CHICOPEE BANCORP, INC. AND SUBSIDIARIES

Notes to Unaudited Consolidated Financial Statements

At and for the Six Months Ended June 30, 2008 and 2007

1. Basis of Presentation

Chicopee Bancorp, Inc. (the Corporation) has no significant assets other than all of the outstanding shares of its wholly-owned subsidiaries, Chicopee Savings Bank (the Bank) and Chicopee Funding Corporation (collectively, the Company). The Corporation was formed on March 14, 2006 by the Bank to become the holding company for the Bank upon completion of the Bank s conversion from a mutual savings bank to a stock savings bank. The conversion of the Bank was completed on July 19, 2006. The accounts of the Bank include both of its wholly-owned subsidiaries. The Consolidated Financial Statements of the Company as of June 30, 2008 and for the periods ended June 30, 2008 and 2007 included herein are unaudited. In the opinion of management, all adjustments, consisting only of normal recurring adjustments necessary for a fair presentation of the financial condition, results of operations, changes in stockholders equity and cash flows, as of and for the periods covered herein, have been made. These financial statements should be read in conjunction with the consolidated financial statements and notes thereto for the year ended December 31, 2007 included in the Company s Annual Report on Form 10-K.

The results for the three and six month interim periods covered hereby are not necessarily indicative of the operating results for a full year.

2. Earnings Per Share

Basic earnings per share represents income available to common stockholders divided by the adjusted weighted-average number of common shares outstanding during the period. The adjusted outstanding common shares equals the gross number of common shares issued less treasury shares, unallocated shares of the Chicopee Savings Bank Employee Stock Ownership Plan (ESOP) and nonvested restricted stock awards under the 2007 Equity Incentive Plan. Diluted earnings per share reflects additional common shares that would have been outstanding stock options and certain stock awards and are determined using the treasury stock method. On July 26, 2007, the Company granted stock options and stock awards under the Company s 2007 Equity Incentive Plan. The total number of stock options available for grant under the plan is 743,936, of which 693,267 were granted, and the total number of stock awards granted under the plan is 297,574.

Earnings per share is computed as follows:

		Fhree Months Ended June 30, 2008Six Months I 2008			onths Ended June 3 2007			
Net income (in thousands)	\$	128	\$	590	\$	317	\$	1,144
Weighted average number of common shares issued	7,4	39,368	7,4	39,368	7,4	439,368	7,4	439,368
Less: average number of treasury shares	(5	77,133)			(4	432,998)		
Less: average number of unallocated ESOP shares	(5	35,635)	(5	558,174)	(:	535,635)	(5	558,174
Less: average number of nonvested restricted stock awards	(2	97,574)			(2	297,574)		
Adjusted weighted average number of common shares outstanding	6,0	29,026	6,8	381,194	6,	173,161	6,8	381,194
Plus: dilutive nonvested restricted stock awards		41,214				35,790		
Weighted average number of diluted shares outstanding	6.0	70,240	6.8	381,194	6.	208,951	6.8	381,194
6	- , -	, -	- , -	. , .	- ,)	- , -	,.
Net income per share:								
Basic	\$	0.02	\$	0.09	\$	0.05	\$	0.17
Diluted	\$	0.02	\$	0.09	\$	0.05	\$	0.17
There were 666.667 stock options that were not included in the diluted	earning	s per share	for the t	hree and si	x month	s ended Jur	ne 30, 20	08

There were 666,667 stock options that were not included in the diluted earnings per share for the three and six months ended June 30, 2008 because their effect is anti-dilutive.

3. Equity Incentive Plan Stock Options

Under the Company s 2007 Equity Incentive Plan, the Company may grant options to directors, officers and employees for up to 743,936 shares of common stock. Both incentive stock options and non-qualified stock options may be granted under the Plan. The exercise price for each option is equal to the market price of the Company s stock on the date of grant and the maximum term of each option is ten years. The vesting period is five years from the date of grant. The Company recognizes compensation expense over the vesting period, based on the grant-date fair value of the options granted. The fair value of each option grant is estimated on the date of grant using the Black-Scholes option-pricing model.

A summary of options under the Plan as of June 30, 2008, and changes during the six months then ended, is as follows:

	Shares	-	ted Average ccise Price	Weighted Average Remaining Contractual Term (in years)	Aggregate Intrinsic Value
Outstanding at December 31, 2007	693,267	\$	14.29	9.50	
Granted					
Exercised					
Forfeited or expired	26,600		14.29	9.33	
Outstanding at June 30, 2008	666,667	\$	14.29	9.00	\$
Exercisable at June 30, 2008		\$			\$

For the six months ended June 30, 2008, share based compensation expense applicable to the plan was \$261,000 and the related tax benefit was \$91,000. No options have vested as of June 30, 2008 and no options were granted prior to July 1, 2007. As of June 30, 2008, unrecognized stock-based compensation expense related to nonvested options amounted to \$2.1 million. This amount is expected to be recognized over a period of 4 years.

Stock Awards

Under the Company s 2007 Equity Incentive Plan, the Company may grant stock awards to its directors, officers and employees for up to 297,574 shares of common stock. The stock awards vest 20% per year. The fair market value of the stock awards, based on the market price at the date of grant, is recorded as unearned compensation. Unearned compensation is amortized over the applicable vesting period. The Company recorded compensation cost related to stock awards of approximately \$419,000 and \$146,000 of related tax benefit in the six months ended June 30, 2008. No stock awards have vested as of June 30, 2008 and no stock awards were granted prior to July 1, 2007. As of June 30, 2008, unrecognized stock-based compensation expense related to nonvested restricted stock awards is expected to be recognized over a period of 4 years.

A summary of the status of the Company s stock awards as of June 30, 2008, and changes during the six months ended June 30, 2008, is as follows:

Nonvested Shares	Shares	A ^r Gra	eighted verage ant-Date ar Value
Balance at December 31, 2007	297,574	\$	14.29
Granted			
Vested			
Forfeited	4,136		14.29
Balance at June 30, 2008	293,438	\$	14.29

4. Recent Accounting Pronouncements

In December 2007, the Financial Accounting Standards Board (FASB) issued Statement of Financial Accounting Standards (SFAS) No. 160, Noncontrolling Interests in Consolidated Financial Statements an amendment of ARB No. 51. SFAS No. 160 amended Accounting Research Bulletin No. 51 to establish accounting and reporting standards for the noncontrolling interest in a subsidiary and for the deconsolidation of a subsidiary. The objective of SFAS No. 160 is to improve the relevance, comparability, and transparency of the financial information that a reporting entity provides in its consolidated financial statements by establishing accounting and reporting standards. This Statement is effective for fiscal years, and interim periods within those fiscal years, beginning on or after December 15, 2008. Earlier adoption is prohibited. Management does not expect the application of this Statement will have a material effect on the financial statements of the Company.

In March 2008, FASB issued SFAS No. 161, Disclosures about Derivative Instruments and Hedging Activities an amendment of SFAS No. 133. SFAS No. 161 is intended to enhance the current disclosure framework in SFAS No. 133. This Statement has the same scope as SFAS No. 133. SFAS No. 133 requires that objectives for using derivative instruments be disclosed in terms of underlying risk and accounting designation. The disclosures required by SFAS No. 161 better convey the purpose of derivative use in terms of the risk that the entity is intending to manage, the fair values of the derivative instruments and their gains and losses in a tabular format, as well as information about credit-risk-related contingent features. The Company does not hold derivative instruments as of June 30, 2008. This Statement is effective for financial statements issued for fiscal years and interim periods beginning after November 15, 2008. Management does not expect implementation of SFAS No. 161 to have a material impact on the financial statements of the Company.

In May 2008, FASB issued SFAS No. 162, The Hierarchy of Generally Accepted Accounting Principles. SFAS No. 162 identifies the source of accounting principles and the framework for selecting the principles to be used in the preparation of financial statements of nongovernmental entities that are presented in conformity with generally accepted accounting principles (GAAP) in the United States (the GAAP hierarchy). This Statement is effective 60 days following the Securities and Exchange Commissions approval of the Public Company Accounting Oversight Board amendments to AU Section 411, The Meaning of Present Fairly in Conformity With Generally Accepted Accounting Principles. Management does not expect implementation of SFAS No. 162 to have a material impact on the financial statements of the Company.

5. Comprehensive Income or Loss

Accounting principles generally require recognized revenue, expenses, gains, and losses to be included in net income or loss. Certain changes in assets and liabilities, such as the after-tax effect of unrealized gains and losses on securities available-for-sale, are not reflected in the statement of income, but the cumulative effect of such items from period-to-period is reflected as a separate component of the equity section of the statement of financial condition (accumulated other comprehensive income or loss). Other comprehensive income or loss, along with net income or loss, comprises the Company s total comprehensive income or loss.

Comprehensive income (loss) is comprised of the following:

		nths Ended e 30,
	2008 (Dollars In	2007 Thousands)
Net income	\$ 128	\$ 590
Other comprehensive income (loss), net of tax:

Total comprehensive income (loss)	\$ (101)	\$ 1,055

6. Defined Benefit Pension Plan

Prior to January 31, 2007, the Company sponsored a noncontributory defined benefit plan through its membership in the Savings Bank Employees Retirement Association.

As of January 31, 2007, the Company terminated the Pension Plan. As of June 30, 2008, the Bank had an accrued liability of \$781,000, which will be equitably distributed upon receipt of a favorable determination letter from the Internal Revenue Service to all eligible employees who were active when the plan terminated.

The components of the net periodic benefit cost are:

7. Fair Values of Assets and Liabilities

Effective January 1, 2008, the Company adopted SFAS No. 157 Fair Value Measurements , which provides a framework for measuring fair value under U.S. generally accepted accounting principles.

The Company did not adopt SFAS No. 159, The Fair Value Option for Financial Assets and Financial Liabilities, including an amendment of FASB Statement No. 115.

In accordance with SFAS No. 157, the Company groups its financial assets and financial liabilities measured at fair value in three levels, based on the markets in which the assets and liabilities are traded and the observability of the assumptions used to determine fair value.

Level 1 Valuations for assets and liabilities traded in active exchange markets, such as the New York Stock Exchange. Level 1 also includes U.S. Treasury Notes and U.S. government and agency mortgage-backed securities that are traded by dealers or brokers in active markets. Valuations are obtained from readily available pricing sources for market transactions involving identical assets or liabilities.

Level 2 Valuations for assets and liabilities with inputs that are observable either directly or indirectly for substantially the full term. Level 2 also includes assets and liabilities traded in inactive markets. Valuations are obtained from third party pricing services for identical or comparable assets or liabilities or from models arising from observable inputs.

Level 3 Valuations for assets and liabilities with inputs that are unobservable, which are derived from other valuation methodologies, including option pricing models, discounted cash flow models and similar techniques, and are not based on market exchange, dealer, or broker traded transactions. Level 3 valuations incorporate certain assumptions and projections in determining the fair value assigned to such assets and liabilities.

Assets measured at fair value on a recurring basis are summarized below:

	June 30, 2008	C Pi Ma Id	Quoted rices in Active rkets for lentical Assets Level 1)	asurements Using Significant Other Observable Inputs (Level 2) n Thousands)	s Significant Unobservable Inputs (Level 3)
Assets					
Securities available-for-sale	\$ 7,170	\$	7,170	\$	\$
Total assets	\$ 7,170	\$	7,170	\$	\$

The valuation approach used to value the securities available-for-sale was the market approach.

Also, the Company may be required, from time to time, to measure certain other financial assets on a nonrecurring basis in accordance with GAAP. These adjustments to fair value usually result from application of lower-of-cost-or-market accounting or write-downs of individual assets. The following table summarizes the fair value hierarchy used to determine each adjustment and the carrying value of the related individual assets as of June 30, 2008.

	June 30, 2008	Fair Value M Quoted Prices in Active Markets for Identical Assets (Level 1) (Dollars	Signi Ot Obse Inj	ificant ther rvable puts vel 2)	Significant Unobservable Inputs (Level 3)
Assets					
Impaired loans	\$ 190	\$	\$	190	\$
Total assets	\$ 190	\$	\$	190	\$

In accordance with the provisions for SFAS No. 114, a valuation reserve of \$100,000 as of June 30, 2008 and December 31, 2007 was included in the allowance for loan losses, for the above impaired loans. The amount of impaired loans represents the carrying value, net of the related allowance for loan losses on impaired loans for which adjustments are based on the appraised value of the collateral which is based on the market approach of valuation.

Item 2. Management s Discussion and Analysis of Financial Condition and Results of Operations.

The following analysis discusses changes in the financial condition and results of operations of the Company at and for the three and six months ended June 30, 2008 and 2007, and should be read in conjunction with the Company s Unaudited Consolidated Financial Statements and the notes thereto, appearing in Part I, Item 1 of this document.

Forward-Looking Statements

This Form 10-Q contains certain forward-looking statements within the meaning of Section 27A of the Securities Act of 1933, as amended, and Section 21E of the Securities Exchange Act of 1934, as amended. The Company intends such forward-looking statements to be covered by the safe harbor provisions for forward-looking statements contained in the Private Securities Litigation Reform Act of 1995, and is including this statement for purposes of these safe harbor provisions. Forward-looking statements, which are based on certain assumptions and describe future plans, strategies and expectations of the Company, are generally identified by use of the words believe, expect, intend, anticipate, estimate, project or similar expressions. The Company s ability to predict results or the actual effect of future plans or strategies is inherently uncertain. Factors which could have a material adverse effect on the operations of the Company include, but are not limited to: changes in interest rates, general economic conditions, legislative/regulatory changes, monetary and fiscal policies of the U.S. Government, including policies of the U.S. Treasury and the Federal Reserve Board, the quality or composition of the loan or investment portfolios, demand for loan products, deposit flows, competition, demand for financial services in the Company s market area and accounting principles and guidelines. Additional factors are discussed in the Company s 2007 Annual Report on Form 10-K under Item 1A-Risk Factors. These risks and uncertainties should be considered in evaluating forward-looking statements and undue reliance should not be placed on such statements.

The Company does not undertake and specifically disclaims any obligation to publicly release the result of any revisions which may be made to any forward-looking statements to reflect events or circumstances after the date of such statements or to reflect the occurrence of anticipated or unanticipated events.

General

Chicopee Savings Bank is a community-oriented financial institution dedicated to serving the financial services needs of consumers and businesses within its market area. We attract deposits from the general public and use such funds to originate primarily one- to four-family residential real estate loans, commercial real estate loans and commercial loans. To a lesser extent, we originate multi-family loans, construction

Table of Contents

Edgar Filing: CHICOPEE BANCORP, INC. - Form 10-Q

loans and consumer loans. At June 30, 2008, we operated out of our main office and six offices in Chicopee, West Springfield and Ludlow, Massachusetts.

Comparison of Financial Condition at June 30, 2008 and December 31, 2007

The Company s assets grew \$52.0 million, or 11.2%, to \$515.5 million at June 30, 2008 compared to \$463.5 million at December 31, 2007, primarily as a result of an increase in federal funds sold of \$10.6 million, loans of \$28.5 million, as well as securities held-to-maturity of \$16.4 million. The increase in federal funds sold was primarily due to the timing of FHLB advances and an \$8.0 million deposit at month end. Total net loans increased to \$408.4 million from \$379.9 million as of December 31, 2007, with one-to-four family loans increasing \$6.2 million, or 3.9%, commercial business loans increasing \$9.0 million, or 19.7%, and commercial real estate loans increasing \$10.6 million, or 10.3%. Held-to-maturity securities increased to \$43.7 million from \$27.3 million as of December 31, 2007, due to the increase of purchases of these types of securities.

The balance sheet expansion was funded by increases in advances from the Federal Home Loan Bank of \$48.6 million and securities sold under agreements to repurchase of \$13.1 million. Total deposits at June 30, 2008 were \$321.9 million compared to \$325.0 million at December 31, 2007. During the period demand deposits and money market accounts increased \$2.3 million and \$7.6 million, respectively. Certificates of deposit balances decreased \$11.1 million, or 5.3%, to \$196.9 million at June 30, 2008 due to the decreasing interest rate environment.

Total stockholders equity decreased \$5.8 million, or 5.5%, to \$98.5 million at June 30, 2008 from December 31, 2007, resulting mainly from the purchase of 496,968 shares of the Company s common stock through the Company s stock repurchase program, at a cost of \$6.5 million. Partially offsetting the decrease was net income during the period.

Lending Activities

At June 30, 2008, the Company s net loan portfolio was \$408.4 million, or 79.2% of total assets. The following table sets forth the composition of the Company s loan portfolio in dollar amounts and as a percentage of the respective portfolio at the dates indicated.

	June 30	, 2008 Percent	December	Percent	
	Amount	of Total (Dollars In 7	Amount Fhousands)	of Total	
Real estate loans:					
One- to four-family	\$ 160,467	39.1%	\$ 154,299	40.4%	
Multi-family	11,220	2.7%	11,674	3.0%	
Commercial	113,656	27.7%	103,051	27.0%	
Construction	40,991	10.0%	40,394	10.6%	
Total real estate loans	326,334	79.5%	309,418	81.0%	
Consumer loans:					
Home equity	7,912	1.9%	6,882	1.8%	
Second mortgages	17,956	4.3%	15,938	4.2%	
Other	3,687	0.9%	3,995	1.0%	
Total consumer loans	29,555	7.1%	26,815	7.0%	
Commercial loans	54,847	13.4%	45,815	12.0%	
Total loans	410,736	100.0%	382,048	100.0%	
Undisbursed portion of loans in process					
Net deferred loan origination costs	965		896		
Allowance for loan losses	(3,325)		(3,076)		
Loans, net	\$ 408,376		\$ 379,868		

The Company s net loan portfolio increased \$28.5 million, or 7.5%, during the first six months of 2008 primarily due to increases in the Company s residential real estate, commercial real estate and commercial business loan portfolios.

Non-performing Assets

The following table sets forth information regarding nonaccrual loans, real estate owned and restructured loans at the dates indicated.

	June 30, 2008 (Dollars I	ember 31, 2007 ands)
Nonaccrual loans:		
Real estate mortgage	\$ 1,579	\$ 779
Construction		167
Commercial	196	63
Consumer	61	5
Total	1,836	1,014
Real estate owned, net		,
Total nonperforming assets	\$ 1,836	\$ 1,014
Total nonperforming loans as a percentage of total loans (1) (2)	0.45%	0.27%
Total nonperforming assets as a percentage of total assets (2)	0.36%	0.22%

(1) Total loans includes loans, plus unadvanced loan funds in process, plus net deferred loan costs.

(2) Nonperforming assets consist of nonperforming loans and REO. Nonperforming loans consist of all loans 90 days or more past due and other loans that have been identified by the Company as presenting uncertainty with respect to the collectibility of interest or principal.

Nonaccrual loans increased \$822,000 or 81.1% to \$1.8 million as of June 30, 2008 compared to \$1.0 million as of December 31, 2007. The increase was primarily due to six residential real estate loans, which have an aggregate value of \$804,000. Management believes that the value of the properties based on recent independent appraisals will be sufficient to cover the principal balance of each of these loans.

Allowance for Loan Losses

Management prepares a loan loss analysis on a quarterly basis. The allowance for loan losses is maintained through the provision for loan losses, which is charged to operations. The allowance for loan losses is maintained at an amount that management considers appropriate to cover estimated losses in the loan portfolio based on management s on-going evaluation of the risks inherent in the loan portfolio, consideration of local and regional trends in delinquency and impaired loans, the amount of charge-offs and recoveries, the volume of loans, changes in risk selection, credit concentrations, existing loan-to-value ratios, national and regional economies and the real estate market in the Company s primary lending area. Management believes that the current allowance for loan losses is appropriate to cover losses inherent in the current loan portfolio. The Company s loan loss allowance determinations also incorporate factors and analyses which consider the principal loss associated with the loan. This evaluation is inherently subjective as it requires estimates that are susceptible to significant revision as more information becomes available.

The allowance for loan losses is based on management s estimate of the amount required to reflect the potential inherent losses in the loan portfolio, based on circumstances and conditions known or anticipated at each reporting date. There are inherent uncertainties with respect to the collectibility of the Bank s loans and it is reasonably possible that actual loss experience in the near term may differ from the amounts reflected in this report.

The allowance for loan losses is determined using a consistent, systematic methodology which analyzes the size and risk of the loan portfolio. In addition to evaluating the collectibility of specific loans when determining the allowance for loan losses, management also takes into consideration other factors such as changes in the mix and the volume of the loan portfolio, historic loss experience, amount of the delinquencies and loans adversely classified, and economic trends. The adequacy of the allowance for loan losses is assessed by the allocation process whereby

specific loss allocations are made against certain adversely classified loans, and general loss allocations are made against segments of the loan portfolio which have similar attributes. The

Bank s historical loss experience, industry trends, and the impact of the local and regional economy on the Bank s borrowers, were considered by management in determining the allowance for loan losses.

The following table sets forth activity in the Company s allowance for loan losses for the periods set forth.

	At or for the S Ended Ju 2008 (Dollars In T	June 30, 2007

Allowance for loan losses to nonperforming loans (2)	181.10%	603.73%	
Recoveries to charge-offs	25.81%	2.27%	

(1) Total loans includes loans, plus unadvanced loan funds in process, plus net deferred loan costs.

(2) Nonperforming loans consist of all loans 90 days or more past due and other loans which have been identified by the Company as presenting uncertainty with respect to the collectibility of interest or principal.

Investment Activities

At June 30, 2008, the Company s investment securities portfolio amounted to \$51.2 million, or 10% of assets. The following table sets forth at the dates indicated information regarding the amortized cost and market values of the Company s investment securities.

	June 3 Amortized ¹ Cost	Value (Doll	Decembe Amortized Cost ars In sands)	r 31, 2007 Fair Value
Securities available-for-sale:				
Marketable equity securities	\$ 7,453	\$ 7,170	\$ 7,504	\$ 7,864
Total equity securities	7,453	7,170	7,504	7,864
Securities held-to-maturity:				
Debt securities of U.S. government sponsored enterprises	32,996	32,997	16,496	16,500
Corporate and industrial revenue bonds	4,277	4,277	4,303	4,303
Collateralized mortgage obligations	6,469	6,213	6,525	6,266
Total securities held-to-maturity	43,742	43,487	27,324	27,069
Total	\$ 51,195	\$ 50,657	\$ 34,828	\$ 34,933

¹ Does not include investments in FHLB-Boston stock totaling \$3.6 million at June 30, 2008 and \$1.6 million at December 31, 2007. Fair market value of securities available-for-sale decreased \$694,000, or 8.8%, to \$7.2 million at June 30, 2008 primarily due to market conditions. Held-to-maturity securities increased \$16.4 million, or 60.1%, to \$43.7 million due to collateral requirements for increased repurchase agreement balances.

Deposits

The following table sets forth the Company s deposit accounts at the dates indicated.

	June 30 Balance), 2008 Percent of Total Deposits	December Balance	31, 2007 Percent of Total Deposits
		(Dollars In 7		Deposito
Demand deposits	\$ 29,421	9.14%	\$ 27,167	8.36%
NOW accounts	14,515	4.51%	14,628	4.50%
Passbook accounts	37,904	11.77%	39,630	12.19%
Money market deposit accounts	43,133	13.40%	35,542	10.94%
Certificates of deposit	196,945	61.18%	208,004	64.01%
Total deposits	\$ 321,918	100.00%	\$ 324,971	100.00%

Deposits decreased \$3.1 million to \$321.9 million at June 30, 2008 from \$325.0 million at December 31, 2007. The growth in demand deposit and money market deposit accounts reflects the increase in commercial relationships and the success of sales and marketing efforts. Certificates of deposit balances decreased \$11.1 million, or 5.3%, to \$196.9 million at June 30, 2008 largely due to the decreasing rate environment.

We utilize borrowings from a variety of sources to supplement our supply of funds for loans and investments.

Comparison of Operating Results for the Three Months Ended June 30, 2008 and 2007

General

Net income decreased \$462,000, to \$128,000 for the quarter ended June 30, 2008 compared to \$590,000 for the same quarter last year. The decrease in net income for the three months ended June 30, 2008 is primarily due to the increase in salaries and employee benefits expense of \$386,000 relating to expenses associated with the Equity Incentive Plan. In addition, the decrease in net income resulted from an increase in the provision for loan losses of \$149,000 due to loan growth, the narrowing of the net interest margin, and a decrease in the sales of securities available-for-sale of \$193,000.

Analysis of Net Interest Income

Net interest income represents the difference between income on interest-earning assets and expense on interest-bearing liabilities. Net interest income depends on the relative amounts of interest-earning assets and interest-bearing liabilities and the interest rate earned or paid on them.

The following table sets forth average balances, interest income and expense and yields earned or rates paid on the major categories of assets and liabilities for the periods indicated. The average yields and costs are derived by dividing interest income or expense by the average balance of interest-earning assets or interest-bearing liabilities, respectively. The yields and costs are annualized. Average balances are derived from average daily balances. The yields and costs include fees which are considered adjustments to yields. Loan interest and yield data does not include any accrued interest from nonaccruing loans.

Net interest income as reported on statement of operations	\$ 3,643	\$ 3,677

- (1) Municipal securities income and net interest income are presented on a tax equivalent basis using a tax rate of 41%. The tax equivalent adjustment is deducted from the tax equivalent net interest income to agree to the amount reported on the statement of income.
- (2) Savings accounts include mortgagors escrow deposits.
- (3) Tax equivalent net interest rate spread represents the difference between the weighted average yield on interest-earning assets and the weighted average cost of interest-bearing liabilities.
- (4) Tax equivalent net interest margin represents tax equivalent net interest income divided by total average interest-earning assets.

The following table presents the extent to which changes in interest rates and changes in the volume of interest-earning assets and interest-bearing liabilities have affected the Company s tax equivalent interest income and interest expense during the periods indicated. Information is provided in each category with respect to: (i) changes attributable to changes in volume (changes in volume multiplied by prior rate); (ii) changes attributable to changes in rate (changes in rate multiplied by prior volume); and (iii) the net change. The changes attributable to the combined impact of volume and rate have been allocated proportionately to the changes due to volume and the changes due to rate.

(1) The changes in state and municipal income are reflected on a tax equivalent basis using a tax rate of 41%.

(2) Includes interest on mortgagors escrow deposits.

(3) The changes in net interest income are reflected on a tax equivalent basis and thus do not correspond to the statement of income.

Net interest income, on a tax equivalent basis, decreased \$8,000, or .22%, to \$3.7 million for the three months ended June 30, 2008, mainly driven by a decline in interest income from investment securities and other interest-earning assets resulting from the declining interest rate environment. Net interest margin decreased 20 basis points to 3.22% for the three months ended June 30, 2008 from the comparable period in 2007 primarily due to a decrease in the yield on assets of 61 basis points. The decrease was offset by the decrease of 68 basis points in the cost of funds.

Interest and dividend income, on a tax equivalent basis, declined \$302,000, or 4.6%, to \$6.3 million for the three months ended June 30, 2008 compared to \$6.6 million for the same period last year. Average interest-earning assets totaled \$459.6 million for the three months ended June 30, 2008 compared to \$432.5 million for the same period last year, an increase of \$27.1 million, or 6.3%. Average loans increased \$26.3 million, or 7.1%, primarily due to strong originations. Average investment securities increased \$9.8 million for the period, but average investment securities interest rates. The yield on average interest-earning assets decreased 61 basis points to 5.54% for the three months ended June 30, 2008, principally as a result of lower market rates of interest.

Total interest expense decreased \$294,000, or 9.9%, to \$2.7 million for the three months ended June 30, 2008 from \$2.9 million for the same period in 2007, resulting primarily from the decreasing interest rate environment. Average interest-bearing liabilities increased \$35.5 million, or 11.0%, to \$358.5 million for the three months ended June 30, 2008 from \$323.0 million for the comparable period in 2007, reflecting an increase in interest-bearing borrowings. Rates paid on average interest-bearing liabilities declined 68 basis points to 2.98% for the second quarter of 2008, largely reflecting the lower market interest rates. The lower interest rate environment led to a decrease in rates paid for certificates of deposit as well as the repricing of a portion of the Company s outstanding certificates of deposit.

Provision for Loan Losses

The provision for loan losses for the second quarter of 2008 was \$262,000 compared to \$113,000 for the same period in 2007. The increase in the provision for loan losses was primarily due to the increase in total loans, in particular the increases in commercial real estate and commercial business loans, which generally are riskier than residential real estate loans.

Non-interest Income

Total non-interest income decreased \$118,000, or 14.8%, to \$678,000 for the second quarter of 2008 compared to \$796,000 for the same period in 2007, due to the decrease in sales of available-for-sale securities. The gain on sales of available-for-sale securities decreased \$193,000 to \$100,000 due to market conditions. This gain was partially offset by fee income, which increased \$76,000, or 15.1%, to \$579,000 in the second quarter of 2008 from \$503,000 for the comparable period in 2007, primarily due to the increase in NSF fees of \$92,000 and decrease of BOLI income of \$25,000.

Non-interest Expenses

Non-interest expenses increased \$421,000, or 12.2%, to \$3.9 million for the three months ended June 30, 2008 compared to \$3.5 million in the second quarter of 2007. The increase is primarily attributable to employee benefits expense which increased \$386,000, or 19.5%, to \$2.4 million for the second quarter of 2008 reflecting increased benefit costs associated with the Company s Equity Incentive Plan.

Income Taxes

The Company s income tax expense decreased \$260,000, or 84.4%, to \$48,000 for the second quarter of 2008 compared to \$308,000 in the second quarter of 2007. The Company s combined federal and state effective tax rate was 27.3%, reflecting the decrease in taxable income for the three months ended June 30, 2008, compared to 34.3% for the same period in 2007.

Comparison of Operating Results for the Six Months Ended June 30, 2008 and 2007

General

Net income decreased \$827,000, or 72.3%, to \$317,000 for the six months ended June 30, 2008 compared to \$1.1 million for the same period last year. The decrease in net income for the first six months of 2008 was primarily due to the increase in salaries and employee benefits expense of \$788,000, relating to expenses associated with the Equity Incentive Plan of \$644,000.

Analysis of Net Interest Income

The following table sets forth average balances, interest income and expense and yields earned or rates paid on the major categories of assets and liabilities for the periods indicated. The average yields and costs are derived by dividing interest income or expense by the average balance of interest-earning assets or interest-bearing liabilities, respectively. The yields and costs are annualized. Average balances are derived from average daily balances. The yields and costs include fees which are considered adjustments to yields. Loan interest and yield data does not include any accrued interest from non-accruing loans.

(1) The changes in state and municipal income are reflected on a tax equivalent basis using a tax rate of 41%.

(2) Includes interest on mortgagors escrow deposits.

(3) The changes in net interest income are reflected on a tax equivalent basis and thus do not correspond to the statement of income.

Net interest income, on a tax equivalent basis, decreased \$81,000, or 1.1%, to \$7.1 million for the six months ended June 30, 2008 compared to \$7.2 million for the same period in 2007, mainly driven by the decreasing interest rate environment. Net interest margin declined 19 basis points to 3.21% for the six months ended June 30, 2008 from the comparable period in 2007 primarily due to a decrease in the yield on assets of 43 basis points, which was partially offset by the decrease of 39 basis points in the cost of funds.

Total interest and dividend income, on a tax equivalent basis, declined \$327,000, or 2.5%, to \$12.7 million for the six months ended June 30, 2008 compared to \$13.0 million for the same period last year. Average interest-earning assets totaled \$447.3 million for the six months ended June 30, 2008 compared to \$429.1 million for the same period last year, an increase of \$18.2 million, or 4.2%. Average loans increased \$20.0 million, or 5.4%, primarily due to strong originations activity. Average investment securities increased \$2.3 million, or 5.3%, but average investment security interest income declined by \$259,000 due to falling interest rates. The yield on average interest-earning assets declined 43 basis points to 5.69% for the six months ended June 30, 2008, principally as a result of lower market rates of interest. In addition, a portion of the Company s existing interest-sensitive assets repriced to lower rates.

Total interest expense decreased \$246,000, or 4.2%, to \$5.5 million for the six months ended June 30, 2008 from \$5.8 million for the same period in 2007, resulting primarily from decreased rates paid on average interest-bearing liabilities. Rates paid on average interest-bearing liabilities decreased 39 basis points to 3.23% for the six months ended June 30, 2008, largely reflecting lower market interest rates. The lower interest rate environment led to a decrease in rates paid for new deposits and borrowings as well as the repricing of a portion of the Company s outstanding deposits. Average interest-bearing liabilities rose \$22.1 million, or 6.9%, to \$344.6 million for the six months ended June 30, 2008 from \$322.5 million for the comparable period in 2007, reflecting growth in interest-bearing borrowings.

Provision for Loan Losses

The provision for loan losses increased \$58,000 to \$272,000 in the six months ended June 30, 2008 from \$214,000 for the same period in 2007 primarily due to increased balances of commercial real estate loans and commercial loans since December 31, 2007. The allowance for loan losses is maintained through provisions for loan losses.

Non-interest Income

Total non-interest income decreased \$288,000, or 18.9%, to \$1.2 million for the six months ended June 30, 2008 compared to \$1.5 million for the same period in 2007, due to the decrease in sales of available-for-sale securities. Net gain on sales of available-for-sale securities decreased \$473,000 to \$115,000 for the first six months of 2008 due to market conditions. Partially offsetting this decrease is the increase in fee income of \$190,000, or 20.4%, to \$1.1 million in the six months ended June 30, 2008 from \$932,000 for the comparable period in 2007, primarily due to the increase in NSF fees of 167,000.

Non-interest Expenses

Non-interest expenses increased \$828,000, or 12.3%, to \$7.6 million for the six months ended June 30, 2008 compared to \$6.8 million in the same period in 2007. The increase is primarily attributable to salaries and employee benefits expense, which increased \$788,000, or 20.8%, to \$4.6 million for the first six months of 2008 reflecting increased benefit costs associated with the Company s Equity Incentive Plan.

Income Taxes

The Company s income tax expense decreased \$482,000, or 78.6%, to \$131,000 for the six months ended June 30, 2008 compared to \$613,000 for the same period in 2007. The Company s combined federal and state effective tax rate was 29.24%, reflecting the decrease in taxable income for the six months ended June 30, 2008, compared to 34.9% for the same period in 2007.

Explanation of Use of Non-GAAP Financial Measurements

We believe that it is common practice in the banking industry to present interest income and related yield information on tax exempt securities on a tax-equivalent basis and that such information is useful to investors because it facilitates comparisons among financial institutions. However, the adjustment of interest income and yields on tax exempt securities to a tax equivalent amount may be considered to include financial information that is not in compliance with U.S. generally accepted accounting principles (GAAP). A reconciliation from GAAP to non-GAAP is provided below.

(1) The tax equivalent adjustment is based on a combine federal and state tax rate of 41% for all periods presented. **Liquidity Management**

Liquidity is the ability to meet current and future financial obligations of a short-term nature. Our primary sources of funds consist of deposit inflows, loan repayments, maturities and sales of securities, borrowings from the Federal Home Loan Bank of Boston and securities sold under agreements to repurchase. While maturities and scheduled amortization of loans and securities are predictable sources of funds, deposit flows and loan prepayments are greatly influenced by general interest rates, economic conditions and competition. Prepayment rates can have a significant impact on interest income. Because of the large percentage of loans we hold, rising or falling interest rates have a significant impact on the prepayment speeds of our earning assets that, in turn, affect the rate sensitivity position. When interest rates rise, prepayments tend to slow. When interest rates fall, prepayments tend to rise. Our asset sensitivity would be reduced if prepayments slow and vice versa. While we believe these assumptions to be reasonable, there can be no assurance that assumed prepayment rates will approximate actual loan repayment activity.

We regularly adjust our investments in liquid assets based upon our assessment of: (1) expected loan demands; (2) expected deposit flows; (3) yields available on interest-earning deposits and securities; and (4) the objectives of our asset/liability management policy.

Our most liquid assets are cash and cash equivalents. The levels of these assets depend on our operating, financing, lending and investing activities during any given period. At June 30, 2008, cash and cash equivalents totaled \$28.3 million. Total securities classified as available-for-sale were \$7.2 million at June 30, 2008. In addition, at June 30, 2008, we had the ability to borrow a total of approximately \$108.2 million from the Federal Home Loan Bank of Boston. On June 30, 2008, we had \$66.4 million of borrowings outstanding.

At June 30, 2008, we had \$77.1 million in loan commitments outstanding, which consisted of \$15.1 million of commercial loan commitments, \$10.2 million of mortgage loan commitments, \$10.9 million in unadvanced construction loan commitments, \$9.3 million in unused home equity lines of credit, \$28.7 million in commercial lines of credit, and \$2.9 million in letters of credit. Certificates of deposit due within one year of June 30, 2008 totaled \$135.6 million, or 68.8%, of our certificates of deposit. If these maturing deposits do not remain with us, we will be required to seek other sources of funds, including other certificates of deposit and borrowings. Depending on market conditions, we may be required to pay higher rates on such deposits or other borrowings than we currently pay on the certificates of deposit due on or before June 30, 2009. We believe, however, based on past experience that a significant portion of our certificates of deposit will remain with us. We have the ability to attract and retain deposits by adjusting the interest rates offered.

Capital Management

We are subject to various regulatory capital requirements administered by the Federal Deposit Insurance Corporation, including a risk-based capital measure. The risk-based capital guidelines include both a definition of capital and a framework for calculating risk-weighted assets by assigning balance sheet assets and off-balance sheet items to broad risk categories. At June 30, 2008, the Bank exceeded all of its regulatory capital requirements. The Bank is considered well capitalized under regulatory guidelines. The Company is subject to the Federal Reserve Board s capital adequacy guidelines for bank holding companies (on a consolidated basis) substantially similar to those of the Federal Deposit Insurance Corporation. The Company exceeded these requirements at June 30, 2008.

The Company s and Bank s actual capital amounts and ratios as of June 30, 2008 and December 31, 2007 are presented in the table.

As of June 30, 2008	Actua Amount	l Ratio	A	nimum for dequacy Pt Amount llars In Th	urposes Ratio	Minim to be V Capitalized Prompt Co Action Pro Amount	Vell l Under rrective
Total Capital to Risk Weighted Assets							
Company	\$ 102.009	25.1%	\$	38,946	8.0%	N/A	N/A
Bank	\$ 83,456	20.6%	\$	32,363	8.0%	\$ 40,453	10.0%

Bank	\$ 79,152	17.4%	\$	18,220	4.0%	\$ 22,775	5.0%

Off-Balance Sheet Arrangements

In the normal course of operations, we engage in a variety of financial transactions that, in accordance with U.S. generally accepted accounting principles, are not recorded in our financial statements. These transactions involve, to varying degrees, elements of credit, interest rate and liquidity risk. Such transactions are used primarily to manage customers requests for funding and take the form of loan commitments, letters of credit and lines of credit. We currently have no plans to engage in hedging activities in the future.

For the three month periods ended June 30, 2008 and June 30, 2007, we engaged in no off-balance sheet transactions reasonably likely to have a material effect on our financial condition, results of operations or cash flows.

Item 3. <u>Quantitative and Qualitative Disclosures about Market Risk</u> Qualitative Aspects of Market Risk

We manage the interest rate sensitivity of our interest-bearing liabilities and interest-earning assets in an effort to minimize the adverse effects of changes in the interest rate environment. Deposit accounts typically react more quickly to changes in market interest rates than mortgage loans because of the shorter maturities of deposits. As a result, sharp increases in interest rates may adversely affect our earnings while decreases in interest rates may beneficially affect our earnings. To reduce the potential volatility of our earnings, we have sought to improve the match between asset and liability maturities and rates, while maintaining an acceptable interest rate spread. Our strategy for managing interest rate risk emphasizes: adjusting the maturities of borrowings; adjusting the investment portfolio mix and duration; increasing our focus on shorter-term, adjustable-rate commercial and multi-family lending; selling fixed-rate mortgage loans; and periodically selling available-for-sale securities. We currently do not participate in hedging programs, interest rate swaps or other activities involving the use of derivative financial instruments.

We have an Asset/Liability Committee, which includes members of management, to communicate, coordinate and control all aspects involving asset/liability management. The committee reports to the Board of Directors of the Bank quarterly and establishes and monitors the volume, maturities, pricing and mix of assets and funding sources with the objective of managing assets and funding sources to provide results that are consistent with liquidity, growth, risk limits and profitability goals.

Quantitative Aspects of Market Risk

We analyze our interest rate sensitivity to manage the risk associated with interest rate movements through the use of interest income simulation. The matching of assets and liabilities may be analyzed by examining the extent to which such assets and liabilities are interest sensitive. An asset or liability is said to be interest rate sensitive within a specific time period if it will mature or reprice within that time period.

Our goal is to manage asset and liability positions to moderate the effects of interest rate fluctuations on net interest income. Interest income simulations are completed monthly and presented to the Asset/Liability Committee and Board of Directors of the Bank. The simulations provide an estimate of the impact of changes in interest rates on net interest income under a range of assumptions. The numerous assumptions used in the simulation process are reviewed by the Asset/Liability Committee and the Board of Directors of the Bank on a quarterly basis. Changes to these assumptions can significantly affect the results of the simulation. The simulation incorporates assumptions regarding the potential timing in the repricing of certain assets and liabilities when market rates change and the changes in spreads between different market rates. The simulation analysis incorporates management s current assessment of the risk that pricing margins will change adversely over time due to competition or other factors.

Simulation analysis is only an estimate of our interest rate risk exposure at a particular point in time. We continually review the potential effect changes in interest rates could have on the repayment of rate sensitive assets and funding requirements of rate sensitive liabilities.

The table below sets forth an approximation of our exposure as a percentage of estimated net interest income for the next 12 month period using interest income simulation. The simulation uses projected repricing of assets and liabilities at June 30, 2008 on the basis of contractual maturities, anticipated repayments and scheduled rate adjustments. Prepayment rates can have a significant impact on interest income simulation. Because of the large percentage of loans we hold, rising or falling interest rates have a significant impact on the prepayment speeds of our earning assets that, in turn, affect the rate sensitivity position. When interest rates rise, prepayments tend to slow. When interest rates fall, prepayments tend to rise. Our asset sensitivity would be reduced if prepayments slow and vice versa. While we believe such assumptions to be reasonable, there can be no assurance that assumed prepayment rates will approximate future mortgage-backed security and loan repayment activity.

The following table reflects changes in estimated net interest income for the Bank at June 30, 2008 through June 30, 2009.

Increase (Decrease)

Net Interest Income

in Market Interest

Rates (Rate Shock)	\$ Amount	\$ Change	% Change
	(Dollars In Tho	usands)	
300 bp	\$ 12,240	(\$958)	-7.3%
200	\$ 12,957	(\$241)	-1.8%
100	\$ 13,555	\$ 357	2.7%
	\$ 13,198		
(100)	\$ 13,390	\$ 192	1.5%
(200)	\$ 13,326	\$ 128	1.0%

The basis point changes in rates in the above table are assumed to occur evenly over the following 12 months.

Item 4. <u>Controls and Procedures</u>

The Company s management, including the Company s principal executive officer and principal financial officer, have evaluated the effectiveness of the Company s disclosure controls and procedures, as such term is defined in Rule 13a-15(e) promulgated under the Securities Exchange Act of 1934, as amended, (the Exchange Act). Based upon their evaluation, the principal executive officer and principal financial officer concluded that, as of the end of the period covered by this report, the Company s disclosure controls and procedures were effective for the purpose of ensuring that the information required to be disclosed in the reports that the Company files or submits under the Exchange Act with the Securities and Exchange Commission (the SEC) (1) is recorded, processed, summarized and reported within the time periods specified in the SEC s rules and forms, and (2) is accumulated and communicated to the Company s management, including its principal executive and principal financial officers, as appropriate to allow timely decisions regarding required disclosure.

There have been no changes in the Company s internal control over financial reporting during the quarter ended June 30, 2008 that have materially affected, or are reasonably likely to materially affect, the Company s internal control over financial reporting.

PART II. OTHER INFORMATION

Item 1. Legal Proceedings.

The Company is not involved in any pending legal proceedings other than routine legal proceedings occurring in the ordinary course of business. Such routine legal proceedings, in the aggregate, are believed by management to be immaterial to the financial condition and results of operations of the Company.

Item 1A. <u>Risk Factors.</u>

In addition to the other information set forth in this report, you should carefully consider the factors discussed in Part I, Item 1A. Risk Factors in our Annual Report on Form 10-K for the year ended December 31, 2007, which could materially affect our business, financial condition or future results. At June 30, 2008, the risk factors for the Company have not changed materially from those reported in our Annual Report on Form 10-K. However, the risks described in our Annual Report on Form 10-K are not the only risks that we face. Additional risks and uncertainties not currently known to us or that we currently deem to be immaterial also may materially adversely affect our business, financial condition and/or operating results.

Item 2. <u>Unregistered Sales of Equity Securities and Use of Proceeds</u>.

- (a) Unregistered Sales of Equity Securities Not applicable
- (b) Use of Proceeds Not applicable

(c) Repurchase of Our Equity Securities

On March 4, 2008, the Company announced that its Board of Directors authorized a second stock repurchase program (the Second Stock Repurchase Program) for the purchase of up to 353,370 shares of the Company s common stock, or approximately 5% of its outstanding common stock. Repurchases under the Second Stock Repurchase Program will be conducted solely through a Rule 10b5-1 repurchase plan with Stifel, Nicolaus & Company, Incorporated, based upon parameters of a Rule 10b5-1 repurchase plan. Repurchased shares will be held in treasury. This plan will continue until it is completed or terminated by the Board of Directors. Repurchases made in the second quarter of 2008 were as follows:

	(a) Total Number of Shares (or Units)	Avera Pai	(b) age Price id Per hare	(c) Total Number of Shares (or Units) Purchased as Part of Publicly Announced Plans	(d) Maximum Number (or Approximate Dollar Value) of Shares (or Units) that May Yet Be Purchased Under the
Period	Purchased	(or	Unit)	or Programs	Plans or Programs
April 1 - 31, 2008	100,000	\$	13.30	100,000	153,370
May 1 - 31, 2008	55,000		13.30	55,000	98,370
June 1 - 30, 2008	25,000		13.55	25,000	73,370
Total	180,000	\$	13.35	180,000	

Item 3. Defaults Upon Senior Securities.

None.

Item 4. <u>Submission of Matters to a Vote of Security Holders</u>.

- a. An annual meeting to shareholders of the Company was held on May 28, 2008 (the Annual Meeting).
- b. Not applicable.
- c. The items voted upon at the Annual Meeting and the vote for each proposal were as follows:
 - 1. Election of directors.

For	Withheld
