Table of Contents**<Business Segment Results>**

In April 2010, Nomura realigned its reporting segments in relation to how it operates and manages its business by merging the Global Markets, Investment Banking, and Merchant Banking divisions into the Wholesale division. Nomura now divides its business segments into three divisions of Retail, Asset Management and Wholesale.

Operating Results of Retail

	Billions of yen		% Change
	For the year ended		
	March 31, 2011 (A)	March 31, 2010 (B)	(A-B)/(B)

Table of Contents

(2) Analysis of Consolidated Financial Position

Total assets as of March 31, 2011, were 36.7 trillion yen, an increase of 4.5 trillion yen compared to March 31, 2010, reflecting primarily the increase in Securities purchased under agreements to resell. Total liabilities as of March 31, 2011 were 34.6 trillion yen, an increase of 4.5 trillion yen compared to March 31, 2010, mainly due to the increase in Securities sold under agreements to repurchase and Long-term borrowings. Total equity as of March 31, 2011 was 2.1 trillion yen, a decrease of 41.4 billion yen compared to March 31, 2010.

Cash and cash equivalents as of March 31, 2011, increased by 599.7 billion yen compared to March 31, 2010. Cash flows from operating activities for the year ended March 31, 2011 were outflows of 235.1 billion yen due to the increase in Trading assets. Cash flows from investing activities for the year ended March 31, 2011 were outflows of 423.2 billion yen due mainly to increase in Non-trading debt securities, net. Cash flows from financing activities for the year ended March 31, 2011 were inflows of 1,284.2 billion yen due primarily to an increase in Long-term borrowings.

2. Corporate Goals and Principles

(1) Fundamental Management Policy

Nomura Group is committed to a management vision of firmly establishing ourselves as a globally competitive financial services group. We will seek to realize this vision and increase shareholder value by strengthening our base in the Japanese securities businesses, developing world-class businesses in other regions, and consolidating our comprehensive global strength.

We will establish our new growth model by working with our clients, providing them with the best solutions, and realizing the expansion of our business in new domains. Our management target is to maintain an average consolidated return on shareholders' equity (ROE) of 10% to 15% over the medium to long term. However, we cannot deny that the capital requirements that are under consideration by Basel Committee on Banking Supervision or other financial regulators may impact us.

In addition, we put high priority on compliance with applicable laws, regulations and proper corporate behavior, and we build compliance into our daily business operations.

(2) Structure of Business Operations

Nomura Group is organized around globally-linked business divisions under a unified strategy, rather than individual legal entities. Nomura Group's operations are comprised of Retail, Asset Management, and Wholesale. We will strive to achieve a higher level of specialization in each division, advance and progress our business in each respective area, and maximize the collective strength of Nomura Group by enhancing cross-divisional and regional collaboration.

(3) Management Challenges and Strategies

Although the global economy was moving gradually toward normality supported by emerging markets, it is facing uncertainty due to the unstable political situation in the Middle East, sovereign crisis in Europe and the earthquake in Tohoku region of Japan in March. In this environment, we plan to address the needs of our clients globally by taking advantage of our strengthened business platform and to grow our client base and improve our market share. We will continue to strategically allocate management resources in order to work toward providing stability and liquidity through properly functioning market.

In addition, we will continue to proceed with our plans to reduce costs by reengineering businesses to fit the market environment and increase operational efficiency.

Table of Contents

We will also implement the following initiatives:

[Retail Division]

At Retail Division, we will continue to enhance our products and service offerings, which are provided through direct contacts, online or via call centers to accommodate increasingly sophisticated and diverse client needs. We aim to continue being a trusted partner to our clients by providing world-class products and services that meet their individual needs.

[Asset Management Division]

In investment trust business, we aim to provide individual clients with a diverse range of investment opportunities to meet investors' demand, and in advisory business, we aim to provide institutional clients globally with value-added investment service. Together, we intend to increase assets under management and expand our client base.

We aim to increase our world-class competitive advantage in Japan and the rest of Asia by making continuous effort to improve investment performance and by aggressively expanding our investment management and product delivery capabilities.

[Wholesale Division]

Wholesale Division has been established in April 2010.

Global Markets will enhance our product development expertise to continue acting as the product supply hub for Nomura and also work to expand profitability. We will focus on delivering high value-added products and solutions to our clients by leveraging our global trading infrastructure and making full use of our strengthened business franchise. In Fixed Income, we will strengthen not only our global marketing structure but also our trading and product development capabilities. In Equities, we will continue to act as a world-class liquidity provider. Through even closer co-operation between Fixed Income and Equities we will aim for synergies in structuring, research, distribution, and risk management.

In Investment Banking, we are expanding our M&A advisory and corporate finance businesses to diversify sources of profit by providing high value-added solutions to meet the individual needs of each client. We aim to enhance our presence as a global investment bank headquartered in Asia that provides world-class services, while continuing to build our business in Japan.

In implementing the initiatives outlined above, we will enhance collaboration between the divisions. We aim to consolidate our comprehensive global strength to realize our management objectives and maximize shareholder value by enhancing profitability across our businesses, while helping to strengthen the global financial and capital markets.

[Other]

In the wake of the financial crisis, the market and regulatory environments surrounding global financial institutions have changed significantly. To deal appropriately with these changes, we bolstered our financial base in order to achieve sustainable growth. Going forward, we will continue to maximize the profitability of the group as a whole, and to maintain adequate allocation of management resources. We will also continue to provide effort to grow our client-focused business platform while providing world-class, high quality solution.

We will continue to be prepared for regulation tightening. We will keep close monitoring of global regulatory trends and try to be prepared.

We understand that it is necessary to further strengthen our global risk management systems. By adopting a proactive, rather than a reactive, risk management approach, top management has directly engaged in risk management-related decision-making. We will continue to strengthen this type of system. As our business becomes increasingly international, we recognize the growing importance of compliance. In addition to complying with laws and regulations, we view compliance in a wider context, and will further enhance Nomura group's overall compliance system.

(7) Significant Changes for Presenting the Consolidated Financial Statements (UNAUDITED)

Presentations of significant changes in accounting principles are as follows:

Transfers of financial assets and consolidation of variable interest entities

On April 1, 2010, Nomura adopted amendments to Accounting Standard Codification Topic (ASC) 810 *Consolidation* introduced by Accounting Standards Update (ASU) 2009-17. The ASU revises the definition of a variable interest entity (VIE), when a reporting entity is required to consolidate a VIE and when reassessment of a consolidation decision is required. As a result, the balance of the retained earnings at the beginning of the year has been adjusted.

Also on April 1, 2010, Nomura adopted amendments to ASC 860 *Transfers and Servicing* introduced by ASU 2009-16. The ASU revises the accounting for transfers of financial assets and eliminates the concept of a qualifying special purpose entity (QSPE). Entities formerly meeting the definition of a QSPE are now evaluated for consolidation under the revised consolidation guidance provided by ASC 810 as amended by ASU 2009-17.

Net investment hedge

On April 1, 2010, Nomura adopted net investment hedging to mitigate foreign exchange risks created by some significant foreign subsidiaries. Accordingly, the net translation adjustment amount recognized in the consolidation processes is offset by the effective portion of the foreign exchange gains (or losses) on the hedging instruments for net investment in such foreign subsidiaries.
