-

Item 2.05 Costs Associated with Exit or Disposal Activities.

On April 5, 2016, Verso Corporation (“Verso”) announced that it will close its paper mill located in Wickliffe, Kentucky. The closure of the Wickliffe mill, which has been idle since November 2015, will reduce Verso’s annual coated paper capacity by approximately 285,000 tons and will eliminate approximately 30,000 tons of dried market pulp capacity. Verso furloughed approximately 310 mill employees when the mill was idled in November, while a smaller group of employees has remained at the mill to maintain critical systems. Verso has notified both groups of employees that their last day of employment is expected to be June 4, 2016.

Verso estimates that the closure of the Wickliffe mill will result in an aggregate pre-tax charge to earnings of \$10-15 million in severance and other cash costs, of which approximately \$5 million has been paid to date and the remainder is expected to be paid primarily in the second quarter of 2016. As of March 31, 2016, the Wickliffe mill had property, plant and equipment with a net book value of approximately \$133 million and store-room inventory of approximately \$7 million. Verso is in the process of determining the non-cash charges primarily related to the impairment of property, plant and equipment and store-room items. Costs associated with closure activities are based on currently available information and reflect management’s best estimates; accordingly, actual cash costs and non-cash charges and their timing may differ from the projections stated above.

On April 5, 2016, Verso issued a press release announcing the developments disclosed in this report. A copy of the press release is included as Exhibit 99.1 to this report and is incorporated herein by reference.

Item 2.06 Material Impairments.

The information set forth in Item 2.05 of this report is incorporated herein by reference.

Item 9.01 Financial Statements and Exhibits.

(d) Exhibits.
