Audit Committee

The Audit Committee consists of Michael A. Eck, who serves as the Chair, Amy Schulman and Frances Frei. The Board has determined that Michael A. Eck, Amy Schulman and Frances Frei qualify as independent directors under our Corporate Governance Principles, NASDAQ corporate governance standards applicable to boards of directors in general and audit committees in particular and the independence requirements of Rule 10A-3 of the Exchange Act. Our Board of Directors has also determined that Michael A. Eck qualifies as an "audit committee financial expert" as such term is defined in Item 407(d)(5) of Regulation S-K.

The purpose of the Audit Committee, which has been established in accordance with Section 3(a)(58)(A) of the Exchange Act, is to assist the Board of Directors in fulfilling its obligations regarding the accounting, auditing, financial reporting, internal control over financial reporting and legal compliance functions of the Company and its subsidiaries. The Audit Committee's principal functions include assisting the Board of Directors in its oversight of the:

- accounting, financial reporting and disclosure processes and adequacy of systems of disclosure and internal control established by management;
- the audit of, and the quality and integrity of our financial statements;
- our independent registered public accounting firm's qualifications and independence;
- the performance of our internal audit function and independent registered public accounting firm;
- overall risk management profile; and
- our compliance with legal and regulatory requirements.

The Audit Committee meets from time to time in separate executive sessions with each of the representatives of KPMG, the Company's independent registered public accounting firm, the Chief Financial Officer, and Internal Audit management.

The Audit Committee reviews the Company's Code of Ethics and Business Conduct (the "Code") periodically, as well as the adequacy of the policies included in the Code. The Audit Committee confirms with the Company's executive officers periodically that the officers understand and are implementing those policies. The Audit Committee monitors compliance with the Code, investigates any alleged breach or violation of the Code, and enforces the Code.

Compensation Committee

The Compensation Committee consists of Frances Frei, Philippe Amouyal and Evren Bilmer, who serves as the Chair.

The purpose of the Compensation Committee is to discharge certain responsibilities of the Board of Directors relating to compensation for the Company's Chief Executive Officer, executive officers and certain key personnel, and to ensure that management's interests are aligned with the interests of the stockholders of the Company. The Compensation Committee is also responsible for determining compensation for non-employee directors. The Committee's principal functions include:

- setting our compensation program and compensation of our executive officers, directors and key personnel;
- monitoring our incentive-compensation and equity-based compensation plans;
- succession planning for our executive officers, directors and key personnel; and
- preparing the compensation committee report required to be included in our proxy statement under the rules and regulations of the SEC.

The charter of the Compensation Committee permits the Committee to delegate any or all of its authority to one or more subcommittees.

Ms. Frei has been determined to be independent as defined by our Corporate Governance Principles and NASDAQ corporate governance standards applicable to boards of directors in general and compensation committees in particular. Our Board has made no affirmative determination with respect to the independence of the other members of the Compensation Committee, Mr. Amouyal and Mr. Bilmer.

Controlled Company Exemption

Affiliates of Invus and The Bishop Family Limited Partnership collectively own more than 50% of the voting power of our shares eligible to vote in the election of directors and for purposes of Schedule 13G are acting as a "group" because they are parties to the Amended and Restated Investor Rights Agreement, dated January 21, 2015. As a result, we are a "controlled company" as set forth in Rule 5615 of the NASDAQ Listing Rules. Under these corporate

governance standards, a company of which more than 50% of the voting power is held by an individual, group or another company is a "controlled company" and may elect to utilize exemptions from certain corporate governance standards, including the requirement (1) that a majority of the Board of Directors consist of independent directors, (2) to have a compensation committee that is composed entirely of independent directors with a written charter addressing the committee's purpose and responsibilities and (3) that our director nominations be made, or recommended to the full Board of Directors, by our independent directors or by a nominations committee that is composed entirely of independent directors and that we adopt a written charter or board resolution addressing the nominations process. We currently are utilizing these exemptions and expect to continue to do so. In the event that we cease to be a "controlled company" and our shares continue to be listed on NASDAQ, we will be required to comply with these provisions within the applicable transition periods.

#### Code of Ethics and Business Conduct

We have adopted a Code of Ethics and Business Conduct that applies to all of our directors, officers and employees, including our principal executive officer and principal financial and accounting officer. Our Code of Ethics and Business Conduct is available on our website at <http://ir.bluebuffalo.com> under Corporate Governance: Code of Ethics. Our Code of Ethics and Business Conduct is a "code of ethics," as defined in Item 406(b) of Regulation S-K. We will make any legally required disclosures regarding amendments to, or waivers of, provisions of our Code of Ethics and Business Conduct on our website.

#### Director Independence

Under our Corporate Governance Principles and the NASDAQ Listing Rules, a director is not independent unless the Board affirmatively determines that he or she does not have a direct or indirect material relationship with us, which in the opinion of the Board, would interfere with the exercise of independent judgment in carrying out the responsibilities of a director.

Our Corporate Governance Principles define independence in accordance with the independence standards in the current NASDAQ corporate governance rules for listed companies. Our Corporate Governance Principles require the Board to review the independence of all directors at least annually, subject to an election by the Company to rely on the exemption for controlled companies and the applicable transition periods under the applicable NASDAQ Listing Rules.

In the event a director has a relationship with the Company that is relevant to his or her independence and is not addressed by the objective tests set forth in the NASDAQ independence definition, the Board will consider the issue not merely from the standpoint of the director, but also from that of persons or organizations with which the director has an affiliation and determine, considering all relevant facts and circumstances, whether such relationship is material.

Our Board has affirmatively determined that each of Mr. Eck, Ms. Frei and Ms. Schulman is independent under the guidelines for director independence set forth in the Corporate Governance Principles and under all applicable NASDAQ guidelines, including with respect to committee membership. Our Board has made no affirmative determination with respect to the independence of Messrs. Bill Bishop, Debbane, Amouyal, Bilimer, Guimaraes and Billy Bishop with respect to board or committee membership.

In making its independence determinations, the Board considered and reviewed all information known to it (including information identified through annual directors' questionnaires).

ITEM 11. EXECUTIVE COMPENSATION  
COMPENSATION DISCUSSION AND ANALYSIS

Overview

This Compensation Discussion & Analysis ("CD&A") is intended to provide our stockholders with a complete understanding of the compensation programs in place for our named executive officers ("NEOs") for 2017 as well as insights into why the programs support the Company's strategy and objectives and ultimately provide for strong alignment with our stockholders. The Executive Summary is intended to provide an overview of the elements of our compensation program that we believe are of the most interest to our stockholders, while the full CD&A provides further details on our programs and practices. Our NEOs for fiscal 2017 were:

• Billy Bishop, our Chief Executive Officer and President; and  
• Mike Nathenson, our Executive Vice President, Chief Financial Officer and Treasurer.

The Executive Summary to our CD&A highlights the following:

• Executive compensation philosophy;

• Material elements of our compensation program; and

• Pay for performance alignment.

The remainder of the CD&A provides more detail on specific information concerning compensation, including:

• Mix of salary, cash incentive compensation and long-term incentive compensation;

• Weighting of performance measures used to determine compensation;

• Reasons for selecting particular companies as peers for benchmarking compensation;

• Discussion of our stock ownership guidelines; and

• Description of our other compensation related practices, including change in control benefits.

Executive Summary

Compensation Philosophy and Objectives

Our strong performance-oriented culture is built on the goal of delivering high-quality, natural pet foods and pet products. This is only possible with the exceptional talent and dedication of our entire team (the "Herd").

Compensation plays an important part in reinforcing our strong culture and the need to deliver exceptional performance that benefits our stockholders. To that end, we have structured our compensation programs with an underlying philosophy that supports the following objectives for our NEOs and our management team more broadly:

• Attracts, motivates, retains and rewards superior executive talent as we continue to execute our growth initiatives;

• Delivers a significant portion of compensation in vehicles that are "at risk" such that less compensation is earned if we do not meet our goals and more is earned if we exceed our goals;

• Aligns the interests of our executive officers and stockholders by rewarding executive officers for behaviors that drive stockholder value creation; and

• Encourages executives to take calculated risks that will drive our growth, but does not encourage excessive risk taking.

Compensation Program Highlights

The key components of our compensation programs are outlined below with a more detailed description later in the CD&A.

Compensation Component	Description	Objective
Base Salary	Ongoing fixed component of compensation	= Compensates executives for executing their responsibilities = Assists with recruiting and retaining talent
	Annual incentives reward our NEOs for performance against pre-established net sales growth and adjusted operating income margin goals, measured over a one-year period	= Drives and rewards for meeting and exceeding financial targets over a one-year time frame
Annual Incentive	Target opportunities are expressed as a percentage of base salary	= Reinforces key operating objectives that drive long-term value for stockholders = Focuses on overall corporate performance to support the "Herd" culture
	Payouts range from 0% to 200% of target, and are made in cash	
Equity Compensation	Restricted Stock Units cliff vest on the third anniversary of the grant date	= Rewards strong stock performance = Drives alignment with shareholders
	Stock options cliff vest on the third anniversary of the grant date	= Assists in retention
Stock ownership guidelines	NEOs are required to hold stock equal to a multiple of their salary (5x for our CEO and 3x for our CFO).	= Further aligns the interests of the executives and stockholders = Assists in mitigating incentives to take excessive risks
	Currently our NEOs are compliant with our stock ownership guidelines.	= Enhances stock ownership

The table below highlights our executive compensation practices. The left column outlines the practices we believe are conducive to encouraging sound performance by our executives and support a strong governance culture. The right column describes those practices that we have chosen not to implement because we believe they do not further align with stockholders' long-term interests.

What we do:

- ü Ensure our NEOs meet robust stock ownership guidelines
- ü Ensure performance-based compensation comprises a significant portion of executive compensation
- ü Provide for the ability to "clawback" awards granted under our 2015 stock incentive plan
- ü Have double trigger change in control vesting on our long-term incentive grants
- ü Use an independent compensation consultant, who works directly for the Compensation Committee and has no conflicts of interest, to advise the Committee
- ü Cap annual and long-term cash incentive payouts
- ü Offer limited perks  
Pay Positioning and Peer Group

What we don't do:

- û No guaranteed annual salary increases or annual bonuses, unless needed for recruitment purposes
- û No excise tax gross-ups for any executive severance agreements
- û No hedging or short selling company shares permitted under our Insider Trading Policy
- û No incentivizing short-term results to the detriment of long term goals and results
- û No compensation plans that encourage excessive risk taking
- û No repricing of underwater options without stockholder approval

We do not numerically benchmark the total target compensation of our NEOs or any discrete element of NEO compensation (salary, annual bonus and long-term incentive) against a peer group. However, we do review peer group data and use it as a reference point to understand compensation trends for executives who serve at similar levels. The peer group is comprised of consumer/brand companies of similar size that have similar macroeconomic characteristics, competitive dynamics and growth trajectories. Effective for 2017, our peer group included the following companies:

Amplify Snack Brands, Inc.	The Hain Celestial Group, Inc.
B&G Foods Inc.	J&J Snack Foods Corp.
The Boston Beer Company Inc.	Lancaster Colony Corporation
Calavo Growers Inc.	Prestige Brands, Holdings, Inc.
Cal-Maine Foods, Inc.	Snyder's-Lance, Inc.
Helen of Troy Limited	
Pay Mix	

We believe a majority of a senior executive's compensation should be performance-based and oriented toward long-term compensation.

The mix of base salary, annual bonus and long-term incentives for Billy Bishop is presented below.

Pay for Performance

We utilize compensation to further align the incentives of our executives with those of our stockholders, as we believe it is important to link pay with performance and long-term stockholder value. As such, executives should be incentivized through their compensation to create value for our stockholders. Accordingly, the total compensation earned by our executives depends on the achievement of Company performance targets. Our executives earn larger amounts when the Company achieves superior performance and smaller amounts if we do not achieve target performance.

2017 CEO Compensation

Effective January 1, 2017, the Board appointed Mr. Bishop to be CEO. Upon the recommendation of the Compensation Committee, the Board approved the following changes to Mr. Bishop's compensation: (1) an increase in base salary to \$600,000; (2) an increase to target annual incentive for 2017 to 150% of base salary; and (3) eligibility to receive an award pursuant to the Company's long-term equity incentive plan in 2017 with a target value equal to 150% of base salary.

	Pres. & COO (2016)	CEO & Pres. (effective 1/1/2017)
Base Salary	\$311,505	\$600,000
Target Annual Incentive (% of salary)	67%	150%
Long-Term Incentive Award (% of salary)	125%	150%

Base Salary

We provide base salary to our NEOs and other employees to compensate them for services rendered during the year. The base salaries of our NEOs are reviewed on an annual basis and adjustments are made to reflect performance-based factors, as well as competitive conditions. We do not apply specific formulas to determine increases. Generally, executive officers' base salaries are adjusted during the second quarter of each year.

The 2017 base salary for our CEO was set by the Board of Directors, upon the recommendations of the Compensation Committee, in executive session without the CEO present. The 2017 base salary for our CFO was set by our Compensation Committee based on the recommendation of our CEO. The base salary paid to Mr. Bishop represents an increase of approximately 93% over his base salary paid in 2016, due to Mr. Bishop assuming the role of Chief Executive Officer on January 1, 2017. Previously, Mr. Bishop had served as President and Chief Operating Officer. The base salary paid to Mr. Nathenson in 2017 represents an increase of approximately 3% over his base salary paid in 2016. Messrs. Bishop's and Nathenson's base salaries in 2017 were as follows:

Billy Bishop \$600,000  
 Mike Nathenson \$348,100

#### Annual Cash Incentive Compensation

Our annual cash incentive award is designed to reward our NEOs based on Company performance. Our Compensation Committee establishes a target award opportunity for each NEO on an annual basis, usually in the first quarter of each year. In February 2018, our Compensation Committee approved annual cash incentive awards payable under the fiscal 2017 annual incentive compensation plan.

Each NEO's target annual bonus is typically expressed as a percentage of base salary. For fiscal 2017, the NEOs' target bonus opportunities (as a percentage of each executive's base salary) were as follows: Mr. Bishop, 150% and Mr. Nathenson, 100%. The maximum bonus opportunity for each NEO was 200% of the target bonus opportunity. For fiscal 2017, annual cash incentive awards were based on achievement of a combination of net sales and adjusted operating income margin goals. Adjusted operating income margin excludes the effects of litigation expenses. The net sales component composed 70% of the total award opportunity, and the adjusted operating income margin component composed 30% of the total award opportunity. The following table outlines the financial performance targets for 2017:

(dollars in millions)	Net Sales (70%)	Adjusted Operating Income Margin (30%)	
		Net Sales	Adjusted Operating Income Margin
Threshold Performance	\$1,203	22.1	%
Target Performance	\$1,267	24.6	%
Maximum Performance	\$1,393	29.5	%

The actual fiscal 2017 annual cash incentive awards for the NEOs were determined by multiplying their respective target annual bonus amounts by the sum of (1) the net sales component weighted achievement factor (70% multiplied by the net sales payout percentage) and (2) the adjusted operating income margin component weighted achievement factor (30% multiplied by the adjusted operating income margin component payout percentage). The financial performance component payout percentages were determined by calculating our achievement against the net sales and adjusted operating income margin targets based on the pre-established scales set forth in the following tables:

	Threshold	Target	Maximum
Net Sales Performance Percentage of Target	95%	100%	110%
Net Sales Payout Percentage	50%	100%	200%
Adjusted Operating Income Margin Performance Percentage of Target	90%	100%	120%
Adjusted Operating Income Margin Payout Percentage	50%	100%	200%

For performance percentages between the specified threshold, target and maximum levels, the resulting payout percentage would have been adjusted on a linear basis.

Our fiscal 2017 net sales performance as a percentage of target net sales performance was 101%, which resulted in a payout percentage of 106% and a weighted achievement factor of 74%. Our fiscal 2017 adjusted

operating income performance as a percentage of target adjusted operating income performance was 97%, which resulted in a payout percentage of 87% and a weighted achievement factor of 26%. This resulted in a combined achievement factor of 100%.

The following table illustrates the calculation of the annual cash incentive awards payable to each of our NEOs under the fiscal 2017 annual incentive compensation plan based on the financial performance results. These awards are also reported under the Non-Equity Incentive Plan Compensation column of the Summary Compensation Table.

	December 31, 2017 Ending Salary	Bonus Target Percentage	Bonus Target Amount	Combined Achievement Factor	Actual Bonus Paid
Billy Bishop	\$ 600,000	150%	\$ 900,000	100 %	\$ 900,000
Mike Nathenson	\$ 348,100	100%	\$ 348,100	100 %	\$ 348,100

#### Long-term Equity Incentive Compensation

We use equity awards to incentivize and reward our executive officers for long-term corporate performance based on the value of our common stock and, thereby, to align the interests of our executive officers with those of our stockholders.

We currently have two long-term equity incentive plans: the 2012 Stock Purchase and Option Plan of Blue Buffalo Pet Products, Inc., or the 2012 Plan, and the Blue Buffalo Pet Products, Inc. 2015 Omnibus Incentive Plan, or the 2015 Plan. Pursuant to the 2012 Plan we have provided long-term equity compensation to Mr. Nathenson in the form of stock options.

In 2016 we implemented a new long-term equity incentive program consisting of stock options and restricted stock units for senior leaders, which were granted under the 2015 Omnibus Plan (the "2015 Plan"). We believe stock options inspire high growth and long-term mentality, while restricted stock units aid in retention.

In March 2017, in connection with our annual review of our compensation for executives, upon the recommendation of our Compensation Committee the Board of Directors determined to grant to each of our NEOs (1) options and (2) restricted stock units ("RSUs") based on a multiple of the NEO's base salary. Upon the recommendation of the Compensation Committee the Board of Directors determined these awards should be more heavily weighted towards options, with 67% of the total target value of the March 2017 equity award grants to our NEOs allocated to options and the remaining 33% allocated to RSUs. Both the options and the RSUs granted to our NEOs will vest in full on the third anniversary of the grant date, subject to continued employment through the applicable vesting date.

For fiscal 2017 our NEOs were granted options and RSUs on March 31, 2017 in the following amounts:

	Stock Options	RSUs
Billy Bishop	86,142	12,913
Mike Nathenson	33,318	4,994

The values are set forth in the 2017 Grants of Plan-Based Awards Table.

### Long-term Cash Incentive Compensation

In 2015, the Compensation Committee approved a one-time long-term cash incentive program designed to reward our NEOs, along with other members of management, for long-term corporate performance based upon our adjusted net income growth in advance of the implementation of an annual long-term equity incentive program in 2016. Each NEO's target long-term cash incentive award is expressed as a percentage of base salary as of January 1, 2015, and were as follows: Mr. Bishop, 125% and Mr. Nathenson, 125%.

The long-term cash incentive awards were granted on January 1, 2015, and vested after 3 years in varying degrees based upon our adjusted net income compounded annual growth rate, or CAGR, at December 31, 2017, relative to our adjusted net income for fiscal 2014. Adjusted net income excludes the effects of public offering preparation costs, litigation expenses, and an unusual, non-recurring or one time item (provision for legal settlement).

In granting the long-term cash incentive awards, the Compensation Committee evaluated the difficulty of achieving CAGR targets and considers both the historic performance of the Company, and the CAGR targets established for the upcoming fiscal year. This evaluation was conducted with a view to driving stockholder value, paying our NEOs competitively, and rewarding superior financial performance. The Compensation Committee's intent was to set targets that are challenging but reasonably achievable. Potential payouts ranged from 0% for threshold performance to a maximum of 150% for above-target performance.

The long-term cash incentive awards were paid to Mssrs. Bishop and Nathenson on March 1, 2018. The table below summarizes the award, targets, and the actual amounts paid.

	January 1, 2015 Salary	LTI Target Percentage	LTI Target Amount	LTI Max Amount	LTI Payout Percentage	LTI Actual Paid Amount
Billy Bishop	\$272,950	125%	\$341,188	\$511,782	150 %	\$511,782
Mike Nathenson	\$321,360	125%	\$401,700	\$602,550	150 %	\$602,550

### Options Granted in Previous Fiscal Years

For fiscal 2016 our NEOs were granted options and RSUs on April 1, 2016 in the following amounts:

	Stock Options	RSUs
Billy Bishop	33,677	5,085
Mike Nathenson	36,207	5,467

There were no long-term equity incentive awards granted to our NEOs in fiscal 2014 and 2013 and in fiscal 2015 we granted the cash long-term incentive awards. In fiscal 2012, in connection with the commencement of his employment with us, Mr. Nathenson was granted incentive stock options under the 2012 Plan that were subject solely to time-based vesting restrictions, to vest in equal installments on the first five anniversaries of the grant

date. Because Mr. Nathenson has been employed continually with us through the applicable vesting dates, his options granted under the 2012 Plan fully vested in 2017.

In connection with the option grants, Mr. Nathenson became parties to the Investor Rights Agreement. See "Certain Relationships and Related-Party Transactions-Investor Rights Agreement." In addition, Mr. Nathenson also executed standard confidentiality, non-competition and proprietary rights agreements with the Company. These agreements subject Mr. Nathenson to restrictive covenants, including an indefinite covenant on confidentiality of information, and covenants related to non-competition, non-disparagement and non-solicitation of our employees, consultants and customers at all times during employment, and for one year after any termination of employment.

Any fully vested options will generally remain outstanding and exercisable for 90 days after termination of employment, although this period is extended to one year if the termination of employment is due to death, "permanent disability" or "retirement" (as such terms are defined in the incentive stock option agreement), and any fully vested options will immediately terminate if the named executive officer's employment is terminated by us for "cause" (as defined in the incentive stock option agreement). Any vested options that are not exercised within the applicable post-termination exercise window will terminate.

#### Compensation Risk Assessment

Our Compensation Committee, with assistance from Compensation Advisory Partners ("CAP"), reviewed our incentive compensation program to assess whether the program encourages risks that are reasonably likely to have a material adverse effect on Blue Buffalo. The Committee's review included an assessment of Blue Buffalo's broad-based incentive compensation plans in addition to the compensation program for our NEOs. Several factors that mitigate compensation risk were identified, including award caps, multiple performance metrics, multi-year vesting/performance periods, clawback provisions and stock ownership guidelines. Further, final decisions regarding our executive compensation policies and practices, as well as individual NEO compensation outcomes, are made by the Compensation Committee. Based on these findings, the Compensation Committee has determined that our incentive compensation program does not create risks that are reasonably likely to have a material adverse effect on us.

#### Hedging and Pledging

Our Amended and Restated Insider Trading Policy prohibits our directors, officers and employees from engaging in certain transactions involving our securities, including hedging and publicly traded options. The Amended and Restated Insider Trading Policy also prohibits our directors, officers and employees from holding any of our securities in a margin account or pledging any of our securities as collateral for a loan, unless pre-cleared by the board in the case of directors and senior officers and a committee of senior officers in the case of all other employees. None of our directors or executive officers have pledged any of our securities as collateral for a loan.

#### Clawback

The Compensation Committee, in its sole discretion, has the ability to cancel awards granted under the 2015 Plan and/or require the repayment of any gains realized on the vesting or exercise of such awards if the executive violates any restrictive covenant or agreement by which the executive is bound or otherwise has engaged in or engages in any other detrimental activity, including fraud. In addition, all awards granted under the 2015 Plan are subject to any clawback policy adopted by the Board or the Compensation Committee from time to time or any clawback provisions required by applicable law. Further, if the executive receives any amount in excess of the amount that the executive should have otherwise received under the terms of any award granted under the 2015 Plan for any reason (including, without limitation, by reason of a financial restatement, mistake in calculations or other administrative error), the executive will be required to repay any such excess amount to the Company. We plan to adopt a formal clawback policy that complies with regulations mandated under the Dodd-Frank Act when the applicable rules become effective.

#### Role of the Compensation Committee, Compensation Consultant and Management

The Compensation Committee retains an independent compensation consultant, CAP, to provide information, analyses and advice regarding executive and director compensation. CAP reports directly to the Compensation Committee and provides only executive compensation consulting. In December 2017, the Compensation Committee determined that CAP is independent from management and CAP's work had not raised any conflict of interest.

At the discretion of the Committee, CAP has provided the following services:

- Evaluated the competitive positioning of select executives' target total compensation relative to peers and survey data;
- Reviewed the peer group;
- Advised the Committee on performance measures, performance targets and payout leverage for the annual incentive plan;
- Advised the Committee on long-term incentive plan mix/vehicles, and the performance measures and payout leverage for the long-term cash incentive program;
- Assisted with the development of share ownership guidelines;
- Assisted the Compensation Committee with a risk assessment to determine whether any elements of our compensation programs encourage excessive risk taking;
- Assisted with the development of a director compensation program; and
- Assisted with the preparation of this CD&A.

At the direction of the Committee, our Chief Executive Officer makes recommendations for base salary and annual cash incentive compensation for our Chief Financial Officer. Our Chief Executive Officer does not participate in the determination of his own compensation.

#### Stock Ownership Guidelines

In order to align our interests with those of stockholders, we have adopted stock ownership guidelines that are applicable to our named executive officers. Each NEO must maintain ownership of a sufficient number of shares of Common Stock having a market value equal to the applicable multiple of their annual base salary:

Stock

Ownership

as Multiple

of Base

Salary

CEO 5x

CFO 3x

Shares that count towards the guideline include:

- Shares owned directly (regardless of how/when acquired);
- Shares owned indirectly (e.g., by a spouse, partnership, LLC, trust or other similar vehicle through which the Participant is deemed to be the beneficial owner of such shares of common stock);
- Vested restricted stock, restricted stock units or phantom stock; and
- Shares underlying "in-the-money" vested stock options under our incentive plans.

Compliance with these ownership guidelines will be measured on the last trading day of each calendar year, using each NEO's base salary then in effect and the closing price of our common stock on that day. As of the measurement date, December 29, 2017, both NEOs were compliant with these ownership guidelines.

#### Employment Agreements for NEOs

We do not have formal employment agreements with either of our NEOs. However, we typically enter into offer letters with our executive officers. In connection with the commencement of his employment in 2012, we entered into an offer letter with Mr. Nathenson setting forth his initial compensation and benefits. In addition, under the terms of the offer letter, Mr. Nathenson is entitled to change in control benefits. The change in control benefits to which Mr. Nathenson is entitled under the terms of his offer letter are described under "Potential Payments Upon Termination or Change in Control."

#### 401(k) Plan

We have established a tax-qualified Section 401(k) retirement savings plan, or the 401(k) Plan, for employees, including our NEOs, who satisfy certain eligibility requirements. The 401(k) Plan permits employee contributions up to statutory limits, of which we provide matching contributions of up to 4% of the employee's eligible compensation contributed to the 401(k) Plan, at a rate of 100% on the first 3% of the employee's eligible compensation contributed to the 401(k) Plan and 50% on the next 2% of the employee's eligible compensation contributed to the 401(k) Plan. Employees are 100% vested in matching Company contributions when such contributions are made. We may make non-elective contributions to employees. Employees become 20% vested in non-elective contributions per year of service up to 100% vested after five years of service.

#### Other Benefits and Perquisites

We offer minimal other benefits and perquisites to our NEOs. For fiscal year 2017, both of our NEOs were provided company-paid life insurance premiums and an auto allowance. For additional information regarding other benefits and perquisites, refer to the "Summary Compensation Table". The Compensation Committee in its discretion may revise, amend or add to such NEOs benefits and perquisites if it deems it advisable. We believe these benefits and perquisites are currently in line with those provided by comparable companies.

#### Tax and Accounting Considerations

Generally, to the extent that a recipient recognizes ordinary income, the company will be entitled to a corresponding deduction provided that, among other things, the income meets the test of reasonableness, is an ordinary and necessary business expense, is not an "excess parachute payment" within the meaning of Code Section 280G and, together with other compensation paid certain "covered employees," is below the \$1,000,000 deduction limitation imposed by IRC Section 162(m). Generally a "covered employee" is an executive who is or was a named executive officer beginning with the named executive officers listed in this proxy statement and future proxy statements. Compensation paid to a covered employee whether performance-based or not, will not be deductible to the extent such amounts exceed \$1 million in any one year, unless grandfathered under the Tax Cut and Jobs Act of 2017 (the Tax Act).

On December 22, 2017, the Congress enacted tax legislation commonly referred to as the Tax Cuts and Jobs Act. Among other things, the Tax Act substantially amended IRC Section 162(m) of the Internal Revenue Code. IRC 162(m) imposes a \$1 million cap on the company's tax deduction on compensation paid to its highest five paid executives. Prior to 2018, qualified performance-based compensation meeting the process requirements of Section 162(m) was exempt from the \$1 million cap. The Tax Act repealed the qualified performance-based compensation exception under Section 162(m) effective for tax years beginning on or after January 1, 2018 and expanded the group of covered employees potentially subject to the \$1 million deductibility cap. The Tax Act grandfathered arrangements entered into on or before November 2, 2017.

As a result of the Tax Act changes to Section 162(m), we expect that equity awards or other compensation, whether or not performance based, granted or provided under arrangements entered into or modified after November 2, 2017 to any person who is or was one of the Company's five highest paid executives will not be deductible to the extent such amounts exceed \$1 million in any one year.

#### Compensation Actions in Connection with Proposed Merger

##### Treatment of Equity Awards under Merger Agreement

Under the Merger Agreement we entered into with GMI, at the effective time of the proposed Merger, each stock option of the Company, including the stock options held by our NEOs, whether vested or unvested, that is outstanding immediately prior to the Effective Time of the proposed Merger will automatically be canceled and will only entitle the holder of such stock option to receive, without interest, an amount in cash equal to the product of (i) the total number of shares of Common Stock subject to the stock option multiplied by (ii) the excess, if any, of the merger consideration (\$40.00) over the exercise price of such stock option, less applicable tax withholding. At the effective time of the proposed Merger, each restricted stock unit of the Company, including the restricted stock units held by our NEOs, outstanding immediately prior to the effective time of the proposed Merger will, whether vested or unvested, automatically be canceled and will only entitle the holder thereof to receive, without interest, an amount in cash equal to the product of (i) the total number of shares of common stock subject to the restricted stock unit multiplied by (ii) the merger consideration (\$40.00), less applicable tax withholding. Immediately prior to the effective time of the proposed Merger, the holding restrictions applicable to each share of restricted stock of the Company outstanding immediately prior to the effective time of the Merger will automatically expire and each such share of restricted stock will be converted into the right to receive the merger consideration.

##### 2018 Long-Term Incentive Awards

Under the Merger Agreement, we agreed to make our long-term incentive awards to our NEOs and others eligible to receive long-term incentive awards in 2018 in the form of cash rather than equity. Accordingly, we granted cash long-term incentive awards to Messrs. Bishop and Nathenson in the target amounts of \$975,000 and \$357,499, respectively. The actual amounts payable will be determined based on our achievement of net revenue (70% of the award) and adjusted operating income (30% of the award) targets and range from 50% for threshold performance to 100% for target performance to a maximum of 200% for above-target performance. Adjusted operating income excludes the effects of litigation expenses. These awards will become payable on the third anniversary of the date of grant subject to the NEO's continued employment through such date and our net revenue and adjusted operating income performance or, in the event that the NEO is terminated without cause (as defined in the 2015 Plan) prior to the first anniversary following a change in control, the NEO will be entitled to receive a pro-rata portion of his long-term incentive award, subject to our then-current net revenue and adjusted operating income performance.

**DIRECTOR COMPENSATION**

To ensure the compensation we offer is sufficient to recruit and retain highly qualified non-employee directors, our Compensation Committee, working with our independent compensation consultant, established a non-employee director compensation program that we believe reinforces our practice of encouraging stock ownership by our non-employee directors. In setting these competitive pay levels we do not numerically benchmark the total compensation of our directors or any discrete element of director compensation against a peer group. We do, however, review peer group data and use it as a reference point to understand director compensation trends. The peer group is comprised of the same companies that we use for NEO compensation and is described under the "Compensation Discussion and Analysis - Pay Positioning and Peer Group."

Our Chairman Bill Bishop receives an annual retainer of \$180,000, and each of our non-employee directors receives an annual retainer of \$60,000, paid on a quarterly basis in arrears. In addition, as our Chairman, Bill Bishop also receives a grant of our common stock valued at approximately \$220,000 and each of our non-employee directors receive a grant of our common stock valued at approximately \$85,000. Common stock is fully vested at grant, with a three year holding restriction. Our Audit Committee Chairman and Audit Committee members also receive an additional retainer of \$15,000 and \$7,500, respectively, paid on a quarterly basis in arrears. Our Compensation Committee Chairman and Compensation Committee members also receive an additional retainer of \$10,000 and \$5,000, respectively, paid on a quarterly basis in arrears.

All of our directors are reimbursed for their reasonable out-of-pocket expenses related to their service as a member of the Board of Directors or one of its committees.

Because of the proposed Merger, in 2018, we paid our directors an additional cash retainer in an amount equal to their annual equity awards rather than granting them equity awards in 2018.

The following table sets forth information concerning the compensation of our directors (other than directors who are named executive officers) for the year ended December 31, 2017.

Mike Nathenson	12/18/2012	803,300	\$ 5.60

**OPTION EXERCISES AND STOCK VESTED IN FISCAL YEAR 2017**

The following table provides information concerning our NEOs' exercises of stock options during the year ended December 31, 2017. The table reports, on an aggregate basis, the number of securities acquired upon exercise of stock options, and the dollar value realized upon exercise of stock options.

Name	Option Awards	
	Number of Shares Acquired on Exercise (#)	Value Realized on Exercise (\$)
Billy Bishop	—	\$ —
Mike Nathenson	187,072	\$ 3,666,767

a) Aggregate dollar amounts was calculated by multiplying the number of shares acquired by the difference between the market price of the underlying securities at the time of exercise and the exercise price of the stock options.

**2017 PENSION BENEFITS**

We have no pension benefits for our executive officers.

**2017 NON-QUALIFIED DEFERRED COMPENSATION**

We have no non-qualified defined contribution or other non-qualified compensation plans for our executive officers.

**POTENTIAL PAYMENTS UPON TERMINATION OR CHANGE IN CONTROL**

The following is a description of the specific circumstances relating to termination of employment and change in control (with "change in control" defined in our 2015 Plan) of the Company that will trigger payments to certain NEOs and a calculation of the estimated payments to those officers as a result of the occurrence of those events had they occurred on December 29, 2017, the last business day of the Company's 2017 fiscal year. "Change in control" is generally defined as (1) the acquisition (whether by purchase, merger, consolidation, combination or other similar transaction) of more than 50% (on a fully diluted basis) of either a) the then outstanding shares of common stock or b) the combined voting power of the then outstanding voting securities, (2) a change in the majority of the Board of Directors or (3) the sale, transfer or other disposition of all or substantially all of the Company's assets to any person that is not an affiliate of the Company.

**Billy Bishop**

We currently have no formal termination or change in control arrangements with Billy Bishop.

**Mike Nathenson**

Mr. Nathenson's offer letter provides that, solely in the event of his termination without "cause" or for "good reason" (as such terms are defined in Mr. Nathenson's offer letter) in connection with or within 12 months of a change in control, subject to his signing a standard release of claims, all his unvested options will immediately become fully vested and exercisable. In addition, all of his account balances in the Company's 401(k) plan, including any unvested balances from Company matches, will automatically and fully vest and the Company will reimburse him for the actual cost of COBRA coverage for up to the maximum period of time permitted by law.

For purposes of the table below, we have assumed that all unvested stock options have fully vested immediately prior to a change in control on December 29, 2017, the last business day of 2017 as December 31, 2017 fell on a Sunday, and that a termination without "cause" occurred immediately following a change in control on December 29, 2017. The estimated benefit amount of unvested options was calculated by multiplying the number of in-the-money unvested options held by the applicable named executive officer by the difference between the closing price of our common stock on December 29, 2017, as reported by NASDAQ, which was \$32.79, and the exercise price of the options, \$5.60.

There can be no assurance that a change in control would produce the same or similar results as those set forth below on any other date or at any other price.

	Billy	Mike
	Bishop	Nathenson
Option Value	\$	—\$1,890,385
COBRA costs	—	25,555
Total	\$	—\$1,915,940

#### CEO PAY RATIO

Item 402(u) of Regulation S-K requires that we disclose the ratio of annual total compensation of our Chief Executive Officer to that of the median of the annual total compensation of all our employees except the Chief Executive Officer (the "median employee"). We began the process of identifying our median employee by determining that we had 1,879 employees as of an October 1, 2017 determination date. As permitted by SEC rules, we excluded 91 employees in Japan (approximately 4.8% of our total employee population) from this employee population for purposes of determining our median employee.

To determine our median employee, we used "gross pay" for each employee obtained from our internal payroll records as a consistently applied compensation measure. "Gross pay" includes all compensation we paid to each employee, before withholding for taxes. We believe this consistently applied compensation measure reasonably reflects annual compensation across our employee base. We annualized gross pay for permanent employees who commenced work during fiscal 2017. Then we identified employees who we expected were paid within a +/- 1% range of the estimated gross pay median. From this group, we selected one of our part-time Pet Detectives whose compensation we felt was reasonably representative of the median compensation of all our employees except the Chief Executive Officer as our median employee and determined that this person's annual total compensation was \$10,270. We then calculated the ratio of our Chief Executive Officer's annual total compensation, \$2,939,005, as reported in the "Total" column of the Summary Compensation Table above, to that of this median employee. Based upon this methodology, we estimate that the ratio of CEO pay to median employee pay is 286:1.

Procedures for Related-Party Transactions

Our Board of Directors recognizes the fact that transactions with related persons present a heightened risk of conflicts of interests and/or improper valuation (or the perception thereof). Our Board of Directors has adopted a written policy on transactions with related persons that is in conformity with the requirements upon issuers having publicly-held common stock that is listed on NASDAQ.

Under the policy, a related party must promptly disclose to the General Counsel, or such other person designated by the Board of Directors, any related party transaction in which such related person had or will have a direct or indirect material interest and all material facts with respect thereto. The General Counsel, or such other person, will promptly communicate such information to the Board of Directors, as applicable.

Related party transactions where the amount involved is less than or equal to \$120,000 and that involve our executive officers (other than the Chief Financial Officer and the Chief Executive Officer) shall be reviewed and approved or ratified by the Chief Financial Officer. All other related party transactions, including any related party transaction where the amount involved exceeds \$120,000 or that involves the Chief Executive Officer, the Chief Financial Officer or any member of the Board of Directors, shall be reviewed and approved or ratified by the disinterested members of the Board of Directors or any Committee of the Board of Directors, provided that, in each case, a majority of the members of the Board of Directors or any Committee of the Board Directors, as applicable, are disinterested. The Chief Financial Officer shall review all related party transactions that he approves with the Audit Committee annually. We will disclose to the Audit Committee any employment of a related party by a customer or vendor of the Company.

In addition, the related person transaction policy provides that the approving body, in connection with any approval or ratification of a related person transaction involving a non-employee director or director nominee, should consider whether such transaction would compromise the director or director nominee's status as an "independent," "outside," or "non-employee" director, as applicable, under the rules and regulations of the SEC, NASDAQ and the Code.
