Explanatory Note

This Amendment No. 1 (this Revised Schedule 14A) to the Schedule 14A of FactSet Research Systems Inc. (the Company) that was originally filed on October 29, 2010 (the Original Filing), is filed to reflect two changes to the Amended and Restated FactSet Research Systems Inc. 2004 Stock Option and Award Plan (the Plan) that is being submitted to the Company 's stockholders for approval at the Fiscal 2010 Annual Meeting of Stockholders of the Company pursuant to Proposal 3 as described under Matters to be Considered at the Annual Meeting in the Original Filing.

In response to feedback the Company has received from our stockholders, the Board of Directors has revised the proposed Plan to:

- (i) reduce the number of additional shares to be authorized for issuance under the Plan from 7,500,000 to 4,000,000, for a total of 11,500,000 shares reserved for issuance under the Plan; and
- (ii) delete the provisions in Section 3.5 of the form of the Plan included in Annex A in the Original Filing which would have allowed for the reissuance of shares to the extent that stock appreciation rights were settled in shares or a stock option was to be exercised by tendering shares to the Company as full or partial payment of the exercise price.

To reflect those two changes, the Company has changed the total number of shares authorized for issuance under Section 3.1 of the Plan from 15,000,000 in Annex A in the Original Filing to 11,500,000 in Annex A in this Revised Schedule 14A and deleted the proviso at the end of Section 3.5(a), deleted all of Section 3.5(b) and modified Section 3.5(c) of the Plan in Annex A as included in the Original Filing. In addition, the Company has made corresponding changes to the descriptions of the Plan under Matters to be Considered and the Annual Meeting Proposal 3: Approve the Amendment and Restatement of the FactSet Research Systems Inc. 2004 Stock Option Plan in this Revised Schedule 14A.

This Revised Schedule 14A does not otherwise modify or update any disclosures presented in the Original Filing. In addition, this Revised Schedule 14A does not otherwise reflect events occurring after the filing of the Original Filing or modify or update disclosures that may have been affected by subsequent events.

PROXY STATEMENT

THE PROXY STATEMENT AND ANNUAL REPORT TO STOCKHOLDERS ARE AVAILABLE AT:

<http://www.proxyvoting.com/fds>

Purpose of Meeting

The Board of Directors of FactSet Research Systems Inc. (FactSet or the Company) delivers this Proxy Statement and voting instructions, in connection with the solicitation of proxies which will be voted at the Annual Meeting of Stockholders of FactSet (the Meeting). The Meeting will be held at 3:00 p.m. Eastern Standard Time on Tuesday, December 14, 2010, at 601 Merritt 7 Norwalk, Connecticut 06851, and any adjournment or postponement thereof, for the purposes set forth in the accompanying Notice of Annual Meeting of Stockholders. The Proxy Statement was made available to FactSet s stockholders on October 29, 2010. The specific proposals to be considered and acted upon at the annual meeting are summarized in the accompanying Notice of Annual Meeting of Stockholders. Each proposal is described in more detail in this Proxy Statement.

Record Date and Share Ownership

The only outstanding voting security of FactSet is its common stock, \$0.01 par value per share. Stockholders of record at the close of business on October 18, 2010 will be entitled to vote at the Meeting on the basis of one vote for each share of FactSet common stock held. On October 18, 2010, there were 46,363,733 shares of FactSet common stock outstanding.

Submitting and Revoking Your Proxy

If you complete and submit your proxy, the persons named as proxies will follow your instructions. If you submit a proxy card but do not fill out the voting instructions on the proxy card, the persons named as proxies will vote your shares as follows:

1. To elect three directors to the Board of Directors, each for a three-year term.
2. To ratify the appointment of the accounting firm of PricewaterhouseCoopers LLP as FactSet s independent registered public accounting firm for the fiscal year ending August 31, 2011.
3. To approve the amendment and restatement of the FactSet Research Systems Inc. 2004 Stock Option and Award Plan.
4. To act upon such other business as may properly come before the Annual Meeting or any adjournment or postponement of the Annual Meeting.

In addition, if other matters are properly presented for voting at the Meeting, the persons named as proxies will vote on such matters in accordance with their best judgment. FactSet has not received notice of other matters that may be properly presented for vote at the Meeting.

Your stockholder vote is important. Stockholders of record may vote their proxies by Internet, telephone or mail. Stockholders who execute proxies may revoke them at any time before they are exercised by written notice to the Secretary of the Company at or prior to the Meeting by timely delivery of a valid, later-dated proxy or by voting by ballot at the Meeting. The cost of the solicitation of proxies will be borne by

FactSet.

Expenses of Solicitation

FactSet will bear the entire cost of preparing, printing and mailing this Notice of Annual Meeting of Stockholders and Proxy Statement, the enclosed proxy card, the Company's 2010 Annual Report on Form 10-K and any additional solicitation material that FactSet may provide to stockholders which is estimated at approximately \$100,000. The solicitation of proxies will be conducted primarily by mail, but may also include telephone, facsimile or oral communications by directors, officers or regular employees of the Company acting without special compensation. If you hold your shares through a bank, broker or other holder of record and share a single address and same last name with another stockholder, you may have received notice that only one Proxy Statement and Annual Report will be sent to your address unless you instructed the holder of record to the contrary. This practice, known as "householding", reduces multiple mailings to your household and also reduces the Company's printing and postage costs. If you have any questions or wish to receive additional copies of FactSet's Proxy Statement or Annual Report, please contact the Company's Investor Relations Department at 1-203-810-1000. The mailing address is 601 Merritt 7, Norwalk, Connecticut 06851 and its website address is <http://investor.factset.com>.

INFORMATION ABOUT THE 2010 ANNUAL MEETING AND VOTING

Why am I receiving these proxy materials?

The Board of Directors of the Company is asking for your proxy for use at the Annual Meeting of the Company, to be held at its corporate headquarters at 601 Merritt 7 Norwalk, Connecticut 06851 on Tuesday, December 14, 2010 at 3:00 p.m. Eastern Standard Time, and at any adjournment or postponement of the Meeting. As a stockholder, you are invited to attend the Meeting and are entitled to and requested to vote on the items of business described in this proxy statement.

Who is soliciting my vote?

The Board of Directors of the Company is soliciting your vote.

When were the enclosed solicitation materials first given to stockholders?

FactSet initially mailed to stockholders of the Company this proxy statement, proxy card and Annual Report to Stockholders on or about November 3, 2010.

What is the purpose of the Meeting?

You will be voting on:

To elect three directors to the Board of Directors, each for a three-year term;

To ratify the appointment of the accounting firm of PricewaterhouseCoopers LLP as FactSet's independent registered public accounting firm for the fiscal year ending August 31, 2011;

To approve the amendment and restatement of the FactSet Research Systems Inc. 2004 Stock Option and Award Plan; and

To act upon such other business as may properly come before the Annual Meeting or any adjournment or postponement of the Annual Meeting.

What are the Board of Director's recommendations?

The Board recommends a vote:

FOR the election of the director nominees named in this proxy statement;

FOR the ratification of the appointment of PricewaterhouseCoopers LLP as FactSet's independent registered accounting firm for the year ended August 31, 2011; and

FOR the approval of the amendment and restatement of the FactSet 2004 Stock Option and Award Plan.

Who is entitled to vote at the Meeting and how many votes do they have?

Edgar Filing: FACTSET RESEARCH SYSTEMS INC - Form DEF14A

Only holders of record of FactSet common stock at the close of business on October 18, 2010 will be entitled to vote at the Meeting. Each share has one vote. On October 18, 2010, there were 46,363,733 shares of FactSet common stock outstanding.

Who can attend the Meeting?

All stockholders as of October 18, 2010, or their duly appointed proxies, may attend the Meeting.

What is a quorum of stockholders?

If a majority of the shares outstanding and entitled to vote on the Record Date are present, either in person or by proxy, the Company will have a quorum at the Meeting. Any shares represented by proxies that are marked for, against, withhold, or abstain from voting on a proposal will be counted as present in determining whether there is a quorum. If a broker, bank, custodian, nominee, or other record holder of the Company's common stock indicates on a proxy card that it does not have discretionary authority to vote certain shares on a particular matter, and if it has not received instructions from the beneficial owners of such shares as to how to vote on such matters, the shares held by that record holder will not be voted on such matter (referred to as "broker non-votes") but will be counted as present for purposes of determining whether there is a quorum. Since there were 46,363,733 shares of common stock outstanding on October 18, 2010, the presence of holders of 23,181,867 shares is a quorum. FactSet must have a quorum to conduct the Meeting.

Vote Tabulation

Under the Delaware General Corporation Law, the election of FactSet's Directors requires a plurality of the votes represented in person or by proxy at the Meeting and the ratification of the selection of independent public auditors requires that the votes in favor exceed the votes against. BNY Mellon Shareowner Services will tabulate votes cast by proxy or in person at the Meeting. If you abstain from voting on any or all proposals you will be included in the number of stockholders present at the Meeting for the purposes of determining the presence of a quorum. Abstentions will not be counted either in favor of or against the election of the nominees or other proposals. Under the rules of the Financial Industry Regulatory Authority, Inc. ("FINRA"), brokers holding stock for the accounts of their clients who have not been given specific voting instructions as to a matter by their clients may vote their clients' proxies at their own discretion.

Table of Contents

What do I need to attend the Meeting?

In order to be admitted to the Meeting, a stockholder must own Company stock on the Record Date. If your shares are held in the name of a broker, bank, custodian, nominee, or other record holder (street name), you must obtain a proxy, executed in your favor, from the holder of record (that is, your broker, bank, custodian, or nominee) to be able to vote at the Meeting.

What is a proxy?

A proxy is another person you authorize to vote on your behalf. FactSet asks stockholders to instruct the proxy how to vote so that all common shares may be voted at the Meeting even if the holders do not attend the Meeting.

How are abstentions and broker non-votes treated?

Abstentions and broker non-votes count for purposes of determining the presence of a quorum. Abstentions and broker non-votes will not be counted as votes cast either for or against Proposal 1 (election of directors), Proposal 2 (ratification of independent registered public accounting firm) or Proposal 3 (approve amendment and restatement of the 2004 Stock Option Plan) and will have no impact on the result of the vote for these proposals.

How do I vote?

For stockholders whose shares are registered in their own names, as an alternative to voting in person at the Annual Meeting, you may vote via the Internet, by telephone or, for those stockholders who receive a paper proxy card in the mail, by mailing a completed proxy card. For those stockholders who receive a Notice of Internet Availability of Proxy Materials, it provides information on how to access your proxy card, which contains instructions on how to vote via the Internet or by telephone. For those stockholders who receive a paper proxy card, instructions for voting via the Internet or by telephone are set forth on the proxy card. Those stockholders who receive a paper proxy card and voting instructions by mail, and who elect to vote by mail, should sign and return the mailed proxy card in the prepaid and addressed envelope that was enclosed with the proxy materials, and your shares will be voted at the Annual Meeting in the manner you direct. If your proxy card is properly completed and received, and if it is not revoked, before the Meeting, your shares will be voted at the Meeting according to the instructions indicated on your proxy card. In the event that you return a signed proxy card on which no directions are specified, your shares will be voted **FOR** the election of each of the director nominees listed (Proposal 1), **FOR** the ratification of the appointment of PricewaterhouseCoopers LLP as FactSet's independent registered public accounting firm for the fiscal year ending August 31, 2011 (Proposal 2) and **FOR** the approval of the amendment and restatement of the FactSet Research Systems Inc. 2004 Stock Option and Award Plan (Proposal 3). To the Company's knowledge, no other matters will be presented at the Meeting. However, if any other matters of business are properly presented, the proxy holders named on the proxy card are authorized to vote the shares represented by proxies according to their judgment.

If your shares are held in a brokerage account, you should receive instructions from your record holder that must be followed in order for your record holder to vote your shares per your instructions. Many banks and brokerage firms have a process for their beneficial holders to provide instructions via the Internet or over the telephone. If Internet or telephone voting is unavailable from your bank or brokerage firm, please complete and return the enclosed voting instruction card. Without your instructions, your broker or nominee is permitted to use its own discretion to vote your shares on certain routine matters, such as ratification of our independent registered public accounting firm (Proposal 2). Prior to 2010, the election of directors was considered a routine matter for which brokers could vote your shares in their discretion. Beginning with this year's Meeting, brokers are not permitted to vote your shares in the election of directors (Proposal 1) unless you provide instructions to your broker on how to vote your shares. Therefore, if you do not provide voting instructions on Proposal 1, your shares will remain unvoted on that proposal. Stockholders who have elected to receive the 2010 Proxy Statement and Annual Report to Stockholders electronically will be receiving an email on or about November 3, 2010 with information on how to access stockholder voting and instructions.

What does it mean if I receive more than one proxy card or instruction form?

If you receive more than one proxy card or instruction form, it means that you have multiple accounts with FactSet's transfer agent and/or a broker or other nominee or fiduciary or you may hold your shares in different ways or in multiple names (e.g., joint tenancy, trusts, and custodial accounts). Please vote all of your shares.

How do I revoke my proxy and change my vote prior to the Meeting?

If you submit the enclosed proxy card, you may change your vote at any time before voting takes place at the Meeting. You may change your vote in one of four ways: (1) You may deliver to the Secretary of FactSet Research Systems Inc., Rachel Stern, 601 Merritt 7, Norwalk,

Edgar Filing: FACTSET RESEARCH SYSTEMS INC - Form DEF14A

Connecticut 06851, a written notice dated later than the proxy you want to revoke, stating that the proxy is revoked, (2) you may complete and send in another proxy card or voting instruction form with a later date, (3) you may attend the Meeting and vote in person, or (4) for shares you hold beneficially or in street name, you may change your vote by submitting a later dated voting instruction form to your broker or other nominee or fiduciary, or if you obtained a legal proxy form giving you the right to vote your shares, by attending the Meeting and voting in person.

Table of Contents**PROPOSALS TO BE CONSIDERED AT THE ANNUAL MEETING**

FactSet will present three proposals at the 2010 Annual Meeting of Stockholders. The Company has described in this proxy statement all the proposals expected to be made at the Annual Meeting. If the Company or a stockholder properly presents any other proposal at the Meeting, FactSet will, to the extent permitted by applicable law, use your proxy to vote your shares of FactSet common stock on the proposal in our best judgment.

Proposal 1: Election of Directors

Stockholders will elect three directors at the Annual Meeting of Stockholders. Three directors will hold office for a term not exceeding three years or until a successor is elected and qualified. Your proxy will be voted in favor of those persons to serve as directors, unless you indicate to the contrary on the proxy.

Management expects that the nominees will be available for election. However, if a nominee is not a candidate when the election occurs, your proxy will be voted to elect another nominee to be designated by the Nominating and Corporate Governance Committee of the Board of Directors (the Board) to fill any vacancy. Business experience and qualifications on these nominees and the other members of the Board of Directors is presented beginning at page 8 of this Proxy Statement under the caption Business Experience and Qualification of Board Members.

FactSet's Board recommends that Joseph E. Laird, James J. McGonigle and Charles J. Snyder each be elected to serve a three-year term expiring in concurrence with the Annual Meeting of Stockholders for fiscal year 2013.

Proposal 2: Ratification of Independent Registered Public Accounting Firm

PricewaterhouseCoopers LLP was the independent auditing firm of FactSet's consolidated financial statements for fiscal 2010. Representatives of PricewaterhouseCoopers LLP will be at the Meeting to respond to appropriate questions and make a statement should they desire to do so. In addition to performing the audit services for fiscal 2010, FactSet also retained PricewaterhouseCoopers LLP to perform non-audit services during the year.

Independent Registered Public Accounting Firm's Fees and Services

The aggregate fees billed by PricewaterhouseCoopers LLP in connection with audit and non-audit services rendered for fiscal 2010 and 2009 were as follows:

	2010	2009
Audit fees (1)	\$ 479,350	\$ 461,000
Audit-related fees (2)		
Tax fees (3)	30,000	51,000
All other fees (4)	2,400	2,400
Total	\$ 511,750	\$ 514,400

- (1) Represents fees for professional services rendered for the integrated audit of FactSet's annual consolidated financial statements and of its internal control over financial reporting, for review of the interim consolidated financial statements included in quarterly reports on Form 10-Q and for services that are normally provided by PricewaterhouseCoopers LLP in connection with statutory and regulatory filings or engagements.

Edgar Filing: FACTSET RESEARCH SYSTEMS INC - Form DEFR14A

- (2) Represents fees for assurance and related services that are reasonably related to the performance of the audit or review of FactSet's consolidated financial statements and are not reported under Audit Fees. These services include employee benefit plan audits, accounting consultations in connection with transactions, attest services that are not required by statute or regulation and consultations concerning financial accounting and reporting standards.
- (3) Tax fees were for services related to tax consulting and planning services.
- (4) All other fees represent fees for services provided to FactSet which are otherwise not included in the categories above. These fees primarily consist of licensing accounting research software.

Table of Contents

Policy on Audit Committee Pre-Approval of Audit and Permissible Non-Audit Services

The Audit Committee's policy is to pre-approve all audit and permissible non-audit services to be provided by the independent registered public accounting firm. These services may include audit services, audit-related services, tax services and other services. Pre-approval is detailed as to the particular service or category of services and is generally subject to a specific budget. The independent registered public accounting firm and management are required to report periodically to the Audit Committee regarding the extent of services provided by the independent registered public accounting firm in accordance with this pre-approval, and the fees for the services performed to date. The Audit Committee may also pre-approve particular services on a case-by-case basis.

The Audit Committee has determined that the provision of non-audit services by PricewaterhouseCoopers LLP is compatible with maintaining the independence of PricewaterhouseCoopers LLP. During 2010, all professional services provided by PricewaterhouseCoopers LLP were pre-approved by the Audit Committee in accordance with this policy.

Audit Partner and Audit Firm Rotation

The Audit Committee's policy is that the audit engagement partner should rotate off the Company's account no less frequently than every five years. The engagement partner for fiscal 2011 has been in place since September 1, 2008. With respect to audit firm rotation, the Audit Committee believes that it is inappropriate to establish a fixed limit on the tenure of the independent auditor. Continuity and the resulting in-depth knowledge of the Company strengthen the audit. Moreover, the mandatory partner rotation policy expressed above, normal turnover of audit personnel, the Audit Committee's policy regarding the hiring of auditor personnel as described below and the Audit Committee's practices restricting non-audit engagements of the independent auditor as described below, all mitigate against any loss of objectivity that theoretically could arise from a long-term relationship. As provided in the Audit Committee's Charter and as further described below, the Audit Committee continuously evaluates the independence and effectiveness of the independent auditor and its personnel and the cost and quality of its audit services. The Audit Committee will periodically consider alternatives to ensure that the Audit Committee and the Company's stockholders are receiving the best audit services available.

Auditor Independence

As noted in the Audit Committee Charter and in the Audit Committee Report presented on page 14, the independent auditor reports directly to the Audit Committee and the Audit Committee is charged with evaluating its independence.

FactSet's Board recommends that you vote to ratify the Audit Committee's selection of PricewaterhouseCoopers LLP as the Company's independent registered public accounting firm for the fiscal year ending August 31, 2011.

Proposal 3: Approve the Amendment and Restatement of the FactSet Research Systems Inc. 2004 Stock Option Plan

The Company is asking its stockholders to approve an amendment to the FactSet Research Systems Inc. 2004 Stock Option Plan (the "Plan") in order to increase the maximum number of shares of the Company's common stock that may be issued under the plan by 4,000,000, for a total of 11,500,000 reserved for issuance pursuant to the Plan.

In October 2010, the Compensation Committee recommended, and the full Board of Directors approved, subject to stockholder approval, an amendment to the Plan to increase the share reserve by 4,000,000 shares of FactSet common stock. FactSet's stockholders have previously authorized the Company to issue under the Plan up to a total of 7,500,000 shares of FactSet common stock, subject to adjustment upon certain changes in capital structure (i.e. stock splits).

The Compensation Committee and the full Board of Directors believe the purpose of the Plan is as follows:

Edgar Filing: FACTSET RESEARCH SYSTEMS INC - Form DEF14A

To provide a means by which key employees of the Company and its subsidiaries can acquire and maintain stock ownership, thereby strengthening their commitment to the success of the Company and their desire to remain employed.

To successfully attract, employ, compensate and retain key employees.

To provide key employees with additional incentive and reward opportunities designed to encourage them to enhance the profitable growth of the Company and its subsidiaries.

Table of Contents

The ability for FactSet to grant performance-based stock options to its employees allows the Company to link financial performance to stock option vesting (and its related benefits). Through the use of performance-based stock options, FactSet is able to keep in mind the interests of its stockholders because compensation expense related to performance-based options is based on the Company achieving certain financial metrics over a future performance window. If these performance metrics are not achieved, then no compensation expense will be recognized.

Share-based awards such as those provided under the Plan have historically been a meaningful component of total compensation for the Company's highly skilled employees.

As August 31, 2010, 2.2 million shares remained available for future grant of share-based awards under the 2004 Plan, a number that the Compensation Committee and the full Board of Directors believe to be insufficient to meet the Company's anticipated needs over the next 12 to 18 months. Management believes strongly that the approval of the amendment and restatement of the Plan is essential to the Company's continued success. Therefore, the Compensation Committee recommended, and the full Board of Directors approved, subject to stockholder approval, an amendment to increase the maximum number of shares of FactSet common stock issuable under the Plan by 4,000,000 shares to a total of 11,500,000 shares of the Company's common stock, subject to adjustment upon certain changes in our capital structure.

History of the Plan

The following provides a brief history of the Plan.

Plan approved by stockholders on December 22, 2004.

All share-based awards issued to employees between May 2005 and August 2010 were made under the Plan.

The approximate life of the initial 7,500,000 shares authorized and available for grant under the Plan was 6 years.

Under the Plan, FactSet has granted a mix of performance-based stock options, service-based stock options and restricted stock awards.

FactSet employed 1,025 individuals as of the date the Plan was initially approved in December 2004, as compared to 4,116 employees at August 31, 2010.

The term of each option was for a period of seven years from the grant date. The Amended and Restated 2004 Plan increases the term of each option to 10 years, which provides more value to the employee because an employee is able to benefit from increases in the underlying price of FactSet common stock over a longer period of time. An increase to the option term also benefits the Company as it improves retention value.

Summary of the Plan

The following provides a summary of the principal features of the Plan and its operation. The summary is qualified in its entirety by reference to the Plan as set forth in Appendix A.

Administration

The Plan shall be administered by the Board.

General

The Board of Directors originally adopted the Plan in October 2004, and it was subsequently approved by our stockholders on December 22, 2004.

Types of Awards to be Granted

The Plan provides for the grant of stock options, stock appreciation rights, restricted stock, restricted stock units, performance units, performance shares and SARs to the Company's employees.

Common Stock Available for Future Issuance under the Plan

A total of 7,500,000 shares of FactSet common stock were initially reserved for issuance under the Plan upon approval in December 2004. Assuming stockholders approve this proposal to increase the number of FactSet common stock issuable under the Plan by 4,000,000, a total of 11,500,000 will have been reserved for issuance pursuant to the Plan. The shares of FactSet common stock to be issued may be either authorized and unissued shares or shares held by the Company in its treasury. Shares that by reason of an option's or other award's expiration, cancellation, forfeiture or other termination are no longer subject to purchase or issuance may be reoffered under the Plan. On August 31, 2010, 2,216,092 shares of FactSet common stock remained available for future issuance under the Plan.

Stock Options and Restricted Stock Outstanding

On August 31, 2010, options to purchase a total of 6,451,022 shares and restricted stock representing the right to acquire 261,417 shares of FactSet common stock were outstanding. The outstanding stock options had a weighted average exercise price of \$47.73 per share.

Participant Eligibility

Only employees of the Company shall be eligible to participate in the Plan. Stock options, restricted stock, stock appreciation rights, performance units, performance shares, SARs and other stock based awards may be granted under the Plan to employees of the Company or its subsidiaries. As of August 31, 2010, FactSet had 4,116 employees.

Grants of Options

The Board shall, from time to time, in its sole discretion, subject to the limitations of the Plan, grant options to employees and determine the number of shares to be subject to the option. The term of each option shall be a period of not more than ten years from the grant date, and shall be subject to earlier termination as herein provided. The amended Plan extends the term of each option to 10 years to provide incremental value to both the Company and its employee base. A benefit to FactSet from extending the term of the option to 10 years is the Company is able to improve retention value. An employee is also able to benefit through appreciation in the underlying price of FactSet common stock over a longer period of time, thus increasing the potential in-the-money value of the option.

Terms and Conditions of the Options

Each option grant is subject to additional terms and conditions relating to the exercise, vesting, forms of consideration for payment, termination of directorships and non-transferability as outlined in the complete text of the Plan attached to this Proxy Statement as Appendix A.

Adjustments upon Changes in Capitalization

If there is a stock split, a reverse stock split, a stock dividend, a combination or reclassification of the Shares, or any other increase or decrease in the number of shares effected without receipt of consideration by the Company (except for certain conversions of convertible securities), appropriate adjustments shall be made, subject to any required action by the Company's stockholders.

Change in Control

In the event of a reorganization, recapitalization, merger or other types of change in control, the Board, shall have the right, but not the obligation, to provide that outstanding options granted under the Plan are canceled in respect of a payment of different types, or adjusted to represent options to receive cash or other consideration.

Amendment and Termination of the Plan

Unless sooner terminated by action of the Board, the Plan will terminate on December 14, 2020. The Board may not grant share-based awards under the Plan after such termination date, but awards granted before that date will continue to be effective in accordance with their terms.

Required Vote

Approval of the proposed amendment to the Plan requires the affirmative FOR vote of a majority of the votes cast on the proposal. Unless marked to the contrary, proxies received will be voted FOR approval of an amendment to increase the number of shares issuable under the Plan by 4,000,000 shares. The Plan shall take effect on the date on which the Plan is adopted by the Board, but its effectiveness and the exercise of any awards shall be subject to the approval of the holders of a majority of the voting shares of the Company.

Recommendation

The Company believes strongly that the approval of the amendment to the Plan is essential to FactSet's continued success. Employees are one of the Company's most valuable assets. Stock options and other awards such as those provided under the Plan are vital to FactSet's ability to attract and retain outstanding and highly skilled individuals. Such awards also are crucial to the Company's ability to motivate employees to achieve its goals. For the reasons stated above, the stockholders are being asked to approve the amendment to the Plan.

The complete text of the Plan is attached to this Proxy Statement as Appendix A.

Your Board recommends that you vote FOR this item 3, the proposal to approve the Amendment and Restatement of the FactSet Research Systems Inc. 2004 Stock Option Plan.

CORPORATE GOVERNANCE

Board Leadership Structure

The Board believes that the Company's stockholders are best served if the Board retains the flexibility to adapt its leadership structure to applicable facts and circumstances, which necessarily change over time. Accordingly, the Company's Corporate Governance Principles provide that the Board may combine or separate the roles of the Chief Executive Officer and Chairman, as it deems advisable. The Board of Directors believe that Philip Hadley's service as both Chairman of the Board and Chief Executive Officer is in the best interest of FactSet and its stockholders. Mr. Hadley possesses detailed and in-depth knowledge of the issues, opportunities and challenges facing FactSet, and is thus best positioned to develop agendas that ensure that the Board's time and attention are focused on the most critical matters. His combined role enables decisive leadership, ensures clear accountability and enhances the Company's ability to communicate its message and strategy clearly and consistently to FactSet's stockholders, employees, clients and users.

The Company's current certificate of incorporation and bylaws provide that the Chairman of the Board of Directors may be an employee or officer of FactSet. On September 5, 2000, FactSet's Board of Directors unanimously appointed Philip Hadley as Chairman of the Board of Directors.

Each of the directors other than Philip Hadley and Michael DiChristina, are independent (see [Director Independence](#) below), and the Board believes that the independent directors provide effective oversight of management. In addition, on September 19, 2005, the Board of Directors appointed James J. McGonigle as the Company's Lead Independent Director. As Lead Independent Director, James's responsibilities include:

Coordinating and moderating executive sessions of the Board of Directors' independent directors.

Advising the Chairman of the Board of Directors as to the quality, quantity, and timeliness of the flow of information from management that is necessary for the independent directors to effectively and responsibly perform their duties.

Confirming the agenda with the Chief Executive Officer for meetings of the Board of Directors.

Holding regular update sessions with the Chairman of the Board of Directors.

Acting as the principal liaison between the independent directors and the Chairman of the Board of Directors on sensitive issues.

Performing such other duties as the Board of Directors may from time to time delegate to the Lead Independent Director to assist the Board of Directors in the fulfillment of its responsibilities.

The Board believes that these responsibilities appropriately and effectively complement FactSet's combined Chairman/Chief Executive Officer structure. Although the Board currently believes that the combination of the Chairman and Chief Executive Officer roles is appropriate in the current circumstances, FactSet's Corporate Governance Guidelines do not establish this approach as a policy.

No fees were paid to compensation consultants by FactSet because no consulting services were provided to the Board or Compensation Committee related to executive or Director compensation during fiscal 2010. The Compensation Committee met three times during fiscal 2010.

Nominating and Corporate Governance Committee. The Nominating and Corporate Governance Committee reviews the qualifications of candidates for nomination as Directors, makes recommendations to the Board regarding prospective nominees to the Board, issues recommendations to the Board regarding corporate governance issues and, as appropriate, assists in succession planning for senior management of FactSet. The Nominating and Corporate Governance Committee will consider nominees recommended by security holders in written communications to FactSet's Secretary. Nominees for the Board of Directors should be committed to enhancing long-term shareholder value and must possess a high level of personal and professional ethics, sound business judgment and integrity. The Board of Directors is composed of a diverse group of leaders. The Board of Directors encourages selection of Directors who will contribute to FactSet's overall corporate goals: responsibility to its stockholders, technology leadership, effective execution, high client satisfaction and superior employee working environment. The Nomination and Governance Committee from time to time reviews the appropriate skills and characteristics required of board members, including factors that it seeks in board members such as diversity of business experience, viewpoints, personal background and diversity of skills in finance, technology, marketing, international business, financial reporting and other areas that are expected to contribute to an effective Board of Directors. In evaluating potential candidates for the Board of Directors, the Nomination and Governance Committee considers these factors in the light of the specific needs of the Board at that time. The description of each nominee set forth in the Business Experience and Qualification of Board Members section above includes the primary individual experience, qualifications, attributes and skills of each of the Company's Directors that led to the conclusion that each director should serve as a member of the Board of Directors at this time. The Nominating and Corporate Governance Committee met once during fiscal 2010 and all members of the Committee attended.

The Role of the Board in Risk Oversight

The Board as a whole has responsibility for risk oversight, with reviews of certain areas being conducted by the relevant Board committees. These committees then provide reports to the full Board. The oversight responsibility of the Board and its committees is enabled by management reporting processes that are designed to provide visibility to the Board about the identification, assessment and management of critical risks. These areas of focus include strategic, operational, financial and reporting, succession and compensation, compliance and other risks. The Board and its committees oversee risks associated with their respective areas of responsibility, as summarized above.

The Company believes that risk is inherent in innovation and the pursuit of long-term growth opportunities. FactSet's management is responsible for day-to-day risk management activities. The Board of Directors, acting directly and through its committees, is responsible for the oversight of FactSet's risk management. With the oversight of the Board of Directors, FactSet has implemented practices and programs designed to help manage the risks to which it is exposed to in its business and to align risk-taking appropriately with efforts to increase stockholder value. FactSet's management evaluates enterprise risk and has implemented controls and procedures designed to work across the business to identify, assess, govern and manage risks and FactSet's response to those risks. These procedures include quarterly global risk reviews by members of senior management at Board meetings, as well as a senior management committee that focuses on risk management-related topics.

The Audit Committee, which oversees FactSet's financial and risk management policies, receives regular reports on risk and internal controls, including from the Principal Financial Officer, a member of the senior management committee above. As part of the overall risk oversight framework, other committees of the Board of Directors also oversee certain categories of risk associated with their respective areas of responsibility. For example, the Principal Financial Officer and Principal Accounting Officer oversee matters related to risk management policies and programs addressing currency and interest rate risk. The Compensation Committee oversees compensation-related risk management, as discussed further above and in the Compensation Discussion and Analysis.

Each committee reports on its activities to the full Board of Directors at each regular meeting of the Board. In addition, the Board of Directors participates in regular discussions among the Board and with FactSet's senior management of many core subjects, including strategy, operations, finance, and legal and public policy matters, in which risk oversight is an inherent element. The Board of Directors believe that the leadership structure described above under Board Leadership Structure facilitates the Board's oversight of risk management because it allows the Board, with leadership from the Lead Independent Director and working through its committees, including the independent Audit Committee, to participate actively in the oversight of management's actions.

DIRECTOR COMPENSATION

Director Compensation Program

The general policy of the Board is that compensation for independent directors should be a mix of cash and equity-based compensation. FactSet does not pay management directors for Board service in addition to their regular employee compensation. The Compensation Committee, which consists solely of independent directors, has the primary responsibility for reviewing and considering any revisions to director compensation. The Board reviews the committee's recommendations and determines the amount of director compensation. Each non-employee Director is provided access to the new FactSet, at no charge, which allows them to utilize the Company's suite of products and services.

For fiscal 2010, this compensation consisted of:

Cash Compensation.

A \$25,000 annual retainer paid quarterly.

An additional \$2,500 annual retainer to each chairman of a Board Committee.

An additional \$2,500 annual retainer to each Audit Committee member.

Equity Compensation.

On December 16, 2008, the Company's stockholders approved the 2008 Non-Employee Directors' Stock Option Plan (the "Plan") that provides for the grant of share-based awards, including stock options, to non-employee Directors of FactSet. The ratification of the Plan replaced the FactSet 1998 Non-Employee Directors' Stock Option Plan, which had expired on November 1, 2007, except with respect to outstanding options previously granted thereunder. A total of 250,000 shares of FactSet common stock have been reserved for issuance under the Plan. The expiration date of the Plan is December 1, 2018. The shares of FactSet common stock to be issued may be either authorized and unissued shares or shares held by the Company in its treasury. Consistent with the 1998 Non-Employee Directors' Stock Option Plan, the new Plan provides for annual equity grants for each non-employee Director and will provide the Company greater flexibility to change the vesting schedule per option grant, modify the number of options granted on an annual basis and adjust the term of the grants.

Annual grant

Under the 2008 Non-Employee Directors' Stock Option Plan, the Compensation Committee may award an annual equity grant to each non-employee Director on January 15th of each year having an intended value of \$65,000. The number of option shares to be granted in order to deliver this value will be determined on grant date using an option-pricing model. As such, the Compensation Committee recommended and the Board approved an annual equity grant of 3,085 non-qualified stock options to each of the six non-employee Directors on January 15, 2010. The exercise price was \$66.81 per share, being equal to the closing price of the Company's common stock on that date. The grant date fair value of this option grant was \$390,000 or \$65,000 per Director. The non-qualified stock options granted to Directors vest ratably at 20% per year over five years upon the anniversary date of each grant and expire seven years from the date the options were granted. The plan contains provisions regarding the exercisability and vesting of outstanding options in the event of termination of service, incapacity, death and change in control of FactSet.

New Director one-time grant

New Directors typically receive options to purchase up to 10,000 shares of FactSet common stock, as recommended by the Compensation Committee. The options are typically granted on January 15 after the new Director's first annual meeting. There were no new directors appointed to the Board during fiscal 2010.

Expenses.

Edgar Filing: FACTSET RESEARCH SYSTEMS INC - Form DEF14A

The Company pays or reimburses Directors for travel, lodging and related expenses incurred in connection with attending Board, Committee and stockholder meetings and other Company business related events. From time to time, the Company may reimburse a Director's expenses for his participation in third party-supplied continuing education related to the Director's Board or Committee service.

- (1) The amounts in the Option Awards column represent the aggregate grant date fair values, computed in accordance with Financial Accounting Standards Board (FASB) Accounting Standards Codification Topic 718, *Share-Based Payment*, (ASC Topic 718), of stock option awards issued during fiscal 2010 pursuant to the 2008 Non-Employee Directors Stock Option Plan. For information on the valuation assumptions with respect to stock option grants, refer to the Note 14, *Stock-based Compensation*, in the notes to the consolidated financial statements contained in FactSet's 2010 Annual Report on Form 10-K. There can be no assurance that these grant date fair values will be realized by the non-employee Directors. The actual gain that a non-employee Director may receive from exercising an option sometime in the future may be higher or lower than these reported amounts, and these options have value only if the price of the Company's stock increases above the option's exercise price. Non-employee Directors received stock option grants on January 15, 2010 totaling 18,510 shares. The exercise price was \$66.81 per share, being 100% of the NYSE closing price of the Company's common stock on that date. The grant date fair value of the option grants was \$390,000. At August 31, 2010, the non-employee Directors had the following outstanding stock option awards, some of which were not fully or partially vested: Scott A. Billeadeau, 35,400 shares; Joseph E. Laird, Jr., 44,400 shares; James J. McGonigle, 50,400 shares; Walter F. Siebecker, 26,400 shares; Charles J. Snyder, 44,400 shares; Joseph R. Zimmel, 22,900 shares.

COMPENSATION COMMITTEE REPORT

The Compensation Committee (the Committee) is responsible for administering FactSet's executive compensation policies and practices. The Committee is composed solely of independent directors and reports regularly to the Board. Independent directors are not eligible to participate in any of the plans or programs the Committee administers. In fiscal 2010, the Committee reviewed compensation, including equity-based awards, for each named executive officer (NEO). The Committee reviews and approves the aggregate number of equity-based awards granted to all employees of FactSet. The Committee also reviews the compensation, including stock and option-based awards, for each senior executive team member as well as for those employees who report directly to either the Chief Executive Officer, Chief Operating Officer or Director of Global Sales. The Committee believes that the fiscal 2010 compensation of the NEOs was aligned with FactSet's performance and returns to stockholders and provided a balanced mix between base pay and incentive compensation.

The Compensation Committee reviewed and discussed with management the Compensation Discussion and Analysis below and recommended to the Board that it be included in this Proxy Statement. The Compensation Committee has represented to management that, to the extent that the Compensation Discussion and Analysis purports to disclose the Compensation Committee's deliberations and philosophy in making executive compensation decisions and policy, it is accurate and materially complete.

Fiscal 2010 Corporate Performance

Annual Subscription Value (ASV) Growth - FactSet reported ASV growth of \$61 million over the last twelve months as compared to \$4 million in fiscal 2009. The significant increase in ASV in fiscal 2010 was driven by the release of the new FactSet platform, delivery of FactSet proprietary content across all geographies, enhancements to the FactSet product offering and related applications and \$16 million from the acquisition of Market Metrics.

User and Client Count Expansion - The number of professionals subscribing to FactSet services grew by 5,500 during fiscal 2010 and totaled 42,800 as of August 31, 2010. The Company added 65 net new clients over the past 12 months as client count was 2,110 at the end of the current fiscal year. User and client growth showed the highest quarterly change in the last two years during the fourth quarter of fiscal 2010.

Edgar Filing: FACTSET RESEARCH SYSTEMS INC - Form DEF14A

Increases in Net income and EPS - Net income rose 4% to \$150 million and diluted earnings per share increased 5% in fiscal 2010 compared to the year ago period. In addition to the growth in ASV, FactSet maintained a disciplined approach to controlling costs, sharpened its focus on smart investments in technology innovation with an eye on ongoing changes in the marketplace and the need to deliver high-quality workflow solutions to the industry.

Free Cash Flow - During the last twelve months, free cash flow rose 4% to \$190 million and exceeded net income by 27% as the Company experienced record levels of net income, positive working capital changes and a reduction in capital expenditures.

Recent Market Trends

The unprecedented events related to the collapse of the financial markets in late 2008 prompted investors to question the role that executive compensation programs may have had in contributing to excessive risk-taking by senior executives to achieve short-term financial gain at the expense of the long-term health of a company. In light of these facts, the Committee continues to review the objectives and design of FactSet's executive compensation policies to encourage decisions and behaviors to align with the long-term interests of the Company's stockholders. The Committee concluded the following:

FactSet's programs appropriately balance short- and long-term incentives, with approximately 40% of the total target compensation for the senior executive team provided in equity and focused on long-term performance.

Executive compensation policies pay for performance against goals that are set to be challenging to motivate a high degree of business performance, with an emphasis on longer-term financial success and prudent risk management.

Qualitative factors beyond the quantitative financial metrics are a key consideration in the determination of individual executive compensation payments.

Table of Contents

Executive Compensation Philosophy

FactSet has historically established executive compensation based upon the following goals and principles:

Provide appropriate incentives for both individual and business performance.

Link the long-term financial interests of key employees and FactSet's stockholders via stock-based incentives.

Maintain executive compensation at levels relative with other members of senior management.

Attract and retain talented personnel by considering compensation offered for similar positions by other companies in the technology and financial information industries.

Provide appropriate incentives for both individual and business performance. Approximately 40% of each named executive officer's total compensation is performance-based variable compensation, which rewards the executive for annual business performance against pre-determined goals. The Compensation Committee has designed the executive compensation program to encourage named executive officers to strive for outstanding individual performance, which is expected in turn to drive the positive performance of the Company as a whole. The Compensation Committee reviews the individual goals of each named executive officer prior to the end of each fiscal year to determine the executive's performance relative to stated objectives, both quantitative as well as qualitative. A named executive officer's achievement of certain goal levels will dictate, with the application of some discretion by the Committee, that executive's bonus for the fiscal year just completed as well as salary levels for the coming fiscal year.

Align the financial interests of key employees and FactSet's stockholders via share-based incentives. The Compensation Committee seeks to motivate executives to work conscientiously to achieve both short term and long term goals and, thereby, create stockholder value. Equity-based compensation, including stock options and restricted stock, has regularly represented a significant portion of total compensation. With stock options, executives only benefit if the Company's stock price appreciates from the date of grant of the award. The Compensation Committee has also viewed options as a method, not only of encouraging the named executive officers to drive Company performance in the long term, but also of encouraging the retention of officers. With restricted stock, the Compensation Committee has recognized that share ownership by named executive officers is a positive characteristic. Named executive officers' interests as stockholders and option holders themselves have been aligned in the past with those of stockholders generally, and are anticipated to remain so aligned due in part to the large share ownership such officers have maintained.

Maintain executive compensation at levels relative to other members of management. In addition to the other elements relevant to determining named executive officers' compensation, FactSet's Compensation Committee has also considered the potential difference between the total compensation package offered to its top executives and the compensation of other employees, both management and non-management. The Compensation Committee determines compensation and stock-based incentive awards for the named executive officers at the same time as it approves pools for the Company as a whole. The Compensation Committee criteria and performance levels attempt to provide compensation to named executive officers that both recognize their achievements, but also maintain internal pay equity in comparison with other executives and the general employee base. This awareness has helped with retention not only at the senior executive level but also at other levels in developing management of the Company.

Attract and retain talented personnel. The Company operates in several highly competitive labor markets and must ensure that total compensation compares well with that offered by competitors in those markets. The Compensation Committee has designed executive compensation bearing in mind the compensation offered by other companies in the technology and financial information industry, to the extent such information is publicly available. The Committee also considers that the named executive officers' share ownership of FactSet stock is, in some cases, a significant point of distinction from other companies in determining compensation.

Table of Contents

Elements of Compensation

FactSet's executive officers are compensated in a manner consistent with the Company's strategy, competitive practice, sound corporate governance principles and stockholder interests and concerns. The core of FactSet's executive compensation philosophy continues to be to pay for performance, as discussed in greater detail below. Fiscal 2010 annual compensation decisions emphasized rewarding performance. The financial performance goals set for fiscal 2010 for the variable cash incentive awards for executive officers and long-term, equity-based incentive awards were achieved, thus the performance-based cash and equity-based incentive awards for the named executive officers in fiscal 2010 exceeded fiscal 2009.

The three major elements of FactSet's executive officer compensation in fiscal 2010 continued to be:

Base salary;

Variable cash incentive awards (annual bonus); and

Long-term, equity-based incentive awards.

Base Salary. The Compensation Committee has established base salaries according to the experience and qualifications of the individual executives. Generally, base salaries are intended to be sufficiently competitive to attract and retain key employees, although they are secondary to a view of total cash compensation. Salaries for named executive officers are also considered in the context of compensation to employees of the Company in the aggregate. In fiscal 2010, in light of general economic conditions, the Compensation Committee did not make any material adjustments to the annual base salaries of the named executive officers.

Annual Bonus. The Compensation Committee has determined annual bonuses on a discretionary basis considering a number of factors including FactSet's ASV and EPS growth, achievement of strategic and department goals, individual performance and competitive market practices. In the normal course of business, the Committee determines the bonuses for the named executive officers based on their operational and financial performance, as described in further detail below. The bonus amounts are not determined by a predefined formula. Rather they are judgment-based and based upon achievement of individual goals, overall company performance for the fiscal year and a review of compensation at peer companies for each named executive officer. For each NEO, management of the Company prepares for the Compensation Committee a written performance appraisal, peer review compensation statistics and a recommendation for compensation change. The recommendations are reviewed by the Compensation Committee and may be revised based on discussion of this information.

Long-term, Equity-based Incentive Awards. The use of equity-based compensation has been a significant component of FactSet's overall compensation philosophy and is one that the Company plans to continue. FactSet's philosophy is built on the principles that equity compensation should seek to align employees' actions with stockholder interests; attract, retain, and motivate highly qualified executives; and, balance the focus on short- and longer-term performance objectives. The Company believes that it has been successful in achieving this alignment through the use of equity-based compensation which, beginning in October 2009, includes the use of restricted stock awards. The Compensation Committee has also recognized the unique significant ownership stake of the NEOs in the Company and consequently has not mandated that its executive officers maintain a specified level of stock ownership in the Company. The Compensation Committee determines the size of the long-term, equity-based incentives according to each NEO's position within FactSet and sets a level it considers appropriate to create a meaningful opportunity for reward predicated on increasing stockholder value. The Committee takes into account an individual's performance history, his or her potential for future advancement, the Chief Executive Officer's recommendations for awards other than his own and the value of existing vested and unvested outstanding equity awards. The relative weight given to each of these factors varies among individuals at the Compensation Committee's discretion.

Historically, equity-based plan awards were granted prior to the end of each fiscal year and were not synchronized with the year-end performance review process. As such, FactSet changed the timing of the equity-based grants to October 2009, which corresponds to the timing of the annual bonus payments.

FactSet has historically structured its long-term equity-based grants as stock options. However, as of the end of fiscal 2009, the Committee made the decision to grant restricted stock awards (RSA) to its employees, including the NEOs, beginning with an October 2009 grant. The Committee believes that, in light of the current stock market volatility, the most effective way to promote equity ownership by the executives, reward them for solid operating performance and retain them during a volatile economic period is to award RSAs in addition to performance-based stock

options as the vehicles for equity-based compensation.

Performance-Based Stock Options. In a further effort to drive long-term performance, the Compensation Committee approved performance-based options that were granted to NEOs as well as other employees of the Company in October

Table of Contents

2009. Performance-based stock options require management to make assumptions regarding the likelihood of achieving Company performance goals. The number of performance-based options that vest will be predicated on the Company achieving performance levels for both organic subscriptions and diluted earnings per share during the two years ended August 31, 2011. Dependent on the financial performance levels attained, 0%, 20%, 60% or 100% of the performance-based stock options will ultimately vest to the grantees of those stock options. Performance levels, vesting percentages and the ratio of performance options granted to all options granted are identical for the named executive officers and all other employees who received option grants.

Restricted Stock Awards. A RSA represents shares of common stock granted to an employee, subject to vesting requirements. The fair value of a RSA grant is determined by multiplying the number of RSAs by the price of the Company's stock on the grant date reduced by the present value of dividends expected to be paid over the vesting period. As the price of FactSet's stock fluctuates, so does the fair value of the RSA; this allows for employee and stockholder alignment with both increases and decreases in the Company's stock price. RSAs also provide for more stable value than stock options since RSAs provide value to employees with both increases and decreases in company stock price. For each NEO and all other employees, the ratio of RSAs to performance-based stock options was one RSA for every five performance-based stock options granted. The RSAs granted in fiscal 2010 primarily cliff vest 60% after three years and 100% after five years of service.

Service-based Stock Options. There were no service-based stock options granted to named executive officers during the normal annual compensation cycle in fiscal 2010.

Section 162(m) of the Internal Revenue Code of 1986, as amended, imposes a limitation on the deductibility of nonperformance-based compensation in excess of \$1 million paid to the named executive officers. As such, compensation paid in fiscal 2010 that was less than \$1 million to each NEO is fully tax-deductible. The tax deductibility of compensation for the named executive officers will be preserved as long as such actions are consistent with the Committee's compensation policies and objectives and are in the best interests of the Company and its stockholders.

Perquisites and Personal Benefits. The Company's policy is to not extend perquisites or personal benefits to employees other than for limited and specifically defined business purposes. The incremental costs to the Company in fiscal 2010 of those benefits provided to NEOs that the Securities and Exchange Commission deems to be perquisites and personal benefits are reported in the Summary Compensation Table (included in the amounts reported in the column captioned "All Other Compensation"). The Audit Committee exercises oversight over the perquisites and personal benefits that are made available to NEOs. The Compensation Committee determined that the perquisites and personal benefits available to NEOs in fiscal 2010, and their costs to the Company, were reasonable and properly disclosed to stockholders. In addition, named executive officers are able to participate in the same defined benefit plans as all other eligible employees, including health, retirement, life insurance, and disability plans, as well as an employee stock purchase plan.

Post-Termination Compensation. Beyond allowing executives to participate in the Company's 401(k) plan, under which the Company matches contributions for all employees up to a maximum of \$9,800 (and subject to any limitations imposed by ERISA), FactSet does not provide any other post-employment benefits to its executive officers or any employees. However, Mr. Walsh is entitled to certain severance benefits pursuant to his employment agreement in the event of a change in control of the Company or his separation from the Company under certain circumstances. His additional severance and change in control benefits are described below under the heading "Potential Payments upon Termination or Change in Control."

Table of Contents

Process of Determining Annual Executive Compensation

FactSet has not entered into any employment agreements with any of its NEOs, other than an agreement that grants certain rights to Mr. Walsh in the event of a separation from the Company. As such, FactSet is not bound by any contractual salary, incentive grants or other compensation requirements for the named executive officers. FactSet's Compensation Committee has not historically used the services of a compensation consultant. In the determination of stock options grants and bonuses, the Committee has considered information provided to it by management, at the Committee's request, regarding the compensation levels of executives at designated peer companies.

Methodology Determination. In the fourth quarter of fiscal 2010, the Compensation Committee met to determine the methods it would use to set compensation for the NEOs. Each compensation component and the Compensation Committee's decisions regarding these elements are considered as part of a collective package of compensation to each individual NEO. The Committee members discuss what they believe to be appropriate levels of compensation in their business judgment. Each element of compensation is considered independently for overall soundness of the level of compensation in relation to the amounts awarded to other individuals. In addition, each NEO's compensation as a whole is considered in comparison to that of other executives and employees of the Company. The Compensation Committee has not considered any forms of compensation other than salary, bonus and equity awards. The Committee did not engage in any further quantitative or qualitative analyses regarding its decision to make specific compensation awards or regarding any particular type of award or form of compensation.

Meetings. In a series of meetings, the Compensation Committee determines appropriate salary for the upcoming year, bonus levels for the fiscal year just completed and upcoming equity-based grants for the named executive officers. The Compensation Committee follows guidelines for equity-based awards, which apply to awards for named executive officers as well as all other employees. The guidelines require management to study, make recommendations and provide supporting analysis to the Compensation Committee regarding proposed equity awards. The supporting analysis shared with the Committee provides details about each executive's cash and total compensation, existing equity awards, the amounts vested and unvested and the percentage of total compensation that the suggested equity-based grant would represent. The materials also demonstrate the aggregate amount of awards and other compensation that have been historically granted and are proposed to be granted to the Company in the aggregate. In addition, management reviews with the Committee the various Company performance levels and the equity-based grants that would vest based on the various performance targets. On the basis of such materials, prepared at the Committee's request, the Compensation Committee approves equity grants for each member of the Company's Executive Committee, which includes the named executive officers. The Committee then also separately approves the equity-based grant for the Chief Executive Officer. Typically, during the same meeting, the Compensation Committee further approves total equity-based grants for all FactSet employees in the aggregate. The Compensation Committee thus determines awards for the named executive officers in the context of considering grants for employees of the Company as a whole.

Review Management-prepared Materials. The Compensation Committee considers materials prepared by management at the Committee's request and direction, detailing the historical salary, bonus and total cash compensation levels of the named executive officers and other members of the Company's Executive Committee. In addition, management provides to the Compensation Committee materials outlining the individual performance of each named executive officer with respect to his goals and objectives for the past year, both qualitative and quantitative, measured against financial goals for the Company's performance as well as quantitative performance in the individual executive's functional area. Management also provides the Committee with materials regarding the overall financial performance of the Company as well as operational and strategic accomplishments during the past fiscal year. Historically, management has also provided an evaluation during a meeting of the contribution to the performance of the Company by each named executive officer. The Committee members then make their determinations as to the bonus for the just completed fiscal year and base salary for the upcoming year for each named executive officer. Management does not participate in this deliberation and the Chief Executive Officer is not present for discussions regarding his own compensation. Typically, at the same meeting, the Compensation Committee approves the total bonus pool for the Company's operational areas as a whole, so that compensation to the named executive officers is made in the larger context of compensation for all the Company's employees.

In fiscal 2010, management provided the Compensation Committee with performance targets that correlate to Below, Expected, Excellent and Superlative results for ASV growth. The Company's EPS targets are also implied in that the Company is managed each year with the goal of EPS growth being equal to or greater than ASV growth. These targets are detailed for each geographic region managed by a NEO and for the Company in aggregate. The growth figures do not, however, correlate to any target compensation levels, but rather informs the Compensation Committee generally as to the performance of the Company. The Compensation Committee also considered qualitative comments pertaining to each named executive officers' goals and performance gathered during the Company's standard review process for all employees. Although no specific levels of compensation were tied to the achievement of these goals, the Compensation Committee took such performance into account in awarding bonuses and equity awards. No other specific items of corporate performance are taken into account in making compensation decisions.

Table of Contents

Performance versus Goals and Objectives. The Compensation Committee determines the actual size of bonus payments and equity-based grants awarded to each of the named executive officers based on the Compensation Committee's subjective view of the executives' achievement of qualitative goals set out in materials provided to the Committee by management. There are no specific quantitative formulas involved that would result in a particular compensation level. The Committee agrees on the executive's performance and related compensation through conversation and discussion.

Mr. Hadley's goals included increase ASV, EPS growth equal to or greater than ASV growth, communicate the company's goals, strategies and values including optimizing capital allocation and responding to industry changes to improve the Company's competitive position, significantly grow FactSet collected content and continue to expand the user base and the functionality of FactSet for its clients.

Mr. Walsh's goals included increase ASV, EPS growth equal to or greater than ASV growth, complete and release new FactSet workstation, have greater than 50% usage by year-end, significantly improve company analysis, continue to execute on the PA Suite product plan, deliver on software engineering goals, enhance the FactSet service and product while ensuring successful replication and systems, expand and improve on FactSet's proprietary data content and continue to build out the internal FactSet content collection team.

Mr. Frankenfield's goals included increase ASV, acquire new clients, upgrade existing users to the new FactSet workstation, review the sales operations to effectively capitalize on new business opportunities, meet certain human resources goals and advance certain products.

Mr. Nicoletti's goals included increasing ASV, EPS growth equal to or greater than ASV growth, manage FactSet's cost structure to maximize the Company's competitive position, improve the visibility of certain internal financial metrics, ensure financial reporting compliance, evaluate strategic opportunities to improve sales to existing applications and manage certain technical projects.

Mr. Kennedy's goals included increase ASV, deliver market analysis to ensure sales resources are allocated optimally, simplify pricing, create product packages that address distinct user types and match demand, improve sales force preparedness and efficiency through internal training, implement systems and administrative help to simplify sales workflow, improve reporting and measure results, advance the new FactSet marketing campaign, meet certain human resources goals and advance certain products.

The compensation to be issued is not based on a quantitative formula. Each named executive officer was measured on his performance relative to their qualitative goals in determining the appropriate overall level of compensation. The compensation is then granted as a mix including base salary, bonus and equity-based grants.

Performance-based Option Awards. With regard to performance-based option awards, the Company will be required to review its two year compounded annual growth rate of organic ASV and diluted EPS to determine the number of nonqualified performance-based options that a named executive officer will be entitled to receive, based on levels ranging from Below Expectations, to Expected, Excellent and Superlative. The following table sets forth the percentage of options granted that will vest at the end of the two year measurement period based on performance levels achieved by the Company. All Company employees granted performance-based options are eligible to have options vest on the same basis as the named executive officers.

Performance Level	Applicable Performance
Below Expectations	0%
Expected	20%
Excellent	60%
Superlative	100%

The Compensation Committee exercised its discretion over all cash and service-based equity awards to the named executive officers. The only compensation tool currently tied to a predefined formula is performance-based stock option awards. For options granted on August 14, 2008, the

two-year measurement period concluded on August 31, 2010. The performance level achieved for organic ASV and EPS growth was Below Expectations and as such, none of the performance-based stock options vested. The two year compounded annual growth rates were reviewed by the Company and its Audit Committee. The Company has disclosed in its fiscal 2010 Annual Report on Form 10-K the financial ramifications of a change in the performance level currently estimated by the Company for all performance-based stock options currently outstanding as of August 31, 2010.

Table of Contents

Upon grant, management estimates that with regard to the performance levels associated with performance-based options, the Expected level is likely and should be achieved, the Excellent level is not probable and is very difficult to achieve, and the Superlative level is not probable and is highly unlikely to be achieved. A historical analysis of the likelihood of achieving the various performance levels is not possible since these types of options were first granted in fiscal 2006. Using simple historical calculations would not take into account employees' additional diligence in light of the goal of achieving the performance level needed to earn the vesting of options at a particular level.

The Committee has not designated target levels of performance that would enable an executive to qualify for an exact amount or a range of compensation levels, whether in the form of salary, bonus or option awards. Neither the Company nor the Compensation Committee has determined threshold, target and maximum payments for salaries or the actual size of bonus payments related to the Company's performance, nor have they set the threshold, target and maximum number of shares underlying the performance share awards as related to the Company's performance. Only the vesting of performance-based options is linked to specific growth targets of the Company as a whole, not any individual named executive officer's performance.

The Compensation Committee considered all compensation to each NEO at the same time it determined the Company's annual bonus and equity incentive awards pools. It should also be noted that no named executive officer participates in any Compensation Committee discussions of that executive's own compensation.

Long-term Executive Incentive Compensation

FactSet believes that both cash compensation and non-cash compensation are appropriate mechanisms for driving executive performance in support of stockholder value. Cash compensation rewards annual (short-term) performance, while non-cash compensation is generally used to reinforce sustained performance over a longer period of time. The allocation between annual cash compensation and long-term equity compensation is based primarily on an evaluation of an executive's overall role and contributions to the Company, taking into account competitive concerns regarding attracting and retaining superior talent.

As such, on February 9, 2010, the Compensation Committee recommended, and the full Board approved, a one-time share-based award grant to Messrs. Walsh and Frankenfield designed to focus the executives on long-term individual performance and Company growth initiatives. The total dollar value of the awards granted (a mix between stock options and restricted stock) was \$4 million to each individual, representing a value of approximately \$700,000 on an annualized basis over the vesting period of six years. The objective of the share-based award to each NEO was to encourage decisions and behaviors to align with the long-term interests of the Company's stockholders. The Committee concluded the grant would better align and appropriately balance each individual's overall compensation over the next six years, as the awards vest over a six-year service period. The grant emphasizes longer-term financial success and prudent risk management by the Mr. Walsh as the Chief Operating Officer and Mr. Frankenfield as the Director of Global Sales. The amount was determined by the Compensation Committee upon review of historical compensation paid and reflects a meaningful value to each NEO in order to drive and incentive long-term individual and Company performance. FactSet also considered the executive's operating responsibilities, management level and unique contribution for the time period in question. The individual grant was comprised of \$1 million in restricted stock awards (equal to 17,229 RSAs) and \$3 million in service-based stock options (equal to 140,785 options). The grant attempted to build a compelling six-year wealth creation run for the executives and to ensure that the most leveraged talent at FactSet are paid accordingly.

Peer Group Executive Compensation Review

The Compensation Committee is provided executive compensation data of similarly situated NEOs at companies determined to be comparable by the Compensation Committee. The peer group consists of Advent Software, Inc., The Advisory Board Company, Arbitron Inc., The Corporate Executive Board Company, IHS Inc., Interactive Data Corporation, Morningstar, Inc., RiskMetrics Group Inc. (a wholly owned subsidiary of MSCI Inc.) and MSCI Inc. The materials presented to the Compensation Committee detailed the peer company compensation by type, including salary, bonus and equity awards. The Compensation Committee believes that its total target compensation for NEOs is competitive. The Compensation Committee concluded that the aggregate compensation approved for each NEO fell within the range of compensation offered by the peer companies. The Compensation Committee noted that management positions reported by peer companies are not always parallel to those of the Company. Given the large current and historical equity ownership of management, particularly Mr. Hadley, cash compensation relative to industry peers has not been a primary focus of overall compensation. Accordingly, total compensation awarded to Mr. Hadley was found to be below the average compensation for their analogous peers. However, total compensation awarded to Mr. Walsh, Mr. Frankenfield, Mr. Nicoletti and Mr. Kennedy was within the range of aggregate compensation granted to each analogous peer.

Table of Contents**EXECUTIVE COMPENSATION**

The tables below present compensation information for each named executive officer followed by a narrative discussion of compensation that each NEO could receive when their employment with the Company terminates under various circumstances or upon a change in control of the Company. The tables include footnotes and other narrative explanations important for your understanding of the compensation information in each table.

The first table below, the Summary Compensation Table, sets forth the compensation earned by the NEOs for services rendered in all capacities to FactSet for each respective fiscal year. The Company's named executive officers include FactSet's Principal Executive Officer (PEO), Principal Financial Officer (PFO) and the three most highly compensated executive officers (other than the PEO and PFO) during fiscal 2010.

- (1) The Bonus column lists discretionary cash bonuses awarded for services rendered during the applicable fiscal year based on achievement of certain goals established at the beginning of each fiscal year. These financial goals included organic subscription growth and diluted earnings per share growth greater than revenue growth. Annual variable compensation payments are made within two months following the end of each fiscal year. See the detailed description of the Annual Bonus in the preceding CD&A under the sub-heading Annual Bonus.
- (2) The amounts set forth in the Stock Awards column represent the aggregate grant date fair value computed in accordance with ASC Topic 718, pursuant to amendments to Item 402 of Regulation S-K. The assumptions made for the valuation of the stock awards are disclosed in Note 14 of the Notes to Consolidated Financial Statements included in the Company's Annual Report on Form 10-K for the fiscal year ended August 31, 2010.
- (3) Approximately \$1.0 million of the total \$1.3 million in stock awards granted to Messrs. Walsh and Frankenfield in fiscal 2010 related to a one-time award issued to each NEO on February 9, 2010. The amount was determined by the Compensation

Committee upon review of historical compensation paid and reflects a meaningful value to each NEO in order to drive and incentivize long-term individual and Company performance. The Compensation Committee concluded the grant would better align and appropriately balance each individual's overall compensation over the next six years, as the awards vest over a six-year service period and emphasizes longer-term financial success and prudent risk management by Mr. Walsh as the Chief Operating

Officer and Mr. Frankenfield as the Director of Global Sales. The assumptions made for the valuation of the stock awards granted on February 9, 2010 are disclosed in Note 14 of the Notes to Consolidated Financial Statements included in the Company's Annual Report on Form 10-K for the fiscal year ended August 31, 2010.

- (4) The amounts set forth in the Option Awards column represent the aggregate grant date fair value computed in accordance with ASC Topic 718. The Company utilizes a lattice-binomial model to estimate the fair value of new stock options on the date of grant. The assumptions made for the valuation of option awards are disclosed in Note 14 of the Notes to Consolidated Financial Statements included in the Company's Annual Report on Form 10-K for the fiscal year ended August 31, 2010. It should be noted that, in the proxy statement for fiscal 2009, prior to the effective date of the amendments to Item 402 of Regulation S-K referenced above, the amounts shown in this column were the dollar amounts recognized during the applicable fiscal year for financial reporting purposes in accordance FASB Statement of Financial Accounting Standards No. 123 (Revised 2004), *Share-Based Payment*. A stock option has value only if the Company's stock price increases above the option exercise price (an in-the-money option). If a NEO exercises an in-the-money option, he would then realize an actual gain. Any gain actually realized for options exercised in 2010 is reported in the Option Exercises and Stock Vested table on page 33.
- (5) Approximately \$3.0 million of the total \$3.1 million in option awards granted to Messrs. Walsh and Frankenfield in fiscal 2010 related to a one-time option award issued to each NEO on February 9, 2010. The amount was determined by the Compensation Committee upon review of historical compensation paid and reflects a meaningful value to each NEO in order to drive and incentivize long-term individual and Company performance. The Compensation Committee concluded the grant would better align and appropriately balance each individual's overall compensation over the next six years, as the options vest over a six-year service period. The assumptions made for the valuation of the option awards granted on February 9, 2010 are disclosed in Note 14 of the Notes to Consolidated Financial Statements included in the Company's Annual Report on Form 10-K for the fiscal year ended August 31, 2010.
- (6) Amounts disclosed in this column for fiscal 2009 and fiscal 2008 differ from the previously reported amounts for those fiscal years because they have been restated to reflect aggregate grant date fair values of equity awards awarded during the applicable fiscal year in accordance with FASB ASC Topic 718. Prior to fiscal 2010, the amounts reported reflected the dollar amount of expense recognized for financial statement reporting purposes for the applicable fiscal year.
- (7) Amounts reflect the value of matching contributions to the FactSet 401(k) Plan made by FactSet on behalf of each NEO, use of Company automobiles and medical and dental benefits paid by the Company on behalf of the NEO. FactSet matches up to 4% of employees bi-weekly earnings, capped at the IRS annual maximum. There were no other perquisites and other personal benefits for NEOs. Fiscal 2010 amounts for personal use of Company automobiles were \$6,956; \$4,680; \$4,850; \$0; and \$6,368, respectively, for Messrs. Hadley, Walsh, Frankenfield, Nicoletti and Kennedy.
- (8) Effective October 1, 2009, Michael F. DiChristina stepped down from his position as President and Chief Operating Officer of FactSet. Mr. DiChristina, who has been with FactSet since 1986 and had been in his current role since 1999, continues to serve on the Company's Board of Directors as an employee of the Company. During fiscal 2010, Mr. DiChristina did not receive compensation for his Board service as the amounts reported in the summary compensation table above reflect his regular employee compensation.
- (9) Mr. Walsh, FactSet's Chief Financial Officer since 2005, was promoted to Chief Operating Officer, and Maurizio Nicoletti, the Company's Comptroller, was appointed to Senior Vice President, Director of Finance and Principal Financial Officer, effective October 1, 2009.

Non-Equity Incentive Compensation. The Company did not award non-equity incentive compensation during fiscal 2010 to any of its NEOs.

Stock Awards. FactSet has historically structured its long-term equity-based grants as stock options. However, in fiscal 2010, the Compensation Committee made the decision to grant stock awards (in the form of restricted stock) to its key employees, including the named executive officers in addition to stock option awards. As of the date of this decision, the strike price of the past two annual stock option grants to the named executive officers were in excess of the fair value of the Company's common stock. The Committee believed that, in light of the recent stock market volatility, the most effective way to promote equity ownership by employees, reward them for solid operating performance and retain them during a tumultuous economic period was to award RSAs in addition to performance-based stock options. For each NEO, the ratio of RSAs to performance-based stock options was one RSA for every five performance-based stock options granted. The RSAs were subsequently granted in October 2009 and cliff vest 60% after three years and 100% after five years of service.

The following table provides information on all stock awards granted during fiscal 2010 to each of FactSet's named executive officers. The grant date fair value of these stock awards are included in the "Stock Awards" column of the Summary Compensation Table.

- On October 23, 2009, the Compensation Committee approved the total number of stock awards to be allocated among all eligible employees and specifically approved the stock awards to be granted to each NEO and all other senior members of management. At that time, the Compensation Committee designated October 23, 2009 as the actual grant date of these awards, at an exercise price equal to 100% of the closing price of the Company's common stock on the NYSE on that date.
- On February 9, 2010, the Compensation Committee approved the total number of stock awards to be allocated to Messrs. Walsh and Frankenfield. At that time, the Compensation Committee designated February 9, 2010 as the actual grant date of these awards, at an exercise price equal to 100% of the closing price of the Company's common stock on the NYSE on that date.
- The stock awards granted on October 23, 2009 cliff vest 60% after three years and 100% after five years of service. The stock awards granted to Messrs. Walsh and Frankenfield in February 2010 cliff vest 60% after four years and 100% after six years of service. In addition, the vesting of the stock awards granted to Messrs. Walsh and Frankenfield may be accelerated if certain ASV and EPS targets are achieved prior to the end of the six year service condition. As of August 31, 2010, the Company estimated that the targets will not be achieved prior to the end of the six year service condition, thus no accelerated vesting will occur. However, a change in the actual financial performance levels achieved by FactSet could result in a change to the Company's current timing of the vesting percentage and related expense.
- The dollar amounts set forth in this column represent the aggregate grant date fair value computed in accordance with FASB ASC Topic 718, pursuant to amendments to Item 402 of Regulation S-K. The assumptions made for the valuation of the stock awards are disclosed in Note 14 of the Notes to Consolidated Financial Statements included in the Company's Annual Report on Form 10-K for the fiscal year ended August 31, 2010. These are not amounts paid to or realized by the NEO.

Option Awards. Fiscal 2010 option granted reported in the table below were made under the 2004 FactSet Research Systems Inc. Stock Plan (the Stock Plan).

October 23, 2009 Performance-based grant - In a further effort to drive long-term performance, the Compensation Committee approved performance-based options that were granted to NEOs as well as other employees of the Company in October 2009. The number of performance-based options that vest will be predicated on the Company achieving performance levels for both organic ASV and diluted EPS during the two years ended August 31, 2011. Dependent on the financial performance levels attained, 0%, 20%, 60% or 100% of the performance-based stock options will ultimately vest to the grantees of those stock options. Performance levels, vesting percentages and the ratio of performance options granted to all options granted are identical for the named executive officers and all other employees who received option grants. The material terms of these grants include:

If performance conditions are met during the two years ended August 31, 2011, the performance-based options granted in fiscal 2010 vest at a rate of 40% after the first two years and 1.67% per month thereafter for years three through five. Options become vested and exercisable provided the employee continues employment with the Company through the applicable vesting date, and remain exercisable until expiration or cancellation.

Options expire on the seventh anniversary of the grant date. Options will expire before seven years if employment terminates, except for certain termination reasons described below.

Options may be exercised only while the NEO is actively employed except for termination due to death, disability or a reason other than cause. Refer to the section Potential Payments upon Termination or Change in Control for further review of change in control definitions.

February 9, 2010 Service-based grant - The Compensation Committee recommended, and the full Board approved, a one-time serviced-based stock option grant to Messrs. Walsh and Frankenfield on February 9, 2010 designed to focus the executives on long-term individual performance and Company growth initiatives. The total dollar value of the options granted was \$3 million to each individual, representing a value of approximately \$700,000 on an annualized basis over the vesting period of six years. The objective of the share-based award to each NEO was to encourage decisions and behaviors to align with the long-term interests of the Company's stockholders. The material terms of these grants include:

Options cliff vest 60% after four years and 100% after six years of service.

Options expire on the seventh anniversary of the grant date. Options will expire before seven years if employment terminates, except for certain termination reasons described below.

Options may be exercised only while the NEO is actively employed except for termination due to death, disability or a reason other than cause.

The following table provides information on all option awards granted during fiscal 2010 to each of FactSet's named executive officers. There can be no assurance that the grant date fair value, as listed in this table, of the option awards will ever be realized. The grant date fair value of these awards are included in the Option Awards column of the Summary Compensation Table.

- (3) The number of performance-based options granted on October 23, 2009 that vest will be predicated on the Company achieving performance levels for both organic ASV and diluted EPS during the two years ended August 31, 2011. Dependent on the financial performance levels attained, 0%, 20%, 60% or 100% of the performance-based stock options will ultimately vest to the grantees of those stock options. Performance-based options require FactSet to make assumptions regarding the likelihood of achieving Company performance goals. At August 31, 2010, the Company estimated that 20% of the performance-based stock options granted on October 23, 2009 will vest (as reported in the Target column above). The total number of performance-based stock options granted is reported in the Maximum column.
- (4) The service-based options granted to Messrs. Walsh and Frankenfield on February 9, 2010 cliff vest 60% after four years and 100% after six years of service. In addition, the vesting of these options may be accelerated if certain ASV and EPS targets are achieved prior to the end of the six year service condition. As of August 31, 2010, the Company estimated that the targets will not be achieved prior to the end of the six year service condition, thus no accelerated vesting will occur. However, a change in the actual financial performance levels achieved by FactSet could result in a change to the Company's current timing of the vesting percentage and related expense.
- (5) The amounts set forth in the Grant Date Fair Value of Option Awards column represent the aggregate grant date fair value computed in accordance with ASC Topic 718. The grant date fair value amounts assume 20% of the performance-based stock options granted on October 23, 2009 will vest. The Company utilizes a lattice-binomial model to estimate the fair value of new stock options on the date of grant. The assumptions made for the valuation of option awards are disclosed in Note 14 of the Notes to Consolidated Financial Statements included in the Company's Annual Report on Form 10-K for the fiscal year ended August 31, 2010. It should be noted that, in the proxy statement for fiscal 2009, prior to the effective date of the amendments to Item 402 of Regulation S-K referenced above, the amounts shown in this column were the dollar amounts recognized during the applicable fiscal year for financial reporting purposes in accordance FASB Statement of Financial Accounting Standards No. 123 (Revised 2004), *Share-Based Payment*. A stock option has value only if the Company's stock price increases above the option exercise price (an in-the-money option). If a NEO exercises an in-the-money option, he would then realize an actual gain. Any gain actually realized for options exercised in 2010 is reported in the Option Exercises and Stock Vested table below.

Nonqualified Deferred Compensation

Pension Benefits

The Company does not have a Pension Program thus no pension retirement benefits were paid to executives in fiscal 2010.

Potential Payments upon Termination or Change in Control

On March 1, 2005 an agreement between the Company and Mr. Peter Walsh became effective that amended an existing letter agreement with the Company dated September 20, 1999 (the Letter Agreement). The amendment reaffirmed the Letter Agreement, which remains in effect and which is to be superseded by a written agreement only if all other officers of the Company ranked more highly than Mr. Walsh also enter into written employment agreements with the Company. The Letter Agreement grants to Mr. Walsh: (i) an estimated payment of \$1.3 million, which is equal to his compensation in the prior twelve months and benefits for 12 months if his employment is terminated without cause; and (ii) an estimated payment of \$2.6 million, which is equal to twice his compensation in the prior twelve months and benefits for 24 months in the event of a change in control of the Company and involuntary termination.

At the end of fiscal 2010, the Company did not have employment agreements with Messrs. Hadley, Frankenfield, Nicoletti or Kennedy.

The Company sponsors equity incentive compensation plans that provide the NEOs with additional compensation in connection with a termination of employment and/or change of control under the following circumstances.

Change in Control

Upon the occurrence of a Change in Control, (i) all option awards granted to a NEO which have not been exercised, which have not expired by their terms, or for which restrictions have not yet lapsed shall immediately be fully exercisable for the remainder of their respective terms and all restrictions shall lapse and conditions deemed satisfied, and (ii) the Compensation Committee may, in its sole discretion, determine that such option awards be immediately terminated in which case the NEO will be paid an amount in cash (subject to any applicable withholding taxes) in respect of each option award equal to the difference between the fair market value of a share and the exercise price of such option award.

Death or Disability

Edgar Filing: FACTSET RESEARCH SYSTEMS INC - Form DEF14A

Upon the NEO's death, any unexercised option award to the extent exercisable on the date of the NEO's death, may be exercised in whole or in part, at any time within one year after the NEO's death by a beneficiary or an estate. If a NEO becomes disabled, any unexercised option award to the extent exercisable at the date of such termination of employment due to disability, may be exercised in whole or in part, at any time within one year after the date of termination.

Table of Contents*Termination without Cause*

If the Company terminates the NEO for any reason other than cause, death or disability, then any unexercised option award, to the extent exercisable at the date of such termination of employment, may be exercised, in whole or in part, at any time within three months after such termination of employment; provided, however, that if the NEO dies within the three-month period following such termination of employment, the option award may be exercised by the deceased NEO's personal representative or by the person to whom the option award is transferred by will or the applicable laws of descent and distribution within 180 days of the NEO's death, but in no event beyond the scheduled expiration of the option award.

Termination with Cause

Upon termination with cause, all unexercised awards terminate immediately.

Employee Stock Purchase Plan

Upon termination of employment, all amounts in the participant's account are paid to the participant.

Potential Payments upon Termination of Employment or a Change in Control Table

The information in the table below summarizes the compensation that would be paid under plans and contractual arrangements in effect at August 31, 2010 to each of the NEOs in the event of termination of such executive's employment with the Company and/or change of control of the Company as of that date. The amounts assume that the listed officer left FactSet effective August 31, 2010 and that the price per share of FactSet common stock on that date was \$73.55. The amounts are based upon the difference between \$73.55 and the exercise price of the unvested award held by the NEO at August 31, 2010.

Name of Officer	Death or Disability	Termination Without Cause	Termination With Cause	Change in Control (1)
Philip A. Hadley	\$	\$	\$	\$ 1,343,541
Peter G. Walsh	\$	\$	\$	\$ 6,395,466

Maurizio Nicoletti	\$	\$	\$	\$ 284,602
Kieran M. Kennedy	\$	\$	\$	\$ 874,668

- (1) The Change in Control payout is applicable to (a) all option awards granted to Company employees which have not been exercised, which have not expired by their terms, or for which restrictions have not yet lapsed shall immediately be fully exercisable and (b) all stock awards granted to Company employees which have not vested or for which restrictions have not yet lapsed shall immediately be fully vested.

CERTAIN RELATIONSHIPS AND RELATED TRANSACTIONS

The Board is committed to upholding the highest legal and ethical conduct in fulfilling its responsibilities and recognizes that related party transactions can present a heightened risk of potential or actual conflicts of interest. Accordingly, as a general matter, it is FactSet's preference to avoid related party transactions. FactSet's Audit Committee Charter requires that members of the Audit Committee, all of whom are independent directors, review and approve all related party transactions for which such approval is required under applicable law, including Securities and Exchange Commission, New York Stock Exchange and NASDAQ rules. For purposes of this section, related person and transaction have the meanings contained in Item 404 of Regulation S-K. Under these rules, a related person is a director, executive officer, nominee for director, or 5% stockholder of the company since the beginning of the last fiscal year and their immediate family members. The Company monitors any transaction or series of transactions in which the Company is a participant, the amount involved exceeds \$120,000, and a related person has a direct or indirect material interest.

The Audit Committee would determine whether the related person has a material interest in a transaction and would approve, ratify, rescind, or take other action with respect to the transaction in its discretion. In accordance with listing requirements, the Company does not have relationships with any directors in which the director is compensated in excess of \$120,000, excluding fees for board service. In fiscal 2010, there were no related-person transactions under the relevant standards.

In addition, the Audit Committee is responsible for reviewing and investigating any matters pertaining to the integrity of management, including conflicts of interest and adherence to FactSet's Code of Business Conduct and Ethics. Under the Code of Business Conduct and Ethics, directors, officers and all other members of the workforce are expected to avoid any relationship, influence or activity that would cause or even appear to cause a conflict of interest. FactSet's Corporate Governance Principles require a director to promptly disclose to the Board any potential or actual conflict of interest involving him or her. Under the Principles, the Board will determine an appropriate resolution on a case-by-case basis. All directors must excuse themselves from any discussion or decision affecting their personal, business or professional interests.

All related party transactions shall be disclosed in FactSet's applicable filings with the Securities and Exchange Commission as required under the applicable rules.

9. TAX WITHHOLDING

9.1 Mandatory Tax Withholding.

Whenever under the Plan, cash or Shares pursuant to an Award are to be delivered to an individual who is subject to U.S. federal income taxes or non-U.S. taxes upon exercise or payment of an Award, the Company shall be entitled to require as a condition of delivery (i) that the Grantee remit an amount sufficient to satisfy all such U.S. Federal, state, and local and all non-U.S. withholding tax requirements related thereto, (ii) the withholding of such sums from compensation otherwise due to the Grantee or from any Shares or cash due to the Grantee under the Plan, or (iii) any combination of the foregoing.

or

With respect to U.S. taxpayers, if any disqualifying disposition described in Section 5.4(f) is made with respect to Shares acquired under an Incentive Stock Option granted pursuant to the Plan, then the person making such disqualifying disposition shall remit to

the Company an amount sufficient to satisfy all U. S. federal, state, and local withholding taxes thereby incurred; *provided that*, in lieu of or in addition to the foregoing, the Company shall have the right to withhold such sums from compensation otherwise due to the Grantee or from any Shares due to the Grantee under the Plan.

9.2 Elective Share Withholding

Subject to this Section 9.2, a Grantee may elect the withholding (Share Withholding) by the Company of a portion of the Shares otherwise deliverable to such Grantee upon the exercise of an Award (Taxable Event) having a Fair Market Value equal to the minimum amount necessary to satisfy required federal, state, or local withholding tax liability attributable to the Taxable Event.

(a) Each Share Withholding election by a Grantee shall be subject to the following restrictions:

(i) any Grantee's election shall be subject to the Committee's right to revoke such election of Share Withholding by such Grantee at any time before the Grantee's election if the Committee has reserved the right to do so in the Award Agreement;

(ii) if the Grantee is a Section 16 Grantee, such Grantee's election shall be subject to the disapproval of the Committee at any time, whether or not the Committee has reserved the right to do so;

(iii) the Grantee's election must be made before the date (the **Tax Date**) on which the amount of tax to be withheld is determined; and

(iv) the Grantee's election shall be irrevocable.

10. DEFERRED PAYMENTS

Subject to the terms of this Plan and applicable law, the Committee may determine that all or a portion of any Award to Grantee, whether it is to be paid in cash, Shares or a combination thereof, shall be deferred or may, in its sole discretion, approve deferral elections made by Grantees. Deferrals shall be for such periods and upon such terms as the Committee may determine in its sole discretion; provided, however, that no deferral shall be permitted to the extent that any such deferral would adversely affect the tax treatment of any outstanding Awards under applicable law.

11. TERMINATION OF EMPLOYMENT

11.1 Termination for Cause.

If the Grantee has a Termination of Employment for Cause, any unexercised Award shall terminate immediately upon the Grantee's Termination of Employment.

11.2 Termination other than for Cause.

If the Grantee has a Termination of Employment for any reason other than Cause, then any unexercised Award, to the extent exercisable on the date of the Grantee's Termination of Employment, may be exercised as follows:

(a) **Death.** If the Grantee's Termination of Employment is caused by the death of the Grantee, then any unexercised Award to the extent exercisable on the date of the Grantee's death, may be exercised in whole or in part, at any time within one year after the Grantee's death by the Grantee's personal representative or by the person to whom the Award is transferred by will or the applicable laws of descent and distribution, but in no event beyond the scheduled expiration of the Award;

(b) **Disability.** If the Grantee's Termination of Employment is on account of the Disability of the Grantee, then any unexercised Award to the extent exercisable at the date of such Termination of Employment, may be exercised, in whole or in part, at any time within one year after the

Edgar Filing: FACTSET RESEARCH SYSTEMS INC - Form DEF14A

date of such Termination of Employment; *provided, however*, that, if the Grantee dies after such Termination of Employment and before the end of such one year period, such Award may be exercised by the deceased Grantee's personal representative or by the person to whom the Award is transferred by will or the applicable laws of descent and distribution within one year after the Grantee's Termination of Employment, or, if later, within 180 days after the Grantee's death, but in no event beyond the scheduled expiration of the Award; and

(c) ***Other***. If the Grantee's Termination of Employment is for any reason other than Cause, death or Disability, then any unexercised Award, to the extent exercisable at the date of such Termination of Employment, may be exercised, in whole or in part, at any time within three months after such Termination of Employment; *provided, however*, that if the Grantee dies within

such three-month period following such termination of Employment, such Award may be exercised by the deceased Grantee's personal representative or by the person to whom the Award is transferred by will or the applicable laws of descent and distribution within 180 days of the Grantee's death, but in no event beyond the scheduled expiration of the Award.

12. EFFECTS OF A CHANGE OF CONTROL

Notwithstanding any other provisions of the Plan or any Award Agreement, upon the occurrence of a Change of Control, (i) all Awards granted under the Plan to a Grantee which have not been exercised, which have not expired by their terms, or for which restrictions have not yet lapsed shall immediately be fully exercisable for the remainder of their respective terms and all restrictions shall lapse and conditions deemed satisfied, and (ii) the Committee may, in its sole discretion, determine that such Awards be immediately terminated in which case the Grantee will be paid an amount in cash (subject to any applicable withholding taxes) in respect of each Award equal to the difference between the Fair Market Value of a Share and the exercise price of such Award.

13. NONCOMPETITION AND NONSOLICITATION

During the period of the Grantee's employment and for two years thereafter, the Grantee shall not, directly or indirectly, (a) own, manage, operate, join or control, be employed by or participate in the ownership, management, operation or control of, or be a consultant to or connected in any other manner with, any business, firm or corporation which is similar to or competes with a principal business of the Company or its Subsidiaries (a **Competitive Activity**) or (b) for himself or any person or business entity, induce or attempt to induce any employee of the Company or a Subsidiary to terminate employment with the Company or a Subsidiary or solicit, entice, take away or employ any person employed by the Company or a Subsidiary (**Solicitation**). For these purposes, the Grantee's ownership of securities of a public company not in excess of one percent of any class of such securities shall not be considered to be competition with the Company or its Subsidiaries. If the Grantee shall engage in a Competitive Activity or Solicitation, as determined by the Committee in good faith (a) all Options then held by the Grantee shall expire as of the date that the Grantee first engaged in such Competitive Activity or Solicitation, (b) the Company shall have the right to acquire any shares of Stock then owned by the Grantee as the result of the exercise of an Award at a price equal to the lesser of (i) the Fair Market Value of such Shares or (ii) the aggregate exercise price paid therefore by the Grantee, and (c) the Company shall have the right to require the Grantee to return to the Company any other gain (whether or not realized) the Grantee had on the exercise of any Awards granted under this Stock Option and Award Plan (that is, the amount by which, at the time of the exercise of any Award, the Fair Market Value of the Shares to be received was greater than the aggregate exercise price paid therefore by the Grantee).

14. MISCELLANEOUS

14.1 Securities Law Matters

(a) If the Committee deems it necessary to comply with the 1933 Act and there is not in effect a registration statement under the 1933 Act relating to the Shares to be acquired pursuant to the Award, the Committee may require a written investment intent representation by the Grantee and may require that a restrictive legend be affixed to certificates for Shares.

(b) If based upon the opinion of counsel for the Company, the Committee determines that the exercise or nonforfeiture of, or delivery of benefits pursuant to, any Award would violate any applicable provision of (1) federal or state securities law or (2) the listing requirements of any securities exchange on which are listed any of the Company's equity securities, then the Committee may postpone any such exercise, nonforfeiture or delivery, as the case may be, but the Company shall use its best efforts to cause such exercise, nonforfeiture or delivery to comply with all such provisions at the earliest practicable date. The Committee's authority under this Section 13.1(b) shall expire on the date of any Change of Control.

14.2 Funding

Benefits payable under the Plan to any person shall be paid directly by the Company. The Company shall not be required to fund, or otherwise segregate assets to be used for, benefits under the Plan.

14.3 No Employment Rights

Neither the establishment of the Plan nor the granting of any Award shall be construed to (i) give any Grantee the right to remain employed by the Company or any of its Subsidiaries or to any benefits not specifically provided by the Plan or (ii) in any manner modify the right of the Company or any of its Subsidiaries to modify, amend, or terminate any of its employee benefit plans.

Table of Contents

14.4 Rights as a Stockholder

A Grantee shall not, by reason of any Award, have any right as a stockholder of the Company with respect to the Shares which may be deliverable upon exercise of such Award until such Shares have been delivered to him. As a condition of exercise, a Grantee will be required to execute a stockholder agreement if any such agreement is then in effect with respect to the Shares.

14.5 Nature of Payments

Any and all grants or deliveries of Shares hereunder shall constitute special incentive payments to the Grantee and shall not be taken into account in computing the amount of salary or compensation of the Grantee for the purposes of determining any pension, retirement, death or other benefits under (i) any pension, retirement, profit sharing, bonus, life insurance or other employee benefit plan of the Company or any of its Subsidiaries or (ii) any agreement between the Company or any Subsidiary, on the one hand, and the Grantee, on the other hand, except as such plan or agreement shall otherwise expressly provide.

14.6 Non-uniform Determinations

Neither the Committee's nor the Board's determinations under the Plan need be uniform and may be made by the Committee or the Board selectively among persons who receive, or are eligible to receive, Awards (whether or not such persons are similarly situated). Without limiting the generality of the foregoing, the Committee shall be entitled, among other things, to make non-uniform and selective determinations and to enter into non-uniform and selective Award Agreements as to (a) the identity of the Grantees, (b) the terms and provisions of Awards, and (c) the treatment, under Section 10, of Terminations of Employment. Notwithstanding the foregoing, the Committee's interpretation of Plan provisions shall be uniform as to similarly situated Grantees.

14.7 Amendment of the Plan

The Board may from time to time in its discretion amend or modify the Plan without the approval of the stockholders of the Company, except as such stockholder approval may be required (a) to permit transactions in Shares pursuant to the Plan to be exempt from liability under Section 16(b) of the 1934 Act or (b) under the listing requirements of any securities exchange on which are listed any of the Company's equity securities.

14.8 Termination of the Plan

The Plan shall terminate on the tenth anniversary of the Effective Date or at such earlier time as the Board may determine. Any termination, whether in whole or in part, shall not affect any Award or Award Agreement then outstanding under the Plan.

14.9 No Illegal Transactions

The Plan and all Awards granted pursuant to it are subject to all laws and regulations of any governmental authority which may be applicable thereto; and notwithstanding any provision of the Plan or any Award, Grantees shall not be entitled to exercise Awards or receive the benefits thereof and the Company shall not be obligated to deliver any Shares or pay any benefits to a Grantee if such exercise, delivery, receipt or payment of benefits would constitute a violation by the Grantee or the Company of any provision of any such law or regulation.

14.10 No Loans

No loans from the Company to Grantee shall be permitted under this Plan.

14.11 Assignment or Transfer

Unless the Committee shall specifically determine otherwise, no Award under the Plan or any rights or interest therein shall be transferable other than by will or the laws of descent and distribution and shall be exercisable, during the Grantee's lifetime, only by the Grantee. Once awarded, the Shares received by a Grantee may be freely transferred, assigned, pledged or otherwise subjected to lien, subject to the restrictions imposed by the 1933 Act, Section 16 of the 1934 Act and the Company's insider trading policy (if any), each as amended from time to time.

Table of Contents

14.12 Beneficiary Designation

To the extent allowed by the Committee, each Grantee under the Plan may, from time to time, name any beneficiary or beneficiaries (who may be named on a contingent or successive basis) to whom any benefit under the Plan is to be paid in case of his or her death before he or she receives any or all of such benefit. Unless the Committee determines otherwise, each such designation shall revoke all prior designations by the same Grantee, shall be in a form prescribed by the Committee, and will be effective only when filed by the Grantee in writing with the Company during the Grantee's lifetime. In the absence of any such designation, benefits remaining unpaid at the Grantee's death shall be paid to the Grantee's estate.

14.13 Cost and Expenses

The cost and expenses of administering the Plan shall be borne by the Company and not charged to any Award or to any Grantee unless the Committee otherwise determines in its sole discretion.

14.14 Fractional Shares

Fractional Shares shall not be issued or transferred under an Award, but the Committee may pay cash in lieu of a fraction or round the fraction, in its discretion.

14.15 Indemnification

Provisions for the indemnification of officers and directors of the Company in connection with the administration of the Plan shall be as set forth in the Company's Certificate of Incorporation and Bylaws as in effect from time to time.

14.16 Severability

If all or any part of the Plan is declared by any court or governmental authority to be unlawful or invalid, such unlawfulness or invalidity shall not serve to invalidate any portion of the Plan not declared to be unlawful or invalid. Any Section or part of a Section so declared to be unlawful or invalid shall, if possible, be construed in a manner which will give effect to the terms of such Section or part of a Section to the fullest extent possible while remaining lawful and valid.

14.17 Indemnification

Each person who is or shall have been a member of the Committee, or of the Board, shall be indemnified and held harmless by the Company against and from (a) any loss, cost, liability, or expense that may be imposed upon or reasonably incurred by him or her in connection with or resulting from any claim, action, suit, or proceeding to which he or she may be a party or in which he or she may be involved by reason of any action taken or failure to act under the Plan or any Award Agreement, and (b) from any and all amounts paid by him or her in settlement thereof, with the Company's approval, or paid by him or her in satisfaction of any judgment in any such claim, action, suit or proceeding against him or her, provided he or she shall give the Company an opportunity, at its own expense, to handle and defend the same before he or she undertakes to handle and defend it on his or her own behalf. The foregoing right of indemnification shall not be exclusive of any other rights of indemnification to which such persons may be entitled under the Company's Certificate of Incorporation or Bylaws, by contract, as a matter of law, or otherwise, or under any power that the Company may have to indemnify them or hold them harmless.

14.18 Successors

All obligations of the Company under the Plan, with respect to Awards granted hereunder, shall be binding on any successor to the Company, whether the existence of such successor is the result of a direct or indirect purchase, merger, consolidation, or otherwise, of all or substantially

all the business or assets of the Company.

14.19 Headings

The headings of Articles and Sections are included solely for convenience of reference, and if there is any conflict between such headings and the text of this Plan, the text shall control.

14.20 Number and Gender

When appropriate the singular as used in this Plan shall include the plural and vice versa, and the masculine shall include the feminine.

14.21 Controlling Law

The laws of the State of Connecticut, except its laws with respect to choice of laws, shall be controlling in all matters relating to the Plan.

14.22 Compliance with Laws

(a) The granting of Awards and the issuance, purchase and delivery of Shares pursuant to such Awards shall be conducted in compliance with all applicable stock exchange listing requirements and all applicable laws, including, without limitation, the Sarbanes-Oxley Act, the Dodd-Frank Wall Street Reform and Consumer Protection Act and the 1934 Act, the respective rules and regulations promulgated thereunder, and the policies and regulations of applicable securities regulatory authorities. If the Committee determines, in its discretion, that, in order to comply with any such listing requirements, statutes, regulations or rules, certain action is necessary in relation to an Award (including forfeiture of such Award), no Award shall be granted and no Shares may be issued, purchased or delivered pursuant to such Awards, as applicable, unless such action shall have been completed in a manner satisfactory to the Committee. Without limiting the generality of the foregoing, the Committee shall have the right to clawback any compensation received under this Plan in accordance with such applicable listing requirements, statutes, rules and regulations and in accepting an Award under the Plan, the Grantee agrees to be bound by any such determination made by the Committee and to take all such action as the Committee may require.

(b) Notwithstanding anything in this Plan to the contrary, it is intended that any grant of an Award shall satisfy the requirements for compliance with or exemption from Section 409A of the Code, to the extent applicable. The Plan and any Award shall be interpreted in a manner that is consistent with compliance with or exemption from Section 409A. In the event that any Award is subject to Section 409A and is otherwise payable upon a Change of Control, no such payment shall be made unless such Change of Control constitutes a Change in Control Event as defined in Section 1.409A-3(i)(5)(i) of the Treasury Regulations, and as set forth in Section 1.409A-3(i)(5)(v) through (vii). In the event that any Award is subject to Section 409A and is payable upon termination of employment or service, such Award shall not be payable upon a termination of employment or service unless such termination of employment or service constitutes a separation from service within the meaning of Section 1.409A-1(h) of the Treasury Regulations. Notwithstanding anything in this Plan to the contrary (and unless the Award Agreement specifically provides otherwise), if a Grantee holding an Award that constitutes deferred compensation under Section 409A of the Code is a specified employee for purposes of Section 409A of the Code, no distribution or payment of any amount shall be made upon a separation from service before a date that is six months following the date of such Participant's separation from service (as defined in Section 409A of the Code without regard to alternative definitions thereunder) or, if earlier, the date of the Participant's death.
