SPECIAL MEETING OF SHAREHOLDERS

TO BE HELD ON May 17, 2006

PROXY STATEMENT

This Proxy Statement is furnished in connection with the solicitation by the Board of Directors of proxies to be voted at the Special Meeting of Shareholders of Unity Wireless Corporation (the Company) to be held at the offices of the Company at 7438 Fraser Park Drive, Burnaby, BC Canada V5J 5B9 at 10:00 A.M. on May 17, 2006, and at any adjournments thereof. The shares represented by proxies that are received in the enclosed form and properly filled out will be voted in accordance with the specifications made thereon. In the absence of specific instructions, proxies will be voted in accordance with the recommendations made herein with respect to the proposals described in this Proxy Statement.

This Proxy Statement and accompanying materials are being mailed on or about April 13, 2006 to all stockholders of record on April 12, 2006 (the Record Date).

Any stockholder giving a Proxy has the power to revoke the same at any time before it is voted. The cost of soliciting Proxies will be borne by the Company. The Company has no contract or arrangement with any party in connection with the solicitation of proxies. Following the mailing of the Proxy materials, solicitation of Proxies may be made by officers and employees of the Company by mail, telephone, telegram or personal interview. The Company will request brokers and nominees to obtain voting instructions of beneficial owners of the stock registered in their names and will

reimburse them for any expenses incurred in connection therewith. Properly executed Proxies will be voted in accordance with instructions given by stockholders at the places provided for such purpose in the accompanying Proxy. Unless contrary instructions are given by stockholders, persons named in the proxy intend to vote the shares represented by such Proxies FOR the adoption of an amendment to the certificate of incorporation that would increase the number of the Company's authorized shares of common stock from 150,000,000 to 350,000,000. The current members of the Board of Directors presently hold voting authority for Common Stock representing an aggregate of 4,050,403 votes, or approximately 4.12% of the total number of votes eligible to be cast at the Special Meeting. The members of the Board of Directors have indicated their intention to vote affirmatively on the Amendment.

Voting Securities

Stockholders of record as of the close of business on the Record Date will be entitled to notice of, and to vote at, the Special Meeting or any adjournments thereof. On the Record Date there were TBD(92,114,284 as at February 17, 2006) outstanding shares of common stock, par value \$0.001 per share (the Common Stock). Each holder of Common Stock is entitled to one vote for each share held by such holder. The presence, in person or by proxy, of the holders of a majority of the outstanding shares of Common Stock is necessary to constitute a quorum at the Special Meeting. Proxies submitted which contain abstentions or broker non-votes will be deemed present at the Special Meeting in determining the presence of a quorum.

The Proposed Stock Amendment

At the Special Meeting, shareholders will be asked to adopt an amendment to the Company's Certificate of Incorporation to increase the number of authorized common shares of the Company from 150,000,000 to 350,000,000 shares of Common Stock, with a par value of \$.001 per share (the Amendment). Our Board of Directors has approved the Amendment subject to shareholder authorization.

The text of the amendment to the Certificate of Incorporation increasing the number of authorized shares of common stock is set forth in Exhibit A to this Proxy Statement. The text of the amendment to the Certificate of Incorporation is subject to modification to include such changes as may be required by the office of the Secretary of State of the State of Delaware and as the Board of Directors deems necessary and advisable to effect the Amendment.

Of the 350,000,000 shares of common stock to be authorized, 92,114,284 shares will constitute shares of common stock issued and outstanding prior to the Amendment, 19,487,097 shares will be available to permit the exercise of issued and outstanding options and warrants, 12,830,000 shares will be available to permit the conversion of outstanding convertible notes, and the balance will be available for issuance by the Board of Directors.

The terms of the additional shares of common stock will be identical to those of the currently outstanding shares of common stock. Because holders of common stock have no preemptive rights to purchase or subscribe for any unissued stock of the Company, the issuance of additional shares of common stock will reduce the current stockholders' percentage ownership in the total outstanding shares of common stock. This Amendment and the creation of additional shares of authorized common stock will not alter the current number of issued shares. The relative rights and limitations of the shares of common stock will remain unchanged under this Amendment.

The proposed increase in the authorized number of shares of common stock could have a number of effects on the Company's stockholders depending upon the exact nature and circumstances of any actual issuances of authorized but unissued shares. The increase could have an anti-takeover effect, in that additional shares could be issued (within the limits imposed by applicable law) in one or more transactions that could make a change in control or takeover of the Company more difficult. For example, additional shares could be issued by the Company so as to dilute the stock ownership or voting rights of persons seeking to obtain control of the Company, even if the persons seeking to obtain control of the Company offer an above-market premium that is favored by a majority of the independent shareholders.

Similarly, the issuance of additional shares to certain persons allied with the Company's management could have the effect of making it more difficult to remove the Company's current management by diluting the stock ownership or voting rights of persons seeking to cause such removal. The Company does not have any other provisions in its articles of incorporation, by-laws, employment agreements, credit agreements or any other documents that have material anti-takeover consequences. The Company has no plans or proposals to adopt other provisions or enter into other arrangements that may have material anti-takeover consequences. The Board of Directors is not aware of any attempt, or contemplated attempt, to acquire control of the Company, and this Amendment is not being taken with the intent that it be utilized as a type of anti-takeover device.

The issuance of new shares of common stock that would be authorized if the Amendment is approved could in a number of ways adversely affect the holders of shares of the common stock that are currently outstanding. For example, the voting power of our outstanding common stock will be diluted to the extent we issue additional shares of common stock in the future. Also, depending upon the number of shares of common stock issued and the relationship thereof to the book value of the common stock, it is possible that issuance of any of the common stock could have a dilutive effect on stockholders' equity in the Company. The Company is continuously engaged in negotiations for the acquisition of various companies, and in a current negotiation the Company and a potential acquisition have signed a proposed term sheet. The Company will be required to use the additional shares if any of these acquisitions are consummated, and the issuance of these shares may also have a dilutive effect on stockholders' equity in the Company.

The Company expects that the conversion and exercise of any securities that the Company issues in any financing may require the issuance of a portion of the additional shares of common stock that are proposed for authorization by the shareholders at the Special Meeting. The Company also expects that any such financing that is consummated will provide for early repayment or repurchase by the Company of the securities to be issued in the financing, as well as material penalties, if the additional shares of common stock are not authorized by shareholders at the Special Meeting.

Considerations for the Amendment

We believe that the increase in the number of authorized shares of Common Stock is in the best interests of our Company and its shareholders since the increase in the number of authorized but unissued shares of common stock that would be available for issuance would enable the Company, without further stockholder approval, to issue shares for proper business purposes, such as raising additional capital for ongoing operations, business and asset acquisitions, stock splits and dividends, present and future employee benefit programs and other corporate purposes.

February 2006 financing:

On February 28, 2006, the Company sold to private investors \$2,200,000 principal amount of Secured Convertible Notes (Notes) and warrants to purchase 6,875,000 shares of common stock at \$0.16 per share (Warrants).

The Notes bear interest at the rate of 8% per annum. Interest is payable quarterly beginning July 1, 2006 in cash or, subject to certain conditions, in registered common stock valued at 85% of the then volume weighted average price. The principal amount of the Notes is due on February 28, 2009 and is secured by all of the assets of the Company.

The Notes will be due immediately and the Company will incur at least a 30% penalty if stockholders of the Company fail by June 28, 2006 to increase the number of authorized shares of common stock to at least 300,000,000, or upon certain other defined default events.

The Notes are convertible into common stock at the option of the holders at \$0.16 per share, provided that until July 1, 2006 the Notes are convertible into a maximum aggregate of 10,000,000 shares of common stock. Subject to certain conditions, the conversion price will be reduced on an unweighted basis if the Company issues equity securities at an effective price of less than \$0.16 per share. Also, subject to certain conditions, the Company can force conversion of the Notes if the volume weighted average price of the common stock is at least \$0.32 for 20 consecutive trading days.

The Warrants are exercisable at \$0.16 per share and expire on February 28, 2011. Subject to certain conditions, the exercise price will be reduced on an unweighted basis if the Company issues equity securities at an effective price of less than \$0.16 per share. In addition, subject to certain conditions, the Warrants will expire unless exercised within a specified number of days after the Company gives due notice that the volume weighted average price of the common stock was at least \$0.32 for 20 consecutive trading days.

The Company agreed to register the shares of common stock issuable upon conversion of the Notes and exercise of the Warrants, and any shares that the Company may propose to issue in payment of interest on the Notes.

In connection with the financing, the Company paid \$176,000 in fees to Cambria Capital, LLC (Cambria) and approximately \$10,000 of expenses, excluding fees of the Company's counsel. The Company also issued to Cambria warrants to purchase 1,375,000 shares of common stock at an exercise price of \$0.16 per share and in the form of the Warrants.

In connection with the financing, the Company reduced from \$0.20 to \$0.16 the per share conversion price of \$1,200,000 principal amount of secured convertible notes previously issued to investors in the offering (prior notes), and reduced from \$0.20 to \$0.10 the per share exercise price of 2,500,000 warrants previously issued to these investors. The investors extended the maturity date of the prior notes from August 31, 2006 (as to \$250,000 principal amount) and February 11, 2007 (as to \$950,000 principal amount) to February 28, 2009.

Shareholder Consideration of the Amendment in light of the Company's obligations under the February 2006 financing.

The Company consummated the February 2006 financing to obtain working capital that it needed for its operations. The extension of the maturity dates of previously outstanding notes benefited the Company by extending the date when it will be required to obtain the funds to discharge these notes.

However, the February 2006 financing could adversely affect the Company in a number of ways. The increase in the number of shares of common stock that are issuable on conversion and exercise of the securities issued in the financing, and as dividends on the Notes, will likely tend to reduce the market price of the shares of common stock. The reduction in the exercise price of previously outstanding warrants will make it more attractive for the holders of these warrants to exercise their warrants and sell the underlying shares of common stock at lower prices. Any reduction of the conversion price of the Notes and the exercise price of the Warrants - as required if the Company issues equity securities at an effective price of less than \$0.16 per share - would similarly make it more attractive for the holders of the Notes and Warrants to convert and exercise these securities and to sell the underlying shares at lower prices.

The security interest that the Company granted in respect of the Notes may make it more difficult for the Company to obtain future financing.

The Company is contractually bound to repay the Notes and incur at least a 30% penalty if the Company does not by June 28, 2006 increase the number of authorized shares of common stock to at least 300,000,000, or upon certain other defined default events. The approval by the stockholders of the Amendment before June 28, 2006 will result in the timely increase of authorized shares required under the Notes. Should the stockholders fail to approve the Amendment, the Company will be required to seek immediate financings to repay the Notes and to pay the related penalties. The Company does not have any arrangement to obtain the funds that would be required for this purpose.
