INFORMATION CONTAINED IN THIS FORM 6-K REPORT

Attached to this Report on Form 6-K as Exhibit 1 is a copy of the press release issued by Navigator Holdings Ltd. (the Company) on March 17, 2015: Navigator Holdings Ltd. Preliminary Fourth Quarter and Financial Year 2014 Results.

NAVIGATOR HOLDINGS LTD. PRELIMINARY FOURTH QUARTER AND FINANCIAL YEAR 2014 RESULTS

Highlights

Navigator Holdings Ltd. (NYSE: NVGS) reports both record revenue of \$78.4 million and net income of \$24.3 million for the fourth quarter of 2014. Operating revenue amounted to \$304.9 million and net income of \$84.5 million for the full year ended December 31, 2014.

EBITDA¹ increased to \$161.3 million for the year ended December 31, 2014 from \$106.8 million for 2013.

Earnings per share basic increased to \$1.53 for the year ended December 31, 2014 from \$0.89 for 2013, based on an increased number of shares outstanding.

Completed delivery of three newbuilding vessels, making our total fleet of 26 vessels on the water at December 31, 2014.

Following the delivery of Navigator Triton on January 9, 2015, we have 11 remaining semi-refrigerated gas carrier newbuildings on order, for delivery between April 2015 and March 2017.

Fourth Quarter 2014 Financial Results Overview

Operating revenue for the three months ended December 31, 2014 was \$78.4 million, an increase of \$11.1 million, or 16.5%, when compared to the \$67.3 million of operating revenue for the three months ended December 31, 2013. This increase was due to increases in the weighted average number of vessels; improvements in charter rates; an increase in vessel utilization; and an increase in the number of voyage charters undertaken relative to time charters.

During 2013, other cargo revenue related to the sale of a cargo of butane gas on-board Navigator Capricorn at the time of a fire in the engine room. This cargo was bought by us and later sold following the completion of repairs to the vessel. No such incident or activity occurred in the year ended December 31, 2014.

During the fourth quarter of 2014, the average time charter equivalent rate across the entire fleet, including our fully-refrigerated vessels was approximately \$932,170 per calendar month (\$30,646 per day), compared to \$830,500 per calendar month (\$27,300 per day) for the comparable period in 2013.

Fleet utilization across the 26 vessels operating at the year end increased to 94.8% for the fourth quarter of 2014, from 90.7% for the fourth quarter of 2013. This was primarily because in the fourth quarter of 2013, we had to reposition a number of the 11 vessels entering our fleet from AP Møller and we incurred 45 days off-hire due to the engine room fire on Navigator Capricorn.

Net operating revenue, which is operating revenue less voyage expenses, amounted to \$69.2 million for the three months ended December 31, 2014, up from \$53.8 million for the same period in 2013. \$7.2 million of the increase in net operating revenue resulted from an increase in charter rates; \$5.2 million from having additional vessels in the fleet in 2014; and \$3.0 million from an increase in vessel utilization.

Net income rose to \$24.3 million for the three months ended December 31, 2014, or \$0.44 per share, based on an increased weighted average number of basic shares outstanding of 55.3 million, up from \$10.9 million or \$0.22 per share for the same period in 2013.

¹ EBITDA represents net income before net interest expense, income taxes and depreciation and amortization. EBITDA does not represent and should not be considered as an alternative to consolidated net income or cash generated from operations, as determined by U.S. GAAP, and our calculation of EBITDA may not be comparable to that reported by other companies. EBITDA is not a recognized measurement under U.S. GAAP. Please see Appendix A for a reconciliation to the most directly comparable GAAP financial measure.

EBITDA for the fourth quarter of 2014 was \$44.1 million, compared to \$30.0 million for the fourth quarter of 2013.

Year Ended December 31, 2014 Financial Results Overview:

Operating revenue for the year ended December 31, 2014 amounted to a record \$304.9 million, an increase of \$70.6 million compared to operating revenue of \$234.3 million for the year ended December 31, 2013. Net operating revenue, which is operating revenue less voyage expenses, amounted to \$259.9 million for the year ended December 31, 2014, an increase of \$74.9 million on the year ended December 31, 2013.

At December 31, 2014, Navigator had 26 handysize liquefied gas carrier vessels in operation. In January 2015, we took delivery of one additional newbuilding. We have 11 additional newbuildings on order, which are expected to be delivered between April 2015 and March 2017.

Of the 26 vessels we operated as of December 31, 2014, 20 were employed under time charters and six were employed in the spot market. The 26 operated vessels earned an average time charter equivalent rate of approximately \$912,124 per vessel per calendar month (\$29,988 per day) during the year ended December 31, 2014, compared to approximately \$859,600 per vessel per calendar month (\$28,262 per day) for the year ended December 31, 2013.

Fleet utilization was 97.3% for the twelve months to December 31, 2014 compared to 92.9% for the full year of 2013.

Vessel operating expenses were \$70.2 million for the year ended December 31, 2014, an increase of \$14.2 million on the year ended December 31, 2013, due to an increase in fleet size. Individual vessel operating expenses decreased by \$47 per day, or 0.6%, to \$8,068 per vessel per day for the year ended December 31, 2014, compared to \$8,115 per vessel per day for the year ended December 31, 2013, primarily due our newly acquired vessels during 2014 being younger, and therefore, less expensive to maintain than our vessels owned in 2013.

Net income rose to \$84.5 million for the year ended December 31, 2014, or \$1.53 per share, based on a weighted average number of 55.3 million basic shares, compared to \$41.0 million, or \$0.89 per share, for the year ended December 31, 2013, based on a weighted average number of 46.0 million basic shares (following the 3-for-1 stock split that became effective as of October 29, 2013). As at December 31, 2014, there were 55,346,613 shares outstanding.

EBITDA for the year to December 31, 2014 was \$161.3 million, compared with \$106.8 million for the same period in 2013.
