SECURITIES AND EXCHANGE COMMISSION

Washington, D.C. 20549

FORM 10-Q

(Mark One)

Quarterly Report Pursuant to Section 13 or 15(d) of the Securities Exchange Act of 1934

For the quarterly period ended June 30, 2012

OR

Transition Report Pursuant to Section 13 or 15(d) of the Securities Exchange Act of 1934

For the transition period from _____ to _____

Commission File No. 0-50167

INFINITY PROPERTY AND CASUALTY CORPORATION

(Exact name of registrant as specified in its charter)

Incorporated under

the Laws of Ohio

(State or other jurisdiction of

incorporation or organization)

3700 Colonnade Parkway, Suite 600, Birmingham, Alabama 35243

(Address of principal executive offices and zip code)

(205) 870-4000

(Registrant's telephone number, including area code)

Not Applicable

(Former name, former address and former fiscal year, if changed since last report)

03-0483872

(I.R.S. Employer

Identification No.)

Indicate by check mark whether the registrant (1) has filed all reports required to be filed by Section 13 or 15(d) of the Securities Exchange Act of 1934 during the preceding 12 months and (2) has been subject to such filing requirements for the past 90 days. Yes No

Indicate by check mark whether the registrant has submitted electronically and posted on its corporate Web site, if any, every Interactive Data File required to be submitted and posted pursuant to Rule 405 of Regulation S-T (§232.405 of this chapter) during the preceding 12 months (or for such shorter period that the registrant was required to submit and post such files). Yes No

Indicate by check mark whether the registrant is a large accelerated filer, an accelerated filer, a non-accelerated filer, or a smaller reporting company. See the definitions of "large accelerated filer," "accelerated filer" and "smaller reporting company" in Rule 12b-2 of the Exchange Act.

Large accelerated filer

Accelerated filer

Non-accelerated filer (Do not check if smaller reporting company)

Smaller reporting company

Indicate by check mark whether the registrant is a shell company (as defined by rule 12b-2 of the Exchange Act). Yes No

As of July 31, 2012 there were 11,711,049 shares of the registrant's common stock outstanding.

Note 1 Reporting and Accounting Policies

Nature of Operations

We are a holding company that, through subsidiaries, provides personal automobile insurance with a concentration on nonstandard auto insurance. Although licensed to write insurance in all 50 states and the District of Columbia, we focus on select states that we believe offer the greatest opportunity for premium growth and profitability.

Basis of Consolidation and Reporting

The accompanying consolidated financial statements are unaudited and should be read in conjunction with our Annual Report on Form 10-K for the year ended December 31, 2011. This Quarterly Report on Form 10-Q, including the Condensed Notes to Consolidated Financial Statements and Management's Discussion and Analysis of Financial Condition and Results of Operations, focuses on our financial performance since the beginning of the year.

These financial statements reflect certain adjustments necessary for a fair presentation of our results of operations and financial position. Such adjustments consist of normal, recurring accruals recorded to match expenses with their related revenue streams and the elimination of all significant inter-company transactions and balances.

We have evaluated events that occurred after June 30, 2012 for recognition or disclosure in our financial statements and the notes to the financial statements.

Estimates

We based certain accounts and balances within these financial statements upon our estimates and assumptions. The amount of reserves for claims not yet paid, for example, is an item that we can only record by estimation. Unrealized capital gains and losses on investments are subject to market fluctuations, and we use judgment in the determination of whether unrealized losses on certain securities are temporary or other-than-temporary. Should actual results differ significantly from these estimates, the effect on our results of operations could be material. The results of operations for the periods presented may not be indicative of our results for the entire year.

Recently Adopted Accounting Standards

Accounting for Costs Associated with Acquiring or Renewing Insurance Contracts

In October 2010, the Financial Accounting Standards Board ("FASB") issued an accounting standards update intended to reduce diversity in practice for the accounting of deferred policy acquisition costs. The guidance modifies the definition of acquisition costs to require that costs be directly related to the successful acquisition of a new or renewal insurance contract to be deferred. We adopted this standard as of January 1, 2012. Pursuant to the guidance, we elected to adopt this standard on a retrospective basis and recognized an adjustment to beginning retained earnings for the earliest period shown in the Consolidated Statements of Changes in Shareholders' Equity of \$6.2 million, net of taxes.

The following table illustrates the effect of adopting this standard on the Consolidated Balance Sheets (in millions):

Table of Contents

INFINITY PROPERTY AND CASUALTY CORPORATION 10-Q

Condensed Notes to Consolidated Financial Statements

	December 31, 2011		
	As Reported	As Adjusted	Difference
Deferred policy acquisition costs	\$89.9	\$80.1	\$(9.8)
Current and deferred income taxes	7.3	10.7	3.4
Total assets	1,936.8	1,930.4	(6.4)
Shareholders' equity	668.2	661.8	(6.4)

The following table illustrates the effect of adopting this standard on the Consolidated Statements of Earnings (in millions, except per share amounts):

	Three months ended June 30, 2011			Six months ended June 30, 2011		
	As Reported	As Adjusted	Difference	As Reported	As Adjusted	Difference
Commissions and other underwriting expenses	\$57.5	\$58.7	\$1.2	\$112.6	\$114.9	\$2.4
Provision for income taxes	1.4	1.0	(0.4)	4.2	3.4	(0.8)
Net earnings	7.6	6.8	(0.8)	18.6	17.1	(1.5)
Net earnings per common share:						
Basic	\$0.62	\$0.56	\$(0.06)	\$1.51	\$1.39	\$(0.12)
Diluted	0.61	0.54	(0.07)	1.48	1.35	(0.13)

We also adjusted the Consolidated Statements of Cash Flows for these changes for the three and six months ended June 30, 2011.

Presentation of Comprehensive Income

In June and December 2011, the FASB issued guidance amending the presentation of comprehensive income and its components. We adopted this standard as of January 1, 2012. Under the new guidance, a reporting entity has the option to present comprehensive income in a single continuous statement or in two separate but consecutive statements, as we elected. The impact of adoption was not material to our results of operations or financial position.

Amendments to Fair Value Measurement and Disclosure Requirements

In May 2011, the FASB issued guidance that clarifies the application of existing fair value measurement and disclosure requirements and amends certain fair value measurement principles, requirements and disclosures. We adopted this standard as of January 1, 2012. The impact of adoption was not material to our results of operations or financial position. Additional disclosures required by this standard are located in Note 4 to the Consolidated Financial Statements.

Reclassifications

We have reclassified certain amounts in the prior period consolidated financial statements to conform to the current period presentation. These reclassifications had no effect on total shareholders' equity, net cash flow or net earnings as previously reported.

Schedules may not foot due to rounding.

Note 2 Share-Based Compensation

Restricted Stock Plan

We established the Restricted Stock Plan in 2002 and amended it on July 31, 2007. There are 500,000 shares of our common stock reserved for issuance under the Restricted Stock Plan, of which we have issued 278,843 shares as of June 30, 2012. We expense the fair value of shares issued under the Restricted Stock Plan over the vesting periods of the awards based on the market value of our stock on the date of grant.

On July 31, 2007, our Compensation Committee (“Committee”) approved the grant of 72,234 shares of restricted stock to certain officers under the Restricted Stock Plan. These shares of restricted stock vested in full on July 31, 2011. On August 2, 2011, the Committee approved the grant of an additional 72,234 shares of restricted stock to certain officers under the

Table of Contents

INFINITY PROPERTY AND CASUALTY CORPORATION 10-Q

Condensed Notes to Consolidated Financial Statements

Restricted Stock Plan. These shares will vest in full on August 2, 2014. During the vesting period, the shares of restricted stock will not have voting rights and will accrue dividends, which we will not pay until the shares have vested. We treat the restricted shares as issued and outstanding for calculation of diluted earnings per share only. Until fully vested, we will not consider the shares issued and outstanding for purposes of the basic earnings per share calculation.

Non-employee Directors' Stock Ownership Plan

In May 2005, our shareholders approved the Non-employee Directors' Stock Ownership Plan ("Directors' Plan"). The purpose of the Directors' Plan is to include our common stock as part of the compensation provided to our non-employee directors and to provide for stock ownership requirements for our non-employee directors. There are 200,000 shares of our common stock reserved for issuance under the Directors' Plan, of which we have issued 49,461 shares as of June 30, 2012. Under the terms of the Directors' Plan, we grant shares on or about June 1 of each year and we restrict these shares from sale or transfer by any recipient for six months from the date of grant. In June 2011, we issued 6,657 shares of our common stock, valued pursuant to the Directors' Plan at \$350,000, to our non-employee directors. In June 2012, we issued 5,502 shares of our common stock, valued pursuant to the Directors' Plan at \$300,000, to our non-employee directors. We treat participants' shares as issued and outstanding for basic and diluted earnings per share calculations.

Employee Stock Purchase Plan

We established our Employee Stock Purchase Plan ("ESPP") in 2004 and amended and restated it on August 3, 2010. Under the ESPP, all eligible full-time employees may purchase shares of our common stock at a 15% discount to the current market price. Employees may allocate up to 25% of their base salary with a maximum annual participation amount of \$25,000. If a participant sells any shares purchased under the ESPP within one year, we preclude that employee from participating in the ESPP for one year from the date of sale. The source of shares issued to participants is treasury shares or authorized but previously unissued shares. The maximum number of shares that we may issue under the ESPP may not exceed 1,000,000, of which we have issued 50,436 as of June 30, 2012. Our ESPP is qualified under Section 423 of the Internal Revenue Code of 1986, as amended. We treat participants' shares as issued and outstanding for basic and diluted earnings per share calculations.

Performance Share Plan

Our shareholders approved the Performance Share Plan ("PSP") on May 20, 2008 and an amended and restated PSP on May 26, 2010. The purpose of the PSP is to align further the interest of management with our long-term shareholders by including performance-based compensation, payable in shares of common stock, as a component of an executive's annual compensation. The Committee administers the PSP and will (i) establish the performance goals, which may include but are not limited to, combined ratio, premium growth, growth within certain specific geographic areas and earnings per share or return on equity over the course of the upcoming three year period, (ii) determine the PSP participants, (iii) set the performance share units to be awarded to such participants, and (iv) set the rate at which performance share units will convert to shares of common stock based upon attainment of the performance goals. The number of shares of common stock that we may issue under the PSP is limited to 500,000 shares. In April 2012 and 2011, we issued 49,098 and 32,957 shares, respectively, under the PSP.

Stock Option Plan

We amended our Stock Option Plan ("SOP") to prohibit any future grant of stock options from the plan after May 20, 2008. We amended the plan again on August 2, 2011. We have granted no options since 2004. We generally granted options with an exercise price equal to the closing price of our stock at the date of grant and these options have a 10-year contractual life. All of the options under the SOP have fully vested. Subject to specific limitations contained in the SOP, our Board of Directors has the ability to amend, suspend or terminate the plan at any time without shareholder approval. The SOP will continue in effect until the exercise or expiration of all options granted under the

plan.

As permitted by the Stock Compensation topic of the FASB Accounting Standards Codification, we used the modified Black-Scholes model with the assumptions noted below to estimate the value of employee stock options on the date of grant. Expected volatilities are based on historical volatilities of our stock. We selected the expected option life to be 7.5 years, which represents the midpoint between the last vesting date and the end of the contractual term. The risk-free interest rate for periods within the contractual life of the options is based on the yield on 10-year Treasury notes in effect at the time of grant. The dividend yield was based on expected dividends at the time of grant. We estimated the weighted-average grant date fair values of options granted during 2004 and 2003 using the modified Black-Scholes valuation model and the following weighted-average assumptions:

11

Table of Contents

INFINITY PROPERTY AND CASUALTY CORPORATION 10-Q

Condensed Notes to Consolidated Financial Statements

	2004 Grants		2003 Grants	
Weighted-average grant date fair value	\$13.87		\$5.97	
Dividend yield	0.7	%	1.4	%
Expected volatility	33.0	%	33.0	%
Risk-free interest rate	4.3	%	4.0	%
Expected life	7.5	years	7.5	years
Weighted-average grant exercise price	\$33.56		\$16.11	
Outstanding at June 30, 2012	79,050		99,305	

The following table describes activity for our Stock Option Plan:

	Number of Options	Weighted-Average Exercise Price	Weighted-Average Remaining Term (in years)	Aggregate Intrinsic Value (a) (in millions)
Outstanding at December 31, 2011	192,455	\$ 23.40		
Granted	0	0		
Exercised	(14,100)	\$ 16.00		
Forfeited	0	0		
Outstanding at June 30, 2012	178,355	\$ 23.98	1.08	\$6.0
Vested at June 30, 2012	178,355	\$ 23.98	1.08	\$6.0
Exercisable at June 30, 2012	178,355	\$ 23.98	1.08	\$6.0

(a) We calculated the intrinsic value for the stock options based on the difference between the exercise price of the underlying awards and our closing stock price as of the reporting date.

Cash received from options exercised for the six months ended June 30, 2012 and 2011 was approximately \$0.2 million and \$0.8 million, respectively. The actual tax benefit realized for the tax deductions from options exercised totaled \$0.2 million and \$0.5 million for the six months ended June 30, 2012 and June 30, 2011, respectively. The total intrinsic value of options exercised during the six months ended June 30, 2012 and 2011 was approximately \$0.5 million and \$1.8 million, respectively.

We have a policy of issuing new stock for the exercise of stock options.

The amount of total compensation cost, by plan, for share-based compensation arrangements was as follows (in thousands):

	Three months ended June 30,				Six months ended June 30,			
	2012		2011		2012		2011

Dilutive effect of Performance Share Plan	106	77	148	84
Average diluted shares outstanding	11,937	12,541	11,993	12,596
Diluted net earnings per share	\$0.58	\$0.54	\$0.94	\$1.35

Note 4 Fair Value

Fair values of instruments are based on:

- (i) quoted prices in active markets for identical assets (Level 1),
quoted prices for similar instruments in active markets, quoted prices for identical or similar instruments in
- (ii) markets that are not active and model-derived valuations in which all significant inputs are observable in active markets (Level 2) or
- (iii) valuations derived from valuation techniques in which one or more significant inputs are unobservable in the marketplace (Level 3).

The following table presents for each of the fair value hierarchy levels our assets and liabilities for which we report fair value on a recurring basis at June 30, 2012 (in thousands):

	Fair Value			Total
	Level 1	Level 2	Level 3	
Cash and cash equivalents	\$69,314	\$0	\$0	\$69,314

Table of Contents

INFINITY PROPERTY AND CASUALTY CORPORATION 10-Q

Condensed Notes to Consolidated Financial Statements

Level 1 includes cash and cash equivalents, U.S. Treasury securities, an exchange-traded fund and equities invested in a rabbi trust. Level 2 includes securities whose fair value was determined using observable market inputs. Level 3 securities are comprised of (i) securities for which there is no active or inactive market for similar instruments, (ii) securities whose fair value is determined based on unobservable inputs and (iii) securities, other than those backed by the U.S. Government, that are not rated by a nationally recognized statistical rating organization ("NRSRO"). We recognize transfers between levels at the beginning of the reporting period.

A third party nationally recognized pricing service provides the fair value of securities in Level 2. We periodically review the third party pricing methodologies and test for significant differences between the market price used to value the security and recent sales activity.

The following table presents the changes in the Level 3 fair value category (in thousands):

	Three months ended June 30, 2012						Total
	U.S. Government	State and Municipal	Mortgage-Backed Securities	Collateralized Mortgage Obligations	Corporates	ABS

--------------------------	---------	---------	---------	-------	---------	---------	----------

Of the \$25.7 million fair value of securities in Level 3, which consists of 18 securities, we priced 6 based on non-binding broker quotes. We manually calculated the price of 2 securities, which have a combined fair value of \$0.9 million. Quantitative information about the significant unobservable inputs used in the fair value measurement of these manually priced securities at June 30, 2012 is as follows (in millions):

14

Table of Contents

INFINITY PROPERTY AND CASUALTY CORPORATION 10-Q

Condensed Notes to Consolidated Financial Statements

	Fair Value	Valuation Technique	Unobservable Input	Value Used
Corporate bond	\$0.1	Recovery rate ¹	Probability of default	100%
Corporate bond	0.8	Discounted cash flow	Comparable credit rating	Ba1
Total	\$0.9			

¹ Recovery rate for senior unsecured bonds as indicated in Moody's Investor's Service Annual Default Study: Corporate Default and Recovery Rates, 1920-2011.

The significant unobservable inputs used in the fair value measurement of our manually-priced corporate bonds are a probability of default assumption and an assigned credit rating. Significant changes in either of these inputs in isolation could result in a significant change in fair value measurement. Generally, a reduction in probability of default would increase security valuation. A change in the credit rating assumption would change the yield spread associated with that bond, and thus the yield used in discounting the cash flows to arrive at the security's valuation. We transferred approximately \$1.1 million of securities in Level 3 at December 31, 2011 to Level 2 during the six months ended June 30, 2012 because we obtained a price for those securities from a nationally recognized pricing service. We transferred approximately \$1.8 million of securities into Level 3 from Level 2 during the six months ended June 30, 2012 because we could not obtain a price from a third party nationally recognized pricing service or because a rating by a NRSRO was not available. There were no transfers between Levels 1 and 2 during the six months ended June 30, 2012.

The gains or losses included in net earnings are included in the line item net realized gains on investments in the Consolidated Statements of Earnings. We recognize the net gains or losses included in other comprehensive income in the line item unrealized gains (losses) on investments, net in the Consolidated Statements of Comprehensive Income and the line item change in unrealized gain on investments or the line item change in non-credit component of impairment losses on fixed maturities in the Consolidated Statements of Changes in Shareholders' Equity.

The following table presents the carrying value and estimated fair value of our financial instruments (in thousands):

	June 30, 2012		December 31, 2011	
	Carrying Value	Fair Value	Carrying Value	Fair Value

Note 5 Investments

We consider all fixed maturity and equity securities available-for-sale and report them at fair value with the net unrealized gains or losses reported after-tax (net of any valuation allowance) as a component of other comprehensive income. The proceeds from sales of securities for the three months ended June 30, 2012 and 2011 were \$86.7 million and \$51.0 million, respectively. The proceeds from sales of securities for the six months ended June 30, 2012 and 2011 were \$123.5 million and \$108.7 million, respectively. The proceeds for the three and six months ended June 30, 2011 were net of \$0.9 million of receivable for securities sold during the second quarter of 2011 that had not settled at June 30, 2011.

Gains or losses on securities are determined on a specific identification basis.

INFINITY PROPERTY AND CASUALTY CORPORATION 10-Q

Condensed Notes to Consolidated Financial Statements

The table above excludes an unrealized loss on equities invested in a rabbi trust of \$2.5 thousand at June 30, 2012 and an unrealized loss of \$37.7 thousand at December 31, 2011.

The determination of whether unrealized losses are “other-than-temporary” requires judgment based on subjective as well as objective factors. Factors we considered and resources we used in our determination include:

- the intent to sell the security;
- whether it is more likely than not that there will be a requirement to sell the security before our anticipated recovery;
- whether the unrealized loss is credit-driven or a result of changes in market interest rates;
- the length of time the security’s fair value has been below our cost;
- the extent to which fair value is less than cost basis;
- historical operating, balance sheet and cash flow data contained in issuer SEC filings;
- issuer news releases;
- near-term prospects for improvement in the issuer and/or its industry;
- industry research and communications with industry specialists and
- third-party research and credit rating reports.

We regularly evaluate for potential impairment each security position that has any of the following: a fair value of less than 95% of its book value, an unrealized loss that equals or exceeds \$100,000 or one or more impairment charges recorded in the past. In addition, we review positions held related to an issuer of a previously impaired security.

Table of Contents

INFINITY PROPERTY AND CASUALTY CORPORATION 10-Q

Condensed Notes to Consolidated Financial Statements

The following table summarizes those securities, excluding the rabbi trust, with unrealized gains or losses:

	June 30, 2012	December 31, 2011		
Number of positions held with unrealized:				
Gains	672	583		
Losses	47	73		
Number of positions held that individually exceed unrealized:				
Gains of \$500,000	5	5		
Losses of \$500,000	0	0		
Percentage of positions held with unrealized:				
Gains that were investment grade	82	% 83		%
Losses that were investment grade	77	% 73		%
Percentage of fair value held with unrealized:				
Gains that were investment grade	95	% 95		%
Losses that were investment grade	93	% 91		%

The following table sets forth the amount of unrealized loss, excluding the rabbi trust, by age and severity at June 30, 2012 (in thousands):

Age of Unrealized Losses:	Fair Value of Securities with Unrealized Losses	Total Gross Unrealized Losses	Less Than 5%*	5% - 10%*	Greater Than 10%*
Less than or equal to:					
Three months	\$20,241	\$(86)	\$(86)	\$0	\$0
Six months	13,040	(155)	(116)	(39)	0
Nine months	5,545	(95)	(95)	0	0
Twelve months	3,393	(42)	(12)	0	(30)
Greater than twelve months	6,858	(248)	(159)	0	(89)
Total	\$49,077	\$(626)	\$(467)	\$(39)	\$(120)

* As a percentage of amortized cost or cost.

Change in unrealized gains (losses) on marketable securities, net	\$9,338	\$(459)) \$(3,107)) \$5,771

(1) Tax excludes valuation reserve

For fixed maturity securities that are other-than-temporarily impaired, we assess our intent to sell and the likelihood that we will be required to sell the security before recovery of our amortized cost. If a fixed maturity security is considered other-than-temporarily impaired but we do not intend to and are not more than likely to be required to sell the security before our recovery to amortized cost, we separate the amount of the impairment into a credit loss component and the amount due to all other factors. The excess of the amortized cost over the present value of the expected cash flows determines the credit loss component of an impairment charge on a fixed maturity security. The present value is determined using the best estimate of cash flows discounted at (1) the effective interest rate implicit at the date of acquisition for non-structured securities or (2) the book yield for structured securities. The techniques and assumptions for determining the best estimate of cash flows vary depending on the type of security. We recognize the credit loss component of an impairment charge in net earnings and the non-credit component in accumulated other comprehensive income. If we intend to sell or will, more likely than not, be required to sell a security, we treat the entire amount of the impairment as a credit loss.

The following table is a progression of credit losses on fixed maturity securities that were bifurcated between a credit and non-credit component (in thousands):

	Six months ended June 30,	
	2012	2011
Beginning balance	\$1,728	\$1,828
Additions for:		
Previously impaired securities	0	36
Newly impaired securities	9	692
Reductions for:		
Securities sold and paid down	(296)) (446)
Securities that no longer have a non-credit component	(735)) 0

Ending balance	\$706	\$2,109
----------------	-------	---------

The table below sets forth the scheduled maturities of fixed maturity securities at June 30, 2012, based on their fair values (in thousands). We report securities that do not have a single maturity date at average maturity. Actual maturities may differ from contractual maturities because certain securities may be called or prepaid by the issuers.

Table of Contents

INFINITY PROPERTY AND CASUALTY CORPORATION 10-Q

Condensed Notes to Consolidated Financial Statements

Maturity	Fair Value			Amortized Cost	
	Securities with Unrealized Gains	Securities with Unrealized Losses	Securities with No Unrealized Gains or Losses	All Fixed Maturity Securities	All Fixed Maturity Securities
One year or less	\$40,726	\$411	\$0	\$41,137	\$63,855
After one year through five years	420,791	19,650	1,750	442,191	513,192
After five years through ten years	339,259	6,684	1,097	347,040	210,858
After ten years	50,682	337	0	51,018	58,289
Mortgage-backed, asset-backed and collateralized mortgage obligations	334,780	21,995	0	356,775	344,019
	\$1,186,237	\$49,077	\$2,847	\$1,238,162	\$1,190,212

Note 6 Long-Term Debt

In February 2004, we issued \$200 million principal of senior notes due February 2014 (the "Senior Notes"). The Senior Notes accrue interest at an effective yield of 5.55% and bear a coupon of 5.5%, payable semiannually. At the time we issued the Senior Notes, we capitalized \$2.1 million of debt issuance costs, which we are amortizing over the term of the Senior Notes. During 2009, we repurchased \$5.0 million of our debt, bringing the outstanding principal to \$195.0 million. We calculated the June 30, 2012 fair value of \$206.1 million using a 160 basis point spread to the two-year U.S. Treasury Note of 0.303%.

In August 2011, we renewed our agreement for a \$50 million three-year revolving credit facility (the "Credit Agreement") that requires us to meet certain financial and other covenants. We are currently in compliance with all covenants under the Credit Agreement. At June 30, 2012, there were no borrowings outstanding under the Credit Agreement.

Note 7 Income Taxes

The following table reconciles our income taxes at statutory rates to our effective provision for income taxes (in thousands):

	Three months ended June 30,		Six months ended June 30,		
	2012	2011	2012	2011	
Earnings before income taxes	\$9,323	\$7,825	\$14,845	\$20,432	
Income taxes at statutory rates	\$3,263	\$2,739	\$5,196	\$7,151	
Effect of:					
Dividends-received deduction	(42)	(32)	(79)	(67))
Tax-exempt interest	(814)	(885)	(1,644)	(1,760))
Adjustment to valuation allowance	(80)	(810)	80	(1,944))
Other	41	(12)	44	(3))
Provision for income taxes	\$2,369	\$1,000	\$3,597	\$3,376	
GAAP effective tax rate	25.4	% 12.8	% 24.2	% 16.5	%

During the six months ended June 30, 2011, we decreased our tax valuation allowance by \$1.9 million due to both a decrease in the reserve for other-than-temporary impaired securities and utilization of our capital loss carryforward.

Note 8 Additional Information

Supplemental Cash Flow Information

We made the following payments that we do not separately disclose in the Consolidated Statements of Cash Flows (in thousands):

22

Table of Contents

INFINITY PROPERTY AND CASUALTY CORPORATION 10-Q

Condensed Notes to Consolidated Financial Statements

	Three months ended June 30,		Six months ended June 30,	
	2012	2011	2012	2011
Income tax payments	\$5,000	\$9,203	\$5,000	\$9,203
Interest payments on debt	0	0	5,363	5,363
Negative Cash Book Balances				

Negative cash book balances, included in the line item “Other liabilities” in the Consolidated Balance Sheets, were \$6.0 million and \$5.9 million, respectively at June 30, 2012 and December 31, 2011.

Sale of Shell Company

In April 2012, we entered into a definitive agreement to sell an inactive shell insurance subsidiary to an unaffiliated third party. The sale is expected to close by September 30, 2012, pending regulatory approval. In the future, we intend to sell or dissolve other inactive shell companies. The primary reason for the sale of these shell companies is to reduce the administrative costs to maintain licenses in companies not needed to support our insurance operations.

Total unpaid losses and LAE	\$ 530,872	\$ 483,108	\$ 530,872	\$ 483,108

Bodily injury coverage in California and personal injury protection coverage in Florida related to accident years 2010 and 2011 were the primary sources of the \$1.9 million and \$1.8 million of unfavorable reserve development during the three and six months ended June 30, 2012, respectively.

Increases in severities on both bodily injury coverage in several of our Focus States as well as personal injury protection coverage in Florida, both related to accident year 2010, were the primary source of the \$3.4 million of unfavorable development during the three months ended June 30, 2011.

ITEM 2

CAUTIONARY STATEMENT REGARDING FORWARD-LOOKING STATEMENTS

This Quarterly Report on Form 10-Q contains certain "forward-looking statements" which anticipate results based on our estimates, assumptions and plans that are subject to uncertainty. We make these statements subject to the safe-harbor provisions of the Private Securities Litigation Reform Act of 1995. All statements in this report not dealing with historical results or current facts are forward-looking and we base them on estimates, assumptions and projections. Statements which include the words "assumes," "believes," "seeks," "expects," "may," "should," "intends," "likely," "targets," "plans," "anticipates," "estimates" or the negative version of those words and similar statements of a future or forward-looking nature identify forward-looking statements. Examples of such forward-looking statements include statements relating to expectations concerning market conditions, premium growth, earnings, investment performance, expected losses, rate changes and loss experience.

The primary events or circumstances that could cause actual results to differ materially from what we expect include determinations with respect to reserve adequacy, realized gains or losses on the investment portfolio (including other-than-temporary impairments for credit losses), rising bodily injury loss cost trends, undesired business mix or risk profile for new business, elevated unemployment rates and the proliferation of illegal immigration legislation in key Focus States. We undertake no obligation to publicly update or revise any of the forward-looking statements. For a more detailed discussion of some of the foregoing risks and uncertainties which could cause actual results to differ from those contained in the forward-looking statements see "Risk Factors" contained in Part I, Item 1A of our Annual Report on Form 10-K for the twelve months ended December 31, 2011.

OVERVIEW

We continued to generate premium growth in the second quarter of 2012, although at a slower rate than the first quarter of 2012. This quarter marks the eleventh consecutive quarter that we have experienced growth in written premiums. This increase is a result of multiple factors, including a shift in business mix towards policies offering broader coverage, rate decreases taken in 2011 in certain states and competitors' rate increases in certain states. Premiums fell in three of the seven Focus States during the second quarter of 2012 as a result of our efforts to improve profitability through rate increases and more restrictive underwriting. See Results of Operations – Underwriting – Premium for a more detailed discussion of our gross written premium growth.

Net earnings and diluted earnings per share for the three months ended June 30, 2012 were \$7.0 million and \$0.58, respectively, compared to \$6.8 million and \$0.54, respectively, for the three months ended June 30, 2011. Net earnings and diluted earnings per share for the six months ended June 30, 2012 were \$11.2 million and \$0.94, respectively, compared to \$17.1 million and \$1.35, respectively, for the six months ended June 30, 2011. The decrease in diluted earnings per share for the six months ended June 30, 2012 is primarily due to an increase in unfavorable development recognized in 2012 coupled with a decline in realized gains on investments.

We had a net realized gain on investments of \$2.2 million for the three months ended June 30, 2012 and a net realized gain of \$2.0 million for the three months ended June 30, 2011. We had a net realized gain on investments of \$2.4 million for the six months ended June 30, 2012 and a net realized gain of \$4.9 million for the six months ended June 30, 2011. Included in the net realized gain for the second quarter of 2012 is \$0.4 million of other-than-temporary impairments on fixed income securities compared to \$0.2 million of impairments on fixed income securities during the second quarter of 2011. Included in the net realized gain for the six months ended June 30, 2012 is \$1.1 million of other-than-temporary impairments on fixed income securities compared to \$0.8 million of impairments on fixed income securities for the six months ended June 30, 2011.

Included in net earnings for the three months ended June 30, 2012 and 2011 were \$1.2 million (\$1.9 million pre-tax) of unfavorable development on prior accident year loss and LAE reserves and \$2.2 million (\$3.4 million pre-tax) of unfavorable development on prior accident year loss and LAE reserves, respectively. Included in net earnings for the six months ended June 30, 2012 and 2011 were \$1.2 million (\$1.8 million pre-tax) of unfavorable development on prior accident year loss and LAE reserves and \$15.0 thousand (\$23.0 thousand pre-tax) of unfavorable development

on prior accident year loss and LAE reserves, respectively. The following table displays combined ratio results by accident year developed through June 30, 2012.

2012 YTD				99.9	% 99.2	%			\$ (1.9)	\$ (1.8)

Recent accident years are less developed than prior years and must be interpreted with caution. However, the upward trend in the 2010 through 2012 accident period combined ratios compared to prior periods reflects an increase in new business during 2010 through 2012. Our new business combined ratios typically run 20 to 30 points higher than renewal business combined ratios due to higher commission and acquisition expenses as well as typically higher loss ratios. See Results of Operations – Underwriting – Profitability for a more detailed discussion of our underwriting results.

Our book value per share increased 1.6% from \$56.05 at December 31, 2011 to \$56.92 at June 30, 2012. This increase was primarily due to earnings, net of shareholder dividends, and the increase in unrealized gains on investments for the six months ended June 30, 2012.

INFINITY PROPERTY AND CASUALTY CORPORATION 10-Q

Management's Discussion and Analysis of Financial Condition and Results of Operations

RESULTS OF OPERATIONS

Underwriting

Premium

Our insurance subsidiaries provide personal automobile insurance products with a concentration on nonstandard auto insurance. While there is no industry-recognized definition of nonstandard auto insurance, we believe that it is generally understood to mean coverage for drivers who, because of their driving record, age or vehicle type, represent higher than normal risks and pay higher rates for comparable coverage. We also write commercial vehicle insurance and insurance for classic collectible automobiles ("Classic Collector").

We offer three primary products to individual drivers: the Low Cost product, which offers the most restrictive coverage, the Value Added product, which offers broader coverage and higher limits, and the Premier product, which we designed to offer the broadest coverage for standard and preferred risk drivers.

We are licensed to write insurance in all 50 states and the District of Columbia, but we focus our operations in targeted urban areas ("Urban Zones") identified within selected Focus States that we believe offer the greatest opportunity for premium growth and profitability.

We classify the states in which we operate into three categories:

• "Focus States" – We have identified Urban Zones in these states, which include Arizona, California, Florida, Georgia, Nevada, Pennsylvania and Texas.

• "Maintenance States" – We are maintaining our writings in these states, which include Alabama, Colorado, Illinois, South Carolina and Tennessee. We believe each state offers us an opportunity for underwriting profit.

• "Other States" – Includes eight states where we maintain a renewal book of personal auto business.

We further classify territories within the Focus States into two categories:

• "Urban Zones" – include the following urban areas:

Arizona – Phoenix and Tucson

California – Bay Area, Los Angeles, Sacramento, San Diego, and San Joaquin Valley

Florida – Jacksonville, Miami, Orlando, Sarasota and Tampa

Georgia – Atlanta

Nevada – Las Vegas

Pennsylvania – Allentown and Philadelphia

Texas – Dallas, Fort Worth, Houston and San Antonio

• "Non-urban Zones" – include all remaining areas in the Focus States located outside of a designated Urban Zone.

We continually evaluate our market opportunities; thus, the Focus States, Urban Zones, Maintenance States and Other States may change over time as new market opportunities arise, as the allocation of resources changes or as regulatory environments change. At the beginning of 2012, we reclassified Illinois from a Focus State to a Maintenance State due to its low premium volume and underwriting profits. In the tables below, we have restated 2011 premium, policies in force and combined ratios to be consistent with the 2012 definition of Urban Zones, Focus States, Maintenance States and Other States.

Table of Contents

INFINITY PROPERTY AND CASUALTY CORPORATION 10-Q

Management's Discussion and Analysis of Financial Condition and Results of Operations

The following table summarizes our policies in force:

	At June 30, 2012	2011	Change	% Change	
Policies in Force					
Personal Auto					
Focus States					
Urban Zones	757,428	691,191	66,237	9.6	%
Non-urban Zones	105,721	83,824	21,897	26.1	%
Total Focus States	863,149	775,015	88,134	11.4	%
Maintenance States	26,987	28,876	(1,889)	(6.5))%
Other States	3,747	4,528	(781)	(17.2))%
Total Personal Auto	893,883	808,419	85,464	10.6	%
Commercial Vehicle	37,979	34,295	3,684	10.7	%
Classic Collector	37,014	34,841	2,173	6.2	%
Total policies in force	968,876	877,555	91,321	10.4	%

Gross written premium grew 11.9% and 17.3% during the second quarter and first six months of 2012, respectively, compared with the same periods of 2011. During the first six months of 2012, Infinity implemented rate revisions in various states with an overall rate increase of 3.3%. Excluding the effect of rate changes in California, our largest state, the overall rate increase was 5.6%. Policies in force at June 30, 2012 increased 10.4% compared with the same period in 2011. Gross written premium grew more than policies in force due to a shift in overall business mix toward policies offering broader coverage and higher average premium as well as growth in Florida business, which has a higher average premium per policy than our other states.

During the second quarter and first six months of 2012, personal auto insurance gross written premium in our Focus States grew 12.1% and 18.1%, respectively, when compared with the same periods of 2011. The increase in gross written premium in both periods is primarily due to growth in California and Florida.

California gross written premium grew 2.3% and 8.9%, respectively, during the second quarter and first six months of 2012. Rate actions taken by competitors and a shift in business mix to policies offering broader coverage and higher average premium have stimulated premium growth in the state. Growth in the second quarter slowed due to tightened underwriting standards in the state.

Florida gross written premium grew 72.4% and 70.9%, respectively, during the second quarter and first six months of 2012. This growth is primarily a result of higher business retention and competitor rate increases.

Declines of 28.0% and 12.4% in Texas, respectively, during the second quarter and first six months of 2012 partially offset the growth in California and Florida. The decline in Texas gross written premium is primarily due to actions taken to improve profitability in the state.

Gross written premium in the Maintenance States declined 3.8% and 1.9%, respectively, during the second quarter and first six months of 2012 primarily due to a decline in Illinois premium.

Our Commercial Vehicle gross written premium grew 18.1% and 18.3%, respectively, during the second quarter and first six months of 2012. This growth is primarily due to higher average premium and better retention for this product.

Gross written premium in our Classic Collector product grew 15.4% and 15.4%, respectively, during the second quarter and first six months of 2012. This growth is primarily due to growth in Florida and Texas resulting from an increase in the number of agencies actively producing business for this product.

Management's Discussion and Analysis of Financial Condition and Results of Operations

Profitability

A key operating performance measure of insurance companies is underwriting profitability, as opposed to overall profitability or net earnings. We measure underwriting profitability by the combined ratio. When the combined ratio is under 100%, we consider underwriting results profitable; when the ratio is over 100%, we consider underwriting results unprofitable. The combined ratio does not reflect investment income, other income, interest expense, corporate general and administrative expenses, other expenses or federal income taxes.

While we report financial results in accordance with GAAP for shareholder and other users' purposes, we report it on a statutory basis for insurance regulatory purposes. We evaluate underwriting profitability based on a combined ratio calculated using statutory accounting principles. The statutory combined ratio represents the sum of the following ratios: (i) losses and LAE incurred as a percentage of net earned premium and (ii) underwriting expenses incurred, net of fees, as a percentage of net written premium. Certain expenses are treated differently under statutory and GAAP accounting principles. Under GAAP, commissions, premium taxes and other variable costs incurred in connection with writing new and renewal business are capitalized as deferred policy acquisition costs and amortized on a pro rata basis over the period in which the related premium is earned; on a statutory basis these items are expensed as incurred. Additionally, bad debt charge-offs on agent balances and premium receivables are included only in the GAAP combined ratios.

INFINITY PROPERTY AND CASUALTY CORPORATION 10-Q

Management's Discussion and Analysis of Financial Condition and Results of Operations

The statutory combined ratio for the three months ended June 30, 2012 decreased by 0.7% points from the same period of 2011. The statutory combined ratio for the six months ended June 30, 2012 increased by 0.3% points from the same period of 2011. The second quarter of 2012 included \$1.9 million of unfavorable development on prior year loss and LAE reserves and \$4.6 million in favorable development on loss and LAE reserves from the first quarter of 2012. The first six months of 2012 included \$1.8 million of unfavorable development on prior year loss and LAE reserves. The second quarter of 2011 included \$3.4 million of unfavorable development on prior year loss and LAE reserves and \$5.6 million in favorable development on loss and LAE reserves from the first quarter of 2011. The first six months of 2011 included \$23.0 thousand of unfavorable development on prior year loss and LAE reserves. Excluding the effect of development from all periods, the statutory combined ratio decreased by 0.6 points for the three months ended June 30, 2012 and decreased by 0.1 points for the six months ended June 30, 2012 compared to the same periods of 2011. In both periods, an increase in the loss and LAE ratio was offset by a decline in the underwriting ratio.

The increase in the loss and LAE ratio is primarily attributable to an increase in new business in states such as Florida. The expense ratio has declined primarily as a result of spreading fixed underwriting costs over a larger written premium base as well as a decline in advertising spending.

The GAAP combined ratio for the three months ended June 30, 2012 decreased by 0.6 points from the same period of 2011. The GAAP combined ratio for the six months ended June 30, 2012 increased by 0.4 points from the same period of 2011. Excluding the effect of development from all periods, the GAAP combined ratio decreased by 0.6 points for the three months ended June 30, 2012 and increased by 0.1 points for the six months ended June 30, 2012 compared to the same periods of 2011. We expect the GAAP combined ratio, excluding reserve development, to be between 97.5% and 98.5% for the full year 2012.

Losses from catastrophes were \$1.9 million and \$2.1 million for the three and six months ended June 30, 2012, respectively, compared to \$2.3 million and \$2.2 million for the same periods of 2011. Losses from catastrophes during 2012 were primarily due to hail storms in Texas during the second quarter.

The combined ratio in the Focus States decreased by 0.4 points for the three months ended June 30, 2012 and increased by 0.4 points for six months ended June 30, 2012. In both periods, increases in the loss and LAE ratio were offset by declines in the underwriting ratio. The increase in the loss and LAE ratio in the second quarter of 2012 is primarily due to unfavorable development in California. The increase in the loss and LAE ratio in the first six months of 2012 is a result of unfavorable development in California and new business in Florida. New business typically has higher loss and LAE ratios than renewal business. The increase in the loss and LAE ratio in the Focus States was partially offset by a decline in the underwriting ratio of 3.3 points and 2.5 points for the three and six months ended June 30, 2012, respectively. As we experience premium growth in these states, the ratio of fixed underwriting costs to premium has declined.

The combined ratio in the Maintenance States decreased by 6.6 and 16.6 points during the three and six months ended June 30, 2012, respectively, when compared to the same periods of 2011, primarily due to a decline in the loss and LAE ratio in Illinois. We reclassified Illinois from a Focus State to a Maintenance State in 2012 and slowed new business production which drove the decline in the loss and LAE ratio.

The combined ratio for the Commercial Vehicle product decreased by 13.1 points and 5.2 points, respectively, during the three and six months ended June 30, 2012, due to a decline in the loss and LAE ratio in both periods. This decline is primarily due to favorable development, rate actions taken during 2011 in order to improve profitability and higher average premium per policy.

Table of Contents

INFINITY PROPERTY AND CASUALTY CORPORATION 10-Q

Management's Discussion and Analysis of Financial Condition and Results of Operations

Net Investment Income

Net investment income is comprised of gross investment income and investment management fees and expenses, as shown in the following table (in thousands):

	Three months ended June 30,		Six months ended June 30,	
	2012	2011	2012	2011
Investment income:				
Interest income on fixed maturities, cash and cash equivalents	\$9,856	\$10,958	\$19,943	\$21,648
Dividends on equity securities	200	153	378	318
Gross investment income	\$10,056	\$11,112	\$20,321	\$21,967
Investment expenses	(456)	(493)	(975)	(1,016)
Net investment income	\$9,600	\$10,619	\$19,346	\$20,951
Average investment balance, at cost	\$1,247,028	\$1,232,273	\$1,241,196	\$1,236,385
Annualized returns excluding realized gains and losses	3.1	% 3.4	% 3.1	% 3.4

Changes in investment income reflect fluctuations in market rates and changes in average invested assets. Net investment income for the three and six months ended June 30, 2012 declined compared to the same periods of 2011 primarily due to a decline in book yields because of a general decline in market interest rates for high quality bonds. We recorded impairments for unrealized losses deemed other-than-temporary and realized gains and losses on sales and disposals, as follows (before tax, in thousands):

	Three months ended June 30, 2012			Three months ended June 30, 2011		
	Impairments Recognized in Earnings	Realized Gains (Losses) on Sales	Total Realized Gains (Losses)	Impairments Recognized in Earnings	Realized Gains (Losses) on Sales	Total Realized Gains (Losses)
Fixed maturities	\$(418)	\$2,584	\$2,166	\$(222)	\$1,118	\$896
Equities	0	0	0	0	1,063	1,063
Total	\$(418)	\$2,584	\$2,166	\$(222)	\$2,181	\$1,959

	Six months ended June 30, 2012			Six months ended June 30, 2011		
	Impairments Recognized in Earnings	Realized Gains (Losses) on Sales	Total Realized Gains (Losses)	Impairments Recognized in Earnings	Realized Gains (Losses) on Sales	Total Realized Gains (Losses)
Fixed maturities	\$(1,065)	\$3,470	\$2,405	\$(846)	\$2,980	\$2,134
Equities	0	0	0	0	2,748	2,748
Total	\$(1,065)	\$3,470	\$2,405	\$(846)	\$5,728	\$4,882

For our securities held with unrealized losses, we believe, based on our analysis, that (i) we will recover our cost basis in these securities and (ii) we do not intend to sell the securities nor is it more likely than not that there will be a requirement to sell the securities before they recover in value. Should either of these beliefs change with regard to a particular security, a charge for impairment would likely be required. While it is not possible to predict accurately if or when a specific security will become impaired, charges for other-than-temporary impairments could be material to results of operations in a future period.

Interest Expense

The Senior Notes accrue interest at an effective yield of 5.55%. Refer to Note 6 to the Consolidated Financial Statements for additional information on the Senior Notes. We recognized \$2.7 million and \$5.4 million, respectively, of interest expense on the Senior Notes in the Consolidated Statements of Earnings for the three and six months ended June 30, 2012 compared to \$2.7 million and \$5.4 million, respectively, for the same periods of 2011.

INFINITY PROPERTY AND CASUALTY CORPORATION 10-Q

Management's Discussion and Analysis of Financial Condition and Results of Operations

LIQUIDITY AND CAPITAL RESOURCES

Sources of Funds

We are a holding company and our insurance subsidiaries conduct our operations. Accordingly, we will have continuing cash needs for administrative expenses, the payment of interest on borrowings, shareholder dividends, share repurchases and taxes.

Funds to meet expenditures at the holding company level come primarily from dividends and tax payments from the insurance subsidiaries as well as cash and investments held by the holding company. As of June 30, 2012, the holding company had \$145.8 million of cash and investments. In 2012, our insurance subsidiaries may pay us up to \$53.1 million in ordinary dividends without prior regulatory approval.

Our insurance subsidiaries generate liquidity to satisfy their obligations primarily by collecting and investing premium in advance of paying claims and generating investment income on their \$1.2 billion investment portfolio. Our insurance subsidiaries generated positive cash flows from operations of \$31.4 million and \$55.1 million, respectively, for the three and six months ended June 30, 2012 compared to negative operating cash flows of \$8.2 million during the second quarter of 2011 and positive operating cash flows of \$18.7 million for the six months ended June 30, 2011. At June 30, 2012, we had outstanding \$195.0 million principal of Senior Notes due 2014, bearing a fixed 5.5% interest rate. Interest payments on the Senior Notes of \$5.4 million are due each February and August through maturity in February 2014. We continuously review opportunities to refinance the outstanding debt prior to maturity based on financial market conditions. Refer to Note 6 to the Consolidated Financial Statements for more information on the Senior Notes.

In August 2011, we renewed our agreement for a \$50 million three-year revolving credit facility (the "Credit Agreement") that requires us to meet certain financial and other covenants. We are currently in compliance with all covenants under the Credit Agreement. At June 30, 2012, there were no borrowings outstanding under the Credit Agreement.

Uses of Funds

In February 2012, we increased our quarterly dividend to \$0.225 per share from \$0.180 per share. At this current amount, our 2012 annualized dividend payments would be approximately \$10.6 million.

On August 3, 2010 our Board of Directors adopted a share and debt repurchase program set to expire on December 31, 2011. On August 2, 2011, our Board of Directors increased the authority under this program by \$50.0 million and extended the date to execute the program to December 31, 2012. During the first quarter of 2012, we repurchased 22,800 shares at an average cost, excluding commissions, of \$55.97. During the second quarter of 2012, we repurchased 114,507 shares at an average cost, excluding commissions, of \$54.40. As of June 30, 2012, we had \$39.5 million of authority remaining under this program.

We believe that cash balances, cash flows generated from operations or borrowings, and maturities and sales of investments are adequate to meet our future liquidity needs and those of our insurance subsidiaries.

Reinsurance

We use excess of loss, catastrophe and extra-contractual loss reinsurance to mitigate the financial impact of large or catastrophic losses. During 2012, our catastrophe reinsurance protection covers 100% of \$25 million in excess of \$5 million. Our excess of loss reinsurance provides protection for commercial auto losses up to \$700,000 for claims in excess of \$300,000 per occurrence. Our extra-contractual loss reinsurance provides protection for losses up to \$10 million in excess of \$5 million for any single extra-contractual loss. We also use reinsurance to mitigate losses on our Classic Collector business.

Premium ceded under all reinsurance agreements for the three and six months ended June 30, 2012 was \$2.0 million and \$3.7 million, respectively, compared to \$1.7 million and \$3.2 million, respectively, for the same periods of 2011.

Investments

Our consolidated investment portfolio at June 30, 2012 contained approximately \$1.2 billion in fixed maturity securities and \$40.1 million in equity securities, all carried at fair value with unrealized gains and losses reported in accumulated other comprehensive income, a separate component of shareholders' equity, on an after-tax basis. At June 30, 2012, we had pre-tax net unrealized gains of \$47.9 million on fixed maturities and pre-tax net unrealized gains of \$13.6 million on equity securities. Combined, the pre-tax net unrealized gain increased by \$7.7 million for the six months ended June 30, 2012.

Approximately 94.3% of our fixed maturity investments at June 30, 2012 were rated "investment grade," and as of the same

Table of Contents

INFINITY PROPERTY AND CASUALTY CORPORATION 10-Q

Management's Discussion and Analysis of Financial Condition and Results of Operations

date, the average credit rating of our fixed maturity portfolio was AA-. Investment grade securities generally bear lower yields and have lower degrees of risk than those that are unrated or non-investment grade. We believe that a high quality investment portfolio is more likely to generate a stable and predictable investment return.

Since we carry all of these securities at fair value in our balance sheet, there is virtually no effect on liquidity or financial condition upon the sale and ultimate realization of unrealized gains and losses. The average option adjusted duration of our fixed maturity portfolio is 3.2 years at June 30, 2012.

Fair values of instruments are based on (i) quoted prices in active markets for identical assets (Level 1), (ii) quoted prices for similar instruments in active markets, quoted prices for identical or similar instruments in markets that are not active and model-derived valuations in which all significant inputs are observable in active markets (Level 2) or (iii) valuations derived from valuation techniques in which one or more significant inputs are unobservable in the marketplace (Level 3).

Level 1 securities are U.S. Treasury securities, an exchange-traded fund and equity securities held in a rabbi trust.

Level 2 securities are comprised of securities whose fair value was determined using observable market inputs. Level

3 securities are comprised of (i) securities for which there is no active or inactive market for similar instruments,

(ii) securities whose fair value is determined based on unobservable inputs and (iii) securities that nationally recognized statistical rating organizations do not rate.

INFINITY PROPERTY AND CASUALTY CORPORATION 10-Q

Management's Discussion and Analysis of Financial Condition and Results of Operations

The following table presents the credit rating and fair value (in thousands) of our fixed maturity portfolio by major security type at June 30, 2012:

	Rating				Non-investment Grade	Total Fair Value	% of Total Exposure	
	AAA	AA	A	BBB				
U.S. government and agencies	\$0	\$180,462	\$0	\$0	\$0	\$180,462	14.6	%
State and municipal	27,895	264,611	124,770	12,173	0	429,449	34.7	%
Mortgage-backed, asset-backed and CMO	81,277	275,498	0	0	0	356,775	28.8	%
Corporates	0	14,759	115,256	70,756	70,704	271,475	21.9	%
Total fair value	\$109,172	\$735,330	\$240,026	\$82,929	\$70,704	\$1,238,162	100.0	%
% of total fair value	8.8	% 59.4	% 19.4	% 6.7	% 5.7	% 100.0	%	

Other than securities backed by the U.S. government or issued by its agencies, our fixed income portfolio contains no securities issued by any single issuer that exceed 1% of the fair value of the fixed income portfolio.

Since 2007, the mortgage industry has experienced a rise in mortgage delinquencies and foreclosures, particularly among lower quality exposures ("sub-prime" and "Alt-A"). As a result, many securities with underlying sub-prime and Alt-A mortgages as collateral experienced significant drops in market value. We have only modest exposure to these types of investments. At June 30, 2012, our fixed maturity portfolio included three securities having a fair value of \$1.0 million with exposure to sub-prime and Alt-A mortgages. Although these securities have sub-prime mortgages as underlying collateral, all are rated AA or better.

The following table presents the credit rating and fair value of our residential mortgage backed securities at June 30, 2012 by deal origination year (in thousands):

Deal Origination Year	Rating				Non-investment Grade	Total Fair Value	% of Total Exposure	
	AAA	AA	A	BBB				
2006	\$0	\$1,040	\$0	\$0	\$0	\$1,040	0.4	%
2007	0	5,884	0	0	0	5,884	2.4	%
2008	0	26,664	0	0	0	26,664	10.8	%
2009	0	37,250	0	0	0	37,250	15.1	%
2010	0	72,012	0	0	0	72,012	29.2	%
2011	0	45,019	0	0	0	45,019	18.2	%
2012	0	58,997	0	0	0	58,997	23.9	%
Total fair value	\$0	\$246,866	\$0	\$0	\$0	\$246,866	100.0	%
% of total fair value	0.0	% 100.0	% 0.0	% 0.0	% 0.0	% 100.0	%	

All of the \$246.9 million of residential mortgage backed securities were issued by government-sponsored enterprises ("GSE").

ITEM 3

Quantitative and Qualitative Disclosures about Market Risk

As of June 30, 2012, there were no material changes to the information provided in our Form 10-K for the year ended December 31, 2011 under the caption “Exposure to Market Risk” in Management’s Discussion and Analysis of Financial Condition and Results of Operations. Refer to Item 2 Management’s Discussion and Analysis under the caption “Investments” for updates to disclosures made under the sub caption “Credit Risk” in our Form 10-K for the year ended December 31, 2011.

ITEM 4

Controls and Procedures

Evaluation of Disclosure Controls and Procedures

We carried out an evaluation, under the supervision and with the participation of the Company’s management, including its Chief Executive Officer and Chief Financial Officer, of the effectiveness of Infinity’s disclosure controls and procedures (as defined in Securities Exchange Act Rules 13a-15(e) and 15d-15(e)) as of June 30, 2012. Based on that evaluation, we concluded that the controls and procedures are effective in providing reasonable assurance that material information required to be disclosed in our reports filed with or submitted to the Securities and Exchange Commission (“SEC”) under the Securities Exchange Act is recorded, processed, summarized and reported within the time periods specified in the SEC rules and forms and that such information is accumulated and communicated to our management, including our Chief Executive Officer and Chief Financial Officer, as appropriate.

Changes in Internal Control over Financial Reporting

During the fiscal quarter ended June 30, 2012, there have been no changes to our internal control over financial reporting that have materially affected, or are reasonably likely to materially affect, our internal control over financial reporting.

PART II
OTHER INFORMATION

ITEM 1

Legal Proceedings

We have not become a party to any material legal proceedings nor have there been any material developments in our legal proceedings disclosed in our Form 10-K for the year ended December 31, 2011. For a description of our previously reported legal proceedings, refer to Part I, Item 3, Legal Proceedings, in the Form 10-K for the year ended December 31, 2011.

ITEM 1A

Risk Factors

There have been no material changes in our risk factors as disclosed in our Form 10-K for the year ended December 31, 2011. For a description of our previously reported risk factors, refer to Part I, Item 1A, Risk Factors, in the Form 10-K for the year ended December 31, 2011.

ITEM 2

Unregistered Sales of Equity Securities and Use of Proceeds

Issuer Purchases of Equity Securities

Period	Total Number of Shares Purchased	Average Price Paid per Share (a)	Total Number of Shares Purchased as Part of Publicly Announced Plans or Programs (b)	Maximum Number (or Approximate Dollar Value) that May Yet Be Purchased Under the Plans or Programs
April 1, 2012 - April 30, 2012	17,844	\$52.21	17,844	\$ 44,823,988
May 1, 2012 - May 31, 2012	44,400	\$53.76	44,400	42,435,899
June 1, 2012 - June 30, 2012	52,263	\$55.71	52,263	39,522,988
Total	114,507	\$54.40	114,507	\$ 39,522,988

(a) Average price paid per share excludes commissions.

On August 2, 2011, our Board of Directors increased the authority under our current share and debt repurchase (b) plan by \$50.0 million and extended the date to execute the program to December 31, 2012 from December 31, 2011.
