## Pharmaceutical Systems Research &amp; Development

Notes:

- (1) To more closely align the interests of the Company s named executive officers with the interests of the Company s stockholders, the Company s named executive officers have volunteered to receive a reduced portion of their salary in cash. Consequently, effective February 1, 2012, a portion of the salary will be paid in cash and a portion of the salary will be paid in options.
- (2) Options in lieu of salary base granted by the Compensation Committee on February 3, 2012. The total shares subject to each option was determined by using a standard Black-Scholes option-pricing model. The exercise price per share of such option grant is \$0.78, the closing price of the Company s common stock on the NASDAQ Global Market on the date of grant. The vesting associated with the option is as follows: one-fourth (1/4) of the total shares subject to the option shall vest quarterly over one (1) year following the date of grant, subject to continued service. Target bonuses for performance in 2012 and payments under the Company s change of control policy will continue to be determined based on the notional salaries as follows: James E. Brown (\$500,791), Felix Theeuwes (\$373,221), Matthew J. Hogan (\$315,738) and Su Il Yum (\$323,198). These notional salaries reflect no increase over 2011 salaries; for Felix Theeuwes, his notional salary also reflects the adjustment described in note 6.

- (3) In order to preserve cash and to more closely align the interests of the Company's employees with the interests of the Company's shareholders, management recommended and the Compensation Committee agreed that no bonus would be paid in cash to employees relative to 2011 performance but instead any bonus awarded by the Compensation Committee would be paid in options. The total shares subject to each bonus option was determined by using a standard Black-Scholes option-pricing model. The exercise price per share of such option grant is \$0.78, the closing price of the Company's common stock on the NASDAQ Global Market on the date of grant. The shares subject to the bonus options are fully vested upon grant.
- (4) The 2012 annual options were granted by the Compensation Committee on February 3, 2012. The exercise price per share of such option grant is \$0.78, the closing price of the Company's common stock on the NASDAQ Global Market on the date of grant. The vesting associated with the option is as follows: one-sixteenth (1/16) of the total shares subject to the option shall vest quarterly over four (4) years following the date of grant, subject to continued service.
- (5) The actual bonus to be awarded will be at the Committee's complete discretion based on the Company's performance against specified corporate objectives and other factors to be taken into account at the discretion of the Committee, and will be determined based on the notional salaries specified in note 2.
- (6) Dr. Theeuwes' notional salary for fiscal year 2012, as specified in note 2, represents an approximately 25% decrease as compared to his salary for fiscal year 2011. This decrease reflects a transition to 75% time for fiscal year 2012, effective February 1, 2012. In addition, in order to preserve cash and to more closely align the interests of the Company's employees with the interests of the Company's shareholders, Dr. Theeuwes volunteered to receive a reduced portion of his salary (\$125,000) in cash effective February 1, 2012 and he is correspondingly being granted 240,385 options as described in note 2.
