You are cordially invited to attend the meeting in person. PROXY STATEMENT

FOR THE ANNUAL MEETING OF STOCKHOLDERS

TO BE HELD MAY 19, 2010

QUESTIONS AND ANSWERS

Why am I receiving these proxy materials?

We sent you this proxy statement and the accompanying proxy card because the Board of Directors of DexCom, Inc., or the Board, is soliciting your proxy to vote at its 2010 Annual Meeting of Stockholders. You are invited to attend the annual meeting to vote on the proposals described in this proxy statement. However, you do not need to attend the meeting to vote your shares. Instead, you may simply complete, sign and return the accompanying proxy card.

We mailed this proxy statement, the accompanying proxy card and our annual report on or about April 14, 2010 to all stockholders of record entitled to vote at the annual meeting.

Important Notice Regarding the Availability of Proxy Materials for the Stockholder Meeting To Be Held on May 19, 2010.

The proxy statement and annual report to security holders are available at www.proxyvote.com.

Stockholders may access the proxy statement, proxy card, and our 2009 Annual Report on Form 10-K on the above website.

Who can vote at the annual meeting?

Only stockholders of record at the close of business on March 26, 2010, the record date for the annual meeting, will be entitled to vote at the annual meeting. At the close of business on the record date, there were 56,660,633 shares of common stock outstanding and entitled to vote.

Stockholder of Record: Shares Registered in Your Name

If at the close of business on the record date, your shares were registered directly in your name with our transfer agent, American Stock Transfer & Trust Company, then you are a stockholder of record. As a stockholder of record, you may vote in person at the meeting or vote by proxy. Whether or not you plan to attend the meeting, we urge you to fill out and return the accompanying proxy card to ensure your vote is counted.

Beneficial Owner: Shares Registered in the Name of a Broker, Bank or Other Agent

If at the close of business on the record date, your shares were held, not in your name, but rather in an account at a brokerage firm, bank or other agent, then you are the beneficial owner of shares held in *street name* and these proxy materials are being forwarded to you by your broker, bank or other agent. The broker, bank or other agent holding your account is considered to be the stockholder of record for purposes of voting at the annual meeting.

As a beneficial owner, you must provide your broker, bank or other agent with instructions on how to vote the shares in your account in order for your shares to be voted. Under recent amendments to New York Stock Exchange rules, brokers no longer have discretion to vote their clients shares on a number of important matters, including the election of directors. If you do not instruct your broker how to vote on the election of directors this

year, your shares will not be counted. You are also invited to attend the annual meeting. However, since you are not the stockholder of record, you may not vote your shares in person at the meeting unless you request and obtain a valid proxy issued in your name from your broker, bank or other agent.

What am I voting on?

There are two matters scheduled for a vote at the annual meeting:

the election of two Class II directors to hold office until our 2013 Annual Meeting of Stockholders,

the ratification of the selection by the audit committee of our Board of Directors of Ernst & Young LLP as our independent registered public accounting firm for the fiscal year ending December 31, 2010.

How do I vote?

For the election of directors, you may either vote For the two nominees or you may Withhold your votes for the nominees. For any other matter to be voted on, you may vote For or Against or abstain from voting. The procedures for voting are as follows:

Stockholder of Record: Shares Registered in Your Name

If you are a stockholder of record, you may vote in person at the annual meeting. Alternatively, you may vote by proxy by using the accompanying proxy card. Whether or not you plan to attend the meeting, we urge you to vote by proxy to ensure your vote is counted. You may still attend the meeting and vote in person if you have already voted by proxy.

To vote in person, come to the annual meeting and we will give you a ballot when you arrive.

To vote using the proxy card, simply complete, sign and date the accompanying proxy card and return it promptly in the envelope provided. If you return your signed proxy card to us before the annual meeting, we will vote your shares as you direct.

Beneficial Owner: Shares Registered in the Name of Broker, Bank or Other Agent

If you are a beneficial owner of shares registered in the name of your broker, bank or other agent, you should have received a voting instruction card and voting instructions with these proxy materials from that organization rather than from us. Simply complete and mail the voting instruction card to ensure that your vote is counted. To vote in person at the annual meeting, you must obtain a valid proxy from your broker, bank or other agent. Follow the instructions from your broker, bank or other agent included with these proxy materials, or contact your broker, bank or other agent to request a proxy form.

Voting Electronically via the Internet or Telephone

In addition to voting in person or by returning the enclosed proxy card, stockholders of record may vote their shares either via the Internet or by telephone. Specific instructions to be followed by any registered stockholder interested in voting via the Internet or by telephone are set forth on the accompanying proxy card. The Internet and telephone voting procedures are designed to authenticate the stockholder's identity and to allow stockholders to vote their shares and confirm that their voting instructions have been properly recorded.

If your shares are registered in the name of a bank or brokerage, you may also be eligible to vote your shares electronically over the Internet or by telephone. A large number of banks and brokerage firms are participating in the Broadridge Investor Communication Services online program, which provides eligible stockholders who receive a paper copy of the proxy statement and related proxy materials the opportunity to vote via the Internet or

by telephone. If your bank or brokerage firm participates in Broadridge's program, your voting form from the bank or brokerage firm will provide you with specific instructions for voting your shares. If your voting form does not reference Internet or telephone information, please complete and return the paper proxy card in the self-addressed, postage-paid envelope provided.

How many votes do I have?

On each matter to be voted upon, you have one vote for each share of common stock you owned as of the close of business on March 26, 2010, the record date for the annual meeting.

What if I return a proxy card but do not make specific choices?

If you return a signed and dated proxy card without marking any voting selections, your shares will be voted For the election of the two nominees for director, and For the ratification of the selection of Ernst & Young LLP as our independent registered public accounting firm. If any other matter is properly presented at the meeting, one of the individuals named on your proxy card as your proxy will vote your shares using his best judgment.

Who is paying for this proxy solicitation?

We will pay for the entire cost of soliciting proxies. In addition to these mailed proxy materials, our directors, officers and employees may also solicit proxies in person, by telephone, or by other means of communication. Directors, officers, and employees will not be paid any additional compensation for soliciting proxies. We may also reimburse brokerage firms, banks and other agents for the cost of forwarding proxy materials to beneficial owners or pay a proxy solicitor to assist in the solicitation of proxies.

What does it mean if I receive more than one proxy card?

If you receive more than one proxy card, your shares are registered in more than one name or are registered in different accounts. Please complete, sign and return each proxy card to ensure that all of your shares are voted.

Can I change my vote after submitting my proxy?

Yes. You can revoke your proxy at any time before the applicable vote at the meeting. If you are the record holder of your shares, you may revoke your proxy in any one of three ways:

you may submit another properly completed proxy with a later date,

you may send a written notice that you are revoking your proxy to our Secretary at 6340 Sequence Drive, San Diego, California 92121, or

you may attend the annual meeting and vote in person (however, simply attending the meeting will not, by itself, revoke your proxy). If your shares are held by your broker, bank or other agent, you should follow the instructions provided by them.

When are stockholder proposals due for next year's annual meeting?

To be considered for inclusion in next year's proxy materials, a stockholder proposal must be submitted in writing by December 16, 2010, to our Secretary at 6340 Sequence Drive, San Diego, California 92121. If you wish to submit a proposal that is not to be included in next year's proxy materials, your proposal generally must be submitted in writing to the same address no later than March 7, 2011 but no earlier than February 3, 2011. Please review our bylaws, which contain additional requirements regarding advance notice of stockholder proposals.

How are votes counted?

Votes will be counted by the inspector of elections appointed for the meeting, who will separately count For and Withhold votes and broker non-votes with respect to the election of directors and, with respect to any proposals other than the election of directors, For and Against votes, abstentions and broker non-votes. A broker non-vote occurs when a nominee holding shares for a beneficial owner does not vote on a particular proposal because the nominee does not have discretionary voting power with respect to that proposal and has not received instructions with respect to that proposal from the beneficial owner, despite voting on at least one other proposal for which it does have discretionary authority or for which it has received instructions. Abstentions and broker non-votes will be counted as present and entitled to vote for the purposes of establishing a quorum, but will not be counted towards the affirmative vote total for any proposal.

If your shares are held by your broker, bank or other agent as your nominee (that is, in street name), you will need to obtain a proxy form from the institution that holds your shares and follow the instructions included on that form regarding how to instruct your broker, bank or other agent to vote your shares. If you do not give instructions to your broker, bank or other agent, they can vote your shares with respect to discretionary items, but not with respect to non-discretionary items. Under recent amendments to New York Stock Exchange rules, brokers no longer have discretion to vote their clients' shares on a number of important matters, including the election of directors. If you do not instruct your broker how to vote on the election of directors this year, your shares will not be counted. Discretionary items are proposals considered routine on which your broker, bank or other agent may vote shares held in street name in the absence of your voting instructions, such as the vote for ratification of our independent registered public accounting firm. On non-discretionary items, such as the vote for election of directors, if you do not give instructions to your broker, bank or other agent, the shares will not be voted and will be treated as broker non-votes.

How many votes are needed to approve each proposal?

For the election of directors, the two nominees receiving the most For votes (among votes properly cast in person or by proxy) will be elected.

To be approved, the ratification of the selection of Ernst & Young LLP as our independent registered public accounting firm must receive a For vote from the majority of shares present and entitled to vote on the matter either in person or by proxy. Abstentions and broker non-votes will be counted towards a quorum, but will not be counted for any purpose in determining whether this matter has been approved.

What is the quorum requirement?

A quorum of stockholders is necessary to hold a valid meeting. A quorum will be present if at least a majority of the outstanding shares as of the close of business on the record date are represented by stockholders present at the meeting or by proxy. At the close of business on the record date, there were 56,660,633 shares outstanding and entitled to vote. Therefore, in order for a quorum to exist, 28,330,318 shares must be represented by stockholders present at the meeting or by proxy.

Your shares will be counted towards the quorum only if you submit a valid proxy (or one is submitted on your behalf by your broker, bank or other agent) or if you vote in person at the meeting. Abstentions and broker non-votes will be counted towards the quorum requirement. If there is no quorum, a majority of the votes present at the meeting may adjourn the meeting to another date.

How can I find out the results of the voting at the annual meeting?

Preliminary voting results will be announced at the annual meeting. Final voting results will be published in a current report on Form 8-K four business days after the date the annual meeting ends.

CORPORATE GOVERNANCE

Independence of the Board of Directors and its Committees

As required under NASDAQ Global Market listing standards, a majority of the members of a listed company's board of directors must qualify as independent, as affirmatively determined by the board. Our Board of Directors consults with our counsel to ensure that the Board's determinations are consistent with all relevant securities and other laws and regulations regarding the definition of independent, including those set forth in applicable NASDAQ listing standards, as in effect from time to time.

Consistent with these considerations, after review of all relevant transactions and relationships between each director, or any of his or her family members, and us, our senior management and our independent registered public accounting firm, our Board of Directors has affirmatively determined that all of our directors are independent directors within the meaning of the applicable NASDAQ listing standards, except for Mr. Gregg, our President and Chief Executive Officer. In making its independence determinations, the Board reviewed transactions and relationships between the director, or any member of his or her immediate family, and us or one of our subsidiaries or affiliates based on information provided by the director, our records and publicly available information. Specifically, the Board considered the following types of relationships and transactions: (i) principal employment of and other public company directorships held by each non-employee director; (ii) contracts or arrangements that are ongoing or which existed during any of the past three fiscal years between us and/or our subsidiaries or affiliates and any entity for which the non-employee director, or his or her immediate family member, is an executive officer or greater-than-10% stockholder; and (iii) contracts or arrangements that are ongoing or which existed during any of the past three fiscal years between us and/or our subsidiaries or affiliates and any other public company for which the non-employee director serves as a director. The relationships and transactions reviewed by our Board included the following:

the father and son relationship between Donald L. Lucas and Donald A. Lucas, in which case the Board determined that such relationship would not interfere with the exercise of independent judgment of either of them as directors.

As required under applicable NASDAQ listing standards, our independent directors meet in regularly scheduled executive sessions at which only independent directors are present. All of the committees of our Board of Directors are comprised entirely of directors determined by the Board to be independent within the meaning of applicable NASDAQ listing standards.

Our Board of Directors is led by an independent Chairman, Mr. Donald L. Lucas. On March 23, 2010, Mr. Lucas notified us of his decision to retire from the Board. Mr. Lucas' term as a Class II director extends through May 19, 2010, and Mr. Lucas will serve the remainder of his term. Immediately upon the end of Mr. Lucas' term, Jonathan Lord will assume the role of Chairman of the Board. Our President and Chief Executive Officer, Mr. Terrance Gregg, is the only member of the Board who is not an independent director. All committees of our Board of Directors are made up entirely of independent directors. We believe that this leadership structure facilitates the accountability of our Chief Executive Officer to the Board of Directors, strengthens the Board's independence from management and ensures that the independent directors maintain proper oversight of management. In addition, separation of the office of Chairman allows Mr. Gregg to focus on his duties as President and Chief Executive Officer. We do not have a policy requiring separation of the Chief Executive Officer and Chairman roles, and we may reconsider our leadership structure from time to time based on considerations at that time.

Board of Directors Role in Risk Oversight

Management continually monitors the material risks we face, including financial risk, strategic risk, operational risk, and legal and compliance risk. The Board of Directors is responsible for exercising oversight of management's identification and management of, and planning for, those risks. In fulfilling this oversight role,

our Board of Directors focuses on understanding the nature of our enterprise risks, including our operations and strategic direction, as well as the adequacy of our risk management process and overall risk management system. Our Board of Directors performs these functions in a number of ways, including the following:

at its regularly scheduled meetings, the Board of Directors receives management updates on our business operations, financial results and strategy and discusses risks related to the business;

the audit committee assists the Board of Directors in its oversight of risk management by discussing with management our guidelines and policies regarding financial and enterprise risk management, including major risk exposures, and the steps management has taken to monitor and control such exposures; and

through management updates and committee reports, the Board monitors our risk management activities, including the enterprise risk management process, risks relating to our compensation programs, and financial and operational risks.

Information Regarding the Board of Directors and its Committees

Our Board of Directors has an audit committee, a compensation committee and a nominating and governance committee. The following is membership and meeting information for each of these committees during the fiscal year ended December 31, 2009, as well as a description of each committee and its functions.

Audit Committee

The audit committee operates pursuant to a written charter that is available on our website at <http://www.dexcom.com>. The audit committee reviews and evaluates our financial statements, accounting practices and our internal accounting procedures, selects and engages the appointment of our independent registered public accounting firm and reviews the results and scope of the audit and other services provided by our independent registered public accounting firm.

Audit Committee Financial Experts. Our Board of Directors has determined that each of Kevin Sayer and Donald A. Lucas qualifies as an audit committee financial expert, as defined in applicable Securities and Exchange Commission, or SEC, rules. In addition, each member of our audit committee possesses the financial qualifications required of audit committee members set forth in the rules and regulations of the NASDAQ Global Market. The Board made a qualitative assessment of the committee members' level of knowledge and experience based on a number of factors, including formal education and experience.

Compensation Committee

The compensation committee operates pursuant to a written charter that is available on our website at <http://www.dexcom.com>. The compensation committee reviews and determines the compensation and benefits of our executive officers, reviews and recommends to our Board the compensation for our non-employee directors, reviews annually and recommends to our Board cash-based and equity-based incentive compensation under our equity compensation and employee benefits plans and reviews our general policies relating to compensation and benefits. Each member of this committee is a non-employee director, as defined in Rule 16b-3 promulgated under the Securities Exchange Act of 1934, as amended, or the Exchange Act, and an outside director, as defined pursuant to Section 162(m) of the Internal Revenue Code of 1986, or the Code.

Compensation Committee Policies and Procedures. The compensation committee reviews management's recommendations for compensation and benefits for executive officers. The compensation committee reviews and determines the amount and composition of executive compensation to be paid to the executive officers, including the Chief Executive Officer.

The compensation committee annually reviews and evaluates base salary and bonuses for all executive officers, and in conducting such reviews, places primary consideration upon the recommendations by the Chief Executive Officer, along with the rationale for such recommendations, with the exception of the compensation review of the Chief Executive Officer himself. The Chief Executive Officer does not participate in the compensation committee's review or decision as to his compensation package. In establishing individual compensation levels, the compensation committee considers our overall strategic objectives and performance, our stock performance, peer group comparisons and individual performance. No formula is used to determine an executive's salary. Our overall performance and the achievement of financial and business objectives are considered.

Management's Role in the Compensation-Setting Process. Management, including our named executive officers, plays some role in the compensation-setting process. The most significant aspects of management's role are evaluating employee performance, assisting in establishing performance targets and objectives, and recommending salary levels and equity awards. The Chief Executive Officer works with the compensation committee in establishing the agenda for compensation committee meetings. Management also prepares meeting information for each compensation committee meeting.

Use of Compensation Consultants. The compensation committee has in the past engaged compensation consultants to conduct a review and analysis of how our compensation practices compare with our peer group of companies, including during 2006 and 2007.

Nominating and Governance Committee

The nominating and governance committee operates pursuant to a written charter that is available on our website at <http://www.dexcom.com>. The nominating and governance committee makes recommendations to our Board of Directors concerning candidates for election to our Board of Directors and other corporate governance matters.

The nominating and governance committee considers director nominees recommended by sitting directors, officers, employees, stockholders and others using the same criteria to evaluate all candidates. The nominating and governance committee reviews each candidate's qualifications, including whether a candidate possesses any of the specific qualities and skills desirable in certain members of the Board. Evaluations of candidates generally involve a review of background materials, internal discussions and interviews with selected candidates as appropriate. Upon selection of a qualified candidate, the nominating and governance committee recommends the candidate for consideration by the full Board. The nominating and governance committee may engage consultants or third-party search firms to assist in identifying and evaluating potential nominees, but has not done so to date.

Nominees for the Board should be committed to enhancing long-term stockholder value and must possess a high level of personal and professional ethics, sound business judgment and integrity. The Board's policy is to encourage selection of directors who will contribute to our overall corporate goals: responsibility to our stockholders, technology leadership in diabetes care, effective execution, high customer satisfaction and superior employee working environment. The nominating and governance committee may from time to time review the appropriate skills and characteristics required of Board members, including such factors as personal skills, diversity and professional experience in diabetes care, medical technology, finance, marketing, international business, financial reporting and other areas that are expected to contribute to an effective board of directors. In evaluating potential candidates for the Board, the nominating and governance committee considers these factors in the light of the specific needs of the Board at that time. While we do not have a formal policy with regard to the consideration of diversity in identifying director nominees, the nominating and governance committee strives to nominate directors with a variety of complementary skills so that, as a group, the Board will possess the appropriate talent, skills, and expertise to oversee our business. Board members are expected to prepare for, attend and participate in meetings of the Board and committees on which they serve, and are strongly encouraged to attend our annual meetings of stockholders.

The nominating and governance committee will consider director candidates recommended by stockholders. The nominating and governance committee does not intend to alter the manner in which it evaluates candidates, including the minimum criteria set forth above, based on whether or not the candidate was recommended by a stockholder. Stockholders who wish to recommend individuals for consideration by the nominating and governance committee to become nominees for election to the Board at an annual meeting of stockholders must do so in accordance with the procedures set forth in "When are stockholder proposals due for next year's annual meeting?" on page 3 of this proxy statement. Each submission must set forth: the name and address of the stockholder on whose behalf the submission is made; the number of our shares that are owned beneficially by such stockholder as of the date of the submission; the full name of the proposed candidate; a description of the proposed candidate's business experience for at least the previous five years; complete biographical information for the proposed candidate; and a description of the proposed candidate's qualifications as a director. To date, the nominating and governance committee has not received a director nominee from a stockholder or stockholders holding more than five percent of our voting stock.

Meetings of the Board of Directors and Board and Committee Member Attendance

Our Board of Directors met five times during the last fiscal year. Each Board member attended 75% or more of the aggregate of the meetings of the Board and of the committees on which he served, held during the period for which he was a director or committee member, respectively. We encourage all of our directors and nominees for director to attend our annual meeting of stockholders. Directors who attended our annual meeting of

stockholders in 2009 included Terrance H. Gregg, Donald A. Lucas, Donald L. Lucas, Jonathan T. Lord, M.D., Kevin Sayer and Jay S. Skyler, M.D.

Compensation Committee Interlocks and Insider Participation

None of the members of our compensation committee has at any time been one of our officers or employees. None of our executive officers serves or in the past has served as a member of the board of directors or compensation committee of any entity that has one or more of its executive officers serving on our Board of Directors or our compensation committee.

Code of Business Conduct and Ethics

We have adopted a Code of Conduct and Ethics for Employees and Directors that applies to all of our officers, directors and employees. We have also adopted an additional written code of ethics, the Code of Conduct and Ethics for Chief Executive Officer and Senior Finance Department Personnel, for financial employees that applies to our principal executive officer, principal financial officer, chief administrative officer, principal accounting officer, controller and other employees of the finance department designated by our chief financial officer. These codes are available on our website at <http://www.dexcom.com>. If we make any substantive amendments to the codes or grant any waiver from a provision of the codes to any executive officer or director, we will promptly disclose the nature of the amendment or waiver on our website, as well as via any other means then required by NASDAQ listing standards or applicable law.

Stockholder Communications with the Board of Directors

Should stockholders wish to communicate with the Board, such correspondences should be sent to the attention of the Secretary, at 6340 Sequence Drive, San Diego, California 92121. Our Secretary will forward the communication to the Board. We do not have a formal process by which stockholders may communicate directly with members of our Board of Directors. We believe that an informal process, in which any communication sent to the Board of Directors in care of the Secretary is generally to be forwarded to the Board of Directors, serves the needs of the Board and our stockholders.

DIRECTOR COMPENSATION

The Chairman of the Board, the Chairman of the audit committee, the Chairman of the compensation committee and the Chairman of the nominating and governance committee also received additional annual retainers with values equal to \$10,000, \$20,000, \$15,000 and \$10,000, respectively. The annual retainer restricted stock units will be granted on the date of the annual meeting of stockholders and will vest in one annual installment.

Equity Awards Granted to Directors. For 2009, other than the Chairman of the Board, each of our non-employee directors received an annual option grant with a

Black-Scholes value of \$125,000, which option grant vests in equal monthly installments over twelve months. PROPOSAL 2**RATIFICATION OF SELECTION OF INDEPENDENT****REGISTERED PUBLIC ACCOUNTING FIRM**

The audit committee of our Board of Directors has engaged Ernst & Young LLP as our independent registered public accounting firm for the fiscal year ending December 31, 2010 and is seeking ratification of such selection by our stockholders at the annual meeting. Ernst & Young LLP has audited our financial statements since 1999. Representatives of Ernst & Young LLP are expected to be present at the annual meeting. They will have an opportunity to make a statement if they so desire and will be available to respond to appropriate questions.

Neither our bylaws nor other governing documents or law require stockholder ratification of the selection of Ernst & Young LLP as our independent registered public accounting firm. However, the audit committee is submitting the selection of Ernst & Young LLP to our stockholders for ratification as a matter of good corporate practice. If our stockholders fail to ratify the selection, the audit committee will reconsider whether or not to retain Ernst & Young LLP. Even if the selection is ratified, the audit committee in its discretion may direct the appointment of a different independent registered public accounting firm at any time during the year if they determine that such a change would be in our best interests and the best interests of our stockholders.

To be approved, the ratification of the selection of Ernst & Young LLP as our independent registered public accounting firm must receive a For vote from the majority of shares present and entitled to vote either in person or by proxy. Abstentions and broker non-votes will be counted towards a quorum, but will not be counted for any purpose in determining whether this matter has been approved.

Pre-Approval Policies and Procedures

The audit committee pre-approves all audit and non-audit services provided by the independent registered public accounting firm. This policy is set forth in the charter of the audit committee that is available at www.dexcom.com.

The audit committee considered whether the non-audit services rendered by Ernst & Young LLP were compatible with maintaining Ernst & Young LLP's independence as the independent registered public accounting firm for auditing our consolidated financial statements and concluded they were.

THE BOARD OF DIRECTORS RECOMMENDS A VOTE *FOR* THE RATIFICATION OF THE SELECTION OF ERNST & YOUNG LLP AS OUR INDEPENDENT REGISTERED PUBLIC ACCOUNTING FIRM FOR THE FISCAL YEAR ENDING DECEMBER 31, 2010.

REPORT OF THE AUDIT COMMITTEE OF THE BOARD OF DIRECTORS

The material in this report is not soliciting material, is not deemed filed with the Securities and Exchange Commission, and is not to be incorporated by reference into any filing of DexCom under the Securities Act of 1933, as amended, or the Securities Exchange Act of 1934, as amended.

The primary purpose of the audit committee is to oversee DexCom's financial reporting processes on behalf of the Board of Directors. The audit committee's functions are more fully described in the audit committee charter, which is available on DexCom's website at <http://www.dexcom.com>. Management has the primary responsibility for DexCom's financial statements and reporting processes, including its systems of internal controls. In fulfilling its oversight responsibilities, the audit committee reviewed and discussed with management DexCom's audited financial statements as of and for the fiscal year ended December 31, 2009.

The audit committee reviewed with Ernst & Young LLP such matters as are required to be discussed with the audit committee under generally accepted auditing standards, including the matters required to be discussed by Statement on Auditing Standards No. 114, The Auditor's Communication with Those Charged with Governance, issued by the Auditing Standards Board of the American Institute of Certified Public Accountants. In addition, the audit committee discussed with Ernst & Young LLP their independence, and received from Ernst & Young LLP the written disclosures and the letter required by Ethics and Independence Rule 3526 of the Public Company Accounting Oversight Board. Finally, the audit committee discussed with Ernst & Young LLP, with and without management present, the scope and results of Ernst & Young LLP's audit of such financial statements, their evaluations of DexCom's internal controls, and the overall quality of DexCom's financial reporting.

Based on these reviews and discussions, the audit committee has recommended to the Board of Directors that such audited financial statements be included in DexCom's annual report on Form 10-K for the year ended December 31, 2009 for filing with the Securities and Exchange Commission. The audit committee also has engaged Ernst & Young LLP as DexCom's independent registered public accounting firm for the fiscal year ending December 31, 2010 and is seeking ratification of such selection by the stockholders.

EXECUTIVE COMPENSATION

Compensation Discussion and Analysis

The compensation committee of the Board of Directors has principal responsibility for establishing, implementing and continually monitoring adherence to our compensation philosophy and objectives. The committee's duties include evaluating the performance and advising the Board on the compensation of our Chief

Executive Officer, and setting the compensation of our other executive officers and directors, as well as performing oversight of our compensation arrangements, plans, policies and programs for employees generally.

General Objectives and Philosophy

Our philosophy for all employees, including our executive officers, is to relate compensation to corporate performance, while providing a total compensation package that is competitive and enables us to attract, motivate, reward and retain executive officers and employees. Different compensation elements are geared to reward short and longer-term performance with a common goal of increasing value for our key constituencies patients, healthcare providers, employees and our stockholders. We believe that the compensation of our executive officers and employees should reflect our success as an organization, and their performance as individuals, in attaining key financial and operating objectives established by our compensation committee. In addition, we strive to promote an ownership mentality among our executive officers and employees, which we believe is best achieved through our stock option and other equity incentive programs. As a significant part of our efforts to achieve profitability, we endeavor to conserve our cash resources. To that end, one important aspect of our overall compensation philosophy is to minimize cash compensation relative to our peer group of companies in favor of equity compensation, which we believe best aligns the interests of our employees with our stockholders. Above all, we endeavor to ensure that our compensation program is perceived as fundamentally fair to all key constituencies.

Compensation Consultant Engagement

In November 2006, in preparation for establishing 2007 compensation levels, our compensation committee solicited proposals from three separate compensation consultants and retained the services of Compensia, Inc. (Compensia) who had not before conducted any business directly with our company. Compensia was charged, among other things, with conducting a competitive assessment of our executive compensation. In addition to talking to members of our compensation committee and participating in meetings of the compensation committee, Compensia analyzed publicly available compensation related data and worked with our Chief Executive Officer to obtain historical data and insight into our previous compensation practices. In preparing its analysis, Compensia utilized a peer group of companies consisting of firms directly comparable in size and industry to ours, as well as firms which, although substantially larger in size, are direct competitors to us for valued employees in the medical technology business, and included the following companies:

Abbott Laboratories

Medtronic, Inc.

Ev3, Inc.

Northstar Neuroscience, Inc.

Orthovita, Inc.

Volcano Corporation

Johnson & Johnson

Conceptus, Inc.

Home Diagnostics, Inc.

NuVasive, Inc.

Thoratec Corp.

Our Chief Executive Officer and the Chairman of our compensation committee assisted Compensia in ensuring the peer group used was appropriate. Our compensation committee did not engage Compensia or any other compensation consultant to perform a base salary and cash bonus compensation analysis for fiscal 2009, because, in an effort to conserve our cash resources, the compensation committee elected not to increase the base salaries of any executive officer salaries during fiscal 2009. To ensure optimal alignment of our compensation practices with the interests of our stockholders and other key constituencies, the compensation committee engaged Compensia in November 2009 to perform analysis on our compensation practices beyond 2009.

Named Executive Officers for Fiscal 2009

For fiscal 2009, our named executive officers were:

Terrance Gregg, President and Chief Executive Officer;

Jess Roper, Vice President and Chief Financial Officer;

Richard Doubleday, Vice President of Sales;

John Lister, Vice President of Legal Affairs; and

Steven Pacelli, Chief Administrative Officer.

Mr. Doubleday and Mr. Lister are named executive officers for fiscal 2009 primarily because we granted stock options during 2009 only to newly hired or promoted executive officers, and did not issue annual stock option grants to executive officers during 2009. Mr. Doubleday received a new hire stock option grant in June 2009, and Mr. Lister received a promotion stock option grant in May 2009. Because we granted stock options to our executive officers in 2010, we expect Jorge Valdes and Andrew Baló, along with Terrance Gregg, Jess Roper and Steven Pacelli to comprise our named executive officers for fiscal 2010, as they were during fiscal 2008. Accordingly, the fiscal 2009 compensation for each of Jorge Valdes and Andrew Baló are also discussed and disclosed.

Elements of our Compensation

Elements of compensation for our employees, including our executive officers, include:

base salary that is designed primarily to be competitive with base salary levels in effect at comparable medical technology companies with which we compete for personnel;

cash bonuses tied to the achievement of annual performance goals established by the compensation committee; and

long-term equity incentives, including stock option and restricted stock grants, to strengthen the mutuality of interests between our employees and our stockholders.

Base Salary

We provide our executive officers and other employees with a base salary to compensate them for services rendered during the fiscal year. We determine base salaries for our executive officers based in part on our review of prevailing compensation practices in our peer group. The compensation committee reviews competitive market information with our Chief Executive Officer for each executive officer. The compensation committee recommends to the Board the Chief Executive Officer's compensation. In addition, at the beginning of each fiscal year, the compensation committee reviews each executive officer's performance for the last year and objectives for the next year, together with the executive officer's responsibility and experience level. The compensation committee also considers our overall fiscal performance compared to our fiscal objectives and performance targets. The relative weight given to these factors varies with each individual at the discretion of the committee.

On January 7, 2009, the compensation committee approved 2009 base salaries for our named executive officers. In an effort to conserve our cash resources, for 2009 there were no increases in the base salaries of our named executive officers. The annual base salary in fiscal 2009 for Terrance Gregg was \$420,000; for Jess Roper was \$200,000; for Richard Doubleday was \$220,000; for John Lister was \$190,000; for Steven Pacelli was \$260,652; for Jorge Valdes was \$254,400; and for Andrew Baló was \$255,000.

Bonus Plans

Our cash bonus plans are designed to reward our executives for the achievement of shorter-term goals, principally relating to the achievement of revenue targets and operational performance goals. Target goals are generally developed through our annual financial planning process, whereby we assess our future operating environment and build projections on anticipated results. The compensation committee believes revenue targets

and operational performance goals are effective measurements in assessing how well or how poorly we are performing from a financial and development standpoint. It is our general philosophy that management be rewarded for their performance as a team in the attainment of these goals. We believe that this is important in aligning our executive officers and employees and promoting teamwork among them. As a result, our practice is to establish identical revenue targets and performance goals for all our executive officers and employees.

On January 7, 2009, our compensation committee approved a bonus plan for fiscal 2009 (2009 Plan). Under the 2009 Plan, the target bonus for the Chief Executive Officer was 50% of his base salary, the target bonus for our Chief Administrative Officer was 40% of his base salary, the target bonus for each of our Senior Vice Presidents was 35% of their respective base salaries and the target bonus for our Vice Presidents was 25% of their respective base salaries.

For fiscal 2009, the compensation committee identified product revenue as a key measure of our progress towards profitability as well as our growth in terms of number of customers served and their utilization of our products. To incentivize our focus on revenue growth, the weighted payout under the 2009 Plan was such that 70% of any bonus payable was based on achieving certain annual revenue goals (the Revenue Component). In addition, since continued development of our technology and achieving steps towards commercializing future products will also add to our overall value, 30% of any bonus payable under the 2009 Plan was based on achieving certain performance milestones (the Performance Component).

Under the 2009 Plan, no portion of the Revenue Component could be paid unless we met the specified minimum product revenue target for fiscal 2009 of \$13 million. Upon achievement of this minimum revenue target, each eligible participant was eligible to receive a bonus award of 80% of their targeted Revenue Component. Upon achievement of 100% of our revenue target for fiscal 2009 of \$15 million, each eligible participant was eligible to receive a bonus award of 100% of their targeted Revenue Component. If we exceeded our fiscal 2009 revenue target, the eligible participants were eligible to receive bonuses at various increased amounts up to a maximum of 175% of their targeted Revenue Component. The revenue target of \$15 million was established at a level that we believed to be achievable, but would have required better than expected performance by us and each of our named executive officers. During 2009, we generated revenue of approximately \$18 million. Accordingly, the eligible participants received a bonus of 125% of the targeted Revenue Component.

Under the Performance Component, bonus amounts could also be paid to the eligible participants if we achieved specified performance milestones in addition to achieving at least the minimum revenue goal. Eligible participants were eligible to receive 25% of their targeted Performance Component for achievement of each of four performance milestones related to advancement of our technology development and commercialization efforts during fiscal 2009. We achieved the first performance milestone, which related to the commercial launch of our SEVEN PLUS during the first half of 2009. We achieved the second performance milestone, which related to the launch of our SEVEN PLUS in Europe in 2009. We achieved the third milestone, which related to our efforts to collaborate with a partner on the continued development of our in-hospital blood glucose monitoring system. Last, we failed to achieve the fourth performance milestone which related to filing for a CE Mark during 2009 on a combined continuous glucose monitoring and insulin pump product. Accordingly, eligible participants received 75% of their Performance Target. These performance milestones were designed to require improvement upon past levels of performance, and as such we considered them significantly challenging to achieve. However, because of the uncertainties associated with being a growing company, the compensation committee could not, and did not undertake to, make a specific determination as to the probability of achieving any of these milestones, or meeting or exceeding revenue targets, at the time they were set.

Stock Option and Equity Incentive Programs

We grant equity awards to our executive officers and key employees based upon prior performance, the importance of retaining their services and the potential for their performance to help us attain our long-term

goals. We intend our equity award program to be the primary vehicle for offering long-term incentives and rewarding our executive officers and other key employees. We also regard our equity award program as a key retention tool. The retentive aspect of our equity award program is a very important factor in our determination of the type of award to grant and the number of shares underlying the equity award that are granted. We also consider the number of vested equity awards currently held by our executive officers in determining additional grants. During 2009, Mr. Doubleday and Mr. Lister received the only two equity awards granted to named executive officers. Mr. Doubleday received his stock option grant upon commencement of his employment with the company, and Mr. Lister received his stock option grant in connection with his promotion to Vice President of Legal Affairs. Historically, we have granted stock options to purchase 100,000 shares of our common stock to newly hired employees with the rank of vice president. To attract and retain highly qualified individuals while also conserving our cash resources we have issued equity to newly hired vice presidents at above the 50th percentile as compared to our peer group of companies. Mr. Doubleday's grant of 100,000 stock options was consistent with this practice. We typically have granted stock options to purchase 50,000 shares of our common stock to newly promoted employees with a rank of vice president to ensure that such promoted employee holds approximately 100,000 stock options at the time of the promotion. Mr. Lister's grant of 50,000 stock options was consistent with this practice. The rationale underlying these practices is to equalize, while also accounting for experience level and tenure with the company, the equity held by each executive officer at each level to promote teamwork and unity amongst our management.

Because of the direct relationship between the value of a stock option (which is the right to purchase a share of our common stock at a predetermined price) or share of restricted stock and the fair market value of our common stock, we believe that granting stock options and shares of restricted stock is the best method of motivating our executive officers and employees in a manner that is consistent with the interests of our company and our stockholders. Grants to newly hired executive officers are approved by the compensation committee and are effective on the executive's first day of employment. We typically grant stock options to certain of our executives and other key employees annually in conjunction with the review of their individual performance. The exercise price of these stock option grants is equal to the fair market value of our common stock on the date of grant. These reviews take place in conjunction with a meeting of the compensation committee and with the release of our fiscal year end earnings results. Because in May 2008, and again in December 2008, we granted stock options to certain executives and employees, as we believed that the granting of stock options was the best way to reward them for and to motivate them toward superior performance, as well as to retain their services during a difficult economic environment, we did not grant annual stock options to our executives during 2009 outside of promotion or new hire grants. We may utilize other forms of equity awards as and when we deem appropriate, particularly in response to changes in tax and accounting treatment of awards. Accordingly, the compensation committee plans to utilize restricted stock and fewer stock options as a means to retain, reward and motivate our executive officers and key employees in fiscal 2010, which would provide an incentive to an employee to spend an extended portion of time with us and to build value over time.

The Board has authorized our Chief Executive Officer, Chief Administrative Officer or Senior Vice President of Operations to approve grants of up to 50,000 shares of stock options to non-executive employees between regularly scheduled meetings of the compensation committee, up to an aggregate of 300,000 stock option awards in any calendar year. The grant date for any of these stock option awards is the date on which our Chief Executive Officer, Chief Administrative Officer or Senior Vice President of Operations approves the grant for the newly hired employee, and it is our practice to have our Chief Executive Officer approve stock option awards on a bi-weekly basis. The exercise price of all stock options is set at the closing price of our common stock on the NASDAQ Global Market on the grant date. With respect to executive officers, initial option grants typically vest as to 25% of the shares on the first anniversary of the date of grant with the remainder vesting ratably over a 36-month period thereafter. Subsequent stock option grants to executive officers typically vest ratably over a 48 month period.

Our insider trading policy prohibits all officers, directors and employees from speculating in our common stock, which includes, but is not limited to, short selling (profiting if the market price of the securities decreases);

buying or selling publicly traded options, including writing covered calls; and hedging or any other type of derivative arrangement that has a similar economic effect.

Perquisites and Certain Other Benefits

We limit the perquisites that we make available to our executive officers in an effort to conserve our financial resources. Except for certain severance and change of control agreements described below, our executives are not entitled to any benefits that are not otherwise available to all of our employees. In addition, it should be noted that we do not provide pension arrangements, and aside from COBRA benefits, post-retirement health coverage, or similar benefits for our executives or employees. Our health and insurance plans are the same for all employees.

Termination and Change of Control

Our severance and change of control agreements are designed to facilitate our ability to attract and retain executives as we compete for talent in a marketplace where such protections are commonly offered. The severance benefits described below are designed to ease an employee's transition due to an unexpected employment termination by us due to ongoing changes in our employment needs. The material terms of our change of control agreements were determined through benchmarking the change of control arrangements with our peer group and other similar companies. Our change of control agreements encourage executives to remain focused on our business in the event of rumored or actual fundamental corporate changes.

In June 2007, we entered into an Executive Change of Control and Severance Agreement with Mr. Gregg, and in December 2008, the compensation committee also approved a form of Amended and Restated Executive Change of Control and Severance Agreement (collectively, the Change of Control Agreement) that was entered into by each of our Chief Financial Officer, our other named executive officers and our other executive officers ranking vice president and above. We entered into the Change of Control Agreement as part of our ongoing, periodic review of our compensation and benefits programs, in recognition of the importance to us and to our stockholders of avoiding the loss and distraction of key management personnel that may occur if such key personnel are concerned about their job security in connection with actual or rumored corporate changes, and to help us attract and retain qualified executives who could have other job alternatives that may appear to them to be less risky without these arrangements.

The Change of Control Agreement provides that in the event of a change of control while the covered officer is employed by us, or in the event that the covered officer is involuntarily terminated without cause during the period that begins (1) 90 days prior to the earlier of (i) the execution of a letter of intent relating to a change of control transaction, or (ii) the execution of a definitive agreement with respect to a change of control transaction, in either case provided that the change of control with the party to the letter of intent or definitive agreement is consummated within two years following such execution, and ends (2) on the date such change of control becomes effective, the vesting of all of the shares subject to all options held by the covered officer and any other stock awards that the Board of Directors determines should be subject to the Change of Control Agreement will be accelerated in full. We believe the structure of this change of control arrangement protects stockholder value by allowing us the opportunity to deliver an intact and motivated management team to any potential acquirer. If we did not offer any benefits in connection with a change of control, our executives could be less motivated to pursue a potential acquisition or continue working for us during a transition after an acquisition, even if such a transaction would benefit our stockholders, because of the possibility that they would lose the potential value of their unvested equity compensation or future cash compensation upon an acquisition. As a result, we believe that these benefits further incentivize our executive officers to continue to create value for us and our stockholders.

The Change of Control Agreement also provides that, in the event we terminate a covered officer without cause (as defined therein) or the covered officer resigns due to a constructive termination (as defined therein) the covered officer will receive twelve months salary in a lump sum as severance and twelve months of vesting

acceleration of all of the shares subject to all options held by the covered officer and any other stock awards that the Board of Directors determines should be subject to the Change of Control Agreement. In each case, our obligation to make any severance payments or provide vesting acceleration is expressly conditioned upon the covered officer's execution and delivery of a general release and waiver of all claims. The Change of Control Agreement represents the complete and exclusive statement of agreement between the covered officers and us with respect to vesting acceleration or severance and supersedes any other agreements or promises made to the covered officers with respect to vesting acceleration or severance. The amounts payable upon a covered officer's termination of employment or upon a change of control are calculated on a hypothetical basis and set forth in the section entitled "Employment, Severance and Change of Control Arrangements" below.

Accounting and Tax Considerations

Since January 1, 2006, we have accounted for stock-based payments in accordance with the requirements of FASB ASC Topic 718. Section 162(m) of the Code limits our deduction for federal income tax purposes of no more than \$1 million of compensation paid to certain executive officers in a taxable year. Compensation above \$1 million may be deducted if it is performance-based compensation within the meaning of the Code. The committee believes that at the present time it is unlikely that the compensation paid to any executive officer in a taxable year that is subject to the deduction limit will exceed \$1 million. Therefore, the committee has not yet established a policy for determining which forms of incentive compensation awarded to our executive officers shall be designed to qualify as performance-based compensation. Our equity plan, in its present form, meets the requirements for obtaining tax deductibility. We intend to continue to evaluate the effects of the statute and any applicable Treasury regulations and to comply with Code section 162(m) in the future to the extent consistent with our best interests.

- (4) Mr. Gregg began serving as our President and Chief Executive Officer on June 19, 2007 and the compensation information in this table reflects his earnings as an employee and do not reflect his compensation as a non-employee director prior to June 19, 2007. Mr. Gregg's compensation for 2007 as a non-employee director was \$137,622, \$12,620 of which were fees earned or paid in cash, and \$125,002 of which were related to option grants, which figure reflects the grant date fair value of such option grant.
- (5) Pursuant to Mr. Gregg's original offer letter agreement dated June 19, 2007 (the Employment Date), Mr. Gregg was to receive an option to purchase 1,355,000 shares of our common stock under our 2005 Equity Incentive Plan on the Employment Date. Due to limitations set forth in the 2005 Equity Incentive

Plan, we were able to grant Mr. Gregg an option to purchase 962,000 shares of our common stock on the Employment Date. Employment, Severance and Change of Control Arrangements

In June 2007, we entered into an Employment Agreement with our President and Chief Executive Officer, Terrance Gregg, as amended in December 2008 (the Gregg Employment Agreement). Under the Gregg Employment Agreement, in the event we terminate Mr. Gregg's employment without cause or he is constructively terminated, he will receive 12 months salary as severance and 12 months of vesting acceleration of all of the shares subject to all options held by Mr. Gregg and any other stock awards that the Board of Directors determines should be subject to the provisions of the Gregg Employment Agreement. In addition, all stock options granted to Mr. Gregg, whether currently outstanding or granted in the future, will immediately vest upon a change of control.

The following table summarizes the potential payments and benefits payable to Mr. Gregg upon termination of employment or a change of our control under each situation listed below, modeling, in each situation, that Mr. Gregg was terminated on December 31, 2009. The Gregg Employment Agreement requires that the severance payment be in a lump sum.

Executive Benefits and

| Payments Upon Termination: | Involuntary Termination Not For Cause | Constructive Termination | Following a Change of Control |
|--|--|-------------------------------------|--|
| <i>Base salary</i> | \$ 420,000 | \$ 420,000 | \$ 420,000 |
| <i>Value of accelerated equity awards(1)</i> | \$ 668,128 | \$ 668,128 | \$ 1,265,933 |

- (1) Represents the value of accelerated vesting of Mr. Gregg's stock options and restricted stock. The closing price of our common stock on December 31, 2009 was \$8.07, which was less than the exercise price of options to purchase 455,000 shares of our common stock held by Mr. Gregg.

We have also entered into change of control arrangements with Mr. Roper, Mr. Doubleday, Mr. Lister, Mr. Pacelli, Mr. Balo and Mr. Valdes. The Change of Control Agreements provide that in the event of a change of control while the executive is employed by us, or in the event that the executive is involuntarily terminated without cause during the period that begins (1) 90 days prior to the earlier of (i) the execution of a letter of intent relating to a change of control transaction, or (ii) the execution of a definitive agreement with respect to a change of control transaction, in either case provided that the change of control with the party to the letter of intent or definitive agreement is consummated within two years following such execution, and ends (2) on the date such change of control becomes effective, the vesting of all of the shares subject to all options held by the executive

and any other stock awards that the Board of Directors determines should be subject to the Change of Control Agreements will be accelerated in full. The Change of Control Agreements also provide that, in the event we terminate the executive without cause or the executive resigns due to a constructive termination, the executive will receive a lump sum payment equal to twelve months salary as severance and twelve months of vesting acceleration of all of the shares subject to all options held by the executive and any other stock awards that the Board of Directors determines should be subject to the Change of Control Agreement. In each case, our obligation to make any severance payments or provide vesting acceleration is expressly conditioned upon the executive's execution and delivery of a general release and waiver of all claims. The Change of Control Agreement represents the complete and exclusive statement of agreement between the executive and us with respect to vesting acceleration or severance and supersedes any other agreements or promises made to the executive with respect to vesting acceleration or severance.

The following table summarizes the potential payments and benefits payable to each of Mr. Roper, Mr. Doubleday, Mr. Lister, Mr. Pacelli, Mr. Balo and Mr. Valdes upon termination of employment or a change in our control under each situation listed below, modeling, in each situation, that Mr. Roper, Mr. Doubleday, Mr. Lister, Mr. Pacelli, Mr. Balo and Mr. Valdes were terminated on December 31, 2009.

| Name of Executive: | Balo | | Doubleday | | Lister | | Pacelli | | Roper | | Valdes | |
|--|------------|------------------------------------|------------|------------------------------------|------------|------------------------------------|------------|------------------------------------|------------|---|------------|------------------------------------|
| | Severance | Value of Accelerated Stock Options | Severance | Value of Accelerated Stock Options | Severance | Value of Accelerated Stock Options | Severance | Value of Accelerated Stock Options | Severance | Value of Accelerated Stock Options and Restricted Stock | Severance | Value of Accelerated Stock Options |

| <i>Following a Change of Control</i> | \$ 255,000 | \$ 576,508(1) | \$ 220,000 | \$ 204,000 | \$ 190,000 | \$ 222,244(1) | \$ 260,652 | \$ 583,044(1) | \$ 200,000 | \$ 201,411(1)(2) | \$ 254,400 | \$ 583,044(1) |

(1) The closing price of our common stock on December 31, 2009 was \$8.07, less than the exercise price of a portion of options held.

(2) \$3,026 of which represents the value of accelerated vesting of Mr. Roper's restricted stock.

CERTAIN TRANSACTIONS WITH RELATED PERSONS

From January 1, 2009 to the present, there have been no, and there are no currently proposed transactions in which the amount involved exceeded \$120,000 to which we were or will be a party and in which any executive officer, director, 5% beneficial owner of our common stock or member of the immediate family of any of the foregoing persons had or will have a direct or indirect material interest.

Our audit committee reviews the fairness and determines approval of any proposed transaction between us and management or other related parties (other than transactions that are subject to review by the compensation committee) that are brought to the attention of the audit committee. In addition, our Code of Conduct and Ethics sets forth factors that should be considered in determining whether there may be a direct or indirect material interest, such as the size and nature of the person's interest; the nature of our relationship with the other individual or entity; and whether the person has access to confidential company information.

HOUSEHOLDING OF PROXY MATERIALS

The SEC has adopted rules that permit companies and intermediaries (such as brokers, banks or other agents) to satisfy the delivery requirements for proxy statements and annual reports with respect to two or more stockholders sharing the same address by delivering a single proxy statement addressed to those stockholders. This process, which is commonly referred to as householding, potentially means extra convenience for stockholders and cost savings for companies.

This year, a number of broker, banks or other agents with account holders who are stockholders of DexCom will be householding our proxy materials. A single proxy statement will be delivered to multiple stockholders sharing an address unless contrary instructions have been received from the affected stockholders. Once you have received notice from your broker, bank or other agent that it will be householding communications to your address, householding will continue until you are notified otherwise or until you revoke your consent. If, at any time, you no longer wish to participate in householding and would prefer to receive a separate proxy statement and annual report, please notify your broker, bank or other agent, and direct a written request for the separate proxy statement and annual report to American Stock Transfer and Trust Company at 59 Maiden Lane, Plaza Level, New York, New York, 10038. Stockholders whose shares are held by their broker, bank or other agent as nominee and who currently receive multiple copies of the proxy statement at their address that would like to request householding of their communications should contact their broker, bank or other agent.

OTHER MATTERS

Our Board of Directors knows of no other matters that will be presented for consideration at the annual meeting. If any other matters are properly brought before the meeting, it is the intention of the persons named in the accompanying proxy to vote on such matters in accordance with their best judgment.

ANNUAL REPORTS

A copy of our annual report to stockholders, which includes financial statements, is being mailed with this proxy statement.

We have filed our annual report on Form 10-K for the fiscal year ended December 31, 2009 with the SEC. It is available free of charge at the SEC's web site at www.sec.gov. Upon written request by a DexCom stockholder, we will mail without charge a copy of our Form 10-K, including the financial statements and financial statement schedules, but excluding exhibits to the Form 10-K. Exhibits to the Form 10-K are available upon payment of a reasonable fee, which is limited to our expenses in furnishing the requested exhibit.
