluctuations in the exchange rate between the peso and the U.S. dollar affect the U.S. dollar equivalent of the peso price of our shares on the Mexican Stock Exchange (*Bolsa Mexicana de Valores, S.A. de C.V.*) and, as a result, can also affect the market price of the ADSs.

Table of Contents

RISK FACTORS

Risks Relating to Our Business Generally

Increasing competition in Mexico, Brazil and the other countries in which we operate could adversely affect our revenues and profitability

We face significant competition in Mexico, Brazil and the other countries in which we operate, which could result in decreases in current and potential customers, revenues and profitability. Governmental authorities in many of these countries continue to grant new licenses and concessions to new market entrants, which results in increased competition in those countries. In addition, technological developments are increasing cross-competition in certain markets, such as between wireless providers and fixed-line operators.

In Mexico, competition in local service, principally from wireless service providers, has been developing since 1999. In December 2005, there were approximately 47.5 million cellular lines in service, compared with approximately 19.5 million fixed lines in service (18.4 million of which are part of our network). At present, 20 fixed-line local operators have been granted licenses, primarily in Mexico City, Guadalajara, Monterrey, Puebla and other large and medium-sized cities.

We have also begun to face new competition in Mexico from cable television providers, who have been authorized by the Communications Ministry (*Secretaría de Comunicaciones y Transportes*) to provide voice-transmission services to local fixed-line telecommunications operators and data and broadband Internet services to the Mexican public. In addition, in April 2006, the Mexican Congress amended the Federal Telecommunications Law (*Ley Federal de Telecomunicaciones*) and the Federal Radio and Television Law (*Ley Federal de Radio y Televisión*) to allow radio and television broadcasting companies to apply for authorizations to provide telecommunications services.

The effects of competition on our business are highly uncertain and will depend on a variety of factors, including economic conditions, regulatory developments, the behavior of our customers and competitors and the effectiveness of measures we take.

Dominant carrier regulations and other regulatory developments could hurt our business by limiting our ability to pursue competitive and profitable strategies

Our business is subject to extensive regulation, and it can be adversely affected by changes in law, regulation or regulatory policy. The Competition Commission (*Comisión Federal de Competencia*) has determined that we are a dominant provider of certain telecommunications services, and Mexican law provides for the regulatory authorities to impose additional regulations on a dominant provider. In the past several years, the Competition Commission and the Mexican Federal Telecommunications Commission (*Comisión Federal de Telecomunicaciones*, or Cofetel) have adopted resolutions and regulations that apply specifically to us as a dominant carrier. We have successfully challenged these resolutions and regulations in Mexican federal court. We cannot predict whether the Competition Commission or Cofetel will issue new resolutions or regulations that are substantially similar to those that were challenged successfully, and if so, whether our judicial challenges will be successful in the future. We believe that if dominant carrier regulations are eventually implemented, the new rules and the related regulatory procedures will reduce our flexibility to adopt competitive tariff policies.

Table of Contents

World Trade Organization dispute settlement between the United States and Mexico has resulted in changes in regulation that may affect our business

In August 2000, the United States initiated a World Trade Organization dispute settlement against Mexico regarding alleged illegal barriers to competition in the Mexican telecommunications market. In June 2004, the United States and Mexico reached an agreement under which Mexico has eliminated its uniform settlement rate system, its proportional return system and its requirement that the Mexican carrier with the greatest share of outgoing traffic to a particular country negotiate the settlement rate on behalf of all Mexican carriers for that country. Mexico also agreed to introduce new regulations authorizing the resale of outgoing international long distance service. In August 2005, Mexico adopted regulations authorizing resale of outgoing international long distance service and domestic long distance service. We expect that these new regulations will likely affect our business and competition in the future and will put downward pressure on the prices we charge our customers for those services.

Shifting usage patterns could adversely affect our revenues

Our fixed-line network services face increasing competition due to shifting usage patterns resulting from the adoption of popular new technologies, including wireless devices for voice and other communications, and the subsequent substitution of these technologies for fixed-line phones. For example, we estimate that an increasing proportion of calls that previously would have been made over our fixed-line network are now being made on wireless telephones and voice over IP services outside our network, for which we receive no revenue. There can be no assurance that this process will not adversely affect our traffic volume and our results of operations.

We have invested in countries in which we have limited experience, and we may be unsuccessful in addressing the new challenges and risks they present

We have invested in a growing number of telecommunications businesses outside our historical core activity of providing fixed-line telecommunications services in Mexico, and we plan to continue to do so in the rest of Latin America. These investments have been made in some countries in which we have little experience and may involve risks to which we have not previously been exposed. Some of the investments are in countries that may present different or greater risks than Mexico, such as Brazil, Chile, Argentina, Peru and Colombia. We also have agreed to make a substantial investment in Venezuela. We cannot assure you that these investments will be successful.

Risks Relating to Our Controlling Shareholder and Capital Structure

We are controlled by one shareholder

A majority of the voting shares of our company (71.0% as of May 11, 2006) is owned by Carso Global Telecom, S.A. de C.V., or Carso Global Telecom, which is controlled by Carlos Slim Helú and members of his immediate family who, taken together, own a majority of the common stock. Carso Global Telecom has the effective power to designate a majority of the members of our Board of Directors and to determine the outcome of other actions requiring a vote of the shareholders, except in very limited cases that require a vote of the holders of L Shares.

The protections afforded to minority shareholders in Mexico are different from those in the United States

Our bylaws provide that any controversy between us and our shareholders will be governed by Mexican law and that our shareholders will submit to the jurisdiction of Mexican courts for any proceedings in respect thereof. Under Mexican law, the protections afforded to minority shareholders are

Table of Contents

different from those in the United States. In particular, the case law concerning fiduciary duties of directors is not well developed, there is no procedure for class actions, there are different procedural requirements for bringing shareholder lawsuits and there are different discovery rules. As a result, in practice it may be more difficult for minority shareholders of Telmex to enforce their rights against us or our directors or controlling shareholder than it would be for shareholders of a U.S. company.

We engage in transactions with related parties that may create the potential for conflicts of interest

We engage in transactions with certain subsidiaries of Grupo Carso, S.A. de C.V., or Grupo Carso, and Grupo Financiero Inbursa, S.A. de C.V., or Grupo Financiero Inbursa. Transactions with subsidiaries of Grupo Carso include the purchase of network construction services and materials, and transactions with Grupo Financiero Inbursa include banking services and insurance. We also have ongoing operational relationships with América Móvil, S.A. de C.V., or América Móvil, which is controlled by América Telecom, S.A. de C.V., or América Telecom. América Telecom, Carso Global Telecom, Grupo Carso and Grupo Financiero Inbursa are controlled by Carlos Slim Helú and members of his immediate family who, taken together, own a majority of the common stock of each company.

We also make investments jointly with related parties, sell our investments to related parties and buy investments from related parties. On April 3, 2006, we announced that América Móvil and we had together entered into an agreement with Verizon Communications, Inc., or Verizon, to acquire through an equally-owned joint venture Verizon's 28.5% equity interest in Compañía Anónima Nacional Teléfonos de Venezuela for an aggregate purchase price of U.S.\$676.6 million in cash. Another recent investment transaction with a related party includes our investment in the equity securities of MCI, Inc., which we and others who may be deemed to be under common control with us sold to Verizon in May 2005.

Our transactions with related parties may create the potential for conflicts of interest.

Holders of L Shares and L Share ADSs have limited voting rights

Our bylaws provide that holders of L Shares are not permitted to vote except on such limited matters as the transformation or merger of Telmex or the cancellation of registration of the L Shares with the Mexican National Banking and Securities Commission (*Comisión Nacional Bancaria y de Valores*) or any stock exchange on which they are listed. If you hold L Shares or L Share ADSs, you will not be able to vote on most matters, including the declaration of dividends, that are subject to a shareholder vote in accordance with our bylaws.

Holders of ADSs are not entitled to attend shareholders' meetings, and they may only vote through the depositary

Under Mexican law, a shareholder is required to deposit its shares with a Mexican custodian in order to attend a shareholders' meeting. As long as a shareholder holds shares in ADS form, the shareholder will not be able to satisfy this requirement. There can be no assurance that holders of ADSs will receive notice of shareholders' meetings from our ADS depositary in sufficient time to enable such holders to return voting instructions to the ADS depositary in a timely manner. In the event that instructions are not received with respect to any shares underlying ADSs, the ADS depositary will, subject to certain limitations, grant a proxy to a person designated by us. In the event that this proxy is not granted, the ADS depositary will vote these shares in the same manner as the majority of the shares of each class for which voting instructions are received.

Table of Contents

You may not be entitled to preemptive rights

Under current Mexican law, if we issue new shares for cash as part of a capital increase, we generally must grant our shareholders the right to purchase a sufficient number of shares to maintain their existing ownership percentage in Telmex. Rights to purchase shares in these circumstances are known as preemptive rights. We may not legally be permitted to allow holders of ADSs or holders of L Shares or A Shares in the United States to exercise any preemptive rights in any future capital increase unless we file a registration statement with the U.S. Securities and Exchange Commission, or SEC, with respect to that future issuance of shares. At the time of any future capital increase, we will evaluate the costs and potential liabilities associated with filing a registration statement with the SEC and any other factors that we consider important to determine whether we will file such a registration statement.

We cannot assure you that we will file a registration statement with the SEC to allow holders of ADSs or U.S. holders of L Shares or A Shares to participate in a preemptive rights offering. As a result, the equity interest of such holders in Telmex may be diluted proportionately. In addition, under current Mexican law, it is not practicable for the depositary to sell preemptive rights and distribute the proceeds from such sales to ADS holders.

Under the new Mexican Securities Market Law, preemptive rights will not arise upon the sale of newly issued shares in a public offering or the resale of shares of capital stock previously repurchased by us. See *Item 10. Additional Information Bylaws and Mexican Law Preemptive Rights*.

Our bylaws restrict transfers of shares in some circumstances

Our bylaws provide that any acquisition or transfer of more than 10% of our capital stock by any person or group of persons acting together requires the approval of our Board of Directors. If you wish to acquire or transfer more than 10% of our capital stock, you will not be able to do so without the approval of our Board of Directors.

Our bylaws restrict the ability of non-Mexican shareholders to invoke the protection of their governments with respect to their rights as shareholders

As required by Mexican law, our bylaws provide that non-Mexican shareholders shall be considered as Mexicans in respect of their ownership interests in Telmex and shall be deemed to have agreed not to invoke the protection of their governments in certain circumstances. Under this provision, a non-Mexican shareholder is deemed to have agreed not to invoke the protection of his own government by asking such government to interpose a diplomatic claim against the Mexican government with respect to the shareholder's rights as a shareholder, but is not deemed to have waived any other rights he may have, including any rights under the U.S. securities laws, with respect to his investment in Telmex. If you invoke such governmental protection in violation of this agreement, your shares could be forfeited to the Mexican government.

Our bylaws may only be enforced in Mexico

Our bylaws provide that legal actions relating to the execution, interpretation or performance of the bylaws may be brought only in Mexican courts. As a result, it may be difficult for non-Mexican shareholders to enforce their shareholder rights pursuant to the bylaws.

Table of Contents

It may be difficult to enforce civil liabilities against us or our directors, officers and controlling persons

Telmex is organized under the laws of Mexico, and most of our directors, officers and controlling persons reside outside the United States. In addition, a substantial portion of our assets and their assets are located in Mexico. As a result, it may be difficult for investors to effect service of process within the United States on such persons or to enforce judgments against them, including in any action based on civil liabilities under the U.S. federal securities laws. There is doubt as to the enforceability against such persons in Mexico, whether in original actions or in actions to enforce judgments of U.S. courts, of liabilities based solely on the U.S. federal securities laws.

Risks Relating to Developments in Mexico, Brazil and Other Countries

Economic and political developments may adversely affect our business

Our business operations and assets are principally located in Mexico. As a result, our business may be significantly affected by the general condition of the Mexican economy, by devaluation of the peso, by inflation and high interest rates in Mexico and by political developments in Mexico. We also have substantial operations and assets in Brazil and our business may be affected by economic and political developments in Brazil.

Mexico has experienced adverse economic conditions

In the past, Mexico has experienced both prolonged periods of weak economic conditions and deterioration in economic conditions that have had a negative impact on our company. If the Mexican economy falls into a recession or if inflation and interest rates increase significantly, our business, financial condition and results of operations could suffer material adverse consequences because, among other things, demand for telecommunications services may decrease and consumers may find it difficult to pay for the services we offer.

Depreciation or fluctuation of the currencies in which we conduct operations relative to the U.S. dollar could adversely affect our financial condition and results of operations

We are affected by fluctuations in exchange rates.

Changes in the value of the various currencies in which we conduct operations against the Mexican peso or changes in the value of the Mexican peso or the various currencies in which we conduct operations against the U.S. dollar may result in exchange losses or gains on our indebtedness and accounts payable. At December 31, 2005, our U.S. dollar-denominated indebtedness amounted to P.81,978 million. In 2005, the peso appreciated against the U.S. dollar by 4.9% and the *real* appreciated against the U.S. dollar by 11.8%, but our gain was more than offset by losses on hedges we had entered into to minimize our exposure to the U.S. dollar. As a result, we had a foreign exchange loss of P.3,787 million. In 2004, the peso depreciated against the U.S. dollar at year-end by approximately 0.3%, but our loss in Mexico was more than offset by a gain at our non-Mexican subsidiaries, particularly Embratel Participações S.A. As a result, we had a net foreign exchange gain of P.27 million. In addition, currency fluctuations between the Mexican peso and the currencies of our non-Mexican subsidiaries affect our results as reported in Mexican pesos. Currency fluctuations may continue to affect our financial income and expense and our revenues from international settlements.

Major devaluation or depreciation of any such currencies may also result in disruption of the international foreign exchange markets and may limit our ability to transfer or to convert such currencies into U.S. dollars and other currencies for the purpose of making timely payments of interest and principal

Table of Contents

on our indebtedness. While the Mexican government does not currently restrict, and for many years has not restricted, the right or ability of Mexican or foreign persons or entities to convert pesos into U.S. dollars or to transfer other currencies out of Mexico, the government could institute restrictive exchange rate policies in the future. The Brazilian government may impose temporary restrictions on the conversion of Brazilian *reais* into foreign currencies and on the remittance to foreign investors of proceeds from investments in Brazil. Brazilian law permits the government to impose these restrictions whenever there is a serious imbalance in Brazil's balance of payments or reasons to foresee a serious imbalance.

High levels of inflation and high interest rates in Mexico could adversely affect our financial condition and results of operations

Mexico has experienced high levels of inflation and high domestic interest rates. The annual rate of inflation, as measured by changes in the Mexican National Consumer Price Index, was 3.3% for 2005. Inflation for the first quarter of 2006 was 0.87%. If Mexico experiences high levels of inflation, our profitability could be adversely affected, and more generally, high inflation might result in lower demand or lower growth in demand for telecommunications services. Brazil has also experienced high levels of inflation and high interest rates, which can adversely affect our performance.

Developments in the U.S. economy may adversely affect our business

Economic conditions in Mexico are heavily influenced by the condition of the U.S. economy due to various factors, including commercial trade pursuant to the North American Free Trade Agreement, U.S. investment in Mexico and emigration from Mexico to the United States. Events and conditions affecting the U.S. economy may adversely affect our business, results of operations, prospects and financial condition.

Developments in other emerging market countries may adversely affect the market price of our securities

The market value of securities of Mexican companies is, to varying degrees, affected by economic and market conditions in other emerging market countries. Although economic conditions in such countries may differ significantly from economic conditions in Mexico, investors reactions to developments in any of these other countries may have an adverse effect on the market value of securities of Mexican issuers. In October 1997, prices of both Mexican debt securities and Mexican equity securities dropped substantially, precipitated by a sharp drop in value of Asian markets. Similarly, in the second half of 1998, prices of Mexican securities were adversely affected by the economic crises in Russia and Brazil. The market value of our securities could be adversely affected by events elsewhere, especially in emerging market countries.

Political events in Mexico could adversely affect Mexican economic policy and our operations

The next Mexican presidential election, which will be held in July 2006, will result in a change in administration, as presidential reelection is not permitted in Mexico. The presidential race likely will be highly contested among a number of different parties, including the Institutional Revolutionary Party, the National Action Party and the Democratic Revolution Party, each with its own political platform. As a result, we cannot predict which party will prevail in the elections or whether changes in Mexican governmental policy will result from a change in administration. Such changes may adversely affect economic conditions in Mexico or our business and therefore our results of operations and financial position.

Table of Contents

Developments in other Latin American countries in which we operate may affect our business

We have expanded our operations through our investment in telecommunications companies and our acquisition of telecommunications assets in Brazil, Chile, Argentina, Peru and Colombia. These countries expose us to different or greater country risk than Mexico. Our future results may be affected by the economic and financial condition of the countries in which we operate, the devaluation of the local currency, inflation and high interest rates, or political developments, changes in law or changes in labor conditions. Devaluation of the local currency against the U.S. dollar may increase the operating costs in that country, and a depreciation against the Mexican peso may negatively affect the results of our operations in that country.

Table of Contents

FORWARD-LOOKING STATEMENTS

This Annual Report contains forward-looking statements. We may from time to time make forward-looking statements in our periodic reports to the U.S. Securities and Exchange Commission, or SEC, on Form 6-K, in our annual report to shareholders, in offering circulars and prospectuses, in press releases and other written materials and in oral statements made by our officers, directors or employees to analysts, investors, representatives of the media and others. Examples of such forward-looking statements include:

projections of operating revenues, net income (loss), net income (loss) per share, capital expenditures, dividends, capital structure or other financial items or ratios;

statements of our acquisition or divestiture plans;

statements about the impact of our acquisition of businesses outside of Mexico;

statements of our plans, objectives or goals relating to competition, regulation and rates;

statements about the escalation of competition in the business sectors in which we operate;

statements about our future financial performance or the economic performance of Mexico, Brazil or other countries;

statements about the exchange rates between Mexican pesos and foreign currencies;

statements about the future impact of regulations; and

statements of assumptions underlying such statements.

Words such as believe, anticipate, plan, expect, intend, target, estimate, project, predict, forecast, guideline, should and intended to identify forward-looking statements but are not the exclusive means of identifying them.

Forward-looking statements involve inherent risks and uncertainties. We caution you that a number of important factors could cause actual results to differ materially from the plans, objectives, expectations, estimates and intentions expressed in such forward-looking statements. These factors, some of which are discussed under *Risk Factors* beginning on page 5, include economic and political conditions and government policies in Mexico or elsewhere, inflation rates, exchange rates, regulatory developments, technological improvements, customer demand and competition. We caution you that the foregoing list of factors is not exclusive and that other risks and uncertainties may cause actual results to differ materially from those in forward-looking statements.

Forward-looking statements speak only as of the date they are made. We do not undertake to update such statements in light of new information or new developments.

Table of Contents

Item 4. Information on the Company

GENERAL

Overview

We own and operate the largest telecommunications system in Mexico, where we are the only nationwide provider of fixed-line telephony services and the leading provider of fixed local and long distance telephone services. We also provide other telecommunications and telecommunications-related services such as corporate networks, Internet services, directory services, information network management, telephone equipment sales, satellite services, paging services and interconnection services to other carriers. Since February 2004, we have offered voice, data and Internet services in Brazil, Chile, Argentina, Peru and Colombia.

In Mexico, we have developed a multi-service network in which more than 90% of the lines have the capacity to provide simultaneous transmission of voice and data through a broadband connection. That network capability allowed us to increase the number of Prodigy Infitum customers by 84.4% in 2005 to 1,033 thousand. At the same time, we are extending our telephone and Internet services to remote areas. Through e-Mexico, we are participating in a government-sponsored program that extends high-speed Internet access to over 4,000 digital community centers in over 3,200 towns. We are the only company participating in the *Fondo de Cobertura Social*, through which we provide voice and Internet services to over 550 additional communities.

In 2005, we introduced a monthly service plan that includes local calls, long distance minutes and Internet access to small and medium-sized businesses as well as residential customers. Paquete Telmex integrates 100 additional local calls (in addition to the first 100 free local calls that are included in local residential service), preferential domestic and international long distance rates and Internet access through Prodigy Infitum. Paquete Telmex was an important component of the 2005 growth of our Prodigy Infitum customer base.

Outside Mexico, we have focused on restructuring and integrating our international operations. In October 2005, we transferred to Embratel Participações S.A., or Embratel, 100% of the capital stock of Telmex do Brasil Ltda., or Telmex do Brasil, and our 37.1% interest in Net Serviços de Comunicação S.A., or Net, in exchange for new voting stock of Embratel, thereby consolidating our holdings in Brazil and creating commercial and operating synergies. See *Non-Mexican Operations Brazil Embratel Participações*. In addition, we took steps to offer better and more integrated telecommunications services to our customers throughout Latin America. In 2005, we improved operating efficiencies in our international operations by implementing a management model similar to the one we use in Mexico. In coming years we will continue to increase our presence outside Mexico in order to strengthen our competitive position in the global environment.

We are a Mexican corporation headquartered in Mexico City, D.F., Mexico. Our legal name is Teléfonos de México, S.A. de C.V., and we frequently refer to ourselves commercially as Telmex. Our principal executive offices are located at Parque Vía 190, Colonia Cuauhtémoc, 06599 México, D.F., México. Our telephone number at this location is (52) 55 5703-3990.

History

We were formed in 1947 under private foreign ownership to acquire the Mexican telephone business of a wholly owned subsidiary of the LM Ericsson group of Sweden. In 1950, we acquired the Mexican telephone business of a wholly owned subsidiary of the International Telephone and Telegraph Company, which operated the only other national telephone network in Mexico at that time. In 1972, the

Table of Contents

Mexican federal government acquired the majority of our capital stock. In December 1990, the Mexican government sold shares representing voting control of our company. The Mexican government sold the balance of its shares in a series of transactions beginning in May 1991. In September 2000, we spun off our Mexican wireless business and other operations to América Móvil, S.A. de C.V., or América Móvil, a new Mexican corporation. Beginning in 2004, we expanded our operations outside Mexico through a series of acquisitions. As a result, we provide voice, data and Internet services in Brazil, Chile, Argentina, Peru and Colombia.

Significant Subsidiaries and Investees

The following table sets forth our significant subsidiaries and investees accounted for using the equity method:

Name of Company	Jurisdiction of Establishment	Percentage of Ownership and Voting Interest	Description
Controladora de Servicios de Telecomunicaciones, S.A. de C.V.	Mexico	100.0%	Intermediate holding company
Alquiladora de Casas, S.A. de C.V.	Mexico	100.0%	Real estate company owning our facilities
Anuncios en Directorios, S.A. de C.V.	Mexico	100.0%	Producer of yellow pages directories
Compañía de Teléfonos y Bienes Raíces, S.A. de C.V.	Mexico	100.0%	Real estate company owning our facilities
Consorcio Red Uno, S.A. de C.V.	Mexico	100.0%	Supplier of telecommunications network integration services and information systems
Teléfonos del Noroeste, S.A. de C.V.	Mexico	100.0%	Fixed-line network concessionaire for the state of Baja California Norte and the San Luis Rio Colorado region of the state of Sonora
Uninet, S.A. de C.V.	Mexico	100.0%	Provider of corporate networks services and Internet access to Telmex and corporate customers
Telmex USA, L.L.C.	Delaware	100.0%	Authorized reseller of long distance services and holder of FCC authorization to provide facility-based long distance services in the United States

Table of Contents

Name of Company	Jurisdiction of Establishment	Percentage of Ownership and Voting Interest	Description
Embratel Participações S.A.	Brazil	97.3% ⁽¹⁾	Intermediate holding company of subsidiary that provides domestic and international long distance, local and data services in Brazil
Telmex do Brasil, Ltda.	Brazil	97.3% ⁽²⁾	Provider of telecommunications services to corporate customers in Brazil
Net Serviços de Comunicação S.A.	Brazil	31.0% ⁽²⁾⁽³⁾⁽⁴⁾	Provider of cable television and local telephone services and bidirectional broadband Internet access in Brazil
Empresa Brasileira de Telecomunicações S.A. EMBRATEL	Brazil	96.3% ⁽¹⁾⁽²⁾	Provider of domestic and international long distance, local and data services in Brazil
Star One S.A.	Brazil	77.1% ⁽²⁾	Provider of satellite services in Brazil
PrimeSys Soluções Empresariais S.A.	Brazil	96.3% ⁽²⁾	Provider of high level value-added services, such as net integration and outsourcing
Telmex Chile Holding, S.A.	Chile	100.0%	Holding company for assets acquired from AT&T Latin America Corp. in Chile
Telmex Corp. S.A. (formerly Chilesat Corp S.A.)	Chile	99.7%	Intermediate holding company whose subsidiaries provide long distance, Internet and data network services in Chile
Techtel-LMDS Comunicaciones Interactivas, S.A.	Argentina	100.0%	Provider of wireless voice, data and video transfer services and local and long distance fixed-line voice services in Argentina
Telmex Argentina S.A.	Argentina	100.0%	Provider of telecommunications services to corporate customers in Argentina
Metrored Telecomunicaciones S.R.L.	Argentina	100.0%	Provider of data services in Argentina
Telmex Colombia S.A.	Colombia	100.0%	Provider of telecommunications services to corporate customers in Colombia
Telmex Perú S.A.	Peru	100.0%	Provider of telecommunications services to corporate customers in Peru
Grupo Telvista S.A. de C.V.	Mexico	45.0% ⁽³⁾	Provider of telemarketing services in the United States and Mexico

(1) Corresponds to Telmex's voting interest. Our effective ownership of the total capital of Embratel Participações S.A. is 72.3% and of Empresa Brasileira de Telecomunicações S.A. EMBRATEL is 71.6%.

(2) Corresponds to Telmex's indirect interest, held through Embratel Participações S.A.

(3) Investments accounted for using the equity method.

(4) Corresponds to interest in total capital.

Table of Contents**MEXICAN OPERATIONS**

At March 31, 2006, we had 18.7 million local fixed lines in service in Mexico, up 6.4% over March 31, 2005. In long distance services, we estimate that during December 2005, our share of traffic in cities open to competition was 80.5% for domestic long distance and 74.0% for international long distance calls originating in Mexico.

Of our revenues from our Mexican operations in 2005, 44.8% was attributable to local service, 21.8% to long distance service, 14.0% to interconnection, 8.3% to corporate networks and 6.5% to Internet services. Other services, including yellow pages and equipment sales, accounted for 4.6% of revenues.

Overview

The following table gives selected data on the size and usage of our Mexican network:

	December 31,				
	2005	2004	2003	2002	2001
Lines in service (thousands)	18,375	17,172	15,683	14,446	13,372
Internet access accounts (thousands)	2,116	1,741	1,452	1,165	913
Billed line equivalents for data transmission (thousands)	2,011	1,517	1,139	1,229	1,025
Lines in service per employee	399.6	371.2	331.4	301.2	272.8
Domestic long distance call minutes for the year (millions)	17,853	16,700	15,376	14,347	14,251
International long distance call minutes for the year (millions) ⁽¹⁾	7,131	6,297	4,513	4,922	4,404
Total local calls (millions)	26,680	26,782	26,625	25,679	25,567
Prepaid telephone service cards sold (millions)	258	273	279	274	268

(1) Includes incoming and outgoing traffic.

Local Service

We are a leading provider of local telephone service in Mexico. We provide local telephone service to 22,164 communities throughout Mexico. Of all lines in service, 39.0% are in the Mexico City, Monterrey and Guadalajara areas, and 28.4% are in the Mexico City area alone. We provide service to 10,912 rural communities, exceeding our obligations to extend services to rural areas.

Local traffic in 2005 decreased by 0.4% compared to 2004, for a total of 26,680 million calls. The decrease in billed traffic in 2005 was attributable primarily to the competition of cellular service.

Our charges for fixed-line local telephone service include (a) installation charges, (b) monthly line rental charges, (c) monthly measured service charges, (d) digital services and (e) charges for other services, such as the transfer of a line to another address and reconnection. Residential customers pay a fixed charge per local call in excess of a monthly allowance of 100 local calls, and commercial customers pay for every local call at the same fixed rate per call. We estimate that in any given month approximately 58.4% of residential customers made fewer than 100 local calls per month on average in 2005. The concession we hold to operate a public network for basic telephone services (the Concession) permits but does not require us to base our charges on the duration of each call, with a monthly allowance of free calls or call minutes for residential customers. We currently do not charge by duration of invoiced calls in any region, except in the case of prepaid services.

Table of Contents

In February 2006, to promote local service among our residential customers we introduced a plan called Home Line (*Línea Hogar*), for which we charge a monthly line rental fee, which includes a monthly allowance of 200, 300 or 400 calls.

In October 2005, we announced that we would not increase rates for local telephone service during 2006. No rate increases have been made since March 2001.

Domestic Long Distance Service

We are the leading provider of domestic long distance telecommunications services in Mexico. Our domestic long distance transmission network consists of close to 28,400 kilometers of optical fiber connecting Mexico's major cities, and includes secondary branches and additional transmission rings around Mexico City designed to avoid network congestion.

Domestic long distance traffic increased by 6.9% in 2005. The increase in minutes, which totaled 17,853 million at the end of 2005, was attributable to the higher number of lines in service, an increase in Lada 100 customers and an increase in the number of calls we terminate for other telecommunications operators.

Our charges for domestic long distance service are based on call duration and the type of service, i.e., direct-dial or operator-assisted. In October 2005, we announced that we would not increase our nominal rates for domestic long distance service in 2006. Our nominal rates for domestic long distance service have remained unchanged since March 1999.

We offer a variety of domestic long distance discount plans that reduce the effective rates paid by our customers based on volume, time of use or other factors. High volume corporate clients pay P.1.00 per minute, which represents a discount of up to 55.9% from our nominal rate, while other customers that maintain service with us receive discounts of up to 39%, as well as a 50% discount on calls made between 8:00 p.m. and 7:59 a.m. from Monday to Saturday and all day Sunday. Lada 100 offers a monthly package of 200 domestic long distance minutes for P.100.

In 2005, we introduced a plan called Lada America (*Lada América*), which allows residential and commercial customers to make domestic long distance calls for P.1.00 per minute and international long distance calls to the rest of North America and all of Central and South America for P.2.00 per minute for a monthly fee of P.189. In April 2006, we had 19,551 Lada America subscribers.

International Long Distance Service

We are the leading provider of international long distance telecommunications services in Mexico. International long distance traffic with the United States, Canada, Central America and other countries is carried by a combination of the fiber optic network, microwave transmission, satellite systems and submarine cable. See *Network*.

International long distance traffic increased by 13.2% in 2005. The increase in minutes, which totaled 7,131 million at the end of 2005, was due primarily to an increase in incoming traffic.

Charges for international long distance calls are based on type of service, call duration and the region of the world called. In October 2005, we announced that we would not increase our nominal rates for international long distance service in 2006. Our nominal rates for international long distance service have remained unchanged since March 1999. Customers receive a 33.3% discount on calls made to the United States and Canada between 7:00 p.m. and 6:59 a.m. from Monday to Friday, all day Saturday, and between 12:00 a.m. and 4:59 p.m. on Sunday. More recently, we have introduced Favorite Lada

Table of Contents

Destinations (*Lada Favorito*), a plan offering discounts on calls to cities in the United States pre-selected by customers. In July 2004, we launched Lada 100 International, which offers 100 minutes per month to the United States and Canada for P.200.

Bilateral agreements with foreign carriers govern the rates of our payment to foreign carriers for completing international calls from Mexico and by foreign carriers to us for completing international calls to Mexico. The rates of payment under such agreements are negotiated with each foreign carrier. Settlements among carriers are usually made monthly on a net basis, but sometimes they are made on a weekly basis. Settlement amounts payable to us in respect of calls from the United States to Mexico generally exceed amounts payable by us in respect of calls from Mexico to the United States. As a result, we receive monthly net settlement payments from U.S. carriers. We make monthly net settlement payments to other international carriers taken as a whole.

The international settlement rates that U.S. carriers pay to foreign carriers have been subject to intense downward pressure due to competition and regulatory factors, including initiatives by the United States government. Since 1999, there has been a cumulative reduction of 79.5% in our settlement rates with U.S. carriers. Until July 2004, Mexican regulations required that (i) all carriers pay the same rates, (ii) incoming international calls be distributed among the Mexican carriers in proportion to the outgoing calls they originated and (iii) the Mexican carrier with the largest market share on a particular international route negotiate rates for all Mexican carriers on that route. In August 2004, however, Mexico eliminated its uniform settlement rate system, its proportional return system and its requirement that the Mexican carrier with the greatest share of outgoing traffic to a particular country negotiate the settlement rate on behalf of all Mexican carriers for that country.

In 2005, we paid U.S.\$0.0301 per minute for northbound (Mexico to the United States) calls and received an average rate of U.S.\$0.0486 per minute for settling international calls. In 2004, we paid U.S.\$0.037 per minute for northbound calls and received an average rate of U.S.\$0.059 per minute for settling international calls. We are in the process of negotiating with most of the U.S. carriers new settlement rates for the period beginning January 1, 2006.

We believe that an unauthorized practice in Mexico referred to as international bypass was primarily responsible for the decline in the number of minutes of our international long distance traffic from 2000 to 2003. International bypass occurs when incoming international calls are carried over leased lines and then connected to the public switched network in Mexico. In the past, companies engaged in international bypass because international settlement rates to terminate traffic in Mexico were generally higher than rates for terminating domestic Mexican long distance traffic. The unreported international traffic negatively impacted our revenues by diminishing both the settlement payments we received and our share of the proportional return on incoming traffic. Because each Mexican carrier is now free to negotiate settlement rates with each foreign carrier, this form of bypass has disappeared.

Our international long distance revenues are affected by the use of voice over IP, or VoIP, technology, which transmits ordinary telephone calls over the Internet. Because outgoing and incoming international long distance calls made through VoIP services bypass our network, we do not receive the international long distance service revenues that we would otherwise receive, such as revenues generated from billed minutes and termination fees.

Table of Contents

Interconnection

We provide interconnection service pursuant to which (a) long distance, local and cellular carriers operating in Mexico establish points of interconnection between their networks and our network and (b) we carry calls between the points of interconnection and our customers. When a customer of another carrier calls a local service customer of ours, we complete the call by carrying the call from the point of interconnection to the particular customer, and when a local service customer of ours who has preselected a competing long distance carrier makes a long distance call, we carry the call from the customer to the point of interconnection with the relevant carrier's network. We have one rate for interconnecting all categories of carriers and all types of calls.

We believe that our interconnection revenues have been affected by a practice we call local bypass, in which incoming international calls are routed from domestic long distance carriers to local lines other than ours and then connected to our local network for termination. As a result of Mexico's bill and keep system, under which local carriers do not pay interconnection fees to other local carriers, we do not receive an interconnection fee from these calls. Without local bypass, we would receive a domestic termination fee for completing these incoming calls. Though we have agreed with most local and long distance carriers to request regulatory intervention to eliminate local bypass, we believe our interconnection results will continue to be adversely affected by this practice.

Corporate Networks

Corporate networks consist of the transmission of voice, video and data between two or more end points using private or virtual circuits. During 2005, the number of line equivalents provided by means of corporate networks increased by 32.5%, to 2,011 thousand. Our principal product offerings for corporate networks are Ladalinks (*Ladaenlaces*), Frame Relay and Internet through Internet Protocol / Multi-Protocol Label Switching, or IP/MPLS. Using equipment installed on-site, Ladalinks customers have dedicated digital network links that transmit information at speeds ranging from 64 Kbps to 2.5 Gbps. IP/MPLS is a multi-service platform that allows us to provide integrated voice, data and video services, along with Next Generation VoIP services. Frame Relay is a protocol for transmission of data, voice and video over a shared digital network. The speed of Frame Relay transmission ranges from 64 Kbps to 2,048 Kbps. Ladalinks and Frame Relay offer extensive technical assistance and customer support. In addition, we provide networks outsourcing, including network maintenance and support, to major institutions and private companies. We also provide hosting and co-location products, as well as telecommunications network integration services and information systems.

Internet Services

Internet services connect both business and residential customers to the Internet through either a dedicated or dial-up connection. In 2005, the number of Internet customers increased to 2,116 thousand, an increase of 21.5% compared with 2004. Business and residential customers connect to the Internet using telephone lines or broadband connections. We estimate that we are the leading Internet access provider in Mexico in terms of number of subscribers. As of March 31, 2006, the number of Internet service subscribers was 2,237 thousand, compared with 1,855 thousand as of March 31, 2005, an increase of 20.6%.

Our broadband service, Prodigy Infinitum, makes it possible for customers to use our high-capacity connectivity services with applications such as video-conferencing, file transfer, terminals, e-mail and protocol conversion. Prodigy Infinitum operates over asymmetric digital subscriber line, or ADSL, technology. In March 2004, we launched the Prodigy Infinitum kit, which provides our customers with all the equipment necessary to set up their own service. At year-end 2005, we had 1,033 thousand customers using our ADSL broadband services, an increase of 84.4% over 2004. We further expanded

Table of Contents

our broadband offerings with the launch of Prodigy Mobile (*Prodigy Móvil*), a high-speed wireless connection for residential and business customers that connects users to the Internet at speeds up to 2 Mbps at a range that extends 20 and 100 meters. As of December 31, 2005, we also provided 464 public hot spots in over 50 cities in Mexico at which our clients could obtain wireless access to the Internet.

Prodigy Internet Plus provides a customer with a multi-media personal computer, a personal web page, an e-mail account and two years of unlimited access time for a fixed monthly price. This program accounted for 83 thousand subscribers in 2005, or 3.9% of the total number of Internet access account subscribers at year-end. Our Prodigy Home (*Prodigy Hogar*) package, for a lower fixed monthly price than Prodigy Internet Plus, provides customers with a basic personal computer, a personal web page, an e-mail account, three years of unlimited Internet access during off-peak hours and billed access on a per-minute basis during peak hours. In 2005, we had 193 thousand Prodigy Home subscribers, an increase of 32.3% over 2004.

Consistent with our strategy of retaining our current customers and maximizing the value of residential and business Internet accounts, we introduced Telmex Package (*Paquete Telmex*) in 2005. This new service offers Internet access through Prodigy Infinitum, a monthly allowance of 100 additional local calls (in addition to the first 100 free local calls that are included in local residential service) and reduced rates for domestic long distance calls (P.1.00 per minute) and certain international long distance calls (P.2.00 per minute for calls to North, Central and South America). We also offer (i) Prodigy Home with a reduced monthly fee, which provides customers with unlimited Internet access between 6:00 p.m. and 8:00 a.m. from Monday to Friday plus the entire weekend and access for P.0.13 per minute at all other times, (ii) a Multifon Card function which allows customers who do not otherwise have Internet access to access the Internet with their Multifon Card for P.0.13 per minute, (iii) Prodigy Roaming, a service that provides traveling customers with a connection from anywhere in Mexico at the rate for local calls and (iv) Prodigy Patrol, a service that allows Prodigy Internet, Prodigy Internet Plus and Prodigy Infinitum customers to limit access to certain websites.

Other Services

We provide various other telecommunications and telecommunications-related products and services, including printed and online yellow pages directories, public phones, prepaid cards and Internet portals.

Yellow Pages Directories

We offer both a printed and an Internet-based yellow pages directory. Our yellow pages website (www.seccionamarilla.com.mx) had 15 thousand registered users during 2005, an increase of 30.7% compared with 2004. During 2005, our yellow pages website was visited 15 million times and had 134 million page views.

Billing and Customer Service

For corporate customers, we offer SI@NA, an Internet service that permits customers to analyze their telecommunications spending. Residential customers may also access billing information over the Internet using the Telmex on-line (*Telmex en Línea*) service. We provide our customers with a bill format that details their usage of local, long distance and other services.

We provide customer service through a network of customer service centers and call centers. These customer service centers have evolved from their traditional purpose as places for payment to become Telmex stores that offer telecommunications products and services. Large corporate customers also receive customer service from dedicated customer service personnel. Through our Integrated

Table of Contents

Solutions (*Solución Integral*) service, we assist corporate customers in meeting their telecommunications needs by providing them with integrated telecommunications solutions consisting of a broad range of telecommunications services. We offer service level agreements to corporate customers that set service standards and guarantee continuity of service.

Public Telephony and Prepaid Phone Cards

We have several programs to meet the need for different kinds of public telephone service in different areas. We had more than 805 thousand fixed public telephones in operation at December 31, 2005. In the increasingly competitive market to provide telecommunications services, independent operators have installed public telephones for which we provide access. There were 48,175 independently operated public telephones at December 31, 2005, an increase of 55.3% compared with 2004.

In 2005, we sold over 221.0 million prepaid cards under the brand name *Ladatel* for use in public phones and 37.1 million prepaid cards under the brand name *Multifon* for use in public and residential telephones, a decrease of 5.5% from 2004. This represents an average of almost 2.4 cards per Mexican resident. We have installed Internet kiosks in public places so that our customers have access to Internet products and services by using *Ladatel* cards. *Multifon Home* offers prepaid local and long distance service on home telephones. In the case of our *Multifon* products, customers do not pay monthly fees, and prepaid fixed-line service is charged on a per-minute basis like public telephony services. At December 31, 2005, *Multifon* lines totaled 1.9 million, an increase of 52.6% compared to December 31, 2004. Revenues from sales of prepaid cards (based on an estimate of usage) accounted for 5.6% of our consolidated revenues in 2005. In 2005, our revenues from public telephony decreased by 7.8% as a result of intense competition from wireless carriers.

Internet Portals

In 2006, we launched *Prodigy MSN*, the successor of *T1MSN*, an Internet portal that is a joint venture between Microsoft Corporation, or Microsoft, and us. *Prodigy MSN* takes advantage of Microsoft's world-class technologies and our leading infrastructure, operations and regional knowledge to offer users a broad range of services and content in Spanish, such as easy and secure shopping services and enhanced communication features. More than 90% of Internet users in Mexico visited *Prodigy MSN* during 2005.

Network

Our local and long distance fiber optic network, the largest in Mexico, extends approximately 89,600 kilometers, reaches 90% of Mexico's population and has connections via submarine cables with 39 other countries while also connecting most major cities throughout Mexico. Our network included 18.4 million local fixed lines in service at December 31, 2005, an increase of 7.0% compared to December 31, 2004, reflecting 1.9 million new lines and 739 thousand disconnections in 2005.

As a result of our substantial investment, our network has been 100% digital since 2000, providing a wide variety of telephony, data and video services. During 2005, customers made increasing use of digital services, such as caller ID, call waiting, three-way calling, call forwarding and voicemail. The number of lines with digital services in use at year-end 2005 was 7.6 million (41.4% of the total number of lines in service), representing an increase of 3.2% from 2004. This increase was due largely to an increase in new lines.

Our network includes network access cables and domestic and long distance transmission equipment. In addition, we use advanced routing technology and routers to connect end-users with our network. We use fiber optic cable to transmit both voice and high bandwidth applications such as video and data.

Table of Contents

For network access we use xDSL (specifically HDSL, SHDSL and ADSL), a copper modem technology that uses existing phone lines to access the Internet at speeds of up to 8 Mbps. Thus, our modernized external copper network is capable of supporting modern broadband applications requiring high data transmission speeds.

The network is fully redundant and is supported by fiber optic ground rings, which allow the network to be restored within 50 milliseconds in the event of a system failure. In addition, our digital microwave network serves as a backup to the fiber optic network and as a primary means of transmission in rural areas and small towns where a fiber optic infrastructure is not available. We also have satellite systems that support domestic and international network traffic. In order to further boost transmission speeds, we use a technology called Dense Wavelength Division Multiplexing, or DWDM, which divides optical fiber signals into multiple wavelengths and allows us to operate our network at speeds of up to 140 Gbps.

Core Network

Our core transmission network uses a technology called Next Generation Synchronous Digital Hierarchy, or Next Generation SDH. Transmissions pass through a series of optic rings that give us the unique ability to protect information carried on the network from origin to destination. This level of protection is achieved through the rings' self-repairing mechanism, which prevents equipment and connection failures. This mechanism minimizes the risk of interruption of the signal in the event of any failure in the network.

Additionally, in our core transmission network we have introduced optical cross-connect technology, which is capable of transporting higher volumes of traffic and protecting optical links with different self-recovery schemes to enhance network efficiency and allow for service differentiation.

Telephone communication in our network is controlled by digital local and long distance centers that employ a high degree of protection and load sharing. We also rely on our Advanced Intelligent Network platform, which uses voice and data switches to manage large amounts of transmitted information in both our telephone and data networks. This technology also gives us the ability to develop and implement advanced telephone applications in a short amount of time.

Our physical network comprises a combination of fiber optic, microwave and copper cable systems and wireless last-mile systems, which connect our clients to the network and allow us to provide our clients with numerous applications and services. Our modernized external copper network is set up to support not only conventional telephone systems, but also modern broadband applications, which also rely on digital technology and result in high data transmission speeds.

We control and monitor our network's performance and traffic levels and manage the routing of traffic and other network functions through centralized network management. This centralized management facilitates geographical expansion of the network and permits the implementation of higher capacity systems. Next Generation SDH technology gives us flexibility in the geographic placement of these switches and enables us to handle significantly more traffic with fewer switches than would a traditional non-digital network.

Table of Contents

Next Generation Network

As part of our transition to a Next Generation Network, we are deploying a new network platform based on data packets, which will permit the creation of multi-service networks to carry different kinds of information in standardized formats. By utilizing such packet technology, we can provide superior local access, network connectivity, data transmission and bandwidth delivery.

As of December 31, 2005, our cumulative investment in the Next Generation Network totaled P.10,719 million (U.S.\$911 million). In 2006, we have budgeted approximately U.S.\$425 million for investment in our Next Generation Network infrastructure.

Competition

The Mexican market for fixed-line domestic and international long distance services was opened to competition beginning in 1996. Thirty-three carriers have been granted licenses to provide long distance service in Mexico, and 14 are in operation. Alestra (a joint venture led by Alfa, S.A. de C.V., Grupo Financiero BBVA Bancomer, S.A. de C.V. and AT&T Corp.) and Avantel (a joint venture led by Grupo Financiero Banamex and MCI, Inc., or MCI) have made the most substantial investments in infrastructure and marketing. Most competing carriers have been principally focused on the long distance market, although some carriers also provide certain business customers with direct access to their long distance networks using lines leased from us.

The Communications Ministry (*Secretaría de Comunicaciones y Transportes*) has established rules for the determination of interconnection rates between our competitors and us. If we are unable to agree with our competitors on interconnection rates, the Mexican Federal Telecommunications Commission (*Comisión Federal de Telecomunicaciones*, or Cofetel) imposes the rates. During the last five years, however, we have agreed on these rates with our long distance competitors. We agreed with our long distance competitors to maintain the same interconnection rates for 2006 that have applied since 2002.

Customers are free to choose a competing carrier at any time. An independent organization confirms all requests to change long distance carriers. In addition to pre-subscription, customers eventually may be able to select a long distance carrier on a call-by-call basis by dialing a three-digit prefix. In general, our competitors have focused their attention on obtaining market share in Mexico's most profitable markets, such as the major cities and high-volume users of international and domestic long distance.

Competition in the Mexican market for fixed-line local services began in 1999. As of February 28, 2006, 20 carriers have been granted licenses to provide local fixed wire and wireless telephony and 23 carriers have been granted licenses for cellular and mobile telephony. The 23 carriers are owned by only five companies: Radiomóvil Dipsa, S.A. de C.V., or Telcel, Telefónica Móviles México, S.A. de C.V., or Telefónica Móviles, Servicios de Acceso Inalámbrico PCS, S.A. de C.V. and sister companies Grupo Iusacell, S.A. de C.V., or Iusacell, and Unefon, S.A. de C.V. At the end of 2005, Cofetel held an auction in which it awarded new PCS frequencies to Telcel, Telefónica Móviles and Iusacell. At present, there are 12 competitive local operators, primarily in Mexico City and other large cities. Avantel, Axtel and Maxcom are our principal fixed-line competitors. To date, our competitors in local service have focused on servicing first-time customers and providing second lines in new housing, as well as inducing our customers to switch carriers.

The competitive environment in the Mexican telecommunications market has been the subject of controversy and of attention from Mexican regulators and from abroad. See *Regulation Competition*. The effects of competition on us depend, in part, on the business strategies of competitors, regulatory

Table of Contents

developments, exchange rates and the general economic and business climate in Mexico, including demand growth, interest rates and inflation. The effects could include loss of market share and pressure to reduce rates for our services.

At December 31, 2005, we estimate that our market share in Mexico was 80.5% in domestic long distance service and 74.0% in international long distance service measured on the basis of total number of billed minutes generated by our local customers making domestic and international long distance calls in cities open to competition. Our market share in Internet access is estimated to be 61.0% of dial-up connections and 69.0% of broadband connections, measured on the basis of the total number of Internet access accounts in Mexico. We believe that, at present, competitors do not have a material share of the market for fixed-line local service, but we expect that this will change as the number of competitors grows and their market strategies develop. In local service and public telephony, we also face competition from cellular carriers, which we estimate had a combined total of 47.5 million cellular lines in service at year-end 2005. We anticipate continued intense competition as mobile carriers promote mobile-to-mobile calls and mobile-to-mobile messages as cheaper alternatives to fixed-to-mobile calls. We also face increasing competition in international and domestic long distance and local services from VoIP, a technology that transmits ordinary telephone calls over the Internet at a cost lower than that associated with traditional fixed-line telephony services.

Regulation

Our business is subject to comprehensive regulation and oversight by the Communications Ministry and Cofetel. The Communications Ministry is part of the executive branch of the Mexican federal government, and Cofetel is an agency of the Communications Ministry. Regulation and oversight are governed by the Law of General Means of Communication (*Ley de Vías Generales de Comunicación*, or the General Communications Law), the Federal Telecommunications Law (*Ley Federal de Telecomunicaciones*), the Telecommunications Regulations adopted under such law, the Concession and other concessions and license agreements granted by the Communications Ministry. We are also subject to oversight by the Agency for Consumer Protection (*Procuraduría Federal del Consumidor*) and the Competition Commission (*Comisión Federal de Competencia*).

Set forth below is a summary of certain provisions of the General Communications Law, the Federal Telecommunications Law, the Telecommunications Regulations and our concessions.

General

The General Communications Law, the Federal Telecommunications Law and the Telecommunications Regulations provide the general legal framework for the regulation of telecommunications services in Mexico. The Federal Telecommunications Law replaced most of the provisions of the General Communications Law relating to telephone communications, but those provisions of the General Communications Law not specifically addressed in the Federal Telecommunications Law, such as rules governing local and long distance carriers, remain in effect. Regulations implementing particular provisions of the Federal Telecommunications Law have been issued by the Communications Ministry and Cofetel. Regulations implementing other provisions of the Federal Telecommunications Law are pending. The objectives of the Federal Telecommunications Law are to promote the efficient development of the telecommunications industry, to encourage fair competition in the provision of quality, low-priced services and to assure satisfactory breadth of coverage of the Mexican population.

Table of Contents

Recent Developments

There have been recent changes to Mexican law that may affect our business. In April 2006, the Mexican Congress approved an amendment to the Federal Telecommunications Law and the Federal Radio and Television Law (*Ley Federal de Radio y Televisión*), which was published in the Official Gazette (*Diario Oficial*). Subsequently, approximately one third of the Mexican Senate objected to the validity of the amendment and judicial review of the matter is pending. The amendment allows radio and television broadcasters to provide telecommunications services after complying with certain conditions and makes Cofetel responsible for overseeing all telecommunications services, including those related to broadcasting. These changes are recent and we cannot predict the actions of broadcasting companies, but they could result in the entry of new competitors to our business.

In April 2006, the Mexican Congress approved an amendment to the Antitrust Law (*Ley Federal de Competencia Económica*), which was published in June 2006 in the Official Gazette. The amended law strengthens the authority of the Competition Commission, by among other things providing the Competition Commission with the ability to issue opinions that are binding on other governmental entities. The amendment also expands the definition of monopolistic practices, provides a more rigorous approval process for business combinations and establishes more stringent penalties, including substantially higher fines and the divestiture of assets. As a result of this amendment, it is likely that the Competition Commission will exercise stricter enforcement of the Antitrust Law, which could restrict our operations and increase competition.

In April 2006, the Communications Ministry proposed regulations that would authorize paid audio and television concessionaires to provide fixed-line local telephone services and local telephone service providers to provide paid audio and television services. This proposal would amend existing concessions to permit their holders to provide these new services, subject to certain conditions. The proposed regulation was presented to the Competition Commission, which had previously issued in October 2005 an opinion that is consistent with the Communications Ministry's current proposal. The proposed regulation was also submitted to the Federal Regulatory Improvement Commission (*Comisión Federal de Mejora Regulatoria*) and is subject to a period of public review.

Regulatory Oversight

The Communications Ministry is the Mexican government agency principally responsible for regulating telecommunications services. The Communications Ministry's approval is required for any change in our bylaws. It also has broad powers to monitor our compliance with the Concession, and it may revoke our Concession or temporarily seize or expropriate our assets. The Communications Ministry may require us to supply it with such technical, administrative and financial information as it may request.

The Federal Telecommunications Law provided for the establishment of an administrative agency, Cofetel, to regulate the telecommunications industry. Cofetel commenced operations in August 1996. It is an independent agency within the Communications Ministry, with five commissioners appointed by the Communications Ministry on behalf of the President of Mexico, one of whom is appointed as chairman. Many of the powers and obligations of the Communications Ministry under the Federal Telecommunications Law and the Telecommunications Regulations have been delegated to Cofetel. We regularly provide reports to Cofetel on our operations, financial performance and other matters. We are also required to publish our annual network expansion program, and we must advise Cofetel of the progress of our expansion program on an annual basis.

Mexican law gives certain rights to the Mexican government in its relations with concessionaires and provides that when the concession expires we may not sell or transfer any of our assets unless we

Table of Contents

give the Mexican government a right of first refusal. If the Mexican government declines to exercise its right, our unions also have a right of first refusal. In addition, Mexican law permits the Mexican government to expropriate our assets in certain circumstances.

Concessions

Under the Federal Telecommunications Law and the Telecommunications Regulations, a provider of public telecommunications services must operate under a concession granted by the Communications Ministry. Such a concession may not be transferred or assigned without the approval of the Communications Ministry. A concession to provide public fixed-network local and long distance services has a term for up to 30 years and may be extended for additional 30-year terms. Our Concession was granted in 1976 and amended in August 1990, and will expire in 2026. Our subsidiary Teléfonos del Noroeste, S.A. de C.V., or Telnor, holds a separate concession in two states in northwestern Mexico, which will expire in 2026. The material terms of the Telnor concession are essentially the same as the Concession.

Operators of private networks that do not use electro-magnetic frequencies are not required to obtain a concession to provide private telecommunications services but are required to obtain approval from the Communications Ministry.

In addition to the Concession, we currently hold concessions for the use of frequencies to provide wireless local access and point-to-point and point-to-multipoint transmission, which we obtained from Cofetel through a competitive bidding process. These concessions are granted for a term up to 20 years and may be extended for additional 20-year terms.

Termination of the Concession

The Concession provides that it will remain in force until 2026 and that we may renew it for an additional 15 years, subject to additional requirements the Communications Ministry may impose. Thereafter, it may be renewed for successive 30-year terms as provided under the Federal Telecommunications Law.

The Concession provides that upon its expiration the Mexican government is entitled to purchase our telecommunications assets at a price determined on the basis of an appraisal by a public official, and the Telecommunications Regulations provide that upon expiration of the Concession the Mexican government has a right of first refusal to acquire our telecommunications assets. The General Communications Law, however, provides that upon expiration of the Concession our telecommunications assets will revert to the Mexican government free of charge. There is substantial doubt as to whether the provisions of the Concession and the Telecommunications Regulations would prevail, and accordingly there can be no assurance that upon expiration of the Concession our telecommunications assets would not revert to the Mexican government free of charge.

The General Communications Law and the Concession include various provisions under which the Concession may be terminated before its scheduled expiration date. Under the General Communications Law, the Communications Ministry may cause early termination of the Concession in certain cases, including:

failure to expand telephone services at the rate specified in the Concession;

interruption of all or a material part of the services provided by us;

Table of Contents

transfer or assignment without Communications Ministry approval of the Concession, the rights provided under the Concession or any asset used to provide telephone service;

violation of the prohibition against ownership of our shares by foreign states;

any material modification of the nature of our services without prior Communications Ministry approval; and

breach of certain other obligations under the General Communications Law.

In addition, the Concession provides for early termination by the Communications Ministry following administrative proceedings in the event of:

a material and continuing violation of any of the conditions set forth in the Concession;

material failure to meet any of the service expansion requirements under the Concession;

material failure to meet any of the requirements under the Concession for improvement in the quality of service;

engagement in any telecommunications business not authorized under the Concession and requiring prior approval of the Communications Ministry;

following notice and a cure period, failure without just cause to allow other concessionaires to interconnect their telephone networks to our telephone network; or

our bankruptcy.

Under the Federal Telecommunications Law, our concessions could be terminated if: (i) the term of any concession expires; (ii) we resign our rights under any concession; (iii) the Mexican Government through the Communications Ministry expropriates any of the concessions; (iv) we are liquidated or become bankrupt; or (v) the Communications Ministry revokes any of the concessions. Our assets and rights under the concessions may also be temporarily seized by the Communications Ministry.

The General Communications Law provides that in the event of early termination of the Concession for specified causes, including violation of the prohibition on ownership of our shares by foreign states, we would forfeit all of our telecommunications assets to the Mexican government. In the event of early termination of the Concession for any other cause, the General Communications Law provides that a portion of our telecommunications assets would revert to the Mexican government free of charge, and that we may be required to dismantle the remaining portion. There is substantial doubt as to whether the provisions of the Concession and the Telecommunications Regulations regarding the consequences of expiration of the Concession would apply to mitigate the provisions of the General Communications Law in the event of early termination.

Dominant Carrier Regulations

The Federal Telecommunications Law provides that if a company is determined to be dominant in a relevant market, the Communications Ministry has the power to adopt specific regulations on rates, quality of service and information provided by a dominant provider. In February 1998, the Competition Commission issued a resolution confirming its determination that we are a dominant carrier in the following markets: (i) local telephone service, (ii) access service, (iii) inter-urban transport, (iv) domestic long distance service and (v) international long distance service. This 1998 resolution was held unconstitutional in May 2001.

Table of Contents

In September 2000, Cofetel adopted specific regulations, which we refer to as the dominant carrier regulations, applicable to us as a dominant carrier. The September 2000 Cofetel resolution to adopt these regulations was nullified in May 2002. The dominant carrier regulations applied to the five markets identified by the Competition Commission in 1998, and also to certain other services, including directory assistance, operator services and billing and collection services. They imposed standards for the quality of our services, and required that we prepare and provide specific information and specific tariff regulations.

The most significant elements of the dominant carrier regulations were the following three specific rules on tariffs:

First, our prices for covered services must always exceed a floor price based on total average costs. The Concession says our price for any service must exceed the average incremental cost, and while the methodology for determining total average costs is not clear, it would presumably result in a higher floor price for the services to which it applies.

Second, the regulations prohibit any rate or rate package that reduces our operating margin in a competitive market, except as a defensive response to competitors rates that present a risk of substantial loss of market share.

Third, prices for services (other than interconnection) that we provide to other carriers would, for the first time, be subject to prior approval of Cofetel.

It is difficult to assess the impact these regulations would have had on tariffs or competition, in part because neither the methodologies nor the procedures were fully specified. We believe, however, that if similar rules were implemented in the future, they would, to some degree, reduce our flexibility to adopt competitive tariff policies.

After the Competition Commission issued the February 1998 resolution, we commenced constitutional proceedings in the Mexican federal courts challenging the validity of the resolution, and we commenced a proceeding in the Mexican federal courts challenging the validity of the dominant carrier regulations. We asserted that they constituted a unilateral amendment of the terms of our Concession, which we believe is not permitted under the Mexican constitution or the terms of the Concession itself. We also asserted that the determination that we are a dominant carrier, on which Cofetel's power to issue these regulations was predicated, was flawed because the Competition Commission made its determinations in 1997 in reliance on earlier findings that were out of date, and because its determinations did not extend to all the markets covered by the dominant carrier regulations. Finally, we objected to the specific tariff regulations imposed by the dominant carrier regulations on a variety of grounds, including that they gave Cofetel excessive discretion, that they would unfairly burden competition and that they did not adequately permit us to recover our investments in infrastructure.

Following several appeals, the February 1998 resolution of the Competition Commission was held unconstitutional in May 2001. We contend that all subsequent rulings by Mexican government agencies (including Cofetel) that relied upon the 1998 resolution are also unconstitutional. We filed petitions to have dominant carrier regulations based on the 1998 resolution declared unconstitutional, and in May 2002, several resolutions issued by the Competition Commission and Cofetel were nullified, including the September 2000 Cofetel resolution adopting the dominant carrier regulations.

Table of Contents

In May 2001, the Competition Commission addressed the defect of the February 1998 resolution and issued a new resolution with the same terms in which it concluded that we are a dominant carrier in the same five markets. This resolution was affirmed by the Competition Commission following an appeal, and in September 2001, we commenced constitutional proceedings in the Mexican federal courts challenging the validity of this new resolution. In July 2003, a Mexican federal court held that certain aspects of the Competition Commission's second dominant carrier resolution were invalid, although the Competition Commission sought further review. In April 2004, a Mexican federal court decided in favor of our constitutional challenge to the resolution and declared the resolution invalid. In September 2004, the Competition Commission issued additional resolutions in which it again concluded that we are a dominant carrier, and in October 2004, we again commenced constitutional proceedings in the Mexican federal courts challenging the validity of the new resolutions. We cannot predict whether our constitutional challenge will be successful or, if it is successful, whether the Competition Commission or Cofetel will issue new resolutions or regulations that are substantially similar to the prior dominant carrier resolutions or regulations that were nullified.

Rates

The General Communications Law, the Federal Telecommunications Law and the Telecommunications Regulations provide that the basis for setting rates of a telecommunications concessionaire is set forth in its concession.

Under the Concession, our rates in any period for basic telephone services, including installation, monthly rent, measured local service and long distance service, are subject to a ceiling on the price of a basket of such services weighted to reflect the volume of each service provided by us during the preceding period. There is also a price floor based on our average long-run incremental cost. Within this aggregate price cap, we are free to determine the structure of our own rates. We must register our rates with Cofetel before they may take effect.

The price cap varies directly with the Mexican National Consumer Price Index, permitting us to raise nominal rates to keep pace with inflation, subject to consultation with the Communications Ministry. Since the beginning of 2001, we have not raised our nominal rates. Under the Concession, the price cap is also adjusted downward periodically to pass on the benefits of increased productivity to our customers. The Concession fixed the adjustment for 1998 and 1999 at 0.74% per quarter in nominal terms, and requires the Communications Ministry to set a new periodic adjustment for every four-year period to permit us to maintain an internal rate of return equal to our weighted average cost of capital. The Communications Ministry fixed the adjustment per quarter in nominal terms at 1.11% for 1999-2002 and at 0.74% for 2003-2006. During 2006, the Communications Ministry will determine the adjustment for 2007-2010.

For services extending beyond basic telephone service, under the Concession we are permitted to set our prices free of rate regulation. These services include data transmission, directory services and services based on digital technology, such as caller ID, call waiting, speed calling, automatic redialing, three-way calling and call forwarding. We are required to register the rates of value-added services on an annual basis.

Competition

The Telecommunications Regulations and the Concession contain various provisions designed to introduce competition in the provision of communications services. In general, the Communications Ministry is authorized to grant concessions to other parties for the provision of any of the services provided by us under the Concession. There are currently 14 competing long distance carriers operating in Mexico and concessions have been granted to a total of 33 long distance companies, all of which also

Table of Contents

have concessions for international long distance services. As of February 28, 2006, there were 20 fixed-line local operators that have been granted licenses, primarily in Mexico City, Guadalajara, Monterrey, Puebla and other large and medium-sized cities. See *Mexican Operations Competition*. Concessions are not required to operate certain private local telecommunications networks or to provide value-added services, although other authorizations may be required.

On August 12, 2005, Mexico adopted regulations permitting resale of domestic and outgoing international long distance services. We expect that in the future the authorization of resale of domestic and outgoing international long distance services will put downward pressure on the prices we charge our customers for those services.

In 2003, the Communications Ministry expanded the concessions granted to cable television operators to permit them to provide bidirectional transmission of data. In addition, in 2004, the Communications Ministry began to permit cable operators to provide signal-transmission services to local fixed-line operators and data and broadband Internet services to the Mexican public. Our Concession permits us to distribute, with prior authorization, television signals through our network to companies authorized to provide television services to the public, but we are not allowed to hold a concession to provide television signals to end users.

Some operators are offering VoIP services, although the application of current regulations to these services is unclear. In addition, some operators are using VoIP to bypass our network.

With respect to international long distance services, Cofetel rules cover matters such as international interconnection and mechanisms for routing calls into and out of Mexico. Currently, international traffic must be carried by Mexican concessionaires and through authorized international gateways consistent with Cofetel's international long distance rules.

The competitive environment in the Mexican telecommunications market has been the subject of controversy and of attention from Mexican regulators and from abroad. In particular, the Competition Commission has determined that we are a dominant provider of certain telecommunications services, though our appeal of this determination is pending. Mexican law provides for the regulatory authorities to impose additional regulations on a dominant provider. As discussed above, Cofetel has adopted specific regulations applicable to us as a dominant carrier, although these regulations were later nullified by a Mexican federal court. The Competition Commission has repeatedly ruled that we have engaged in relative anti-competitive practices, which are less significant violations than absolute anti-competitive practices and carry lower fines. Most of these resolutions have been declared null and void by federal courts or withdrawn by the Competition Commission.

In August 2000, the United States initiated a World Trade Organization dispute settlement against Mexico regarding alleged illegal barriers to competition in the Mexican telecommunications market. The allegations related to our status as a dominant telecommunications provider in Mexico and the interconnection fees and charging mechanisms for international calls.

In June 2004, the United States and Mexico announced that they had mutually agreed to resolve the dispute. Under this agreement, Mexico eliminated its uniform settlement rate system, its proportional return system and its requirement that the Mexican carrier with the greatest share of outgoing traffic to a particular country negotiate the settlement rate on behalf of all Mexican carriers for that country. Mexico also agreed to introduce new regulations authorizing the resale of domestic and outgoing international long distance services, which were adopted in August 2005. In addition, the United States recognized that Mexico will continue to restrict international simple resale, or the use of leased lines to carry cross-border calls. We expect that the changes in regulation will likely continue to affect our business and competition in the future, and in particular, that the authorization of resale of telecommunications services will put downward pressure on the prices we charge our customers for those services.

Table of Contents

Interconnection

We are required under the Federal Telecommunications Law to permit any other long distance concessionaire to connect to our network in a manner that enables customers to choose the network by which their long distance calls are carried. Cofetel rules governing the interconnection rights and obligations of local service concessionaires require local service concessionaires to provide interconnection on a nondiscriminatory basis to any other concessionaire.

The Concession provides that other terms of interconnection, including fees, are to be negotiated between us and each other long distance carrier, and that, in the event the parties are unable to agree, the Communications Ministry may impose terms on us and the other carriers. We were unable to agree with our competitors on interconnection rates for 1997 through 2000, and accordingly Cofetel imposed rates. The interconnection fees imposed by Cofetel were the subject of numerous legal challenges. We also brought proceedings contesting our obligation to renew the existing service agreements with competing carriers based on the new interconnection tariffs, on the grounds that the carriers had not honored the current agreements.

Since 2002, we have agreed with competing long distance carriers to an interconnection rate of U.S.\$0.00975 per minute and per interconnection point. This rate will apply through December 31, 2006.

In Mexico, under the calling party pays system, our fixed-line customers pay us an interconnection charge when they call a mobile telephone, and we pay 76% of that amount to the mobile carrier that completes the call. Historically, this interconnection charge applied only to local calls. A Cofetel resolution published in the Official Gazette in April 2006, however, extended this charge to long distance calls, while concurrently eliminating the fee that cellular carriers charge their customers for receiving long distance calls from fixed-line and mobile callers. This resolution is scheduled for implementation in October 2006, at which time our customers will pay higher rates for long distance calls to mobile telephones.

Table of Contents**NON-MEXICAN OPERATIONS**

Through our subsidiaries, we provide voice, data and Internet services in Brazil, Chile, Argentina, Peru and Colombia. The revenues of our non-Mexican operations represented 23.5% of our consolidated revenues for 2005. These operations derive from our acquisition of AT&T Latin America Corp., or AT&T Latin America, in February 2004 (with operations in all five countries), Techtel-LMDS Comunicaciones Interactivas, S.A., or Techtel, in April 2004, Chilesat Corp. S.A., or Chilesat, and Metrored Telecomunicaciones S.R.L., or Metrored, in June 2004 and Embratel in a series of transactions beginning in July 2004. In 2005, we acquired a non-controlling interest in Net, which we transferred to Embratel later in 2005.

The following table sets forth selected financial information for the year ended December 31, 2005 expressed in constant pesos as of December 31, 2005 and as a percentage of our total consolidated group.

	Year Ended December 31, 2005							
	(in millions of constant Mexican pesos as of December 31, 2005, except percentages)							
	Mexico		Brazil		Other Countries		Consolidated	
Revenues	P. 124,669	76.5%	P. 34,610	21.2%	P. 3,669	2.3%	P. 162,948	100.0%
Operating income	45,565	93.6	2,615	5.4	514	1.0	48,694	100.0
Assets ⁽¹⁾	344,439	78.4%	88,288	20.1%	6,625	1.5%	439,352	100.0%

(1) Assets include plant, property and equipment (without deducting accumulated depreciation), construction in progress, advances to suppliers and inventories for operation of the telephone plant. See Note 18 to our audited consolidated financial statements.

Brazil***Embratel Participações***

We operate in Brazil through Embratel and its subsidiaries. Of our revenues from our Brazilian operations in 2005, 62.9% was attributable to voice services, approximately 25% was attributable to data services and the remainder was attributable to other services. Voice services include domestic and international long distance and local service. Data services include data and Internet services. Other services include the transmission of television and radio, telex and mobile satellite communications services.

We own 97.3% of the voting stock and 45.4% of the non-voting stock of Embratel (72.3% of the total capital stock) as a result of a series of transactions in 2004 and 2005. In July 2004, we purchased 51.8% of the voting stock of Embratel from MCI for a cash purchase price of P.4,656 million (U.S.\$400 million). We purchased additional voting stock through a tender offer in December 2004 and both voting and non-voting stock in 2005 in Embratel's approximately U.S.\$700 million capital increase.

In October 2005, we transferred to Embratel 100% of the capital stock of Telmex do Brasil and our 37.1% interest in Net in exchange for new voting stock of Embratel valued at approximately P.4,494 million (U.S.\$432.4 million) (based on the Bank of Brazil's commercial selling rate of 2.2623 for *real*/U.S. dollar exchanges on the date of transfer), increasing our ownership of the voting stock of Embratel to 97.3% and our ownership of the total capital stock of Embratel to 72.3%. In May and June 2006, Embratel increased its investment in Net to 43.0%. See *Investment in Net*.

On May 8, 2006, we announced a cash tender offer for the 272,534 million outstanding publicly held common and preferred shares of Embratel. The price will be 6.95 Brazilian *reais* per 1,000 shares, plus indexation, for both common shares and preferred shares. The commencement of the tender offer is subject to registration by the Brazilian Securities and Exchange Commission (*Comissão de Valores*

Table of Contents

Mobiliários, or CVM), the Brazilian stock exchange regulator. We will commence the offer by publishing a Notice of Tender Offer (*edital*) in Brazil after the CVM approves the registration of the tender offer.

Through its subsidiaries, Embratel is one of the leading providers of communications services in Brazil. Of its total revenues in 2005, approximately 62% were derived from corporate customers and the remainder from residential customers. Its principal service offerings include domestic and international long distance, data communications, local and other services. Through its high-speed data network, it offers a broad array of products and services to a substantial number of Brazil's 500 largest corporations. Telmex do Brasil provides telecommunications services to corporate customers in Brazil's largest cities including Rio de Janeiro and São Paulo, complementing Embratel's other business in those cities.

The Brazilian domestic and international long distance markets are increasingly open to full competition. Competitors have gained market share at Embratel's expense and are placing pressure on its prices and competing with it for desirable customers in its long distance and data businesses. In response to these competitive pressures, Embratel is pursuing a marketing strategy to attract and retain customers and develop its customer base. Embratel is promoting price clarity and attractive pricing.

Embratel was founded in 1965 and later became the long distance subsidiary of Telecomunicações Brasileiras S.A. - Telebrás, or Telebrás, the Brazilian government-owned telephone company. In 1998, Telebrás was broken up into 12 new holding companies, which were then privatized, including one holding company, Embratel, for the domestic and international long distance operator. After the opening up of the Brazilian local service market, Embratel began providing local telephone services in 2002. In 2003, Embratel acquired Vésper S.A. and Vésper São Paulo S.A. and their subsidiaries, wireless local loop, local service and broadband data operators with operations in São Paulo and 16 other Brazilian states. In November 2005, Embratel bolstered its offerings of value-added services such as net integration and outsourcing through its acquisition by its principal operating subsidiary of 100% of the capital stock of PrimeSys Soluções Empresariais S.A., or PrimeSys, for R\$251 million (approximately P.1,148.4 million).

Through its subsidiary Star One, Embratel is also Brazil's leading provider of satellite services, with applications including broadcasting, broadband data and telephony. Star One currently has four satellites in orbit, which cover the entire territory of Brazil as well as Argentina, Uruguay and Paraguay. Embratel expects to replace one of its satellites in the first quarter of 2007 with a new satellite that will also provide coverage over South America, as well as part of Florida. Embratel expects to replace another of its satellites by mid-2007 with a new satellite that will provide coverage over South America, Mexico, the west coast of the United States and part of Florida.

Embratel owns the largest long distance telecommunications network in Latin America and the largest network of broadband fiber optic transmission systems in Brazil. The network, which connects all of the regional fixed-line and cellular operators throughout Brazil, uses a 100% digital switching system for voice and data services, and packet-switched data communications in asynchronous transfer mode, or ATM, and frame relay networks for data and Internet services. The domestic long distance and international transmission facilities extend to all 26 states and the Federal District of Brazil and include fiber optic, digital microwave, satellite and copper wireline networks.

The network of Telmex do Brasil, a subsidiary of Embratel, extends to seven major cities in Brazil and has points of presence, or POPs, for data and voice services in two other cities. POPs are nodes that are extensions of a network that permit access to customers in cities where a provider does not have metropolitan networks. The network is based on fiber optic cable and, like Embratel's, uses primarily ATM transport technology.

Table of Contents

Investment in Net

Embratel owns a non-controlling interest in Net, the largest cable television operator in Brazil. As of December 31, 2005, Net had approximately 1.5 million connected cable television subscribers and 366.5 thousand subscribers to its high-speed cable modem Internet access service. Net had total revenues of U.S.\$660.7 million (P.7,076.7 million) and net income of U.S.\$56.4 million (P.604.1 million) during 2005.

In 2005, pursuant to agreements with Globo Comunicações e Participações S.A., Distel Holding S.A. and Roma Participações Ltda. (together, Globo), we acquired (a) 49% of the voting interests and all of the non-voting interests in GB Empreendimentos e Participações S.A., or GB, a special-purpose company that owns 51% of the voting shares of Net and (b) 37.4% of the voting and 7.7% of the non-voting shares of Net. Globo owns the remaining 51% of the voting interests in GB. The total cost of these transactions was U.S.\$313 million (P.3,352.2 million), and our resulting total direct and indirect equity interest in Net was 37.1% (calculated by multiplying the shares of Net held by GB by our percentage equity interest in GB, and adding the shares we owned directly in Net).

In October 2005, we transferred our interest in Net to Embratel for new voting stock of Embratel valued at approximately P.3,630 million (U.S.\$349.3 million) on the date of transfer (based on the Bank of Brazil's commercial selling rate of 2.2623 for *real*/U.S. dollar exchanges on that date). In May 2006, Embratel acquired, in exchange for R\$240.9 million, an additional 5.1% interest in Net from Globo Comunicações e Participações S.A. and one of its subsidiaries. In addition, in May 2006, in exchange for R\$65.1 million, Embratel acquired the rights of Globo Comunicações e Participações S.A. to acquire additional shares of Net in a capital increase. Embratel exercised these rights in June 2006, thereby increasing its total direct and indirect equity interest in Net to 43.0%.

Under current Brazilian law governing cable operators, because Embratel is not controlled by Brazilian persons, Embratel is not permitted to control Net. Globo owns a majority of the voting interests in GB, which owns a majority of the voting shares of Net. If Brazilian law changes to allow Embratel to own a controlling interest in Net, Embratel has the right to purchase an additional interest in GB to give it control of 51% of the voting shares of Net, and Globo has the right to cause Embratel to purchase such interest.

Regulation

The Brazilian Telecommunications Law (*Lei Geral das Telecomunicações Brasileiras*) provides a framework for telecommunications regulation. Pursuant to Article 8 of the Telecommunications Law and Decree No. 2,338 of October 7, 1997, the primary regulator of Embratel is Anatel.

Companies wishing to offer telecommunications services to consumers are required to apply to Anatel for a concession or an authorization. Concessions are granted for services in the public regime and authorizations are granted for services in the private regime.

Embratel's concession for the provision of long distance service was renewed on December 22, 2005 and will expire on December 31, 2025. The initial grant of the concession to Embratel did not require payment of a fee. Beginning January 1, 2006, Embratel is required to pay a fee every two years equal to 2% of annual net revenues from the provision of long distance services in the prior year (excluding taxes and social contributions). This requirement will last throughout the 20-year renewal period.

Table of Contents

Since the privatization of the Brazilian telecommunications system, concessionaires have been required to meet certain universal service and quality targets. Failure to meet these targets carries the possibility of fines and penalties from Anatel.

After the privatization of the Brazilian telecommunications system, authorizations were granted to new competitors wishing to offer switched fixed telephone services in the private regime, including local, intra-regional long distance, inter-regional long distance and international long distance services. Providers granted authorizations are not subject to the same obligations concerning network expansion (universal service obligations) and continuity of service as those applicable to concessionaires providing switched fixed telephone services in the public regime, although individual authorizations may contain certain related obligations. There are no limitations on the number of authorizations that may be granted. In July 2002, Telmex do Brasil obtained authorizations to provide local switched fixed telephone services and domestic and international multimedia communications services, which allow it to provide facilities-based voice services. The switched fixed telephone license for local service includes the seven largest business centers in the country.

In May 2005, Anatel consolidated the authorizations to provide local switched fixed telephone services held by Embratel and Telmex do Brasil. In August 2005, pursuant to requirements of Anatel, Embratel eliminated all overlapping service areas with its subsidiaries, including Telmex do Brasil.

Embratel's concession establishes a mechanism of annual rate adjustment, based on rate baskets and an adjustment for inflation. Anatel defines rate baskets for local, intra-regional long distance, inter-regional long distance and international long distance services. While the weighted percentage increase for the entire basket is capped by Anatel, tariffs for individual services within the basket may be increased at Embratel's discretion. Because Telmex do Brasil operates under an authorization granted by Anatel and not a concession, the rates it charges its customers are not regulated by Anatel.

Competition

The strongest operators in Brazil's telecommunications market are the companies that were broken off from Telebrás, the former government-owned telephone company, upon its privatization, Telefónica, Brasil Telecom and Telemar. Following the privatization of Telebrás, three mirror companies were created by the auction of mirror licenses to provide local services over public switched networks in the same geographic areas served by the incumbent carriers. In 2003, Embratel acquired Vésper and Vésper São Paulo, two of the three mirror companies. Global Village Telecom holds the third mirror license for local service. Intelig holds a mirror license for the provision of domestic and international long distance service, in competition with Embratel.

Since 2002, the Brazilian federal government has been authorized to grant an unlimited number of authorizations for the provision of any type of telecommunications service. Embratel was granted a nationwide license in August 2002 to provide local telephone service after it met certain universal service requirements.

Embratel's principal competitors vary by region and type of service. In northern and eastern Brazil, Embratel competes with Telemar and CTBC Telecom for local services and Telemar and Intelig for long distance services. In São Paulo, Embratel competes with Telefónica for local services and Telefónica and Intelig for long distance services. In southern and western Brazil, Embratel competes with Brasil Telecom and Global Village Telecom for local services and Brasil Telecom and Intelig for long distance services.

Table of Contents

Chile

In February 2004, we acquired substantially all of the assets of AT&T Latin America including those of AT&T Chile Holding S.A., which was renamed Telmex Chile Holding S.A., or Telmex Chile. In April 2004, we acquired an approximately 40% interest in Chilesat for P.612 million (U.S.\$47 million) from Redes Ópticas, S.A. and Redes Ópticas (Cayman) Corp., entities owned by Southern Cross Latin American Private Equity Fund L.P. and GE Capital Equity Investments, Ltd. Pursuant to a cash tender offer required by Chilean law, in June 2004 we purchased an additional 59.3%, increasing our ownership of Chilesat to 99.3%. We changed the name of Chilesat to Telmex Corp. S.A., or Telmex Corp. In 2004, we integrated the operations of Telmex Corp. and Telmex Chile. In April 2005, Telmex Corp. was delisted from the New York Stock Exchange.

To corporate customers, we provide long distance service, local service, private long distance networks, virtual private networks, Internet services and other value-added services, as well as video and audio satellite links for broadcasting corporations. For residential customers, we are focusing on long distance and Internet services, including value-added services with the goal of increasing our overall profitability. Our multi-service platform, IP/MPLS, allows us to provide integrated voice, data and video services, along with Next Generation VoIP services.

Our fiber optic network covers more than 4,200 kilometers of the continental territory of Chile from Arica to Santiago, Santiago to Valparaíso and Santiago to Valdivia. In 2002, in order to cover the segment between Valdivia and Puerto Montt, a capacity exchange was carried out with Telefónica del Sur S.A. In the southern regions of the country and Isla de Pascua, we use a satellite platform. We also own and operate metropolitan fiber networks covering Santiago and Chile's other major cities.

Our fiber optic network in Santiago is arranged in a ring structure, the total length of which is 1,200 kilometers, and which is distributed through 23 nodes located in the primary industrial and commercial districts in Santiago. In 2005, we introduced the first commercial 10 gigabit Metro Ethernet network in Santiago, which enables our network to offer integrated Internet Protocol, or IP, services to the corporate market. Our 10 gigabit Metro Ethernet network provides data transmission over a secure virtual private network that allows our customers to vary on demand the amount of bandwidth they require, from 10 Kbps to 10 Gbps, on specific days or at specific times of the day.

Of our revenues from Chilean operations in 2005, almost two-thirds were attributable to voice services, with revenues from local voice services increasing over 200% from 2004, approximately one-third was attributable to data and Internet services and the remainder was attributable to other services. In 2005, Telmex Corp. and Telmex Chile together had a market share of 30.9% in the national long distance market and a market share of 16.5% in the international long distance market.

The General Telecommunications Law of 1982, as amended, established the legal framework for the provision of telecommunications services in Chile. The law established the rules for granting concessions and permits to provide telecommunications services and for the regulation of rates and interconnection. The main regulatory agency of the Chilean telecommunications sector is the Ministry of Transportation and Telecommunications, which acts primarily through the Undersecretary of Telecommunications, or SUBTEL. We hold licenses to provide local, domestic and international long distance service, data services and value-added services.

In December 2005, SUBTEL assigned through a public bidding process a nationwide wireless local public telephone license in the 3.4-3.6 GHz frequency band to Telmex Servicios Empresariales. This license will allow Telmex to offer integrated Next Generation IP services on a broader basis to small and medium-sized businesses in Chile. One of our competitors, Telefónica CTC Chile, has appealed this assignment, and this appeal is pending.

Table of Contents

We face strong competition in all of our business segments and we compete with Telefónica CTC Chile, the ultimate parent of which is Telefónica S.A., Entel S.A. and five other carriers. This competition has mainly been vigorous in the corporate telecommunications market and in the international and national long distance public markets since implementation of the multicarrier system, which requires local telephone companies to provide facilities that allow long distance carriers to access the local telephone network on an equal access basis. We, Entel and other similar companies compete on an equal access basis in the national long distance and international long distance Chilean market.

Argentina

Techtel, Telmex Argentina S.A. and Metrored are our three Argentine subsidiaries. They provide data, Internet and local and long distance voice services to corporate and residential customers in Argentina. Metrored operates fiber optic rings in metropolitan areas that provide last-mile access to reach our customers, and through its two data centers also offers data administration and hosting, among other services.

In April 2004, we acquired an 80% indirect interest in Techtel in two separate purchases. We acquired a 20% interest from an affiliate of Techint Compañía Técnica Internacional S.A.C.I., or Techint, one of Argentina's largest industrial groups, for P.291 million (U.S.\$25 million). We subsequently acquired a 60% interest from América Móvil, on the same pricing terms, for P.873 million (U.S.\$75 million). In June 2004, we acquired all of the assets of Metrored for P.157.6 million (U.S.\$13.5 million).

In June 2004, we capitalized Techtel with P.254.5 million (U.S.\$21.8 million) to repay debt of Techtel and we indirectly capitalized Techtel's Uruguayan subsidiary Telstar, S.A. in the amount of P.51.4 million (U.S.\$4.4 million) to acquire telephone equipment, increasing our ownership of Techtel by 3.4%. After the capitalization, the Techint affiliate continued to hold the remaining 16.6% indirect interest in Techtel. Pursuant to an agreement with the Techint affiliate, on June 23, 2005, we exercised our right to acquire an additional interest in Techtel of approximately 10% for which we paid P.166 million (U.S.\$15 million), increasing our ownership to 93.4%. In December 2005, pursuant to a further agreement with the Techint affiliate, we exercised our right to acquire the Techint affiliate's remaining 6.6% indirect interest in Techtel for P.108 million (U.S.\$10 million), thereby increasing our ownership of Techtel to 100%.

In December 2005, we organized our Argentine operations under one holding company called Metrored Holdings S.R.L., or Metrored Holdings. Metrored Holdings owns 98% of Techtel, 98% of Telmex Argentina, 89.5% of Metrored and 100% of Telstar.

Techtel operates a local multipoint distribution service, or LMDS, and fiber optic network in Argentina, providing voice, data and video transfer services and other related telecommunications services. LMDS is a wireless broadband technology that uses radio signals to transmit voice, video and data. Techtel is currently developing a new wireless network in the 3.3 GHz frequency band to provide wireless telecommunications services to small and medium-sized businesses.

Techtel began providing long distance fixed-line voice services and call center support in December 2000 and launched local fixed-line voice services in August 2001. In June 2004, we acquired a controlling interest in Metrored, which has one of the largest fiber optic networks in Buenos Aires. In 2005, Metrored established an international information center that monitors the services provided by us to our international customers located throughout South America.

We have a fiber optic network of over 4,000 km that covers 22 cities in Argentina and reaches approximately 68% of its population. Our voice network covers approximately 61 cities. In 2005, we completed a national IP/MPLS platform infrastructure, and implemented Next Generation SDH and DWDM technologies including next generation cross-connect devices.

Table of Contents

Of our revenues from our Argentine operations in 2005, 53% was attributable to voice services, approximately 35% was attributable to data services and the remainder was attributable to other services.

We hold licenses to provide local, domestic and international long distance telephone service, public telephony, data services, value-added services and video conferencing.

Peru

Through Telmex Perú S.A., we provide domestic and international long distance services, public telephones, and data, Internet and hosting services to corporate and residential customers in Peru through a fiber optic network. Revenues of our Peruvian operations for the full year 2005 were P.593 million, of which nearly 65.4% was attributable to voice services, approximately 31.5% was attributable to data services and the remainder was attributable to other services.

The main regulatory agency of the Peruvian telecommunications sector is the Ministry of Transportation and Communication. Telmex Perú holds concessions to provide local, domestic and international long distance service. Telmex Perú acquired the right to provide telecommunications services in the 3.5 GHz frequency band in eight Peruvian provinces in 2005 and in Lima and Callao in 2006. Our main competitor in fixed local telephony services, public telephone services, data services and Internet services is Telefónica del Perú, S.A., and in long distance telephony services our main competitors are Americatel Perú S.A., a Telecom Italia Group affiliate, and Telefónica del Perú.

During 2005, we launched the Redes Privadas IP Multiservicios international network, a multi-service platform that allows us to provide multinational corporate customers with integrated voice, data and video services, along with Next Generation VoIP, and we finished installation of the Redes Privadas IP Multiservicios domestic network.

Colombia

Through Telmex Colombia S.A., we provide data and Internet services to corporate clients in Colombia through a metropolitan and inter-city fiber optic network. Of our revenues from our Colombian operations for 2005, over 90% was attributable to data and Internet services and the remainder was attributable to other services. We hold licenses to provide local, domestic and international long distance service, mobile telephone service, data services, value-added services and video conferencing.

In 2005, we installed a new fiber optic network in the 16 principal cities of Colombia, and we moved 75% of our customers in these cities to the new network. The new fiber optic network provides enhanced services and increased network access for our customers. Also in 2005, we implemented DWDM technology in Bogota, Cali, Medellin, Pereira, Neiva and Ibaguè, and we increased the capacity of our multi-service IP/MPLS platform infrastructure to enhance our service offerings. In 2005, we had an increase in customers of approximately 105% compared with 2004.

United States

In April 2003, the U.S. Federal Communications Commission, or FCC, granted our U.S. subsidiary, Telmex USA, L.L.C., or Telmex USA, a facilities-based authorization that permits Telmex USA to install and operate telecommunications facilities in the United States. Telmex USA also holds an FCC authorization to resell long distance services in the United States. As a result of our acquisition of the assets of AT&T Latin America and of Embratel, we hold two additional facilities-based and resale-based authorizations.

Table of Contents

Acquisition of Interest in 2Wire

In January 2006, together with Alcatel and SBC International, Inc., or SBC International, a subsidiary of AT&T Inc., we acquired an aggregate 51% interest in the capital stock of 2Wire. 2Wire is an equipment and services supplier for broadband networking that develops integrated solutions to deliver broadband service and content throughout the home or small office. 2Wire also offers service providers with a platform to deliver and manage Internet, telephony, entertainment and other enhanced broadband application services. We acquired an approximate 18.5% interest in 2Wire for approximately U.S.\$88 million. SBC International also paid us approximately U.S.\$26 million for the right to acquire from us an approximate 5.5% interest in 2Wire in the future upon satisfaction of certain conditions, which would decrease our ownership to approximately 13%.

Investment in Compañía Anónima Nacional Teléfonos de Venezuela

In April 2006, we announced that América Móvil and we had together entered into an agreement with Verizon Communications, Inc., or Verizon, to acquire through an equally-owned joint venture Verizon's 28.5% equity interest in Compañía Anónima Nacional Teléfonos de Venezuela, or CANTV, for an aggregate cash purchase price of U.S.\$676.6 million in cash. As required by Venezuelan law, following the closing of our acquisition of Verizon's equity interest in CANTV, we and América Móvil will offer to purchase the remaining outstanding shares of CANTV from all holders of shares at the price per share paid to Verizon and the remaining ADSs of CANTV at the price per ADS paid to Verizon. Both the direct purchase and tender offer are subject to regulatory approvals and other conditions.

Table of Contents**CAPITAL EXPENDITURES**

The following table sets forth, in constant pesos as of December 31, 2005, our capital expenditures, before retirements, for each year in the three-year period ended December 31, 2005:

	Year ended December 31,		
	2005	2004	2003
	(in millions of constant pesos as of December 31, 2005)		
Data, connectivity and transmission network	P. 9,320	P. 3,809	P. 3,684
Internal plant	5,263	8,648	1,693
Outside plant	5,116	5,537	2,674
Systems	1,069	867	718
Other	2,671	2,192	2,316
Total capital expenditures	P. 23,439	P. 21,053	P. 11,085

Our capital expenditures increased by 11.3% in 2005 due to an increase in our investments in Mexico and the inclusion of the investments made by our non-Mexican subsidiaries, especially Embratel.

In 2005, our consolidated capital expenditures totaled P.23.4 billion (U.S.\$2.1 billion). Of our consolidated capital expenditures, our Mexican operations represented 65.5% (P.15.4 billion or U.S.\$1.4 billion), Embratel represented 28.1% (P.6,590 million or U.S.\$593 million) and the remainder of our Latin American operations represented 6.4% (P.1,490 million or U.S.\$134 million).

We have budgeted capital expenditures in an amount equivalent to approximately P.23.2 billion (U.S.\$2.1 billion) for the year 2006, including P.15.1 billion (U.S.\$1.4 billion) in Mexico, P.6,377 million (U.S.\$583 million) in Brazil, which includes P.2,569 million (U.S.\$235 million) for investment in satellites, and P.1,663 million (U.S.\$152 million) for our other operations in Argentina, Chile, Peru and Colombia. Budgeted capital expenditures for 2006 exclude any other investments we may make to acquire other companies. For subsequent years, our capital expenditures will depend on economic and market conditions. Our budgeted capital expenditures are financed through operating cash flows and limited borrowing.

OTHER MATTERS**Investments****General**

We occasionally make investments and joint ventures in telecommunications-related businesses within and outside Mexico. In 2005, we made investments totaling P.3,782 million (U.S.\$326.3 million) to acquire a 37.1% equity interest in Net, which we later transferred to Embratel in exchange for new common shares of Embratel. We also invest in publicly traded equity securities of companies in technology and communications businesses. Our marketable securities are carried at market value, and gains and losses are recognized in our statement of income.

MCI, Inc.

Through a wholly owned subsidiary, we invested in approximately 25.6 million shares of common stock of MCI, which represented approximately 8.1% of MCI's outstanding common stock. Other parties that may be deemed to be under common control with us held an additional interest of approximately 5.7% of MCI's outstanding common stock.

Table of Contents

In April 2005, we and certain parties related to us entered into an agreement with Verizon and certain of its subsidiaries to sell to Verizon and certain of its subsidiaries our entire interest in common shares of MCI for a cash purchase price of U.S.\$25.72 per share. We received approximately U.S.\$660 million (P.7,827 million) for our 25.6 million MCI shares in May 2005. We recognized a gain of P.501.4 million as a result of the sale of these shares.

Property, Plants and Equipment

We have transmission facilities, exchanges, outside plant and commercial and administrative offices throughout Mexico. We own most of the locations of our exchanges and offices and lease other locations. We hold a small number of operating properties under financial leases, but the aggregate amount of such financing is not material to our operations as a whole. We carry casualty insurance against loss or damage to buildings, equipment contained in buildings and outside plant, including our fiber optic network. Outside Mexico, we hold additional facilities and offices in Brazil, Chile, Argentina, Peru and Colombia.

We have purchased equipment from a variety of suppliers, and there are sufficient alternative sources of equipment so that interruption of any source would be unlikely to cause a significant disturbance to our operations or our investment plan.

The Telmex Foundation

Since 1996, we have sponsored a philanthropic foundation called Fundación Telmex, A.C., or the Telmex Foundation, which is active in the charitable areas of education, health, justice and culture. We do not consolidate the Telmex Foundation in our financial statements. We contributed P.597 million in 2001. We did not contribute to the Telmex Foundation in 2002 through 2005, and do not expect to contribute to the Telmex Foundation in 2006. The assets of the Telmex Foundation are devoted only to its charitable activities, and our contributions are deductible for purposes of the Mexican Income Tax Law.

During 2005, the Telmex Foundation provided over 15,733 scholarships, donated over 1,924 personal computers and over 1,155 printers, and provided approximately 10,000 eyeglasses for children. The Telmex Foundation also works in conjunction with the Mexican government's health agencies in providing specialized health care to people in remote areas through a surgery program that funded treatment for over 32,357 patients in 2005. The Telmex Foundation also works to increase participation in organ donor registries. In cooperation with non-governmental organizations, the Telmex Foundation provided assistance to nearly 4,340 persons charged with minor crimes whose lack of financial resources prevented them from otherwise posting bail during 2005.

Item 4A. Unresolved Staff Comments

None.

Table of Contents

Item 5. Operating and Financial Review and Prospects

The following discussion should be read in conjunction with the consolidated financial statements and notes thereto included in this Annual Report.

Our consolidated financial statements have been prepared in accordance with Mexican GAAP, which differ in certain respects from U.S. GAAP. Note 19 to our audited consolidated financial statements provides a description of the principal differences between Mexican GAAP and U.S. GAAP as they relate to us; a reconciliation to U.S. GAAP of operating income, net income and total stockholders' equity; and a condensed statement of cash flows under U.S. GAAP.

Mexican GAAP requires that the financial statements recognize certain effects of inflation. In particular:

nonmonetary assets (excluding plant, property and equipment of non-Mexican origin) and stockholders' equity are restated for inflation based on the Mexican National Consumer Price Index;

plant, property and equipment of non-Mexican origin are restated based on the rate of inflation in the country of origin and converted into Mexican pesos using the prevailing exchange rate at the balance sheet date;

gains and losses in purchasing power from holding monetary assets and liabilities are recognized in income; and

all financial statements are restated in constant pesos as of December 31, 2005.

We have not reversed the effect of inflation accounting under Mexican GAAP in the reconciliation to U.S. GAAP of our net income and stockholders' equity, except with respect to the methodology for restatement of plant, property and equipment of non-Mexican origin. See Note 19 to our audited consolidated financial statements.

Overview

Our financial statements are presented in constant pesos, so all financial information is restated in pesos with purchasing power as of December 31, 2005. We refer to constant-peso figures as being real, as opposed to nominal. If nominal revenues or income do not increase by at least the rate of inflation, they decrease in real terms.

In 2004, as a part of our strategy for growth, we acquired operations in Brazil and four other countries in Latin America where we now offer voice, data and Internet services, among other services. Total revenues grew 12.6% in 2005, primarily because of these acquisitions. Revenues from our new non-Mexican operations represented 23.5% of total revenues in 2005.

In Mexico, our revenues decreased by 2.9% in 2005 due to lower real rates. We have not raised our nominal rates since 2001, and we have given discounts for some domestic long distance and connectivity services, so in real terms our prices continue to fall. The number of lines in service has continued to grow, but average revenue per line has declined, partly because we have added new customers who have less disposable income and make less use of their lines.

Competition and changing technologies have had extensive effects on our financial performance, and it is difficult to predict their future impact. We expect continued pressure on prices for long distance

Table of Contents

services. In local service, the rapid growth in mobile telecommunications has made them the principal competitor for local networks. In addition, local service faces competition from other means of communication such as private circuits and the Internet, including VoIP, a technology that transmits ordinary telephone calls over the Internet. The number of our broadband subscribers grew by 84.4% in 2005 and we expect that it will continue to grow and to affect usage of other services. Revenues from voice services (including local, long distance and interconnection) represented 77.9% of our consolidated 2005 revenues while revenues from corporate networks and Internet services represented 18.1% but were growing at a much faster pace.

Faced with uncertain potential for growth in revenues and operating income in the Mexican market, we have worked to control costs while integrating the non-Mexican businesses we acquired in 2004. The consolidation of these businesses increased our revenues and operating income in 2005, but decreased our overall operating margin. Our consolidated operating margin was 29.9% in 2005 and 30.9% in 2004, while the operating margin of our Mexican operations was 36.5% in 2005 and 34.7% in 2004. We expect that the results of our non-Mexican subsidiaries will improve in upcoming years as we implement our management policies at these subsidiaries. We frequently review possible acquisitions or other investments, with a focus on the telecommunications sector and especially the Latin American telecommunications sector, which could require the commitment of capital resources in addition to our budgeted capital resources. We may make further acquisitions that may increase the diversification of our business outside Mexico.

Our future results may be affected significantly by the general economic and financial conditions in the countries where we operate, including levels of economic growth, devaluation of the local currency, inflation or high interest rates. Our performance may also be affected by new acquisitions and other investments. Exchange rate variations on our U.S. dollar-denominated indebtedness, and the effect of inflation on our net monetary liabilities, contribute to the volatility of our comprehensive financing cost.

Effects of Recent Acquisitions

In 2004, we acquired Techtel, Chilesat, Metrored, a majority of the voting stock of Embratel and substantially all of the assets of AT&T Latin America. The consolidation of these companies affects the comparability of our 2005 results to our 2004 results, particularly since the largest of our 2004 acquisitions were not consolidated until the third quarter of 2004. In 2005, we acquired a 37.1% equity interest in Net.

Our consolidated financial statements reflect the consolidation of these companies as follows:

Telmex Argentina, Telmex do Brasil, Telmex Chile, Telmex Colombia and Telmex Perú (holding the assets of AT&T Latin America in each respective country) (from March 1, 2004),

Techteltel (from May 1, 2004),

Metrored (from July 1, 2004),

Chilesat, now Telmex Corp. (from July 1, 2004),

Embratel (from August 1, 2004) and

PrimeSys (from December 1, 2005).

We account for Net in our consolidated financial statements using the equity method.

Table of Contents**Summary of Operating Income and Net Income**

In the table below we set forth our operating revenues, operating costs and expenses and operating income (each expressed as a percentage of total operating revenues), as well as our comprehensive financing cost, provisions, equity in results of affiliates, minority interest and net income for each of the years in the three-year period ended December 31, 2005.

	2005		Year ended December 31, 2004		2003	
	(millions of pesos)	(percentage of operating revenues)	(millions of pesos)	(percentage of operating revenues)	(millions of pesos)	(percentage of operating revenues)

Table of Contents

Revenues

Total revenues in 2005 were P.162,948 million, an increase of 12.6% over 2004, due primarily to the consolidation of our non-Mexican operations. In 2005, the portion of revenues attributable to our Mexican operations was 76.5% and the portion attributable to our non-Mexican operations was 23.5%. Of our total revenues in 2005, 77.9% was attributable to voice services, which includes local, long distance and interconnection services, and 18.1% was attributable to corporate networks and Internet services. We expect that voice services will represent a smaller portion of total revenues in 2006 as a result of greater growth in corporate networks and Internet services.

Local Service Revenues

Operating revenues from local service include installation charges for new lines, monthly line rental charges, monthly fees for digital service and monthly measured service charges based on the number of calls. These revenues depend on the number of lines in service, the number of new lines installed and the volume of calls. In Mexico, measured service charges are due from residential customers only for the number of local calls exceeding a specified monthly allotment. Accordingly, revenues from local service for residential customers do not depend solely on usage volume. Operating revenues from local service also include miscellaneous charges, such as fees paid by long distance carriers related to certain costs of modifying our network to accommodate interconnection and fees for reconnecting customers.

Revenues from local service decreased by 0.7% in 2005 and increased by 0.5% in 2004. The decrease in 2005 was primarily due to the decrease in revenues from local service from our Mexican operations, which was P.55,802 million in 2005 compared to P.57,892 million in 2004, partly offset by the increase in local service revenues of Embratel. Without the local service revenues of Embratel, revenues from local service would have decreased by 3.6% in 2005, due to lower real rates resulting from inflation, as our nominal rates remained unchanged for the fifth year, and a decrease in local traffic, reflecting the effects of competition from wireless and Internet service providers. These effects were partly offset by the higher penetration of digital services, growth of voicemail and an increase in the number of lines in service. The proportion of lines with at least one digital service (such as call waiting, caller ID, voicemail, three-way calling and call forwarding) rose to 41.4% in 2005, compared with 38.2% in 2004 and 35.0% in 2003. Revenues per line decreased to P.276.27 in 2005 from P.312.37 in 2004.

The increase in revenues from local service in 2004 was primarily due to the consolidation in August 2004 of the local service revenues of Embratel. Without the local service revenues of Embratel, revenues from local service would have decreased by 1.1% in 2004, as total local traffic in Mexico increased by only 0.6%.

Domestic Long Distance Revenues

Operating revenues from domestic long distance service consist of (a) amounts earned from our customers and (b) amounts earned from other telecommunications operators for terminating their domestic long distance calls made to our customers. The amount of operating revenues from domestic long distance service depends on rates and traffic volume. Domestic long distance revenues increased by 43.6% in 2005 and by 32.3% in 2004. The increases in 2005 and 2004 were primarily due to the consolidation of long distance revenues amounting to P.19,426 million in 2005 and P.7,931 in 2004 from Embratel and other subsidiaries outside Mexico. With respect to our Mexican operations, although billed minutes increased by 6.9% to 17,853 million in 2005 from 16,700 million in 2004, domestic long distance revenues declined by 1.6% due to lower real rates and customer discounts. In 2004, revenues from domestic long distance services decreased due to lower real rates, partly offset by increased traffic. The number of billed minutes increased by 8.6% to 16,700 million in 2004 from 15,376 million in 2003.

Table of Contents***International Long Distance Revenues***

Operating revenues from international long distance service consist of (a) amounts earned from our customers and (b) amounts earned from foreign telecommunications carriers for terminating international calls. The amount of operating revenues from international long distance service depends on the volume of traffic, the rates charged to our customers, the rates charged by each party under agreements with foreign carriers, principally in the United States, and the effects of competition. We report international long distance revenues gross of the settlement amounts payable to foreign carriers, which are recorded in cost of sales and services. In 2005, the contribution of settlements from foreign carriers represented 2.0% of our consolidated revenues and 25.3% of our international long distance revenues. Settlement payments under service agreements with foreign carriers are generally denominated in U.S. dollars.

International long distance revenues increased by 7.2% in 2005 and by 8.1% in 2004. The increase in 2005 was due to the consolidation of international long distance revenues amounting to P.3,400 million from Embratel and other subsidiaries outside Mexico. Without this revenue, there would have been a decrease in revenue of 8.1% in 2005 due to lower international settlement rates, a one-time settlement payment of P.279 million that Telmex received from international operators in 2004, lower real rates and customer discounts, partly offset by an increase in traffic. Outgoing billed minutes grew by 6.8%, while incoming billed minutes grew by 15.6%.

The increase in 2004 was due to the consolidation of international long distance revenues amounting to P.1,662 million from Embratel and other subsidiaries outside Mexico. Without this revenue, there would have been a decrease in revenue of 6.5% in 2004 due to lower real rates and customer discounts, partly offset by a large increase in traffic.

Revenues from Interconnection

Revenues from interconnection represent fees for connection with our network of fixed-to-mobile, mobile-to-fixed and long distance calls. In Mexico, under the calling party pays system, our fixed-line customers pay us an interconnection charge when they call a mobile telephone, and we pay 76% of that amount to the mobile carrier that completes the call. We recognize the amount the customer pays us under interconnection revenue, and we recognize the amount we pay to the mobile carrier under interconnection cost. For our Mexican operations, revenue from fixed-to-mobile calls represented 89.0% of interconnection revenues in 2005, and revenues from competing local and long distance carriers represented 8.2% of interconnection revenues in 2005. The balance of interconnection revenues represents payments from cellular carriers for mobile-to-fixed calls.

Revenues from interconnection decreased by 7.3% in 2005 and increased by 4.0% in 2004. Without the inclusion of revenue from non-Mexican operations, in particular Embratel, the decrease would have been 10.0%. For our Mexican operations, the decline was due to (i) a 10.9% decrease in calling party pays revenues due to a decrease in the calling party pays rate despite increased traffic and (ii) the appreciation of the peso against the U.S. dollar, which resulted in lower interconnection revenues from domestic long distance and cellular operators. The increase in 2004 was due to growth in revenue from interconnection of local, long distance and cellular operators, partly offset by a 1.1% decrease in calling party pays revenues.

Table of Contents

Revenues from Corporate Networks

Revenues from corporate networks include revenues primarily from the installation and leasing of dedicated private lines and revenues from virtual private network services. Revenues from corporate networks increased by 34.3% in 2005 and by 47.9% in 2004. A large part of the increases in 2005 and 2004 was due to the consolidation of our non-Mexican operations, in particular Embratel. Without the non-Mexican operations, revenues would have increased by 3.5% in 2005 and 7.2% in 2004, in both years due to the increase in line equivalents and the expansion of our administrative networks business, partly offset by customer discounts and lower real rates.

Revenues from Internet Services

Revenues from Internet services include set-up and service fees for dial-up and broadband Internet access. Revenues from Internet services increased by 37.0% in 2005 and by 45.3% in 2004. The increases in 2005 and 2004 were due in part to the inclusion of revenue from our non-Mexican operations, in particular Embratel. Without inclusion of revenue from our non-Mexican operations, growth would have been 17.3% in 2005 and 25.0% in 2004. The increase in Mexico was due primarily to a large increase in the number of broadband (ADSL) customers, which grew by 84.4%, from 560.3 thousand at the end of 2004 to 1,033 thousand at the end of 2005. The increase in 2004 was also due to an increase in broadband customers.

Other Revenues

The largest components of other revenues are sales of yellow pages advertising, telecommunications equipment and accessories and billing and collection services offered to third parties. Other revenues increased by 5.2% in 2005 and by 8.9% in 2004. The increases in 2005 and 2004 were due to the consolidation of Embratel. For our Mexican operations, other revenues decreased by 2.4% in 2005 due to lower revenues from the sale of telecommunications materials, partly offset by the increase in sales of yellow pages advertising and billing and collection services offered to third parties. In Mexico, other revenues increased by 3.3% in 2004 due to growth in revenue from the sale of telecommunications materials and billing and collection services offered to third parties.

Operating Costs and Expenses

Cost of Sales and Services

Cost of sales and services increased by 4.3% in 2005 and by 3.9% in 2004. The increases in 2005 and 2004 were due to the consolidation of our non-Mexican operations. In 2005, cost of sales and services for our Mexican operations decreased by 4.0%, due to a one-time reduction in costs associated with computers that we resell to customers in conjunction with Internet services, lower settlement rate expenses (due to the decline in international settlement rates), lower insurance and travel expenses and lower directory production costs, partly offset by higher expenses relating to the expansion and maintenance of our outside plant and network.

In 2004, cost of sales and services for our Mexican operations decreased by 1.7%, primarily due to lower settlement rate expenses, lower pension and seniority premium expenses and lower costs for computers for resale to customers in conjunction with Internet services, partly offset by higher expenses relating to the expansion and maintenance of our outside plant and data network.

Table of Contents

Commercial, Administrative and General Expenses

Commercial, administrative and general expenses increased by 18.2% in 2005 and by 23.3% in 2004. In 2005 and 2004, the increase was due to the inclusion of expenses from our non-Mexican operations. In 2005, for our Mexican operations, these expenses decreased by 1.4%, due mainly to lower marketing expenditures and lower costs for prepaid phone cards. In 2004, for our Mexican operations, these expenses decreased by 0.7%, due to lower expenses for pensions and lower costs for prepaid phone cards.

Interconnection and Transport

Costs from interconnection include payments we make in Mexico, principally to cellular carriers under calling party pays, and costs from transport include fees paid by our non-Mexican subsidiaries for the use of facilities to complete their calls in areas where they do not have a network. Total interconnection and transport costs increased by 38.7% in 2005 and by 52.6% in 2004, in both years primarily due to the inclusion of our non-Mexican operations.

Interconnection costs for our Mexican operations decreased by 8.9% in 2005 and increased by 0.3% in 2004. The reduction in 2005 was principally due to the 10.0% decrease in the calling party pays rate. The increase in 2004 was due to the growth in traffic from our customers terminating calls on the networks of other operators, especially cellular operators.

Depreciation and Amortization

Depreciation and amortization increased by 3.0% in 2005 and by 5.4% in 2004. Under Mexican GAAP, we restate imported fixed assets based on the exchange rate between the peso and the currency of the country of origin and the inflation of the country of origin. As a result, changes in exchange rates and inflation rates affect the amount of depreciation. In 2005 and 2004, the increase was due to the inclusion of our non-Mexican operations, principally Embratel. For our Mexican operations, depreciation and amortization decreased by 9.5% in 2005 and by 7.3% in 2004, due to a decrease in the amount of our depreciable assets, reflecting declining equipment prices and the fact that the rate of Mexican inflation exceeded the rate of devaluation of the peso.

Operating Income

In 2005, operating income increased by 8.9%, reflecting a 12.6% increase in revenues and a 14.3% increase in operating costs and expenses. Our operating margin decreased to 29.9% in 2005 from 30.9% in 2004 due to the consolidation of our non-Mexican operations, which had lower operating margins than our Mexican operations. In 2005, operating income from our Mexican operations increased by 2.1%, reflecting a 2.9% decrease in revenues and a 5.6% decrease in operating costs and expenses. Operating margin from our Mexican operations increased to 36.5% in 2005 from 34.7% in 2004, due to decreased costs and expenses, including lower depreciation.

In 2004, operating income increased by 4.2%, reflecting a 12.2% increase in revenues and a 16.2% increase in operating costs and expenses. Our operating margin decreased to 30.9% in 2004 from 33.3% in 2003 due to the consolidation of our non-Mexican operations, which had lower operating margins than our Mexican operations. In 2004, operating income from our Mexican operations increased by 4.0%, reflecting a 0.4% decrease in revenues and a 2.6% decrease in operating costs and expenses. Operating margin from our Mexican operations increased to 34.7% in 2004 from 33.3% in 2003, due to decreased operating costs and expenses, including lower depreciation.

Table of Contents**Comprehensive Financing Cost**

Under Mexican GAAP, comprehensive financing cost reflects interest income, interest expense, foreign exchange gain or loss and the gain or loss attributable to the effects of inflation on monetary liabilities and assets. A substantial proportion of our indebtedness (91.3% at December 31, 2005) is denominated in currencies other than Mexican pesos, so variation in the value of the peso affects our foreign exchange gain or loss and interest expense. Most of our financial assets are also denominated in foreign currencies.

In 2005, comprehensive financing cost was P.5,336 million as compared with P.144 million in 2004. The changes in each component were as follows:

Interest income increased by 23.7% in 2005 and decreased by 5.2% in 2004. The increase in 2005 was due to inclusion of the interest income of Embratel, higher average interest rates in Mexico and abroad and our higher average level of interest-bearing assets. In 2004 and 2003, interest income included gains on marketable securities. Excluding these gains, interest income would have increased by 214.7% in 2004, due principally to inclusion of P.695 million of interest income of Embratel and P.239 million in dividends on shares of MCI.

Interest expense increased by 18.4% in 2005 and by 3.2% in 2004. The increase in 2005 was due to the inclusion of the interest expense of Embratel, higher charges and costs related to swaps (P.792 million compared to P.433 million in 2004), higher average interest rates in Mexico and abroad and our higher average level of indebtedness, partly offset by a reduction in the amount paid for debt repurchases in 2005. The increase in 2004 was primarily due to the inclusion of P.1,203 million in interest expense of Embratel and a P.338 million greater premium paid for repurchases of our convertible senior debentures than in 2003. In 2003, we recognized P.1,046 million of expense related to the cancellation of our peso-denominated interest-rate swaps. Excluding the interest expense related to the cancellation of these swaps, interest expense would have increased by 25.0% in 2004.

We recorded a net exchange loss of P.3,787 million in 2005 and a net exchange gain of P.27 million in 2004. In 2005, the net exchange loss was due to a charge of P.7,133 million for hedging contracts, partly offset by a net exchange gain of P.3,613 million due to the appreciation of the peso against the U.S. dollar at year-end by approximately 4.9%. In 2004, we had a net exchange gain of P.545 million due to the appreciation of the Brazilian *real* against the U.S. dollar, partly offset by a charge of P.518 million for hedging contracts.

Because average monetary liabilities exceeded average monetary assets, we recognized a net gain from monetary position. The net gain in monetary position decreased by 32.8% in 2005 and increased by 64.0% in 2004. The decrease in 2005 was due to a lower inflation rate despite having a higher net monetary position compared to 2004. The net gain in monetary position increased in 2004 due to a higher net monetary position and a higher inflation rate compared to 2003.

Income Tax and Employee Profit Sharing

The statutory rate of the Mexican corporate income tax was 30.0% in 2005, 33.0% in 2004 and 34.0% in 2003. The Mexican Income Tax Law was amended in 2004 to decrease the corporate income tax rate to 29% in 2006 and 28% thereafter. Our effective rate of corporate income tax as a percentage of pre-tax profit was 26.7% in 2005, 28.7% in 2004 and 28.9% in 2003. The effective tax rate was lower in 2005 than in 2004 due to the effect of the reduction of the Mexican corporate income tax rate and the recognition in 2005 of deferred tax assets relating to provisions for employee profit sharing that, due to a

Table of Contents

change in the Mexican Income Tax Law, may now be deducted for tax purposes. The effective tax rate was slightly lower in 2004 than in 2003 due to the effect of the reduction in the Mexican corporate income tax rate, partly offset by a decrease in comprehensive financing cost and the contribution of taxes imposed on foreign subsidiaries.

Like other Mexican companies, we are required by law to pay to our employees, in addition to their agreed compensation and benefits, profit sharing in an aggregate amount equal to 10% of our taxable income (calculated without reference to inflation adjustments).

Net Income

Net income increased by 0.8% in 2005 and 17.9% in 2004. In 2005, the increase was due to an increase in operating income and a decrease in income taxes and employee profit sharing, partly offset by an increase in comprehensive financing cost. In 2004, the increase was due to a 3.7% increase in operating income and the stability of the peso against the U.S. dollar.

Results of Operations by Segment

We operate in six geographic segments. Segment information is presented in Note 18 to our audited consolidated financial statements included in this Annual Report. Mexico has traditionally been our principal geographic market, accounting for 76.5% of our total operating revenues in 2005 (compared to 88.8% in 2004) and 93.6% of our total operating income in 2005 (compared to 99.8% in 2004). The percentage of our total operating revenues and total operating income represented by Mexico has decreased in 2005 principally as a result of acquisitions outside Mexico made during 2004.

The table below sets forth the percentage of our total revenues and total operating income represented by each of our operating segments for the periods indicated.

	2005		2004	
	% of Total Revenues	% of Total Operating Income	% of Total Revenues	% of Total Operating Income
Mexico	76.5%	93.6%	88.8%	99.7%
Brazil	21.4	5.8	9.7	0.5
Chile	0.8	0.2	0.6	(0.2)
Argentina	0.7	0.0	0.5	(0.2)
Colombia	0.3	0.3	0.2	0.1
Peru	0.4	0.0	0.3	0.0
Total ⁽¹⁾	100.0%	100.0%	100.0%	100.0%

(1) Includes other revenues, which consist of intersegment revenues that are eliminated upon consolidation and revenues from our operations in the United States.

All amounts discussed below are presented in accordance with Mexican GAAP. For the non-Mexican segments that are discussed below, we have restated the financial statements of foreign subsidiaries for certain inflationary effects. In particular:

all 2005 and 2004 amounts (except those related to stockholders' equity) have been restated for inflation using the purchasing power of the local currency as of December 31, 2005; and

foreign currency amounts have been converted into pesos at the exchange rate of the local currency into pesos prevailing as of December 31, 2005.

Table of Contents

Accordingly, changes in local inflation rates and in exchange rates could significantly affect reported results in Mexican pesos and the comparability of reported results with results reported in prior years.

In the discussion below of operating revenues and operating income for our non-Mexican subsidiaries, we have used the results of the full years of 2004 and 2005, although in each case we had not yet begun to consolidate them at the beginning of 2004. As a result, the information discussed below for our non-Mexican operations concerning operating revenues and operating income does not correspond to the geographical segment information in Note 18 to our audited consolidated financial statements.

Mexico

Operating revenues decreased by 2.9% in 2005 due to a 3.6% decrease in local service revenues and a 10.9% decrease in calling party pays revenues. Operating revenues decreased by 0.3% in 2004 due to lower real rates.

Operating income increased by 2.2% in 2005 due to lower costs and expenses and lower depreciation. Operating income increased by 3.5% in 2004 due to lower depreciation and lower cost of sales and services. Our operating margin in Mexico was 36.5% in 2005 and 34.7% in 2004.

Brazil

Operating revenues in Brazil decreased by 3.2% in 2005 due principally to lower real rates for long distance service, partly offset by an increase in data and local service revenues.

Operating income increased by 263.8% in 2005 due to a decrease in general and administrative expenses as a result of a decrease in expenses for publicity and marketing, advisory and consulting services, transport and interconnection. Our operating margin in Brazil was 8.0% in 2005 and 2.1% in 2004.

Chile

Operating revenues in Chile increased by 9.3% in 2005, due mainly to an increase of over 200% in revenues from local service, which we began to provide in the second half of 2004, and a 25.0% increase in rates, as well as a 5.0% increase in revenues from data communications and a 25.3% increase in other revenues.

Operating income increased by 192.1% in 2005 compared with an operating loss in 2004, due to a 9.3% increase in revenues and a 30.6% decrease in costs as a result of efficiencies resulting from the restructuring of our Chilean operations in 2004 and lower expenses for advisory services and amortization. Our operating margin in Chile was 6.3% in 2005 and (7.4)% in 2004.

Argentina

Operating revenues in Argentina increased by 17.9% in 2005 due to an increase in other revenues as a result of our launch of an international information center that monitors the services provided by us to our international customers located throughout South America, a 65.0% increase in revenue from wholesale interconnection and a 24.5% increase in revenue from local service. Both increases in revenue were a result of higher traffic.

Operating loss improved from P.(301) million in 2004 to P.(17) million in 2005 due to an increase in revenues and decrease in costs and expenses. Costs and expenses decreased as a result of a

Table of Contents

decrease in depreciation expense and seniority premium and pension costs, the non-recurrence of restructuring expenses incurred in 2004 and a decrease in expenses related to advisory services, partly offset by an increase in advertising expenses. Our operating margin in Argentina was (1.6)% in 2005 and (33.5)% in 2004.

Colombia

Operating revenues in Colombia increased by 32.0% in 2005 due to a 37.5% increase in revenues from data services, partly offset by a decrease in revenues from Internet services as a result of a decrease in rates.

Operating income increased by 190.1% due to an increase in revenues, partly offset by a 10.7% increase in costs and expenses due to an increase in expenses incurred to reach customers in areas in which we do not have a local network. Our operating margin was 26.1% in 2005 and 11.8% in 2004.

Peru

Operating revenues in Peru increased by 13.7% in 2005 due to a 42.2% increase in revenues from local services, a 178.6% increase in revenues from other services as a result of increased equipment sales and a 3.5% increase in revenues from data services as a result of an increase in usage despite a decrease in rates.

Operating income increased by 126.7% in 2005 due to a 13.7% increase in revenues that more than offset a 22.1% increase in costs and expenses. Costs and expenses increased due to an increase in depreciation expense, partly offset by a decrease in expenses for advertising, advisory services and doubtful accounts and the non-recurrence of restructuring expenses incurred in 2004. Our operating margin was 0.3% in 2005 and (1.2)% in 2004.

Liquidity and Capital Resources

Our principal capital requirements are for capital expenditures, dividend payments, our share repurchase program and acquisitions. We have generally met our capital requirements primarily from operating cash flows and limited borrowing. Resources provided by operating activities were P.51,210 million in 2005, P.62,975 million in 2004 and P.28,550 million in 2003. Our resources provided by operating activities decreased in 2005 due to the increased application of resources to taxes payable, marketable securities and accrued liabilities, partly offset by decreased application of resources to pension fund contributions and accounts receivable. We had a working capital surplus (an excess of current assets over current liabilities) of P.10,649 million at December 31, 2005, P.11,994 million at December 31, 2004 and P.2,590 million at December 31, 2003.

Our capital expenditures were P.23,439 million in 2005, P.21,053 million in 2004 and P.11,085 million in 2003. The 11.3% increase in 2005 was due to higher investment in Embratel and other subsidiaries outside Mexico, and we expect that our capital expenditures will be approximately P.23.2 billion (U.S.\$2.1 billion) for 2006. Budgeted capital expenditures for 2006 exclude any other investments we may make to acquire other companies. For subsequent years, our capital expenditures will depend on economic and market conditions.

The amount spent on share repurchases was P.17,281 million in 2005, P.14,356 million in 2004 and P.12,480 million in 2003. The amount spent on share repurchases is determined from time to time by the executive committee taking into account factors including the price of our shares and our capital resources. The shareholders have given renewed authorization to our officers to make share repurchases, most recently on March 30, 2006. There is no obligation to spend any of the authorized amounts. See *Item 16E. Purchases of Equity Securities by the Issuer and Affiliated Purchasers*.

Table of Contents

Dividends paid totaled P.8,556 million in 2005, P.8,415 million in 2004 and P.8,285 million in 2003. The shareholders have approved dividends of P.0.41 per share to be paid in four installments out of 2005 income. We expect to pay an aggregate of approximately P.8.6 billion in dividends from June 2006 through March 2007 (based on the number of outstanding shares at May 31, 2006).

In the table below we set forth certain contractual obligations as of December 31, 2005, consisting of debt (including financial leases) and purchase obligations, and the period in which the contractual obligations come due. We do not expect to contribute to our pension funds in 2006 and the extent of future contributions will depend on the performance of our plan assets and actuarial calculations in future years. The table below does not include pension liabilities, deferred taxes or current accounts payable.

	Payments Due by Period				
	Total	(as of December 31, 2005)			2011 and beyond
		2006	2007-2008	2009-2010	
(in millions of pesos)					
Contractual obligations:					
Total debt ⁽¹⁾	P. 90,959	P. 14,595	P. 24,838	P. 29,969	P. 21,557
Purchase obligations	8,338	8,338			
Total	P. 99,297	P. 22,933	P. 24,838	P. 29,969	P. 21,557

(1) Excludes interest payments.

At December 31, 2005, we had total indebtedness of P.90,959 million compared to total indebtedness of P.93,039 million at December 31, 2004. The decrease is due primarily to the appreciation of the peso against the U.S. dollar.

We incurred additional U.S. dollar-denominated debt in 2005. At December 31, 2005, we had total indebtedness of approximately U.S.\$8,492 million compared to total indebtedness of approximately U.S.\$7,993 million at December 31, 2004. The increase is due primarily to our issuance of U.S.\$950 million principal amount of 4.75% notes due 2010 and U.S.\$800 million principal amount of 5.50% notes due 2015 in the first quarter of 2005, partly offset by our prepayment of approximately U.S.\$700 million principal amount of the debt of Embratel and our repurchase of U.S.\$432 million principal amount of our U.S.\$1.5 billion principal amount of senior notes due 2006. The major categories of indebtedness at Telmex are as follows:

U.S. dollar-denominated bank loans. These include a large syndicated loan facility, loans with support from export credit agencies and other loans. Most of our bank facilities bear interest at specified spreads over LIBOR. The weighted average interest rate at December 31, 2005 was approximately 5.5%. We had U.S.\$3,617 million in bank loans, equivalent to P.38,743 million, outstanding at December 31, 2005. The largest component is the U.S.\$2,500 million facility that Telmex obtained in October 2005 to restructure the syndicated U.S.\$2,425 million bank loan it obtained in 2004. The loan has two tranches, one tranche of U.S.\$1,500 million that matures in four years, and the other tranche of U.S.\$1,000 million that matures in six years. Certain of our bank loans contain financial and operating covenants. The most restrictive covenants require us to maintain a consolidated ratio of EBITDA to interest expense of no less than 3.00 to 1.00 and a consolidated ratio of total debt to EBITDA of no more than 3.75 to 1.00 (using terms defined in the credit agreements). Compliance with these covenants has not been a significant constraint on our ability to obtain financing.

Table of Contents

U.S. dollar-denominated senior notes. At Telmex, we had U.S.\$3,818 million aggregate principal amount of senior notes outstanding, which was equivalent to P.40,898 million at December 31, 2005.

During 2005, we repurchased in the open market U.S.\$432 million of the 8.25% senior notes due in January 2006. The excess of the repurchase price over the face amount of the notes was P.178.9 million (U.S.\$15.6 million), which was recognized under comprehensive financing cost. The outstanding balance of U.S.\$1,068 million was paid at maturity in January 2006. In January 2006, Telmex issued abroad P.4.5 billion of 8.75% global senior notes due 2016. Approximately 62% of the senior notes were purchased by Mexican institutions.

As a result, Telmex has four series of senior notes outstanding:

Maturity	Issuance	Interest	Original Amount (millions)	
November 2008	November 2003	4.50%	U.S.\$	1,000
January 2010	January/February 2005	4.75%	U.S.\$	950
January 2015	January/February 2005	5.50%	U.S.\$	800
January 2016	January 2006	8.75%	P.	4,500

Peso-denominated senior notes. We have issued peso-denominated senior notes (*certificados bursátiles*) from time to time in the Mexican market. Part of these notes bears interest at fixed rates and part bears interest at specified spreads over Mexican *Cetes* (short-term Mexican government obligations). At December 31, 2005, we had P.6,600 million outstanding maturing from 2007 to 2012, and the weighted average interest rate was 9.4%.

We also have smaller amounts of other categories of indebtedness outstanding at Telmex, including peso-denominated loans from Mexican banks, financial leases and supplier credits for equipment financing. We rely primarily on borrowings in the Mexican and international capital markets and from international banks, although if market conditions change, we may seek currency from export credit agencies or other sources. A number of our financing instruments are subject to either acceleration or repurchase at the holder's option if there is a change of control, as defined in the respective instruments. The definitions of change of control vary, but none of them is met so long as Carso Global Telecom, S.A. de C.V., or Carso Global Telecom, or its present controlling shareholders continue to control a majority of our voting stock.

The major categories of indebtedness at Embratel are bank facilities denominated in U.S. dollars (P.4,433 million at December 31, 2005) and bonds denominated in U.S. dollars (P.1,906 million at December 31, 2005). In the first half of 2005, Embratel completed a R\$1.8 billion capital increase in which we acquired 87.5% of the shares sold, and it used part of the proceeds to prepay U.S.\$96.3 million (P.1,072 million) of its notes due 2008 at a redemption price of U.S.\$106.8 million (P.1,190 million) and to repay R\$1.0 billion (P.4,548 million) in commercial paper.

Embratel has a substantial amount of tax-related contingencies. If a major part of the tax disputes were to be decided against Embratel, this could have a material effect on its liquidity. See Note 12 to our audited consolidated financial statements.

Table of Contents

At December 31, 2005, 90.1% of our total consolidated indebtedness was denominated in U.S. dollars, 8.7% was in Mexican pesos, 0.1% was in Brazilian *reals* and 1.1% was in other currencies. Our currency hedging practices are described below.

At December 31, 2005, 48.8% of our debt obligations bore interest at floating rates. The weighted average cost of all borrowed funds, including those of Embratel, at December 31, 2005 (including interest and reimbursement of certain lenders for Mexican taxes withheld, but excluding fees) was approximately 6.3%. The inclusion of fees in the calculation of weighted average cost of all borrowed funds at December 31, 2005 would increase such cost by 0.4%, to 6.7%.

Hedging

Currently, our hedging activities fall into three categories, as described below. Our hedging practices vary from time to time depending on our judgment about the level of risk and the costs of hedging. We may stop hedging or modify our hedging practices at any time.

Because our U.S. dollar-denominated indebtedness far exceeds our U.S. dollar-denominated assets and revenues, from time to time Telmex enters into hedging transactions to protect to some degree against the short-term risks of devaluation of the Mexican peso. Under Mexican GAAP, we account for these transactions on a fair value basis, and such amounts offset gains and losses on the foreign currency liabilities that are hedged. At December 31, 2005, our hedges (excluding Embratel) covered liabilities of U.S.\$6,320 million out of our total U.S. dollar-denominated liability of P.81,978 million (approximately U.S.\$7,654 million), but the amount of our hedging position varies substantially from time to time. In 2005, we recognized a net charge of P.7,133 million in our results of operations, reflecting the effects of exchange rate variations under our hedging agreements. See Note 8 to our audited consolidated financial statements. This resulted from devaluation of the U.S. dollar against the peso and especially against the *real*. Our hedges were short-term throughout most of 2005, typically averaging approximately 90 days. In November 2005, we lengthened the average term of our hedges to 380 days.

All of our peso-denominated indebtedness (P.7,900 million at December 31, 2005) bears interest at floating rates. We have engaged in extensive hedging transactions to reduce our exposure to changes in Mexican interest rates. Specifically, we have entered into interest rate swaps in which we pay interest at a fixed rate and receive interest at a floating rate, on a notional amount in Mexican pesos or U.S. dollars. The general effect of these swaps is to replace an obligation to pay floating-rate interest on our debt with an obligation to pay fixed-rate interest. Because the peso-denominated swap market is not highly liquid, we do not ordinarily obtain interest rate swaps that precisely match the tenors or amounts of our floating-rate liabilities. The aggregate notional amount of our swaps may be greater or less than the principal amount of our floating-rate peso-denominated debt, and we may discontinue hedging at any time. At December 31, 2005, the aggregate notional amount of domestic interest rate swaps was P.15,900 million. In 2004, we entered into interest rate swaps for a total of U.S.\$1,050 million, for which we paid six-month LIBOR rates and received fixed rates, and in 2003, we entered into interest rate swaps for the same notional amount, for which we paid fixed rates and received six-month LIBOR rates. The net effect of these swaps in 2005 was a reduction in our interest payments by 0.907%.

Because a substantial portion of the indebtedness of Embratel is denominated in foreign currencies, Embratel enters into hedging transactions to protect itself to some degree against the short-term risks of devaluation of the Brazilian *real*. At December 31, 2005, Embratel had swaps and forwards covering U.S.\$410.3 million of its indebtedness. Embratel recognized a charge of P.684,789 in 2005, reflecting the effects of exchange rate variations under its hedging agreements.

Table of Contents

Off-Balance Sheet Arrangements

We do not have any off-balance sheet arrangements of the type that we are required to disclose under Item 5.E of Form 20-F.

U.S. GAAP Reconciliation

Net income under U.S. GAAP was P.27,049 million in 2005, P.29,175 million in 2004 and P.23,594 million in 2003. Compared to Mexican GAAP, net income under U.S. GAAP was 6.7% lower in 2005, 1.4% higher in 2004 and 3.3% lower in 2003.

There are several differences between Mexican GAAP and U.S. GAAP that affect our net income and stockholders' equity. The most significant in its effect on net income is the difference in how the carrying value of plant, property and equipment is restated to reflect effects of inflation. Under Mexican GAAP, we restate fixed assets of non-Mexican origin based on the rate of inflation in the country of origin and the prevailing exchange rate at the balance sheet date, while under U.S. GAAP we use the Mexican inflation rate.

Other differences that affected net income relate to accounting for costs of pension and seniority premium plans, capitalization of interest on assets under construction, deferred profit sharing and the treatment of minority interest. The differences in stockholders' equity under Mexican GAAP and U.S. GAAP reflect these same matters. For a discussion of the principal differences between Mexican GAAP and U.S. GAAP, see Note 19 to our audited consolidated financial statements.

Use of Estimates in Certain Accounting Policies

In preparing our financial statements, we make estimates concerning a variety of matters. Some of these matters are highly uncertain, and our estimates involve judgments we make based on the information available to us. In the discussion below, we have identified several of these matters for which our financial presentation would be materially affected if either (a) we used different estimates that we could reasonably have used or (b) in the future we change our estimates in response to changes that are reasonably likely to occur.

The discussion addresses only those estimates that we consider most important based on the degree of uncertainty and the likelihood of a material impact if we used a different estimate. There are many other areas in which we use estimates about uncertain matters, but the reasonably likely effect of changed or different estimates is not material to our financial presentation.

Estimated Useful Lives of Plant, Property and Equipment

We estimate the useful lives of particular classes of plant, property and equipment in order to determine the amount of depreciation expense to be recorded in each period. Depreciation expense is a significant element of our costs, amounting in 2005 to P.23,527 million, or 20.6% of our operating costs and expenses, under Mexican GAAP, and P.26,892 million, or 22.5% of our operating costs and expenses, under U.S. GAAP. See Notes 4 and 19 to our audited consolidated financial statements.

The estimates are based on historical experience with similar assets, anticipated technological changes and other factors, taking into account the practices of other telecommunications companies. We review estimated useful lives each year to determine whether they should be changed, and at times we have changed them for particular classes of assets. We may shorten the estimated useful life of an asset class in response to technological changes, changes in the market or other developments. This results in increased depreciation expense, and in some cases it can result in our recognizing an impairment charge.

Table of Contents

to reflect a write-down in value. For example, in 2003, we reduced the useful lives of certain assets to reflect technological changes, which resulted in a P.916 million increase in depreciation expense. The same kinds of developments can also lead us to lengthen the useful life of an asset class, resulting in reduced depreciation expense. For example, in both 1999 and 2000, we lengthened the useful lives of certain categories of fixed assets.

Employee Pensions and Seniority Premiums

We recognize liabilities on our balance sheet and expenses in our income statement to reflect our obligations to pay employees under defined benefit retirement and seniority premium plans and, in the case of Embratel, defined contribution and medical assistance plans. The amounts we recognize are determined on an actuarial basis that involves many estimates and accounts for post-retirement and termination benefits in accordance with Mexican GAAP. In 2005, we recognized net period cost relating to these obligations of P.4,559 million under Mexican GAAP and P.3,667 million under U.S. GAAP.

We use estimates in three specific areas that have a significant effect on these amounts: (a) the real discount rates that we use to calculate the present value of our future obligations, (b) the real rate of increase in salaries that we assume we will observe in future years and (c) the rate of return we assume our pension fund will achieve on its investments. The assumptions we have applied are identified in Note 7 (Mexican GAAP) and Note 19 (U.S. GAAP) to our audited consolidated financial statements. These estimates are based on our historical experience, on current conditions in the financial markets and on our judgments about the future development of our salary costs and the financial markets. We review the estimates each year, and if we change them, our reported expense for pension costs may increase or decrease.

Our liability for future pensions and seniority premiums is also affected by our estimate of the number of retired employees and our pension fund is affected by the estimated rate of return on investments. Actual results may vary from these estimates. In 2005, an actuarial loss of P.3,660 million was attributable to the increase in the projected benefit obligation due primarily to: (i) a greater number of employees retiring than had been estimated at the beginning of the year, (ii) lower inflation than we estimated, resulting in salary and pension obligations being higher in real terms than estimated and (iii) a higher average life span of our retired employees and higher estimated life span of our active employees than had been estimated at the beginning of the year. In addition, the return on investments of our pension fund amounted to a gain of P.9,271 million in 2005, due to the gains by plan assets on the Mexican Stock Exchange and the increase in fixed-yield interest rates. As of December 31, 2005, 55.7% of fund assets consisted of peso-denominated fixed-income securities and 44.3% consisted of variable-income securities of Mexican companies. The fund has experienced volatile returns on its investments in equity securities, which resulted in net losses on plan assets in prior years. Our actuarial assumptions as of December 31, 2005 include an assumed annual return of 6.8% in real terms on plan assets.

Allowance for Doubtful Accounts

We maintain an allowance for doubtful accounts based on our estimates of losses we may experience because our customers or other telecommunications carriers do not pay the amounts they owe us. At December 31, 2005, the amount of the allowance was P.7,560 million. For our customers, we perform a statistical analysis based on our past experience, current delinquencies and economic trends. For carriers, we make individual estimates that may reflect our evaluation of pending disputes over amounts owed. Our policy is to provide for doubtful accounts on the balance of accounts receivable more than 90 days old. Our allowance could prove insufficient if our statistical analysis of our customer receivables is inadequate, or if one or more carriers refuse or are unable to pay us. See Note 3 to our audited consolidated financial statements.

Table of Contents

Revenues from Prepaid Telephone Cards

We recognize revenues from the sale of our prepaid telephone service cards based on our estimate of the usage of time covered by the prepaid card. We estimate the period for usage of prepaid telephone cards in accordance with available statistics that reflect the total usage of cards and the total amounts sold. The cards do not have an expiration date.

The prepaid telephone card contains a data chip that tracks the number of units of service the card can provide. Each time the card is used, the telephone equipment records the number of units used and reduces the number of available units on the chip. When the number of available units in the chip is reduced to zero, it ceases to function. We track the aggregate number of units sold and the aggregate number of units used, but we do not track the number of units used on a card-by-card basis.

Impairment of Long-Lived Assets

We review our property, plant and equipment for impairment whenever events or circumstances indicate that the carrying amount may not be recoverable. To estimate the fair value of long-lived assets, we typically make various assumptions about the future prospects for the business that the asset relates to, consider market factors specific to that business and estimate future cash flows to be generated by that business. Based on these assumptions and estimates, and guidance provided by Mexican GAAP relating to the impairment of long-lived assets, we determine whether we need to take an impairment charge to reduce the value of the asset stated on our balance sheet to reflect its estimated fair value. Assumptions and estimates about future values and remaining useful lives are complex and often subjective. They can be affected by a variety of factors, including external factors such as industry and economic trends, and internal factors such as changes in our business strategy and our internal forecasts. Different assumptions and estimates could materially impact our reported financial results. More conservative assumptions of the anticipated future benefits from these businesses could result in impairment charges, which would decrease net income and result in lower asset values on our balance sheet. Conversely, less conservative assumptions could result in smaller or no impairment charges, higher net income and higher asset values.

Realization of Net Deferred Tax Assets

The recognition of net deferred tax assets on temporary differences in our non-Mexican subsidiaries, mainly due to Brazilian tax losses and to the negative basis for calculating social contribution in Brazil, is supported by the history of taxable income and Embratel's estimate of future profitability. Bulletin D-4 establishes the conditions for recording and maintenance of these deferred assets. Based on Embratel's financial projections, we believe that these assets will be realized over a period of ten years. A future change in these projections of profitability could result in the need to record a valuation allowance against these net deferred tax assets, resulting in a negative impact on future results.

Provision for Contingencies

We are subject to proceedings, lawsuits and other claims related to tax, labor and civil matters. We are required to assess the likelihood of any adverse judgments or outcomes to these matters as well as potential ranges of probable losses. A determination of the amount of reserves required, if any, for these contingencies is made after careful analysis of each individual matter, based on advice of our legal counsel. We record provisions for contingencies only when we believe that it is probable that we will incur a loss in connection with the matter in dispute. In a number of significant tax disputes with the Brazilian tax authorities, we have recorded no provisions because we do not believe a loss is probable. The total balance of probable losses is recorded as a current liability, because it is not possible to estimate the time required to reach a settlement. The required reserves for these and other contingencies may

Table of Contents

change in the future due to new developments in each matter or changes in approach, such as a change in settlement strategy in dealing with these matters. Such changes could have a negative impact on future results and cash flows.

ITEM 6. Directors and Officers of Registrant

Directors

Management of our business is vested in the Board of Directors. Our bylaws provide for the Board of Directors to consist of at least five directors and up to an equal number of alternate directors. A majority of the directors and a majority of the alternate directors must be Mexican nationals and elected by Mexican shareholders. Directors are elected by a majority of the holders of the AA Shares and A Shares voting together, provided that any holder or group of holders of at least 10% of the total AA Shares and A Shares is entitled to name one of such directors and one of such alternate directors, and two directors and two alternate directors are elected by a majority vote of the holders of L Shares. Each alternate director may attend meetings of the Board of Directors and vote in the absence of a corresponding director. Directors and alternate directors are elected at each annual ordinary general meeting of shareholders and each annual ordinary special meeting of holders of L Shares, and each serves until a successor is elected and takes office. Pursuant to our bylaws and Mexican law, at least 25% of our directors and 25% of our alternate directors must be independent, as defined under the Mexican Securities Market Law (*Ley del Mercado de Valores*). In order to have a quorum for a meeting of the Board of Directors, a majority of those present must be Mexican nationals.

Carso Global Telecom and SBC International have agreed to vote for the number of directors and alternate directors named by Carso Global Telecom and SBC International, respectively, considering their respective share ownership.

Our bylaws provide that the members of the Board of Directors are appointed for terms of one year and may be reelected. The names and positions of the current 18 members of our Board of Directors as of April 27, 2006, their dates of birth and information on their principal business activities outside Telmex are as follows:

Carlos Slim Helú Honorary chairman for life	Born:	1940
	First elected:	1990
	Principal occupation:	Honorary chairman for life of the board of directors of Grupo Carso, S.A. de C.V., Carso Global Telecom, S.A. de C.V. and América Telecom, S.A. de C.V.
	Other directorships and business experience:	Honorary chairman for life of the board of directors of América Móvil, S.A. de C.V. and Grupo Financiero Inbursa, S.A. de C.V.

Carlos Bernal Vereá	1990
Federico Laffan Fano	1990
Jorge A. Chapa Salazar	2002
Bernardo Quintana Isaac	1990
Francisco Medina Chávez	2002

The Secretary of the Board of Directors is Sergio F. Medina Noriega.

Of our directors and alternate directors, Élmer Franco Macías and Agustín Franco Macías are brothers; Antonio Cosío Pando is the son of Antonio Cosío Ariño; Carlos Slim Domit, Marco Antonio Slim Domit and Patrick Slim Domit are sons of Carlos Slim Helú; Arturo Elías Ayub is the son-in-law of Carlos Slim Helú; and Amparo Espinosa Rugarcía and Ángeles Espinosa Yglesias are sisters.

Executive Committee

Our bylaws provide that the executive committee may generally exercise the powers of the Board of Directors. The Board of Directors is also required to consult the executive committee before deciding on certain matters set forth in the bylaws, and the executive committee must provide its views within 10 calendar days following a request from the Board of Directors.

The executive committee is elected from among the directors and alternate directors by a majority vote of the AA Shares, A Shares and A Share ADSs voting together. Under the agreement entered into in December 2000 between Carso Global Telecom and SBC International, the executive committee consists

Table of Contents

of four members. The majority of its members must be of Mexican nationality and elected by Mexican shareholders. Carso Global Telecom and SBC International have agreed to vote for three members named by Carso Global Telecom and one member named by SBC International. The current members of the executive committee are Jaime Chico Pardo, Juan Antonio Pérez Simón and Carlos Slim Domit, all named by Carso Global Telecom and various other Mexican investors, and Richard P. Resnick, named by SBC International. The current alternate members of the executive committee are Antonio Cosío Ariño, José Humberto Gutiérrez-Olvera Zubizarreta and Marco Antonio Slim Domit, all named by Carso Global Telecom and various other Mexican investors, and Larry I. Boyle, named by SBC International.

Mexican Code of Best Corporate Practices

In January 2001, a Mexican commission of business leaders, with the support of the Mexican National Banking and Securities Commission (*Comisión Nacional Bancaria y de Valores*, or the CNBV), issued a Code of Best Corporate Practices (*Código de Mejores Prácticas Corporativas*) for publicly traded Mexican companies, recommending certain actions with respect to various areas of corporate governance. Following these recommendations, in February 2001, the Board of Directors created an audit committee and an evaluation and compensation committee. The Mexican Securities Market Law was amended effective June 2001 to require that all publicly traded Mexican companies have an audit committee. In March 2003, the CNBV codified certain provisions of the Code of Best Corporate Practices, requiring among other things, increased responsibilities for audit committees. While compliance with the Code of Best Corporate Practices is voluntary, the CNBV requires companies listed on the Mexican Stock Exchange to file a report, on a yearly basis, regarding their compliance with the Code of Best Corporate Practices. Our report on compliance with the Code of Best Corporate Practices is on file with the CNBV and the Mexican Stock Exchange. In December 2005, a new Mexican Securities Market Law was enacted with a focus on increasing its adherence to international standards, including increased protections for minority shareholders. Included in the new law is the requirement that all publicly traded Mexican companies have a corporate practices committee (*Comité de Prácticas Societarias*). See *Item 10. Additional Information - Bylaws and Mexican Law - Mexican Securities Market Law*.

Audit Committee

The audit committee consists of Antonio del Valle Ruíz (the audit committee's president), Rafael Kalach Mizrahi and José Kuri Harfush. Mr. Kalach Mizrahi is a director and Messrs. del Valle Ruíz and Kuri Harfush are alternate directors. Each member of the audit committee is independent, as independence is defined under the Mexican Securities Market Law, and also meets the independence requirements of Rule 10A-3 under the U.S. Securities Exchange Act of 1934, as amended, or Rule 10A-3. See *Item 16A. Audit Committee Financial Expert*. The audit committee operates primarily under a written mandate adopted by our Board of Directors. A copy of the audit committee mandate is available on our website at www.telmex.com.

The mandate of the audit committee is to establish and monitor procedures and controls to ensure that the financial information we distribute is useful, appropriate and reliable and accurately reflects our financial position. In particular, the audit committee is required to perform the following functions: (a) appoint and oversee our external auditors and review the scope and terms of their engagement; (b) assist the Board of Directors in supervising the performance of auditing services contracts, evaluating the services and assuring the independence and objectivity of our external auditors, including ensuring that the total compensation paid to an auditing firm does not exceed 20% of its total income; (c) recommend guidelines for the preparation and distribution of our financial information and general guidelines for our internal control system (which consists of operational and financial controls that ensure that Telmex operates within the Board of Directors' general guidelines); (d) discuss with the Board of Directors our internal control system relating to risk management and compliance with applicable laws,

Table of Contents

particularly concerning (i) disclosure of relevant information to the market, (ii) acquisition accounting, (iii) anticipated revenue recognition, (iv) restructuring charges, (v) management of reserve accounts and (vi) accounting for derivatives and arbitrage activity; (e) ensure the existence of control mechanisms to provide that consistent unaudited financial information is presented to the Board of Directors; (f) review with our auditors the annual financial statements contained in our annual report and the quality of the accounting principles applied therein and review interim financial information to ensure that it is prepared using the same principles; (g) review the audit committee rules and, if appropriate, propose to the Board of Directors improvements designed to achieve the audit committee's mandate; (h) report to the Board of Directors on its activities; (i) conduct an annual self-evaluation of the committee's activities aimed at achieving the committee's objectives; (j) supervise, review and discuss the audit procedures of our internal audit department; (k) perform any other functions that correspond to its responsibilities and that the audit committee or Board of Directors considers proper to achieve the audit committee's mandate, as well as any other functions expressly conferred by the Board of Directors; (l) approve non-audit services provided by our external auditors and ensure that the provision of these services does not impair the independence of the external auditors; (m) resolve any disagreements between the external auditors and the chief executive officer and senior executive officers; (n) receive from the external auditors a report that includes an analysis of: (i) all critical accounting policies utilized by the company; (ii) all policies and accounting principles that differ from those utilized by the company and that have been discussed with the chief executive officer and senior executive officers, including the implications of using such policies and practices; and (iii) any other written communications regarding significant matters between the external auditors and the chief executive officer and senior executive officers, including the annual letter to the chief executive officer and senior executive officers, in which the external auditors summarize their recommendations regarding our internal controls and the non-adjusted differences in inventory identified during the audit process; (o) establish procedures for the receipt, retention and treatment of complaints regarding accounting, internal control or auditing matters, including procedures for the confidential and anonymous submission by our employees or those of our subsidiaries; (p) in its sole discretion, select, engage and approve the compensation of counsel, experts and other advisers to provide services that the audit committee deems necessary to carry out its duties, for which the company must provide appropriate funding; (q) reserve time during its meetings, in its discretion, to discuss and deliberate without the chief executive officer and senior executive officers; (r) establish a schedule to meet separately with the internal auditors and the external auditors without the presence of the chief executive officer and/or the senior executive officers; and (s) review and analyze with the management and external auditors the annual report of the company and the quarterly financial results to be presented to the SEC, and in particular, those parts of the annual report in which the financial information and critical accounting policies of the company are discussed. In addition, pursuant to our bylaws and Mexican law, (i) the audit committee is required to submit an annual report to the Board of Directors and (ii) the audit committee must provide an opinion regarding any transaction with a related party that is outside the ordinary course of our business, which must be approved by the Board of Directors.

The audit committee has reviewed this Annual Report, as well as our consolidated financial statements and notes thereto included elsewhere in this Annual Report, and recommended that such financial statements be included herein.

The Audit Committee Report

A translation of the audit committee's annual report submitted to the Board of Directors on March 8, 2006 is provided below.

Table of Contents

Audit Committee Report

To the Board of Directors of

Teléfonos de México, S.A. de C.V.

The Company's management has the basic responsibility of issuing financial statements based on generally accepted accounting principles in Mexico, preparing financial information in a timely manner, and implementing internal control systems. The Audit Committee, on behalf of the Board of Directors of the Company, has reviewed the consolidated audited financial statements of Teléfonos de México, S.A. de C.V. and its subsidiaries as of December 31, 2005. This review included analysis and approval of policies, procedures and accounting practices of the Company and its subsidiaries. The accounting policies for the preparation of the Company's financial information, proposed and recommended by this Committee to the Board of Directors, have the approval of the Board of Directors.

The Committee evaluated the performance of the external auditors, who are responsible for expressing an opinion about the reasonableness of the financial statements of the Company and the conformity of such financial statements to generally accepted accounting principles in Mexico. The Committee has concluded that the partners of the external audit firm meet the professional standards and have the performance, intellectual and economic independence necessary to perform this duty.

The Committee has ensured that interim public financial information, such as the quarterly financial information presented to the Mexican Stock Exchange (Bolsa Mexicana de Valores, S.A.) and the National Banking and Securities Commission (Comisión Nacional Bancaria y de Valores), is prepared in accordance with the same principles, procedures, criteria and accounting practices used in the preparation of the annual information.

Based on the revisions and opinions mentioned above, the Committee recommends to the Board of Directors, that the audited consolidated financial statements of Teléfonos de México, S.A. de C.V. and its subsidiaries as of December 31, 2005, be included in the 2005 annual report, which the Company submits to the Shareholders' Meeting for approval.

Additionally, the Company has an Internal Auditing Area. The internal control system has been reviewed and evaluated by the Audit Committee and in the Committee's opinion, meets the required level of effectiveness so that the Company operates in a general control environment. The external auditors have reported to us certain matters concerning internal control that came to their attention in the course of their audit. We believe the internal control system complies with the general guidelines established by the Board of Directors by recommendation of this Committee.

Finally, the Committee reports that it verified that there are controls in the Company that allow a determination about whether the Company complies with applicable legal and administrative dispositions and reviewed the respective reports regarding litigation and proceedings that in each case could represent a risk. As a result, the Committee did not detect any significant risk that could result from the current legal situation of the Company.

Antonio del Valle Ruíz

Corporate Practices Committee

The corporate practices committee was previously known as the evaluation and compensation committee. At the shareholders' meeting of April 27, 2006, the name of the evaluation and compensation committee was changed to the corporate practices committee, and Fernando Solana Morales was designated the president of the corporate practices committee. At its meeting on May 11, 2006, the Board of Directors confirmed Fernando Solana Morales as the president of the corporate practices committee and resolved that the rest of the corporate practices committee would comprise Antonio Cosío Ariño, Laura Diez Barroso de Laviada and Francisco Medina Chávez.

The mandate of the corporate practices committee is to assist the Board of Directors in evaluating and compensating our senior executives. In particular, it is required to (a) recommend to the Board of Directors procedures for the selection and succession of our chief executive officer and our principal executives; (b) propose criteria for evaluating executive performance; (c) analyze the proposals of the chief executive officer concerning the structure and amount of compensation for our senior executives, and to raise them with the Board of Directors; (d) review new executive compensation programs and the operations of existing programs; (e) establish contracting practices to avoid excessive payments to executives; (f) assist the Board of Directors in developing appropriate personnel policies; (g) report to the Board of Directors on its activities; and (h) perform any other functions the Board of Directors may delegate to the corporate practices committee. Upon effectiveness of the new Mexican Securities Market Law, the corporate practices committee will also provide an opinion regarding our transactions with related parties. Each member of the corporate practices committee is independent, as independence is defined under the Mexican Securities Market Law.

The Evaluation and Compensation Committee Report

A translation of the evaluation and compensation committee's annual report submitted to the Board of Directors on March 8, 2006 is provided below.

Evaluation and Compensation Committee Report

To the Board of Directors of

Teléfonos de México, S.A. de C.V.

Based on the dispositions of the Best Corporate Practices Code, the Evaluation and Compensation Committee of Teléfonos de México, S.A. de C.V., presents a report to the Board of Directors regarding the relevant activities carried out by this Committee that, if the Board approves, is to be included in the annual report that is submitted for the consideration at the Shareholders' Meeting where the results and activities of the Company at December 31, 2005 will be made known.

Table of Contents

The Committee, in the exercise of the mandated functions and during the several sessions it has held, carried out the relevant activities that are mentioned below.

a) The hiring conditions of executives were reviewed and it was determined that they comply with the guidelines established by the Board of Directors and the Committee verified that special payments between the Company and executives in the event of their departure from the Company do not exist.

b) The structure and policies used to determine compensation packages for executives and board members of the Company were reviewed.

Juan Antonio Pérez Simón

President

Finance and Planning Committee

The finance and planning committee consists of Juan Antonio Pérez Simón (the finance and planning committee's president since May 11, 2006), Ángeles Espinosa Yglesias and Jaime Alverde Goya. The mandate of the finance and planning committee is to assist the Board of Directors in evaluating our investment, financial and planning policies. In particular, it is required to (a) review investment policies proposed by senior management; (b) evaluate the financing policies proposed by senior management and submit them for approval by the Board of Directors; (c) participate in presentations to the Board of Directors regarding the conformity of principal proposed investments and financing transactions to our guidelines; (d) weigh in on strategic planning and assist the Board of Directors in monitoring financial projections and the concurrence of investment and financing policies with strategic objectives; (e) review annual budget assumptions and submit them for approval by the Board of Directors; (f) monitor our budget and strategic plan; (g) identify risk factors and review policies for managing those risks; and (h) perform any other functions the Board of Directors may delegate to the finance and planning committee. Each member of the finance and planning committee is independent, as independence is defined under the Mexican Securities Market Law.

The Finance and Planning Committee Report

A translation of the finance and planning committee's annual report submitted to the Board of Directors on March 8, 2006 is provided below.

Finance and Planning Committee Report

To the Board of Directors of

Teléfonos de México, S.A. de C.V.

Mr. Chairman, Board members:

The relevant issues that have been discussed in the sessions of the Finance and Planning Committee of the Board of Directors are the following:

We reviewed the results of the investment programs and liabilities of the Company at year-end 2005. The investments and financing complied with the policies established by the Board and achieved the projected viability.

We analyzed and evaluated the projected investment and liabilities plans for 2006 and both were within framework of the policies established by the Board, which policies are also in line with the established strategic vision of the Company.

Table of Contents

Therefore, the Committee considered that the principal investments and financing for 2006 that management has planned are viable and adequate.

We also reviewed the figures of the financial statements at December 31, 2005, and compared them with the figures of 2004 and the 2005 budget. Additionally, we analyzed the premises and financial projections included in the Company's budget for 2006. The Committee considered that these projections are in line with the Company's strategic plan.

In addition, we carried out an evaluation and verified that the strategic position of the Company is consistent with its strategic plan. We consider that this information should be included in the annual report that the Board of Directors presents to the Shareholders' Meeting where the 2004 results will be made known in order to comply with the Best Corporate Practices Code.

Fernando Solana Morales

President

Mexico City

March 8, 2006

Executive Officers

The names, responsibilities and prior business experience of our executive officers are as follows:

Oscar Von Hauske Solís	Appointed:	1996
President of International Operations and Information Technology	Business experience:	Head of finance at Grupo Condumex, S.A. de C.V.

Héctor Slim Seade is the nephew of Carlos Slim Helú.

Statutory Auditors

Under our bylaws, the holders of a majority of the outstanding AA Shares and A Shares voting together may elect one or more statutory auditors (*comisarios*) and corresponding alternate statutory auditors. The primary role of the statutory auditors is to report to the holders of AA Shares and A Shares at the annual ordinary general meeting regarding the accuracy of the financial information presented to such holders by the Board of Directors. The statutory auditors are also authorized to, among other things, (a) call ordinary or extraordinary general shareholders meetings, (b) place items on the agenda for meetings of shareholders or the Board of Directors, (c) attend meetings of shareholders or the Board of Directors and (d) generally monitor our affairs. The statutory auditors also receive monthly reports from the Board of Directors regarding material aspects of our affairs, including our financial condition. The current statutory auditor and alternate statutory auditor are:

	Position	First Elected
Alberto Tiburcio Celorio	Statutory Auditor	1993
Fernando Espinosa López	Alternate Statutory Auditor	2001

Compensation of Directors and Officers

For the year ended December 31, 2005, the aggregate compensation of all of our directors and executive officers paid for services in all capacities was approximately P.57.3 million, which included bonus payments totaling P.11.4 million in lieu of stock options. Each director received an average fee of P.49.7 thousand (nominal) for each meeting of the Board of Directors attended in 2005. Members of committees of the Board of Directors received an average fee of P.15.8 thousand (nominal) for each committee meeting attended in 2005. None of our directors is a party to any contract with us or any of our subsidiaries that provides for benefits upon termination of employment.

In 2005, we terminated our stock option plan for our executive officers. In January 2003, we granted options to purchase an aggregate of 11.7 million L Shares at P.11.17 per L Share, which were exercisable over a period of nearly four years from the date of grant. We subsequently reduced this period to two years. In January 2004, we granted options to purchase an aggregate of 9.0 million L Shares at P.13.45 per L Share, which were exercisable for a period of nearly four years from the date of grant. We subsequently reduced this period to one year. In accordance with Mexican GAAP, we did not recognize any compensation expense as a result of granting stock options to our executive officers.

Share ownership of Carlos Slim Helú and certain members of his immediate family is set forth in *Item 7. Major Shareholders and Related Party Transactions Major Shareholders*. Except as discussed therein, none of our other directors, alternate directors or executive officers is the beneficial owner of more than one percent of any class of our capital stock.

Table of Contents**Employees**

We are one of the largest non-governmental employers in Mexico. The following table sets forth the number of employees and a breakdown of employees by main category of activity and geographic location as of the end of each year in the three-year period ended December 31, 2005:

	December 31,		
	2005	2004	2003
End-of-period number of employees	75,484	76,683	62,103
Employees by category of activity:			
Local Mexico	38,430	39,420	40,353
Long distance Mexico	7,170	7,216	7,405
Other Mexico	14,607	14,431	14,345
Latin America ⁽¹⁾ and the United States	15,277	15,616	
Employees by geographic location:			
Mexico	60,207	61,067	62,103
Latin America ⁽¹⁾ and the United States	15,277	15,616	

(1) Includes Brazil, Chile, Argentina, Peru and Colombia.

At December 31, 2005, the Telephone Workers Union of Mexico (known by its Spanish acronym, STRM) represented approximately 57.8% of our employees, and members of other unions represented approximately 9.7% of our employees. All management positions are held by non-union employees. Salaries and certain benefits for unionized personnel are renegotiated every year and the collective bargaining agreements with our unionized employees are renegotiated every two years. In April 2006, we and the STRM agreed to a 4.4% nominal increase in basic wages and a 2.5% nominal increase in benefits.

Table of Contents**Item 7. Major Shareholders and Related Party Transactions****MAJOR SHAREHOLDERS**

The AA Shares represented 38.6% of the total capital stock and 94.5% of the full voting shares (AA shares and A Shares) as of June 8, 2006. The AA Shares are owned by (1) Carso Global Telecom, (2) SBC International and (3) various other Mexican investors. Carso Global Telecom holds interests in telecommunications and was spun off from Grupo Carso in 1996. Carso Global Telecom may be deemed to control us. According to reports of beneficial ownership of our shares filed with the SEC, Carso Global Telecom is controlled by Mr. Carlos Slim Helú and members of his immediate family.

Carso Global Telecom and SBC International are parties to an agreement entered into in December 2000 providing for certain matters relating to their ownership of AA Shares. Among other things, the agreement subjects certain transfers of AA Shares by either party to a right of first offer in favor of the other party, although the right of first offer does not apply to the conversion of AA Shares to L Shares, as permitted by our bylaws, or the subsequent transfer of L Shares. The agreement also provides for the composition of the Board of Directors and the executive committee (see *Item 6. Directors and Officers of Registrant*, *Directors* and *Item 6. Directors and Officers of Registrant*, *Executive Committee*) and for each party to enter into a Management Services Agreement with us (see *Related Party Transactions*).

The following table identifies each owner of five percent or more of any class of our shares as of June 8, 2006, unless otherwise indicated. Except as described below, we are not aware of any holder of five percent or more of any class of our shares. Holders of five percent or more of any class of our shares have the same voting rights with respect to their shares as do holders of less than five percent of the same class. The figures below have been adjusted to give effect to the two-for-one stock split that occurred in 2005.

	AA Shares ⁽¹⁾		A Shares ⁽²⁾		L Shares ⁽³⁾		Percent of voting shares ⁽⁴⁾
	Shares (millions)	Percent of class	Shares (millions)	Percent of class	Shares (millions)	Percent of class	
Carso Global Telecom ⁽⁵⁾	6,000.0	73.9%	92.0	19.7%	4,050.0	32.6%	71.0%
SBC International ⁽⁵⁾	1,799.5	22.2%					21.0%
Brandes Investment Partners, L.P. ⁽⁶⁾					1,007.7	8.1%	
Franklin Resources, Inc. ⁽⁶⁾					1,091.6	8.8%	
JPMorgan Chase & Co. ⁽⁶⁾					929.2	7.5%	

(1) As of June 8, 2006, there were 8,115 million AA Shares outstanding, representing 94.5% of the total full voting shares (AA Shares and A Shares).

(2) As of June 8, 2006, there were 468 million A Shares outstanding, representing 5.5% of the total full voting shares (AA Shares and A Shares).

(3) As of June 8, 2006, there were 12,436 million L Shares outstanding.

(4) AA Shares and A Shares.

(5) Holders of AA Shares and A Shares are entitled to convert a portion of these Shares to L Shares, subject to the restrictions set forth in our bylaws. See *Item 10. Additional Information*, *Bylaws and Mexican Law*.

(6) Derived from reports of beneficial ownership of our shares filed with the SEC. All figures are as of March 31, 2006.

The following table sets forth the share ownership, as of June 8, 2006, of our officers and directors who own more than one percent of any class of our capital stock. Mr. Carlos Slim Helú, together with certain members of his immediate family, may be deemed to share beneficial ownership of 6,000 million AA Shares and 92.0 million A Shares held by Carso Global Telecom and 4,089.1 million L Shares held by Carso Global Telecom and other companies that are under common control with us. Except as provided below, none of our directors, alternate directors or executive officers is the beneficial owner of more than one percent of any class of our capital stock.

Table of Contents

	AA Shares ⁽¹⁾		A Shares ⁽¹⁾		L Shares ⁽¹⁾		Percent
	Shares (millions)	Percent of class	Shares (millions)	Percent of class	Shares (millions)	Percent of class	of voting shares ⁽²⁾
Carlos Slim Helú ⁽³⁾	6,000.0	73.9%	92.1	19.7%	4,089.2	32.9%	71.0%
Carlos Slim Domit ⁽⁴⁾	6,000.0	73.9%	92.0	19.7%	4,089.1	32.9%	71.0%
Marco Antonio Slim Domit ⁽⁵⁾	6,000.0	73.9%	92.0	19.7%	4,089.1	32.9%	71.0%
Patrick Slim Domit ⁽⁶⁾	6,000.0	73.9%	92.0	19.7%	4,090.1	32.9%	71.0%
Antonio Cosío Ariño	130.4	1.6%					1.5%

- (1) Holders of AA Shares and A Shares are entitled to convert a portion of these Shares to L Shares, subject to the restrictions set forth in our bylaws. See *Item 10. Additional Information Bylaws and Mexican Law*.
- (2) AA Shares and A Shares.
- (3) Includes 80,000 A shares and 200,000 L Shares (assuming conversion of the 80,000 A Shares) owned directly by Carlos Slim Helú.
- (4) Includes 16,264 L Shares owned directly by Carlos Slim Domit.
- (5) Includes 16,264 L Shares owned directly by Marco Antonio Slim Domit.
- (6) Includes 1,048,538 L Shares owned directly by Patrick Slim Domit.

At December 31, 2005, 75.1% of our outstanding L Shares were represented by L Share ADSs, each representing the right to receive 20 L Shares, and 99.1% of the holders of L Share ADSs (12,977 holders, including The Depository Trust Company) had registered addresses in the United States. In November 2000, we established a sponsored ADS program for the A Share ADSs. 29.4% of our outstanding A Shares were held in the form of A Share ADSs at December 31, 2005, each representing the right to receive 20 A Shares, and 99.6% of the holders of A Share ADSs (4,222 holders, including The Depository Trust Company) had registered addresses in the United States.

We have no information concerning holders with registered addresses in the United States that hold:

A Shares;

L Shares not represented by ADSs; or

A Share ADSs that are held under the unsponsored A Share ADS programs, which pre-date the establishment of the sponsored program, and have not been exchanged for ADSs issued under such sponsored program. See *Item 9. The Offer and Listing Trading Market*.

We purchase our shares on the Mexican Stock Exchange from time to time up to a specified maximum aggregate value authorized by the holders of AA Shares and A Shares and our Board of Directors. In 2005, we purchased 1,577.6 million L Shares and 6.2 million A Shares, representing 6.7% of the shares outstanding at the beginning of 2005, with an aggregate value of P.17,281 million (P.16,993 million historical). As of March 30, 2006, we are authorized to purchase shares with an aggregate value of up to P.15 billion.

Since January 1, 1997, Carso Global Telecom has purchased A Shares and L Shares on the open market from time to time. In percentage terms, the ownership position of Carso Global Telecom has also increased as a result of our repurchase of our own shares. Carso Global Telecom's percentage ownership of A Shares was 19.2% on December 31, 2005, 18.2% on December 31, 2004 and 17.4% on December 31, 2003. Carso Global Telecom's percentage ownership of L Shares was 28.5% on December 31, 2005, 23.6% on December 31, 2004 and 17.0% on December 31, 2003. In June 2001, Carso Global Telecom converted 1,000 million L Shares to AA Shares, raising its total ownership of AA Shares to 6,000 million.

Table of Contents

RELATED PARTY TRANSACTIONS

General

We engage in a variety of transactions in the ordinary course of business with affiliates. Pursuant to our bylaws and Mexican law, the audit committee of our Board of Directors must express an opinion on, and our Board of Directors has exclusive power to approve, any transaction with a related party that is outside the ordinary course of our business.

Our transactions with affiliates include purchasing network construction services and materials from a subsidiary of Grupo Condumex, S.A. de C.V., or Grupo Condumex, and insurance and bank services from Grupo Financiero Inbursa, S.A. de C.V., or Grupo Financiero Inbursa. In addition, we sell network construction materials to Grupo Condumex and provide certain services to Grupo Carso and Grupo Financiero Inbursa. Grupo Condumex and Grupo Financiero Inbursa are under common control with Carso Global Telecom, and several of their directors are also members of our Board of Directors. See *Item 6. Directors and Officers of Registrant Directors*. The aggregate amount of our purchases from affiliates was P.9,698 million in 2005, P.8,789 million in 2004 and P.8,295 million in 2003. The aggregate amount of our sales to these affiliates was P.1,483.6 million in 2005, P.1,022.0 million in 2004 and P.708.6 million in 2003. We believe that the prices paid in these transactions are comparable to those that would be obtained in arm's length negotiations with unaffiliated parties.

From time to time we make investments together with affiliated companies, sell our investments to affiliates and buy investments from affiliates. Some of these transactions are described below.

In April 2006, we announced that América Móvil and we had together entered into an agreement with Verizon to acquire through an equally-owned joint venture Verizon's 28.5% equity interest in CANTV for an aggregate purchase price of U.S.\$676.6 million in cash.

In January 2006, together with Alcatel and SBC International, we acquired an aggregate 51% interest in the capital stock of 2Wire.

In April 2004, we acquired a 60% indirect interest in Techtel from América Móvil for U.S.\$75 million.

We own a 45% interest in Grupo Telvista S.A. de C.V. together with our affiliates, América Móvil (45%) and Grupo Financiero Inbursa (10%).

We owned a 50% interest in Technology and Internet LLC, a company that invests in e-commerce enterprises in the United States and Latin America. We made this investment together with our affiliates, América Móvil (40.3%) and a subsidiary of Grupo Financiero Inbursa (9.7%). On June 21, 2005, we sold our entire interest in Technology and Internet LLC to Grupo Condumex.

We owned approximately 25.6 million shares of common stock of MCI. Other parties that may be deemed to be under common control with us held an additional interest. In May 2005, we and the other parties that may be deemed to be under common control with us sold all shares held.

We also pay fees to Carso Global Telecom and SBC International for consulting and management services, pursuant to agreements with each party negotiated on behalf of us by a special committee of directors unaffiliated with any of the parties. The current agreement with Carso Global Telecom was

Table of Contents

renewed for the period beginning January 1, 2006, and the current agreement with SBC International was renewed for the period beginning December 31, 2005, each on substantially similar terms to prior agreements. We paid to both companies an aggregate amount of U.S.\$39 million in 2005, U.S.\$29 million in 2004 and U.S.\$29 million in 2003.

Certain executives of our affiliates periodically use our corporate airplane for business and personal purposes.

Transactions between Telmex and América Móvil

América Móvil has a variety of contractual relationships with us and with our subsidiaries. Because both we and América Móvil, the leading wireless operator that was established in a spin-off from us in 2000, provide telecommunications services in the same geographical markets, we have extensive operational relationships. These include interconnection between our respective networks; use by América Móvil of our private circuits; our provision of long distance service to América Móvil's customers; use of facilities, particularly for the co-location of equipment on premises we own; and use by each of the services provided by the other. These operational relationships are subject to a variety of agreements, which for the most part were in place prior to the spin-off and were not significantly modified as a result of the spin-off. Many of them are also subject to specific regulations governing all telecommunications operators. Interconnection fees represent the largest component of amounts paid under these agreements. In 2005, the aggregate amount we paid América Móvil for interconnection fees totaled P.11,370 million, and the aggregate amount paid to us by América Móvil totaled P.6,018 million, primarily for use of our private circuits and long distance services. The terms of the arrangements with América Móvil are generally similar to those on which each company does business with other, unaffiliated parties.

In addition, we distribute América Móvil's handsets and prepaid cards on commercial terms similar to those given to other cellular distributors.

Transactions between Embratel and Related Parties

Embratel engages in a variety of transactions in the ordinary course of business with our subsidiaries and with other companies that may be deemed to be under common control with us.

Embratel completes international traffic from our subsidiaries and subsidiaries of América Móvil in Mexico, Chile and Argentina. Our subsidiaries and subsidiaries of América Móvil in Mexico, Chile and Argentina complete international traffic from Embratel.

Because both Embratel and América Móvil's subsidiary, Telecom Americas S.A., which operates under the brand Claro, provide telecommunications services in the same geographical markets, they have extensive operational relationships. Embratel originates mobile domestic and international long distance traffic from Claro and terminates mobile domestic and international long distance traffic to Claro. Embratel also transports Claro's traffic and leases lines to Claro. Through its subsidiary, BrasilCenter, Embratel provides call center services to Claro. In June 2005, Embratel entered into a settlement agreement to settle disputes relating to co-billing and other matters with Claro in the amount of P.125.2 million (U.S.\$11.7 million). The terms of this settlement agreement were comparable to those of the settlement agreements entered into by Embratel to settle similar disputes with other fixed and mobile telecommunications operators since 2004.

The terms of Embratel's arrangements with our subsidiaries and with other companies that may be deemed to be under common control with us are generally similar to those on which each company does business with other, unaffiliated parties.

Table of Contents

In November 2004, Embratel's principal operating subsidiary entered into a U.S.\$75 million loan agreement with Banco Inbursa, S.A., *Institución de Banca Múltiple, Grupo Financiero Inbursa*, a subsidiary of Grupo Financiero Inbursa. Though the loan was scheduled to mature in December 2005, Banco Inbursa and Embratel agreed to extend the maturity of U.S.\$25 million of the loan to November 2006. The loan bears interest at a spread of 0.9% above LIBOR.

Item 8. Financial Information

CONSOLIDATED FINANCIAL STATEMENTS

See *Item 18. Financial Statements* and pages F-1 through F-73.

LEGAL PROCEEDINGS

Telmex

There were a number of pending proceedings before the Mexican courts in which we or our competitors had challenged determinations or regulations issued by Cofetel, most of which were withdrawn as a result of December 2000 agreements with certain competitors. We are also involved in legal proceedings in the ordinary course of our business, none of which is material. In addition, we are in the process of appealing various proceedings brought by our competitors alleging anticompetitive practices by us before competition authorities in Mexico. The proceedings could result in fines by the authorities and subsequent civil actions by our competitors, but we believe that a negative outcome of these proceedings would not be material on an aggregate basis.

The Mexican Social Security Institute (*Instituto Mexicano del Seguro Social*) conducted an audit of our social security obligations for the period from 1997 through 2001. Following the audit, we were ordered to pay a total of approximately P.330 million (nominal value) consisting of past due obligations, penalties and accrued interest as of July 2, 2003. We have appealed these rulings to the Federal Administration and Taxation Court (*Tribunal Federal de Justicia Fiscal y Administrativa*) and, in accordance with Mexican law, have deposited a bond guaranteeing the amount alleged to be owed. Although we believe the basis for our appeal is well founded, there can be no assurance that we will prevail.

Embratel

Embratel has a substantial amount of tax-related and other contingencies. See Note 12 to our audited consolidated financial statements. Although Embratel believes the cases to which these contingencies relate are well founded, there is no guarantee that it will prevail in these cases.

Brazilian Value-Added Goods and Services Tax (ICMS)

Embratel has received a number of tax assessments for underpayment of ICMS and improper use of ICMS credits on international outbound traffic and certain bundled services that Embratel considers exempt or non-taxable for ICMS purposes. Embratel recorded a provision for P.1,722 million for losses considered probable, which includes the addition of P.970,000 in 2005 based on adverse decisions and the advice of Embratel's legal advisers. Embratel did not record a provision for P.8.1 billion, which corresponds to the claims in which Embratel expects to prevail.

Vésper, Vésper São Paulo and Telmex do Brasil have received similar ICMS tax assessments. Embratel has recorded a provision for P.71.9 million for losses considered probable, but did not record a provision for P.138.4 million, which corresponds to the claims in which Embratel expects to prevail.

Table of Contents

In July 2002, Star One received two assessments by the tax authorities in the state of Rio de Janeiro for payment of ICMS in the amount of approximately P.1.1 billion related to Internet services and satellite use. In March 2004, Star One was required to pay approximately P.91.0 million in the Brazilian Federal District for ICMS not paid on satellite use and other obligations. Star One determined that it faces little risk of losing these suits so it has not recorded a provision for such amounts in its financial statements.

Income Tax on Inbound International Income

Embratel believes that the foreign operating income from telecommunications services (inbound traffic) is not subject to taxation. In connection with this matter, in March 1999, the Brazilian Federal Tax Agency, or SRF, assessed Embratel approximately P.1.3 billion for failing to pay the related income tax for the years 1996 and 1997. Embratel's appeal of this decision is still pending.

In June 1999, Embratel was further assessed for non-payment of income tax on net foreign source income for 1998 amounting to approximately P.295 million after a partial payment made by Embratel. Embratel considers the probability of loss unlikely, so no provisions have been recorded in the financial statements for the claim.

Brazilian Social Welfare Tax on Service Exports (PIS)

In August 2001, the SRF issued a tax claim against Embratel totaling approximately P.728 million for payment of PIS prior to 1995, which had been offset in accordance with Brazilian tax law. Embratel's management evaluated the probability of a loss, and determined that no provision would be recorded in the financial statements for the claim.

Brazilian Finance Tax for Service Export Security Tax (COFINS)

There is also a P.1,565 million claim against Embratel related to the COFINS exemption on the exportation of telecommunications services for revenues through the end of 1999. Embratel argued that the government auditor made several errors in the computation of this tax and, consequently, this tax was later reduced by approximately P.1,007 million. A new decision at the administrative level has restated this tax to an amount of approximately P.1,083 million. Embratel has appealed this decision to a higher administrative level, and this appeal is still pending.

Disputes with Third Parties

Embratel is involved in a variety of additional litigation and administrative proceedings that have arisen in the ordinary course of business. Various disputes are in an advanced stage of the litigation process, and Embratel may lose at least some of the cases. Embratel has recorded a provision of P.544 million (restated) for unfavorable rulings.

Table of Contents***Other Tax Contingencies***

Other tax claims have been brought against Embratel and certain subsidiaries regarding social security requirements, the National Social Security Fund and the Fund for Universal Telecommunications Services. Embratel has recorded a provision for P.89 thousand for losses considered probable but did not record a provision for P.1,222 thousand, which corresponds to the claims in which Embratel expects to prevail.

DIVIDENDS

We have paid cash dividends on our shares each year since 1958. The table below sets forth the nominal amount of dividends paid per share in each year indicated, in pesos and translated into U.S. dollars at the exchange rate on each of the respective payment dates. The figures below have been adjusted to give effect to the two-for-one stock split that occurred in 2005.

Year ended December 31,	Pesos per Share		Dollars per Share	
2005	P.	0.3700	U.S.\$	0.0340
2004		0.3325		0.0294
2003		0.3025		0.0278
2002		0.2725		0.0280
2001		0.2450		0.0265

Since 1998, we have paid dividends quarterly. The dividends from earnings in a given year are determined at the annual meeting of shareholders in April of the following year, and paid in June, September and December of such following year and in March of the year after that. In April 2004, we declared a dividend of P.0.340 per share, which we paid in equal installments of P.0.085 per share in June 2004, September 2004, December 2004 and March 2005. In April 2005, we declared a dividend of P.0.380 per share, which we paid in equal installments of P.0.095 per share in June 2005, September 2005, December 2005 and March 2006. In April 2006, we declared a dividend of P.0.41 per share, which will be payable in equal installments of P.0.1025 per share in June 2006, September 2006, December 2006 and March 2007.

The declaration, amount and payment of dividends are determined by majority vote of the holders of AA Shares and A Shares, generally on the recommendation of the Board of Directors, and will depend on our results of operations, financial condition, cash requirements, future prospects and other factors deemed relevant by the holders of AA Shares and A Shares. Accordingly, we cannot assure you that we will continue to pay dividends or that future dividends will be comparable to historical dividends. Our bylaws provide that holders of the AA Shares, the A Shares and the L Shares share equally on a per-share basis in dividend payments and other distributions.

Table of Contents**Item 9. The Offer and Listing****TRADING MARKET**

The L Share ADSs, each representing 20 L Shares of Telmex, are issued by JPMorgan Chase Bank, N.A., or the Depositary, as depositary for the L Share ADSs. The L Share ADSs are traded on the New York Stock Exchange and listed on the Frankfurt Stock Exchange, and the L Shares are traded on the Mexican Stock Exchange and listed on the *Mercado de Valores Latinoamericano* (Latibex) in Madrid, Spain.

The A Share ADSs, each representing 20 A Shares of Telmex, are issued by the Depositary, as depositary for the A Share ADSs. The A Shares are traded on the Mexican Stock Exchange, and the sponsored A Share ADSs are quoted on the NASDAQ SmallCap Market. Trading has ceased with respect to the unsponsored A Share ADSs.

The following table sets forth, for the periods indicated, the reported high and low sales prices for the L Shares on the Mexican Stock Exchange and the reported high and low sales prices for the L Share ADSs on the New York Stock Exchange. Prices have not been restated in constant currency units, but have been adjusted to give effect to the two-for-one stock split that occurred in 2005.

TRADING ON THE MEXICAN STOCK EXCHANGE

The Mexican Stock Exchange (*Bolsa Mexicana de Valores, S.A. de C.V.*), located in Mexico City, is the only stock exchange in Mexico. Founded in 1907, it is organized as a corporation whose shares are held by 26 brokerage firms, which are exclusively authorized to trade on the Mexican Stock Exchange. Trading on the Mexican Stock Exchange takes place principally through automated systems, which are open between the hours of 8:30 a.m. and 3:00 p.m., Mexico City time, each business day. Trades in securities listed on the Mexican Stock Exchange can also be effected off the exchange. The Mexican Stock Exchange operates a system of automatic suspension of trading in shares of a particular issuer as a means of controlling excessive price volatility, but under current regulations this system does not apply to securities such as the A Shares or the L Shares that are directly or indirectly (for example, through American Depositary Shares) quoted on a stock exchange (including for these purposes NASDAQ) outside Mexico.

Settlement is effected two business days after a share transaction on the Mexican Stock Exchange. Deferred settlement, even by mutual agreement, is not permitted without the approval of the Mexican National Securities Commission. Most securities traded on the Mexican Stock Exchange, including those of Telmex, are on deposit with S.D. Indeval, S.A. de C.V., a privately owned securities depository that acts as a clearinghouse for Mexican Stock Exchange transactions.

Table of Contents

Item 10. Additional Information

BYLAWS AND MEXICAN LAW

Set forth below is a brief summary of certain significant provisions of Mexican law and our bylaws. The full text of our bylaws has been filed as an exhibit to this Annual Report. For a description of the provisions of our bylaws relating to our Board of Directors, committees of the Board of Directors and statutory auditors, see *Item 6. Directors and Officers of Registrant*.

Mexican Securities Market Law

On December 30, 2005, a new Mexican Securities Market Law was enacted and published in the Official Gazette. The new law will be effective 180 days (late June 2006) following its publication and in some cases will allow an additional period of 180 days (late December 2006) for Mexican issuers to adopt the new corporate governance requirements in the new law. The new law will introduce significant changes to the current regime in which issuers operate, including:

the establishment of the *sociedad anónima bursátil*, a separate corporate form of organization for issuers with stock registered with the CNBV and listed on the Mexican Stock Exchange, which provides for a new set of corporate governance requirements;

the redefinition of the functions and structure of the board of directors, including (i) increasing the number of members of the board of directors (up to 21, with independent members comprising at least 25%) and (ii) requiring that the status of members of the board of directors as independent be determined by the shareholders' meeting, subject to the CNBV's authority to challenge such determination;

the application of a legal framework to the chief executive officer (*director general*) and executive officers (*directivos relevantes*) entrusted with the day-to-day management of the issuer;

the adoption of a clear definition of fiduciary duties, including but not limited to the duty of care and the duty of loyalty, for members of the board of directors and its secretary, the chief executive officer and other executive officers;

the increase in liability for members of the board of directors and its secretary with respect to the operations and performance of the issuer, including (i) payment of damages and losses resulting from the breach of their duty of care or loyalty and (ii) criminal penalties from 1 to 12 years of imprisonment for certain illegal acts involving willful misconduct. Civil actions under (i) may be brought by the issuer or by shareholders that represent 5% or more of the capital stock of the issuer; and criminal actions under (ii) may only be brought by the Mexican Ministry of Finance, after consultation with the CNBV;

the elimination of the requirement that the issuer have a statutory auditor and the delegation of specific obligations of corporate governance and oversight to the audit committee, the corporate practices committee and the external auditors;

the requirement that all the members of the audit and corporate practices committees be independent as such term is defined under the new law, except with respect to the corporate practices committee in the case of issuers like us that have a controlling shareholder;

Table of Contents

the enhancement of the functions and responsibilities of the audit committee, including (i) the evaluation of the performance of the external auditors, (ii) the review and discussion of the financial statements of the issuer and the conveyance to the board of directors of the committee's recommendations regarding the approval of such financial statements, (iii) the surveillance of internal controls and internal audit procedures of the issuer, (iv) the reception and analysis of recommendations and observations regarding the committee's functions by the shareholders, members of the board of directors and senior management, and the authority to act upon such recommendations and observations, (v) the authority to call a shareholders' meeting and to contribute to the meeting's agenda and (vi) the oversight of the execution of resolutions enacted at meetings of shareholders or the board of directors;

the requirement that the shareholders' meeting approve all transactions that represent 20% or more of the consolidated assets of the issuer within a given fiscal year; and

the inclusion of a new set of rules requiring an issuer to obtain prior authorization from the CNBV to effect public offerings of securities and tender offers.

Organization and Register

Telmex is a *sociedad anónima de capital variable* organized in Mexico under the Mexican Companies Law (*Ley General de Sociedades Mercantiles*). It is registered with the Public Registry of Commerce of Mexico City under the number 5229. Under the new Mexican Securities Market Law, Telmex will adopt the corporate form of *sociedad anónima bursátil de capital variable*, which will require it to adhere to the new requirements described above.

Purpose

Our corporate purpose is to construct, install, maintain and operate a public telephony and telecommunications network to transmit voice, sound, data, text and images through local and domestic and international long distance telecommunications services.

Share Capital

Our capital stock comprises Series AA Shares, Series A Shares and Series L Shares, all such shares without par value. All of the outstanding shares are fully paid and non-assessable.

AA Shares and A Shares have full voting rights. Holders of L Shares may vote only in limited circumstances as described under *Voting Rights*. The rights of holders of all series of capital stock are otherwise identical except for limitations on non-Mexican ownership of AA Shares. The AA Shares, which must always represent at least 51% of the combined AA Shares and A Shares, may be owned only by holders that qualify as Mexican investors as defined in the Foreign Investment Law and our bylaws. See *Limitations on Share Ownership*.

Each AA Share or A Share may be exchanged at the option of the holder for one L Share, provided that the AA Shares may never represent less than 20% of our outstanding capital stock or less than 51% of our combined AA Shares and A Shares. As of December 31, 2005, the AA Shares represented 36.8% of our outstanding capital stock and 94.4% of our combined AA Shares and A Shares.

Each L Share is exchangeable at the option of the holder for one AA Share by delivering the L Share certificate to our treasury for cancellation and receiving the corresponding AA Share certificate. The right to exchange is subject to limitations on non-Mexican ownership of AA Shares and to the requirement that the AA Shares and A Shares together may never represent more than 51% of our outstanding capital stock. As of December 31, 2005, the AA Shares and A Shares together represented 39.0% of our outstanding capital stock.

Table of Contents

Voting Rights

Each AA Share and A Share entitles the holder thereof to one vote at any meeting of our shareholders. Each L Share entitles the holder to one vote at any meeting at which holders of L Shares are entitled to vote. Holders of L Shares are entitled to vote only to elect two members of the Board of Directors and the corresponding alternate directors and on the following matters:

the extension of Telmex's term of duration;

the transformation of Telmex from one type of company to another;

any merger in which Telmex is not the surviving entity or any merger with an entity whose principal corporate purposes are different from those of Telmex;

removal of our shares from listing on the Mexican Stock Exchange or any foreign stock exchange; and

any action that would prejudice the rights of holders of L Shares.

A resolution on any of the specified matters requires the affirmative vote of both a majority of all outstanding shares and a majority of the AA Shares and the A Shares voting together.

Under Mexican law, holders of shares of any series are also entitled to vote as a class on any action that would prejudice the rights of holders of shares of such series and a holder of shares of such series would be entitled to judicial relief against any such action taken without such a vote. The determination whether an action requires a class vote on these grounds would initially be made by the Board of Directors or other party calling for shareholder action. A negative determination would be subject to judicial challenge by an affected shareholder, and a court would ultimately determine the necessity for a class vote. There are no other procedures for determining whether a proposed shareholder action requires a class vote, and Mexican law does not provide extensive guidance on the criteria to be applied in making such a determination.

Shareholders Meetings

General shareholders' meetings may be ordinary meetings or extraordinary meetings. Extraordinary general meetings are those called to consider certain matters specified in Article 182 of the Mexican Companies Law, including, principally, amendments of the bylaws, liquidation, merger and transformation from one type of company to another, as well as to consider the removal of our shares from listing on the Mexican Stock Exchange or any foreign stock exchange. General meetings called to consider other matters are ordinary meetings. The two directors elected by the holders of L Shares are elected at a special meeting of holders of L Shares. All other matters on which holders of L Shares are entitled to vote would be considered at an extraordinary general meeting. Holders of L Shares are not entitled to attend or address meetings of shareholders at which they are not entitled to vote.

A special meeting of the holders of L Shares must be held each year for the election of directors. An ordinary general meeting of the holders of AA Shares and A Shares must be held each year to consider the approval of the financial statements for the preceding fiscal year, to elect directors and statutory auditors and to determine the allocation of the profits of the preceding year.

Table of Contents

The quorum for an ordinary general meeting of the AA Shares and A Shares is 50% of such shares, and action may be taken by a majority of the shares present. If a quorum is not available, a second meeting may be called at which action may be taken by a majority of the AA Shares and A Shares present, regardless of the number of such shares. Special meetings of holders of L Shares are governed by the same rules applicable to ordinary general meetings of holders of AA Shares and A Shares. The quorum for an extraordinary general meeting at which holders of L Shares may not vote is 75% of the AA shares and A Shares, and the quorum for an extraordinary general meeting at which holders of L Shares are entitled to vote is 75% of the outstanding capital stock. If a quorum is not available in either case, a second meeting may be called and action may be taken, provided a majority of the shares entitled to vote is present. Whether on first or second call, actions at an extraordinary general meeting may be taken by a majority vote of the AA Shares and A Shares outstanding and, on matters which holders of L Shares are entitled to vote, a majority vote of all the capital stock.

Holders of 20% of our outstanding capital stock may have any shareholder action set aside by filing a complaint with a court of law within 15 days after the close of the meeting at which such action was taken and showing that the challenged action violates Mexican law or our bylaws. In addition, any holder of our capital stock may bring an action at any time within five years challenging any shareholder action. Relief under these provisions is only available to holders:

who were entitled to vote on, or whose rights as shareholders were adversely affected by, the challenged shareholder action; and

whose shares were not represented when the action was taken or, if represented, were voted against it.

Shareholders' meetings may be called by the Board of Directors, its chairman, the statutory auditors or a court. The Board of Directors or the statutory auditors may be required to call a meeting of shareholders by the holders of 10% of the outstanding capital stock. Notice of meetings must be published in the Official Gazette or a newspaper of general circulation in Mexico City at least 15 days prior to the meeting. In order to attend a meeting, shareholders must deposit their shares with us at our office in Mexico City, with a Mexican or foreign banking institution or with a Mexican exchange broker. If so entitled to attend the meeting, a shareholder may be represented by proxy. The depositary for the L Share ADSs and the A Share ADSs does not satisfy this requirement, so ADS holders are not entitled to attend shareholder meetings. ADS holders must exercise their voting rights through the depositary.

Dividend Rights

At the annual ordinary general meeting of holders of AA Shares and A Shares, the Board of Directors submits our financial statements for the previous fiscal year, together with a report thereon by the Board of Directors, to the holders of AA Shares and A Shares for approval. The holders of AA Shares and A Shares, once they have approved the financial statements, determine the allocation of our net profits for the preceding year. They are required by law to allocate 5% of such net profits to a legal reserve, which is not thereafter available for distribution except as a stock dividend, until the amount of the legal reserve equals 20% of our capital stock. The remainder of net profits is available for distribution.

All shares outstanding at the time a dividend or other distribution is declared are entitled to participate in such dividend or other distribution.

Table of Contents

Limitation on Capital Increases

Our bylaws require that any capital increase be represented by new shares of each series in proportion to the number of shares of each series outstanding.

Preemptive Rights

In the event of a capital increase, a holder of existing shares of a given series has a preferential right to subscribe for a sufficient number of shares of the same series to maintain the holder's existing proportionate holdings of shares of that series. Preemptive rights must be exercised within 30 calendar days following the publication of notice of the capital increase in the Official Gazette and a newspaper of general circulation in Mexico City. Under Mexican law, preemptive rights cannot be traded separately from the corresponding shares that give rise to such rights. As a result, there is no trading market for the rights in connection with a capital increase. Holders of ADSs may exercise preemptive rights only through the depository. We are not required to take steps that may be necessary to make this possible.

Under the new Mexican Securities Market Law, however, if Telmex were to increase its capital stock to effect a public offering of newly issued shares or were to resell any repurchased shares, no preemptive rights would be available to the holders of outstanding shares as a result of the issuance or resale. As of December 31, 2005, Telmex had 10,162.3 million repurchased L Shares and 24.6 million repurchased A Shares in its treasury.

Limitations on Share Ownership

Ownership by non-Mexicans of shares of Mexican enterprises in certain economic sectors, including telephone services, is regulated by the Foreign Investment Law and the Regulations thereunder. The National Commission on Foreign Investment is responsible for administration of the Foreign Investment Law and Regulations. In order to comply with restrictions on the percentage of their capital stock that may be owned by non-Mexican investors, Mexican companies typically limit particular classes of their stock to Mexican ownership. Under the Foreign Investment Law, a trust for the benefit of one or more non-Mexican investors may qualify as Mexican if the trust meets certain conditions that will generally ensure that the non-Mexican investors do not determine how the shares are voted.

Non-Mexican investors are not permitted to own more than 49% of the capital stock of a Mexican corporation engaged in the telephone business. Pursuant to a decision of the Foreign Investment Commission dated August 10, 1990, the L Shares of Telmex, because of their limited voting rights, are not taken into account in determining compliance with this restriction and accordingly are not subject to Mexican ownership restrictions. The A Shares are also unrestricted. The AA Shares, however, which must always represent at least 51% of the combined AA Shares and A Shares, may be owned only by holders that qualify as Mexican investors as defined in the Foreign Investment Law and our bylaws. A holder that acquires AA Shares in violation of the restrictions on non-Mexican ownership will have none of the rights of a shareholder with respect to those AA Shares. As a consequence of these limitations, a non-Mexican investor cannot under Mexican law own AA Shares except through a trust that effectively neutralizes the votes of non-Mexican investors.

Pursuant to the Foreign Investment Law and Regulations, we have registered any foreign owner of our shares, and the depository with respect to the ADSs representing our shares, with the National Registry of Foreign Investment.

In addition, pursuant to the Foreign Investment Law and Regulations, our Mexican shareholders retain the power to determine our administrative control and management.

Table of Contents

Foreign states are prohibited under the General Communications Law from directly or indirectly owning shares of Telmex. The Telecommunications Regulations provide, however, that foreign state-owned enterprises organized as separate entities with their own assets may own minority interests in Telmex or any number of shares with limited voting rights. Ownership of A Shares or L Shares by such foreign state-owned companies, or by pension or retirement funds organized for the benefit of employees of state, municipal or other Mexican governmental agencies, is not considered direct or indirect ownership by foreign states for the purposes of the General Communications Law.

Restrictions on Certain Transactions

Our bylaws provide that any acquisition or transfer by us of more than 10% of our issued and outstanding shares, effected in one or more transactions by any person or group of persons acting in concert, requires prior approval by our Board of Directors.

Restrictions on Deregistration in Mexico

Our shares are registered with the National Registry for Securities, as required under the new Mexican Securities Market Law. If we wish to cancel our registration, or if it is cancelled by the CNBV, Telmex will be required to make a public offer to purchase all outstanding shares prior to such cancellation. Unless the CNBV authorizes otherwise, the offer price will be the higher of: (i) the average of the closing price during the previous 30 days on which the shares may have been quoted, or (ii) the book value of the shares in accordance with the most recent quarterly report submitted to the CNBV and to the Mexican Stock Exchange. If, after the public offer is concluded, there are still outstanding shares held by the general public, Telmex will be required to create a trust for a period of six months, into which Telmex will be required to contribute funds in an amount sufficient to purchase, at the same price as the offer price, the number of outstanding shares held by the general public. Within the five days prior to the commencement of the public offer, after taking into account the opinion of the audit committee, our Board of Directors must publish its opinion regarding the offer price.

Tender Offer Rules

Our bylaws provide that any purchasers or group of purchasers that obtain or increase a significant participation (*i.e.*, 30% or more) in the capital stock of the company, without conducting a previous public offer in accordance with the applicable rules issued by the CNBV, would not have the right to exercise the corporate rights of their shares, and that the company will not register such shares in the share registry book.

Other Provisions

Variable capital. We are permitted to issue shares constituting fixed and variable capital. All of our outstanding shares of capital stock constitute fixed capital. The issuance of variable-capital shares, unlike the issuance of fixed-capital shares, does not require an amendment of the bylaws, although it does require a majority vote of the AA Shares and the A Shares.

Forfeiture of shares. As required by Mexican law, our bylaws provide that any alien who at the time of incorporation or at any time thereafter acquires an interest or participation in the capital of the corporation shall be considered, by virtue thereof, as Mexican in respect thereof and shall be deemed to have agreed not to invoke the protection of his own government, under penalty, in case of breach of such agreement, of forfeiture to the nation of such interest or participation. Under this provision, a non-Mexican shareholder is deemed to have agreed not to invoke the protection of his own government by asking such government to interpose a diplomatic claim against the Mexican government with respect to the shareholder's rights as a shareholder, but is not deemed to have waived any other rights he may have,

Table of Contents

including any rights under the U.S. securities laws, with respect to his investment in Telmex. If the shareholder invokes such governmental protection in violation of this agreement, his shares could be forfeited to the Mexican government. Mexican law requires that such a provision be included in the bylaws of all Mexican corporations unless such bylaws prohibit ownership of shares by non-Mexican persons.

Exclusive jurisdiction. Our bylaws provide that legal actions relating to the execution, interpretation or performance of the bylaws shall be brought only in Mexican federal courts.

Duration. Telmex's existence under the bylaws is 100 years from the date of the public deed in which its incorporation is evidenced.

Purchase of our own shares. We may repurchase our shares on the Mexican Stock Exchange at any time at the then prevailing market price. Any such repurchase must be made in compliance with the policies established by the Board of Directors, and the amount of shares to be repurchased must be approved by the general ordinary shareholders' meeting. The shareholders' meeting approves the maximum amount of funds that may be used during the year for the repurchase of shares. The ordinary shareholders' meeting held on March 30, 2006 approved up to an additional P.15 billion to be used for share repurchases. Such funds may be used for the repurchase of shares through the Mexican Stock Exchange. In the event that we repurchase shares, our shareholders' equity will be reduced automatically in an amount equal to the assumed par value of each repurchased share. However, if repurchased shares are held as treasury stock, our capital stock will be reduced automatically in an amount equal to the assumed par value of each repurchased share, pending future sales thereof on the Mexican Stock Exchange or cancellation. Our capital stock is automatically increased upon the resale of such shares in an amount equal to their assumed par value. The economic and voting rights corresponding to repurchased shares may not be exercised during the period in which we own such shares, and such shares are not deemed to be outstanding for purposes of calculating any quorum or vote at any shareholders' meeting during such period.

Conflict of interest. Shareholders with conflicting interests with Telmex with respect to a transaction are required to abstain from deliberating and voting on the specific transaction. A shareholder that votes on a specific business transaction in which its interest conflicts with Telmex's may be liable for damages, but only if the transaction would not have been approved without its vote. A determination of conflicting interest would initially be made by the shareholder subject to judicial challenge. Mexican law does not provide extensive guidance on the criteria to be applied in making such a decision.

Appraisal rights. Whenever the shareholders approve a change of corporate purposes, change of nationality of the corporation or transformation from one type of company to another, any shareholder entitled to vote on such change that has voted against it may withdraw from Telmex and receive the book value attributable to its shares, provided it exercises its right within 15 days following the adjournment of the meeting at which the change was approved.

Rights of Shareholders

The protections afforded to minority shareholders under Mexican law are different from those in the United States and many other jurisdictions. The case law concerning fiduciary duties of directors has not been developed and has not been the subject of extensive judicial interpretation in Mexico, unlike many states in the United States where duties of care and loyalty elaborated by judicial decisions help to shape the rights of minority shareholders. Mexican civil procedure does not contemplate class actions, which permit shareholders in U.S. courts to bring actions on behalf of other shareholders. Shareholders cannot challenge corporate action taken at a shareholders' meeting unless they meet certain procedural requirements, as described above under *Shareholders' Meetings*. As a result of these factors, in practice it may be more difficult for our minority shareholders to enforce rights against us or our directors or controlling shareholders than it would be for shareholders of a U.S. company.

Table of Contents

Enforceability of Civil Liabilities

Telmex is organized under the laws of Mexico, and most of our directors, officers and controlling persons reside outside the United States. In addition, a substantial portion of our assets and their assets are located in Mexico. As a result, it may be difficult for investors to effect service of process within the United States on such persons. It may also be difficult to enforce against them, either inside or outside the United States, judgments obtained against them in U.S. courts, or to enforce in U.S. courts judgments obtained against them in courts in jurisdictions outside the United States, in any action based on civil liabilities under the U.S. federal securities laws. There is doubt as to the enforceability against such persons in Mexico, whether in original actions or in actions to enforce judgments of U.S. courts, of liabilities based solely on the U.S. federal securities laws.

CERTAIN CONTRACTS

We are party to concession agreements that authorize us to provide certain telecommunications services on specific terms. These are described in *Item 4. Information on the Company Mexican Operations Regulation*.

Our agreements with related parties are described in *Item 7. Major Shareholders and Related Party Transactions Related Party Transactions*.

EXCHANGE CONTROLS

Mexico has had a free market for foreign exchange since 1991, and the Mexican government has allowed the peso to float freely against the U.S. dollar since December 1994. There can be no assurance that the Mexican government will maintain its current foreign exchange policies. See *Item 3. Key Information Exchange Rates*.

TAXATION

The following summary contains a description of certain Mexican federal and U.S. federal income tax consequences of the acquisition, ownership and disposition of L Shares, A Shares, AA Shares, L Share ADSs, or A Share ADSs, but it does not purport to be a comprehensive description of all of the tax considerations that may be relevant to a decision to purchase, hold or sell shares or ADSs.

The Convention for the Avoidance of Double Taxation and the Prevention of Fiscal Evasion and a Protocol thereto between the United States and Mexico entered into force on January 1, 1994 and has been amended recently by an additional protocol that entered into force on July 3, 2003 (the Tax Treaty). The United States and Mexico have also entered into an agreement concerning the exchange of information with respect to tax matters.

This discussion does not constitute, and should not be considered as, legal or tax advice to holders. This discussion is for general information purposes only and is based upon the federal tax laws of Mexico (including the Mexican Income Tax Law and the Mexican Federal Tax Code) and the United States as in effect on the date of this Annual Report (including the Tax Treaty), which are subject to change, and such changes may have retroactive effect. Holders of shares or ADSs should consult their own tax advisers as to the Mexican, U.S. or other tax consequences of the purchase, ownership and disposition of shares or ADSs, including, in particular, the effect of any foreign, state or local tax laws.

Table of Contents

Mexican Tax Considerations

The following is a general summary of the principal consequences under the Mexican Income Tax Law (*Ley del Impuesto sobre la Renta*) and the rules and regulations thereunder, as currently in effect, of an investment in shares or ADSs by a holder that is not a resident of Mexico and that will not hold the shares or ADSs or a beneficial interest therein in connection with the conduct of a trade or business through a permanent establishment in Mexico (a nonresident holder).

For purposes of Mexican taxation, the definition of residency is highly technical and residency results in several situations. Generally, an individual is a resident of Mexico if he or she has established his or her home in Mexico, or if he or she has his or her center of interests in Mexico; a corporation is considered a resident if it is incorporated under the laws of Mexico or if it has established its headquarters in Mexico. However, any determination of residence should take into account the particular situation of each person or legal entity.

Tax Treaties

Provisions of the Tax Treaty that may affect the taxation of certain U.S. holders (as defined in *U.S. Federal Income Tax Considerations*) are summarized below.

The Mexican Income Tax Law has established procedural requirements for a nonresident holder disposing of his shares to be entitled to the benefits under any of the tax treaties to which Mexico is a party. These procedural requirements include the obligation to (i) prove tax treaty residence, and (ii) appoint a representative in Mexico for taxation purposes.

Payment of Dividends

Dividends, either in cash or in kind, paid with respect to the of L Shares, A Shares, AA Shares, L Share ADSs, or A Share ADSs will not be subject to Mexican withholding tax.

Taxation of Dispositions

Under current Mexican law and regulations, there is no basis for the Mexican tax authorities to impose taxes on income realized by a nonresident holder from a disposition of shares or ADSs, provided that (i) the transaction is carried out through (a) the Mexican Stock Exchange, (b) other securities exchanges or markets approved by the Mexican Ministry of Finance or (c) other securities exchanges or markets with ample securities trading that are located in countries with which Mexico has entered into an income tax treaty, such as the New York Stock Exchange, the Frankfurt Stock Exchange, NASDAQ and the *Mercado de Valores Latinoamericanos en Euros* (LATIBEX), and (ii) certain other requirements are met. In addition, income realized by a nonresident holder from tendering shares or ADSs pursuant to a public tender offer may be exempt from Mexican taxation, provided that certain requirements are met. Sales or other dispositions of shares or ADSs carried out in other circumstances generally are subject to Mexican tax, except to the extent that a nonresident holder is eligible for benefits under an income tax treaty to which Mexico is a party.

For nonresident corporations and individuals that do not meet the requirements mentioned above, proceeds obtained from the sale or disposition of shares will be subject to a 25% tax. Under certain circumstances, nonresident corporations and individuals, alternatively, may elect to pay a 20% tax on the profits obtained from the transaction.

Pursuant to the Tax Treaty, gains realized by a U.S. holder (as defined in *U.S. Federal Income Tax Considerations*) from the sale or other disposition of shares, even if the sale or disposition is not

Table of Contents

carried out under the circumstances described in the preceding paragraphs, will not be subject to Mexican income tax, provided that such U.S. holder owned less than 25% of the shares representing our capital stock (including ADSs), directly or indirectly, during the 12-month period preceding such disposition.

Gains realized by other nonresident holders that are eligible to receive benefits pursuant to other income tax treaties to which Mexico is a party may be exempt from Mexican income tax in whole or in part. Non-U.S. holders should consult their own tax advisers as to their possible eligibility under such treaties.

In other cases, nonresident holders will be subject to Mexican income tax on the sale or other disposition of shares or ADSs. Such nonresident holders should consult with their own tax advisers as to how Mexican income tax would apply to their circumstances.

Other Mexican Taxes

Under certain circumstances, a nonresident holder will not be liable for estate, inheritance or similar taxes with respect to its holdings of shares or ADSs. A gratuitous transfer of shares by a nonresident holder, however, may in certain circumstances result in the imposition of Mexican tax upon the recipient. There are no Mexican stamp, issue registration or similar taxes payable by a nonresident holder with respect to shares or ADSs.

U.S. Federal Income Tax Considerations

The following is a summary of certain U.S. federal income tax consequences to U.S. holders (as defined below) of the acquisition, ownership and disposition of shares or ADSs. The summary does not purport to be a comprehensive description of all of the tax consequences of the acquisition, ownership or disposition of shares or ADSs. The summary applies only to U.S. holders that will hold their shares or ADSs as capital assets and does not apply to special classes of U.S. holders such as dealers in securities or currencies, holders with a functional currency other than the U.S. dollar, holders of 10% or more of our voting shares (whether held directly or through ADSs or both), tax-exempt organizations, financial institutions, holders liable for the alternative minimum tax, securities traders electing to account for their investment in their shares or ADSs on a mark-to-market basis, and persons holding their shares or ADSs in a hedging transaction or as part of a straddle or conversion transaction.

For purposes of this discussion, a U.S. holder is a holder of shares or ADSs that is:

a citizen or resident of the United States of America;

a corporation organized under the laws of the United States of America or any state thereof; or

otherwise subject to U.S. federal income taxation on a net income basis with respect to the shares or ADSs.

Each U.S. holder should consult such holder's own tax adviser concerning the overall tax consequences to it of the ownership or disposition of shares or ADSs that may arise under foreign, state and local laws.

Table of Contents

Treatment of ADSs

In general, a U.S. holder of ADSs will be treated as the owner of the shares represented by those ADSs for U.S. federal income tax purposes. Deposits or withdrawals of shares by U.S. holders in exchange for ADSs will not result in the realization of gain or loss for U.S. federal income tax purposes. U.S. holders that withdraw any shares should consult their own tax advisers regarding the treatment of any foreign currency gain or loss on any pesos received in respect of such shares.

Taxation of Distributions

In this discussion, we use the term *dividends* to mean distributions paid out of our current or accumulated earnings and profits with respect to shares or ADSs. In general, the gross amount of any dividends will be subject to U.S. federal income taxation. Dividends will be paid in pesos and will be includible in the income of a U.S. holder in a U.S. dollar amount calculated by reference to the exchange rate in effect on the day that they are received by the U.S. holder in the case of shares or by the depository in the case of ADSs. U.S. holders should consult their own tax advisers regarding the treatment of foreign currency gain or loss, if any, on any pesos received by a U.S. holder or depository that are converted into U.S. dollars on a date subsequent to receipt. Subject to certain exceptions for short-term and hedged positions, the U.S. dollar amount of dividends received by an individual prior to January 1, 2011 with respect to the ADSs, L Shares and A Shares will be subject to taxation at a maximum rate of 15% if the dividends are *qualified dividends*. Dividends paid on the ADSs, L Shares and A Shares will be treated as *qualified dividends* if (i) we are eligible for the benefits of a comprehensive income tax treaty with the United States that the Internal Revenue Service has approved for the purposes of the *qualified dividend rules* and (ii) we were not, in the year prior to the year in which the dividend was paid, and are not, in the year in which the dividend is paid, a *passive foreign investment company*, or *PFIC*. The Tax Treaty has been approved for the purposes of the *qualified dividend rules*. In addition, based on our audited financial statements and relevant market and shareholder data, we believe that we were not treated as a *PFIC* for U.S. federal income tax purposes with respect to our 2004 or 2005 taxable years. In addition, based on our audited financial statements and our current expectations regarding the value and nature of our assets, the sources and nature of our income and relevant market and shareholder data, we do not anticipate becoming a *PFIC* for our 2006 taxable year.

The U.S. Treasury has announced its intention to promulgate rules pursuant to which holders of ADSs or common stock and intermediaries through whom such securities are held will be permitted to rely on certifications from issuers to establish that dividends are treated as *qualified dividends*. Because such procedures have not yet been issued, it is not clear whether we will be able to comply with them. *Holders of ADSs and common shares should consult their own tax advisers regarding the availability of the reduced dividend tax rate in light of their own particular circumstances.*

Dividends paid by us will not be eligible for the *dividends-received deduction* allowed to corporations under the U.S. Internal Revenue Code of 1986, as amended (the *Code*).

Distributions of additional shares or ADSs to U.S. holders with respect to their shares or ADSs that are made as part of a *pro rata distribution* to all of our shareholders generally will not be subject to U.S. federal income tax.

Taxation of Dispositions

A U.S. holder will recognize gain or loss on the sale or other disposition of the shares or ADSs in an amount equal to the difference between the U.S. holder's basis in such shares or ADSs (in U.S. dollars) and the amount realized on the disposition (in U.S. dollars, determined at the spot rate on the date of disposition if the amount realized is denominated in a foreign currency). Gain or loss realized by a

Table of Contents

U.S. holder on such sale or other disposition generally will be long-term capital gain or loss if, at the time of disposition, the shares or ADSs have been held for more than one year. The net amount of long-term capital gain recognized by an individual holder is taxed at a reduced rate. Such gain or loss generally will be treated as U.S. source gain or loss for U.S. foreign tax credit purposes.

Gain, if any, realized by a U.S. holder on the sale or other disposition of the shares or ADSs will be treated as U.S. source income for U.S. foreign tax credit purposes. Consequently, if a Mexican withholding tax is imposed on the sale or disposition of L Shares or A Shares, a U.S. holder that does not receive significant foreign source income from other sources may not be able to derive effective U.S. foreign tax credit benefits in respect of these Mexican taxes. U.S. holders should consult their own tax advisers regarding the application of the foreign tax credit rules to their investment in, and disposition of, L Shares or A Shares.

Exchange of Shares

A U.S. holder's exchange of A Shares for L Shares will not constitute a taxable event for U.S. federal income tax purposes. An exchanging U.S. holder will have a tax basis in the L Shares equal to the basis such holder had in the exchanged A Shares. An exchanging U.S. holder's holding period for the L Shares will include the holding period such U.S. holder had in the A Shares before such shares were exchanged.

A U.S. holder's exchange of L Shares for AA Shares, pursuant to the option to exchange in respect of such L Shares, will not constitute a taxable event for U.S. federal income tax purposes. An exchanging U.S. holder will have a tax basis in the AA Shares received equal to the basis such holder had in the exchanged L Shares. A U.S. holder's holding period for AA Shares received in such an exchange will include the holding period such U.S. holder had in the L Shares prior to such exchange.

Information Reporting and Backup Withholding

Dividends on, and proceeds from the sale or other disposition of, the shares or ADSs paid to a U.S. holder generally may be subject to the information reporting requirements of the Code and may be subject to backup withholding unless the holder:

establishes that it is a corporation or other exempt holder; or

provides an accurate taxpayer identification number on a properly completed Internal Revenue Service Form W-9 and certifies that no loss of exemption from backup withholding has occurred.

The amount of any backup withholding from a payment to a holder will be allowed as a credit against the U.S. holder's U.S. federal income tax liability and may entitle such holder to a refund, provided that certain required information is furnished to the Service.

U.S. Tax Consequences for Non-U.S. holders

Distributions. A holder of shares or ADSs that is, with respect to the United States, a foreign corporation or a nonresident alien individual (a non-U.S. holder) generally will not be subject to U.S. federal income or withholding tax on dividends received on shares or ADSs, unless such income is effectively connected with the conduct by the holder of a U.S. trade or business.

Table of Contents

Dispositions. A non-U.S. holder of shares or ADSs will not be subject to U.S. federal income or withholding tax on gain realized on the sale of shares or ADSs, unless:

such gain is effectively connected with the conduct by the holder of a U.S. trade or business; or

in the case of gain realized by an individual holder, the holder is present in the United States for 183 days or more in the taxable year of the sale and certain other conditions are met.

Information reporting and backup withholding. Although non-U.S. holders generally are exempt from backup withholding, a non-U.S. holder may be required to comply with certification and identification procedures in order to establish its exemption from information reporting and backup withholding.

CORPORATE GOVERNANCE PRACTICES

Pursuant to Section 303A.11 of the Listed Company Manual of the New York Stock Exchange (NYSE) and Rule 4350(a)(1) of the NASDAQ Stock Market, Inc. (NASDAQ) Marketplace Rules, we are required to provide a summary of the significant ways in which our corporate governance practices differ from those required for U.S. companies under the NYSE and NASDAQ listing standards.

The table below discloses the significant differences between our corporate governance practices and the NYSE and NASDAQ standards.

NYSE Standards	NASDAQ Standards	Our Corporate Governance Practices
<p>Director Independence. <i>Majority of board of directors must be independent. Controlled companies, which would include our company if we were a U.S. issuer, are exempt from this requirement. A controlled company is one in which more than 50% of the voting power is held by an individual, group or another company, rather than the public. §303A.01</i></p>	<p>Director Independence. <i>Majority of board of directors must be independent and directors deemed independent must be identified in a listed company's proxy statement (or annual report on Form 10-K or 20-F if the issuer does not file a proxy statement). Controlled companies, which would include our company if we were a U.S. issuer, are exempt from this requirement. A controlled company is one in which more than 50% of the voting power is held by an individual, group or another company, rather than the public. Rules 4350(c)(1) & (c)(5)</i></p>	<p>Director Independence. Pursuant to the Mexican Securities Market Law and our bylaws, our shareholders are required to appoint a Board of Directors of no more than 20 members, 25% of whom must be independent. Certain persons are per se non-independent, including insiders, control persons, major suppliers and any relatives of such persons. In accordance with the new Mexican Securities Market Law, our shareholders' meeting is required to make a determination as to the independence of our directors, though such determination may be challenged by the CNBV. There is no exemption from the independence requirement for controlled companies.</p>
<p>Executive Sessions. <i>Non-management directors must meet regularly in executive sessions without management. Independent directors should meet alone in an executive session at least once a year. §303A.03</i></p>	<p>Executive Sessions. <i>Independent directors must meet regularly in executive sessions at which only independent directors are present. Rule 4350(c)(2)</i></p>	<p>Executive Sessions. Our non-management directors have not held executive sessions without management in the past, and under our bylaws and applicable Mexican law, they are not required to do so.</p>

Table of Contents

NYSE Standards	NASDAQ Standards	Our Corporate Governance Practices
<p><i>Nominating/Corporate Governance Committee.</i> <i>Nominating/corporate governance committee of independent directors is required. The committee must have a charter specifying the purpose, duties and evaluation procedures of the committee. Controlled companies are exempt from these requirements. §303A.04</i></p>	<p><i>Nominating Committee.</i> <i>Director nominees must be selected, or recommended for the board's selection, either by a nominating committee comprised solely of independent directors or by a majority of independent directors. Each listed company also must certify that it has adopted a formal charter or board resolution addressing the nominations process. Controlled companies are exempt from this requirement. Rules 4350(c)(4)(A)-(B) & (c)(5)</i></p>	<p><i>Nominating Committee.</i> We currently do not have a nominating committee. We are not required to have a nominating committee. However, Mexican law requires us to have one or more committees that oversee the corporate governance function.</p> <p>We have an executive committee, an audit committee, a financial planning committee and a corporate practices committee, which together perform corporate governance functions.</p> <p>As a controlled company, we would be exempt from this requirement if we were a U.S. issuer.</p>
<p><i>Compensation Committee.</i> <i>Compensation committee of independent directors is required, which must evaluate and approve executive officer compensation. The committee must have a charter specifying the purpose, duties and evaluation procedures of the committee. Controlled companies are exempt from this requirement. §303A.05</i></p>	<p><i>Compensation Committee.</i> <i>CEO compensation must be determined, or recommended to the board for determination, either by a compensation committee comprised solely of independent directors or a majority of the independent directors and the CEO may not be present during voting or deliberations. Compensation of all other executive officers must be determined in the same manner, except that the CEO, and any other executive officers, may be present. Controlled companies are exempt from this requirement. Rules 4350(c)(3)(A)-(B) & (c)(5)</i></p>	<p><i>Compensation Committee.</i> We are not required to have a compensation committee. We have a corporate practices committee, which assists our Board of Directors in evaluating and compensating our senior executives. All of the members of the corporate practices committee are independent.</p> <p>As a controlled company, we would be exempt from this requirement if we were a U.S. issuer.</p>
<p><i>Audit Committee.</i> <i>Audit committee satisfying the independence and other requirements of Rule 10A-3 under the Exchange Act and the more stringent requirements under the NYSE standards is required. §§303A.06, 303A.07</i></p>	<p><i>Audit Committee.</i> <i>Audit committee satisfying the independence and other requirements of Rule 10A-3 under the Exchange Act and the more stringent requirements under the NASDAQ standards is required. Rule 4350(d)</i></p>	<p><i>Audit Committee.</i> We have an audit committee of three members. Each member of the audit committee is independent, as independence is defined under the Mexican Securities Market Law, and also meets the independence requirements of Rule 10A-3 under the U.S. Securities Exchange Act of 1934, as amended. Our audit committee operates primarily pursuant to (1) a written charter adopted by our Board of Directors and (2) Mexican law. For a detailed description of the duties of our audit committee, see <i>Item 6. Directors and Officers of Registrant Audit Committee.</i></p>

Table of Contents

NYSE Standards	NASDAQ Standards	Our Corporate Governance Practices
<p>Equity Compensation Plans. <i>Equity compensation plans require shareholder approval, subject to limited exemptions. §§303A.08 & 312.03</i></p> <p>Shareholder Approval for Issuance of Securities. <i>Issuances of securities (1) that will result in a change of control of the issuer, (2) that are to a related party or someone closely related to a related party, (3) that have voting power equal to at least 20% of the outstanding common stock voting power before such issuance or (4) that will increase the number of shares of common stock by at least 20% of the number of outstanding shares before such issuance require shareholder approval. §§312.03(b)-(d)</i></p> <p>Code of Business Conduct and Ethics. <i>Corporate governance guidelines and a code of business conduct and ethics is required, with disclosure of any waiver for directors or executive officers. The code must contain compliance standards and procedures that will facilitate the effective operation of the code. §303A.10</i></p> <p>Conflicts of Interest. <i>Determination of how to review and oversee related party transactions is left to the listed company. The audit committee or comparable body, however, could be considered the forum for such review and oversight. §307.00. Certain issuances of common stock to a related party require shareholder approval. §312.03(b)</i></p>	<p>Equity Compensation Plans. <i>Equity compensation plans require shareholder approval, subject to limited exemptions. Rule 4350(i)(1)(A)</i></p> <p>Shareholder Approval for Issuance of Securities. <i>Issuances of securities (1) that will result in a change of control of the issuer, (2) in connection with certain acquisitions of the stock or assets of another company or (3) in connection with certain transactions other than public offerings require shareholder approval. Rules 4350(i)(1)(B)-(D)</i></p> <p>Code of Business Conduct and Ethics. <i>Corporate governance guidelines and a code of business conduct and ethics is required, with disclosure of any waiver and the reasons for such waiver for directors or executive officers. The code must include an enforcement mechanism. Rule 4350(n)</i></p> <p>Conflicts of Interest. <i>Appropriate review of all related party transactions for potential conflict of interest situations and approval by an audit committee or another independent body of the board of directors of such transactions is required. Rule 4350(h)</i></p>	<p>Equity Compensation Plans. <i>Shareholder approval is expressly required under Mexican law for the adoption and amendment of an equity-compensation plan. Such plans should provide for equal treatment of all executives.</i></p> <p>Shareholder Approval for Issuance of Securities. <i>Mexican law and our bylaws require us to obtain shareholder approval of the issuance of equity securities. Treasury stock, however, may be issued by the Board of Directors without shareholder approval.</i></p> <p>Code of Business Conduct and Ethics. <i>We have adopted a code of ethics, which has been accepted by all of our directors and executive officers and other personnel. A copy of our code of ethics is available on our website: www.telmx.com.</i></p> <p>Conflicts of Interest. <i>In accordance with Mexican law and our bylaws, the audit committee must provide an opinion regarding any transaction with a related party that is outside of the ordinary course of business, which transactions must be approved by the Board of Directors. Pursuant to the new Mexican Securities Market Law, our Board of Directors will establish certain guidelines regarding related party transactions that do not require Board approval.</i></p>

Table of Contents

NYSE Standards	NASDAQ Standards	Our Corporate Governance Practices
<p>Solicitation of Proxies. <i>Solicitation of proxies and provision of proxy materials is required for all meetings of shareholders. Copies of such proxy solicitations are to be provided to NYSE. §§402.00 & 402.04</i></p>	<p>Solicitation of Proxies. <i>Solicitation of proxies and provision of proxy materials is required for all meetings of shareholders. Copies of such proxy solicitations are to be provided to NASDAQ. Rule 4350(g)</i></p>	<p>Solicitation of Proxies. We are not required under Mexican law to solicit proxies or provide proxy materials for meetings of shareholders. In accordance with Mexican law and our bylaws, we inform shareholders of all meetings by public notice, which states the requirements for admission to the meeting and provides a mechanism by which shareholders can vote by proxy. Under the deposit agreement relating to our ADSs, holders of our ADSs receive notices of shareholders meetings and, where applicable, instructions on how to vote at the shareholders meeting either in person or through a person having a proxy specifically designated by the shareholder. Under the new Mexican Securities Market Law, we will have to make available proxy materials.</p>
	<p>Peer Review. <i>A listed company must be audited by an independent public accountant that (i) has received an external quality control review by an independent public accountant (peer review) that determines whether the auditor s system of quality control is in place and operating effectively and whether established policies and procedures and applicable auditing standards are being followed or (ii) is enrolled in a peer review program and within 18 months receives a peer review that meets acceptable guidelines. Rule 4350(k)</i></p>	<p>Peer Review. Under Mexican law we must be audited by an independent public accountant that has received a quality control review as defined by the CNBV.</p>

Mancera, S.C., a member practice of Ernst & Young Global, our independent auditor, is not subject to peer review as such term is defined in Marketplace Rule 4350(k).

DOCUMENTS ON DISPLAY

We file reports, including annual reports on Form 20-F, and other information with the SEC pursuant to the rules and regulations of the SEC that apply to foreign private issuers. You may read and copy any materials filed with the SEC at its Public Reference Room at 100 F Street, N.E., Washington, D.C. 20549. You may obtain information on the operation of the Public Reference Room by calling the SEC at 1-800-SEC-0330. As a foreign private issuer, we have been required to make filings with the SEC by electronic means since November 2002. Any filings we make electronically will be available to the public over the Internet at the SEC s website at www.sec.gov and at our website at www.telmex.com. (This URL is intended to be an inactive textual reference only. It is not intended to be an active hyperlink to our website. The information on our website, which might be accessible through a hyperlink resulting from this URL, is not and shall not be deemed to be incorporated into this Annual Report.)

Table of Contents

Item 11. Quantitative and Qualitative Disclosures about Market Risk

EXCHANGE RATE AND INTEREST RATE RISKS

We are exposed to market risk from changes in currency exchange rates and changes in interest rates.

Exchange rate risk exists principally with respect to our indebtedness denominated in currencies other than Mexican pesos. As of December 31, 2005, indebtedness denominated in foreign currencies was P.83,059 million, of which P.81,978 million was denominated in U.S. dollars, P.497 million was denominated in Brazilian *reais* and P.584 million was denominated in other foreign currencies.

Interest rate risk exists principally with respect to our indebtedness that bears interest at floating rates. We had P.44,383 million of indebtedness bearing interest at floating rates at December 31, 2005. In 2002, we began entering into interest rate swaps under which we pay fixed-rate interest in pesos and receive floating-rate interest in pesos. In 2003, we began entering into U.S. dollar-denominated interest rate swaps under which we pay fixed-rate interest in U.S. dollars and receive floating-rate interest in U.S. dollars. See *Item 5. Operating and Financial Review and Prospects Hedging*.

We regularly assess our exposure and monitor opportunities to manage these risks, for example, through the use of financial instruments. From time to time we use financial instruments to manage our market risk exposures. Since late 2001, we have entered into hedging transactions with respect to our U.S. dollar-denominated indebtedness. We use these transactions, which may be foreign exchange forward exchange and option contracts, to hedge against changes in the exchange rate between the U.S. dollar and the Mexican peso. See *Item 5. Operating and Financial Review and Prospects Hedging*.

SENSITIVITY ANALYSIS DISCLOSURES

Exchange Rates

The potential loss in fair value of financial instruments held at December 31, 2005 that would have resulted from a hypothetical, instantaneous and unfavorable 10% change in currency exchange rates, taking into account our hedging transactions, would have been approximately P.1,299 million. Such a change in currency exchange rates would also have resulted in additional interest expense of approximately P.511 million per year, assuming no change in the principal amount of such indebtedness, reflecting the increased costs in pesos of servicing foreign currency indebtedness. This sensitivity analysis assumes an instantaneous unfavorable 10% change in exchange rates affecting the foreign currencies in which our indebtedness is denominated.

Interest Rates

The potential loss in fair market value of financial instruments held at December 31, 2005 that would have resulted from a hypothetical, instantaneous and unfavorable change of 100 basis points in the interest rate applicable to such financial instruments, taking into account our hedging transactions, would have been approximately P.2,354 million. This effect would be fully attributable to the impact of the interest rate change on fixed-rate financial assets and liabilities. A hypothetical, instantaneous and unfavorable change of 100 basis points in the interest rate applicable to floating-rate financial assets and liabilities held at December 31, 2005, taking into account our hedging transactions, would have resulted in additional interest expense of approximately P.542 million per year, assuming no change in the principal amount of such indebtedness. The above sensitivity analyses are based on the assumption of an unfavorable 100 basis point movement of the interest rates applicable to each homogeneous category of financial assets and liabilities. A homogeneous category is defined according to the currency in which

Table of Contents

financial assets and liabilities are denominated and assumes the same interest rate movement with each homogeneous category. As a result, interest rate risk sensitivity analysis may overstate the impact of interest rate fluctuations for such financial instruments, as consistently unfavorable.

Item 12. Description of Securities Other Than Equity Securities

Not applicable.

PART II

Item 13. Defaults, Dividend Arrearages and Delinquencies

None.

Item 14. Material Modifications to the Rights of Securities Holders and Use of Proceeds

None.

Item 15. Controls and Procedures

We have evaluated, with the participation of our chief executive officer and chief financial officer, the effectiveness of our disclosure controls and procedures as of December 31, 2005. There are inherent limitations to the effectiveness of any system of disclosure controls and procedures, including the possibility of human error and the circumvention or overriding of the controls and procedures. Accordingly, even effective disclosure controls and procedures can only provide reasonable assurance of achieving their control objectives. Based upon our evaluation, our chief executive officer and chief financial officer concluded that our disclosure controls and procedures were effective to provide reasonable assurance that information required to be disclosed by us in the reports that we file or submit under the Exchange Act is recorded, processed, summarized and reported within the time periods specified in the applicable rules and forms, and that it is accumulated and communicated to our management, including our chief executive officer and chief financial officer, as appropriate to allow timely decisions regarding required disclosure.

There has been no change in our internal control over financial reporting during 2005 that has materially affected, or is reasonably likely to materially affect, our internal control over financial reporting.

Item 16A. Audit Committee Financial Expert

Antonio del Valle Ruíz, the president of our audit committee and one of our alternate directors, has financial experience as required by the mandate of our audit committee. Our Board of Directors has determined that Mr. del Valle Ruíz is an audit committee financial expert. Mr. del Valle Ruíz, who studied accounting at the *Escuela Bancaria y Comercial*, acquired his expertise through his role as chief executive officer at various Mexican banks over the last 35 years. Mr. del Valle Ruíz is independent, as independence is defined under the Mexican Securities Market Law and the rules of the New York Stock Exchange and the NASDAQ Stock Market, Inc. that are applicable to foreign private issuers. See *Item 6. Directors and Officers of Registrant Audit Committee*.

Table of Contents**Item 16B. Code of Ethics**

We have adopted a code of ethics, as defined in Item 16B of Form 20-F. Our code of ethics applies to all our personnel, including our chief executive officer, chief financial officer, principal accounting officer and persons performing similar functions. Our code of ethics is available on our website at www.telmex.com. If we amend the provisions of our code of ethics that apply to our chief executive officer, our chief financial officer, our principal accounting officer and persons performing similar functions, or if we grant any waiver of such provisions, we will disclose such amendment or waiver on our website at the same address.

Item 16C. Principal Accountant Fees and Services**Audit and Non-Audit Fees**

The following table sets forth the fees billed to us by our independent auditors, Mancera, S.C., a member practice of Ernst & Young Global, an independent, registered public accounting firm, and by other Ernst & Young Global members during the fiscal years ended December 31, 2005 and 2004:

	Year ended December 31,	
	2005	2004
	(in thousands of constant pesos as of December 31, 2005)	
Audit fees	P. 53,395	P. 42,089
Audit-related fees	2,669	2,156
Tax fees	1,050	2,421
All other fees	510	991
Total fees	P. 57,624	P. 47,657

Audit fees in the above table are the aggregate fees billed in connection with the audit of our annual financial statements, the review of our interim financial statements and statutory and regulatory audits.

Audit-related fees in the above table are fees billed for services related to compliance with SEC requirements and review of reports on our operations submitted to Cofetel.

Tax fees in the above table are fees billed for tax compliance services.

All other fees in the above table are fees billed primarily related to the evaluation of the security of our information technology.

Audit Committee Approval Policies and Procedures

Our audit committee has established pre-approval policies and procedures for the engagement of our independent auditors for services. Such policies and procedures outline services that require specific approval on a case-by-case basis and general services that have been approved in advance by the audit committee, which include statutory and regulatory audits, tax compliance and evaluation of the security of our information technology. Prior to providing any services that require specific pre-approval, our independent auditor, together with our chief financial officer, will jointly present to the audit committee a request for approval of audit services, in which such persons confirm that the request complies with applicable rules.

Table of Contents**Item 16D. Exemptions from the Listing Standards for Audit Committees**

Not applicable.

Item 16E. Purchases of Equity Securities by the Issuer and Affiliated Purchasers

The following table provides information on L Shares purchased by our company and affiliated purchasers in 2005:

Year ended December 31, 2005	Total Number of L Shares Purchased ⁽¹⁾	Weighted Average Price Paid per L Share	Total Number of L Shares Purchased as Part of the Share Repurchase Program ⁽²⁾	Weighted Average Price Paid per L Share Purchased as Part of the Share Repurchase Program	Approximate Peso Value (in Thousands) of L Shares that May Yet Be Purchased Under the Share Repurchase Program ⁽³⁾
January 1-31	103,200,000	P. 10.41	103,200,000	P. 10.41	P. 7,323,819
February 1-28	171,000,000	10.90	115,000,000	10.92	6,063,469
March 1-31	98,568,600	10.48	98,568,600	10.48	5,028,589
April 1-30	148,800,000	9.48	115,600,000	9.46	9,935,320
May 1-31	177,026,600	9.66	123,000,000	9.67	8,745,347
June 1-30	126,433,400	10.11	118,160,000	10.10	7,528,029
July 1-31	143,880,000	10.41	119,380,000	10.40	6,285,899
August 1-31	224,338,100	10.33	170,338,100	10.31	4,522,722
September 1-30	120,653,280	10.64	120,653,280	10.64	3,233,726
October 1-31	157,934,700	11.01	157,934,700	11.01	1,477,922
November 1-30	147,310,700	11.48	147,310,700	11.48	9,785,424
December 1-31	261,476,600	12.65	188,476,600	12.61	P. 7,407,409
Total/Average	1,880,621,980	P. 10.74	1,577,621,980	P. 10.73	

- (1) We do not repurchase our L Shares other than through the share repurchase program. An aggregate of 303 million L Shares were purchased by our affiliated purchasers in 2005. These shares were purchased through open-market transactions.
- (2) We periodically repurchase our L Shares on the open market using funds authorized by our shareholders specifically for the repurchase of L Shares and A Shares by us at our discretion. On April 28, 2005, our shareholders authorized an additional P.6,000 million for the repurchase of L Shares and A Shares, and on November 28, 2005, our shareholders authorized an additional P.10,000 million for the repurchase of L Shares and A Shares.
- (3) This is the approximate peso amount available at the end of the period for purchases of both L Shares and A Shares pursuant to the share repurchase program. These are nominal figures and have not been restated for inflation.

REPORT OF INDEPENDENT REGISTERED PUBLIC ACCOUNTING FIRM

To the Stockholders of

Teléfonos de México, S.A. de C.V.

We have audited the accompanying consolidated balance sheets of Teléfonos de México, S.A. de C.V. and subsidiaries as of December 31, 2005 and 2004, and the related consolidated statements of income, changes in stockholders' equity and changes in financial position for each of the three years in the period ended December 31, 2005. These financial statements are the responsibility of the Company's management. Our responsibility is to express an opinion on these financial statements based on our audits.

We conducted our audits in accordance with the standards of the Public Company Accounting Oversight Board (United States of America). Those standards require that we plan and perform the audit to obtain reasonable assurance about whether the financial statements are free of material misstatement. We were not engaged to perform an audit of the Company's internal control over financial reporting. Our audit included consideration of internal control over financial reporting as a basis for designing audit procedures that are appropriate in the circumstances, but not for the purpose of expressing an opinion on the effectiveness of the Company's internal control over financial reporting. Accordingly we express no such opinion. An audit also includes assessing the accounting principles used and significant estimates made by management, as well as evaluating the overall financial statement presentation. We believe that our audits provide a reasonable basis for our opinion.

In our opinion, the financial statements referred to above present fairly, in all material respects, the consolidated financial position of Teléfonos de México, S.A. de C.V. and its subsidiaries at December 31, 2005 and 2004, and the consolidated results of their operations and changes in their financial position for each of the three years in the period ended December 31, 2005, in conformity with accounting principles generally accepted in Mexico, which differ in certain respects from those followed in the United States of America (see Note 19).

1. Description of the Business and Significant Accounting Policies*I. Description of the Business*

Teléfonos de México, S.A. de C.V. and its subsidiaries (collectively the Company or TELMEX) provide telecommunications services, primarily in Mexico. However, as a result of a number of business acquisitions throughout Latin America, starting in 2004, the Company also provides its services in Argentina, Brazil, Chile, Colombia and Peru.

TELMEX obtains its revenues primarily from telecommunications services, including, among others, domestic and international long-distance and local telephone services, data transmission to corporate networks and internet services, and the interconnection of the subscribers with cellular networks, as well as the interconnection of domestic long-distance operators , cellular telephone companies and local service operators networks with the TELMEX local network. The Company also obtains revenues from other activities related to its telephone operations, such as the sale of advertising in the published telephone directory and the sale of telephone equipment.

An analysis of the principal subsidiaries and affiliated companies of TELMEX at December 31, 2005 and 2004 is as follows:

Company	Country	Equity interest %	
		at December 31 2005	2004
Subsidiaries:			
Controladora de Servicios de Telecomunicaciones, S.A. de C.V.	Mexico	100.0	100.0

The amended Mexican government concession under which TELMEX operates was signed on August 10, 1990. The concession runs through the year 2026, but it may be renewed for an additional period of fifteen years. The concession defines, among other things, the quality standards for telephone service and establishes the basis for regulating rates.

Under this concession, the Company's basic telephone service rates are subject to a ceiling determined by the Federal Telecommunications Commission (COFETEL). During the last five years, TELMEX management decided not to raise its rates for basic services.

Empresa Brasileira de Telecomunicações S.A. (Embratel) provides domestic and international long-distance services, data transmission, among other services and Star One S.A. (Star One), a subsidiary of Embratel, provides satellite services. Both companies operate under two separate concessions granted by the Brazilian federal government via the Brazilian Telecommunications Agency (ANATEL). The concession for domestic and international long-distance services is in force through December 31, 2025 and may be renewed upon expiration. The concession for satellite use is in force through December 31, 2020 and may be renewed upon expiration.

The rest of the countries operate under concessions and government licenses.

II. Significant Accounting Policies

The accompanying consolidated financial statements were prepared in conformity with accounting principles generally accepted in Mexico. The significant accounting policies and practices followed in the preparation of the financial statements are described below:

Table of Contents

TELÉFONOS DE MÉXICO, S.A. DE C.V. AND SUBSIDIARIES

Notes to Consolidated Financial Statements

Years Ended December 31, 2005 and 2004

(In thousands of Mexican pesos with purchasing power at December 31, 2005)

a) Consolidation and basis of translation of financial statements of foreign subsidiaries

The consolidated financial statements include the accounts of Teléfonos de México, S.A. de C.V. and its subsidiaries. All the companies operate in the telecommunications sector or they provide services to companies operating in this sector.

The results of operations of acquired subsidiaries and affiliate were included in the Company's financial statements as of the month following the acquisition.

All significant intercompany accounts and transactions have been eliminated in consolidation. Minority interest refers to certain foreign subsidiaries in which the Company does not hold all of the shares.

The financial statements of the subsidiaries located abroad were translated into Mexican pesos, as follows:

The financial statements as reported by the subsidiaries abroad were adjusted to conform to accounting principles generally accepted in Mexico.

All balance sheet amounts, except for stockholders' equity, were translated at the prevailing exchange rate at year-end; stockholders' equity accounts were translated at the prevailing exchange rate at the time capital contributions were made and earnings were generated. The statement of income amounts were translated at the prevailing exchange rate at the end of the reporting period.

The translation into Mexican pesos is carried out after the related balances or transactions have been restated based on the inflation rate of the country in which the subsidiary operates.

Exchange differences and the monetary position effect derived from intercompany monetary items were not eliminated from the consolidated statements of income.

Translation differences are included in the caption *Effect of translation of foreign entities* and are included in stockholders' equity as part of the caption *Other comprehensive income items*.

The financial statements at December 31, 2004 of the subsidiaries abroad were restated to constant pesos as of December 31, 2005 based on the inflation rate in Mexico. The effect of inflation and exchange differences were immaterial.

b) Recognition of revenues

Revenues are recognized at the time services are provided and are subject to management's estimates at the date of the financial statements. Revenues from the sale of prepaid telephone service cards are recognized based on an estimate of the usage of time covered by the prepaid card.

Table of Contents

TELÉFONOS DE MÉXICO, S.A. DE C.V. AND SUBSIDIARIES

Notes to Consolidated Financial Statements

Years Ended December 31, 2005 and 2004

(In thousands of Mexican pesos with purchasing power at December 31, 2005)

Local service revenues are derived from new-line installation charges, monthly service fees, measured usage charges based on the number of calls made, and other service charges to subscribers. Local service revenues also include measured usage charges based on the number of minutes in the case of prepayment plans.

Revenues from domestic and international long-distance telephone services are determined on the basis of the duration of the calls and the type of service used. All these services are billed monthly, based on the rates authorized by the relevant regulatory bodies of each country. International long-distance service revenues also include the revenues earned under agreements with foreign telephone service providers or operators for the use of facilities in interconnecting international calls. These agreements specify the rates for the use of such international interconnecting facilities.

Revenues from prepaid internet plans are recorded as the service is provided.

c) Recognition of the effects of inflation on financial information

The Company recognizes the effects of inflation on financial information. Consequently, the amounts shown in the accompanying financial statements and in these notes are expressed in thousands of Mexican pesos with purchasing power at December 31, 2005. The December 31, 2005 restatement factors applied to the financial statements for the years ended December 31, 2004 and 2003 were 1.0333 and 1.0869, corresponding to the percentages of inflation for the periods from January 1 2005 and 2004 through December 31, 2005, respectively, based on the Mexican National Consumer Price Index (NCPI) published by Banco de México (the Central Bank).

Plant, property and equipment and construction in progress were restated as described in Note 4. Telephone plant and equipment are depreciated using the straight-line method based on the estimated useful lives of the related assets (see Note 4c).

Inventories for the operation of the telephone plant are valued at average cost and are restated on the basis of specific indexes. The stated value of inventories is similar to replacement value, not in excess of market.

Other non-monetary assets were restated using adjustment factors based on the inflation rate of each country.

Capital stock, premium on sale of shares, retained earnings and other accumulated comprehensive income items were restated using adjustment factors obtained from the NCPI.

The deficit from restatement of stockholders' equity consists of the accumulated monetary position loss at the time the provisions of Bulletin B-10 were first applied, which was P.14,044,319, and of the result from holding non-monetary assets, which represents the difference between restatement by the specific indexation method and restatement based on the NCPI. This item is included in stockholders' equity as part of the caption *Other comprehensive income items*.

Table of Contents

TELÉFONOS DE MÉXICO, S.A. DE C.V. AND SUBSIDIARIES

Notes to Consolidated Financial Statements

Years Ended December 31, 2005 and 2004

(In thousands of Mexican pesos with purchasing power at December 31, 2005)

The net monetary gain of each year is included in the statement of income as a part of the comprehensive financing cost. The net monetary gain represents the effect of inflation on monetary assets and liabilities.

The statement of changes in financial position is prepared in conformity with Mexican accounting Bulletin B-12, *Statement of Changes in the Financial Position*, based on financial statements expressed in constant pesos. Bulletin B-12 identifies the source and application of resources representing differences between beginning and ending financial statement balances in constant Mexican pesos. In conformity with this bulletin, monetary and foreign exchange gains and losses are not treated as non-cash items in the determination of resources provided by operating activities.

d) Cash equivalents, marketable securities and instruments available for sale

Cash equivalents consist basically of time deposits in financial institutions with original maturities of 90 days or less.

In April 2004, the Mexican Institute of Public Accountants (MIPA) issued amendments to Bulletin C-2, *Financial Instruments*. The adoption of Bulletin C-2 is compulsory beginning on January 1, 2005, although earlier adoption was recommended. Such amendments establish that, unlike the previous Bulletin C-2, changes in the fair value of instruments classified as available-for-sale are to be disclosed in stockholders' equity, until such instruments are sold.

The Company adopted the provisions of this new accounting pronouncement in 2004, which gave rise to a charge to stockholders' equity of P.1,141,668 in the caption *Other accumulated comprehensive income items*.

Marketable securities are represented by equity securities and corporate bonds for trading; instruments available for sale are represented by equity securities (see Note 2). Both are stated at market value. Changes in the fair value of marketable securities are recognized in results of operations.

e) Allowance for doubtful accounts

Company policy is to provide for doubtful accounts basically on the balance of accounts receivable more than 90 days old.

f) Equity investment in affiliates

The investment in shares of affiliates is valued using the equity method. This accounting method consists basically of recognizing the investor's equity interest in the results of operations and in the stockholders' equity of investees at the time such results are determined (see Note 6).

Table of Contents

TELÉFONOS DE MÉXICO, S.A. DE C.V. AND SUBSIDIARIES

Notes to Consolidated Financial Statements

Years Ended December 31, 2005 and 2004

(In thousands of Mexican pesos with purchasing power at December 31, 2005)

g) Goodwill

Goodwill represents the difference between the purchase price and the fair value of the net assets of subsidiaries and affiliates acquired at purchase date. As of January 1, 2005, the date on which Bulletin B-7 went into force, goodwill is no longer amortized, but rather is subject to periodic impairment valuations and adjustments. Through December 31, 2004, goodwill was amortized using the straight-line method over periods of 5 to 20 years (see paragraphs below).

h) Licenses

TELMEX records licenses at acquisition cost and restates them based on the inflation rate of each country. Licenses are amortized in conformity with the terms of each license over periods of 5 to 29 years.

i) Impairment of assets

Effective January 1, 2004, the Company adopted the requirements of Mexican accounting Bulletin C-15, *Accounting for the Impairment or Disposal of Long-Lived Assets*, issued by the MIPA in March 2003.

Bulletin C-15 establishes that if there are any indications of impairment in the value of long-lived assets, the recovery value of the related asset should be determined based on the asset's net selling price and its value in use computed based on discounted cash flow. An impairment loss is recognized if the net carrying amount of the asset exceeds the recovery value.

The application of this new pronouncement had no effect on the Company's results of operations or on its financial position.

j) Exchange differences

Transactions in foreign currency are recorded at the prevailing exchange rate on the day of the related transactions. Foreign currency denominated assets and liabilities are translated at the prevailing exchange rate at the balance sheet date. Exchange differences are charged or credited to income.

k) Labor obligations

Pension, seniority premium, medical assistance plan and termination costs are recognized periodically during the years of service of personnel, based on actuarial computations made by independent actuaries, using the projected unit-credit method (see Note 7). Through December 31, 2004, termination payments were charged to results of operations, if and when the expense was incurred (see paragraphs below).

Table of Contents

TELÉFONOS DE MÉXICO, S.A. DE C.V. AND SUBSIDIARIES

Notes to Consolidated Financial Statements

Years Ended December 31, 2005 and 2004

(In thousands of Mexican pesos with purchasing power at December 31, 2005)

l) Liability provisions

Liability provisions are recognized whenever (i) the Company has current obligations (legal or assumed) derived from past events, (ii) the liability will most likely give rise to a future cash disbursement for its settlement and (iii) the liability can be reasonably estimated.

When the effect of the time value of money is material, provision amounts are determined as the present value of the expected disbursements to settle the obligation. The discount rate is determined on a pre-tax basis and reflects current market conditions at the balance sheet date and, where appropriate, the risks specific to the liability. Where discounting is used, the increase in the provision is recognized as a financial expense.

Contingent liabilities are recognized only when they will most likely give rise to a future cash disbursement for their settlement. Also, commitments are only recognized when they will generate a loss.

m) Income tax and employee profit sharing

Deferred taxes are determined using the asset and liability method. Under this method, deferred tax assets and liabilities are determined on all temporary differences between the financial reporting and tax bases of assets and liabilities, applying the enacted income tax rate at the date of the financial statements, or the enacted income tax rate that will be in effect at the time the temporary differences giving rise to deferred tax assets and liabilities are expected to be recovered or settled.

The Company evaluates periodically the possibility of recovering deferred tax assets and, if necessary, creates a valuation allowance for those assets that are unlikely to be recovered.

Deferred employee profit sharing is recognized only on temporary items considered non-recurring with a known turnaround time.

n) Comprehensive income

In conformity with Mexican accounting Bulletin B-4, *Comprehensive Income*, issued by the MIPA, comprehensive income consists of current year net income plus the effects in the period of deferred taxes, labor obligations, the translation of financial statements of foreign entities, minority interest, the result from holding non-monetary assets, the changes in the fair value of instruments classified as available for sale and the effect of the swap valuation applied directly to stockholders' equity.

o) Earnings per share

The Company determined earnings per share by dividing majority net income by the weighted average number of shares issued and outstanding during the period. The diluted earnings per share was determined by adjusting earnings per share for the effect of the shares that may be delivered (potentially dilutive shares) (see Note 15), as specified in Mexican accounting Bulletin B-14, *Earnings per Share*.

Table of Contents

TELÉFONOS DE MÉXICO, S.A. DE C.V. AND SUBSIDIARIES

Notes to Consolidated Financial Statements

Years Ended December 31, 2005 and 2004

(In thousands of Mexican pesos with purchasing power at December 31, 2005)

p) Use of estimates

The preparation of financial statements in conformity with generally accepted accounting principles requires the use of estimates and assumptions in certain areas. Actual results could differ from these estimates.

q) Concentration of risk

The Company invests a portion of its surplus cash in time deposits in financial institutions with strong credit ratings. TELMEX does not believe it has significant concentrations of credit risks in its accounts receivable, as it has a broad customer base that is geographically diverse.

r) Segment information

Segment information is prepared based on information used by the Company in its decision making processes based on the geographical areas in which TELMEX operates, in conformity with the requirements of Mexican accounting Bulletin B-5, *Financial Information by Segment*, issued by the MIPA (see Note 18).

s) New accounting pronouncements

The following new pronouncements entered into force in 2005:

Business acquisitions

In May 2004, the MIPA issued Mexican accounting Bulletin B-7, *Business Acquisitions*. The adoption of Bulletin B-7 is compulsory beginning on January 1, 2005. Bulletin B-7 addresses the financial accounting and reporting for business and affiliate acquisitions and requires that all business combinations be accounted for using only the purchase method. Bulletin B-7 also eliminates the amortization of goodwill. In accordance with this new pronouncement, the acquisition of minority interest is considered as a transaction between entities under common control, and requires that any difference between the purchase price and the carrying value of the net assets acquired has to be recognized as an equity transaction.

The adoption of this new accounting pronouncement gave rise to a decrease of approximately P.191,000 in the Company's operating expenses for 2005, due to the proscription of the amortization of goodwill, and the benefit due to the reversal of negative goodwill of P.42,427 derived from AT&T assets acquired in 2004. Should the Company have adopted this new accounting pronouncement in 2004, net income for such period would have increased by P.158,785.

Table of Contents

TELÉFONOS DE MÉXICO, S.A. DE C.V. AND SUBSIDIARIES

Notes to Consolidated Financial Statements

Years Ended December 31, 2005 and 2004

(In thousands of Mexican pesos with purchasing power at December 31, 2005)

Derivative instruments and hedging activities

To protect itself against fluctuations in interest and exchange rates, the Company uses derivatives that have been classified as hedging derivatives at fair value (forwards) and cash flow hedges (interest-rate swaps). Through December 31, 2004, gains or losses on such contracts were charged or credited to income as incurred, and presented net of the loss or gain being hedged.

As of January 1, 2005, due to the adoption of new Bulletin C-10, *Accounting for Derivative Instruments and Hedging Activities*, issued by the MIPA in April 2004, the Company modified its accounting policies for valuing and recognizing hedges. Gains or losses resulting from changes in the fair value of hedges are charged or credited to income in the period in which they are incurred, together with the gains or loss of the hedged asset or liability.

For cash flow hedges, the effective portion of the derivative's gain or loss is reported in *Other accumulated comprehensive income items* in stockholders' equity while the ineffective portion of the gain or loss is reported in net income. The effectiveness of the derivatives is determined at the time when they are defined as derivatives. Hedges are considered to be highly effective when in the initial evaluation and during the hedging period, the fair value or cash flows of the hedged item are offset on a period-by-period or cumulative basis, as preferred, and include in the hedging documentation the changes in the fair value or cash flows of the derivative itself by a range of 80% and 125%. The adoption of this new Bulletin gave rise to a credit to income of P.125,872, and a credit to stockholders' equity of P.315,408, both net of deferred taxes. Should the Company have adopted this new accounting pronouncement in 2004, considering that the criterion for the recording of hedges would have been met, the net income for such period would have decreased by P.55,654.

Labor obligations

In January 2004, the MIPA issued the revised accounting Bulletin D-3, *Labor Obligations*. The revised bulletin establishes the overall rules for the valuation, presentation and disclosure of so-called other post-retirement benefits and the reduction and early extinguishment of such benefits, as well as rules applicable to employee termination pay. The adoption of these new rules was compulsory beginning on January 1, 2005. The adoption of this accounting pronouncement gave rise to an increase of P.139,520 in the Company's operating expenses for 2005 (see Note 7).

Pro forma financial data

The following pro forma financial data for 2004 is based on the Company's historical financial statements, adjusted to give effect to the new accounting pronouncements described above.

	Unaudited pro forma
	for the year ended
	December 31, 2004
Majority net income	P. 28,473,193
Earnings per share (in Mexican pesos):	
Basic	1.191
Diluted	1.187

Standard regulations of the Mexican Financial Information Standards Research and Development Board (Consejo Mexicano para la Investigación y Desarrollo de Normas de Información Financiera, A.C. or CINIF).

On January 1, 2006, the requirements of the CINIF went into effect and replace the standards previously issued by the MIPA. The adoption of these new rules will have no effect on the Company's financial statements.

t) Convenience translation

United States dollar amounts as of December 31, 2005 shown in the financial statements have been included solely for the convenience of the reader and are translated from Mexican pesos with purchasing power as of December 31, 2005, as a matter of mathematical computation only, at an exchange rate of P.10.7109 to U.S.\$ 1.00, the December 31, 2005 exchange rate. Such translations should not be construed as a representation that the Mexican peso amounts have been or could be converted into U.S. dollars at this or any other rate.

u) Reclassifications

Certain amounts in the 2004 financial statements as originally issued have been reclassified for uniformity of presentation with the 2005 financial statements.

2. Marketable Securities and Instruments Available for Sale

An analysis of the Company's investments in financial instruments at December 31, 2005 and 2004 is as follows:

	2005		2004	
	Cost	Market value	Cost	Market value
<i>Marketable securities</i>				
Shares	P. 420,478	P. 185	P. 640,536	P. 216,614
Corporate bonds	47,017	53,046	62,269	121,763
	467,495	53,231	702,805	338,377
<i>Instruments available for sale</i>				
MCI shares			7,153,690	6,012,021
Total	P. 467,495	P. 53,231	P. 7,856,495	P. 6,350,398

Marketable securities

At December 31, 2005, the net unrealized loss on marketable securities was P. 414,264 (P. 364,428 in 2004). The realized loss on the sale of shares in 2005 was P. 68,334 (P. 1,435,723 in 2004 and P.713,469 in 2003). The realized gain on the exchange and sale of bonds in 2005 was P. 11,095.

On April 21, 2004, the Company converted P. 7,153,690 (USD 597.9 million) (market value) in bonds issued by MCI Inc. (MCI) (nominal amount of USD 1,759 million) to 25.6 million common MCI shares, which were classified as available for sale. MCI is a U.S.-based telecommunications company that recently emerged from Chapter 11 proceedings under the U.S. bankruptcy code. In 2004, the conversion of MCI bonds gave rise to a realized gain of P. 2,083,009 that was recognized in comprehensive financing cost and which corresponds to the difference between the original cost and the market value of the bonds at the time of their conversion.

Table of Contents**TELÉFONOS DE MÉXICO, S.A. DE C.V. AND SUBSIDIARIES****Notes to Consolidated Financial Statements**

Years Ended December 31, 2005 and 2004

(In thousands of Mexican pesos with purchasing power at December 31, 2005)

Instruments available for sale

On April 9, 2005, TELMEX and other related parties entered into an agreement to sell their MCI shares to Verizon Communications Inc. (Verizon). On May 17, 2005, Verizon paid USD 25.72 in cash per share of MCI common stock, for a total purchase price of P. 7,827,033. Also, TELMEX stood to receive from Verizon an additional cash payment provided that Verizon's share price exceeded USD 35.52 for a specific period of time, which ended prior to April 9, 2006; TELMEX did not receive any cash as Verizon's share price did not exceed that price in such period. In 2005, TELMEX recognized a gain of P. 501,354 as a result of the sale of these shares, which was recognized in Comprehensive financing cost.

In 2005 and 2004, TELMEX received dividends from MCI of P. 118,741 and P. 243,030, respectively, which were recognized in the caption *Comprehensive financing cost*.

3. Accounts Receivable

An analysis of accounts receivable is as follows:

	2005	2004
Customers	P.31,440,845	P.34,998,753
Net settlement receivables	2,367,194	2,289,448
Related parties	368,895	322,998
Other	2,467,735	5,598,354
	36,644,669	43,209,553
Less:		
Allowance for doubtful accounts	7,559,923	12,098,186
Total	P.29,084,746	P.31,111,367

An analysis of activity in the allowance for doubtful accounts for the years ended December 31, 2005, 2004 and 2003 is as follows:

	2005	2004	2003
Beginning balance at January 1	P.12,098,186	P.2,383,453	P.2,094,523
Effect of translation	517,965		
	12,616,151	2,383,453	2,094,523
Effect of acquired companies	4,596	9,785,478	
Increase through charge to expenses	2,629,458	1,914,171	1,051,492
Increase through charge to other accounts		614,139	440,919
Monetary loss	(149,440)	(491,887)	(87,886)
Charges to allowance ⁽¹⁾	(7,540,842)	(2,107,168)	(1,115,595)
Ending balance at December 31	P.7,559,923	P.12,098,186	P.2,383,453

(1) In 2005 corresponds primarily to charges made by Embratel.

(In thousands of Mexican pesos with purchasing power at December 31, 2005)

4. Plant, Property and Equipment

(a) Plant, property and equipment consist of the following:

	2005	2004
Telephone plant and equipment	P.328,376,010	P.327,735,942
Land and buildings	43,598,783	42,539,602
Computer equipment and other assets	56,512,748	55,538,298
	428,487,541	425,813,842
Less:		
Accumulated depreciation	286,522,446	273,358,263
Net	141,965,095	152,455,579
Construction in progress and advances to equipment suppliers	8,611,676	3,929,679
Total	P.150,576,771	P.156,385,258

Constructions in progress increased from 2004 to 2005 primarily due to new construction in Embratel and Star One.

Embratel's construction in progress refers to new projects to expand its telephone plant. Accumulated costs of such projects at December 31, 2005 aggregate P. 2,736,658. These projects are scheduled to be completed and transferred to the plant during the first half of 2006.

Star One increased its constructions in progress by P. 1,496,452 due to its commencing construction of satellite C-2 in 2005 and the increase in the investment in progress of satellite C-1; satellites C-2 and C-1 are scheduled to enter into orbit in 2007 and 2006, respectively. The total amount of these contracts is P. 4,360,407 and the balance of these projects recorded in constructions in progress at December 31, 2005 aggregates P. 2,759,268.

Included in plant, property and equipment are the following assets held under capital leases:

	2005	2004
Assets under capital leases	P.3,165,354	P.4,318,019
Less accumulated depreciation	1,321,551	1,522,928
	P.1,843,803	P.2,795,091

b) Through December 31, 1996, items comprising the telephone plant were restated based on the acquisition date and cost, applying the factors derived from the specific indexes determined by the Company and validated by an independent appraiser registered with the National Banking and Securities Commission (CNBV).

Table of Contents**TELÉFONOS DE MÉXICO, S.A. DE C.V. AND SUBSIDIARIES****Notes to Consolidated Financial Statements**

Years Ended December 31, 2005 and 2004

(In thousands of Mexican pesos with purchasing power at December 31, 2005)

Effective January 1, 1997, Bulletin B-10 eliminated the use of appraisals for the restatement of plant, property and equipment. At December 31, 2005 and 2004, this caption was restated in each country, as follows:

The December 31, 1996 appraised value of the imported telephone plant, as well as the cost of subsequent additions to such plant, were restated based on the rate of inflation in the respective country of origin and the prevailing exchange rate at the balance sheet date (specific indexation factors).

The appraised value of land, buildings and other fixed assets of domestic origin at December 31, 1996, and the cost of subsequent additions to such assets were restated based on the NCPI.

At December 31, 2005, approximately 60% (61% in 2004) of the value of the plant, property and equipment has been restated using specific indexation factors.

c) Depreciation of the telephone plant has been calculated at annual rates ranging from 3.3% to 16.7%. The rest of the Company's assets are depreciated at rates ranging from 3.3% to 33.3%. Depreciation charged to expenses was P. 23,527,412 in 2005, P. 23,355,040 in 2004 and P.22,279,384 in 2003.

5. Licenses

An analysis of licenses and its amortization at December 31, 2005 and 2004 is as follows:

	2005	2004
Investment	P. 5,455,661	P. 4,355,102
Accumulated amortization	1,411,532	394,998
Net	P. 4,044,129	P. 3,960,104

TELMEX has concessions to operate radio spectrum wave frequency bands to provide fixed wireless telephone services and to operate radio spectrum wave frequency bands for point-to-point and point-to-multipoint microwave communications at a cost of P. 890,943.

In 2004, as a result of the Company's acquisition of foreign entities, TELMEX acquired software licenses and licenses for use of point-to-point and point-to-multipoint links.

Table of Contents**TELÉFONOS DE MÉXICO, S.A. DE C.V. AND SUBSIDIARIES****Notes to Consolidated Financial Statements**

Years Ended December 31, 2005 and 2004

(In thousands of Mexican pesos with purchasing power at December 31, 2005)

An analysis of changes in this item in 2005, 2004 and 2003 is as follows:

	Balance at January 1, 2005	Effect of translation	Effect of acquired companies	Investment and amortization of the year	Balance at December 31, 2005

I. Investments in affiliates

An analysis of the equity investment in affiliated companies at December 31, 2005 and 2004, and a brief description is as follows:

	2005	2004
Equity investments in:		
Grupo Telvista, S.A. de C.V.	P. 381,157	P. 398,806
Technology and Internet, LLC		203,522
Net Serviços de Comunicação S.A.	230,344	
Other	192,601	217,698
	P. 804,102	P. 820,026

Grupo Telvista (Mexico and U.S.)

TELMEX holds 45% of the capital stock of Grupo Telvista, S.A. de C.V., whose principal asset is Telvista, Inc. that provides telemarketing services in the U.S.A. In June 2004, the Company made a capital contribution to this company of P.54,530 so as to maintain its historical percentage equity interest.

Technology and Internet (U.S. and Latin America)

On June 21, 2005, the Company sold its 50% equity interest in Technology and Internet LLC to Grupo Condumex, S.A. de C.V., an entity under common control, for P. 43,446, which is lower than book value. Such sale gave rise to a charge of P. 97,304 to stockholders' equity.

Net (Brazil)

In 2005 and in accordance with the agreements entered into by and between TELMEX and Globo Comunicações e Participações S.A., Distel Holding S.A. and Roma Participações Ltda. (together, Globo), TELMEX acquired an equity interest in Net Serviços de Comunicação S.A. (Net), which is the largest cable television operator in Brazil.

The total cost of these transactions was P. 3,782,290 (USD 326.3 million). The Company's total direct and indirect equity interest in Net was 37.1%, which was transferred to Embratel as described below in Investments in subsidiaries.

On May 18, 2006, Embratel acquired (i) in exchange for R\$240.9 million, an additional 5.0% interest in Net from Globo Comunicações e Participações S.A. and one of its subsidiaries, thereby raising the total direct and indirect equity interest of Embratel in Net to 42.1%, and (ii) in exchange for R\$69.3 million, the rights of Globo Comunicações e Participações S.A. to acquire additional shares of Net which, when exercised by Embratel on June 19, 2006, will give Embratel an additional interest of up to 1.0% in Net (depending on the exercise of preemptive rights by Net's remaining shareholders).

Table of Contents**TELÉFONOS DE MÉXICO, S.A. DE C.V. AND SUBSIDIARIES****Notes to Consolidated Financial Statements**

Years Ended December 31, 2005 and 2004

(In thousands of Mexican pesos with purchasing power at December 31, 2005)

Total equity investments in affiliated companies during 2003 aggregated P.36,763 (USD 3 million), mostly engaged in telecommunications companies.

TELMEX's equity interest in the results of operations of affiliated companies represented a credit to operations of P. 64,852 in 2005 (charges of P. 118,681 and P. 194,224 in 2004 and 2003, respectively).

2Wire (USA)

In December 2005, through an agreement with TELMEX and Alcatel USA (Alcatel) and SBC International, Inc. (AT&T), the Company agreed to invest in 2Wire, Inc. (2Wire), a broadband platform service provider for homes and small offices, located in the U.S. 2Wire provides internet, telephone and entertainment services for broadband applications. TELMEX will acquire an 18.5% equity interest in 2Wire for USD 87.8 million, and AT&T will pay TELMEX USD 26.05 million to acquire, through a prepaid call option, a 5.5% equity interest in 2Wire in the future, under certain terms and conditions. On January 27, 2006, the closing of the aforementioned transaction took place.

An analysis of goodwill at December 31, 2005, 2004 and 2003 is as follows:

	2005	2004	2003
Beginning balance	P. 3,908,870	P. 88,949	P. 197,811
Negative goodwill charged to income	42,427

(1) The figures of Techtel are presented at book value.

(2) This is the weighted average of the 80% and 95% equity interest acquired of Techtel and Metrored, respectively.

TELMEX determined the fair value of fixed assets by means of appraisals performed by independent experts and the estimate of their value in use.

Embrapar and Embratel (Brazil)

In July 2004, through an agreement between MCI and TELMEX, the Company acquired for P. 4,655,967 (USD400 million) all of MCI's direct and indirect holdings in Startel Participações Ltda and New Startel Participações Ltda, the controlling shareholders of Embratel Participações S.A. (Embrapar), representing 51.8% of the voting shares and 19.3% of total outstanding shares of Embrapar. In December 2004 TELMEX,

Edgar Filing: TELEFONOS DE MEXICO S A DE C V - Form 20-F

through a public offering of P. 3,161,239 (USD 271.6 million), acquired an additional 14.3% interest in Embrapar, increasing its ownership to 90.3% of the voting shares and to 33.6% of total outstanding shares of Embrapar. Embrapar, in turn, holds 98.8% of the capital stock of Embratel.

F-24

Table of Contents

TELÉFONOS DE MÉXICO, S.A. DE C.V. AND SUBSIDIARIES

Notes to Consolidated Financial Statements

Years Ended December 31, 2005 and 2004

(In thousands of Mexican pesos with purchasing power at December 31, 2005)

Chilesat (Chile)

In April 2004, TELMEX acquired in a private transaction a 40% interest in Chilesat Corp. S.A. (Chilesat) for P. 612,399 (USD 47 million). Chilesat provides telecommunications services primarily in Chile. Pursuant to a cash tender offer required by Chilean law, in June 2004 TELMEX purchased for P. 904,445 (USD 67 million) an additional 59.3% interest, increasing its ownership of Chilesat to 99.3%.

Techtel (Argentina)

In April 2004, Telmex acquired an 80% equity interest in Techtel-LMDS Comunicaciones Interactivas, S.A. and Telstar (Techtel), which provide telecommunication services in Argentina and Uruguay. A 60% equity interest was acquired from América Móvil, S.A. de C.V. (América Móvil) for P. 872,994 (USD 75 million), and the remaining 20% equity interest was acquired from Intelec, S.A. for P. 290,998 (USD 25 million). Since TELMEX and América Móvil are entities under common control, the excess of the cost over the book value was charged to stockholders' equity.

Metrored (Argentina)

In June 2004, TELMEX acquired most of the assets of Metrored, a company engaged in providing telecommunications services in Argentina. The purchase price was P. 140,051 (USD 12 million).

AT&T Latin America Corp. assets (Argentina, Brazil, Chile, Colombia and Peru)

In February 2004, TELMEX acquired most of the assets of AT&T Latin America Corp., a company engaged in providing telecommunications services to companies in Argentina, Brazil, Chile, Colombia and Peru. The purchase price was P. 2,284,203 (USD 196.3 million).

Pro Forma Financial Data

The following pro forma unaudited combined financial data for 2004 and 2003 are based on the Company's historical financial statements, adjusted to give effect to (i) the series of acquisitions mentioned in the preceding paragraphs; and (ii) certain accounting adjustments related to the net fixed assets of the acquired companies.

The pro forma adjustments assume that acquisitions were made at the beginning of 2004 and the immediately preceding year and are based upon available information and other assumptions that management believes are reasonable.

The pro forma financial information data does not purport to represent what the effect on the Company's consolidated operations would have been had the transactions in fact occurred at the beginning of each year, nor are they intended to predict the Company's results of operations.

(In thousands of Mexican pesos with purchasing power at December 31, 2005)

	Unaudited Pro forma combined	
	TELMEX	
	for the years ended December 31	
	2004	2003
Operating revenues	P. 164,731,185	P. 166,624,360
Majority net income	28,493,164	24,803,522
Earnings per share (in Mexican pesos):		
Basic	1.192	0.996
Diluted	1.188	0.969

Investments in 2005*Embrapar (Brazil)*

From March through May 2005, TELMEX contributed P. 6,959,322 (USD 611.5 million) for the capital increase of its subsidiary Embratel Participações S.A. (Embrapar), increasing its ownership to 95.1% of the voting shares and 63.9% of total outstanding shares (90.3% and 33.6%, respectively, at December 31, 2004). Minority shareholders contributed P. 1,011,037 (USD 88 million) during the same period, giving rise to an increase in stockholders' equity.

On October 24, 2005, TELMEX contributed all the capital stock of Telmex do Brasil Ltda. (Telmex do Brasil) to Embrapar and its 37.1% investment in the capital stock of Net, increasing its ownership in Embrapar to 97.3% of the voting shares and 72.3% of total outstanding shares. The transaction was carried through the merger of Atlantis Holdings do Brasil and Latam do Brasil Participações S.A.; such companies previously held the capital stock of Telmex do Brasil and Net, respectively. Such transaction gave rise to a favorable effect per dilution of P.1,109,305, which was recognized in majority stockholders' equity.

Primesys (Brazil)

In November 2005, Embratel purchased from Portugal Telecom do Brasil S.A. all the shares of Primesys Soluções Empresariais S.A (Primesys) for P.1,148,453 (R\$250.8 million). Primesys provides value-added services in Brazil, such as communication solutions and outsourcing.

Goodwill generated on the aforementioned acquisition is subject to change, since the Company has not concluded the determination of the fair value of acquired assets and liabilities.

Techtel (Argentina)

On June 23, 2005, TELMEX exercised its right to acquire from Intelec, S.A. additional equity interest of approximately 10% in Techtel for P. 165,964 (USD 15 million), increasing its equity interest to 93.4% (83.4% at December 31, 2004). On December 27, 2005, TELMEX acquired from Intelec the remaining 6.6% equity interest in Techtel for P. 108,426 (USD 10 million).

Such amounts were higher than the book value of the shares acquired, giving rise to a charge of P. 274,390 to stockholders' equity.

Subsequent events		

CANTV (Venezuela)

On April 3, 2006, TELMEX and América Móvil announced that through an equally-owned joint venture (the joint venture) they have entered into an agreement with Verizon to acquire Verizon's equity interest in Compañía Anónima Nacional Teléfonos de Venezuela (CANTV) for an aggregate purchase price of USD676.6 million in cash. The purchase price represents USD3.01 per ordinary CANTV share held by Verizon (or USD21.10 per CANTV American Depositary Share held by Verizon, each of which represents seven ordinary CANTV shares). The joint venture will acquire Verizon's equity stake in CANTV indirectly through the purchase of a Verizon subsidiary holding company that holds all the CANTV ordinary shares and American Depositary Shares (ADSs) owned by Verizon. Verizon's equity stake in CANTV represents approximately 28.51% of the outstanding capital stock of CANTV. CANTV is the leading provider of telecommunications services in Venezuela.

The purchase is subject to regulatory approvals and other conditions. As required by Venezuelan law, following the closing of the purchase of Verizon's equity interest in CANTV, the joint venture will, subject to receipt of regulatory approvals, offer to purchase the remaining outstanding shares of CANTV at the Bolivar equivalent, based on the Official Exchange Rate, of the price per share paid to Verizon and the ADSs at the same price per ADS paid to Verizon.

Embrapar (Brazil)

On May 8, 2006, TELMEX announced a cash tender offer for all outstanding publicly held common and preferred shares of Embrapar (272.5 million shares as of March 31, 2006). The price will be R\$6.95 per each 1,000 shares, plus indexation through the settlement of the tender offer. TELMEX will commence the offer by publishing a notice of tender offer in Brazil, after the Brazilian stock exchange regulator approves the registration of the tender offer.

7. Labor Obligations

Mexico - Pensions and seniority premiums

Substantially all of the Company's employees are covered under defined benefit retirement and seniority premium plans.

Pension benefits are determined on the basis of compensations of employees in their final year of employment, their seniority and their age at the time of retirement.

TELMEX has set up an irrevocable trust fund and adopted the policy of making annual contributions to such fund, which totaled P. 59,096 in 2005 and P. 1,703,980 in 2004 and P.8,690,847 in 2003. These contributions are deductible for Mexican corporate income tax purposes.

The transition liability, past services and variances in assumptions are being amortized over a period of 12 years, which is the estimated average remaining working lifetime of Company employees.
