The material must be preceded or accompanied by a prospectus. Before investing you should carefully consider the VanEck Merk Gold Trust's ("Trust") investment objectives, risks, charges and expenses.

Investing involves risk, including possible loss of principal. The Trust is not an investment company registered under the Investment Company Act of 1940 or a commodity pool for the purposes of the Commodity Exchange Act. Shares of the Trust are not subject to the same regulatory requirements as mutual funds. Because shares of the Trust are intended to reflect the price of the gold held in the Trust, the market price of the shares is subject to fluctuations similar to those affecting gold prices. Additionally, shares of the Trust are bought and sold at market price, not at net asset value ("NAV"). Brokerage commissions will reduce returns.

The request for redemption of shares for gold is subject to a number of risks including but not limited to the potential for the price of gold to decline during the time between the submission of the request and delivery. Delivery may take a considerable amount of time depending on your location.

Commodities and commodity-index linked securities may be affected by changes in overall market movements and other factors such as weather, disease, embargoes, or political and regulatory developments, as well as trading activity of speculators and arbitrageurs in the underlying commodities.

*Trust shares trade like stocks, are subject to investment risk and will fluctuate in market value. The value of Trust shares relates directly to the value of the gold held by the Trust (less its expenses), and fluctuations in the price of gold could materially and adversely affect an investment in the shares. The price received upon the sale of the shares, which trade at market price, may be more or less than the value of the gold represented by them. The Trust does not generate any income, and as the Trust regularly issues shares to pay for the Sponsor's ongoing expenses, the amount of gold represented by each Share will decline over time. Investing involves risk, and you could lose money on an investment in the Trust. **For a more complete discussion of the risk factors relative to the Trust, carefully read the prospectus.***

The Processing Fees for investors to taking delivery of their gold ("Delivery Applicants") are comprised of an Exchange Fee and a Delivery Fee.

Delivery Fee

No Delivery Fee is charged for the delivery of physical gold to destinations in the lower 48 States.

Exchange Fee

The Exchange Fee below is effective September 08, 2017 and supersedes any previously published Exchange Fees, including those in the prospectus:

Type of Gold Bar	Exchange Fee		Purity
	Fee per Application	Fee per Ounce	
1oz Australian bars	\$500	\$17.00	99.99%
1oz Australian Kangaroos	\$500	\$27.00	99.99%
1oz Canadian Maples	\$500	\$29.00	99.99%
1oz American Eagles	\$500	\$53.00	91.67%
1oz American Buffalos	\$500	\$53.00	99.99%
10 oz Australian bars	\$500	\$12.00	99.99%
London bars	\$5,000	\$1.00	95.00% - 99.99%

You may also use our [online calculator](#) to determine the number of ounces your shares correspond to.

The Exchange Fee covers the cost of exchanging OUNZ shares into gold bars in the form of London Bars which the Trust holds in the vault, as well as the cost of converting London Bars into the gold coins or smaller gold bars that investors may prefer for delivery. The Exchange Fee for gold coins and bars, outside of London Bars, reflects the premium such coins and bars are trading at relative to the spot price of gold.

In an effort to keep Exchange Fees predictable, the precious metals dealer will choose coins and bars from inventory regardless of date. Special requests may be accommodated, but are subject to inventory and may be subject to higher fees. We would publish the pricing for special requests on this page, making it available to other investors as well.

London Bars vary in size between 350 and 430 Ounces; the current median bar size held by the Trust is 405 Ounces. As a result, the Exchange Fee for 1 London Bar is set to $\$1.00 \text{ per Ounce} * 405 \text{ Ounces} + \$5,000 = \$5,405.00$.

Aside from being able to request delivery of London Bars, investors may request to have their shares exchanged for other gold bars and coins, without numismatic value, having a minimum fineness (or purity) of 995 parts per 1,000 (99.5%) or, for American Gold Eagle gold coins, with a minimum fineness of 91.67%.

All fees are subject to change upon notice and the Sponsor may waive or reduce the Exchange Fees from time to time.
