**Exhibit 99.1**

On March 14, 2016, the Company issued a press release announcing the need for additional time beyond the SEC's deadline to complete its consolidated financial statements for the year ended December 31, 2015. This timing issue is exacerbated by the Company's previously reported material weaknesses in controls over financial reporting that require the Company to take additional, manual steps to prepare its consolidated financial statements. The Company expects to file its Annual Report on

Form 10-K on Tuesday, March 22, 2016.

The Company also announced that it will delay the release of its fourth quarter and full year 2015 financial results until after the closing of financial markets on Tuesday, March 22, 2016. The Company also rescheduled its conference call and webcast to review the financial and operating results for the 2015 fourth quarter and full year results along with its outlook from Wednesday, March 16, 2016 until Wednesday, March 23, 2016.

The Company confirmed its 2015 guidance:

Revenue expected to be approximately \$40 million

Gross margin expected to be between 17% and 21%, excluding anticipated non-recurring costs estimated at \$0.5 million to \$1.0 million to complete facility integrations

SG&A expenses expected to be in a range of \$21 million to \$23 million, excluding approximately \$0.5 million to \$1.0 million of costs associated with ongoing implementation of the Company's enterprise resource planning system

R&D expenses expected to be in a range of \$6.5 million to \$7.5 million

Cash and cash equivalents expected to be between \$18 million and \$22 million

Capital expenditures expected to be approximately \$9 million

The Company also reconfirmed that it shipped eleven 3D printing machines to customers in the quarter which ended December 31, 2015, as previously announced. In total, the Company shipped 38 3D printing machines in 2015.
