Semi-Annual Report
April 30, 2005

Letter to Shareholders

June 20, 2005

Dear Shareholder,

We present this Semi-Annual Report which covers the activities of Aberdeen Global Income Fund, Inc. (the "Fund") for the six-months ended April 30, 2005. The Fund's principal investment objective is to provide high current income by

Edgar Filing: ABERDEEN GLOBAL INCOME FUND INC - Form N-CSRS/A

investing primarily in fixed-income securities denominated in Commonwealth Currencies, that is, the currencies of Australia, Canada, New Zealand and the United Kingdom. As a secondary investment objective, the Fund seeks capital appreciation, but only when consistent with its principal investment objective.

Appointment of Independent Chairman of the Board

During the past several months, the Nominating and Corporate Governance Committee of the Board of Directors, composed entirely of independent directors ("Committee"), has been considering a process of implementing various changes to corporate governance practices. As part of that consideration, the Committee determined that it would be advisable to have an independent director serve as Chairman of the Board. The Committee identified Mr. P. Gerald Malone, MA LLb, who would be deemed to be an independent director of the Fund, as a well qualified candidate to serve as the Chairman of the Board. Mr. Malone has been a director of Aberdeen Asia-Pacific Income Fund, Inc. and was recently appointed as the Chairman of the Board of that fund. He currently serves as chairman or non-executive director on the boards of several companies in the health care sector, two publicly quoted in the UK, and has done so since 1998. He has experience chairing audit and other regulatory committees. Mr. Malone was Minister of Health of Great Britain between 1994 and 1997, and Member of Parliament for Winchester between 1992 and 1997. Mr. Malone was the Executive Editor of "The European" in 1998 before focusing on his corporate interests.

At its June 2005 Board meeting, the Directors determined to have an independent director serve as Chairman of the Board. Following the recommendation of the Committee, the Board of Directors increased the size of the Board of Directors by one director and appointed Mr. Malone as a Class I director of the Fund, to serve for the remainder of a three-year term expiring at the 2008 Annual Meeting of Stockholders and until his successor is duly elected and qualifies. The Board then appointed Mr. Malone to serve as Chairman of the Board.

Credit Quality: 85.5% of Securities Rated or Deemed Equivalent to A or Better

The credit quality of the Fund's investments has been maintained. As of April 30, 2005, 85.5% of the portfolio was invested in securities where either the issue or the issuer was

rated A or better, or judged by Aberdeen Asset Management Asia Limited (the "Investment Manager") to be of equivalent quality.

Distributions

Distributions to common shareholders for the 12 months ended April 30, 2005 totaled 72 cents per share. Based on the share price of \$13.87 on April 30, 2005, the distribution rate over the 12 months then ended was 5.2%. Since all distributions are paid after deducting applicable withholding taxes, the effective distribution rate may be higher for those U.S. investors who are able to claim a tax credit.

On June 20, 2005, the Board of Directors declared a monthly distribution of 6 cents per share payable on July 15, 2005, to all shareholders of record as of June 30, 2005.

The Board's policy is to provide investors with a stable monthly distribution out of current income, supplemented by realized capital gains and, to the extent

Edgar Filing: ABERDEEN GLOBAL INCOME FUND INC - Form N-CSRS/A

necessary, paid-in-capital. This policy is subject to regular review at the Board's quarterly meetings, unless market conditions require an earlier evaluation. The next review is scheduled to take place in September 2005.

Net Asset Value Performance

The Fund's total return based on Net Asset Value ("NAV") was 6.9% over the six months ended April 30, 2005, and 8.8% per annum since inception, assuming the reinvestment of distributions.

Share Price Performance

The Fund's share price fell by 1.1% over the six months, from \$14.02 on October 31, 2004 to \$13.87 on April 30, 2005. The Fund's share price on April 30, 2005 represented a discount of 3.0% to the NAV per share of \$14.30 on that date, compared with a premium of 2.2% to the NAV per share of \$13.72 on October 31, 2004. At the date of this letter, the share price was \$13.75, representing a discount of 3.1% to the NAV per share of \$14.19.

Global Debt Securities: 25.2% of Total Assets Invested in Global Debt Securities

The Fund may invest up to 35% of its total assets in Global Debt Securities. The term "Global Debt Securities" includes securities of issuers located in, or securities denominated in the currency of, countries other than Australia, Canada, New Zealand or the United Kingdom. As of April 30, 2005, 25.2% of the Fund's total assets were held in Global Debt Securities, consisting of 1.1% in Asia, 3.0% in Eastern Europe, 6.0% in Latin America, 0.9% in South Africa and 14.2% in Western Europe.

Aberdeen Global Income Fund, Inc. 3

Your Board's policy is to provide investors with a stable monthly distribution out of current income, supplemented by realized capital gains and, to the extent necessary, paid-in-capital.

The Fund is subject to U.S. corporate, tax and securities laws. Under U.S. tax accounting rules, the amount of distributable income for each fiscal period depends on the actual exchange rates during the entire year between the U.S. dollar and the currencies in which Fund assets are denominated and on the aggregate gains and losses realized by the Fund during the entire year.

Therefore, the exact amount of distributable income for each fiscal year can only be determined as of the end of the Fund's fiscal year, October 31. However, under the U.S. Investment Company Act of 1940, the Fund may be required to indicate the sources of certain distributions to shareholders.

The Fund estimates that distributions for the fiscal year commencing November 1, 2004, including the distribution paid on June 17, 2005, are comprised entirely of net investment income.

This estimated distribution composition may vary from month to month because it may be materially impacted by future realized gains and losses on securities and fluctuations in the value of the currencies in which Fund assets are denominated.

In January 2006, a Form 1099 DIV will be sent to shareholders, which will state the amount and composition of distributions and provide information with respect to their appropriate tax treatment for the 2005 calendar year.

Automatic Dividend Reinvestment and
Cash Purchase Plan

Edgar Filing: ABERDEEN GLOBAL INCOME FUND INC - Form N-CSRS/A

Common shareholders are automatically enrolled in the Fund's Automatic Dividend Reinvestment and Cash Purchase Plan (the "Plan"), which allows you to automatically reinvest your distributions in shares of the Fund's common stock at favorable commission rates, unless an election is made to receive distributions in cash. Distributions made under the Plan are taxable to the same extent as are cash distributions. The Plan also enables you to make additional cash investments in shares of at least \$100 per transaction, with a maximum of \$10,000 per month, and an aggregate annual limit of \$120,000. Under this arrangement, The Bank of New York (the "Plan Agent") will purchase shares for you on the American Stock Exchange or otherwise on the open market on or before the investment date. The investment date is the 15th day of each month, but if such date is not a business day, the preceding business day.

As a participant in the Plan you will have the convenience of:

Automatic reinvestment -- the Plan Agent will automatically reinvest your distributions, allowing you to gradually grow your holdings in the Fund;

Lower costs -- shares purchased on your behalf under the Plan will be at reduced brokerage rates. Brokerage on share purchases is currently 2 cents per share;

Convenience -- the Plan Agent will hold your shares in non-certificated form and will provide a detailed plan account statement of your holdings at the end of each month.

To request a brochure containing information on the Plan, please contact the Plan Agent, The Bank of New York, Shareholder Relations Department, P.O. Box 11258, Church Street Station, New York, NY 10286 or call toll free on 1-800-432-8224.

Report of the Investment Manager

Share Price Performance

On April 30, 2005, the Fund's share price was \$13.87, which represented a discount of 3.0% to the NAV per share of \$14.30. As of June 20, 2005, the share price was \$13.75, representing a discount of 3.1% to the NAV per share of \$14.19.

Auction Market Preferred Stock (AMPS)

The Fund's \$30 million of AMPS continued to be well bid at the regular auctions. The average interest rate paid was 3.04% over the quarter ended April 30, 2005, compared with 2.71% for 30-day U.S. commercial paper over the same period. These rates were significantly higher than the preceding quarter. The key driver of the increase in the AMPS interest rate since the quarter ended January 31, 2005 was a general rise in market interest rates following the U.S. Federal Reserve's two tightenings of monetary policy in February 2005 and March 2005, by a cumulative 0.5%. The rates paid to preferred shareholders have increased further since April 30, 2005 to a level of 3.25% as of June 8, 2005.

Over the six months to April 30, 2005, the impact of the AMPS on the net asset value attributable to common shareholders has been positive, as the majority of key currencies of the Fund -- the Australian dollar, British pound and New Zealand dollar -- while no longer at the highs reached in November 2004 still strengthened overall against the U.S. dollar.

Edgar Filing: ABERDEEN GLOBAL INCOME FUND INC - Form N-CSRS/A

Despite the fact that U.S. short term interest rates rose by 0.5% during the quarter ended April 30, 2005, the Fund's ability to lock in fixed rates for 80% of the outstanding AMPS pursuant to the interest swap agreement referred to on the following page, has helped maintain a positive differential between the AMPS funding rates and the yields at which the Fund invests.

6 Aberdeen Global Income Fund, Inc.

Report of the Investment Manager (concluded)

As previously reported to shareholders, the Fund entered into an interest rate swap agreement, based on an aggregate notional amount of \$24,000,000, which represents 80% of the total AMPS outstanding. Under the terms of the agreement, the Fund receives a floating rate of interest (one month USD-LIBOR BBA rate) and pays fixed rates of interest for the terms and based upon the notional amounts set forth below:

Remaining Term as of April 30, 2005	Amount (in \$ million)	Fixed Rate Payable (%)
42 months	7.2	3.54
30 months	7.2	3.16
18 months	4.8	2.69
6 months	4.8	2.1025

A significant risk associated with interest rate swaps is the risk that the counterparty may default or file for bankruptcy, in which case the Fund would bear the risk of loss of the amount expected to be received under the swap agreement. There can be no assurance that the Fund will have an interest rate swap in place at any given time nor can there be any assurance that, if an interest rate swap is in place, it will be successful in hedging the Fund's interest rate risk with respect to the AMPS. The implementation of this strategy is at the discretion of the AMPS Hedging Committee of the Board of Directors.

Notes to Financial Statements

Note 1. Investment Objectives

Aberdeen Global Income Fund, Inc. (the "Fund") was incorporated in Maryland on June 28, 1991, as a closed-end, non-diversified investment company.

The Fund's principal investment objective is to provide high current income by investing primarily in fixed-income securities denominated in the Commonwealth Currencies. As a secondary investment objective, the Fund seeks capital appreciation, but only when consistent with its principal investment objective. The Fund will seek to achieve its investment objective through investment in fixed-income securities denominated in the Commonwealth Currencies and in Global Debt Securities. In order to comply with a rule adopted by the Securities and Exchange Commission under the Investment Company Act of 1940 regarding fund names, the Board of Directors has adopted an investment policy that, for as long as the name of the Fund remains Aberdeen Global Income Fund, Inc., it shall be the policy of the fund normally to invest at least 80% of its net assets plus the amount of any borrowings for investment purposes, in debt securities. This 80% investment policy is a non-fundamental policy of the Fund and may be changed by the Board of Directors upon 60 days prior written notice to shareholders. The ability of issuers of debt securities held by the Fund to meet their obligations may be affected by economic developments in a specific industry, country or region.

Note 2. Accounting Policies

Edgar Filing: ABERDEEN GLOBAL INCOME FUND INC - Form N-CSRS/A

The following is a summary of significant accounting policies followed by the Fund in the preparation of its financial statements.

Basis of Presentation: The financial statements of the Fund are prepared in accordance with accounting principles generally accepted in the United States of America using the United States dollar as both the functional and reporting currency. However, the Commonwealth Currencies (excluding New Zealand) are the functional currencies for Federal tax purposes (see Taxes below).

Foreign Currency Translation: Foreign currency amounts are translated into United States dollars on the following basis:

(i) market value of investment securities, other assets and liabilities -- at the

24 Aberdeen Global Income Fund, Inc.

Notes to Financial Statements (continued)

closing rates of exchange as reported by a major bank;

(ii) purchases and sales of investment securities, income and expenses -- at the rates of exchange prevailing on the respective dates of such transactions.

The Fund isolates that portion of the results of operations arising as a result of changes in the foreign exchange rates from the fluctuations arising from changes in the market prices of the securities held at April 30, 2005. Similarly, the Fund isolates the effect of changes in foreign exchange rates from the fluctuations arising from changes in the market prices of portfolio securities sold during the six months ended April 30, 2005.

Net realized foreign exchange gains (losses) includes realized foreign exchange gains (losses) from sales and maturities of portfolio securities, sales of foreign currencies, currency gains (losses) realized between the trade and settlement dates on securities transactions and the difference between the amounts of interest, discount and foreign withholding taxes recorded on the Fund's books and the U.S. dollar equivalent amounts actually received or paid. Net unrealized foreign exchange gains (losses) include changes in the value of portfolio securities and other assets and liabilities arising as a result of changes in the exchange rate. Accumulated realized and unrealized foreign exchange gains (losses) shown in the composition of net assets represent foreign exchange gains (losses) for book purposes that have not yet been recognized for tax purposes.

Foreign security and currency transactions may involve certain considerations and risks not typically associated with those of domestic origin, including unanticipated movements in the value of the foreign currency relative to the U.S. dollar.

The exchange rates of the Commonwealth Currencies utilized by the Fund at April 30, 2005 were US\$0.78 to A\$1.00, US\$0.80 to C\$1.00, US\$0.73 to NZ\$1.00, US\$1.91 to (pound)1.00.

Security Valuation: The Fund's Board of Directors has adopted Pricing and Valuation Procedures (the "Procedures") to be used in determining the value of the assets held by the Fund. In accordance with the Procedures, investments are stated at value. Investments for which market quotations are readily available are valued at the last trade price on the

Notes to Financial Statements (continued)

date of determination as obtained from a pricing source. If no such trade price is available, such investments are valued at the quoted bid price or the mean between the quoted bid and asked price on the date of determination as obtained from a pricing source.

Securities purchased with a maturity of less than 60 days are valued at amortized cost. Securities purchased with a maturity of greater than 60 days are valued at current market quotations until the 60th day prior to maturity. At that time, the value of the security on the 61st day prior to maturity is amortized on a straight-line basis to value the security for the remaining 60 days.

Securities for which market quotations are not readily available (including investments which are subject to limitations as to their sale) are to be valued at fair value. As a general rule, whether or not the Fund is required to "fair value price" an asset is dependent on the ready availability of current market quotes or, even if readily available, the reliability of such quotes. Any assets for which market quotations are not readily available or for which available prices are not reliable, shall be determined in a manner that most fairly reflects the asset's (or group of assets) "fair value" (i.e., the amount that the Fund might reasonably expect to receive for the asset upon its current sale) on the valuation date, based on a consideration of all available information.

The Procedures provide that in certain instances, including without limitation, if there is a "stale price" for a portfolio security, in an emergency situation, or if a significant event occurs after the close of trading of a portfolio security, but before the calculation of the Fund's net asset value, the security may be valued at its fair value.

Repurchase Agreements: In connection with transactions in repurchase agreements with U.S. financial institutions, it is the Fund's policy that its custodian/counterparty segregates the underlying collateral securities, the value of which exceeds the principal amount of the repurchase transaction, including accrued interest. To the extent that any repurchase transaction exceeds one business day, the collateral is valued on a daily basis to determine its adequacy. If the seller defaults and the

24 Aberdeen Global Income Fund, Inc.

Notes to Financial Statements (continued)

value of the collateral declines or if bankruptcy proceedings are commenced with respect to the seller of the security, realization of the collateral by the Fund may be delayed or limited.

Securities Transactions and Investment Income: Securities transactions are recorded on the trade date. Realized and unrealized gains and losses from security and currency transactions are calculated on the identified cost basis. Interest income is recorded on an accrual basis. Discounts and premiums on securities purchased are accreted or amortized on an effective yield basis over the estimated lives of the respective securities. Expenses are accrued on a daily basis.

Derivative Financial Instruments: The Fund is authorized to use derivatives to manage both currency and interest rate risk for global debt securities. With

Edgar Filing: ABERDEEN GLOBAL INCOME FUND INC - Form N-CSRS/A

respect to investments denominated in the Commonwealth currencies, derivatives can only be used to manage interest rate risk. Losses may arise due to changes in the value of the contract if the counterparty does not perform under the contract. The use of derivative instruments involves, to varying degrees, elements of market risk in excess of the amount recognized in the Statement of Assets and Liabilities.

Interest Rate Swap: The Fund may engage in certain interest rate swap transactions to hedge the Fund's AMPS. An interest rate swap is an agreement between two parties, which involves exchanging floating rate and fixed rate interest payments for a specified period of time. Interest rate swaps involve the accrual and exchange of interest payments between the parties. These payments are recorded as realized gain/(loss).

During the term of the swap, changes in the value of the swap are recognized as unrealized gains and losses by "marking-to-market" to reflect the market value of the swap. When the swap is terminated, the Fund will record a realized gain or loss equal to the difference, if any, between the proceeds from (or cost of) the closing transaction and the Fund's basis in the contract. The Fund is exposed to credit risk in the event of non-performance by the other party to the interest rate swap. However, the

Aberdeen Global Income Fund, Inc. 27

Notes to Financial Statements (continued)

Fund does not anticipate non- performance by any counterparty.

Forward Currency Contracts: A forward currency contract involves an obligation to purchase and sell a specific currency at a future date, which may be any fixed number of days from the date of the contract agreed upon by the parties, at a price set at the time of the contract. The foreign currency contract is marked-to-market daily and the change in market value is recorded by the Fund as an unrealized gain or loss. When the forward currency contract is closed, the Fund records a realized gain or loss equal to the difference between the value at the time it was opened and the value at the time it was closed.

Financial futures contracts: A futures contract is an agreement between two parties to buy and sell a security for a set price on a future date. Upon entering into a contract, the Fund deposits and maintains as collateral such initial margin as required by the exchange on which the transaction is effected. Pursuant to the contract, the Fund agrees to receive from or pay to the broker an amount of cash equal to the daily fluctuation in the value of the contract. Such receipts or payments are known as variation margin and are recorded by the Fund as unrealized gains or losses. When the contract is closed, the Fund records a realized gain or loss equal to the difference between the value of the contract at the time it was opened and the value at the time it was closed.

Options: When the Fund writes an option, an amount equal to the premium received by the Fund is reflected as an asset and an equivalent liability. The amount of the liability is subsequently marked to market to reflect the current market value of the option written. When a security is purchased or sold through an exercise of an option, the related premium paid (or received) is added to (or deducted from) the basis of the security acquired or deducted from (or added to) the proceeds of the security sold. When an option expires (or the Fund enters into a closing transaction), the Fund realizes a gain or loss on the option to the extent of the premiums received or paid (or gain or loss to the extent the cost of the closing transaction exceeds the premium paid

Notes to Financial Statements (continued)

or received). As of April 30, 2005, there were no open option contracts.

Dividends and Distributions: Distributions to common shareholders are recorded on the ex-dividend date. These are based upon net investment income and capital and currency gains determined in accordance with income tax regulations which may differ from accounting principles generally accepted in the United States of America. These differences are primarily due to amortization of premium and discount and differing treatments for foreign currencies and loss deferrals. Dividends and distributions to preferred shareholders are accrued on record date and are determined as described in Note 6.

Taxes: For Federal income and excise tax purposes, substantially all of the Fund's transactions are accounted for using the functional currencies. Accordingly, only realized currency gains and losses resulting from the repatriation of any of the Commonwealth Currencies into U.S. dollars or another Commonwealth Currency and realized currency gains and losses on non-Commonwealth currencies are recognized for U.S. tax purposes.

No provision has been made for United States of America Federal income taxes because it is the Fund's policy to meet the requirements of the United States of America Internal Revenue Code applicable to regulated investment companies and to distribute substantially all of its taxable income to shareholders. Under the applicable foreign tax law, a withholding tax may be imposed on interest and discounts earned at various rates.

Use of Estimates: The preparation of financial statements in accordance with accounting principles generally accepted in the United States of America requires management to make estimates and assumptions that affect the reported amounts and disclosures in the financial statements. Actual results could differ from those estimates.

Note 3. Agreements

Aberdeen Asset Management Asia Limited (the "Investment Manager") serves as investment manager to the Fund and Aberdeen Asset Management Limited (the

Aberdeen Global Income Fund, Inc. 29

Notes to Financial Statements (continued)

"Investment Adviser") serves as investment adviser to the Fund, pursuant to a management agreement and an advisory agreement, respectively. The Investment Manager and the Investment Adviser are direct or indirect wholly-owned subsidiaries, respectively, of Aberdeen Asset Management Plc. The Investment Manager has also entered into an agreement with CIBC World Markets, Inc. (the "Consultant").

The Investment Manager makes investment decisions on behalf of the Fund on the basis of recommendations and information furnished to it by the Investment Adviser and the Consultant, including the selection of and the placement of orders with brokers and dealers to execute portfolio transactions on behalf of the Fund.

The management agreement provides the Investment Manager with a fee, payable monthly, at the following annual rates: 0.65% of the Fund's average weekly total

Edgar Filing: ABERDEEN GLOBAL INCOME FUND INC - Form N-CSRS/A

net assets of both common and preferred shareholders up to \$200 million, 0.60% of such assets between \$200 million and \$500 million and 0.55% of such assets in excess of \$500 million. The Investment Manager pays fees to the Investment Adviser and the Consultant for their services rendered. The Fund's Investment Manager informed the Fund that it paid \$203,443 to the Investment Adviser and approximately \$2,400 to the Consultant during the six months ended April 30, 2005.

Aberdeen Asset Managers (C.I.) Limited ("AAMCIL"), an affiliate of the Investment Manager and the Investment Adviser, provided certain trading and administrative services to the Fund pursuant to memoranda of understanding among the Investment Manager, the Investment Adviser and AAMCIL. The Investment Manager informed the Fund that the Investment Manager and the Investment Adviser paid \$132,230 to AAMCIL during the six months ended April 30, 2005.

Aberdeen Asset Management Inc. ("AAMI"), an affiliate of the Fund's Investment Manager and Investment Adviser, is the Fund's administrator, pursuant to an agreement under which

30 Aberdeen Global Income Fund, Inc.

Notes to Financial Statements (continued)

AAMI receives a fee at an annual rate of 0.15% of the Fund's average weekly net assets of both common and preferred shareholders.

Under terms of an Investor Relations Services Agreement, AAMI serves as the Fund's investor relations services provider. This agreement provides AAMI with a monthly retainer of \$4,000 plus out-of-pocket expenses. During the six months ended April 30, 2005, the Fund incurred fees of \$28,498 for the services of AAMI. Investor relations fees and expenses in the Statement of Operations include certain out-of-pocket expenses.

Note 4. Portfolio Securities

Purchases and sales of investment securities, other than short-term investments, for the six months ended April 30, 2005 aggregated \$25,137,564 and \$25,876,422, respectively.

Note 5. Common Stock

There were 300 million shares of \$.001 par value common stock authorized and 9,305,708 shares outstanding at April 30, 2005.

On March 1, 2001, the Board of Directors approved a stock repurchase program. The stock repurchase program allows the Fund to repurchase up to 10% of its common stock in the open market during any 12-month period, if and when the discount to net asset value is at least 10%. Through April 30, 2005, there have been no share repurchases through this program.

Note 6. Preferred Stock

There were 100 million shares of \$.001 par value of Auction Market Preferred Stock ("Preferred Stock") authorized. The preferred shares have rights as determined by the Board of Directors. The 1,200 shares of Preferred Stock outstanding consist of one series, W-7. The Preferred Stock has a liquidation value of \$25,000 per share plus any accumulated but unpaid dividends whether or not declared.

Dividends on the Preferred Stock are cumulative at a rate typically reset every

ment Company Act of 1940, the Fund may not declare dividends or make other distributions on shares of common stock or purchase any such shares if, at the time of the declaration, distribution or purchase, asset coverage with respect to the outstanding Preferred Stock would be less than 200%.

The Preferred Stock is redeemable at the option of the Fund, in whole or in part, on any dividend payment date at \$25,000 per share plus any accumulated but unpaid dividends. The Preferred Stock is also subject to mandatory redemption at \$25,000 per share plus any accumulated but unpaid dividends, whether or not declared, if certain requirements relating to the composition of the assets and liabilities of the Fund as set forth in the Charter are not satisfied.

The holders of Preferred Stock have voting rights equal to the holders of common stock (one vote per share) and will vote together with holders of shares of common stock as a single class. However, holders of Preferred Stock are also entitled to elect two of the Fund's directors.

Note 8. Subsequent Distributions

Subsequent to April 30, 2005, the Board of Directors of the Fund declared distributions of \$ 0.06 per common share payable on June 17, 2005 and July 15, 2005 to common shareholders of record on May 31, 2005 and June 30, 2005, respectively.

Subsequent to April 30, 2005, distributions declared and paid on preferred shares totaled approximately \$151,200 for the outstanding preferred share series through June 9, 2005.

Considerations in Approving Renewal of Management Agreement and Investment Advisory Agreement (collectively, "Agreements")

In December 2004, at an in-person meeting, the Board of Directors, including all of the directors who are not parties to the Agreements or "interested persons" (as defined in the Investment Company Act of 1940, as amended) of any such party ("Independent Directors"), considered and approved the renewal of the Agreements for an additional term of twelve months. At this meeting, the Directors reviewed an extensive report prepared by the Investment Manager and the Investment Adviser (collectively, the "Advisers") in response to a request submitted by the Independent Directors' independent legal counsel on behalf of such Directors, and discussed this report with representatives of the Advisers. The Independent Directors had the opportunity to consult with counsel to the Independent Directors regarding the renewal of the Agreements. The Directors also considered the recommendation of the Contract Review Committee of the Board consisting solely of Independent Directors (the "Committee") that the Agreements be renewed, noting that the Committee had discussed, in executive session with independent counsel, the nature, extent and quality of the management and advisory services provided to the Fund by the Advisers, the level of the management and advisory fees, the costs of the services provided and the profits realized by the Advisers, the Fund's expense ratio, its relative and absolute performance, any economies of scale with respect to the management of the Fund, any ancillary benefits received by the Advisers and their affiliates as a result of their relationship with the Fund, and various other matters included within the report of the Advisers. In approving the renewal of the Agreements, the Committee, and the entire Board of Directors, concluded that:

- o The annual management fee rate paid by the Fund to the Investment Manager for investment management services was within a reasonable range relative to a comparison group consisting of funds in a category of closed-end global income funds compiled by Lipper Inc. (the "Peer Group"), including Aberdeen Asia-Pacific Income Fund, Inc., another U.S. closed-end fund managed by the Investment Manager, and relative to the annual fee paid to the Investment Manager by a non-U.S. fund listed on the Toronto Stock Exchange, and the fee to be paid to Aberdeen Asset Management Inc. ("AAMI," an affiliate of the Investment Manager and the Investment Adviser) as the sub-adviser to a newly-formed U.S. closed-end fund with a similar investment strategy to that of the Fund.

34 Aberdeen Global Income Fund, Inc.

Edgar Filing: ABERDEEN GLOBAL INCOME FUND INC - Form N-CSRS/A

- o The Committee and the Board were satisfied with the nature, quality and extent of services provided by the Advisers. In reaching this conclusion, the Committee and the Board reviewed, among other things, the Advisers' investment experience, including the positive growth and development of their Far East operations as well as the Aberdeen Group's capabilities in North America (Canada), the emerging markets and Australia. The Committee and the Board received information regarding the Advisers' compliance with applicable laws and SEC and other regulatory inquiries or audits of the Fund and the Advisers. The Committee also received and considered a report from the Chief Executive of Aberdeen Asset Management PLC in regard to, among other matters, the financial capacity of the Advisers' parent company to support the services provided by its subsidiaries to the Fund and the strengthening of the parent company's balance sheet during the last year. The Committee and the Board also considered the background and experience of the Advisers' senior management and the qualifications, background and responsibilities of the portfolio managers primarily responsible for the day-to-day portfolio management services for the Fund.
- o The Fund experienced above-average investment performance as compared to the funds within the Peer Group. The Committee and the Board received and considered information regarding the Fund's total return in US dollar terms for each of the last five fiscal years on a gross and net basis and relative to the Fund's benchmark, the Fund's share performance and premium/discount information during the same period and the impact of foreign currency movements on the Fund's performance in U.S. dollar terms. The Committee and the Board also received and reviewed information as to the Fund's total return for each of the last five fiscal years as compared with the total returns of each of the funds included in the Peer Group. The Committee and the Board further reviewed the impact of the Fund's preferred stock on the returns to shareholders and information as to the Fund's discount/premium ranking per the Peer Group for the one, five and seven year periods ended October 31, 2004.
- o The Fund's expense ratio, based on the Lipper methodology of excluding the Fund's assets attributable to its preferred stock, was the highest within a selected group of funds of comparable asset size within the Peer Group; however, the Committee and the Board believed that it was appropriate to also consider a reduced expense ratio computed based upon the assets attributable to the Fund's common and preferred stock, since the Fund's total expenses include expenses related to the management of such assets. The

Aberdeen Global Income Fund, Inc. 35

Committee and the Board further noted that the Fund's expense ratio was high due to the fact that many of the Fund's expenses are fixed while the asset base of the Fund against which those expenses are charged is relatively small.

- o Any potential economies of scale were being shared between the Fund and the Advisers in an appropriate manner.
- o In light of the costs of providing investment management and advisory services to the Fund, the profits and any ancillary benefits that the Advisers received, individually and on an aggregate basis (based on certain pro forma estimates), with respect to providing investment management and advisory services to the Fund were reasonable.

As noted above, the Board reviewed detailed materials received from the Advisers

Edgar Filing: ABERDEEN GLOBAL INCOME FUND INC - Form N-CSRS/A

as part of the renewal process. The Board also regularly reviews and assesses the quality of the services the Fund receives throughout the year. In this regard, the Board reviews reports of the Advisers at least in each of its regular quarterly meetings, which include, among other things, a portfolio review and Fund performance reports.

After considering the above-described factors and based on the deliberations and its evaluation of the information provided to it, the Committee and the Board concluded that approval of the renewal of the Agreements was in the best interest of the Fund and its shareholders. Accordingly, the Board, and the Independent Directors voting separately, unanimously approved the renewal of the Agreements.
