Item 8A(T). Controls and Procedures

Management’s Annual Report on Internal control over Financial Reporting

Our management is responsible for establishing and maintaining adequate internal control over financial reporting, as such term is defined in Rule 13a-15(f) of the Securities Exchange Act of 1934, for our business. Under the supervision and with the participation of our management, including our principal executive officer and principal financial officer, we conducted an evaluation of the effectiveness of our internal control over financial reporting based principally on the framework and criteria established in Internal Control – Integrated Framework issued by the Committee of Sponsoring Organizations of the Treadway Commission as of the end of the period covered by this report. Based on that evaluation, our management has concluded that our internal control over financial reporting was effective as of December 31, 2007 at providing reasonable assurance regarding the reliability of financial reporting and the preparation of financial statements for external purposes in accordance with generally accepted accounting principles.

This annual report does not include an attestation report of our registered public accounting firm regarding internal control over financial reporting. The evaluation of our Chief Executive Officer and Chief Financial Officer was not subject to attestation by our registered public accounting firm pursuant to temporary rules of the Securities and Exchange Commission that permit us to provide only management's report in this annual report.

(a) Disclosure Controls and Procedures.

As of the end of the period covering this Form 10-KSB, we evaluated the effectiveness of the design and operation of our "disclosure controls and procedures". Our President conducted this evaluation by himself.

(i) Definition of Disclosure Controls and Procedures.

Disclosure controls and procedures are controls and other procedures that are designed with the objective of ensuring that information required to be disclosed in our periodic reports filed under the Exchange Act, such as this report, is recorded, processed, summarized and reported within the time periods specified in the SEC's rules and forms. As defined by the SEC, such disclosure controls and procedures are also designed with the objective of ensuring that such information is accumulated and communicated to our management, including the Chief Executive Officer and Chief Financial Officer, in such a manner as to allow timely disclosure decisions.

(ii) Conclusions with Respect to Our Evaluation of Disclosure Controls and Procedures.

Our officers and directors have concluded, based on the evaluation of these controls and procedures, that our disclosure controls and procedures for the year ended December 31, 2007, as at the time of the Original Report and at the time of Amendment No. 1 were ineffective in timely alerting them to material information relating to our business

required to be included in our periodic SEC filings. This ineffectiveness in our disclosure controls and procedures was revealed by the failure to include the proper assessment in the Original Report on internal controls over financial reporting as of December 31, 2007 and by the failure to note the ineffectiveness of the disclosure controls and procedures in Amendment No. 1. The Company has taken steps to cure the ineffectiveness of its disclosure controls and procedures by redoubling its efforts and instructing its outside counsel to do the same to ensure that such deficiencies do not occur in the future.

(b) Changes in Internal Controls.

There were no changes in our internal controls over financial reporting during the last fiscal quarter of 2007 that materially affected or is reasonably likely to affect our internal control over financial reporting.
