HILTON WORLDWIDE HOLDINGS INC.
NOTES TO CONDENSED CONSOLIDATED FINANCIAL STATEMENTS
(Unaudited)

Note 1: Organization and Basis of Presentation

Organization

Hilton Worldwide Holdings Inc. (the "Parent," or together with its subsidiaries, "Hilton," "we," "us," "our" or the "Company"), a Delaware corporation, is one of the largest hospitality companies in the world based upon the number of hotel rooms and timeshare units. We are engaged in owning, leasing, managing and franchising hotels, resorts and timeshare properties. As of September 30, 2016, we owned, leased, managed or franchised 4,774 hotel and resort properties, totaling 781,272 rooms in 104 countries and territories, as well as 46 timeshare properties comprising 7,592 units.

As of September 30, 2016, affiliates of The Blackstone Group L.P. ("Blackstone") beneficially owned approximately 45.8 percent of our common stock.

Spin-off

Hilton Grand Vacations Inc. ("HGV") and Park Hotels & Resorts Inc. ("Park") have each filed Registration Statements on Form 10 with the U.S. Securities and Exchange Commission ("SEC") in which they disclosed financial and other details of our previously announced spin-off transactions (the "spin-offs") of a substantial portion of our ownership business, consisting primarily of our owned hotels located in the U.S., as well as our timeshare business, resulting in two additional independent, publicly traded companies. Completion of each of the spin-offs is subject to several conditions, including the SEC declaring effective the registration statements and final approval of the transactions by our board of directors.

Basis of Presentation

The accompanying condensed consolidated financial statements for the three and nine months ended September 30, 2016 and 2015 have been prepared in accordance with United States of America ("U.S.") generally accepted accounting principles ("GAAP") and are unaudited. We have condensed or omitted certain information and footnote disclosures normally included in financial statements presented in accordance with U.S. GAAP. Although we believe the disclosures made are adequate to prevent the information presented from being misleading, these financial statements should be read in conjunction with the consolidated financial statements and notes thereto in our Annual Report on Form 10-K for the fiscal year ended December 31, 2015.

The preparation of financial statements in conformity with U.S. GAAP requires management to make estimates and assumptions that affect the amounts reported and, accordingly, ultimate results could differ from those estimates. Interim results are not necessarily indicative of full year performance.

In our opinion, the accompanying condensed consolidated financial statements reflect all adjustments, including normal recurring items, considered necessary for a fair presentation of the interim periods. All material intercompany transactions have been eliminated in consolidation.

Note 2: Recently Issued Accounting Pronouncements

Adopted Accounting Standards

In April 2015, the Financial Accounting Standards Board ("FASB") issued Accounting Standards Update ("ASU") No. 2015-03 ("ASU 2015-03"), Interest - Imputation of Interest (Subtopic 835-30): Simplifying the Presentation of Debt Issuance Costs. This ASU requires debt issuance costs related to a recognized debt liability to be presented in the balance sheet as a direct deduction from the debt liability rather than as an asset, which is consistent with the presentation of debt discounts and premiums. In August 2015, the FASB issued ASU No. 2015-15 ("ASU 2015-15"), Interest - Imputation of Interest (Subtopic 835-30): Presentation and Subsequent Measurement of Debt Issuance Costs Associated with Line-of-Credit Arrangements, which clarifies that absent authoritative guidance in ASU 2015-03 for debt issuance costs related to line-of-credit arrangements, the staff of the SEC would not object to an entity deferring and presenting debt issuance costs as an asset and subsequently amortizing the deferred debt issuance costs ratably over the term of the line-of-credit arrangement, regardless of whether there are any outstanding borrowings on the line-of-credit arrangement. We adopted ASU 2015-03 and ASU 2015-15 retrospectively as of January 1, 2016. As a result, approximately \$94 million of debt issuance costs that were previously presented in other

non-current assets as of December 31, 2015 are now included within long-term debt and timeshare debt. We elected to continue presenting the debt issuance costs related to our line-of-credit arrangements within other non-current assets.

In February 2015, the FASB issued ASU No. 2015-02 ("ASU 2015-02"), Consolidation (Topic 810) - Amendments to the Consolidation Analysis. This ASU modifies existing consolidation guidance for reporting organizations that are required to evaluate whether they should consolidate certain legal entities. All legal entities are subject to reevaluation under the revised consolidation model. We elected, as permitted by the standard, to adopt ASU 2015-02 as of January 1, 2016 using a modified retrospective approach by recording a cumulative-effect adjustment to equity as of January 1, 2016 of approximately \$5 million. Additionally, certain consolidated entities that were not previously considered variable interest entities ("VIEs") prior to the adoption of ASU 2015-02 were considered to be VIEs for which we are the primary beneficiary and continue to be consolidated following adoption; prior period VIE disclosures do not include the balances or activity associated with these VIEs.

Accounting Standards Not Yet Adopted

In March 2016, the FASB issued ASU No. 2016-09 ("ASU 2016-09"), Compensation - Stock Compensation (Topic 718): Improvements to Employee Share-Based Payment Accounting. This ASU is intended to simplify several aspects of the accounting for share-based payment transactions, including the accounting for income taxes, forfeitures and statutory tax withholding requirements, as well as classification in the statement of cash flows. The provisions of ASU 2016-09 are effective for reporting periods beginning after December 15, 2016; early adoption is permitted. The provisions of this ASU contain specific transition guidance for each amendment. The adoption is not expected to have a material effect on our consolidated financial statements.

In February 2016, the FASB issued ASU No. 2016-02 ("ASU 2016-02"), Leases (Topic 842), which supersedes existing guidance on accounting for leases in Leases (Topic 840) and generally requires all leases, including operating leases, to be recognized in the statement of financial position as right-of-use assets and lease liabilities by lessees. The provisions of ASU 2016-02 are to be applied using a modified retrospective approach and are effective for reporting periods beginning after December 15, 2018; early adoption is permitted. We are currently evaluating the effect that this ASU will have on our consolidated financial statements.

In May 2014, the FASB issued ASU No. 2014-09 ("ASU 2014-09"), Revenue from Contracts with Customers (Topic 606). This ASU supersedes the revenue recognition requirements in Revenue Recognition (Topic 605), and requires entities to recognize revenue in a way that depicts the transfer of promised goods or services to customers in an amount that reflects the consideration to which the entity expects to be entitled in exchange for those goods or services. Subsequent to ASU 2014-09, the FASB has issued several related ASUs. The provisions of ASU 2014-09 and the related ASUs are effective for reporting periods beginning after December 15, 2017 and are to be applied retrospectively or using a modified retrospective approach. We are currently evaluating our method of adoption and the effect that this ASU will have on our consolidated financial statements.

Note 3: Acquisitions

During the nine months ended September 30, 2015, we used proceeds from the sale of the Waldorf Astoria New York (see Note 4: "Disposals") to acquire, as part of a tax deferred exchange of real property, the following properties from sellers affiliated with Blackstone and an unrelated third party, for a total purchase price of \$1.87 billion:

- the resort complex consisting of the Waldorf Astoria Orlando and the Hilton Orlando Bonnet Creek in Orlando, Florida (the "Bonnet Creek Resort");
- the Casa Marina Resort in Key West, Florida;
- the Reach Resort in Key West, Florida;

the Parc 55 in San Francisco, California; and
the Juniper Hotel Cupertino in Cupertino, California.

We incurred transaction costs of \$26 million recognized in other gain (loss), net in our condensed consolidated statement of operations for the nine months ended September 30, 2015.

8

The results of operations from these properties included in our condensed consolidated statements of operations were as follows:

	Three Months Ended September 30, 2015	Nine Months Ended September 30, 2015
	(in millions)	
Total revenues	\$ 84	\$ 228
Income before income taxes	10	44

Note 4: Disposals

Hilton Sydney

In July 2015, we completed the sale of the Hilton Sydney for a purchase price of 442 million Australian dollars ("AUD") (equivalent to \$340 million as of the closing date). As a result of the sale, we recognized a pre-tax gain of \$163 million included in gain on sales of assets, net in our condensed consolidated statements of operations for the three and nine months ended September 30, 2015. The pre-tax gain was net of transaction costs, a goodwill reduction of \$36 million and a reclassification of a currency translation adjustment of \$25 million from accumulated other comprehensive loss into earnings concurrent with the disposition. The goodwill reduction was due to our consideration of the Hilton Sydney property as a business within our ownership segment; therefore, we reduced the carrying amount of our goodwill by the amount representing the fair value of the business disposed relative to the fair value of the portion of our ownership reporting unit goodwill that was retained.

Waldorf Astoria New York

In February 2015, we completed the sale of the Waldorf Astoria New York for a purchase price of \$1.95 billion, and we repaid in full the existing mortgage loan secured by the Waldorf Astoria New York property (the "Waldorf Astoria Loan") of approximately \$525 million. As a result of the sale, we recognized a gain of \$143 million included in gain on sales of assets, net in our condensed consolidated statement of operations for the nine months ended September 30, 2015. The gain was net of transaction costs and a goodwill reduction of \$185 million. The goodwill reduction was due to our consideration of the Waldorf Astoria New York property as a business within our ownership segment; therefore, we reduced the carrying amount of our goodwill by the amount representing the fair value of the business disposed relative to the fair value of the portion of our ownership reporting unit goodwill that was retained. Additionally, we recognized a loss of \$6 million in other gain (loss), net in our condensed consolidated statement of operations for the nine months ended September 30, 2015 related to the reduction of the Waldorf Astoria Loan's remaining carrying amount of debt issuance costs.

Note 5: Property and Equipment

Property and equipment were as follows:

	September 30, 2016	December 31, 2015
	(in millions)	
Land	\$3,451	\$ 3,486
Buildings and leasehold improvements	6,478	6,410

Depreciation expense of property and equipment, including assets recorded for capital lease assets, was \$86 million and \$88 million during the three months ended September 30, 2016 and 2015, respectively, and \$263 million and \$260 million during the nine months ended September 30, 2016 and 2015, respectively.

As of September 30, 2016 and December 31, 2015, property and equipment included approximately \$155 million and \$144 million, respectively, of capital lease assets primarily consisting of buildings and leasehold improvements, net of \$85 million and \$71 million, respectively, of accumulated depreciation.

Included in this balance, we had \$164 million and \$163 million of gross timeshare financing receivables securing ⁽¹⁾ our revolving non-recourse timeshare financing receivables credit facility (the "Timeshare Facility"), as of September 30, 2016 and December 31, 2015, respectively.

Timeshare Financing Receivables

As of September 30, 2016, our timeshare financing receivables had interest rates ranging from 5.15 percent to 20.50 percent, a weighted average interest rate of 11.94 percent, a weighted average remaining term of 7.7 years and maturities through 2028.

Our timeshare financing receivables as of September 30, 2016 mature as follows:

	Securitized Timeshare	Unsecuritized Timeshare

As of September 30, 2016 and December 31, 2015, we had ceased accruing interest on timeshare financing receivables with an aggregate principal balance of \$34 million and \$32 million, respectively. The following table details an aged analysis of our gross timeshare financing receivables balance:

	September 30, 2016	December 31, 2015

Note 7: Investments in Affiliates

Investments in affiliates were as follows:

	September 30, 2016	December 31, 2015
	(in millions)	
Equity investments	\$123	\$ 129
Other investments	9	9
	\$132	\$ 138

We maintain investments in affiliates accounted for under the equity method, which are primarily investments in entities that owned or leased 15 and 16 hotels as of September 30, 2016 and December 31, 2015, respectively. These entities had total debt of approximately \$960 million and \$959 million as of September 30, 2016 and December 31, 2015, respectively. Substantially all of the debt is secured solely by the affiliates' assets or is guaranteed by other partners without recourse to us.

Note 8: Consolidated Variable Interest Entities

As of September 30, 2016, we consolidated nine VIEs: six that own or lease hotel properties; two that are associated with our timeshare financing receivables securitization transactions that both issued debt (collectively, the "Securitized Timeshare Debt"); and one management company. As of December 31, 2015, prior to adoption of ASU 2015-02, we consolidated three VIEs that owned or leased hotel properties and two that issued our Securitized Timeshare Debt. Of the four additional entities considered to be VIEs following the adoption of ASU 2015-02, two

were previously consolidated by us and two were unconsolidated investments in affiliates.

We are the primary beneficiaries of these VIEs as we have the power to direct the activities that most significantly affect their economic performance. Additionally, we have the obligation to absorb their losses and the right to receive benefits that could be significant to them. The assets of our VIEs are only available to settle the obligations of these entities. As of September 30, 2016 and December 31, 2015, our condensed consolidated balance sheets included the assets and liabilities of the nine and five VIEs, respectively, which primarily comprised the following:

	September 30, 2016	December 31, 2015
	(in millions)	
Cash and cash equivalents	\$ 73	\$ 46
Restricted cash and cash equivalents	22	15

Other non-current assets	63	52
Accounts payable, accrued expenses and other	51	35
Long-term debt	395	219
Timeshare debt	268	353

During the nine months ended September 30, 2016 and 2015, we did not provide any financial or other support to any VIEs that we were not previously contractually required to provide, nor do we intend to provide such support in the future.

In June 2015, one of our consolidated VIEs modified the terms of its capital lease, resulting in a reduction in long-term debt of \$24 million. This amount was recognized as a gain in other gain (loss), net in our condensed consolidated statement of operations during the nine months ended September 30, 2015, as the capital lease asset had previously been fully impaired.

Note 9: Debt

Long-term Debt

Long-term debt balances, including obligations for capital leases, and associated interest rates as of September 30, 2016, were as follows:

(1) For mortgage loans with maturity date extensions that are solely at our option, we assumed they were exercised.

(2) Net of unamortized deferred financing costs expected to be amortized in the next twelve months.

Senior Notes

In August 2016, we issued \$1.0 billion aggregate principal amount of 4.25% senior notes due 2024 (the "2024 Senior Notes") and incurred \$20 million of debt issuance costs. Interest on the 2024 Senior Notes is payable semi-annually in cash in arrears on March 1 and September 1 of each year, beginning on March 1, 2017. The 2024 Senior Notes are guaranteed on a senior unsecured basis by us and certain of our wholly owned subsidiaries.

Senior Secured Credit Facility

Our senior secured credit facility (the "Senior Secured Credit Facility") consists of a \$1.0 billion senior secured revolving credit facility (the "Revolving Credit Facility") and a senior secured term loan facility (the "Term Loans"). In August 2016, we amended the Term Loans pursuant to which \$3,225 million of outstanding Term Loans were converted into a new tranche of Term Loans due October 25, 2023 with interest of LIBOR plus 2.50 percent. In connection with the modification of the Term Loans, we recognized an \$8 million discount as a reduction to long-term debt and \$4 million of other debt issuance costs included in other gain (loss), net.

As of September 30, 2016, we had \$45 million of letters of credit outstanding under our Revolving Credit Facility and a borrowing capacity of \$955 million.

CMBS and Mortgage Loans

In February 2015, we repaid the \$525 million Waldorf Astoria Loan concurrent with the sale of the Waldorf Astoria New York. See Note 4: "Disposals" for further information on the transaction. We also assumed a \$450 million mortgage loan secured by the Bonnet Creek Resort (the "Bonnet Creek Loan") as a result of an acquisition. See Note 3: "Acquisitions" for further information on the transaction.

In September 2016, we made prepayments of \$991 million on our commercial mortgage-backed securities loan (the "CMBS Loan") in exchange for the release of certain collateral.

Our CMBS Loan, which was secured by 20 of our U.S. owned real estate assets as of September 30, 2016, and the Bonnet Creek Loan require us to deposit with the lenders certain cash reserves for restricted uses. As of September 30, 2016 and December 31, 2015, our condensed consolidated balance sheets included \$68 million and \$49 million, respectively, of restricted cash and cash equivalents related to these loans.

Timeshare Debt

Timeshare debt balances, and associated interest rates as of September 30, 2016, were as follows:

	September 30, 2016	December 31, 2015
	(in millions)	
Timeshare Facility with a rate of 1.83%, due 2019	\$150	\$ 150
Securitized Timeshare Debt with an average rate of 1.97%, due 2026	270	356
	420	506
Less: current maturities of timeshare debt ⁽¹⁾	(80)	(110)
Less: unamortized deferred financing costs	(3)	(4)
	\$337	\$ 392

⁽¹⁾ Net of unamortized deferred financing costs expected to be amortized in the next twelve months.

In August 2016, we amended the terms of the Timeshare Facility to, among other things, increase the borrowing capacity from \$300 million to \$450 million, allowing us to borrow up to the maximum amount until August 2018 and requiring all amounts borrowed to be repaid in August 2019. As a result of the modification, we incurred \$3 million of debt issuance costs recognized in other non-current assets.

We are required to deposit payments received from customers on the pledged timeshare financing receivables and securitized timeshare financing receivables related to the Timeshare Facility and Securitized Timeshare Debt, respectively, into a depository account maintained by a third party. On a monthly basis, the depository account will be used to make any required principal, interest and other payments due with respect to the Timeshare Facility and Securitized Timeshare Debt. The balance in the depository account, totaling \$15 million and \$17 million as of September 30, 2016 and December 31, 2015, respectively, was included in restricted cash and cash equivalents in our condensed consolidated balance sheets.

Debt Maturities

The contractual maturities of our debt as of September 30, 2016 were as follows:

Year	Long-term	Timeshare
	Debt	Debt
	(in millions)	
2016 (remaining)	\$ 116	\$ 23
2017	104	74
2018 ⁽¹⁾	2,492	51

2020	1,062	47
Thereafter ⁽¹⁾	5,843	39
	\$ 10,095	\$ 420

⁽¹⁾ We assumed all extensions that are solely at our option for purposes of calculating maturity dates.

Note 10: Derivative Instruments and Hedging Activities

During the nine months ended September 30, 2016 and 2015, derivatives were used to hedge the interest rate risk associated with variable-rate debt as required by certain loan agreements, as well as foreign exchange risk associated with certain foreign currency denominated cash balances.

During the three months ended September 30, 2016, we dedesignated four interest rate swaps that were previously designated as cash flow hedges as they no longer met the criteria for hedge accounting. These interest rate swaps, which swapped three-month LIBOR on the Term Loans to a fixed rate of 1.87 percent, expire in October 2018 and, as of September 30, 2016, had an aggregate notional amount of \$1.45 billion.

As of September 30, 2016, we also held one interest rate cap in the notional amount of \$862 million, for the variable-rate component of the CMBS Loan, that expires in November 2016 and caps one-month LIBOR at 6.9 percent, and one interest rate cap in the notional amount of \$337 million that expires in May 2017 and caps one-month LIBOR at 3.0 percent on the Bonnet Creek Loan. We did not elect to designate any of these interest rate caps as hedging instruments.

As of September 30, 2016, we held 65 short-term foreign exchange forward contracts with an aggregate notional amount of \$348 million to offset exposure to fluctuations in our foreign currency denominated cash balances. We elected not to designate these foreign exchange forward contracts as hedging instruments.

Fair Value of Derivative Instruments

The effects of our derivative instruments on our condensed consolidated balance sheets were as follows:

⁽¹⁾ There were no amounts recognized in earnings related to hedge ineffectiveness or amounts excluded from hedge effectiveness testing during the three and nine months ended September 30, 2016 and 2015.

The amounts recognized during the three and nine months ended September 30, 2016 are related to the

⁽²⁾ dedesignation of these instruments as cash flow hedges and were reclassified from accumulated other comprehensive loss as the underlying transactions occurred.

Note 11: Fair Value Measurements

We did not elect the fair value measurement option for any of our financial assets or liabilities. The fair value of certain financial instruments and the hierarchy level we used to estimate fair values are shown below:

(1) Carrying amount includes allowance for loan loss.

Excludes capital lease obligations with a carrying value of \$277 million and \$245 million as of September 30, 2016

(2) and December 31, 2015, respectively, and debt of certain consolidated VIEs with a carrying value of \$39 million and \$32 million, respectively.

(3) Carrying amount includes unamortized deferred financing costs and discounts.

The fair values of financial instruments not included in this table are estimated to be equal to their carrying amounts as of September 30, 2016 and December 31, 2015. Our estimates of the fair values were determined using available market information and appropriate valuation methods. Considerable judgment is necessary to interpret market data and develop the estimated fair values.

Cash equivalents and restricted cash equivalents primarily consisted of short-term interest-bearing money market funds with maturities of less than 90 days, time deposits and commercial paper. The estimated fair values were based on available market pricing information of similar financial instruments.

The estimated fair values of our timeshare financing receivables were based on the expected future cash flows discounted at weighted-average interest rates of the current portfolio, which reflect the risk of the underlying notes, primarily determined by the creditworthiness of the borrowers.

The estimated fair values of our Level 1 long-term debt were based on prices in active debt markets. The estimated fair values of our Level 3 long-term debt were based on: (i) indicative quotes received for similar issuances; (ii) the expected future cash flows discounted at risk-adjusted rates; or (iii) the carrying value, where the interest rates approximated current market rates.

The estimated fair values of our Level 3 timeshare debt were based on the carrying values, excluding unamortized deferred financing costs, as the interest rates approximated current market rates.

We measure our interest rate swaps at fair value, which were estimated using an income approach. The primary inputs into our fair value estimate include interest rates and yield curves based on observable market inputs of similar instruments.

Note 12: Income Taxes

At the end of each quarter we estimate the effective tax rate expected to be applied for the full year. The effective income tax rate is determined by the level and composition of pre-tax income or loss, which is subject to federal, foreign, state and local income taxes. The lower effective tax rate, as compared to our statutory tax rate, for the nine months ended September 30, 2016, was primarily attributable to changes in our uncertain tax positions.

Our total unrecognized tax benefits as of September 30, 2016 and December 31, 2015 were \$248 million and \$407 million, respectively. During the nine months ended September 30, 2016, we released \$220 million of reserves related to unrecognized tax benefits that we have either settled or determined that we are more likely than not to receive the full benefit for.

In April 2014, we received 30-day Letters from the Internal Revenue Service ("IRS") and the Revenue Agents Report ("RAR") for the 2006 and October 2007 tax years. We disagreed with several of the proposed adjustments in the RAR, filed a formal appeals protest with the IRS and did not make any tax payments related to this audit. The issues being protested in appeals relate to assertions by the IRS that: (1) certain foreign currency denominated intercompany loans from our foreign subsidiaries to certain U.S. subsidiaries should be recharacterized as equity for U.S. federal income tax purposes and constitute deemed dividends from such foreign subsidiaries to our U.S. subsidiaries; (2) in calculating the amount of U.S. taxable income resulting from our Hilton HHonors guest loyalty program, we should not reduce gross income by the estimated costs of future redemptions, but rather such costs would be deductible at the time the points are redeemed; and (3) certain foreign currency denominated loans issued by one of our Luxembourg subsidiaries whose functional currency is U.S. dollar ("USD"), should instead be treated as issued by one of our Belgian subsidiaries whose functional currency is the euro, and thus foreign currency gains and losses with respect to such loans should have been measured in euros, instead of USD. Additionally, in January 2016, we received a 30-day Letter from the IRS and the RAR for the December 2007 through 2010 tax years. The RAR includes the proposed adjustments for tax years December 2007 through 2010 which reflect the carryover effect of the three protested issues from 2006 through October 2007. These proposed adjustments will also be protested in appeals and formal appeals protests have been submitted. In total, the proposed adjustments sought by the IRS would result in additional U.S. federal tax owed of approximately \$874 million, excluding interest and penalties and potential state income taxes. The portion of this amount related to our Hilton HHonors guest loyalty program would result in a decrease to our future tax liability when the points are redeemed. We disagree with the IRS's position on each of these assertions and intend to vigorously contest them. However, as a result of recent developments related to the appeals process discussions that have taken place during 2016, we have determined based on on-going discussions with the IRS, it is more likely than not that we will not recognize the full benefit related to certain of the issues being appealed. Accordingly, as of September 30, 2016, we have recognized a \$44 million unrecognized tax benefit.

We recognize interest and penalties accrued related to uncertain tax positions in income tax expense. We had accrued approximately \$26 million and \$27 million for the payment of interest and penalties as of September 30, 2016 and December 31, 2015, respectively. As a result of the expected resolution of examination issues with federal, state and foreign tax authorities, we believe it is reasonably possible that during the next 12 months the amount of unrecognized tax benefits will decrease up to \$1 million. Included in the balance of unrecognized tax benefits as of September 30, 2016 and December 31, 2015 were \$208 million and \$377 million, respectively, associated with positions that, if favorably resolved, would provide a benefit to our effective tax rate.

We file income tax returns, including returns for our subsidiaries, with federal, state and foreign jurisdictions. We are under regular and recurring audit by the IRS and other taxing authorities on open tax positions. The timing of the resolution of tax audits is highly uncertain, as are the amounts, if any, that may ultimately be paid upon such resolution. Changes may result from the conclusion of ongoing audits, appeals or litigation in state, local, federal and foreign tax jurisdictions or from the resolution of various proceedings between the U.S. and foreign tax authorities. We are no longer subject to U.S. federal income tax examination for years through 2004. As of September 30, 2016, we remain subject to federal examinations from 2005-2015, state examinations from 2003-2015 and foreign examinations of our income tax returns for the years 1996 through 2015.

State income tax returns are generally subject to examination for a period of three to five years after filing the respective return; however, the state effect of any federal tax return changes remains subject to examination by various states for a period generally of up to one year after formal notification to the states. The statute of limitations for the foreign jurisdictions generally ranges from three to ten years after filing the respective tax return.

Note 13: Employee Benefit Plans

We sponsor multiple domestic and international employee benefit plans. Benefits are based upon years of service and compensation.

We have a noncontributory retirement plan in the U.S., which covers certain employees not earning union benefits. This plan was frozen for participant benefit accruals in 1996. We also have multiple employee benefit plans that cover many of our international employees. These include a plan that covers workers in the United Kingdom, which was frozen to further accruals in November 2013, and a number of smaller plans that cover workers in various other countries around the world. The net periodic pension cost for our employee benefit plans was \$1 million and \$2 million for the three months ended September 30, 2016 and 2015, respectively, and \$4 million and \$8 million for the nine months ended September 30, 2016 and 2015, respectively.

Note 14: Share-Based Compensation

We issue time-vesting restricted stock units ("RSUs"), nonqualified stock options ("options"), performance-vesting restricted stock units and restricted stock (collectively, "performance shares") and deferred share units ("DSUs"). We recognized share-based compensation expense of \$26 million and \$22 million during the three months ended September 30, 2016 and 2015, respectively, and \$70 million and \$143 million during the nine months ended September 30, 2016 and 2015, respectively, which included amounts reimbursed by hotel owners. Share-based compensation expense for the nine months ended September 30, 2015 included \$66 million of compensation expense that was recognized when certain remaining awards granted in connection with our initial public offering vested during 2015. As of September 30, 2016, unrecognized compensation costs for unvested awards was approximately \$116 million, which is expected to be recognized over a weighted-average period of 1.9 years on a straight-line basis. As of September 30, 2016, there were 62,204,701 shares of common stock available for future issuance.

RSUs

During the nine months ended September 30, 2016, we issued 3,507,714 RSUs with a weighted average grant date fair value of \$19.91, which generally vest in equal annual installments over two or three years from the date of grant.

Options

During the nine months ended September 30, 2016, we issued 1,509,451 options with an exercise price of \$19.61, which vest over three years from the date of grant and terminate 10 years from the date of grant or earlier if the individual's service terminates in certain circumstances.

The grant date fair value of these options was \$5.47, which was determined using the Black-Scholes-Merton option-pricing model with the following assumptions:

Expected volatility ⁽¹⁾	32.00%
Dividend yield ⁽²⁾	1.43 %
Risk-free rate ⁽³⁾	1.36 %
Expected term (in years) ⁽⁴⁾	6.0

-
- Due to limited trading history of our common stock, we did not have sufficient information available on which to base a reasonable and supportable estimate of the expected volatility of our share price. As a result, we used an
- (1) average historical volatility of our peer group over a time period consistent with our expected term assumption in addition to our historical and implied volatility. Our peer group was determined based upon companies in our industry with similar business models and is consistent with those used to benchmark our executive compensation.
 - (2) Estimated based on the expected annualized dividend payment.
 - (3) Based on the yields of U.S. Department of Treasury instruments with similar expected lives.
 - (4) Estimated using the average of the vesting periods and the contractual term of the options.

As of September 30, 2016, 885,644 options outstanding were exercisable.

Performance Shares

During the nine months ended September 30, 2016, we issued 1,804,706 performance shares. The performance shares are settled at the end of the three-year performance period with 50 percent of the shares subject to achievement based on a measure of the Company's total shareholder return relative to the total shareholder returns of members of a peer company group ("relative shareholder return") and the other 50 percent of the shares subject to achievement based on the Company's earnings before interest expense, taxes and depreciation and amortization ("EBITDA") compound

annual growth rate ("CAGR").

19

The grant date fair value of these performance shares based on relative shareholder return was \$20.81, which was determined using a Monte Carlo simulation valuation model with the following assumptions:

Expected volatility ⁽¹⁾	31.00 %
Dividend yield ⁽²⁾	— %
Risk-free rate ⁽³⁾	0.92 %
Expected term (in years) ⁽⁴⁾	2.8

- Due to limited trading history of our common stock, we did not have sufficient information available on which to base a reasonable and supportable estimate of the expected volatility of our share price. As a result, we used an
- (1) average historical volatility of our peer group over a time period consistent with our expected term assumption in addition to our historical and implied volatility. Our peer group was determined based upon companies in our industry with similar business models and is consistent with those used to benchmark our executive compensation.
 - (2) As dividends are assumed to be reinvested in shares of common stock and dividends will not be paid to the participants of the performance shares unless the shares vest, we utilized a dividend yield of zero percent.
 - (3) Based on the yields of U.S. Department of Treasury instruments with similar expected lives.
 - (4) Midpoint of the 30-calendar day period preceding the end of the performance period.

The grant date fair value of these performance shares based on our EBITDA CAGR was \$19.61. For these shares, we determined that the performance condition is probable of achievement and as of September 30, 2016, we recognized compensation expense based on the anticipated achievement percentage as follows:

	Achievement Percentage
2014 grants	125 %
2015 grants	88 %
2016 grants	63 %

DSUs

During the nine months ended September 30, 2016, we issued to our independent directors 34,259 DSUs with a grant date fair value of \$22.04, which are fully vested and non-forfeitable on the grant date. DSUs are settled for shares of our common stock and deliverable upon the earlier of termination of the individual's service on our board of directors or a change in control.

Note 17: Business Segments

We are a diversified hospitality company with operations organized in three distinct operating segments: ownership; management and franchise; and timeshare. Each segment is managed separately because of its distinct economic characteristics.

The ownership segment included 142 properties totaling 57,868 rooms, comprising 120 hotels that we wholly owned or leased, one hotel owned by a consolidated non-wholly owned entity, six hotels owned or leased by consolidated VIEs and 15 hotels that are owned or leased by unconsolidated affiliates, as of September 30, 2016. While we do not include equity in earnings (losses) from unconsolidated affiliates in our measure of segment revenues, we manage these investments in our ownership segment and the results are included in our measure of segment profits.

The management and franchise segment includes all of the hotels we manage for third-party owners, as well as all franchised hotels operated or managed by someone other than us. As of September 30, 2016, this segment included 545 managed hotels and 4,087 franchised hotels totaling 4,632 hotels consisting of 723,404 rooms. This segment also earns fees for managing properties in our ownership and timeshare segments.

The timeshare segment includes the development of vacation ownership clubs and resorts, marketing and selling of timeshare intervals, resort operations and providing timeshare customer financing for the timeshare interests. This segment also provides assistance to third-party developers in selling their timeshare inventory. As of September 30, 2016, this segment included 46 timeshare properties totaling 7,592 units.

Corporate and other represents revenues and related operating expenses generated by the incidental support of hotel operations for owned, leased, managed and franchised hotels and other rental income, as well as corporate assets and related expenditures.

The performance of our operating segments is evaluated primarily based on Adjusted EBITDA. We define Adjusted EBITDA as EBITDA, further adjusted to exclude certain items, including gains, losses and expenses in connection with: (i) asset dispositions for both consolidated and unconsolidated investments; (ii) foreign currency transactions; (iii) debt restructurings/retirements; (iv) non-cash impairment losses; (v) furniture, fixtures and equipment ("FF&E") replacement reserves required under certain lease agreements; (vi) reorganization costs; (vii) share-based compensation expense; (viii) severance, relocation and other expenses; and (ix) other items.

The following table presents revenues for our reportable segments, reconciled to consolidated amounts:

Note 18: Commitments and Contingencies

As of September 30, 2016, we had outstanding guarantees of \$25 million, with remaining terms ranging from four years to six years, for debt and other obligations of third parties. We have one letter of credit for \$25 million that has been pledged as collateral for one of these guarantees. Although we believe it is unlikely that material payments will be required under these guarantees or letters of credit, there can be no assurance that this will be the case.

We have also provided performance guarantees to certain owners of hotels that we operate under management contracts. Most of these guarantees allow us to terminate the contract, rather than fund shortfalls, if specified performance levels are not achieved. However, in limited cases, we are obligated to fund performance shortfalls. As of September 30, 2016, we had eight contracts containing performance guarantees, with expirations ranging from 2017 to 2030, and possible cash outlays totaling approximately \$89 million. Our obligations in future periods depend on the operating performance levels of these hotels over the remaining terms of the performance guarantees. We do not have any letters of credit pledged as collateral against these guarantees. As of September 30, 2016 and December 31, 2015, we recorded a current liability of approximately \$8 million in accounts payable, accrued expenses and other and a non-current liability of approximately \$20 million and \$25 million, respectively, in other liabilities in our condensed consolidated balance sheets for an outstanding performance guarantee that is related to a VIE for which we are not the primary beneficiary.

As of September 30, 2016, we had outstanding commitments under third-party contracts of approximately \$74 million for capital expenditures at certain owned and leased properties. Our contracts contain clauses that allow us to cancel all or some portion of the work. If cancellation of a contract occurs, our commitment would be any costs incurred up to the cancellation date, in addition to any costs associated with the discharge of the contract.

We have entered into an agreement with an affiliate of the owner of a hotel whereby we have agreed to provide a \$60 million junior mezzanine loan to finance the construction of a new hotel that we will manage. The junior mezzanine loan will be subordinated to a senior mortgage loan and senior mezzanine loan provided by third parties unaffiliated with us and will be funded on a pro rata basis with these loans as the construction costs are incurred. During the nine months ended September 30, 2016 and 2015, we funded \$25 million and \$11 million of this commitment, respectively, and we currently expect to fund the remainder of our commitment as follows: \$10 million in the remainder of 2016 and \$8 million in 2017.

We have entered into certain arrangements with developers whereby we have committed to purchase timeshare units at a future date to be marketed and sold under our Hilton Grand Vacations brand. As of September 30, 2016, we are committed to purchase approximately \$195 million of inventory over a period of four years. The ultimate amount and timing of the acquisitions is subject to change pursuant to the terms of the respective arrangements, which could also allow for cancellation in certain circumstances. During the nine months ended September 30, 2016 and 2015, we purchased \$11 million and \$17 million, respectively, of inventory as required under our commitments. As of September 30, 2016, our remaining contractual obligations pursuant to these arrangements were expected to be incurred as follows: \$3 million in the remainder of 2016; \$8 million in 2017; \$56 million in 2018; and \$128 million in 2019.

In 2010, an affiliate of Blackstone settled a \$75 million liability on our behalf in conjunction with a lawsuit settlement by entering into service contracts with the plaintiff. As part of the settlement, we entered into a guarantee with the plaintiff to pay any shortfall that this affiliate does not fund related to those service contracts up to the value of the settlement amount made by the affiliate. The remaining potential exposure as of September 30, 2016 was approximately \$14 million. We have not accrued a liability for this guarantee as we believe the likelihood of any material funding to be remote.

We are involved in other litigation arising in the normal course of business, some of which includes claims for substantial sums. While the ultimate results of claims and litigation cannot be predicted with certainty, we expect that the ultimate resolution of all pending or threatened claims and litigation as of September 30, 2016 will not have a material effect on our condensed consolidated results of operations, financial position or cash flows.

Note 19: Condensed Consolidating Guarantor Financial Information

In October 2013, Hilton Worldwide Finance LLC and Hilton Worldwide Finance Corp. ("the Subsidiary Issuers"), entities formed in August 2013 that are 100 percent owned by the Parent, issued \$1.5 billion of 5.625% senior notes due in 2021 (the "2021 Senior Notes"). In August 2016, Hilton Domestic Operating Company Inc., an entity formed in August 2016 that is 100 percent owned by Hilton Worldwide Finance LLC and a guarantor of the 2021 Senior Notes, issued the 2024 Senior Notes. The 2021 Senior Notes and 2024 Senior Notes are referred to as the Senior Notes.

The obligations of the Subsidiary Issuers are guaranteed jointly and severally on a senior unsecured basis by the Parent and certain of the Parent's 100 percent owned domestic restricted subsidiaries (together, the "Guarantors"). The indentures that govern the Senior Notes provide that any subsidiary of the Company that provides a guarantee of the Senior Secured Credit Facility will guarantee the Senior Notes. None of our foreign subsidiaries or U.S. subsidiaries owned by foreign subsidiaries or conducting foreign operations; our non-wholly owned subsidiaries; our subsidiaries that secure the CMBS Loan and \$446 million in mortgage loans; or certain of our special purpose subsidiaries formed in connection with our Timeshare Facility and Securitized Timeshare Debt guarantee the Senior Notes (collectively, the "Non-Guarantors").

The guarantees are full and unconditional, subject to certain customary release provisions. The indentures that govern the Senior Notes provide that any Guarantor may be released from its guarantee so long as: (i) the subsidiary is sold or sells all of its assets; (ii) the subsidiary is released from its guaranty under the Senior Secured Credit Facility; (iii) the subsidiary is declared "unrestricted" for covenant purposes; or (iv) the requirements for legal defeasance or covenant defeasance or to discharge the indenture have been satisfied.

The following schedules present the condensed consolidating financial information as of September 30, 2016 and December 31, 2015, and for the three and nine months ended September 30, 2016 and 2015, for the Parent, Subsidiary Issuers, Guarantors and Non-Guarantors.

Note 20: Subsequent Events

In October 2016, in preparation of the spin-offs, we made prepayments of \$1,967 million on our CMBS Loan. Additionally, we issued commercial mortgage-backed securities loans that will be held by Park, including a \$725 million loan that matures in 2023 and is secured by two of our U.S. owned real estate assets and a \$1,275 million loan that matures in 2026 and is secured by one of our U.S. owned real estate assets.

Item 2. Management's Discussion and Analysis of Financial Condition and Results of Operations

The following discussion and analysis of our financial condition and results of operations should be read in conjunction with our unaudited condensed consolidated financial statements and related notes included elsewhere in this Quarterly Report on Form 10-Q and with our Annual Report on Form 10-K for the fiscal year ended December 31, 2015.

Forward-Looking Statements

This Quarterly Report on Form 10-Q contains forward-looking statements that reflect our current views with respect to, among other things, our operations and financial performance. Forward-looking statements include all statements that are not historical facts. In some cases, you can identify these forward-looking statements by the use of words such as "outlook," "believes," "expects," "potential," "continues," "may," "will," "should," "could," "seeks," "approximately," "projects," "predicts," "intends," "plans," "estimates," "anticipates" or the negative version of these words or other comparable words. Such forward-looking statements are subject to various risks and uncertainties including, among others, risks inherent to the hospitality industry, macroeconomic factors beyond our control, competition for hotel guests, management and franchise agreements and timeshare sales, risks related to doing business with third-party hotel owners, our significant investments in owned and leased real estate, performance of our information technology systems, growth of reservation channels outside of our system, risks of doing business outside of the U.S., risks related to our proposed spin-offs and our indebtedness. Accordingly, there are or will be important factors that could cause actual outcomes or results to differ materially from those indicated in these statements. We believe these factors include but are not limited to those described under "Part I—Item 1A. Risk Factors" of our Annual Report on Form 10-K for the fiscal year ended December 31, 2015. These factors should not be construed as exhaustive and should be read in conjunction with the other cautionary statements that are included in this Quarterly Report on Form 10-Q. We undertake no obligation to publicly update or review any forward-looking statement, whether as a result of new information, future developments or otherwise, except as required by law.

Overview

Hilton is one of the largest and fastest growing hospitality companies in the world, with 4,820 hotels, resorts and timeshare properties comprising 788,864 rooms in 104 countries and territories as of September 30, 2016. Our premier brand portfolio includes our luxury and lifestyle hotel brands, Waldorf Astoria Hotels & Resorts, Conrad Hotels & Resorts and Canopy by Hilton, our full-service hotel brands, Hilton Hotels & Resorts, Curio - A Collection by Hilton, DoubleTree by Hilton and Embassy Suites by Hilton, our focused-service hotel brands, Hilton Garden Inn, Hampton by Hilton, Tru by Hilton, Homewood Suites by Hilton and Home2 Suites by Hilton, and our timeshare brand, Hilton Grand Vacations. We had approximately 58 million members in our award-winning customer loyalty program, Hilton HHonors, as of September 30, 2016.

Management analyzes our operations and business by both operating segments and geographic regions. Our operations consist of three reportable segments that are based on similar products or services: ownership; management and franchise; and timeshare. The ownership segment primarily derives earnings from providing hotel room rentals, food and beverage sales and other services at our owned and leased hotels. The management and franchise segment provides services, which include hotel management and licensing of our brands to franchisees, as well as property management at timeshare properties. This segment generates its revenue from management and franchise fees charged to hotel owners, including our owned and leased hotels, and to homeowners' associations at timeshare properties. As a manager of hotels and timeshare resorts, we typically are responsible for supervising or operating the property in exchange for management fees. As a franchisor of hotels, we charge franchise fees in exchange for the use of one of our brand names and related commercial services, such as our reservation system, marketing and information technology services. The timeshare segment consists of multi-unit vacation ownership properties and generates

revenue by marketing and selling timeshare intervals owned by us and third parties, resort operations and providing consumer financing for the timeshare interests.

In February 2016, we announced a plan to separate a substantial portion of our ownership business, consisting primarily of our owned hotels located in the U.S., as well as our timeshare business from Hilton, forming two additional independent, publicly traded companies. Hilton Grand Vacations Inc. and Park Hotels & Resorts Inc. have each filed registration statements with the SEC disclosing financial and other details of these planned spin-off transactions, which are each subject to several conditions, including the SEC declaring effective the registration statements and final approval of the transactions by our board of directors.

Geographically, management conducts business through three distinct geographic regions: the Americas; Europe, Middle East and Africa ("EMEA"); and Asia Pacific. The Americas region includes North America, South America and Central America, including all Caribbean nations. Although the U.S. is included in the Americas, it represents a significant portion of our system-wide hotel rooms, which was 75 percent as of September 30, 2016; therefore, the U.S. is often analyzed separately

and apart from the Americas geographic region and, as such, it is presented separately within the analysis herein. The EMEA region includes Europe, which represents the western-most peninsula of Eurasia stretching from Ireland in the west to Russia in the east, and the Middle East and Africa ("MEA"), which represents the Middle East region and all African nations, including the Indian Ocean island nations. Europe and MEA are often analyzed separately by management. The Asia Pacific region includes the eastern and southeastern nations of Asia, as well as India, Australia, New Zealand and the Pacific island nations.

We continue to expand our global footprint, fee-based business and the capital efficiency of our timeshare business. As we enter into new management and franchise contracts, we expand our business with minimal or no capital investment by us as the manager or franchisor, as the capital required to build and maintain hotels is typically provided by the third-party owner of the respective hotel that we contract with to provide management or franchise services. Additionally, prior to approving the addition of new hotels to our management and franchise development pipeline, we evaluate the economic viability of the hotel based on the geographic location, the credit quality of the third-party owner and other factors. As a result, by increasing the number of management and franchise agreements with third-party owners, we expect to achieve a higher overall return on invested capital.

As of September 30, 2016, we had a total of 1,898 hotels in our development pipeline, representing approximately 300,000 rooms under construction or approved for development throughout 91 countries and territories, including 31 countries and territories where we do not currently have any open hotels. Over 99 percent of the rooms in the pipeline are within our management and franchise segment. Of the rooms in the pipeline, over 148,000 rooms, or half of the pipeline, were located outside the U.S., which will result in the percentage of hotel rooms outside the U.S. increasing in future years as hotels in the pipeline open. As of September 30, 2016, approximately 149,000 rooms, representing half of our development pipeline, were under construction. We do not consider any individual development project to be material to us.

Our overall supply of timeshare intervals as of September 30, 2016 was approximately 127,000 intervals, or nearly six years at current sales pace. In addition to investing in developing timeshare properties for sales to customers, we enter into agreements to market and sell timeshare units developed by third parties. Our supply of third-party developed timeshare intervals was approximately 103,000, or 81 percent of our overall supply, as of September 30, 2016.

Key Business and Financial Metrics Used by Management

Comparable Hotels

We define our comparable hotels as those that: (i) were active and operating in our system for at least one full calendar year as of the end of the current period, and open January 1st of the previous year; (ii) have not undergone a change in brand or ownership during the current or comparable periods reported; and (iii) have not sustained substantial property damage, business interruption, undergone large-scale capital projects or for which comparable results are not available. Of the 4,774 hotels in our system as of September 30, 2016, 3,760 were classified as comparable hotels. Our 1,014 non-comparable hotels included 151 properties, or approximately three percent of the total hotels in our system, that were removed from the comparable group during the last twelve months because they sustained substantial property damage, business interruption, underwent large-scale capital projects or comparable results were not available.

Occupancy

Occupancy represents the total number of room nights sold divided by the total number of room nights available at a hotel or group of hotels. Occupancy measures the utilization of our hotels' available capacity. Management uses occupancy to gauge demand at a specific hotel or group of hotels in a given period. Occupancy levels also help us

determine achievable Average Daily Rate levels as demand for hotel rooms increases or decreases.

Average Daily Rate ("ADR")

ADR represents hotel room revenue divided by total number of room nights sold in a given period. ADR measures average room price attained by a hotel and ADR trends provide useful information concerning the pricing environment and the nature of the customer base of a hotel or group of hotels. ADR is a commonly used performance measure in the industry, and we use ADR to assess pricing levels that we are able to generate by type of customer, as changes in rates have a different effect on overall revenues and incremental profitability than changes in occupancy, as described above.

Revenue per Available Room ("RevPAR")

We calculate RevPAR by dividing hotel room revenue by total number of room nights available to guests for a given period. We consider RevPAR to be a meaningful indicator of our performance as it provides a metric correlated to two primary and key drivers of operations at a hotel or group of hotels: occupancy and ADR. RevPAR is also a useful indicator in measuring performance over comparable periods for comparable hotels.

References to RevPAR, ADR and occupancy are presented on a comparable basis and references to RevPAR and ADR are presented on a currency neutral basis (all periods use the same exchange rates), unless otherwise noted.

EBITDA and Adjusted EBITDA

For a discussion of our definition of Adjusted EBITDA, see Note 17: "Business Segments" in our unaudited condensed consolidated financial statements.

EBITDA and Adjusted EBITDA are not recognized terms under U.S. GAAP and should not be considered as alternatives to net income (loss) or other measures of financial performance or liquidity derived in accordance with U.S. GAAP. In addition, our definitions of EBITDA and Adjusted EBITDA may not be comparable to similarly titled measures of other companies.

We believe that EBITDA and Adjusted EBITDA provide useful information to investors about us and our financial condition and results of operations for the following reasons: (i) these measures are among the measures used by our management team to evaluate our operating performance and make day-to-day operating decisions; and (ii) these measures are frequently used by securities analysts, investors and other interested parties as a common performance measure to compare results or estimate valuations across companies in our industry.

EBITDA and Adjusted EBITDA have limitations as analytical tools and should not be considered either in isolation or as a substitute for net income (loss), cash flow or other methods of analyzing our results as reported under U.S. GAAP. Some of these limitations are:

EBITDA and Adjusted EBITDA do not reflect changes in, or cash requirements for, our working capital needs;

EBITDA and Adjusted EBITDA do not reflect our interest expense, or the cash requirements necessary to service interest or principal payments, on our indebtedness;

EBITDA and Adjusted EBITDA do not reflect our tax expense or the cash requirements to pay our taxes;

EBITDA and Adjusted EBITDA do not reflect historical cash expenditures or future requirements for capital expenditures or contractual commitments;

EBITDA and Adjusted EBITDA do not reflect the effect on earnings or changes resulting from matters that we consider not to be indicative of our future operations;

although depreciation and amortization are non-cash charges, the assets being depreciated and amortized will often have to be replaced in the future, and EBITDA and Adjusted EBITDA do not reflect any cash requirements for such replacements; and

other companies in our industry may calculate EBITDA and Adjusted EBITDA differently, limiting their usefulness as comparative measures.

Because of these limitations, EBITDA and Adjusted EBITDA should not be considered as discretionary cash available to us to reinvest in the growth of our business or as measures of cash that will be available to us to meet our obligations.

During the three and nine months ended September 30, 2016, we experienced system-wide RevPAR growth from continued ADR growth at both of our hotel segments. The U.S. and Asia Pacific continued to experience RevPAR growth as a result of ADR growth and increased demand, respectively, while the Americas (excluding U.S.) experienced strong RevPAR growth primarily as a result of improved group business in Canada. RevPAR in Europe and MEA were negatively affected by geopolitical and terrorism concerns, resulting in a decrease in occupancy.

(1) From January 1, 2015 to September 30, 2016, six properties were added to our U.S. owned and leased portfolio on a net basis.

As of September 30, 2016, we had 46 consolidated owned and leased hotels located in the U.S., comprising 27,066 rooms. The increase in comparable U.S. owned and leased hotel revenue during the three months ended September 30, 2016 was primarily a result of an increase in food and beverage revenue attributable to an increase in banquet business. The increase in comparable U.S. owned and leased hotel revenue during the nine months ended September 30, 2016 was primarily a result of an increase in RevPAR of 1.5 percent, attributable to an increase in ADR of 2.9 percent, offset by a decrease in occupancy of 1.1 percentage points, as well as an increase in food and beverage revenue. Certain markets continued to experience decreases in RevPAR, mainly Chicago and New York, which resulted from decreases in city-wide events and transient business, respectively. Additionally, during the nine months ended September 30, 2016, U.S. owned and leased hotel revenue increased as a result of increases in revenues from

properties acquired in February and June of 2015 (see Note 3: "Acquisitions"), net of the decrease in revenues from the Waldorf Astoria New York, which was sold in February 2015 (see Note 4: "Disposals"). Excluding acquisitions and dispositions, revenues from non-comparable U.S. owned and leased hotels decreased for the three and nine months ended September 30, 2016, primarily as a result of renovations at one property.

The following details the changes in revenues at our international owned and leased hotels giving effect to foreign currency ("FX") changes and acquired and disposed hotels, which resulted in overall net decreases in revenues:

International owned and leased hotels	\$1,233	\$1,367	\$ (134)	\$ (39)	\$ (89)	\$ (6)		

(1) Unfavorable movements were a result of the strengthening of the USD compared to other currencies, primarily the British pound, partially offset by the strengthening of the Japanese Yen compared to the USD.

(2) From January 1, 2015 to September 30, 2016, six properties were removed from our international owned and leased portfolio.

As of September 30, 2016, we had 81 consolidated owned and leased hotels located outside of the U.S., comprising 23,272 rooms. The decreases in revenues at our international hotels during the three and nine months ended September 30, 2016 were primarily a result of the effect of foreign currency changes and decreases in revenues from properties disposed of between January 1, 2015 and September 30, 2016. Additionally, on a currency-neutral basis, comparable international owned and leased hotel revenues decreased during the three months ended September 30, 2016 as a result of a decrease in RevPAR of 3.3 percent, primarily due to a decrease in ADR of 2.4 percent. During the three and nine months ended September 30, 2016, we experienced decreased transient room revenue at certain of our comparable international owned and leased hotels, which was offset by an increase in group business during the nine months ended September 30, 2016, despite a modest decline in group business during the three months ended September 30, 2016.

Other	21	22	(4.5)	63	61	3.3
	\$446	\$416	7.2	\$1,276	\$1,194	6.9

The increases in management and franchise fees were primarily a result of the addition of new managed and franchised properties to our portfolio, which are not included in our comparable hotels. From January 1, 2015 to September 30, 2016, we added 498 managed and franchised properties on a net basis, including new development and ownership type transfers, providing an additional 74,090 rooms to our managed and franchised segment. As new hotels are established in our system, we expect the fees received from such hotels to increase as they are part of our system for full periods.

Additionally, our management and franchise fees increased during the three and nine months ended September 30, 2016 as a result of increases in RevPAR at our comparable managed and franchised hotels due to increases in ADR. During the three and nine months ended September 30, 2016, RevPAR increased 1.2 percent and 2.3 percent, respectively, at our comparable managed hotels and 1.5 percent and 2.2 percent, respectively, at our comparable franchised hotels. Franchise fees also increased as a result of increases in licensing and other fees of \$2 million and \$13 million during the three and nine months ended September 30, 2016, respectively.

Timeshare sales revenue increased during the three and nine months ended September 30, 2016 as a result of increases in commissions recognized from the sale of third-party developed intervals of \$11 million and \$16 million, respectively, as well as increases in revenue from the sale of owned timeshare intervals of \$6 million and \$5 million, respectively, due to increases in sales volume. Overall timeshare sales volume increased 15 percent and 9 percent, respectively, during the three and nine months ended September 30, 2016, as a result of increased tour flow and net volume per guest. Additionally, revenues from our resort operations increased during the three and nine months ended September 30, 2016 as a result of increases in fees earned related to our Hilton Grand Vacations Club, including fees generated by new members.

Fluctuations in operating expenses at our owned and leased hotels can relate to various factors, including changes in occupancy levels, labor costs, utilities, taxes and insurance costs. The change in the number of occupied room nights directly affects certain variable expenses, which include payroll, supplies and other operating expenses.

The following details the changes in operating expenses at our U.S. owned and leased hotels giving effect to acquired and disposed hotels, which resulted in overall net increases in operating expenses:

⁽¹⁾ From January 1, 2015 to September 30, 2016, six properties were added to our U.S. owned and leased portfolio on a net basis.

The increases in operating expenses at our U.S. owned and leased hotels during the three and nine months ended September 30, 2016 were primarily the result of increases at our comparable hotels due to increased wages and benefits and other operating expenses. Operating expenses at our non-comparable U.S. owned and leased hotels increased during the nine

months ended September 30, 2016 primarily as a result of increases in operating expenses from properties acquired in February and June of 2015 (see Note 3: "Acquisitions"), net of the decrease in operating expenses from the Waldorf Astoria New York, which was sold in February 2015 (see Note 4: "Disposals").

Timeshare sales expense increased during the three and nine months ended September 30, 2016 primarily as a result of higher sales and marketing expenses as a result of increases in sales volume of both owned inventory and third-party developed timeshare intervals. During the nine months ended September 30, 2016, the increase in timeshare sales expense was partially offset by a decrease of \$16 million in the cost of product related to the reacquisition of owned timeshare inventory for customer upgrades into third-party developed properties.

The increase in depreciation expense during the nine months ended September 30, 2016 resulted primarily from the addition of property and equipment related to the properties acquired in 2015, partially offset by decreases as a result of disposed hotels. The decrease in amortization expense during the nine months ended September 30, 2016 was primarily a result of \$13 million in accelerated amortization that was recognized during the nine months ended September 30, 2015 on a management contract intangible asset for properties that were managed by us prior to our acquisition of them.

The changes in general and administrative expense during the three and nine months ended September 30, 2016 were primarily a result of decreases of \$19 million and \$71 million in severance costs related to the sale of the Waldorf Astoria New York during the three and nine months ended September 30, 2016, respectively, offset by increases of \$27 million and \$54 million, respectively, of costs associated with the planned spin-off transactions. Additionally, during the nine months ended September 30, 2016, general and administrative expense decreased as a result of \$66 million in share-based compensation expense recognized when certain remaining awards granted in connection with our initial public offering vested in May 2015.

The increases in interest expense during the three and nine months ended September 30, 2016 were primarily due to the issuance of the 2024 Senior Notes in August 2016. These increases were partially offset by decreases in interest expense on the Term Loans due to their amended interest rate, as well as prepayments made between January 1, 2015 and September 30, 2016. Additionally, the net loss on foreign currency transactions for the nine months ended September 30, 2015 was attributable to changes in foreign currency rates on our short-term cross-currency intercompany loans, predominantly those denominated in AUD and Brazilian real.

The net loss for the three and nine months ended September 30, 2016 primarily related to a \$5 million loss from the derecognition of unamortized debt issuance costs as a result of prepayments on the CMBS Loan, as well as \$4 million of transaction costs incurred in connection with the amendment of the Term Loans.

The net loss for the nine months ended September 30, 2015 was primarily related to \$26 million of transaction costs from the acquisition of properties in connection with the tax deferred exchange, partially offset by the \$24 million gain from the capital lease liability reduction from one of our consolidated VIEs. Additionally, as a result of the repayment of the Waldorf Astoria Loan, we recognized a loss of \$6 million from the derecognition of the related unamortized debt issuance costs. See Note 4: "Disposals" in our unaudited condensed consolidated financial statements for additional discussion.

Income tax expense for the three and nine months ended September 30, 2016 decreased as a result of the decrease in income before income taxes, as well as a decrease in our effective tax rate. Our effective tax rate for the nine months

ended September 30, 2016 decreased primarily as a result of a net reduction in our unrecognized tax benefits of \$155 million during the three months ended March 31, 2016. See Note 12: "Income Taxes" in our unaudited condensed consolidated financial statements for additional discussion.

Ownership

Ownership segment revenues decreased \$49 million and \$66 million for the three and nine months ended September 30, 2016, respectively, primarily as a result of decreases in owned and leased hotel revenues. The decrease in revenues at our owned and leased hotels was primarily a result of the disposal of international hotels and foreign currency fluctuations, partially offset by the net acquisition of hotels in the U.S. Ownership Adjusted EBITDA decreased \$17 million and \$19 million for the three and nine months ended September 30, 2016, respectively, primarily as a result of the decrease in ownership segment revenues partially offset by decreases in owned and leased operating expenses of \$27 million and \$48 million, respectively. Refer to "—Revenues—Owned and leased hotels" and "—Operating Expenses—Owned and leased hotels" for further discussion of the changes in revenues and operating expenses at our owned and leased hotels.

Management and franchise

Management and franchise segment revenues increased \$32 million and \$87 million for the three and nine months ended September 30, 2016, respectively, primarily as a result of the net addition of hotels to our managed and franchised system, as well as increases in RevPAR at our comparable managed and franchised properties of 1.5 percent and 2.2 percent, respectively. Refer to "—Revenues—Management and franchise and other" for further discussion on the increases in revenues from our managed and franchised properties. Management and franchise Adjusted EBITDA increased as a result of the increases in management and franchise segment revenues.

Timeshare

Timeshare segment revenues increased \$24 million and \$46 million for the three and nine months ended September 30, 2016, respectively, primarily as a result of increased timeshare sales revenue due to increases in commissions recognized from the sale of third-party developed intervals of \$11 million and \$16 million, respectively, as well as increases in revenue from the sale of owned timeshare intervals of \$6 million and \$5 million, respectively, due to increases in sales volume. Additionally, revenues from our resort operations increased for the three and nine months ended September 30, 2016 as a result of increases in fees earned related to our Hilton Grand Vacations Club, including fees generated by new members. Timeshare Adjusted EBITDA decreased \$14 million for the three months ended September 30, 2016 as a result of the increase in timeshare operating expenses of \$38 million, partially offset by the increase in timeshare revenue of \$24 million. For the nine months ended September 30, 2016, our timeshare Adjusted EBITDA increased \$19 million primarily as a result of the increase in timeshare revenues of \$46 million, partially offset by the increase in timeshare operating expenses of \$24 million. Refer to "—Revenues—Timeshare" and "—Operating Expenses—Timeshare" for a discussion of the changes in revenues and operating expenses from our timeshare segment.

Supplemental Financial Data for Unrestricted U.S. Real Estate Subsidiaries

As of September 30, 2016, we owned a majority or controlling financial interest in 57 hotels, representing 29,096 rooms. Of these owned hotels, 36 hotels, representing an aggregate of 23,568 rooms as of September 30, 2016, were owned by subsidiaries that we collectively refer to as our "Unrestricted U.S. Real Estate Subsidiaries." Certain properties held by our Unrestricted U.S. Real Estate Subsidiaries secure either our CMBS Loan or one of our mortgage loans with outstanding balances of \$2,427 million and \$488 million as of September 30, 2016, respectively, and are not included in the collateral securing the Senior Secured Credit Facility. In addition, the Unrestricted U.S. Real Estate Subsidiaries are not subject to any of the restrictive covenants in the indentures that govern the Senior Notes, which are unsecured.

We have included this supplemental financial data to comply with certain financial information requirements regarding our Unrestricted U.S. Real Estate Subsidiaries set forth in the indentures that govern our Senior Notes. For the nine months ended September 30, 2016, the Unrestricted U.S. Real Estate Subsidiaries represented 19.7 percent of our total revenues, 15.6 percent of net income attributable to Hilton stockholders and 23.9 percent of our Adjusted EBITDA, and as of September 30, 2016, represented 35.3 percent of our total assets and 28.8 percent of our total liabilities.

The following tables present supplemental unaudited financial data, as required by the indentures that govern our Senior Notes, for our Unrestricted U.S. Real Estate Subsidiaries:

Liquidity and Capital Resources

Overview

As of September 30, 2016, we had total cash and cash equivalents of \$1,131 million, including \$272 million of restricted cash and cash equivalents. The majority of our restricted cash and cash equivalents balance related to cash collateral on our self-insurance programs, escrowed cash from our timeshare operations and cash restricted in accordance with our long-term debt and timeshare debt agreements.

Our known short-term liquidity requirements primarily consist of funds necessary to pay for operating expenses and other expenditures, including corporate expenses, payroll and related benefits, legal costs, operating costs associated with the management of hotels, interest and scheduled principal payments on our outstanding indebtedness, costs associated with the spin-offs, contract acquisition costs and capital expenditures for renovations and maintenance at our owned and leased hotels. Our long-term liquidity requirements primarily consist of funds necessary to pay for scheduled debt maturities, capital improvements at our owned and leased hotels, purchase commitments, dividends as declared, costs associated with potential acquisitions and corporate capital expenditures.

We finance our business activities primarily with existing cash and cash generated from our operations. We believe that this cash will be adequate to meet anticipated requirements for operating expenses and other expenditures, including corporate expenses, payroll and related benefits, legal costs and purchase commitments for the foreseeable future. The objectives of our cash management policy are to maintain the availability of liquidity and minimize operational costs. Further, we have an investment policy that is focused on the preservation of capital and maximizing the return on new and existing investments and returning available capital to stockholders.

We and our affiliates, and/or our major stockholders and their respective affiliates, may from time to time purchase our outstanding debt through open market purchases, privately negotiated transactions or otherwise. Purchases or retirement of debt, if any, will depend on prevailing market conditions, liquidity requirements, contractual restrictions and other factors. The amounts involved may be material.

In preparation of the spin-offs, we completed several financing transactions during the three months ended September 30, 2016 and in October 2016. For further information on these transactions, see Note 9: "Debt" and Note 20: "Subsequent Events," respectively, in our unaudited condensed consolidated financial statements.

In September 2016, we paid a quarterly cash dividend of \$0.07 per share on shares of our common stock, for a total of \$69 million, bringing total cash dividends in 2016 to \$207 million. In October 2016, we declared a quarterly cash dividend of \$0.07 per share on shares of our common stock to be paid on or before December 2, 2016 to stockholders of record of our common stock as of the close of business on November 10, 2016.

Sources and Uses Of Our Cash and Cash Equivalents

The following table summarizes our net cash flows and key metrics related to our liquidity:

	As of and for the		Percent

Net cash used in financing activities	(361)	(1,427)	(74.7)
Working capital surplus ⁽²⁾	426	111	NM ⁽¹⁾

⁽¹⁾ Fluctuation in terms of percentage change is not meaningful.

⁽²⁾ Total current assets less total current liabilities.

Our ratio of current assets to current liabilities was 1.16 and 1.06 as of September 30, 2016 and December 31, 2015, respectively.

Operating Activities

Cash flow from operating activities is primarily generated from management and franchise fee revenue, operating income from our owned and leased hotels and sales of timeshare units.

The \$55 million decrease in net cash provided by operating activities was primarily as a result of an increase in net cash paid for taxes of \$117 million and cash paid for interest of \$12 million, partially offset by improved operating

results, mainly in our management and franchise business.

Investing Activities

For the nine months ended September 30, 2016, net cash used in investing activities was \$332 million, and consisted primarily of capital expenditures for property and equipment and capitalized software costs. Our capital expenditures for property and equipment primarily consisted of expenditures related to the renovation of existing owned and leased hotels and our corporate facilities. Our capitalized software costs related to various systems initiatives for the benefit of our hotel owners and our overall corporate operations.

During the nine months ended September 30, 2015, we generated \$515 million in cash from investing activities primarily as a result of net proceeds from the tax deferred exchange of the Waldorf Astoria New York and the sale of the Hilton Sydney

of \$456 million and \$331 million, respectively; see Note 3: "Acquisitions" and Note 4: "Disposals" in our unaudited condensed consolidated financial statements. This amount was partially offset by \$279 million in capital expenditures, including contract acquisition costs and capitalized software costs.

Financing Activities

The \$1,066 million decrease in net cash used in financing activities was primarily attributable to an increase in proceeds from borrowings of \$965 million and a decrease in repayments of debt of \$248 million, partially offset by an increase in cash dividends of \$138 million. The increase in proceeds from borrowings was primarily due to the issuance of \$1.0 billion of the 2024 Senior Notes in August 2016. During the nine months ended September 30, 2016, we made prepayments of \$991 million on our CMBS Loan and no prepayments on our Term Loans, while during the nine months ended September 30, 2015 we made \$675 million of voluntary prepayments on our Term Loans and repaid the \$525 million Waldorf Astoria New York Loan.

Credit Facilities

Our Revolving Credit Facility provides for \$1.0 billion in borrowings, including the ability to draw up to \$150 million in the form of letters of credit. As of September 30, 2016, we had \$45 million of letters of credit outstanding under our Revolving Credit Facility, and a borrowing capacity of \$955 million. We are currently required to pay a commitment fee of 0.125 percent per annum on the amount of our unused commitments.

In August 2016, we amended the terms of our Timeshare Facility to increase the borrowing capacity from \$300 million to \$450 million, allowing us to borrow up to the maximum amount until August 2018 and requiring all amounts borrowed to be repaid by August 2019.

Debt

As of September 30, 2016, our total indebtedness, excluding \$225 million of our share of debt of our investments in affiliates, was approximately \$10.4 billion, including \$417 million of timeshare debt. For further information on our total indebtedness and our recent financing transactions, refer to Note 9: "Debt" in our unaudited condensed consolidated financial statements.

The obligations of the Senior Secured Credit Facility are unconditionally and irrevocably guaranteed by us and all of our direct or indirect wholly owned material domestic subsidiaries, excluding our subsidiaries that are prohibited from providing guarantees as a result of the agreements governing our timeshare debt, our CMBS Loan and other mortgage loans. Additionally, none of our foreign subsidiaries or our non-wholly owned domestic subsidiaries guarantee the Senior Secured Credit Facility.

If we are unable to generate sufficient cash flow from operations in the future to service our debt, we may be required to reduce capital expenditures, issue additional equity securities or draw on our Revolving Credit Facility. Our ability to make scheduled principal payments and to pay interest on our debt depends on our future operating performance, which is subject to general conditions in or affecting the hotel and timeshare industries that are beyond our control.

Off-Balance Sheet Arrangements

See Note 18: "Commitments and Contingencies" in our unaudited condensed consolidated financial statements for a discussion of our off-balance sheet arrangements.

Critical Accounting Policies and Estimates

The preparation of our unaudited condensed consolidated financial statements in accordance with U.S. GAAP requires us to make estimates and assumptions that affect reported amounts and related disclosures. We have discussed those policies and estimates that we believe are critical and require the use of complex judgment in their application in our Annual Report on Form 10-K for the fiscal year ended December 31, 2015. Since the date of our Annual Report on Form 10-K, there have been no material changes to our critical accounting policies or the methods or assumptions we apply under them.

Item 3. Quantitative and Qualitative Disclosures About Market Risk

We are exposed to market risk primarily from changes in interest rates and foreign currency exchange rates, which may affect future income, cash flows and the fair value of the Company, depending on changes to interest rates and/or foreign exchange rates. In certain situations, we may seek to reduce cash flow volatility associated with changes in interest rates and foreign currency exchange rates by entering into financial arrangements intended to provide a hedge against a portion of the risks associated with such volatility. We continue to have exposure to such risks to the extent they are not hedged. We enter into derivative financial arrangements to the extent they meet the objective described above, and we do not use derivatives for trading or speculative purposes. See Note 10: "Derivative Instruments and Hedging Activities" in our unaudited condensed consolidated financial statements for additional discussion. Our exposure to market risk has not materially changed from what we previously disclosed in our Annual Report on Form 10-K for the fiscal year ended December 31, 2015.

Item 4. Controls and Procedures

Disclosure Controls and Procedures

The Company maintains a set of disclosure controls and procedures as that term is defined in Rules 13a-15(e) and 15d-15(e) under the Securities Exchange Act of 1934, as amended (the "Exchange Act"), that are designed to ensure that information required to be disclosed by the Company in reports that it files or submits under the Exchange Act, is recorded, processed, summarized and reported within the time periods specified in SEC rules and forms, and that such information is accumulated and communicated to the Company's management, including its Chief Executive Officer and Chief Financial Officer, as appropriate, to allow timely decisions regarding required disclosures. The design of any disclosure controls and procedures is based in part upon certain assumptions about the likelihood of future events, and there can be no assurance that any design will succeed in achieving its stated goals under all potential future conditions. Any controls and procedures, no matter how well designed and operated, can provide only reasonable, not absolute, assurance of achieving the desired control objectives. In accordance with Rule 13a-15(b) of the Exchange Act, as of the end of the period covered by this Quarterly Report on Form 10-Q, an evaluation was carried out under the supervision and with the participation of the Company's management, including its Chief Executive Officer and Chief Financial Officer, of the effectiveness of its disclosure controls and procedures. Based on that evaluation, the Company's Chief Executive Officer and Chief Financial Officer concluded that the Company's disclosure controls and procedures, as of the end of the period covered by this Quarterly Report on Form 10-Q, were effective to provide reasonable assurance that information required to be disclosed by the Company in reports that it files or submits under the Exchange Act is recorded, processed, summarized and reported within the time periods specified in SEC rules and forms and is accumulated and communicated to the Company's management, including the Chief Executive Officer and Chief Financial Officer, as appropriate to allow timely decisions regarding required disclosure.

Changes in Internal Control

There has been no change in the Company's internal control over financial reporting during the Company's most recent fiscal quarter that has materially affected, or is reasonably likely to materially affect, the Company's internal control over financial reporting.

PART II. OTHER INFORMATION

Item 1. Legal Proceedings

We are involved in various claims and lawsuits arising in the normal course of business, some of which include claims for substantial sums, including proceedings involving tort and other general liability claims, employee claims, consumer protection claims and claims related to our management of certain hotel properties. The ultimate results of claims and litigation cannot be predicted with certainty. We currently believe that the ultimate outcome of such lawsuits and proceedings will not, individually or in the aggregate, have a material adverse effect on our consolidated financial position, results of operations or liquidity. However, depending on the amount and timing, an unfavorable resolution of some or all of these matters could materially affect our future results of operations in a particular period.

Item 1A. Risk Factors

As of September 30, 2016, there have been no material changes from the risk factors previously disclosed in response to "Part I—Item 1A. Risk Factors" of our Annual Report on Form 10-K for the fiscal year ended December 31, 2015.

Item 2. Unregistered Sales of Equity Securities and Use of Proceeds

None.

Item 3. Defaults Upon Senior Securities

None.

Item 4. Mine Safety Disclosures

Not applicable.

Item 5. Other Information

Hilton Hawaiian Village CMBS Loan

On October 24, 2016, Hilton Hawaiian Village LLC (the "HHV CMBS Borrower"), our wholly owned subsidiary, entered into a \$1,275 million commercial mortgage-backed securities loan (the "HHV CMBS Loan") with JPMorgan Chase Bank, National Association, Deutsche Bank, AG, New York Branch, Goldman Sachs Mortgage Company, Barclays Bank PLC and Morgan Stanley Bank, N.A. The HHV CMBS Loan is secured by the Hilton Hawaiian Village.

The HHV CMBS Borrower and the HHV CMBS Loan guarantor (as defined below) are "unrestricted subsidiaries" for purposes of the debt agreements governing our senior secured credit facilities and senior notes and, upon consummation of our planned spin-offs, will be subsidiaries of Park.

We applied a portion of the proceeds from the HHV CMBS Loan to repay the portion of our existing CMBS Loan that was secured by the Hilton Hawaiian Village and intend to use the remaining net proceeds to prepay additional amounts outstanding under the existing CMBS Loan.

Term

The HHV CMBS Loan has a term of 10 years.

Interest and Fees

The HHV CMBS Loan bears interest at a fixed rate per annum of 4.1995%.

Amortization

The HHV CMBS Loan has no amortization payments.

Prepayments

From and after the date which is 30 months after the first interest payment date (or earlier in certain circumstances), the HHV CMBS Borrower will be able to prepay the HHV CMBS Loan in full, or, in connection with a partial property release, in part, in each case, subject to payment of: (i) a yield maintenance premium in the case of any prepayment made prior to the interest payment date that is six months prior to the inactivity date of the HHV CMBS Loan; (ii) the payment of all interest scheduled to accrue through the end of the applicable interest period in which prepayment is made; and (iii) all other sums then due and payable under the loan agreement, including the lenders' reasonable, actual out-of-pocket costs and expenses in connection with such prepayment.

Mandatory prepayments will be required in connection with certain casualties or condemnations of a property. Once repaid, no further borrowings will be permitted under the HHV CMBS Loan.

Guarantee

Certain obligations of the HHV CMBS Borrower with respect to the HHV CMBS Loan are guaranteed by Park Intermediate Holdings LLC (the "HHV CMBS Loan guarantor"). Under the HHV CMBS guarantee, (i) the HHV CMBS Loan guarantor has agreed to indemnify the lenders for losses with respect to (x) customary "bad-boy" acts of the HHV CMBS Borrower and its affiliates and (y) certain events relating to the Employee Retirement Income Security Act of 1974, and (ii) the HHV CMBS Loan will become fully recourse to the HHV CMBS Loan guarantor upon a voluntary or collusive involuntary bankruptcy of the HHV CMBS Borrower or the appointment of a custodian, receiver, trustee or examiner for the HHV CMBS Borrower if consented to by the HHV CMBS Borrower.

Notwithstanding the foregoing, the aggregate liability of the HHV CMBS Loan guarantor as a result of clause (ii) above will be capped at 10% of the then outstanding principal balance of the HHV CMBS Loan. The HHV CMBS Loan guarantor has also executed a guaranty agreement pursuant to which it will guarantee payment of the deductible with respect to flood, windstorm and earthquake insurance coverages to the extent such deductible exceeds the base deductible that would otherwise be permitted by the loan documents. At its election, the HHV CMBS Borrower may also, in lieu of the purchase of additional terrorism insurance, add an additional guaranteed matter with respect to any losses to the lenders arising from a terrorism event in excess of the applicable policy payment.

Covenants and Other Matters

The HHV CMBS Loan includes certain customary affirmative and negative covenants and events of default. Such covenants, among other things, will restrict, subject to certain exceptions, the ability of the HHV CMBS Borrower to, among other things: incur additional debt; create liens on assets; transfer, pledge or assign certain equity interests; pay any dividends or make any distributions to its direct or indirect owners if an event of default exists or if the debt yield under the HHV CMBS Loan (calculated based on the outstanding balance of the HHV CMBS Loan) is below 7.00% for two consecutive quarters; make certain investments, loans and advances; consolidate, merge, sell or otherwise dispose of all or any part of its assets or to purchase, lease or otherwise acquire all or any substantial part of assets of any other person; enter into certain transactions with affiliates; engage in any business other than the ownership of the properties and business activities ancillary thereto; and amend or modify the HHV CMBS Borrower's articles of organization, limited liability company agreement and certain agreements. The HHV CMBS Loan also includes affirmative covenants requiring the HHV CMBS Borrower to, among other things, exist as a "special purpose entity," maintain, while a low debt yield trigger exists, certain reserve funds in respect of furniture, fixtures and equipment, taxes and insurance (unless such amounts have been paid or are being collected by the property manager), and comply with other customary obligations for commercial mortgage-backed securities loan financings.

In addition, revenues will be required to be deposited into segregated accounts, to be used by the property manager to make certain payments relating to the Hilton Hawaiian Village. So long as there is no event of default under the loan and the debt yield for the HHV CMBS Loan (calculated based on the outstanding principal balance of the HHV CMBS Loan) does not fall below 7.00% for two consecutive quarters, then all cash in that account (after payment of property expenses and reserves) would be available to the HHV CMBS Borrower for any purpose, including for the payment of dividends or distributions to its direct or indirect owners.

Section 13(r) Disclosure
