QUARTERLY REPORT PURSUANT TO SECTION 13 OR 15(d) OF THE SECURITIES EXCHANGE ACT OF 1934

For the quarterly period ended March 31, 2012

or

TRANSITION REPORT PURSUANT TO SECTION 13 OR 15(d) OF THE SECURITIES EXCHANGE ACT OF 1934

For the transition period from to

Commission File Number 1-584

FERRO CORPORATION

(Exact name of registrant as specified in its charter)

Edgar Filing: FERRO CORP - Form 10-Q

Ohio (State or other jurisdiction of incorporation or organization)	34-0217820 (I.R.S. Employer Identification No.)
6060 Parkland Boulevard Mayfield Heights, OH (Address of principal executive offices)	44124 (Zip Code)
216-875-5600 (Registrant's telephone number, including area code)	

Indicate by check mark whether the registrant (1) has filed all reports required to be filed by Section 13 or 15(d) of the Securities Exchange Act of 1934 during the preceding 12 months (or for such shorter period that the registrant was required to file such reports), and (2) has been subject to such filing requirements for the past 90 days. YES NO

Indicate by check mark whether the registrant has submitted electronically and posted on its corporate Web site, if any, every Interactive Data File required to be submitted and posted pursuant to Rule 405 of Regulation S-T (§232.405 of this chapter) during the preceding 12 months (or for such shorter period that the registrant was required to submit and post such files). YES NO

Indicate by check mark whether the registrant is a large accelerated filer, an accelerated filer, a non-accelerated filer, or a smaller reporting company. See the definitions of large accelerated filer, accelerated filer and smaller reporting company in Rule 12b-2 of the Exchange Act. (Check one):

Large accelerated filer <input checked="" type="checkbox"/>	Accelerated filer <input type="checkbox"/>
Non-accelerated filer <input type="checkbox"/> (Do not check if a smaller reporting company)	Smaller reporting company <input type="checkbox"/>

Indicate by check mark whether the registrant is a shell company (as defined in Rule 12b-2 of the Act). YES NO

At March 31, 2012, there were 86,567,912 shares of Ferro Common Stock, par value \$1.00, outstanding.

Table of Contents**Ferro Corporation and Subsidiaries****Notes to Condensed Consolidated Financial Statements****1. Basis of Presentation**

The accompanying unaudited condensed consolidated financial statements of Ferro Corporation (Ferro, we, us or the Company) have been prepared in accordance with accounting principles generally accepted in the United States of America (U.S. GAAP) for interim financial information, the instructions to Form 10-Q, and Article 10 of Regulation S-X. These statements reflect all normal and recurring adjustments which are, in the opinion of management, necessary to present fairly the financial position, results of operations and cash flows for the periods presented. The preparation of financial statements in conformity with U.S. GAAP requires us to make estimates and assumptions that affect the amounts reported in the financial statements and accompanying notes. These interim condensed consolidated financial statements should be read in conjunction with the consolidated financial statements and related notes included in our Annual Report on Form 10-K for the year ended December 31, 2011.

Operating results for the three months ended March 31, 2012, are not necessarily indicative of the results expected in subsequent quarters or for the full year ending December 31, 2012.

2. Recent Accounting Pronouncements***Accounting Standards Adopted in the Three Months Ended March 31, 2012***

On January 1, 2012, we adopted Financial Accounting Standards Board (FASB) Accounting Standards Update (ASU) 2011-04, *Fair Value Measurement: Amendments to Achieve Common Fair Value Measurement and Disclosure Requirements in U.S. GAAP and IFRSs*, (ASU 2011-04), which is codified in ASC Topic 820, Fair Value Measurement. This pronouncement changes certain fair value measurement guidance and expands certain disclosure requirements. Adoption of this pronouncement did not have a material effect on our consolidated financial statements.

On January 1, 2012, we adopted ASU 2011-05, *Presentation of Comprehensive Income*, (ASU 2011-05) and ASU 2011-12, *Deferral of the Effective Date for Amendments to the Presentation of Reclassifications of Items Out of Accumulated Other Comprehensive Income in Accounting Standards Update No. 2011-05*, (ASU 2011-12), which are codified in ASC Topic 220, Comprehensive Income. ASU 2011-05 requires companies to present items of net income, items of other comprehensive income and total comprehensive income in one continuous statement or two separate but consecutive statements. ASU 2011-12 indefinitely defers certain provision of ASU 2011-05 that required companies to present reclassification adjustments out of accumulated other comprehensive income by component in both the statement in which net income is presented and the statement in which other comprehensive income is presented. Adoption of these pronouncements did not have a material effect on our consolidated financial statements.

On January 1, 2012, we adopted ASU 2011-08, *Testing Goodwill for Impairment*, (ASU 2011-08), which is codified in ASC Topic 350, Intangibles Goodwill and Other. This pronouncement permits companies testing goodwill for impairment to first assess qualitative factors to determine whether the two-step impairment test is required. Adoption of this pronouncement did not have a material effect on our consolidated financial statements.

New Accounting Pronouncements Not Yet Adopted

In December 2011, the FASB issued ASU 2011-11, *Disclosures about Offsetting Assets and Liabilities*, (ASU 2011-11), which is codified in ASC Topic 210, Balance Sheet. This pronouncement contains new disclosure requirements about a company's right of setoff and related arrangements associated with its financial and derivative instruments. ASU 2011-11 will be effective for our fiscal year that begins January 1, 2013, and is to be applied retrospectively. We do not expect that adoption of this pronouncement will have a material effect on our consolidated financial statements.

Table of Contents**3. Inventories**

	March 31, 2012	December 31, 2011
	(Dollars in thousands)	
Raw materials	\$ 84,872	\$ 78,199
Work in process	43,360	42,111
Finished goods	114,919	108,503
Total inventories	\$ 243,151	\$ 228,813

In the production of some of our products, we use precious metals, some of which we obtain from financial institutions under consignment agreements with terms of one year or less. The financial institutions retain ownership of the precious metals and charge us fees based on the amounts we consign. These fees were \$1.9 million and \$2.0 million for the three months ended March 31, 2012 and 2011, respectively. We had on hand precious metals owned by participants in our precious metals consignment program of \$202.7 million at March 31, 2012, and \$195.0 million at December 31, 2011, measured at fair value based on market prices for identical assets.

4. Property, Plant and Equipment

Property, plant and equipment is reported net of accumulated depreciation of \$615.6 million at March 31, 2012, and \$599.1 million at December 31, 2011. Unpaid capital expenditure liabilities, which are noncash investing activities, were \$7.8 million at March 31, 2012, and \$5.9 million at March 31, 2011.

5. Debt

Loans payable and current portion of long-term debt consisted of the following:

	March 31, 2012	December 31, 2011
	(Dollars in thousands)	
Loans payable to banks	\$ 6,386	\$ 404
Domestic accounts receivable asset securitization program	30,000	
International accounts receivable sales programs	4,385	8,150
Current portion of long-term debt	2,423	2,687
Loans payable and current portion of long-term debt	\$ 43,194	\$ 11,241

Long-term debt consisted of the following:

March 31, 2012	December 31, 2011
-------------------	----------------------

Edgar Filing: FERRO CORP - Form 10-Q

	(Dollars in thousands)	
7.875% Senior Notes	\$ 250,000	\$ 250,000
6.50% Convertible Senior Notes, net of unamortized discounts	33,713	33,537
Revolving credit facility	9,951	7,706
Capital lease obligations	4,142	4,459
Other notes	5,147	5,067
Total long-term debt	302,953	300,769
Current portion of long-term debt	(2,423)	(2,687)
Long-term debt, less current portion	\$ 300,530	\$ 298,082

Table of Contents***Receivable Sales Programs***

We have an asset securitization program for Ferro's U.S. trade accounts receivable. We sell interests in our domestic receivables to various purchasers, and we may obtain up to \$50.0 million in the form of cash or letters of credit. Advances received under this program are accounted for as borrowings secured by the receivables and included in net cash provided by financing activities. In 2011, we made certain modifications to and extended the maturity of this credit facility through May 2012. At March 31, 2012, advances received of \$30.0 million were secured by \$109.2 million of accounts receivable, and based on available and qualifying receivables, \$20.0 million of additional borrowings were available under the program. The interest rate under this program is the sum of (A) either (1) commercial paper rates, (2) LIBOR rates, or (3) the federal funds rate plus 0.5% or the prime rate and (B) a fixed margin. At March 31, 2012, the interest rate was 0.6%.

We also have several international programs to sell with recourse trade accounts receivable to financial institutions. Advances received under these programs are accounted for as borrowings secured by the receivables and included in net cash provided by financing activities. At March 31, 2012, the commitments supporting these programs totaled \$18.7 million, the advances received of \$4.4 million were secured by \$9.9 million of accounts receivable, and based on available and qualifying receivables, \$3.3 million of additional borrowings were available under the programs. The interest rates under these programs are based on EURIBOR rates plus 1.75%. At March 31, 2012, the weighted-average interest rate was 2.3%.

7.875% Senior Notes

The 7.875% Senior Notes (the "Senior Notes") were issued in 2010 at par, bear interest at a rate of 7.875% per year, payable semi-annually in arrears on February 15th and August 15th, and mature on August 15, 2018. Through August 15, 2013, we may redeem up to 35% of the Senior Notes at a price equal to 107.875% of the principal amount using proceeds of certain equity offerings. We may also redeem some or all of the Senior Notes prior to August 15, 2014, at a price equal to the principal amount plus a defined applicable premium. The applicable premium on any redemption date is the greater of 1% of the principal amount of the note or the excess of (1) the present value at such redemption date of the redemption price of the note at August 15, 2014, plus all required interest payments due on the note through August 15, 2014, computed using a discount rate equal to the Treasury Rate as of the redemption date plus 50 basis points; over (2) the principal amount of the note. In addition, we may redeem some or all of the Senior Notes beginning August 15, 2014, at prices ranging from 100% to 103.938% of the principal amount.

The Senior Notes are unsecured obligations and rank equally in right of payment with any other unsecured, unsubordinated obligations. The Senior Notes contain certain affirmative and negative covenants customary for high-yield debt securities, including, but not limited to, restrictions on our ability to incur additional debt, create liens, pay dividends or make other distributions or repurchase our common stock and sell assets outside the ordinary course of business. At March 31, 2012, we were in compliance with the covenants under the Senior Notes indenture.

6.50% Convertible Senior Notes

The 6.50% Convertible Senior Notes (the "Convertible Notes") were issued in 2008, bear interest at a rate of 6.5% per year, payable semi-annually in arrears on February 15th and August 15th, and mature on August 15, 2013. We separately account for the liability and equity components of the Convertible Notes in a manner that, when interest cost is recognized in subsequent periods, will reflect our nonconvertible debt borrowing rate at the time the Convertible Notes were issued. The effective interest rate on the liability component is 9.5%. Under certain circumstances, holders of the Convertible Notes may convert their notes prior to maturity. The Convertible Notes are unsecured obligations and rank equally in right of payment with any other unsecured, unsubordinated obligations. The principal amount outstanding was \$35.1 million at March 31, 2012, and \$35.1 million at December 31, 2011. At March 31, 2012, we were in compliance with the covenants under the Convertible Notes indenture.

Edgar Filing: FERRO CORP - Form 10-Q

based on market prices for comparable contracts. We had foreign currency forward contracts with notional amounts of \$270.8 million at March 31, 2012, and \$249.3 million at December 31, 2011.

Table of Contents

The following table presents the fair value on our consolidated balance sheets of these foreign currency forward contracts:

	March 31, 2012 (Dollars in thousands)	December 31, 2011 (Dollars in thousands)	Balance Sheet Location
Asset derivatives:			
Foreign currency forward contracts	\$	\$ 6,491	Other current assets
Foreign currency forward contracts	129		Accrued expenses and other current liabilities
Total	\$ 129	\$ 6,491	
Liability derivatives:			
Foreign currency forward contracts	\$	\$ (266)	Other current assets
Foreign currency forward contracts	(5,670)		Accrued expenses and other current liabilities
Total	\$ (5,670)	\$ (266)	

The following table presents the effect on our consolidated statements of net income for the March 31st of foreign currency forward contracts:

	Amount of Gain (Loss) Recognized in Earnings		Location of Gain (Loss) in Earnings
	2012	2011	
	(Dollars in thousands)		
Foreign currency forward contracts	\$ (5,653)	\$ (7,560)	Foreign currency losses, net

7. Income Taxes

Income tax expense for the three months ended March 31, 2012, was \$1.7 million, or 54.9% of pre-tax income. In the first three months of 2011, we recorded income tax expense of \$10.1 million, or 30.4% of pre-tax income. The increase in the effective tax rate was primarily a result of a greater proportion of pre-tax losses in jurisdictions with full valuation allowances for which no tax benefit is recognized.

8. Contingent Liabilities

We have recorded environmental liabilities of \$11.7 million at March 31, 2012, and \$11.6 million at December 31, 2011, for costs associated with the remediation of certain of our properties that have been contaminated, primarily a non-operating facility in Brazil. The costs include legal and consulting fees, site studies, the design and implementation of remediation plans, post-remediation monitoring and related activities. The ultimate liability could be affected by numerous uncertainties, including the extent of contamination found, the required period of monitoring and the ultimate cost of required remediation.

On January 4, 2011, the Company received an administrative subpoena from the U.S. Department of the Treasury's Office of Foreign Assets Control (OFAC). OFAC requested that the Company provide documents and information related to the possibility of direct or indirect transactions with or to a prohibited country. The Company subsequently responded to the administrative subpoena. On January 17, 2012, OFAC provided the Company with a no action letter advising that it had completed its review of the matter and had closed its file without taking further action.

Edgar Filing: FERRO CORP - Form 10-Q

There are various lawsuits and claims pending against the Company and its subsidiaries. We do not currently expect the ultimate liabilities, if any, and expenses related to such lawsuits and claims to materially affect the consolidated financial position, results of operations, or cash flows of the Company.

Table of Contents**9. Retirement Benefits**

Information concerning net periodic benefit costs of our U.S. pension plans (including our unfunded nonqualified plans), non-U.S. pension plans, and postretirement health care and life insurance benefit plans for the three months ended March 31st follows:

	U.S. Pension Plans		Non-U.S. Pension Plans		Other Benefit Plans	
	2012	2011	2012	2011	2012	2011
	(Dollars in thousands)					
Service cost	\$ 4	\$	\$ 577	\$ 539	\$	\$
Interest cost	4,869	5,114	1,375	1,432	396	482
Expected return on plan assets	(5,096)	(5,136)	(753)	(810)		
Amortization of prior service cost (credit)	12	18	(33)	(33)	(33)	(100)
Amortization of net loss (gain)	4,014	3,235	195	161	(230)	(160)
Net periodic benefit cost	\$ 3,803	\$ 3,231	\$ 1,361	\$ 1,289	\$ 133	\$ 222

Net periodic benefit cost for our U.S. and non-U.S. pension plans increased from the effects of lower discount rates, lower expected returns on plan assets, and worse than expected asset performance in 2011.

10. Stock-Based Compensation

Our Board of Directors granted 0.6 million stock options, 0.5 million performance share units and 0.3 million deferred stock units during the first quarter of 2012 under our 2010 Long Term Incentive Plan. The following table details the weighted-average grant-date fair values and the assumptions used for estimating the fair values of stock options and performance share units for grants made during the three months ended March 31, 2012:

	Stock Options	Performance Share Units
Weighted-average grant-date fair value	\$ 4.74	\$ 9.63
Expected life, in years	6.0	3.0
Risk-free interest rate	1.4%	0.4%
Expected volatility	81.1%	63.0%

We measure the fair value of deferred stock units based on the closing market price of our common stock on the date of the grant. The weighted-average fair value per unit for grants made during the three months ended March 31, 2012, was \$6.84.

We recognized stock-based compensation expense of \$2.0 million for the three months ended March 31, 2012, and \$2.1 million for the three months ended March 31, 2011. At March 31, 2012, unearned compensation cost related to the unvested portion of all stock-based awards was approximately \$15.1 million and is expected to be recognized over the remaining vesting period of the respective grants, through the first quarter of 2015.

11. Restructuring and Cost Reduction Programs

The activities and accruals related to our restructuring and cost reduction programs are summarized below:

Edgar Filing: FERRO CORP - Form 10-Q

	Employee Severance	Other Costs	Asset Impairment	Total
	(Dollars in thousands)			
Balance at December 31, 2011	\$ 218	\$ 3,419	\$	\$ 3,637
Restructuring charges	311			311
Cash payments	(314)	(156)		(470)
Non-cash items	2	103		105
Balance at March 31, 2012	\$ 217	\$ 3,366	\$	\$ 3,583

We expect to make cash payments to settle the remaining liability for employee termination benefits and other costs over the next twelve months, except where legal or contractual restrictions prevent us from doing so.

Table of Contents**12. Earnings Per Share**

Details of the calculation of basic and diluted earnings per share are shown below:

	Three months ended March 31,	
	2012	2011
	(In thousands, except per share amounts)	
Basic earnings per share computation:		
Net income attributable to Ferro Corporation common shareholders	\$ 1,290	\$ 22,725
Weighted-average common shares outstanding	86,233	85,975
Basic earnings per share attributable to Ferro Corporation common shareholders	\$ 0.01	\$ 0.26
Diluted earnings per share computation:		
Net income attributable to Ferro Corporation common shareholders	\$ 1,290	\$ 22,725
Plus: Convertible preferred stock dividends, net of tax		103
Total	\$ 1,290	\$ 22,828
Weighted-average common shares outstanding	86,233	85,975
Assumed exercise of stock options	191	351
Assumed satisfaction of stock unit award conditions	23	64
Assumed satisfaction of restricted share conditions	248	361
Assumed conversion of convertible notes		
Assumed conversion of convertible preferred stock		528
Weighted-average diluted shares outstanding	86,695	87,279

Diluted earnings per share attributable to Ferro Corporation common shareholders \$ 0.01 \$ 0.26

The number of anti-dilutive or unearned shares, including shares related to contingently convertible debt, was 6.9 million for the three months ended March 31, 2012, and 5.3 million for the three months ended March 31, 2011, respectively.

13. Reporting for Segments

The Company has six reportable segments: Performance Coatings, Electronic Materials, Color and Glass Performance Materials, Polymer Additives, Specialty Plastics, and Pharmaceuticals. We have aggregated our Tile Coating Systems and Porcelain Enamel operating segments into one reportable segment, Performance Coatings, and aggregated our Glass Systems and Performance Pigments and Colors operating segments into one reportable segment, Color and Glass Performance Materials, based on their similar economic and operating characteristics.

We measure segment income for internal reporting purposes by excluding unallocated corporate expenses, restructuring and impairment charges, other expenses (income) and income taxes. During the first quarter of 2012, we refined the allocation of certain corporate expenses to the Company's reportable segments, which aligns segment reporting to the current manner in which performance is evaluated, strategic decisions are made and resources are allocated. Unallocated corporate expenses consist primarily of executive employment costs, legacy pension and other benefit costs, certain professional fees, and costs associated with our global headquarters facility.

Table of Contents

Net sales to external customers by segment are presented in the table below. Sales between segments were not material.

	Three months ended March 31, 2012 2011 (Dollars in thousands)	
Electronic Materials	\$ 71,696	\$ 202,347
Performance Coatings	152,514	136,700
Color and Glass Performance Materials	101,435	99,805
Polymer Additives	87,724	85,862
Specialty Plastics	47,056	42,629
Pharmaceuticals	5,965	5,666
Total net sales	\$ 466,390	\$ 573,009

Each segment's income (loss) and reconciliations to income before income taxes follow. As a result of applying the refined allocations to prior periods, each segment's income for the three months ended March 31, 2011, has been impacted as presented below.

	Three months ended March 31, 2011 (Dollars in thousands)		
	2012	Adjusted	As reported
Electronic Materials	\$ (4,690)	\$ 30,748	\$ 32,589
Performance Coatings	8,059	6,347	7,405
Color and Glass Performance Materials	8,457	9,098	9,830
Polymer Additives	6,627	6,580	6,451
Specialty Plastics	4,648	1,872	1,909
Pharmaceuticals	1,187	1,326	1,156
Total segment income	24,288	55,971	59,340
Unallocated corporate expenses	13,650	12,463	15,832
Restructuring and impairment charges	311	1,630	1,630
Other expense, net	7,194	8,580	8,580
Income before income taxes	\$ 3,133	\$ 33,298	\$ 33,298

Table of Contents

Item 2. Management's Discussion and Analysis of Financial Condition and Results of Operations

Overview

Market conditions and customer demand were mixed in our key markets during the first quarter of 2012. The market for conductive pastes used in solar cell applications continued to be affected by reduced customer demand. As a result, demand for our conductive pastes declined from prior-year levels. Lower sales of our conductive pastes reduced overall sales levels in our Electronic Materials business and resulted in lower segment income. Demand for a number of other products increased compared with the first quarter of 2011, including products used for coating ceramic tiles and glass enamels used in automotive applications.

Net sales declined by 19% compared with the first quarter of 2011, driven by a decline in sales of Electronic Materials products. Sales increased in each of our other reporting segments: Performance Coatings, Specialty Plastics, Polymer Additives, Color and Glass Performance Materials, and Pharmaceuticals. Sales declined in Electronic Materials primarily as a result of a reduction in demand for conductive pastes and precious metal powders. In aggregate, changes in product pricing and mix reduced Ferro's overall sales by approximately 11 percentage points, while lower sales volume reduced sales by an additional 7 percentage points. Changes in foreign currency exchange rates reduced sales by approximately one percentage point. The lower product sales in Electronic Materials drove both the price/mix and volume declines in the quarter. Both sales volume and price/mix contributed to the total sales growth in our business segments other than Electronic Materials. A significant portion of the overall decline in sales compared with the prior-year quarter was due to lower sales volume and lower prices for precious metals.

Gross profit declined in the first quarter of 2012 compared with the first three months of 2011, primarily driven by the decline in sales of high-margin conductive pastes and powders. Raw material costs increased compared with the prior-year period but these changes had little net impact on gross profit as the added costs were offset by product price increases, in aggregate, across the Company. The pricing environment was the most difficult in the Electronic Materials and Polymer Additives segments, and most favorable in the Specialty Plastics segment.

Selling, general and administrative (SG&A) expenses during the 2012 first quarter were approximately the same as during the prior-year quarter. SG&A expenses during the 2012 first quarter included higher pension expense, salary adjustments, and costs related to an initiative to standardize and streamline our business processes and improve management information systems tools. Largely offsetting these SG&A increases were reductions in other SG&A expense categories including depreciation, business travel expenses and professional fees.

Restructuring and impairment charges declined during the 2012 first quarter, reflecting the continued winding down of our manufacturing rationalization activities. The restructuring charges recorded in the first quarter of 2012 were primarily related to residual costs at manufacturing sites where production activities have been concluded.

Interest expense declined slightly during the 2012 first quarter compared with the prior-year quarter. The decline in interest expense during the quarter was primarily due to lower average borrowings.

Net income declined in the first three months of 2012 compared with the prior-year quarter primarily as a result of lower net sales and the resulting decline in gross profit.

Outlook

Our ability to forecast future financial performance is limited because of uncertainty surrounding customer demand and economic conditions in a number of key markets and regions around the world. Customer demand for our conductive solar pastes is difficult to forecast because of uncertainty in end-market demand and uncertainty in the customer adoption rate of our new products. Order levels for our solar products continue to be significantly lower than prior-year levels and our visibility to future customer orders is limited. We expect demand for these products to improve during the course of 2012, but the timing and strength of the recovery in customer demand is not known at this time. In addition, future economic conditions in Europe are expected to be generally weaker in the coming quarters due to sovereign debt issues and other macroeconomic drivers. This weakness may affect demand for our products in the region, although the magnitude of these effects is difficult to estimate.

Factors that could adversely affect our future financial performance are described under the heading "Risk Factors" in Item 1A of Part I of our Annual Report on Form 10-K for the year ended December 31, 2011.

Table of Contents**Results of Operations**

Comparison of the three months ended March 31, 2012 and 2011

	Three months ended March 31,		\$ Change	% Change
	2012	2011		
	(Dollars in thousands, except per share amounts)			
Net sales	\$ 466,390	\$ 573,009	\$ (106,619)	(18.6)%
Cost of sales	378,067	452,683	(74,616)	(16.5)%
Gross profit	88,323	120,326	(32,003)	(26.6)%
Gross profit percentage	18.9%	21.0%		
Selling, general and administrative expenses	77,685	76,818	867	1.1%
Restructuring and impairment charges	311	1,630	(1,319)	
Other expense (income):				
Interest expense	6,740	6,826	(86)	
Interest earned	(84)	(74)	(10)	
Foreign currency losses, net	144	1,310	(1,166)	
Miscellaneous expense, net	394	518	(124)	
Income before income taxes	3,133	33,298	(30,165)	
Income tax expense	1,719	10,107	(8,388)	
Net income	\$ 1,414	\$ 23,191	\$ (21,777)	
Diluted earnings per share	\$ 0.01	\$ 0.26	\$ (0.25)	

Net sales declined by 18.6% for the three months ended March 31, 2012, compared with the first quarter of 2011. The decline was the result of reduced customer demand for our Electronic Materials products, including our metal pastes and powders. Sales in all other segments increased compared with the prior-year quarter. Lower sales of precious metals accounted for approximately 82 percent of the overall sales decline, driven by reduced sales volume and lower prices for silver. In aggregate, changes in product pricing and mix reduced overall net sales by 11 percentage points. Lower sales volume contributed an additional 7 percentage points to the overall sales decline. Changes in foreign currency exchange rates reduced sales by one percentage point during the quarter.

Gross profit declined during the first three months of 2012 as a result of lower net sales. Gross profit percentage declined to 18.9% of net sales from 21.0% in the prior-year period. In aggregate, raw material costs increased by approximately \$11 million compared with the first quarter of 2011 and these increased costs were offset by increased product prices. Charges related to residual costs at closed manufacturing sites involved in earlier restructuring initiatives reduced gross profit by \$0.7 million during the first three months of 2012. Gross profit was reduced by charges of \$1.6 million in the 2011 first quarter, primarily due to residual costs at closed manufacturing sites.

Selling, general and administrative (SG&A) expenses were slightly higher during the 2012 first quarter compared with the first quarter of 2011. Due to reduced sales, SG&A expenses increased to 16.7% of net sales from 13.4% of net sales in the prior-year period. Increased pension expenses, salary adjustments and higher expenses related to an initiative to streamline and standardize business processes and improve management information systems tools contributed to higher SG&A expenses for the quarter. Largely offsetting these increases were declines in other SG&A expenses including depreciation expense, business travel costs and professional fees. SG&A expenses in the 2012 first quarter included charges of \$1.8 million that were primarily related to residual expenses at sites that were closed during earlier restructuring initiatives and severance costs from expense reduction actions. SG&A expenses in the first three months of 2011 included charges of \$1.1 million, primarily related to expenses at closed sites impacted by earlier restructuring initiatives.

Restructuring and impairment charges declined to \$0.3 million in the first quarter of 2012 from \$1.6 million in the prior-year period. The lower charges reflect the continued winding down of our multi-year manufacturing rationalization activities.

Edgar Filing: FERRO CORP - Form 10-Q

Interest expense declined slightly during the 2012 first quarter, compared with the first quarter of 2011. Compared with the prior year quarter, average borrowings were lower in the first three months of 2012, which reduced interest expense.

Table of Contents

We are exposed to the impact of exchange rate fluctuations on foreign currency positions arising from our international sales and operations. We manage these currency risks principally by entering into forward contracts. The carrying value of the open contracts at each quarter-end are adjusted to fair value and the resulting gains or losses are charged to income or expense during the period, partially offsetting the effect of changes in foreign currency exchange rates on the underlying positions.

During the first quarter of 2012, income tax expense was \$1.7 million, or 54.9% of income before income taxes. In the first three months of 2011, we recorded income tax expense of \$10.1 million, or 30.4% of pre-tax income. The increase in the effective tax rate was primarily a result of a greater proportion of pre-tax losses in jurisdictions with full valuation allowances for which no tax benefit is recognized.

Net income declined to \$1.4 million in the 2012 first quarter from \$23.2 million in the prior-year quarter, primarily driven by lower sales and the resulting decline in gross profit.

	Three months ended		\$ Change	% Change

NM Not meaningful

Electronic Materials Segment Results. Sales declined in Electronic Materials primarily as a result of reduced demand for our conductive pastes used in solar cell manufacturing and metal powders used in other electronics applications. Changes in product pricing and mix accounted for \$77 million of the sales decline during the quarter. Reduced volume lowered sales by an additional \$54 million. Sales of precious metals declined by \$88 million due to lower sales volume of solar pastes and precious metal powders, and as a result of lower precious metal prices. The costs of precious metals are passed through to our customers as an element of our product prices. Sales of products produced in the United States, Asia-Pacific and Europe declined compared with the prior-year quarter. Segment income declined due to a \$36 million reduction in gross profit driven primarily by lower sales volume. SG&A expense declined by \$1 million compared with the first quarter of 2011.

Performance Coatings Segment Results. Sales increased in Performance Coatings primarily due to higher sales volume. Increased sales volume accounted for \$18 million of the sales growth in the quarter. Changes in product pricing and mix contributed an additional \$2 million to sales growth, while changes in foreign currency exchange rates reduced sales by approximately \$4 million. Sales increased in all regions with the greatest growth occurring in Europe-Middle East-Africa, driven by increased production at our tile coatings plant in Egypt. Segment income increased as a result of a \$2.3 million increase in gross profit, which was partially offset by a \$0.6 million increase in SG&A expense.

Edgar Filing: FERRO CORP - Form 10-Q

Color and Glass Performance Materials Segment Results. Sales increased in Color and Glass Performance Materials as a result of changes in product pricing and mix, partially offset by lower sales volume and changes in foreign currency exchange rates. Changes in product pricing and mix contributed \$9 million to increased sales during the quarter. Lower volume reduced sales by \$5 million and changes in foreign currency exchange rates reduced sales by an additional \$2 million. The sales growth was primarily driven by increased sales of glass coatings in the United States. Sales in Europe-Middle East-Africa declined primarily as a result of reduced demand for our pigments products. Segment income declined by \$1.6 million as a result of lower gross profit that was partially offset by a \$1.0 million reduction in SG&A expense.

Table of Contents

Polymer Additives Segment Results. Sales increased in Polymer Additives primarily as a result of higher sales volume. Higher volume contributed \$3 million to the sales increase compared with the prior-year quarter and changes in foreign currency exchange rates reduced sales by approximately \$1 million. Sales increased in the United States and declined in Europe-Middle East-Africa. The decline in Europe-Middle East-Africa reflected reduced market demand resulting from a weak macroeconomic environment in the region. Segment income was nearly unchanged from the prior-year quarter. First quarter gross profit and SG&A expense were nearly unchanged from the first quarter of 2011.

Specialty Plastics Segment Results. Sales increased in Specialty Plastics primarily as a result of higher product prices. Changes in product pricing and mix contributed approximately \$3 million to the sales growth in the quarter. Increased sales volume accounted for an additional \$2 million of the sales growth, while changes in foreign currency exchange rates reduced sales by approximately \$1 million. Sales growth was primarily driven by increased sales in the United States. The growth was partially offset by a decline in sales in Europe-Middle East-Africa that reflected a weak macroeconomic environment in the region. Segment income increased as a result of a \$2.5 million increase in gross profit and a \$0.3 million decline in SG&A expenses, compared with the prior-year quarter.

Pharmaceuticals Segment Results. Sales increased in Pharmaceuticals primarily due to favorable changes in product pricing and mix. Segment income declined due primarily to a reduction in gross profit. SG&A expense declined slightly, offsetting a portion of the reduction in gross profit.

	Three months ended		\$ Change	% Change
	2012	2011		
	March 31,			
	(Dollars in thousands)			
Geographic Revenues				
United States	\$ 209,736	\$ 288,509	\$ (78,773)	(27.3)%
International	256,654	284,500	(27,846)	(9.8)%
Total	\$ 466,390	\$ 573,009	\$ (106,619)	(18.6)%

Net sales declined in both the United States and international regions compared with the prior-year quarter. In the 2012 first quarter, sales originating in the United States were 45% of total sales, compared with 50% in the first quarter of 2011. The decline reflected the reduction in sales of our Electronic Materials products produced in the United States. Sales originating in the Asia-Pacific region declined, also primarily as a result of lower Electronic Materials sales. Sales growth was mixed in Europe-Middle East-Africa, but declined in total, primarily driven by a decline in European pigment sales. Sales increased in Latin America compared with the prior-year quarter.

Summary of Cash Flows for the three months ended March 31, 2012 and 2011

	Three months ended		\$ Change
	2012	2011	
	March 31,		
	(Dollars in thousands)		
Net cash used for operating activities	\$ (10,975)	\$ (28,580)	\$ 17,605
Net cash used for investing activities	(22,211)	(14,905)	(7,306)
Net cash provided by financing activities	33,489	43,683	(10,194)
Effect of exchange rate changes on cash and cash equivalents	(23)	360	(383)
Increase in cash and cash equivalents	\$ 280	\$ 558	\$ (278)

Table of Contents

Details of net cash provided by (used for) operating activities were as follows:

	Three months ended		
	2012	March 31, 2011	\$ Change
(Dollars in thousands)			
Cash flows from operating activities:			
Net income	\$ 1,414	\$ 23,191	\$ (21,777)
Depreciation and amortization	13,879	16,229	(2,350)
Precious metals deposits		28,086	(28,086)
Accounts receivable	(33,733)	(50,070)	16,337
Inventories	(11,929)	(41,891)	29,962
Accounts payable	11,554	33,768	(22,214)
Other changes in current assets and liabilities, net	14,404	(14,084)	28,488
Other adjustments, net	(6,564)	(23,809)	17,245
Net cash used for operating activities	\$ (10,975)	\$ (28,580)	\$ 17,605

Cash flows from operating activities increased by \$17.6 million in the first three months of 2012 compared with the prior-year period. Year-over-year cash flows from operating activities increased \$30.0 million due to changes in inventories, \$28.5 million due to other changes in current assets and liabilities, \$17.2 million due to changes in other adjustments to reconcile net income to net cash used for operating activities, and \$16.3 million due to changes in accounts receivable. Partially offsetting these effects, year-over-year cash flows from operating activities decreased \$28.1 million due to changes in precious metals deposits, \$22.2 million due to changes in accounts payable and \$21.8 million due to changes in net income. Accounts receivable, inventories and accounts payable increased in the first quarters of 2012 and 2011 in response to improved customer demand over the fourth quarters of the respective prior years. Other changes in current assets and liabilities provided \$14.4 million of cash in the first quarter of 2012, primarily from changes in the value of foreign currency forward contracts. Other changes in current assets and liabilities used \$14.1 million of cash in the first quarter of 2011, primarily from the payment of 2010 year-end incentive compensation. Other adjustments to reconcile net income to net cash used for operating activities include noncash foreign currency gains and losses, restructuring charges, retirement benefits, and deferred taxes, as well as changes to other non-current assets and liabilities. In the first three months of 2012, other adjustments used \$6.6 million of cash, primarily for noncash foreign currency gains. In the first three months of 2011, other adjustments used \$23.8 million of cash, primarily related to noncash foreign currency gains and payments toward retirement benefits and restructuring activities greater than the expenses recognized. The return of precious metal deposits provided \$28.1 million of cash in the first three months of 2011 due to additional credit lines not requiring collateral. Net income declined in the first three months of 2012 compared with the prior-year quarter primarily as a result of lower net sales and the resulting decline in gross profit.

Cash flows from investing activities decreased \$7.3 million in the first three months of 2012 compared with the prior-year period. Capital expenditures increased to \$22.6 million in the first quarter of 2012 from \$16.0 million in the first quarter of 2011.

Cash flows from financing activities decreased \$10.2 million in the first three months of 2012 compared with the prior-year period. In the first three months of 2012, we borrowed \$30.0 million through our domestic accounts receivable asset securitization program. In the same period of 2011, we borrowed \$50.0 million through our domestic accounts receivable asset securitization program, and we redeemed in cash all outstanding 7% Series A ESOP Convertible Preferred Stock for \$9.4 million plus earned but unpaid dividends.

Capital Resources and Liquidity*7.875% Senior Notes*

The 7.875% Senior Notes (the "Senior Notes") were issued in 2010 at par, bear interest at a rate of 7.875% per year, payable semi-annually in arrears on February 15 and August 15, and mature on August 15, 2018. The principal amount outstanding was \$250.0 million at March 31, 2012, and December 31, 2011. Through August 15, 2013, we may redeem up to 35% of the Senior Notes at a price equal to 107.875% of the principal amount using proceeds of certain equity offerings. We may also redeem some or all of the Senior Notes prior to August 15, 2014, at a price equal to the principal amount plus a defined applicable premium. The applicable premium on any redemption date is the greater of 1% of the principal amount of the note or the excess of (1) the present value at such redemption date of the redemption price of the note at August 15, 2014, plus all required interest payments due on the note through August 15, 2014, computed using a discount rate equal to the Treasury Rate as

Edgar Filing: FERRO CORP - Form 10-Q

of the redemption date plus 50 basis points; over (2) the principal amount of the note. In addition, we may redeem some or all of the Senior Notes beginning August 15, 2014, at prices ranging from 100% to 103.938% of the principal amount.

Table of Contents

The Senior Notes are unsecured obligations and rank equally in right of payment with any other unsecured, unsubordinated obligations. The Senior Notes contain certain affirmative and negative covenants customary for high-yield debt securities, including, but not limited to, restrictions on our ability to incur additional debt, create liens, pay dividends or make other distributions or repurchase our common stock and sell assets outside the ordinary course of business. At March 31, 2012, we were in compliance with the covenants under the Senior Notes indenture.

6.50% Convertible Senior Notes

The 6.50% Convertible Notes (the *Convertible Notes*) were issued in 2008, bear interest at a rate of 6.5% per year, payable semi-annually in arrears on February 15th and August 15th, and mature on August 15, 2013. We separately account for the liability and equity components of the Convertible Notes in a manner that, when interest cost is recognized in subsequent periods, will reflect our nonconvertible debt borrowing rate at the time the Convertible Notes were issued. The effective interest rate on the liability component is 9.5%. Under certain circumstances, holders of the Convertible Notes may convert their notes prior to maturity. The Convertible Notes are unsecured obligations and rank equally in right of payment with any other unsecured, unsubordinated obligations. The principal amount outstanding was \$35.1 million at March 31, 2012, and December 31, 2011. At March 31, 2012, we were in compliance with the covenants under the Convertible Notes indenture.

2010 Credit Facility

In 2010, we entered into the Third Amended and Restated Credit Agreement with a group of lenders for a five-year, \$350 million multi-currency senior revolving credit facility (the *2010 Credit Facility*). The 2010 Credit Facility matures on August 24, 2015, and is secured by substantially all of Ferro's assets. We had borrowed \$10.0 million at March 31, 2012, and \$7.7 million at December 31, 2011, under this facility. After reductions for outstanding letters of credit, we had \$335.9 million of additional borrowings available at March 31, 2012. The interest rate under the 2010 Credit Facility is the sum of (A) either (1) LIBOR or (2) the higher of the Federal Funds Rate plus 0.5%, the Prime Rate, or LIBOR plus 1.0% and (B) a variable margin based on the Company's leverage. At March 31, 2012, the interest rate was 3.0%.

We are subject to a number of financial covenants under our 2010 Credit Facility, which are discussed in Note 6 within Item 8 of the Company's Annual Report on Form 10-K for the year ended December 31, 2011. At March 31, 2012, we were in compliance with the covenants of the 2010 Credit Facility.

Domestic Receivable Sales Programs

We have an asset securitization program for Ferro's U.S. trade accounts receivable. We sell interests in our domestic receivables to various purchasers, and we may obtain up to \$50.0 million in the form of cash or letters of credit. Advances received under this program are accounted for as borrowings secured by the receivables and included in net cash provided by financing activities. In 2011, we made certain modifications to and extended the maturity of this credit facility through May 2012. At March 31, 2012, advances received of \$30.0 million were secured by \$109.2 million of accounts receivable, and based on available and qualifying receivables, \$20.0 million of additional borrowings were available under the program. The interest rate under this program is the sum of (A) either (1) commercial paper rates, (2) LIBOR rates, or (3) the federal funds rate plus 0.5% or the prime rate and (B) a fixed margin. At March 31, 2012, the interest rate was 0.6%. We had no borrowings under this program at December 31, 2011.

International Receivable Sales Programs

We have several international programs to sell with recourse trade accounts receivable to financial institutions. Advances received under these programs are accounted for as borrowings secured by the receivables and included in net cash provided by financing activities. At March 31, 2012, commitments supporting these programs totaled \$18.7 million, advances received of \$4.4 million were secured by \$9.9 million of accounts receivable, and based on available and qualifying receivables, \$3.3 million of additional borrowings were available under the programs. The interest rates under these programs are based on EURIBOR rates plus 1.75%. At March 31, 2012, the weighted-average interest rate was 2.3%.

Off Balance Sheet Arrangements

Consignment Arrangements for Precious Metals. In the production of some of our products, we use precious metals, some of which we obtain from financial institutions under consignment agreements with terms of one year or less. The financial institutions retain ownership of the precious metals and charge us fees based on the amounts we consign. We had on hand precious metals owned by participants in our precious metals program of \$202.7 million at March 31, 2012, and \$195.0 million at December 31, 2011, measured at fair value based on market prices for identical assets. On occasion, we have delivered cash collateral as a result of the market value of the precious metals under consignment

Edgar Filing: FERRO CORP - Form 10-Q

exceeding the lines provided by some of the financial institutions. While no deposits were outstanding at March 31, 2012, or December 31, 2011, we may be required to furnish additional cash collateral in the future based on the quantity and market value of the precious metals under consignment.

Table of Contents

Liquidity Requirements

Our liquidity requirements primarily include debt service, purchase commitments, labor costs, working capital requirements, capital investments, and postretirement obligations. We expect to meet these requirements in the long term through cash provided by operating activities and availability under existing credit facilities or other financing arrangements. Cash flows from operating activities are primarily driven by earnings before noncash charges and changes in working capital needs. In the first quarter of 2012, cash flows from financing activities were used to fund our operating and investing activities. We had additional borrowing capacity of \$370.2 million at March 31, 2012, and \$397.5 million at December 31, 2011, available under various credit facilities, primarily our revolving credit facility. We have taken a variety of actions to enhance liquidity, including restructuring activities and suspension of dividend payments on our common stock.

Our level of debt, debt service requirements, and ability to access credit markets could have important consequences to our business operations and uses of cash flows. The Company has recently accessed credit markets for the following transactions. In 2010, we issued 7.875% Senior Notes, which mature in 2018, and entered into the 2010 Credit Facility, which matures in 2015. In 2011, we entered into several international accounts receivable sales programs and extended our domestic asset securitization facility.

We may from time to time seek to retire or repurchase our outstanding debt through open market purchases, privately negotiated transactions, or otherwise. Such repurchases, if any, will depend on prevailing market conditions, our liquidity requirements, contractual restrictions, and other factors. The amounts involved may be material.

Difficulties experienced in global capital markets could affect the ability or willingness of counterparties to perform under our various lines of credit, receivable sales programs, forward contracts, and precious metals program. These counterparties are major, reputable, multinational institutions, all having investment-grade credit ratings, except for one, which is not rated. Accordingly, we do not anticipate counterparty default. However, an interruption in access to external financing could adversely affect our business prospects and financial condition.

We assess on an ongoing basis our portfolio of businesses, as well as our financial and capital structure, to ensure that we have sufficient capital and liquidity to meet our strategic objectives. As part of this process, from time to time we evaluate the possible divestiture of businesses that are not critical to our core strategic objectives and, where appropriate, pursue the sale of such businesses. We also evaluate and pursue acquisition opportunities that we believe will enhance our strategic position. Generally, we publicly announce divestiture and acquisition transactions only when we have entered into definitive agreements relating to those transactions.

Critical Accounting Policies and Their Application

There were no material changes to our critical accounting policies described in *Critical Accounting Policies* within Item 7 of the Company's Annual Report on Form 10-K for the year ended December 31, 2011.

Impact of newly Issued Accounting Pronouncements

Refer to Note 2 to the condensed consolidated financial statements under Item 1 of this Quarterly Report on Form 10-Q for a discussion of accounting standards we recently adopted or will be required to adopt.

Risk Factors

Certain statements contained here and in future filings with the SEC reflect the Company's expectations with respect to future performance and constitute forward-looking statements within the meaning of Section 27A of the Securities Act of 1933, as amended, and Section 21E of the Securities Exchange Act of 1934, as amended. These statements are subject to a variety of uncertainties, unknown risks and other factors concerning the Company's operations and business environment, which are difficult to predict and are beyond the control of the Company. Factors that could adversely affect our future financial performance are described under the heading *Risk Factors* in Item 1A of Part I of our Annual Report on Form 10-K for the year ended December 31, 2011.

Table of Contents**Item 3. Quantitative and Qualitative Disclosures About Market Risk**

The primary objective of the following information is to provide forward-looking quantitative and qualitative information about our exposure to instruments that are sensitive to fluctuations in interest rates and foreign currency exchange rates.

Our exposure to interest rate risk arises from our debt portfolio. We manage this risk by controlling the mix of fixed-rate versus variable-rate debt after considering the interest rate environment and expected future cash flows. Our objective is to limit variability in earnings, cash flows and overall borrowing costs caused by changes in interest rates, while preserving operating flexibility.

We operate internationally and enter into transactions denominated in foreign currencies. These transactions expose us to gains and losses arising from exchange rate movements between the dates foreign currencies are recorded and the dates they are settled. We manage this risk by entering into forward currency contracts that offset these gains and losses.

The notional amounts, net carrying amounts of assets (liabilities), and fair values associated with our exposure to these market risks and sensitivity analyses about potential gains (losses) resulting from hypothetical changes in market rates are presented below:

	March 31, 2012	December 31, 2011
	(Dollars in thousands)	
Variable-rate debt and utilization of accounts receivable sales programs:		
Change in annual interest expense from 1% change in interest rates	\$ 507	\$ 163
Fixed-rate debt:		
Carrying amount	288,860	288,604
Fair value	295,522	292,523
Change in fair value from 1% increase in interest rates	(12,797)	(13,071)
Change in fair value from 1% decrease in interest rates	13,586	13,902
Foreign currency forward contracts:		
Notional amount	270,800	249,337
Carrying amount and fair value	(5,541)	6,225
Change in fair value from 10% appreciation of U.S. dollar	13,981	12,216
Change in fair value from 10% depreciation of U.S. dollar	(17,088)	(14,930)

Item 4. Controls and Procedures

Evaluation of Disclosure Controls and Procedures

Ferro is committed to maintaining disclosure controls and procedures that are designed to ensure that information required to be disclosed in its Exchange Act reports is recorded, processed, summarized, and reported within the time periods specified in the U.S. Securities and Exchange Commission's rules and forms, and that such information is accumulated and communicated to its management, including its Chief Executive Officer and Chief Financial Officer, as appropriate to allow timely decisions regarding required disclosure.

As required by Rule 13a-15(b) of the Exchange Act, Ferro has carried out an evaluation, under the supervision and with the participation of its management, including its Chief Executive Officer and its Chief Financial Officer, of the effectiveness of the design and operation of its disclosure controls and procedures. The evaluation examined those disclosure controls and procedures as of March 31, 2012, the end of the period covered by this report. Based on that evaluation, our Chief Executive Officer and our Chief Financial Officer concluded that the disclosure controls and procedures were effective as of March 31, 2012.

Changes in Internal Control over Financial Reporting

During the first quarter of 2012, there were no changes in our internal control over financial reporting that have materially affected, or are reasonably likely to materially affect, our internal control over financial reporting.

Table of Contents**PART II OTHER INFORMATION****Item 1. Legal Proceedings**

On January 4, 2011, the Company received an administrative subpoena from the U.S. Department of the Treasury's Office of Foreign Assets Control (OFAC). OFAC requested that the Company provide documents and information related to the possibility of direct or indirect transactions with or to a prohibited country. The Company subsequently responded to the administrative subpoena. On January 17, 2012, OFAC provided the Company with a no action letter advising that it had completed its review of the matter and had closed its file without taking further action.

On September 30, 2011, the United States Environmental Protection Agency (USEPA) issued a complaint and notice of opportunity for a hearing and proposed a civil administrative penalty assessment to the Company for alleged violations regarding the laws and regulations of the Clean Air Act at our Bridgeport, New Jersey, facility. We have contested the allegations of the complaint and the amount of the proposed penalty assessment. We are currently involved in settlement negotiations and do not expect the ultimate outcome of this penalty assessment and any associated expenses to have a material effect on the financial position, results of operations, or cash flows of the Company.

There are various lawsuits and claims pending against the Company and its consolidated subsidiaries. We do not currently expect the ultimate liabilities, if any, and expenses related to such lawsuits and claims to materially affect the consolidated financial position, results of operations, or cash flows of the Company.

Item 1A. Risk Factors

There were no material changes to the risk factors disclosed in the Company's Annual Report on Form 10-K for the year ended December 31, 2011.

Item 2. Unregistered Sales of Equity Securities and Use of Proceeds

Our ability to pay common stock dividends is limited by certain covenants in our 2010 Credit Facility and the bond indenture governing the Senior Notes. The covenant in our 2010 Credit Facility is the more limiting of the two covenants and is described in Note 6 within Item 8 of the Company's Annual Report on Form 10-K for the year ended December 31, 2011.

The following table summarizes purchases of our common stock by the Company and affiliated purchasers during the three months ended March 31, 2012:

	Total Number of Shares Purchased (1)	Average Price Paid per Share (In thousands, except for per share amounts)	Total Number of Shares Purchased as Part of Publicly Announced Plans or Programs	Maximum Number of Shares that May Yet Be Purchased Under the Plans or Programs
January 1, 2012 to January 31, 2012		\$		
February 1, 2012 to February 29, 2012	37	6.90		
March 1, 2012 to March 31, 2012				
Total	37			

(1) Consists of shares of common stock surrendered by employees to meet minimum tax withholding obligations under current and previous long-term incentive plans.

Item 3. Defaults Upon Senior Securities

EXHIBIT INDEX

The following exhibits are filed with this report or are incorporated here by reference to a prior filing in accordance with Rule 12b-32 under the Securities and Exchange Act of 1934.

Exhibit:

- 3 Articles of incorporation and by-laws:
 - 3.1 Eleventh Amended Articles of Incorporation of Ferro Corporation (incorporated by reference to Exhibit 4.1 to Ferro Corporation's Registration Statement on Form S-3, filed March 5, 2008).
 - 3.2 Certificate of Amendment to the Eleventh Amended Articles of Incorporation of Ferro Corporation filed December 29, 1994 (incorporated by reference to Exhibit 4.2 to Ferro Corporation's Registration Statement on Form S-3, filed March 5, 2008).
 - 3.3 Certificate of Amendment to the Eleventh Amended Articles of Incorporation of Ferro Corporation filed on June 23, 1998 (incorporated by reference to Exhibit 4.3 to Ferro Corporation's Registration Statement on Form S-3, filed March 5, 2008).
 - 3.4 Certificate of Amendment to the Eleventh Amended Articles of Incorporation of Ferro Corporation filed on October 14, 2011 (incorporated by reference to Exhibit 3.1 to Ferro Corporation's Current Report on Form 8-K, filed October 17, 2011).
 - 3.5 Ferro Corporation Amended and Restated Code of Regulations (incorporated by reference to Exhibit 3.1 to Ferro Corporation's Current Report on Form 8-K, filed December 14, 2011).
- 4 Instruments defining rights of security holders, including indentures:
 - 4.1 Senior Indenture, dated as of March 5, 2008, by and between Ferro Corporation and U.S. Bank National Association (incorporated by reference to Exhibit 4.5 to Ferro Corporation's Registration Statement on Form S-3, filed March 5, 2008).
 - 4.2 First Supplemental Indenture, dated August 19, 2008, by and between Ferro Corporation and U.S. Bank National Association (with Form of 6.50% Convertible Senior Note due 2013) (incorporated by reference to Exhibit 4.2 to Ferro Corporation's Current Report on Form 8-K, filed August 19, 2008).
 - 4.3 Form of Indenture, by and between Ferro Corporation and Wilmington Trust FSB (incorporated by reference to Exhibit 4.1 to Ferro Corporation's Registration Statement on Form S-3ASR, filed July 27, 2010).
 - 4.4 First Supplemental Indenture, dated August 24, 2010, by and between Ferro Corporation and Wilmington Trust FSB (with Form of 7.875% Senior Notes due 2018) (incorporated by reference to Exhibit 4.1 to Ferro Corporation's Current Report on Form 8-K, filed August 24, 2010).

The Company agrees, upon request, to furnish to the U.S. Securities and Exchange Commission a copy of any instrument authorizing long-term debt that does not authorize debt in excess of 10% of the total assets of the Company and its subsidiaries on a consolidated basis.
- 10 Material contracts:
 - 10.1 Terms of Nonstatutory Stock Option Grants under the Ferro Corporation 2010 Long-Term Incentive Plan.*
 - 10.2 Terms of Performance Share Unit Awards under the Ferro Corporation 2010 Long-Term Incentive Plan.*
 - 10.3 Terms of Restricted Share Unit Awards under the Ferro Corporation 2010 Long-Term Incentive Plan.*
 - 10.4 Terms of Cash Incentive Award for Mr. James F. Kirsch.*
 - 10.5 Terms of Forfeited Bonus Reimbursement for Mr. Jeffrey L. Rutherford.*
- 31 Certifications:
 - 31.1 Certification of Principal Executive Officer Pursuant to Rule 13a-14(a)/15d-14(a).
 - 31.2 Certification of Principal Financial Officer Pursuant to Rule 13a-14(a)/15d-14(a).
 - 32.1 Certification of Principal Executive Officer Pursuant to 18 U.S.C. 1350.
 - 32.2 Certification of Principal Financial Officer Pursuant to 18 U.S.C. 1350.
